GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House, Simla, on Wednesday, the 31st May, 1882.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.

His Honour the Lieutenant-Governor of the Panjáb, K.C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.
Major-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble C. P. Ilbert, C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble C. H. T. Crosthwaite.
The Hon'ble W. C. Plowden.
The Hon'ble W. W. Hunter, LL.D., C.I.E.

PANJÁB UNIVERSITY BILL.

The Hon'ble MR. ILBERT, on behalf of the Hon'ble Mr. Gibbs, moved for leave to introduce a Bill to establish and incorporate the University of the Panjáb. He said:—

"As the principles of this Bill have been long under consideration, and as its provisions will have to be carefully considered in Select Committee, I think it will suffice if, on the present occasion, I state very shortly the circumstances which have led to its introduction and the main objects at which it aims.

"It appears that, in the year 1869, the Governor General in Council sanctioned the establishment at Lahore of an institution, which was at first styled the Lahore University College, but which subsequently took the name of the Panjáb University College. This sanction was stated to have been given in accordance with the recommendations of the Lieutenant-Governor, and in part fulfilment of the wishes of a large number of the chiefs, nobles and influential classes of the Panjáb. The special objects of the Lahore University College were stated in its original Statutes to be—

"'(1) to promote the diffusion of European science, *as far as possible*, through the medium of the vernacular languages of the Panjáb; and the improvement and extension of vernacular literature generally;

"'(2) to afford encouragement to the enlightened study of Eastern classical languages and literature; and

"'(3) to associate the learned and influential classes of the Province with the officers of Government in the promotion and supervision of popular education.'

"I am reading now from the *Panjáb Government Gazette* of the 23rd of December, 1869—

"'The above are the special objects of the institution; but at the same time every encouragement will be afforded to the study of the English language and literature, and in all subjects which cannot be completely taught in the vernacular, the English language will be regarded as the medium of examination and instruction.'

"The College was to have the power of conferring, after examination, certificates of proficiency in literature and science, but was not to be a University, and was not to have the power—and has not the power—of granting degrees of the same kind as those granted by the Universities of Calcutta, Bombay and Madras. However, expectations were held out by the Government that, if the institution met with due success, it might hereafter be raised to the status of a University.

"Well, the institution grew and prospered. It received, from time to time, very large sums of money from the nobles and influential classes of the Panjáb, and it has increased in numbers and in the efficiency of its education. Under these circumstances, the Government have come to the conclusion that the institution has attained that degree of success which would warrant effect being given to the expectations held out at the time of its establishment; and it is determined, in accordance with what appears to be the almost universal wish of those natives of the Panjáb who are interested in education, to constitute a University for the Panjáb. That is the object of the Bill which I am now asking leave to introduce.

"The Bill establishes the University, and confers upon it the powers of a body corporate. It provides for the transfer to the University of all the property at present held by or in trust for the University College. It deals with the constitution of the University, and provides that the Governor General, for the time being, shall stand to it in the relation either of a patron or visitor—the exact term is not yet settled; that there shall be a Chancellor, who is to be the Lieutenant-Governor of the Panjáb for the time being, a Vice-Chancellor and a body of Fellows. These Fellows are to be of three classes—first, the holders, for the time being, of certain offices, who are to be *ex officio* Fellows; secondly, persons appointed by the Chancellor as being eminent benefactors of the Panjáb University, original promoters of the movements in favour of the Panjáb University College, or persons distinguished for attainments in literature, science or art, or by zeal in the cause of education; and, thirdly, the representatives for the time being with the Government of the Panjáb of such independent Native Chiefs as the Lieutenant-Governor may, by notification in the Gazette, specify. The Schedule to the Bill contains a list of the persons who are to be deemed to be the first Fellows appointed under the Act. Then there are provisions as to the Senate and matters connected with it. There is a power given to the Senate to appoint and remove all examiners, officers and servants of the University. The Bill empowers the Senate to confer certain degrees; but it restricts the exercise of the power to confer the degrees of Bachelor of Laws, Licentiate of Medicine, Doctor of Medicine and Master of Civil Engineering until the Governor General has given his assent to the exercise of the power. Then there is a further temporary provision enabling the Senate to confer like degrees in the case of persons who may have passed during the month of May in this year such examinations of the Panjáb University College as may correspond to the degree examinations of the Panjáb University. Finally, there is a power to the Senate to levy fees, a power to confer honorary degrees in certain cases, and a power to make bye-laws generally in all matters regarding the University.

"This is an outline of the Bill which I ask leave to introduce."

The Motion was put and agreed to.

INDIAN PORTS ACT AMENDMENT BILL.

The Hon'ble MR. ILBERT also presented the Report of the Select Committee on the Bill to exempt certain vessels from the Indian Ports Act, 1875, section 38.

PETROLEUM BILL.

The Hon'ble MR. ILBERT also moved for leave to introduce a Bill to modify temporarily certain provisions of the Petroleum Act, 1881. He said:—

"This is a temporary and provisional measure, the object of which is to meet certain unexpected difficulties which have suddenly arisen in connection with the provisions of the Petroleum Act, VIII of 1881. That Act regulates the conveyance, transport and storage of petroleum and other inflammable oils, and it draws a distinction between two kinds of petroleum—one kind which is called 'dangerous petroleum,' and another kind which I may call 'ordinary petroleum.' Then petroleum is defined in the Act as including various kinds of liquids, such as rock-oil, Rangoon-oil, kerosine, and so on; but it does not include any oil used for lubricating purposes, and having its flashing point at or above 250° of Fahrenheit's thermometer. And then follows an explanation as to what is meant by the flashing point of petroleum. The

flashing point means 'the lowest temperature at which the petroleum yields a vapour which will furnish a momentary flash or flame when tested with the apparatus and in the manner described in the schedule' of the Act, and that schedule describes elaborately the test to be applied and the mode of applying it. Then comes the definition of 'dangerous petroleum.' It is defined as meaning 'petroleum having its flashing point below 73° of Fahrenheit's thermometer.'

"Now the difficulty which has arisen is this. It appears that communications received by the Government of India by telegraph within the last two or three weeks afford ground for apprehending that petroleum which, when tested in America and elsewhere in the manner prescribed by the Petroleum Act, 1881, flashes at a point above 73° Fahrenheit may, when tested in the same manner on its arrival here, flash at a point below 73° Fahrenheit, and consequently have to be placed under the restrictions to which 'dangerous petroleum' is subject. These restrictions are of course much more stringent than those which apply to 'ordinary petroleum.' It has been suggested that this is probably due, not to any want of care on the part of those applying the test in either country, but to the difference of climate. Steps have been taken with a view to having the matter fully inquired into; but as this will take some time, and as it is but fair that importers should in the meanwhile be relieved from the hardship to which they are exposed, it is proposed for the present to exclude from the class of dangerous petroleum all petroleum covered by a certificate granted at the place of export and of such a description that, in the opinion of the Governor General, it may be accepted as proving that the petroleum it refers to, if tested at the place of export according to our method, would be found to have a flashing point above 73° Fahrenheit.

"Well, the object of the Bill is to provide temporarily, if this should be found necessary, for the admission of petroleum of this particular kind under the direction of the Governor General, pending the prosecution of further experiments as to what is the best test to apply; and as the Bill is short, I will ask the Secretary to read it to the Council."

MR. FITZPATRICK, the Secretary, having read the Bill,

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also introduced the Bill. He said:—

"Perhaps I may take this opportunity of stating that the Bill is introduced to the Council at the special request of the Secretary of State. It may be necessary that it should become law within a short space of time; but I do not propose on the present occasion to apply for a suspension of the Rules of Business in order to carry the Bill through the Council now. The introduction of the Bill will place it at such a stage as will enable us to pass it into law at the earliest opportunity, should the necessity for doing so arise."

His Excellency THE PRESIDENT said:—"I think that the course which my hon'ble friend proposes to adopt is the correct one. Some representations in respect to this Bill have been made to the Government of India only quite recently—in the course of yesterday; and, although the Bill is introduced at the request of the Secretary of State, I think the circumstances are not such as to justify its being passed with the extreme rapidity which would result from the suspension of the Standing Orders of the Council. The introduction of the Bill will have brought it to such a stage as will admit of its passing, if necessary, at the next sitting of the Council. That I think will be sufficient to meet all the requirements of the case, and will give the public and the Government a somewhat longer time to consider the nature of the arrangements to be made under it."

The Hon'ble MR. ILBERT asked for leave to postpone the Motion that the Bill be taken into consideration, and the Motion that the Bill be passed.

Leave was granted.

The Council adjourned to Wednesday, the 7th June, 1882.

RESOLUTION.

The papers read in the preamble contain the replies furnished by the Local Governments to the requisition of the Government of India for statistics of sugar cultivation in the territories subordinate to them. The information thus received has been summarised in an appended statement, which exhibits the area under sugar in British India and Burma, with the average yield per acre, and the estimated value of the crop.

2. The area under sugarcane is returned at 1,922,283 acres. In addition to this, 168,262 acres are under the date palm, 14,100 acres under the palmyra palm, and 2,930 under the cocoa palm, all of which yield sugar.

3. A comparison of the returns now submitted with the figures given in an extract from the *Produce Markets Review*, to which the Secretary of State drew the attention of the Government of India in 1879, shows that in the latter the area under sugar cultivation in British India is somewhat understated. Excluding Bengal, and omitting the area under the date palm and other sugar-yielding trees, the returns furnished give 1,737,925 acres of sugarcane in British India against 1,603,383 acres shown in the *Produce Markets Review*. For

Bengal, however, the conjectural estimate of 1,400,000 acres, which that journal puts forward, is seven times in excess of the 184,258 acres at which the Government of Bengal returns the area under sugarcane. Nor is the assumption on which the estimate is based a correct one. The area of Bengal is, it is true, double that of the North-Western Provinces; but a large portion of the Province is unfitted for the production of the sugarcane, or is better fitted for the cultivation of rice, jute, and other valuable staples. The tabular statement furnished by the Local Government shows that in the great Province of Orissa less than 4,000 acres are under sugar, and in several other divisions the cultivation is equally limited. Nearly half the entire area of 184,258 acres appertains to the Patna Division, a tract which adjoins and which resembles in climatic and other conditions the North-Western Provinces.

5. No accurate statistics are available for the Native States of India; but the information before the Government of India is to the effect that very little sugarcane is grown in their territories. Rajputana and Central India are known to draw their supplies of sugar from the North-Western Provinces and the Punjab. In some parts of the Hyderabad State sugarcane is one of the staple crops, but the produce is probably not more than enough for the requirements of the population. For Mysore the returns furnished by the Chief Commissioner for 1878-79, when the Province was still under British administration, show an area of 12,694 acres under sugarcane and 29,093 acres under date palm.

6. The acreage returns for British India may be taken as approximately accurate, with the exception of those for Bengal. The absence of agricultural statistics for that Province of a reliable character has been frequently brought to notice, and is prominently mentioned in the Report of the Famine Commission. How this defect may best be remedied is a question into which His Excellency the Governor General in Council does not propose to enter into in this Resolution. It is, however, very probable that the sugar cultivation of Bengal is understated in the present returns. The estimate made by the* Famine Commissioners on the best available evidence was over one million acres, and though the data on which this estimate was framed are not given, the Commissioners had exceptional opportunities for arriving at a correct conclusion.

* Famine Commissioners' Report, Appendix I, page 40.

7. In regard to outturn less reliance is to be placed on the figures now submitted. They are avowedly estimates of average yield; and the yield depends so greatly, not only on soil and climate, but on the character and thoroughness of the cultivation, that any attempt to arrive at an average by any method short of actual appraisement of the gross outturn of a province must be open to distrust. The estimates furnished by the several Local Governments are of this imperfect nature. This partly explains the discrepancies which they exhibit. In the North-Western Provinces, where considerable attention has been paid to agricultural statistics, the estimated yield in the several districts is variously returned between 15 and 22 cwts. of sugar per acre: for the Punjab a single estimate of 19 cwts. 1 qr. is furnished. In Bengal the average, where estimated in molasses, varies from 6 cwts. to 32 cwts., and from 2 cwts. to 28 cwts. when computed in sugar. For the Bombay Presidency the average is given at 19 cwts. of sugar, though the district returns are as conflicting as those of Bengal. An average of 4½ cwts. per acre is given for the Central Provinces; but in all probability this is much below the mark. The figures supplied by the other provinces are of the same character; and they are in many cases accompanied by explanatory notes, which show that these statistics of produce should be accepted with caution. The notes attached to the Bombay returns are especially instructive, as they furnish strong evidence that the statistics of produce supplied by the village officers are much under the real truth. In the case of sugar cultivation, satisfactory estimates are exceptionally difficult to obtain, owing to the various ways in which the raw produce is disposed of. The usual process is to extract the juice by means of a simple stone or wooden mill. It is then boiled until it becomes crude or undrained sugar. If the process is carried further, the ultimate result is a small proportion of refined sugar and a large proportion of molasses. But the

greater portion of the sugar produced in India never goes beyond the unrefined stage; and in estimating the average produce it is usual to refer to sugar of this class. In some of the returns, however, where the estimate is extremely low, it is probable that the outturn in refined sugar is taken.

8. Imperfect as the information is, it is sufficient to establish the broad fact that an acre of sugar-land in India yields on an average considerably more than the 8 cwts. of unrefined sugar, at which the *Produce Markets Review* estimates the outturn. A careful memorandum has been prepared on the subject of sugar cultivation in Bengal by the firm of Messrs. Burrows, Thomson, Mylne and Company. This firm are large landowners in the district of Shahabad, and have devoted much care to improving the indigenous methods of sugar cultivation and manufacture. The Behea sugar-mill invented by them has undoubtedly proved a great success, and is gradually taking the place of the Native implement. In the memorandum alluded to $1\frac{1}{10}$ or $1\frac{1}{5}$ tons of crude sugar is stated to be the average yield of an acre of carefully cultivated land. This corresponds closely with the average of 22 cwts. given for many districts in the North-Western Provinces and Oudh, and the Government of India is inclined to think that it is as close an estimate as can be made. Though considerably less than the 2 or $2\frac{1}{2}$ tons which a sugar plantation in the West Indies is said to yield, it does not evidence such extreme inferiority in the sugarcane cultivation of this country as the *Produce Markets Review* would seem to imply. On the contrary, the cane is cultivated with considerable skill and great industry, and the profits are very considerable. Exceptional intelligence and capital are, however, engaged in the industry in the West Indian Colonies; and, apart from this, the climatic conditions of India are probably less favourable to the cane.

9. The mode of manufacture practised in India is sufficiently described in the note on the subject prepared by the Department of Agriculture in the North-Western Provinces, and in the memorandum of Messrs. Burrows, Thomson, Mylne and Company above alluded to. The Native methods of expressing the juice and manufacturing sugar are of extreme rudeness and simplicity, and in many respects inefficient and wasteful. Some improvement has, however, been effected in respect to sugar-mills; and the establishment of large sugar refineries in various parts of the country will gradually tend to better methods of manufacture. But the profits of the Native sugar-grower and manufacturer are large as it is; and crude Indian sugar, though unsaleable in the London market, finds a ready sale among the Native community. The price has risen rapidly within the last decade, as Messrs. Burrows, Thomson, Mylne and Company's memorandum shows; and in the markets of Northern India at the present date the wholesale price of undrained sugar or *gur* is Rs. $4\frac{1}{2}$ to Rs. 5 the cwt. In the returns for Bengal much higher prices than the above are shown against many districts; but in these cases, as already noticed, the produce has been returned in refined sugar, and the price of that description of sugar is given.

10. It is very difficult to arrive at the total annual production of sugar in British India. Accepting the returns of area under cane, and assuming the average yield to be somewhat under $1\frac{1}{10}$ tons of crude sugar the acre, the country has a gross production of about 2,000,000 tons. To this must be added the produce of 168,262 acres of palm trees, which may be set down at 150,000 tons. The foreign trade returns show that the supply is not equal to the demand. The quantity of Indian sugar exported to England, Ceylon, and elsewhere has considerably fallen off within the last five years, as the figures marginally noted, which give the value of the total sugar exports from Indian ports for the years 1876—81, will show. On the other hand, the sugar imports have risen from £403,556 in 1876-77 to £1,611,157 in 1880-81. The greater part of this sugar comes from Mauritius, and its consumption appears to be confined to the Bombay Presidency, where comparatively little cane is as yet grown.

	£
1876-77	925,196
1877-78	745,851
1878-79	204,360
1879-80	205,871
1880-81	311,750

11. The gross export of sugar in 1880-81 was 534,174 cwts., and the gross imports 986,321 cwts. The net import was therefore about 23,000 tons.

But as the export was confined to raw sugar, while the imports are refined sugars, the excess of the imports over the exports is greater than appears from these figures. In explanation of the dependence of India on other sugar-growing countries, it would appear that many parts of India are unfitted for the cultivation of the cane. The Bombay Presidency has to supply itself from Mauritius; and Rajputana and Central India consume the surplus produce of the North-Western Provinces and the Punjab. The increasing import and the decreasing export do not indicate the decadence of the industry in India. The area under cane has largely increasd in Upper India through the development of canal irrigation, and is reported to be extending from the same causes in Bombay. More sugar is produced in India than formerly; but the demand is much greater. Not only has the increasing prosperity of the people increased the average consumption, but sugar is now borne by rail into tracts where the cane is not cultivated, and which were formerly very scantily supplied. The profitableness of the industry is seen in the high price which the Indian cultivator can obtain for his produce; and all the evidence before the Government of India leads it to the belief that the capital invested in sugar cultivation in India is steadily increasing.

ORDER.—Ordered, that the Resolution read above be published in the Supplement to the *Gazette of India*.

APPENDIX I.

Abstract of statistics furnished in the paper read in the preamble.

APPENDIX II.

Sugar production in the North-Western Provinces and Oudh.

The area under sugarcane in the North-Western Provinces and Oudh, and the annual outturn of raw sugar.

The total area under sugarcane in the North-Western Provinces and Oudh amounts to about 1,067,000 acres, the average outturn from which is not above 25 maunds of undrained sugar (*gur* or *rab*) per acre, worth about Rs. 4-8 per maund. The total value of the annual produce is therefore about 12 crores of rupees. It is believed that this is less than half what might be obtained if the pressing out of the cane-juice and its boiling were conducted on the same principles as in the English colonies of Mauritius or the West India Islands. In proof of this belief, comparison may be made between a very careful estimate of the average outturn of sugar in the Shahjahanpur district and a very low estimate of the average outturn in West Indian and Mauritius plantations; and it must be noted that, since Shahjahanpur is one of the best sugar-producing districts in these provinces, the outturn given for it is considerably in excess of the average for the whole of the provinces, while it is believed that the figures shown for West India sugar production are considerably below the average. The comparison is therefore to the advantage of these provinces, yet it is noticeable how enormous is the loss of produce and money it points to.

The smallness of the outturn on the acreage as compared with that obtained in the West Indies and Mauritius.

Comparison between the East Indian and West Indian outturn.

2. The average outturn of sugar in the Shahjahanpur district was estimated by Mr. G. Butt, Settlement Officer, in the year 1872, as follows:—

The Shahjahanpur district taken as a type of the sugar-producing area in these provinces.

The outturn of dry sugar obtained in Shahjahanpur, and the proportion it bears to the cane-juice

		Per acre.		
		Percentage on—		
	Maunds.	Cane.	Juice.	Undrained Sugar (rab).
Cane	518	...	...	..
Juice	259	50	...	...
Undrained sugar (*rab*)	55	10·6	21·2	...
or Compost (*gur*)	50	9·6	19·2	...
Dry sugar (*khand*)	15	2·9	5·8	27·2
Molasses (*shira*)	33½	6·4	12·8	61·

compared with that obtained in the West Indies and Mauritius.

Now, leaving out of account the fact that the average produce of *cane* in Mauritius or the West Indies is nearer 810 maunds per acre than 518 maunds, and assuming the outturn of cane to be the same as that in Shahjahanpur, we have the following outturn of sugar obtained from the cane by European colonists:—

	Maunds.	Per acre. Percentage on— Cane.	Juice.
Cane	518	...	..
Juice	336	65 (*instead of* 50)	...
Dry sugar (answering to *khand*)	31	6 (*instead of* 2·9)	9·2 (*instead of* 5·8)
Molasses (answering to *shira*)	10	2 (*instead of* 6·4)	2·9 (*instead of* 12·8)

The two striking points of difference are—

The two leading shortcomings in the extraction of the juice and its boiling as practised in these provinces.

(i)—The much larger amount of juice extracted from the *cane* in the West Indies than in India, which is 65 per cent. on the weight of cane instead of 50.

(ii)—The fact that the weight of dry sugar obtained is three times the weight of the molasses, while in India the molasses amount to more than twice the dry sugar. The outturn of dry sugar per acre is 16 maunds more than in these provinces, while the outturn of molasses is 23½ maunds less. Taking Rs. 10* per maund as the price of dry sugar and Rs. 1-8 per maund as the price of molasses, the loss which these provinces experience each year may be estimated at Rs. 124-12-0 per acre, or over 13 crores of rupees on the whole area under sugarcane.

The loss which these provinces sustain from imperfect manufacture

The imperfect crushing of the cane and only partial extraction of the juice

3. Taking first into consideration the loss which results from pressing the cane insufficiently and extracting less than the full quantity of juice, it is doubtful whether much improvement can be looked for, except from the introduction of expensive crushing machinery in which the canes are pressed by steam or water power instead of by human or bullock labor as at present. Up to a comparatively recent date (50 or 60 years ago) the quantity of juice expressed in the West Indies was not much above half the weight of the cane, or 50 per cent. instead of from 70 to 85 per cent. as is the case now. The improved machinery which has effected this change is costly and complicated, and requires a larger capital to work than is at the disposal of the cultivators or sugar-boilers of this country. The iron roller mill patented

* This is the price taken by Mr. Butt, but is an extremely low one.

by Messrs. Mylne and Thompson of Bihea (more particular mention of which will be made further on) does not seem to give much improvement in this direction, and the juice expressed by it has been proved in experiment not to exceed in *quantity* that expressed by a good native mill, although it is vastly superior in quality. Until, indeed, very powerful and costly machinery be used, it appears that from 50 to 55 per cent. of juice is the most that can be expected, and this amount is as a rule now extracted from the cane.

Imperfect processes of manufacture resulting in the production of molasses instead of crystallised sugar.

4. It is with regard to the loss which results from obtaining so little dry sugar as compared with molasses that most improvement may be looked for. It is certain that were the process of sugar-boiling absolutely perfect there would be no molasses at all, but the whole produce would be in dry crystallised sugar. In other words, instead of the return per acre being—

			Rs.	A.	P.
Dry sugar, 15 maunds, worth	...	...	150	0	0
Molasses, 33½ „ „	...	...	50	4	0
	Total	...	200	4	0

it would be—

Dry sugar, 40 maunds, worth	...	...	400	0	0

It is important to remember that the loss of Rs. 200 which results from molasses being formed instead of sugar is entirely due to imperfections in the boiling process. In the Mauritius and West Indies some of those imperfections have been removed by recent discoveries: others are still unremoved and hence *some* molasses are invariably formed, though their quantity only amounts to 2 per cent. on the cane juice instead of the 12·8 per cent. to which it amounts in these provinces. This is of itself sufficient to show how far native Indian sugar-boilers are behind European colonists.

The remedies of a simple character, which are advocated.

5. The notes which follow this abstract deal with the remedies of a simple nature which may be employed in this country to increase the yield of dry sugar as compared with that of molasses. It must be remembered that the good results obtained in the West Indian colonies are due in great measure to the use of expensive machinery and refining processes, and that, until these are adopted in this country, the same degree of success cannot be looked for. At the same time, it is the opinion of many men practically acquainted with the subject that a great deal of the loss in Indian sugar-boiling results from errors in the process followed which can very easily be altered, and it is with alterations of a simple and inexpensive nature that the following notes are concerned. They have no pretence to being exhaustive, and are published with the object of stimulating experiment quite as much as of affording instruction.

The two chief causes which contribute to the formation of molasses.

6. The two causes which appear to contribute most in native sugar-boiling towards the formation of molasses at the expense of crystallised sugar appear to be—

(i) the acidification of the cane-juice before it is boiled;
(ii) the overboiling of the cane-juice.

(i) The acidification of the cane-juice.

7. (i) *The acidification of the cane-juice.*—Cane-juice rapidy acidifies if exposed to the air and the warmer the air is, the more difficult it is to prevent this. Hence it is that so poor an outturn of sugar is obtained from juice which is expressed and boiled late in the season. It is important, therefore, that the raw juice should be exposed to the air as little as possible, and should be transferred to the boiling-pan with the smallest possible delay. Cutting up the cane into small pieces before pressing it (as is necessary in working with the native *kolhu*) promotes acidification, since the juice contained in each few inches of cane is more or less exposed to the air through the open ends of the pieces. By the Bihea iron roller mill the canes are pressed whole, and one cause of acidification is therefore done away with. Another cause which hastens acidification is the presence in the juice of vegetable acids, which are due in great part to the *grinding* process to which the canes are subjected in the *kolhu* instead of the clean *nip* which is sufficient to expel the cane-juice. By the trituration of the *kolhu* substances other than the cane-juice are pressed out in large quantities, while the even pressure of the roller mill drives out a much less proportion of them. Hence the juice which is expressed by the Bihea roller mill is invariably cleaner and better coloured than that expressed by the *kolhu*. But in any case it is most important that the juice should be strained through a linen cloth as soon after being pressed out as possible, and it is much recommended that the vessel into which the juice runs from the mill should be fumigated before each use by being held inverted over a burning sulphur match. This is said to give excellent results.

Causes of acidification, and remedies for them.

8. The acidification which results from exposure to the air, or the admixture of foreign substances, may to some extent be corrected by the use of alkalies, such as lime and carbonate of soda, or by clearing the juice by letting fine earth sink through it. Lime is generally employed by European sugar-boilers in the proportion of ½ per cent. on the weight of juice. The juice should be warmed after the lime has been added, but in no case heated to boiling point and the crust which rises to the surface should be removed. The action of the carbonate of soda (*sajji-matti*) which is sometimes used by native sugar-boilers is somewhat similar, but it is not to be recommended so much as lime. Cane-juice is purified by earth, by adding sifted earth to it before boiling and allowing the earth to sink through it. The juice may then be drawn off through holes in the side of the vessel, so as to avoid disturbing the earth when it has once settled.

(ii) Over' oiling of the cane-juice.

9. (ii) *Overboiling of the cane-juice.*—This is probably the chief source of the uncrystallized molasses, and is the danger most difficult to guard against. It is more or less

avoided in European factories by the use of machinery through which the cane-juice is boiled in a vacuum and the water evaporated and sugar crystals formed at a much lower temperature than is possible if the boiling-pan is exposed to the air. In default of the vacuum-pan various suggestions are made in the appended notes which are not always in unison. For instance, the use of a *deep* pan is recommended by one person of experience, while another ascribes the superior quality of Bihia sugar to the *shallow* pans which are in general use there. The best of all systems appears to be that adopted in some parts of these provinces by the wealthier sugar-boilers, in which five pans instead of one are used. The pans are arranged in a row over a long furnace, each pan being on a little lower level than the one to the right of it, and the pans decreasing from right to left in size, as well as in the heat which is applied to them. The juice is first of all poured into the largest pan, heated but slightly, and then transferred by a ladle from pan to pan down the series till it is finally concentrated in the smallest and hottest pan. This is the system still followed in some West Indian plantations, and although far inferior to the processes which have resulted from recent discoveries, is still much superior to the single boiling-pan, whether it be deep or shallow, which is used over so large a portion of these provinces.

Synopsis of the reforms proposed.

10. The modifications in the process of extracting and boiling the juice which appear therefore to be most recommended are—

(*a*) the substitution of a roller mill (such as the Bihia) for the *kolhu*, and crushing the canes in whole lengths instead of in pieces;
(*b*) greater cleanliness in all the vessels used for receiving the juice from the mill;
(*c*) fumigating with sulphur the vessel into which the juice runs from the mill;
(*d*) straining the juice;
(*e*) mixing ½ per cent. of lime with it before boiling, heating it slightly, and removing the crust which forms;
(*f*) boiling the juice in five pans instead of one.

The Bihia roller mill.

11. The Bihia mill is the most effective roller mill of all which have as yet been experimented with by this Department. Its high price (Rs. 90 to Rs. 100) has been the chief bar to its adoption hitherto, although in districts where the stone *kolhu* (costing Rs. 60) is used the difference in price is not so very great, and will be more than repaid by the saving in labor and better quality of outturn which the Bihia mill affords. The saving in labor may be put at 8 annas a day, since two men and one bullock can easily take the place of the three men, two boys, and two bullocks required to work the *kolhu*. If the mill be worked steadily for three months in the year, a saving of 8 annas a day represents a total annual saving of Rs. 45, which would in two years pay the price of the Bihia mill. The difference in the quality of produce from juice expressed by the Bihia mill and *kolhu* is so great that in the Shahabad district of Bihar (in which the Bihia mill has been bought by thousands) compost (*gur*) made from the Bihia mill juice sells in the market at from 10 to 12 per cent. more than compost made from *kolhu* juice. That these advantages are gradually becoming appreciated may be judged of from the fact that the total number of these mills now working in Upper India is considerably over 9,000.

Its advantages in saving labor,

and in giving sugar of a better quality.

12. Numerous experiments have been made to compare the working of the Bihia mill with that of the *kolhu*. The results vary very much, since the form of *kolhu* used differs a great deal in different parts of the provinces. Thus, the Bihia mill is found to work rather slower than the large *kolhu* used in the Meerut and Rohilkhund divisions, while it can easily beat the small wooden *kolhu* of the Allahabad division or the stone *kolhu* of Benares and Bihar. I subjoin the record of an experiment made by a native gentleman, Pundit Ajudhiya Parsad, of Indalpur, in the Shahjahanpur district, which is the most complete that has been received by this department:—

Results of experiment with the Bihia mill.

Description of mill.	Quantity of cane pressed.	Time taken.	Weight of waste and juice.	Refuse eliminated by straining.	Scum removed during boiling.	Quantity of undrained sugar (*rab*) which was produced.
	Mds. s. c.	Hrs.	Mds. s. c.	Mds. s. c.	Mds. s. c.	Mds. s. c.
Bihia roller mill ...	9 22 8	11	5 27 8	0 2 0	0 4 8	1 2 0
Kolhu	9 22 8	8	5 18 0	0 4 8	0 8 0	0 38 0

The results of this experiment show that the Bihia roller mill as compared with the powerful wooden *kolhu* used in the Shahjahanpur district—

(i) takes 37 per cent. more time to crush cane;
(ii) expresses 4 per cent. more juice;
(iii) gives juice containing 55 per cent. less refuse and yielding 43 per cent. less scum in boiling;
(iv) gives 10 per cent. more sugar.

If we may apply the result of this experiment to the total production of sugar in these provinces, it follows that by the substitution of the Bihea roller mills for the *kolhu* now used, the total annual produce would be increased by the value of nearly a crore and quarter of rupees.

J. B. FULLER,

June 10th, 1880. *Asst. Director, Dept. of Agriculture and Commerce.*

APPENDIX III.

Memorandum on Sugar Cultivation.

Compared with Mauritius and West Indies, the cane cultivation here is of a very primitive kind, and leaves much room for improvement. Excepting in Lower Bengal, air and light is excluded from the growing canes by the gradual growth of the leaves which are allowed to remain, as they wither and dry, thus forming a dense mass into which little sun, light, or air can penetrate. In addition to this, the soil is freely and frequently irrigated, and never dug or loosened round the roots after the cane reaches a height of about three feet.

On this side of India it is the universal custom to plant or lay the cane cuttings in plough furrows about 18 inches apart, within a few inches of the surface, and hence the dense mass of leaves referred to.

In Mauritius, where cane cultivation is conducted with the greatest care and on the best known principles, the custom is the reverse of that which obtains in India. The climate of the island is more moist, and showers more frequent than in India; yet the cane-cuttings are laid deeper in the ground, and greater care taken to protect them from heat and drought. The method is as follows :—

The surface of the field is cleaned of grass and weeds with the hoe; the weeds laid, in lines four feet apart; lines of holes are dug between the rows; each hole is about 15 inches long and 9 or 10 inches deep and wide. A 9-inch space of earth is left between each hole. These holes are carefully made of a rectangular form with perpendicular sides, the earth being laid on the rows of grass and weeds.

Three cane-cuttings are laid in each hole and covered with about two inches of finely prepared earth, mixed, if necessary, with manure. This filling is repeated as the cane grows, till a ridge is formed round the cane roots leaving the ground hollow in the spaces between the ridges. All weeds and dry leaves are carefully removed or disposed of in such a way as to admit as much light and air into the field as possible. The earth round the roots is kept clean and loose. The number of cane-cuttings planted per acre in the usual native way is 16,000 and by the Mauritius 16,500, so that a better style of cultivation is secured with no loss of space.

In Lower Bengal we have observed that the dry leaves are utilised to tie round the standing canes in small lots, thus giving support to them, and access of air and light through the field.

A small experiment on the Mauritius method has been made by us at Bihea during the past year. Though on poor sandy soil, and though we were not able in this instance to give the attention needful to secure its being carried out to our satisfaction, the improvement in the appearance of the cane is so marked that the cultivators who have seen it will not believe that it is the common "mangoo" or small cane of the country, and contend that it must be some other large jât (or species). This cane is not yet ready for crushing, and comparisons as to weight of cane, weight and quantity of gur per acre, have yet to be made. There seems to be little doubt that, if a more rational method of cane cultivation were to take the place of the primitive and careless custom which obtains so generally, a very great improvement in quality and quantity would be secured.

The sugar industry of India is domestic in all its stages. Each cultivator, who has a bit of land suitable for growing sugarcane in rotation with other crops, cultivates a little plot varying from half an acre to three acres year by year, expressing the juice and converting into gur (concrete sugar) on or near the field, and selling on the spot or in the nearest bazars, much as in England and other places each small farmer threshes his own corn for market. For the gur there is a ready sale at prices which leave a handsome profit to the cultivator, and with which no central factory could compete.

Improvements in manufacture, when suggested to the people in a suitable form, do not seem to be hopeless. The Bihea Cane Mill has been gradually introduced into their confidence and has entirely superseded the native mill in this district. Its recommendations are simplicity of construction, efficiency, portability small cost in proportion to the greater quantity and better quality of the work done, and its suitability to their domestic method of manufacture. By it the canes are passed whole between vertical rollers, while for the native mill they have to be cut into lengths varying from quarter of an inch to 18 inches. The surfaces thus exposed become at once areas of fermentation, which quickly increases with exposure to the air, and the heat of the evaporating pan causing progressive destruction of the granulating quality in the juice, the quality and appearance of the gur being also much deteriorated. The introduction and adoption of the Bihea Mill by the people of this and neighbouring districts may be taken as a practical recognition by them of the loss sustained in quality by cutting the cane into small pieces, and of the gain as regard time and cost of crushing effected by the new machine. It may also be considered a first step in the direction of substantial improvement in these particulars. This is also recognized in the bazars by the higher price given for the mill gur over that from the kolha or native machine. Marwaree

merchants from the Bombay side seem to have already become aware of the commercial value of the improvement, as they have during the last three years come in considerable numbers to this district to purchase mill gur direct from the cultivators who produce it. As a machine by which the small farmer may convert the juice of his cane into a marketable concrete sugar, the shallow open pan in use in this district is much more satisfactory, and produces a far better article than the deeper pans of the North-West Provinces and those districts in Lower Bengal where concrete is made. It is saucer-shaped and very shallow, so that the evaporation of the juice is effected with a minimum risk of over-boiling or burning. The next essential step in improvement is cleanliness. For this purpose the appliances already in the hands of the people are sufficient. We have recently paid considerable attention to this very necessary matter, and have induced some of our tenants to adopt the following method :—

1st.—To wash out carefully after each filling the "churwees" or earthen vessels which receive the juice as it runs from the mill.

2nd.—To invert them over sulphur fumes for a few minutes before again using them, thus removing the germs of fermentation.

3rd.—To strain the juice as it falls into these vessels.

4th.—To defecate the contents of the evaporating pans by adding a little castor-oil, bruised castor seeds or other substance to the boiling liquor to coagulate and bring the scum to the surface, when it is carefully removed. The result of this simple and easy addition to their usual process is everywhere a surprise to the people themselves, who seem to have no idea of the deleterious effect of dirty vessels, and consequently of a constant state of active fermentation of the contents. The improvement is so considerable as to change the appearance and greatly improve the quality of the gur.

The people now begin to see that improvement is possible by means well within their reach without in any way interfering with their domestic system of manufacture or religious prejudices, and say they are ready to supply any demand which may be made for the clarified gur thus produced.

The district of Shahabad, where these improvements are in progress, is a very small portion of the cane-growing area of India with its 250,000,000 of cultivators as estimated in the paper from the *Produce Market Review*. What is being done here indicates that, without any such revolution as would be required to supplant the domestic manufacture, very great improvement may be effected. This having been established to the acknowledged benefit of the cultivators themselves in these districts, it remains only to extend similar tuition and assistance to other cane-growing districts to bring about similar results.

With improved machinery on a small scale, if the experiment does not prove successful, it will not involve very much loss or disappointment. We have for several years been trying whether cane can be profitably purchased and worked off at a central factory. Though cane has been plentiful, the distance for carriage limited, and the cultivators our own tenants, yet the price demanded by the growers, and which they can realize by making it into gur, does not encourage a continuance of the experiment.

The Rosa Sugar Works at Shahjahanpur, though situated in a cane-growing country, have not found it advisable to make arrangements for crushing cane and making refined sugar direct from the juice. They are now buying gur in this district, some three hundred miles from their works.

In our efforts in the direction of improvement, we have endeavoured to avoid the bias of foregone conclusions, and, as far as possible, to meet an unrecognised and unexpressed want in the domestic system which we found universally prevalent around us. The progress made has therefore been necessarily tentative and slow, and the area influenced comparatively limited. But it is sufficient to show that the cultivators are ready to receive suggestions of improvement, if of such nature as to be within their means combined with the instructions and assistance needful to enable the people to carry them out. We need only mention in proof of this that, during the last seven years, the cultivators have voluntarily applied for and purchased upwards of 9,000 Bihea cane mills, their total outlay for which has amounted to not less than Rs. 6,30,000.

To ensure the successful introduction of this machine, it has been necessary to teach the purchasers how to manage and use it, and to inspire them with confidence and give assurance that repairs and renewals needed, as well as accidental breakages, would be promptly dealt with.

From the traffic returns of the East Indian Railway, we find that since 1872, when the introduction of this machine commenced, the quantity of gur exported by rail from the district of Shahabad has increased from 51,400 to 4,63,000 maunds (*i.e.* from 34,000 to 3,08,000 cwts.), or nine times as much, the average yearly increase being 1,61,000 maunds or 107,000 cwts. The price of gur from 1872 to 1876 averaged Rs. 2-15-0 per maund, the increase being an addition to the income of the cane cultivators of Rs. 4,73,000 yearly, or for the last five years Rs. 23,65,000, and during the last three years the price has advanced to an average of

Rs. 3-9-0 per maund, giving a yearly increase of Rs. 5,73,562, or during the three years a sum of Rs. 17,20,000, making a total of Rs. 40,80,000 added to the earnings of the cultivators of this district during the last eight years.

The export by rail in 1872 being 51,407 maunds and produce per acre 39 maunds (= 28½ cwts.), the area under cane for this would be 1,801 acres; the average exports by rail for the years 1877, 1878 and 1879 being 4,18,103 maunds, the same rate of produce gives 14,477 acres, and adding for local consumption and export other than by rail quarter more, the total is 18,100 acres under cane, or about 32 square miles.

As cane cannot be grown in Shahabad without irrigation, the bulk of this very considerable increase of area under cane is, as far as cultivation is concerned, doubtless due to the canals. But from a manufacturing point of view, the Bihea Cane Mill claims the credit of having enabled the increase to be worked off within the time available in each season for getting the crop ready for the market, and of having at the same time greatly improved the quality and thus attracting purchasers from Bombay and other distant markets.

The cane cultivators all confess that they could not have thus extended their cane patches had they been obliged to depend on the old native machine for working off the crops. As similar increase in rate of production may not be desirable or possible in all the cane-growing districts of India, it is needless to offer any statement as to what might be the comparative results from such increase.

A like improvement in quality is, however, quite possible without in the least interfering with the domestic methods of manufacture, and affecting, as it does, the welfare and comfort of many millions of families depending on, and devoted to, agriculture; the fact of the possibility of such an improvement merits the careful consideration of Government, as well as of private individuals interested in the welfare of the ryots.

From 1864 to 1871 the average price of gur in this district was Rs 2-8-6 per maund. The average from 1872 to 1876 was Rs. 2-15-0 per maund. From 1877 to 1879 Rs. 3-9-0 per maund, the last being an increase of Re. 1 over the first period and Rs. 10 over the second. During the present season 1879-80 the price to date is about Rs. 4 per maund, being Rs. 1-8 increase over the first period ending in 1871.

It might, therefore, be safe to assume that a permanent rise of Rs. 1-4 per maund has been obtained. Suppose the average yearly export by rail does not exceed 4,20,000 maunds, and allowing a fourth more for local consumption and exports other than by rail, the total will be 5,25,000 maunds, and Rs. 6,56,000 yearly added to the agricultural wealth of the district by improvement in manufacture only.

"Hunter's Statistical Account of Bengal" gives the area of Shahabad at 4,385 square miles; measured by area the yearly increase is Rs. 149 per square mile. "Chambers' Encyclopædia" gives the area of British India with Oudh and Berar as 8,63,035 square miles. If over the area a proportionate increase of earnings were marked out by improvement only, the sum gained would be Rs. 12,95,92,000.

The 32 square miles under cane (18,100 acres) is only ·73 of the area of the district.

We also enclose a sheet of comparative results, with notes of reference, which may be interesting and useful.

REMARKS ON THE FIGURES OF THE COMPARATIVE STATEMENT ANNEXED.

2. *Outturn of actual sugarcane per acre without leaves and succulent tops.*—The average in the best sugar-producing countries would appear to be from 25 to 30 tons per acre. In Shahabad, and probably other of the cane districts of India, the yield at present might be said to range at from 15 to 20 tons in really good seasons, and the latter return would be looked upon as very unusual.

N.B.—The Jugdispore estate outturn of cane from 9 acres of thoroughly and richly manured land (see Abstract) gave something short of 17 tons per acre; owing to the absence of canal water in June and July, and the difficulty of well irrigation, a portion of the area under cane was very inferior. However, even with thorough irrigation it is not likely that the yield would *have attained 20 tons per acre.*

3. The available data do not suggest any remark, save that it appears that the yellow cane grown in North Peru was originally imported from India, and that, whereas in India 22 to 24 lbs. of this cane will give one gallon of juice only, 11 lbs. of the same cane (presumably acclimatised) will produce a like quantity of juice in North Peru; but the gallon of juice got from the 22 lbs. gives 2 to 2¼ lbs. raw sugar, while the gallon obtained from 11 lbs. cane in Peru only yields 1·35 or 1⅓ lbs. sugar. This luxuriance is doubtless owing to richness of soil and *cheapness of guano* manure.

4. *Outturn of raw sugar per acre.*—In noted sugar-producing countries = 2½ to 3 tons per acre.

In Straits of Singapore = 3 tons per acre.

In vicinity of Calcutta = 2 tons per acre.

In Sindh (N. W. India) 1 $\frac{1}{10}$ tons per acre.

In Shahabad (Jugdispore estate experiments) $\left\{\begin{matrix} 1\frac{1}{5} \\ 1\frac{1}{10} \end{matrix}\right\}$ tons per acre.

Deductions from data 2 (outturn of actual canes) and 4 (outturn of raw sugar) per acre.

It appears from the foregoing that Shahabad (and probably all India) yields half the weight of canes per acre, and half the weight of extract or product per acre of that produce in noted sugar countries; amongst the reasons for this are doubtless the following :—

(*a*) Absence of natural moisture or thorough and continuous artificial irrigation to produce luxuriant plants.

(*b*) Absence of very high cultivation, thorough manuring, and scientific rotation to produce rich saccharine juice in luxuriant crops.

5. *Description of outturn.*—This invariably means the crude product, containing the true or actual sugar, as well as molasses.

6. *Tons of cane per ton of outturn.*—Shahabad compares very favourably with some other countries, of which the data were availabe, *e.g.*—

Barbadoes	8	tons cane per ton of extract.
Antigua	10	" "
Martinique	13	" "
Australian	15	" "
Shahabad	11	" "

Deduction.—The quality of the Shahabad cane-juice, *i.e.*, its sugar-producing power, is very fair.

7. *Pounds of actual canes per gallon of juice.*—The available data are—

	lbs.
Porto Rico (Spanish colony)	= 10·67
Peru (North)	= 11·00
Shahabad (Jugdispore estate) (1)	=124·00
Do. do. (2)	= 22·75
Do. do. (3)	= 22·50

Deduction.—The Shahabad canes are much drier than the others; that is, they contain less water. Hence, supposing a gallon of juice to be equally rich in all cases, double the weight of cane (entailing presumably double the labor) would have to be squeezed in Shahabad to give an outturn equivalent to that of Porto Rico or Peruvian canes. It will, however, be seen below that a gallon of Shahabad juice gives 25 to 50 lbs. more extract than that of some other countries.

8. *Raw sugar or extract per gallon of juice.*—The tabulated available data are—

Jamaica	1·00	lbs. per gallon.	Average =1·50
Antigua	1·00, 1·82, 2·00	" " "	
Demerara	1·40, 2·19	" " "	
Porto Rico	1·60	" " "	
North Peru	1·35	" " "	
Natal	1·82, 1·92	" " "	
Queensland	1·12, 1·50	" " "	
Shahabad	2·00, 2·25	" " "	=2·12

Deductions.—The Shahabad juice gives at least 50 lbs. more of extract or raw sugar than the average of seven other countries.

9. *Extract of cane per* 100 lbs. *of cane-juice.*—The data collected show—

Barbadoes	lbs. 18 to 21	per 800 lbs. of cane-juice.
Shahabad	" 19 to 22	" " "

Deductions.—The above figures confirm the richness of the Shahabad juice.

10. *Raw sugar or extract per* 100 lbs. *of plant canes*—

Barbadoes	13	lbs. extract per 100 lbs. canes.
Martinique	7¾	" " " "
Porto Rico	9¼	" " " "
Egypt	8½	" " " "
Queensland	8 to 9	" " " "
Shahabad	8¾ to 9¾	" " " "

The above also confirm the fair quality of the Shahabad cane-juice.

11. *Gallons of cane-juice per acre.*—Unfortunately the data are scanty, otherwise there would probably be additional proof that Shahabad sugarcane needs more moisture than it gets in order to prove luxuriant.

GENERAL REMARKS.

2. The outturn of canes per acre is half that of other countries. This can only be increased by higher cultivation, rotations, manuring and irrigation. But so long as there is an abundance of cane land which will yield an average crop, giving an amount of crude sugar or gur, returning handsome profits to the cultivator of Rs. 50 to Rs. 100 per beegha for an outlay of Rs. 20 to Rs. 25, which is equal to Rs. 80 to Rs. 150 per acre for an outlay of Rs. 32 to Rs. 38, so long will the Indian cultivator rest content with the present outturn. What makes him additionally contented is the fact that, though the outturn per acre may have remained stationary, yet the cash returns per acre, owing to rise of prices, have been increased 35 to 50 per cent. within the last ten years. Besides the cultivator, others participate in the present profit from cane cultivation as it exists, *viz.*, the landowner, who gets a higher land rent for cane crops than for other staple products; the itinerant broker or "bepari," who makes a comfortable swing by buying gur on the cultivator's field and selling it at a small profit at neighbouring bazars; and the "chini" manufacturer or refiner who supplies, with handsome profits to himself, pure refined sugars to wealthy natives, who would not touch English manufactured sugars because refined with blood and bone charcoal.

To the majority of these classes, cultivators, landowners, brokers, and refiners, the return from cane cultivation and sugar manufacture, *as it now exists*, is handsome enough to satisfy them and prevent them from, if they were individually capable, attempting any improvements: they are confirmed in their conservatism and mistakes because of the rapid rise in prices.

6. The richness of Shahabad cane-juice is confirmed by the figures. What is wanted is an increase of crop per acre, with no diminution of the richness of the juice. If there be a heavier crop, but a poorer juice, there can be no gain, but probably loss; for more work and wage is entailed in cutting, carting, squeezing, and evaporating watery cane than firm, concentrated cane. The drier the cane and more concentrated the juice, the less labor and expense in extracting.

7-8. The yellow Indian cane exported from India to Peru, compared with existing Shahabad cane, gives better results at less expenditure of cane in Peru, *e.g.*,—

	Yellow Indian cane in Peru.	Shahabad cane.
Cane per gallon of juice, lbs.	11·00	22 to 24
Extracts " " "	1·35	2·0 to 2·25

22 lbs. of cane would give 2·70 lbs. in Peru, whereas in Shahabad that gives 2·25 only.

The conclusion appears to be that the natural dryness of the Shahabad climate affects the yield of juice per pound of cane.

But this same cause concentrates the juice to such an appreciable extent, that while in Peru one gallon of juice will give of extract only 1·35 lbs. in Shahabad the yield as per data is 2·00 to 2·25; therefore excess extract per gallon of Shahabad juice= ·65 to ·90, so that it appears that while there is a very great initial saving in Peru in the weight of cane, and labor for carting or carrying and squeezing it (the cane yielding more juice than in Shahabad), yet in evaporation and concentration and saving of fuel Shahabad would seem to have a great advantage.

9. The concentration of the Shahabad juice and its greater density are confirmed by the figures in column 9 of the tabulated data.

10. Equal weights of Shahabad cane give nearly as much extract as any in the "table," except Barbadoes, which yields 4 per cent. more extracts.

Yield of cane per acre would not be increased without a more forcing system of cultivation, that is by plenty of manure and a method of irrigation which will force the plant upwards instead of as at present (with a uniform flow irrigation by submersion) tending to close in the root and keep the canes down.

The question of imported manure could not be entertained for a moment owing to its great cost. Not for many years, if ever, would it pay the Bengal cultivator to import costly manures. The manurial substances which exist ready to hand are very limited in quantity.

The question of manure might be solved by growing a luxuriant green crop on the cane fields, cutting it down and allowing it to rot and decompose on the land. The delay necessary for decomposition would probably be an objection.

In lieu of manuring, the Indian ryot knows very well the advantage of an open fallow, whereby the soil is turned up and allowed to "weather," that is, to absorb nutritious ingredients from the atmosphere. But save in rare cases, where the ryot is strong, has a number of relations or assistants, and three or four pairs of plough-bullocks, to cultivate thoroughly, he seldom finds time to take advantage of suitable opportunities for turning over the soil thoroughly.

The Indian ryot knows that sugarcane and paddy seedlings put down in lands that have been "weathered" always give much heavier and healthier crops. Irrigation also might be improved; that is by small parallel channels skirting the roots instead of a general flow of water completely submerging the field as at present.

The 28th February 1880. L. H. MYLNE.

Available data regarding Sugarcane in various countries and the manufactured products from it collected from various sources.

The 10th February 1880. L. H. MYLNE.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 6th JUNE 1882.

GENERAL REMARKS.—More or less rain has continued to fall throughout the Madras Presidency, though still insufficient in one or two places. In Coorg the rain has been too heavy for agricultural purposes. From the Mysore State also good rain is reported.

There has also been rain in the Berars and throughout the Bombay Presidency proper, and in several districts the fall has been very heavy. Indications of the monsoon are also reported from the Central Provinces, where slight rain has occurred in some districts. British Burma has continued to receive rain in almost all districts. In Assam there has been too much rain in some parts. In Bengal good rain has fallen in all districts. In the North-Western Provinces and Oudh good rain has occurred in two districts, and smaller quantities fell in most other places. In the Central India and Rajputana States showers are reported from several places. In the Punjab a little rain has occurred in three dirtricts.

Excepting one or two limited tracts, where either more rain is required or too much has fallen at once, agricultural prospects seem on the whole to be favourable throughout the Madras and Bombay Presidencies, as well as in Mysore, in Coorg, and in Berar; and ploughing and sowing are progressing. Ploughing has also commenced in the Nizam's Territories and in the Central Provinces. In Assam ploughing and sowing continue, and in one district (Sylhet) a sudden rise of the rivers is endangering the late sown rice on the lowlands. In Bengal prospects are favourable in all districts; early rice and jute have already been sown; sugarcane and indigo are doing well; and ploughing and sowing for *kharif* crops are progressing rapidly. In the North-Western Provinces and Oudh sugarcane is being irrigated in parts, and preparation of land for the *kharif* has begun in a few districts. In the Punjab the outturn of the late *rabi* crops is being garnered in some districts, and in others *kharif* operations have begun.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(June 7th)		
Bellary ...	1·05 (average of six stations).	Standing crops good; harvest paddy and sugarcane, outturn paddy below average, sugarcane average; fever and small-pox in parts.
Kurnool ...	·51 (average of ten stations).	Standing sugarcane and indigo suffering from want of water in parts; small-pox and cattle-disease in parts.
Ganjam ...	·56 (average of two stations).	Standing wet and dry crops thriving; small-pox, fever, and cholera prevalent; cattle-disease exists.
Kistna ...	·99 (average of eleven stations).	Fever, small-pox, and guinea-worm in parts; cattle-disease continues.
Chingleput (Madras) ...	·70 (average of five stations).	Standing crops good where water available, withering elsewhere; harvest paddy, yield below average; agricultural operations progressing; cholera and small-pox in parts.
Coimbatore ...	·78 (average of eleven stations).	Standing crops generally good, but *cholum* attacked by insects in parts; harvest paddy and dry grains, yield paddy below average, rest average; cholera, small-pox, and fever in parts.
Tanjore ...	·46 (average of nine stations).	Standing crops generally good; harvest chillies, outturn average.
Madura ...	·79 (average of eight stations).	Standing crops fair; fever and cholera in parts.
Malabar ...	2·82 (average of fourteen stations).	Sowing first crop nearly over in parts; small-pox, cholera, fever, and cattle-disease in parts.
Travancore ...	2·29	Ploughing and sowing progressing; fever prevalent. *General Remarks.*—General prospects good.
Bombay—(June 7th)		
Kurrachee ...	No rain	River at Kotri on 5th, 8 feet 11 inches against 10½ feet on corresponding date last year; small-pox in Kurrachee town; wheat, red rice, and *bajri* in Kurrachee 22, 40 and 36, in Dadu 32 and 40, in Tatta 24, 46 and 48, and in Jati 20, 52 and 44 lbs. per rupee, respectively.
Hyderabad ...	.....	River rising; *kharif* operations general throughout the district; hot winds with much dust still continue; nights cool; slight fever in three talukas; wheat 24, *juari* 45, *bajri* 40, red rice 34, and white rice 22 lbs. per rupee.
Ahmedabad ...	1·46	Cholera—in Virangaum 203 cases, 106 deaths, total 336 cases, 165 deaths; slight cholera in Sanand and Daskrohi; wheat 26 and *bajri* 29 lbs. per rupee.
Baroda ...	·87	Health good; *bajri* 30 and common rice 23 lbs. per rupee.
Surat ...	3·90	Preparation for cultivation continues; cholera in Surat, 1 death; *juari* 32 lbs. per rupee.
Násik ...	Heavy rain in all talukas—average fall, 4·61; maximum Igatpuri, 9·61; minimum Kalwan, 1·64.	Small-pox at Trimbak; *bajri* 33¼ and wheat 28½ lbs. per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Colaba (Bombay) ...	Rain every day, except on 1st; heavy from 2nd to 4th; rainfall of week, 18·47.	Total rainfall to date 18·61, being 16·29 above average; average abnormal temperature *nil* on 31st and 1st, 7° cool from 2nd to 4th, and 3° cool on 5th and 6th; vapour in air normal, except on 6th when it was excessive; storms on evening of 31st and from morning of 1st to morning of 4th; abnormal wind very strong from south-east from morning of 1st to morning of 3rd; wind normal on 5th and 6th; lightning on 31st, thunder and lightning on 3rd and 4th, and continued thunderstorm on the night of the 5th.
Poona ...	Rain throughout district—maximum at Junar, 6·53; minimum at Purandhar, 2·19.	*Bajri* 41¾ and *juari* 55½ lbs. per rupee, in Poona *bajri* 36¾ and *juari* 43½ lbs. per rupee.
Ahmednagar ...	3·00 to 4·00; rain fell in most parts of district.	A flight of locusts passed through Nagar and Parner talukas; *bajri*—maximum 60 lbs. in Jhamkhed, minimum 45 in Kopergaon; *juari*—maximum 84 in Jhamkhed and minimum 54 in Kopergaon
Sholapur ...	Slight rain throughout district; ·45 in Sholapur; total rainfall 1·71	Slight cattle-disease in Sholapur, Sangola, and Malsiras; cholera, 4 cases, 1 fatal in Karmalá; damage by locusts to *bagayet* crops except in Borhi and Karmala; *juari* 72 lbs. 8 tolas and *bajri* 55 lbs. 23 tolas per rupee.
Dharwar ...	Rain in all talukas—maximum at head-quarters, 5·32; minimum at Hangal, ·48.	More rain wanted in Kod and break desired in Dharwar and Bankapur talukas; sowing of *kharif* crops commenced; scarcity of drinking-water still felt in Kod; cholera and locusts disappeared; public health good; rice 22 and *juari* 54 lbs. per rupee.
Kanara ...	Karwar, 13·64; total, 14·74; Kumpta, 3·57; Sirsi, ·64; Hallial, 1·84; rain fallen throughout district.	Preparing ground and sowing monsoon crop on coast and above Ghât; sugarcane thriving; small-pox slight at Bhatkal, but continues at Sidapur and in some villages of Sirsi, 4 cases in Kumpta; fever slight in two talukas; common rice in Karwar 12 seers, in district average 13⅜ seers per rupee; weather rainy and squally.
Rajkot ...	Thunderstorm with little rain on 1st and 2nd.	Weather cloudy and oppressive; cholera in Navanagar, Gondal, Kotdasanjani, Vadia, and Jedpur; *bajri* 25 and *juari* 29 lbs. per rupee.
		General Remarks.—*Kharif* preparations in general progress; rain throughout presidency proper, heavy in several districts, ranging from 12 to 22 inches in the Konkan; scarcity of drinking-water in one taluka of Dharwar; slight cattle-disease, fever, and small-pox continue in some places; locusts in Sholapur; cholera in Sholapur, Satara, Belgaum, Ahmedabad, and parts of Kathiawar.
Bengal—(June 6th)—		
Chittagong ...	5·61; heavy showers throughout the district.	Weather hot; transplanting of autumn rice going on; prospects of crops good; prices steady; cholera and small-pox continue.
Dacca ...	4·90	Jute, rice, and sugarcane growing fast; fields wet.
24-Pergunnahs (Calcutta)	1·05	Lands being prepared for autumn and winter crops; sowing of early rice and jute progressing; prices of common rice stationary; public health generally good; cholera abating in Barripur subdivision.
Moorshedabad ...	2·11	Rain done much good; autumn crops promise well; harvesting of spring rice still going on; sporadic cases of cholera reported.
Rajshahye ...	1·44	Prospects of rice and jute promising; spring rice being harvested, outturn fair; cutting of *sesamum* begun; a few cases of cholera and fever reported.
Burdwan ...	0·83; rain heavy at Kálná and Kátwá, and slight at Rániganj.	Prospects of crops favourable; cholera increasing.
Rungpore ...	6·90	Prospects of crops favourable; public health good.
Bhagálpur ...	0·78	Ploughing going on; prospects much improved by rain; cholera abated.
Purneah ...	2·50	Prospects favourable; sowing of autumn crops progressing; public health better.
Patna ...	0·92	Sowing of rice and autumn crops going on; cholera still prevalent in Barrh and Behar subdivisions, and small-pox in the latter.
Durbhunga ...	2·28	Prospects of crops very good; cholera abating in some and increasing in other places, bad near railway.
Hazáribágh ...	2·20	Weather hot and cloudy; late rain has done much good in aiding ploughing operations; general health good, with the exception of a few cases of small-pox in the interior.
Cuttack ...	1·03	Ploughing and sowing in progress; cholera prevalent.
		General Remarks.—Good rain in all the districts during the week; prospects favourable; ploughing and sowing progressing rapidly; early rice and jute were already sown, and sugarcane, *china*, and indigo doing well; *china* ready for harvest; harvesting of spring rice continues, with fair average outturn; public health improved; cholera and small-pox generally much abated.
N. W. Provinces and Oudh—		
Benares (June 6th)	0·8 in Chandausi; 0·6 in Benares.	Heavy duststorm followed by rain on the 1st, causing considerable damage to trees and houses, weather since cloudy and close; rain appears to be imminent; sugarcane being irrigated; health of man and cattle generally good; few cases of cholera reported in the city and in pargana Narwan; markets well supplied with food-grains; prices steady.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. Provinces and Oudh—*contd.*		
Cawnpore (June 6th)	Average rainfall over 0·6.	Rain beneficial to sugarcane and indigo; outturn of extra crops good; fever continues; prices slightly risen.
Allahabad („ 7th)	Showers in five tahsils during the week; to-day monsoon apparently broken; heavy rain since 5 A.M., with thunder.	Great heat; clouds gathering during the last three days, which culminated in to-day's rain; cholera increasing, chiefly north of Ganges; city healthy; cattle in good health; prices rising.
Gorakhpur („ 6th)	0·8; storm and rain on the night of the 4th.	Weather sultry; cholera slightly increased; field operations progressing; prices steady.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

BESTOWAL OF HONORARY RANK OF ASSISTANT ENGINEER ON SELECTED CIVIL UPPER SUBORDINATES OF THE PUBLIC WORKS DEPARTMENT.

Nos. 782-800G., dated 1st June 1882.

RESOLUTION—By the Government of India, Public Works Department.

The Governor General in Council has had under consideration the question of improving the social status of deserving Civil Upper Subordinates of the Public Works Department, by conferring on them some distinction similar to that enjoyed by Military Upper Subordinates. Deserving men of this latter class are rewarded by having Honorary Commissions conferred on them, but there is no corresponding distinction given to Civil Upper Subordinates. Applications, which have from time to time been received from local authorities, have led the Governor General in Council to believe that the bestowal of the Honorary rank of Assistant Engineer on deserving Civil Upper Subordinates will be highly appreciated by those on whom it is conferred; also that the hope of attaining to the position will have a good effect on the Upper Subordinate class generally. In this view it has been decided to confer the Honorary rank of Assistant Engineer on selected Civil Upper Subordinates under the following rules:—

i.—The proportion of Civil Upper Subordinates on whom the distinction of Honorary Assistant Engineer is conferred may be 6 per cent. of their total number on each list with an addition of one for any fraction. The promotions will be made by Local Governments and Administrations, but in the Military Works and Railway Branches, by the Government of India, in the Military Department, on the recommendation of the Inspector General of Military Works, and in the Public Works Department on the recommendation of the Director General of Railways.

ii.—The selections for the Honorary distinction must be confined to the grades of Sub-Engineers.

iii.—The subordinates promoted as above will be borne as substantive on the list of Upper Subordinates, and in italics on the list of Engineers of the grade to which they are appointed, with the words "Honorary rank" in the column of remarks. The promotion being

purely Honorary, and given solely with the view of improving the social status of the recipient, the pay and other allowances of Honorary Assistant Engineers will be those of their substantive Departmental rank.

The honorary promotion need not necessarily be accompanied by any change of duty.

2. Similarly, the same proportion of Civil Accountants may be selected from the 1st and 2nd grades for honorary promotion to Assistant Examiners. These promotions will be made by the Government of India on the recommendation of the Accountant General, except in Madras and Bombay, where those Governments may make the promotions.

The Governments of Madras, Bombay, Bengal, North-Western Provinces and Oudh, and the Punjab, in the Public Works Department.
The Chief Commissioners, Central Provinces, British Burma, Assam, and Coorg.
The Resident, Hyderabad.
The Agents to the Governor General for Central India, Rajputana, and Beluchistan.
The Accountant General, Public Works Department.
The Director General of Railways.
The Consulting Engineers to the Government of India for Guaranteed Railways, Calcutta, Lahore and Lucknow.

ORDER.—Ordered, that a copy of the above Resolution be forwarded to the Local Governments, Administrations and Officers marginally noted for information and guidance.

Also to the Military Department, for communication to Inspector General of Military Works.

Ordered also, that it be published in the *Gazette of India*.

W. S. TREVOR, *Colonel, R.E.*,
Secretary to the Government of India.

Printed and Published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL BRANCH PRESS, *Simla.*

The Gazette of India.

NOTIFICATIONS.

Simla, the 16th June 1882.

No. 1765.—Ordered, that the following correspondence regarding the supply of black writing ink of Indian manufacture for use in Government offices in Madras be published in the *Gazette of India* for general information.

R. E. HAMILTON,
for *Offg. Secy. to the Govt. of India.*

Extract from the Proceedings of the Government of Madras, Financial Department, No. 374, dated 19th May 1882.

Read the following:—

No. 182, dated 10th May 1882.

From—J. G. FERRAND, Esq., Superintendent of Stationery, Madras,

To—The Chief Secretary to the Government of Madras.

In forwarding the enclosed report from the Committee for Examining Inks, I beg to add, first, that G. D. Iyah Pillai, whose tender for black ink is recommended for acceptance, is the well-known Madras Ink-maker referred to in the correspondence noted in the margin.

G. Os. 22nd February and 27th August 1881, Nos. 308 and 1578.

2. As regards price, his rate is 6 annas per dozen papers. The last invoice price of the ink-powders received from England is 1*s.* 1*d.* per dozen. Amrita Lall Roy of Calcutta, whose ink forms the subject of the Proceedings of the Government of India, communicated in Madras Government Proceedings, 28th ultimo, No. 344, just received, is one of the tenderers to supply Madras with black ink, and he offers to do so at 8 annas 3 pies per dozen papers. Iyah Pillai's ink is preferred by the Committee to his. The Calcutta price of his ink in bottle, as stated in the Proceedings of Government of India above referred to, is Rs. 2 per dozen quarts. A dozen powders produce six quarts, and the cost of a dozen quarts of Iyah Pillai's ink, exclusive of bottles, will be 12 annas.

Report from (Major E. A. BRUCE, Deputy Assistant Commissary General; C. D. MACLEANE, Esq., Acting Sub-Secretary to the Board of Revenue; Surgeon T. K. ROGERS, M.B., F.R.C.S., Chemical Examiner; E. M. PALMER, Esq., Assistant Accountant General; and J. G. FERRAND, Esq., Superintendent of Stationery) the Committee for Examining Inks, to the Chief Secretary to the Government of Madras,—dated 10th May 1882.

With reference to G. O., 31st October 1881, No. 2100, we beg to report that the following tenders were opened, at the Stationery Office on 15th February last, for the supply of black and red inks of Indian manufacture:—

Names of Tenderers.	For black ink-powder, 3,640 dozen of 1¾ ounces each paper.		For red ink-powder, 30 ounces in papers, 1 doz. = 1 oz.		Value of Tender.	Bank's receipt for deposit as security.
	Per doz. rate.	Rs. A. P. 0 10 5	Per oz. rate.	Rs. A. P. 0 13 7		
					Rs. A. P.	Rs. A. P.
1. G. D. Iyah Pillai ...	Doz.	0 6 0	...	...	1,365 0 0	70 0 0
2. M. Narasimooloo Chetty ...	"	0 5 0	Oz.	0 2 6	1,142 3 0	64 0 0
3. Gooerdondoss Birjubookoondoss & Co.	"	0 6 6	"	...	1,478 12 0	75 0 0
4. Theagaroya Moodelly ...	"	0 6 0	Doz.	0 7 6	.....	100 0 0 Money order
5. Mr. Kelkar, Poona ...	"	0 7 0	"	...	.....	80 0 0 Calcutta Currency Notes
6. Amrita Lall Roy, Calcutta ...	"	0 8 3	"	...	.....	95 0 0

2. Narasimooloo Chetty and Theagaroya Moodelly, who alone tendered for red ink, made each a pint of his ink in our presence. The former acknowledged his powder to be fuchsine, and the latter his to be ponceau. There was thus really no tender for red ink of Indian manufacture.

3. The samples of black ink furnished with the above tenders were tried by us and tested by Dr. Rogers, Chemical Examiner, whose report on these and on the inks specified in the margin is herewith forwarded. Dr. Rogers also laid before the Committee specimens of writing executed with the various inks, which had been submitted to a considerable number of tests, showing how they had borne them. We beg to recommend the acceptance of the tender of G. D. Iyah Pillai, whose we consider to be on the whole the best of the inks tendered; and we do not think that an ink inferior to this should be supplied to public offices.

Morrell's registration black ink.
Dr. Waldie's black ink, tested under instructions demi-officially received from Government.

No. 77, dated 6th May 1882.

From—SURGEON T. K. ROGERS, M.B., F.R.C.S., F.C.S. (*London*), Chemical Examiner, Madras,

To—The Superintendent of Stationery, Madras.

As requested at the last meeting of the Committee, I have the honour to submit a brief abstract of the conclusions arrived at from the results of the various tests and trials which were for the most part shown to the Committee.

2. The two inks tendered in solution were both of excellent quality, but "Waldie's Black Writing Ink" was superior to "Morrell's Registration Ink."

3. The seven samples of inks tendered in powder are decidedly inferior in quality to "Morrell's" ink.

The results obtained with Iyah Pillai's ink were in every respect slightly superior to those obtained from the other six samples.

And Iyah Pillai's ink keeps much better than the other six samples, which grow mouldy after a very brief exposure.

Order thereon by the Government of Madras.

The Government sanction the acceptance of Iyah Pillai's tender for the supply of black ink. It is noted that there was no tender for red ink of Indian manufacture, the samples produced being merely fuchsine and ponceau powders.

No. 375.

Copy to the Government of India, Department of Finance and Commerce, for information.

No. 1733.—In exercise of the powers conferred by Section 8 of the Indian Stamp Act (I of 1879), the Governor General in Council is pleased to remit in the whole of British India the duty chargeable under the said Act on Bills of Lading executed out of British India and relating to property to be delivered in British India.

D. M. BARBOUR,

Offg. Secy. to the Govt. of India.

MILITARY DEPARTMENT.

Simla, the 16th June, 1882.

NOTICE TO MARINERS.

No. 23 of 1882.

RED SEA.

SHOAL GROUND OFF ZEBÁYIR ISLANDS.

The following Notice has been published by the Hydrographer to the British Admiralty:—

Information has been received from Commander P. Aldrich, H. M.'s Surveying-vessel *Fawn*, dated 8th April, 1882, of the existence of two sunken rocks, lying respectively off the north-east and south-east coasts of Jebel Zebáyir, the largest island of the Zebáyir group:—

1. A rock, with a least depth of 5½ fathoms over it, lies 8 cables from the north-east extremity of Jebel Zebáyir, with the following bearings:—

   North (Barn) hill, Jebel Zebáyir ... ... S. W. ¼ S.

   Northern end of sandy beach, Saba islet ... W. ¾ N.

2. A rock, with a least depth of 4 fathoms over it, lies 1 3/10ths miles from the south-east coast of Jebel Zebáyir, with the following bearings:—

   South extreme of Centre Peak island ... W. by S. ½ S.

   South hill, Jebel Zebáyir W. by N. ¼ N.

NOTE.—South-eastward of Jebel Zebáyir and the Centre Peak islands, the soundings are very irregular for a distance of 3 miles.

(*The bearings are Magnetic. Variation 4½° Westerly in 1882.*)

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I.N.),*
Superintendent, Marine Survey of India.

Marine Survey Department,
Calcutta,
The 10th June, 1882.

This Notice affects the following Admiralty Charts:—

Red Sea, sheet 4, No. 8*d*; sheet 5, No. 8*e*.

Index Chart No. 2523; also,

Red Sea Pilot, 1873, pages 15, 29; and

Taylor's Sailing Directory, Vol. I, page 165.

If this Notice is received on board-ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

NOTICE TO MARINERS.

No. 24 of 1882.

INDIA—WEST COAST.

KARWAR OR SADASHIVGAD.

Breaking adrift of Karwar Rock Buoy.

Information has been received from the Port Officer, Karwar, that the buoy marking the Karwar rock (Gudsar sunv.), lying to the W. N. W. of Elephant island, has broken adrift and sunk. It will be impracticable to replace it during the present monsoon.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr. (late I.N.),*
Superintendent, Marine Survey of India.

Marine Survey Department,
Calcutta,
The 13th June, 1882.

CALCUTTA MINT,
The 12th June 1882.

J. F. TENNANT, *Col., R.E.,*
Mint Master.

TREASURE TROVE.

It is hereby notified, under Section 5 of the Indian Treasure Trove Act (VI of 1878), that, about two months previous to the 18th April 1882, treasure consisting of Rs. 111 (107 old coins called Kangora rupees and 4 current English coins) was found hidden in a mud wall on the premises of one Battula Butchamma at Mokhása Kottavalsa, in Srungavarapukota Taluq, Vizagapatam District, in the Presidency of Fort St. George.

All persons claiming the treasure, or any part thereof, are required to appear either personally, or by an agent, before the Collector of Vizagapatam, on the 10th November 1882, in view to the matter being enquired into according to law.

J. HEWETSON,
Asst., for Acting Collector.

VIZAGAPATAM COLLECTOR'S OFFICE,
The 23rd May 1882.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The undermentioned Students have passed the L. C. E. Examination :—

SECOND DIVISION.

In Order of Merit.

Bandyopadhyay, Bhushanchandra ... Govt. Engrg. College, Howrah.
Ray, Sitaprasanna ... ... Ditto.

G. BELLETT,
Registrar.

SENATE HOUSE,
The 15th June 1882.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following changes in the Regulations in Engineering having been sanctioned by the Senate and approved by His Excellency the Governor General of India in Council, are published for general information :—

For the Regulations for the First Examination in Engineering, for the Licence in Engineering, and for the Degree of Bachelor in Engineering, the following Regulations have been substituted, with effect, as regards the First Examination in Engineering, on the 1st of August 1883, and as regards the Licence and the Degree of Bachelor in Engineering, on the 1st of January 1885 :—

FIRST EXAMINATION IN ENGINEERING.

1. The First Examination in Engineering shall be held every year in Calcutta, and shall commence at such time as the Syndicate may determine, the date to be approximately notified in the Calendar for the year.

2. Any undergraduate of the University may be admitted to this Examination, provided he has prosecuted a regular course of study in a School of Engineering affiliated to the University, for two years and six months after passing the Entrance Examination.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar, at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of twenty rupees shall be payable by each candidate. No candidate shall be admitted unless he has paid this fee to the Registrar. A candidate who fails to appear or to present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of twenty rupees on each occasion.

5. Every candidate shall be examined in the following subjects:—

I. Mathematics.
II. Natural Science.
III. Engineering Construction.
IV. Geodesy.
V. Drawing.

I. MATHEMATICS.

Arithmetic. The whole.

Algebra.

To the Binomial Theorem (omitting scales of notation) Exponential Theorem and Logarithms.

Geometry.

Euclid—Books 1, 2, 3, 4, and 6, with deductions, Conic Sections treated geometrically.

Trigonometry.

As far as the solution of all cases of plane triangles. DeMoivre's Theorem, Exponential values of Sine and Cosine.

Mensuration.

Mensuration of surfaces and solids.

Analytical Geometry.

Equations of the straight line, circle, ellipse, hyperbola, and parabola, without reference to the general equation of the 2nd degree.

Statics.

Parallelogram and triangle of forces, Resultant of parallel forces, Couples, Moments Equilibrium of any forces acting on a particle or rigid body. Centre of parallel forces, Centre of gravity. Friction, simple cases of tension of Strings, Levers, Pulleys, Wheel and axle, Inclined plane, Screw.

Dynamics.

Definition and measurement of mass, force, velocity, acceleration, momentum, work and energy.* Laws of motion, Uniform motion. Uniformly accelerated motion in a straight line, parabola and circle. Relative motion. Simple cases of impact.

II. NATURAL SCIENCE.

Chemistry.

Inorganic Chemistry. The metals and non-metals.

Physics.

Light, Heat, Electricity, Magnetism and the Elements of Telegraphy.

III. ENGINEERING CONSTRUCTION.

Materials. Structure, Classification, and characteristic qualities of Building Stones, Artificial Stones, Quarrying and Blasting, Preparation of Bricks and Tiles, Cementing materials, Plasters, Paints and Varnishes, Properties and preservation of timber, Iron and Steel, Lead, Copper, Zinc and the common Alloys.

IV. GEODESY.

Use of the scales, Prismatic Compass, Pocket Sextant, Level, Theodolite and Plane table. Topographical Surveying of limited areas. Practice of Levelling. Route surveying and laying out curves. Elements of Practical Astronomy. (Attested surveys, executed by the candidate, will be submitted to the Examiner, to which marks will be assigned.)

V. DRAWING.

1. Free-hand Drawing.
2. Projection (a) Orthographic, (b) Isometric, (c) Perspective.

6. The Examination shall be conducted by means of printed papers, and a paper of questions shall be set in each of the following subjects :—

Arithmetic and Algebra.
Plane Geometry and Geometrical Conic Sections.
Trigonometry and Mensuration.
Statics and Dynamics.
Analytical Geometry.
Chemistry.
Light and Heat.
Electricity, Magnetism, and the elements of Telegraphy.
Materials of Construction.
Geodesy.
Drawing.

* Special importance will be attached to a thorough comprehension of the principles of Work and Energy, and of their application to the solution of Mechanical questions.

7. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

LICENCE IN ENGINEERING.

1. An Examination for a Licence* in Engineering shall be held annually in Calcutta, and shall commence at such time as the Syndicate shall determine, the date to be approximately notified in the Calendar for the year.

2. Any undergraduate of the University may be admittted to this Examination on producing a certificate from the head of an institution affiliated to the University in Engineering, shewing that he has prosecuted a regular course of study for not less than one Academical year after passing the First Examination in Engineering.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of twenty-five rupees shall be payable by each candidate. No candidate shall be admitted unless he has paid this fee to the Registrar. A candidate who fails to pass or to present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of twenty-five rupees on each occasion.

5. Every candidate shall be examined in one of the following Branches marked A and B :—

A.—(Civil Engineering.)

I. Mathematics.
II. Natural Science.
III. Engineering Construction.
IV. Drawing.

I. MATHEMATICS.

Differential Calculus.

Differential coefficients of simple and complex functions, successive differentiation, Differential functions of two variables, functions of functions; Implicit functions. Taylor's and Maclaurin's Theorems. Maxima and Minima, values of functions of one variable.

Integral Calculus.

Integration of simple functions, Rational fractions. Formulæ of reduction. Lengths of curves. Areas of curves and surfaces. Volumes of solids. Differentiation of an integral.

Hydrostatics.

Equilibrium of fluids, Specific gravity, Equilibrium of floating bodies, Centre of pressure, Elastic fluids, Principles of Barometer, and application to determine heights of Mountains; of the air-pump. Condenser-pump, Siphon, Hydrostatic Press and the Hygrometers.

II. NATURAL SCIENCE.

Geology. (Excluding Palæontology and the Stratigraphical classification based thereon) with special reference to the practice of mining.

Mineralogy. The form of minerals. The physical, optical, and chemical character of minerals. The distribution of minerals. Paragenesis.

Metallurgy. The metallurgy of Iron, Steel, Tin, Copper, Zinc, Lead, Mercury, Silver and Gold.

* The holder of this Licence shall be styled a Licentiate in Engineering.

III. ENGINEERING CONSTRUCTION.

Practice of Building. Brick and stone masonry, Earthwork, Carpentry, Foundations, Walls, Floors and Roofs of Buildings, Construction of Masonry, Wooden and Iron bridges, Construction and maintenance of Roads, Construction of Railroads and Railway appliances.

Hydraulic Engineering. Canal and River Engineering, River training and improvements, Flow of liquids through orifices, Flow of liquids in pipes. The movements of water in Canals and Rivers, Flow of water over weirs and waste weirs, Afflux of fluids caused by obstructions, Water-wheels and Turbines, Storage of water, Supply of water to towns.

Applied Mechanics. Direct stresses, Bars and pillars of various forms in tension and compression, Transverse strain, Deflection of beams, Resistance to torsion. The equilibrium, stability and strength of Framed Structures, Stability of suspension bridges, Theory of Earth pressure, and Resistance of Block work Structures. Elements of Graphic Statics.

Mechanism. Elementary forms of Machines, Levers, Cranks, Rolling Contacts, Sliding Contacts, Mechanism for modifying motion, Accumulation and Regulation of Motion.

Steam Engine. Measurement of Heat, Joule's Equivalent, Indicators and Indicator diagrams, Boilers, Heating surface, injectors and all other parts of high and low pressure Engines.

IV. DRAWING.

Engineering and Architectural Drawing.

B.—(Mechanical Engineering.)

I. Mathematics.
II. Engineering Construction.
III. Machinery.
IV. Drawing.

I. MATHEMATICS.

As laid down for the Examination for Branch A.

II. ENGINEERING CONSTRUCTION.

Practice of Building. As laid down for the Examination for Branch A.

Applied Mechanics. As laid down for the Examination for Branch A.

Steam-Engine. The Steam-Engine as viewed under a knowledge of the doctrine of Latent Heat, with history of improvements and alterations in original theories; Combustion of fuel, Heat Engines. The conversion of Motion, Indicators and details of Construction, Boilers, Compound Cylinder Engines, Miscellaneous details.

Hydraulic Engineering. Hydraulic Machinery, Flow of water in pipes.

III. MACHINERY.

Mechanism and Machine design. Elementary forms of Machines, Levers, Cranks, Rolling Contacts, Sliding Contacts, Mechanism for modifying motion, Accumulation and regulation of Motion. Mode of designing Riveted Joints, Fastenings, Journals, Pivots, Axles, Shaftings, Bearings, Strength and form of toothed gearing, Belt and rope gearing, Link-work, Pistons, Stuffing boxes, Valves and Cocks.

Workshop Appliances. Measures of length and methods of measuring. Hand tools for wood and metals, Forming straight edges and surface plates. Foot and power Lathe, Machinery for Drilling, Boring, Planing, Shaping, Slotting, Punching, Shearing and Sawing. Distribution of motive power to Machine tools.

Designs. Designs of Factories and Workshops with arrangement of Machinery.

IV. DRAWING.

Machine Drawing.

6. Candidates shall also be allowed to present themselves for Examination in one or more of the following optional subjects, proficiency in which will affect their place in the division list, but will not be counted towards a pass :—

Optional Subjects.

I. MATHEMATICS.
Pure Mathematics } *as in the First Examination in Engineering.*
Mixed Mathematics }

II. NATURAL SCIENCE.
Chemistry } *as in the First Examination in Engineering.*
Physics }

III. ENGINEERING CONSTRUCTION.
Materials of Construction, *as in the First Examination in Engineering.*
IV. GEODESY, *as in the First Examination in Engineering.*

7. The Examination shall be conducted by means of printed papers, and a paper of questions shall be set in each of the following subjects :—

Branch A.

Differential and Integral Calculus.
Hydrostatics.
Geology.
Mineralogy and Metallurgy.
Details of Construction.
Roads and Railways.
Hydraulic Engineering.
Applied Mechanics.
Mechanism and Steam-Engine.
Engineering and Architectural Drawing.

Branch B.

Differential and Integral Calculus.
Hydrostatics.
Details of Construction.
Roads and Railways.
Applied Mechanics.
Hydraulic Engineering.
Mechanism and Machine design.
Designs, and Workshop appliances.
The Steam-Engine.
Machine Drawing.

Optional.

Pure Mathematics.
Mixed Mathematics.
Chemistry.
Physics.
Materials of Construction.
Geodesy.

8. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

BACHELOR IN ENGINEERING.

1. An Examination for the Degree of Bachelor in Engineering shall be held annually in Calcutta, and shall commence at such time as the Syndicate shall determine, the date to be approximately notified in the Calendar for the year.

2. Any candidate who has passed the First Examination in Arts* may be admitted to this Examination, provided he produces a certificate from the head of an institution affiliated in Engineering, shewing that he has prosecuted a regular course of study for not less than one Academical year, after passing the First Examination in Engineering.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar, at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of thirty rupees shall be payable by each candidate. No candidate shall be admitted, unless he has paid this fee to the Registrar. A candidate who fails to pass or present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of thirty rupees on each occasion.

5. Every candidate shall be examined in the subjects and in the manner ordered in paragraphs 5, 6 and 7 of the Regulations for a Licence in Engineering.

6. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

7. The first candidate of the first division shall receive a gold medal to the value of one hundred rupees.

8. Any Licentiate in Engineering, who has passed the First Examination in Arts, may, on paying the usual fee, be admitted to the Degree of Bachelor in Engineering without further Examination.

G. BELLETT,
Registrar.

SENATE HOUSE,
The 15th June 1882.

* Any undergraduate who has passed the First Examination in Engineering may proceed to the First Examination in Arts and the Bachelor of Art Examination, without completing the two years of study at an affiliated institution required under para. 2 of the First Arts and B. A. Regulations.

CURRENCY NOTES.

The following Currency Notes of the Government of India are stated to have been lost, and payment of their value has been claimed by the persons whose names are placed against the numbers. Any other person having these Notes in his possession, or claiming a right to them, is warned to communicate at once with the undersigned :—

Allahabad Circle.

POST OFFICE.

NOTIFICATIONS.

Simla, the 30th May 1882.

Exchange of Money Orders with the United States of America.

On and after the 1st July 1882, money orders will be exchanged in both directions with the United States of America.

2. The following rates of commission, which now apply to money orders drawn upon the United Kingdom and Canada, will apply from the date mentioned above, to money orders drawn upon the United States of America :—

	Rs.	A.	P
On sums not exceeding £2	0	8	0
On sums exceeding £2 and not exceeding £ 5 ...	1	0	0
" £5 " £ 7 ...	1	8	0
" £7 " £10 ...	2	0	0

3. The maximum limit for single orders drawn upon the United States of America is £10. No person may obtain in one day more than four money orders payable to the same person.

4. In these and in other respects money orders drawn upon the United States of America will be treated exactly like money orders drawn upon the United Kingdom or Canada. (*Vide* Clauses 243 to 258 of the Postal Guide, dated January 1882.)

L. G. WAIT,
Asst. Dir. Genl. of the Post Office of India, Foreign Post Branch.

The 9th June 1882.

No. 2582.—Appointments in the Post Office Department made by the Director General of the Post Office of India :—

POSTAL CIRCLE, BENGAL.

Babu Purna Chundra Mustafi, a 3rd Grade Superintendent, is transferred from the Rungpur Division to the Furreedpore Division.

Babu Surjya Kanta Mittra, a 4th Grade Superintendent, is transferred from the Furreedpore Division to the Rungpur Division.

Moonshee Alladad Khan is appointed to act as a 4th Grade Superintendent.

Mr. Knox Homan is appointed a 4th Grade Superintendent, and posted to the Cuttack Division.

Babu Mahendra Nath Banerji is appointed to act as a 4th Grade Superintendent and Examiner of Head Office Accounts.

Babu Surjya Kumar Ganguli is appointed to act as an Examiner of Head Office Accounts.

Mr. W. R. Monks is appointed to act as an Examiner, Head Office Accounts.

Babu Akhay Kumar Sanyal is appointed to be Post Master of Howrah.

Mr. A. J. MacPherson is appointed to be Post Master of Darjeeling.

POSTAL CIRCLE, MADRAS.

Mr. W. G. Wright is appointed to officiate as a Superintendent of the 4th Grade.

Mr. C. Smith is appointed to officiate as a Superintendent of the 3rd Grade and to be an Examiner of Head Office Accounts.

Gulam Raza Saib, a Superintendent of the 3rd Grade, is posted to the Nellore Division.

Mr. T. D. Dinwiddie is appointed to officiate as a Superintendent of the 3rd Grade.

Mr. J. Bower is appointed to officiate as a Superintendent of the 2nd Grade.

Mr. A. Rhenius is appointed to officiate as a Superintendent of the 4th Grade.

E. R. DOUGLAS,

Depy. Dir. Genl. of the Post Office of India.

E. HUTTON,

Presidency Post Master.

NOTICE.

Waste Lands available for Planters in the Tavoy District.

Waste lands, covered at present with forest, bamboos or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,800 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 190 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application to the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices in Tavoy, namely,—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.

(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the tenth year after he enters on possession, provided that he takes *bonâ fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated in each year.

(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-third of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.

(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bonâ fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met as far as possible in regard to the situation and shape of their grants. But ordinarily—

(*a*) no grant will be given where the Forest Department intend to make a forest reserve;

(*b*) no grant will be given on such a place as will unduly circumscribe the extension of cultivation of the grazing grounds of any neighbouring village or hamlet;

(*c*) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;

(*d*) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI.—The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.

VII.—In order to encourage pioneers in the coffee and cinchona enterprise in Tavoy, the Government will pay to the first four grantees who begin *bonâ fide* planting operations Rs. 15 per head for every Indian or Chinese coolie, male or female, over 16 years of age, who may be settled and housed on their plantations before the 1st March 1885.

VIII.—In any case of doubt regarding the *bonâ fide* character of operations for the purposes of concessions III and VII, the Deputy Commissioner will decide, and his decision will be subject to appeal to the Commissioner of Tenasserim, whose decision will be final.

IX.—All minerals and metals under and within the lands granted under these rules are reserved by Government, together with a right to enter upon and resume such portion of land as may be necessary for examining or working mines upon payment of just compensation to the grantee for loss of, or injury done to, the surface.

G. D. BURGESS,

Secy. to the Chief Commr., British Burma.

The 6th April 1882.

DUM-DUM CEMETERY.

List of dilapidated Tombs in the oldest Dum-Dum Cemetery requiring repair or else removal.

Serjeant Thomas Cook, Artillery,—*obiit* 5th March 1800, *æt.* 50 years.

Anna Louisa Horsford, wife of Lieutenant R. Horsford, Artillery,—*obiit* 16th July 1831, *æt.* 21 years.

HENRY F. BLANFORD,
Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
" MADRAS SERIES ...	" 8	" 9
" BOMBAY SERIES ...	" 8	" 9
" ALLAHABAD SERIES	" 8	" 9
Complete set... ...	" 45	" 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

For a Part of the CALCUTTA SERIES ...	Rs. 3	8
" " MADRAS SERIES ...	" 1	0
" " BOMBAY SERIES ...	" 1	0
" " ALLAHABAD SERIES.	" 1	0
Complete set	" 4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA ;
MESSRS. THACKER AND CO., BOMBAY ;
MESSRS. HIGGINBOTHAM AND CO., MADRAS ;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY ;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

NOTIFICATION.

With the consent of the Government of India, the Government of His Highness the Maharaja of Mysore is prepared to receive tenders for a Debenture Loan of (Rs. 20,00,000) twenty lakhs of Rupees on the security of the general revenues of the Mysore Province. The amount of the Loan is to be expended entirely on the construction of an important line of railway from Bangalore to Tiptoor, a distance of about 85 miles.

2. Debentures will be issued for the said amount bearing interest at the rate of five per cent. per annum, payable half-yearly on the 15th February and 15th August of each year and having a currency of twenty years. The interest will be payable at any of the Government Treasuries of the Mysore Province or at the Banks of Bengal, Madras or Bombay and their branches.

3. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. (500) five hundred, or some multiple of Rs. 500.

4. Tenders for the whole or any part of the above-named sum of Rs. (20,00,000) twenty lakhs will be received by the Comptroller to the Mysore Government at Bangalore up to noon on the 1st July 1882.

5. Each tender should be in the form hereto annexed, and enclosed in a sealed cover superscribed "Tender for the Mysore Railway Loan of 1882," and sent to the Comptroller to the Government of Mysore at Bangalore.

6. The tenders will be opened at the Dewan's Office at Bangalore in the presence of the Dewan and other members of the Mysore Government on the 1st July 1882 at noon, a minimum rate having first been fixed by the Dewan.

7. Each tender must be accompanied by the deposit of a sum equal to 2 per cent. of the amount tendered. Such deposit may be made by paying the amount to the credit of the Dewan of Mysore at the Banks of Bengal, Madras and Bombay, or at any of their branches, or at any of the Treasuries of the Mysore Government, and forwarding with the tender the receipt of such Bank or Treasury or by a Money Order payable to the Dewan of Mysore, or by Government of India Promissory Notes duly endorsed in favor of the Dewan of Mysore.

8. If the tender be accepted either in whole or in part, the deposit made will be taken in part payment, and the tenderer must arrange for the payment of the remainder of the amount of the loan allotted to him on or before the 15th August 1882 into any of the Treasuries of the Mysore Government, or into the Banks of Bengal, Madras or Bombay or any of their branches to the credit of the Dewan of Mysore, failing which the deposit made will be forfeited.

9. Debentures will be issued as soon as possible after receipt of the amount of allotment.

10. The deposit on tenders which may not be accepted will be returned on application.

11. In the case of two or more tenders at the same rate (not being below the minimum), a *pro rata* allotment will, if necessary, be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered, and a separate deposit must accompany each tender.

14. The annual revenues of the Mysore Province amount at present to Rs. 1,06,00,000 (one hundred and six lakhs of Rupees), and are expected to yield an annual surplus of five lakhs after defraying all charges and providing for repayments on account of the Famine Loan due to the Government of India.

15. Arrangements will be made for securing negotiability to the Debentures in British India free of Stamp Duty.

C. RANGACHARLU,
Dewan.

OFFICE OF THE DEWAN OF MYSORE,
BANGALORE,
The 1st May 1882.

Form of Tender.

I hereby tender for Rupees of the Loan advertized in the Notification of the Dewan of Mysore, dated 1st May 1882, and agree to pay the same subject to the conditions notified, at the rate of Rupees for every Rs. 100 allotted to me.

I enclose on account of the required deposit of 2 per cent. on the amount tendered (*here enter particulars of deposit*), and engage, if my offer is accepted, to pay the remainder of the amount of the Loan allotted to me on or before the 15th August 1882, in the manner prescribed in the Notification. Any allotment made to me may be communicated to the following address.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 7th June, 1882, and is hereby promulgated for general information :—

ACT No. XVII OF 1882.

An Act to amend the Indian Ports Act, 1875.

WHEREAS it is enacted by the Indian Ports Act, 1875, section thirty-eight, that no vessel of the burden of two hundred tons or upwards shall be moved in any port to which that section has been specially extended without having a Pilot, Harbour-master or Assistant of the Master Attendant or Harbour-master on board; and that no vessel of any burden less than two hundred tons and exceeding one hundred tons shall be moved in any such port without having on board a Pilot, Harbour-master or Assistant of the Master Attendant or Harbour-master, unless authority in writing so to do has been obtained from the Conservator or some officer empowered by him to give such authority;

And whereas it is expedient to exempt Native vessels when moved in the Port of Bombay from the provisions of the recited section;

And whereas it is also expedient to exempt pleasure-yachts throughout British India from the levy of port-dues;

It is hereby enacted as follows :—

Short title. Commencement.

1. This Act may be called the Indian Ports Act, 1882; and it shall come into force at once.

Amendment of section 38 of Act XII of 1875 as to Native vessels in Port of Bombay.

2. To the recited section the following words shall be added :—

"Nothing in this section shall apply to Native vessels when they are moved in the Port of Bombay.

"If any question arises as to whether any vessel is a Native vessel within the meaning of this section, the decision thereon of such authority as the Governor of Bombay in Council may from time to time appoint in this behalf shall be conclusive."

Addition to Act XII of 1875.

3. After section fifty-eight of the Indian Ports Act, 1875, the following section shall be inserted, namely :—

Port-dues not chargeable on pleasure-yachts.

"58A. No port-dues shall be chargeable in respect of any pleasure-yacht."

PART V.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Bill was introduced into the Council of the Governor General of India for the purpose of making Laws and Regulations on the 31st May, 1882:—

No. 7 OF 1882.

A Bill to modify temporarily certain provisions of the Petroleum Act, 1881.

Preamble.

WHEREAS there is reason to doubt whether the mode of testing petroleum prescribed by the Petroleum Act, 1881, is in all cases to be relied on in India, and it is therefore expedient, pending the removal of that doubt, or the adoption of an improved mode of testing petroleum, to afford, in respect of petroleum imported under certain guarantees as to its quality, some relief from the difficulties under which, owing to the said doubt, persons dealing in such petroleum might otherwise labour; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Petroleum Act, 1882.

Commencement. Duration.

It shall come into force at once, and shall continue in force only until the first day of January, 1883, or such later date as the Governor General in Council may, from time to time, by notification in the *Gazette of India*, fix in this behalf,

This Act to be read with Act VIII of 1881.

and as long as it continues in force shall be read with, and taken as part of, the Petroleum Act, 1881.

Certain petroleum not to be deemed "dangerous petroleum."

2. Whenever it appears to the Governor General in Council that certificates of any description are commonly granted in any place beyond the limits of British India in respect of petroleum exported from that place to British India and that a certificate of that description is sufficient to prove that the petroleum therein referred to would, if tested in the manner prescribed by the Petroleum Act, 1881, at the place from which it is exported, have a flashing point not below seventy-three degrees of Fahrenheit's thermometer, the Governor General in Council may direct that petroleum imported from that place and covered by a certificate of that description shall not be deemed to be dangerous petroleum.

While any such direction continues in force, petroleum to which it applies shall not be deemed to be dangerous petroleum.

STATEMENT OF OBJECTS AND REASONS.

COMMUNICATIONS received by the Government of India by telegraph within the last two or three weeks afford ground for apprehending that petroleum which, when tested in America and elsewhere in the manner prescribed by the Petroleum Act, 1881, flashes at a point above 73° Fahrenheit may, when tested in the same manner on its arrival here, flash at a point below 73° Fahrenheit, and consequently have to be placed under the restrictions to which dangerous petroleum is subject. It has been suggested that this is probably due not to any want of care on the part of those applying the test in either country, but to the difference of climate. Steps have been taken with a view to having the matter fully inquired into; but as this will take some time, and as it is but fair that importers should in the meanwhile be relieved from the hardship to which they are exposed, it is proposed for the present to exclude from the class of dangerous petroleum all petroleum covered by a certificate granted at the place of export and of such a description that, in the opinion of the Governor General in Council, it may be accepted as proving that the petroleum it refers to, if tested at the place of export according to our method, would be found to have a flashing point above 73° Fahrenheit.

C. P. ILBERT.

THE SCHEDULE.

PART I.—OFFICES TO BE DEEMED TO HAVE BEEN SPECIFIED IN SECTION 6, CLAUSE (*a*).

PART II.—PERSONS TO BE DEEMED TO HAVE BEEN APPOINTED FELLOWS UNDER SECTION 6, CLAUSE (*b*).

A Bill to establish and incorporate the University of the Panjáb.

Preamble.

WHEREAS an Institution, styled at first the Lahore University College but subsequently the Panjáb University College, was established at Lahore in the year 1869 chiefly for the purpose of promoting the diffusion of European science, as far as possible, through the medium of the vernacular languages of the Panjáb, improving and extending vernacular literature generally, affording encouragement to the enlightened study of the Eastern classical languages and literature, and associating the learned and influential classes of the Province with the officers of Government in the promotion and supervision of popular education;

But it was at the same time provided that every encouragement should be afforded in that institution to the study of the English language and literature, and that in all subjects which could not be completely taught in the vernacular the English language should be regarded as the medium of examination and instruction therein;

And whereas this Institution was by a Notification, No. 472, dated 8th December, 1869, published in the *Panjáb Government Gazette* of the twenty-third day of December, 1869, declared to be so established in part fulfilment of the wishes of a large number of the Chiefs, Nobles and influential classes of the Panjáb, and it is now expedient, the said Institution having been attended with success, further to fulfil the wishes of the said Chiefs, Nobles and influential classes, by constituting the said Institution a University for the purpose of ascertaining, by means of examination or otherwise, the persons who, having studied in such Colleges as may be affiliated in manner hereinafter provided, have acquired proficiency in different branches of Literature, Science and Art, and for the purpose of conferring upon them academical degrees, diplomas, licenses and marks of honour;

And whereas it is also expedient that the University so constituted should be incorporated, and that the property, moveable and immoveable, which has been hitherto held by, or in trust for, the said Institution should become the property of the University, subject to all existing trusts as to the manner in which, and the purposes to which, that property or any part thereof is to be applied;

The draft Bill referred to is that annexed to Panjáb letter No. 1277, dated 30th March, 1881.

It is hereby enacted as follows :—

Draft Bill, s. 1.

Short title. Commencement.

1. This Act may be called the Panjáb University Act, 1882; and it shall come into force at once.

cf. draft, s. 2. cf. also 42 & 43 Vic., c. 65, s. 2.

Establishment of University.

2. *(1)* A University shall be established at Lahore under the patronage of the Governor General for the time being.

Draft, s. 4: Act II of 1857, s. 3. cf. 42 & 43 Vic., c. 65, s. 3.

(2) The University so established shall consist of a Chancellor, a Vice-Chancellor and such number of Fellows as may be determined in manner hereinafter provided.

Draft, ss. 2 & 3: Act II of 1857, ss. 1 & 2. cf. 42 & 43 Vic., c. 65, s. 3.

University to be a Body Corporate.

(3) The University shall be a Body Corporate by the name of the University of the Panjáb, having perpetual succession and a common seal, with power to acquire and hold property, moveable or immoveable, to transfer the same, to contract, and to do all other things necessary for the purposes of its constitution.

(4) The University shall come into existence on such day as the Local Government may by notification in the official Gazette appoint in this behalf.

New. cf. 42 & 43 Vic., c. 65, s. 12.

Property of Panjáb University College to vest in University.

3. All the property, moveable and immoveable, at present held by or in trust for the Panjáb University College shall, when this Act comes into force, become the property of the University, to be administered by it for the purposes of the University subject to all existing trusts as to the manner in which, and the purposes to which, that property or any part thereof is to be applied.

Draft, s. 5: Act II of 1857, s. 4.

Chancellor.

4. The Lieutenant-Governor of the Panjáb for the time being shall be the Chancellor of the University; and the first Chancellor shall be the Hon'ble Sir Charles Umpherston Aitchison, Knight Commander of the Most Exalted Order of the Star of India, Companion of the Order of the Indian Empire, Doctor of Laws.

Draft, s. 6: Act II of 1857, s. 5.

Vice-Chancellor.

5. The Vice-Chancellor shall be such one of the Fellows as the Chancellor may, from time to time, by notification in the local official Gazette, appoint in this behalf.

He shall hold office for two years from the date of his appointment, and on the expiration of his term of office may be reappointed.

Draft, s. 8.

Fellows.

6. The following persons shall be Fellows, namely :—

(a) every person who has held the office of Chancellor and all persons for the time being holding such offices under Government as the Chancellor may, from time to time, by notification in the local official Gazette, specify in this behalf;

(b) persons whom the Chancellor may, from time to time, by like notification, appoint by name as being eminent benefactors of the Panjáb University, original promoters of the movement in favour of the establishment of the Panjáb University College, or persons distinguished for attainments in Literature, Science or Art, or for zeal in the cause of education;

(c) such persons (if any) as may from time to time be elected by the Senate hereinafter constituted, and approved by the Chancellor; and — Draft, s. 9.

(d) the representatives for the time being with the Government of the Panjáb of such Chiefs (if any) of territories not comprised in British India as the Lieutenant-Governor may, from time to time, by like notification, specify in this behalf:

Provided—

Number of Fellows.

(1) that the whole number of the Fellows holding office under clauses *(a)*, *(b)* and *(c)* exclusive of the Vice-Chancellor shall never be less than fifty; and — Draft, s. 7: Act II of 1857, s. 6.

(2) that the number of persons elected under clause *(c)* shall never exceed the number appointed under clause *(b)*.

The appointment of a Fellow may be cancelled.

7. The Chancellor may, whenever he thinks fit, by a notification in the local official Gazette, cancel the appointment of any Fellow appointed under section six, clause *(b)*, or cancel or amend any notification issued under section six, clause *(a)* or clause *(d)*. — Draft, s. 10: Act II of 1857, s. 7.

Office of Vice-Chancellor vacated by leaving India.

8. If a Vice-Chancellor leaves India without the intention of returning thereto, he shall thereupon cease to be Vice-Chancellor. — Draft, s. 4.

First Vice-Chancellor and Fellows appointed.

9. *(1)* James Broadwood Lyall, Esquire, of the Bengal Civil Service, and at present Financial Commissioner of the Panjáb, shall be deemed to have been appointed the first Vice-Chancellor under section five; and his term of office shall expire on the first day of September, 1884. — Draft, s. 2: Act II of 1857, s. 5.

(2) The offices specified in Part I of the schedule hereto annexed shall be deemed to have been specified in a notification issued under section six, clause *(a)*; and

(3) the persons named in Part II of that schedule shall be deemed to have been appointed Fellows under clause *(b)* of that section.

Chancellor, Vice-Chancellor and Fellows to form Senate of the University.

10. *(1)* The Chancellor, Vice-Chancellor and Fellows for the time being shall form the Senate of the University. — Draft, s. 11: Act II of 1857, s. 8.

Senate to superintend the affairs of the University.

(2) The Senate shall have the entire management and superintendence over the affairs, concerns and property of the University, and shall provide for that management and exercise that superintendence at meetings convened in accordance with the rules made under this Act.

Chairman appointed.

11. At every meeting of the Senate the Chancellor, or in his absence the Vice-Chancellor, shall preside as Chairman; and, in the absence of both, a Chairman shall be chosen by the Fellows present, or the majority of them.

Questions to be decided at meetings of the Senate.

12. Every question which comes before the Senate at a meeting shall be decided by a majority of the votes of the members present; and the Chairman at any such meeting shall have a vote, and, in case of an equality of votes, a second or casting vote: — Draft, s. 12: Act II of 1857, s. 9.

Provided that no question shall be decided at any such meeting unless fourteen Fellows at the least besides the Chairman are present at the time of the decision.

Number of members to be present at meeting of Senate.

Draft, s. 13: Act II of 1857, s. 10.

13. Subject to such rules as may be made under this Act, the Senate may from time to time appoint and remove all examiners, officers and servants of the University, and may also appoint a Syndicate.

Appointment and removal of examiners and officers.

Draft, s. 14.

14. *(1)* The Senate may confer on all persons who have gone through such previous course of instruction in an affiliated college, passed such examinations in the University, and fulfilled such other conditions as may be prescribed by the rules to be made under this Act,—

Power to confer degrees, &c., after examination.

Act II of 1857, s. 11.

(*a*) the degrees of Bachelor of Arts, Master of Arts, and, if empowered by the Governor General in Council in this behalf, the degrees of Bachelor of Laws, Bachelor of Medicine, Doctor of Medicine and Master of Civil Engineering, as the case may be;

Act XLVII of 1860, s. 1.

(*b*) such other degrees and such diplomas or licenses as may be prescribed by any rules made under this Act; and

Act II of 1857, s. 11.

(*c*) such marks of honour for a high degree of proficiency in the different branches of Literature, Science and Art as may be prescribed by rules made as aforesaid.

(2) "Affiliated College" in this section means such Colleges as may from time to time be affiliated to the University by an order of the Senate approved of by the Local Government and confirmed by the Governor General in Council.

(3) An order affiliating a College may be rescinded by an order similarly made, approved and confirmed.

Draft, s. 16: Act II of 1857, s. 13.

15. Notwithstanding anything in section fourteen, the Senate may confer degrees, diplomas, licenses or marks of honour as provided by that section on all persons who have in the year 1882, and previous to the passing of this Act, passed such examinations prescribed by the Panjáb University College as may be sufficient to satisfy the Senate that they are persons qualified in point of learning to obtain those degrees, diplomas, licenses or marks of honour.

Power to confer degrees on persons who have passed examinations at the Lahore University College in 1882.

Draft, s. 15: Act XXI of 1875, s. 1.

16. Notwithstanding anything hereinbefore contained, the Senate may grant a degree to any person without requiring him to undergo any examination for that degree:

Power to confer honorary degrees.

Provided that the Vice-Chancellor, and not less than ten of the members of the Syndicate appointed under section thirteen (exclusive of the Vice-Chancellor, if a member of that Syndicate) certify in writing that in their opinion that person is, by reason of eminent position and attainments, a fit and proper person to receive such degree.

Draft, s. 18: Act II of 1857, s. 15.

17. The Senate may charge such reasonable fees, on admission into the University, for continuance therein, and for the degrees, diplomas and licenses to be conferred by it, as the University, with the approbation of the Chancellor, from time to time, thinks fit to impose.

Power to levy fees.

Draft, s. 11.

18. *(1)* The Senate may from time to time make rules consistent with this Act touching—

Power to make rules.

(*a*) the mode and time of convening the meetings of the Senate;

(*b*) the appointment, removal and remuneration of the examiners, officers and servants;

(*c*) the appointment of the Syndicate;

(*d*) the previous course of instruction to be followed, the examinations to be passed, and the other conditions to be fulfilled by candidates for degrees, diplomas, licenses and marks of honour respectively;

(*e*) the conduct of examinations for the mode of granting, and the titles of, degrees, diplomas, licenses and marks of honour; and

(*f*) generally all matters regarding the University.

(2) All such rules shall be reduced into writing, and shall, after the common seal of the University has been affixed thereto, and they have been confirmed by the Lieutenant-Governor and sanctioned by the Governor General in Council, be binding on all persons, members of the University, or admitted thereto, and on all candidates for degrees, diplomas, licenses and marks of honour.

THE SCHEDULE.

(*See Section 9.*)

PART I.

Offices to be deemed to have been specified under section 6, clause (*a*):—

Judge of the Chief Court, Panjáb;
Financial Commissioner of the Panjáb;
Surgeon-General of the Panjáb;
Commissioner of Lahore;
Commissioner of Delhi;
Commissioner of Amritsar;
Accountant-General of the Panjáb;
Director of Public Instruction, Panjáb;
Principal of the Lahore Government College;
Principal of the Lahore Medical School;
Inspector of Schools;
Deputy Commissioner of Lahore;
Deputy Commissioner of Delhi;

PART II.

Persons to be deemed to have been appointed Fellows under section 6, clause (*b*):—

His Highness Mahárájá Ranbír Singh, of Jammu and Kashmir, G.C.S.I., C.I.E., Counsellor of the Empress of India;

His Highness Mahárájá Rájindar Singh, of Patiala;

His Highness Nawáb Sádik Muhammad Khán, of Bahawalpur, G.C.S.I.;

His Highness Rájá Raghbír Sing, of Jind, G.C.S.I., C.I.E., Counsellor of the Empress of India;

His Highness Rájá Híra Singh, of Nabha, G.C.S.I.;

His Highness Rájá Jagatjit Singh, of Kapurthala;

Rájá Bije Sen of Mandi;

Nawáb Ibrahim Ali Khán, of Máler Kotla;

Nawáb Abdul Majíd Khán;

Sardár Ajít Singh, Atáriwála;
Rai Amín Chand, Sardár Bahádur;
Maláz-ul-Ulma Sardár Atar Singh, C.I.E., of Bhadaur;
Major-General Henry Prevost Babbage, Bengal Staff Corps, late Deputy Commissioner, Panjáb;
David Graham Barkley, Esquire, M.A., Bengal Civil Service, Barrister-at-Law;
Deputy Surgeon-General Henry Walter Bellew, C.S.I.;
Reverend Edward Bickersteth, M.A.;
Charles Boulnois, Esquire, Barrister-at-Law, late Judge, Chief Court, Panjáb;
Sardár Bikrama Singh, C.S.I., Ahluwália;
Arthur Brandreth, Esquire, Barrister-at-Law, late of the Bengal Civil Service, and Judge, Chief Court, Panjáb;
Surgeon-Major Thomas Edwin Burton Brown, M.D.;
James Scarlett Campbell, Esquire, late of the Bengal Civil Service, and Judge, Chief Court, Panjáb;
Surgeon-Major William Center, M.D., M.A.;
Reverend Robert Clark, M.A.;
John Graham Cordery, Esquire, M.A., Bengal Civil Service;
The Hon'ble Henry Stuart Cunningham, Esquire, M.A., Barrister-at-Law, Judge of the High Court, Calcutta;
Surgeon-Major Alexander Morrison Dallas;
Mansel Longworth Dames, Esquire, Bengal Civil Service;
Deputy Surgeon-General Annesley Charles Castriot DeRenzy, B.A.;
Sir Robert Henry Davies, K.C.S.I., C.I.E., late Lieutenant-Governor of the Panjáb and its Dependencies;
Colonel William George Davies, C.S.I.;
Sir Robert Eyles Egerton, K.C.S.I., C.I.E., Counsellor of the Empress, late Lieutenant-Governor of the Panjáb and its Dependencies;
Dennis Fitzpatrick, Esquire, B.A., Bengal Civil Service, Barrister-at-Law;
Reverend C. W. Foreman, D.D.;
The Right Reverend Thomas Valpy French, D.D., Lord Bishop of Lahore;
Munshi Ghulám Nabi;
Surgeon-Major Robert Gray, M.B.;
Major Leopold John Henry Gray, C.S.I., Bengal Staff Corps;
Sir Lepel Henry Griffin, K.C.S.I., Bengal Civil Service;
Pandit Guru Parshád;
Syad Hádi Husain Khan;
Rája Harbans Singh;
Kaur Harnám Singh, Ahluwália;
Edward Piercy Henderson, Esquire, Bengal Civil Service, Barrister-at-Law;
Surgeon-Major George Henderson, M.D.;
Mir Hidáyat Ali Khán, Bahádur;
Lieutenant-Colonel William Rice Morland Holroyd;
Reverend W. Hooper, M.A.;
Reverend T. P. Hughes, B.D.;
Munshi Hukm Chand;
Sodhi Hukm Singh;
Denzil Charles Jelf Ibbetson, Esquire, B.A., Bengal Civil Service;
Rájá Jahándád Khán, Khán Bahádur, Ghakkar;
Agha Kalbabid;
Fakír Syad Kamr-ud-din;
Rai Bahádur Kanhya Lal, C.E.;
Khán Bahádur Khán Muhammad Shah;
Bába Khem Singh, C.I.E., Bedi;
John Lockwood Kipling, Esquire;
Charles Robert Lindsay, Esquire, late of the Bengal Civil Service, and Judge, Chief Court Panjáb;
Surgeon Edward Lawrie, M.D.;
Gottlieb William Leitner, Esquire, M.A., PH.D., LL.D.
Thomas Crampton Lewis, Esquire, M.A.;
James Broadwood Lyall, Esquire, Bengal Civil Service.
General Robert Maclagan, R.E., late Secretary to Government, Panjáb, Public Works Department;
Colonel Charles Alexander McMahon;
The Ven'ble Henry James Matthew, M.A., Archdeacon of Lahore;
Colonel Julius George Medley, R.E.;
Philip Sandys Melvill, Esquire, C.S.I., late of the Bengal Civil Service, and Governor-General's Agent, Baroda;
John Andrew Erasmus Miller, Esquire;
Pandit Moti Lal, Káthju;
Khán Bahádur Muhammad Barkat Ali Khán;
Muhammad Hyat Khán, C.S.I.;
Khalifa Syad Muhammad Hussain;
Rái Mul Singh;
Násir Ali Khán, Kazilbásh;
Náwab Nawázish Ali Khán;
Major Edward Newbery;
Bábu Navina Chandra Rái;
Edward O'Brien, Esquire, Bengal Civil Service;
Henry Edmund Perkins, Esquire, Bengal Civil Service;
Henry Meredith Plowden, Esquire, B.A., Barrister-at-Law;
Major-General Charles Pollard, R.E.;
Baden Henry Baden-Powell, Esquire, Bengal Civil Service;
Edward Augustus Prinsep, Esquire, late of the Bengal Civil Service, and Settlement Commissioner, Panjáb;
Honorary Surgeon Rahim Khán, Khán Bahádur;
Diwán Rám Náth;
William Henry Rattigan, Esquire, M.A., PH.D., Barrister-at-Law;
Pandit Rikhí Kesh;
Rájá Sir Sahib Dyál, K.C.S.I.;
Rái Bahádur Sahib Singh;
Leslie Seymour Saunders, Esquire, Bengal Civil Service;
David Simson, Esquire, late of the Bengal Civil Service, and Judge, Chief Court, Panjáb.
Brigade-Surgeon John Barcley Scriven, late Civil Surgeon, Lahore;
John Sime, Esquire, B.A.;
Surgeon-General Charles Manners Smith, late of the Indian Medical Service;
John Watt Smyth, Esquire, Bengal Civil Service, Barrister-at-Law;
Charles Henry Spitta, Esquire, LL.B., Barrister-at-Law;
Thomas Henry Thornton, Esquire, D.C.L., C.S.I., late of the Bengal Civil Service, and Judge, Chief Court, Panjáb;
Thomas William Hooper Tolbort, Esquire, Bengal Civil Service, Barrister-at-Law;
Charles Lewis Tupper, Esquire, B.A., Bengal Civil Service;
Major Isaac Peatt Westmoreland, R.E.;
Major-General Gordon Young;
William Mackworth Young, Esquire, M.A., Bengal Civil Service;
Maulvi Ziá-ud-din Khán.

STATEMENT OF OBJECTS AND REASONS.

IN the year 1869 the Governor General in Council was pleased, in accordance with the recommendations of the Lieutenant-Governor of the Panjáb, and in part fulfilment of the wishes of a large number of the chiefs, nobles and influential classes of the Panjáb, to sanction the establishment at Lahore of an institution, then styled the Lahore University College, but subsequently styled the Panjáb University College. The special objects of this College, as stated by its statutes, were as follows :—

(1) to promote the diffusion of European science as far as possible through the medium of the vernacular languages of the Panjáb, and to improve and extend vernacular literature generally ;

(2) to afford encouragement to the enlightened study of Eastern classical languages and literature; and

(3) to associate the learned and influential classes of the Province with the officers of Government in the promotion and supervision of popular education.

It was, however, at the same time laid down that every encouragement should be afforded to the study of the English language and literature, and that in all subjects which could not be completely taught in the Vernacular the English language would be regarded as the medium of examination and instruction.

At the time of the establishment of this College, promises were held out by Government that, if attended with due success, it might eventually be raised to the status of a University; and large sums of money have been, from time to time, given to the College by the chiefs and influential classes of the Panjáb, who have long looked forward to the fulfilment of these promises. As the College has, in the opinion of Government, been attended with due success, it has been determined to carry out what is believed to be the almost universal wish of the Natives of the Panjáb who are interested in education, and constitute the College a University.

2. The present Bill has, therefore, been prepared. Section 2 establishes the University, and confers on it all the powers of a body corporate. Section 3 provides for the transfer to the University of all the property at present held by or in trust for the University College. Sections 4 to 8 deal with the constitution of the University, and provide for a Chancellor, who is to be the Lieutenant-Governor of the Panjáb for the time being, a Vice-Chancellor to be appointed by the Chancellor, and a body of Fellows.

The Fellows will be of four classes, namely: (1) the holders for the time being of certain offices, who are to be *ex-officio* Fellows; (2) persons appointed by the Chancellor as being eminent benefactors of the University, original promoters of the movement in favour of the Panjáb University College, or persons distinguished for attainments in literature, science or art, or by zeal in the cause of education; (3) persons chosen by the Senate and approved by the Chancellor; and (4) the representatives for the time being with the Government of the Panjáb of such independent Native chiefs as the Lieutenant-Governor may by notification in the Gazette specify. The schedule annexed to the Act contains a list of the persons who are to be deemed to be the first Fellows. Sections 10, 11 and 12 provide for a Senate and matters connected therewith. Section 13 empowers the Senate to appoint and remove all examiners, officers and servants of the University. Section 14 empowers it to confer certain degrees, but restricts the exercise of the power to confer the degrees of Bachelor of Laws, Bachelor of Medicine, Doctor of Medicine and Master of Civil Engineering until the Governor General in Council has given his assent thereto; and section 15 gives it power to confer like degrees in the case of persons who may have passed during the year 1882 such examinations of the Panjáb University College as may correspond to the degree examinations of the University. Section 16 empowers the Senate to confer honorary degrees in certain cases; section 17 to levy fees; and section 18 to make rules generally in all matters regarding the University.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House, Simla, on Wednesday, the 7th June, 1882.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.

His Honour the Lieutenant-Governor of the Panjáb, K.C.S.I., C.I.E.

His Excellency the Commander-in-Chief, G.C.B., C.I.E.

The Hon'ble J. Gibbs, C.S.I., C.I.E.

Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.

Major-General the Hon'ble T. F. Wilson, C.B., C.I.E.

The Hon'ble C. P. Ilbert, C.I.E.

The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.

The Hon'ble C. H. T. Crosthwaite.

The Hon'ble W. C. Plowden.

The Hon'ble W. W. Hunter, LL.D., C.I.E.

PORTS ACT AMENDMENT BILL.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to exempt certain vessels from the Indian Ports Act, 1875, section 38, be taken into consideration. He said:—

"The original object of this Bill was very limited. It was merely to exempt certain Native vessels in Bombay harbour from particular provisions of the Act as to compulsory pilotage. The Bill was referred to a Select Committee, and, whilst it was in that stage, an application was made to exempt pleasure-yachts from liability to harbour-dues. It appeared on enquiry that pleasure-yachts are exempted from such dues, not only in English waters, but, as I understand, throughout European waters, and that the amount now levied in respect of these dues in British Indian waters is so trifling as not to compensate for the trouble and annoyance caused by the levy. Under these circumstances, we have, on the recommendation of the Government of India in the Financial Department, added a section amending the Indian Ports Act in such a way as to exempt pleasure-yachts throughout British India from the payment of port-dues, and we have amended the title of the Bill in such a way as to make it correspond to its extended scope."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill, as amended, be passed.

The Motion was put and agreed to.

PETROLEUM BILL.

The Hon'ble MR. ILBERT also moved that the Bill to modify temporarily certain provisions of the Petroleum Act, 1881, be taken into consideration. He said:—

"This Bill, as I stated on the occasion of the last meeting of the Council, was introduced in compliance with the request of the Secretary of State, and

for the following reasons: It will be remembered that under the Act of 1881 the dangerous quality of petroleum is ascertained by a certain chemical test, which is described in the schedule to the Act, and is commonly known as Abel's test. Now, Professor Abel has recently advised the Secretary of State that conditions of climate make the test provided by the Act of 1881—his own test be it remembered—so uncertain as to be inapplicable in India. That is a very serious statement, and it is one which appears to shake the scientific foundations on which the Act of 1881 rests; and, if it is to be accepted as sound, it is difficult to avoid the conclusion that the Act of 1881 is unsuitable, and ought to be amended as soon as possible. Under these circumstances, and in order to meet certain cases which, as it was alleged, involved considerable hardship under the existing law, the Secretary of State suggested the expediency of passing forthwith a short temporary measure admitting petroleum on certificates granted at the port of departure. In deference to this suggestion, and to the opinion of the eminent scientific authority on which it was based, we prepared and introduced the present measure.

"It will be observed that this measure is temporary, provisional, and, above all things, permissive. It is temporary, as it is contemplated that it shall, after passing, continue in force only until the first day of January, 1883, or until such later date as the Governor General in Council may by notification direct. It is, on the face of it, provisional, as it is only intended to make provision for what is to be done pending certain further scientific inquiries considered necessary. Finally, it is permissive, as it does not come into operation of its own force, but merely enables the Governor General in Council to accept certain tests other than those provided by the Act of 1881, if on inquiry he is satisfied that they are sufficient.

"Further than that we were not prepared to go. We thought that we might with safety go so far, not intending to bring the Act into operation at once, but merely to take power to modify the Act in such a way as should be found suitable if on enquiry it was considered expedient to do so. Notwithstanding the passing of the Act, we should still have had to decide in our executive capacity what effect should be given to it. However, various representations have been made to us; we are instituting further inquiry, and, on the whole, we think it expedient not to proceed, even legislatively, with the measure in such a way as to produce the appearance of undue hurry; and in particular we are anxious to consult and obtain the opinion of such bodies as the Calcutta Chamber of Commerce. I shall, therefore, only move that the Bill be taken into consideration, and I do not propose to move that the rules for the conduct of business be in any way suspended.

"The Bill will be published in the ordinary course."

Major the Hon'ble E. BARING said:—"I merely wish to say that I entirely approve of the postponement of this measure. It deals with a question which is new to myself, and possibly to other Members of Council. I think that, before it is passed into law, both this Council and the public should have some further time to consider its provisions."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT asked for leave to postpone the Motion that the Bill be passed.

Leave was granted.

The Council adjourned to Wednesday, the 14th June, 1882.

D. FITZPATRICK,

Secretary to the Government of India,

Legislative Department.

SIMLA;
The 7th June, 1882.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 13th JUNE 1882.

GENERAL REMARKS.—The monsoon has been progressing rapidly up the western coast, and most of the provinces which usually benefit thereby have received rain: thus the Bombay Presidency, part of the Nizam's Territories, the Berars, part of the Central Provinces, and the Central India and Rajputana States record more or less heavy rainfalls. From the Bay of Bengal the monsoon is now gaining strength, and more or less rain has fallen in all parts of Orissa and the Central Provinces districts bordering thereon, as well as in all parts of Bengal proper and Behar (excepting the Patna district and Durbhunga). British Burma, too, has received heavy rain. In Southern India the rains have continued heavy in Coorg, on the Malabar Coast, and in Travancore, and fair in the greater part of the Madras Presidency and of the Mysore State. In the Mulnad portion of Mysore, however, the fall has been heavy.

In Assam the southern districts continue to receive heavy rainfall, and other parts comparatively less. In the North-Western Provinces slight rain has again fallen in nearly every district; and in the Punjab four districts have had rain.

General prospects are favourable throughout the country; crops where on the ground are doing well; and ploughing and sowing almost everywhere are progressing satisfactorily. These operations are, however, retarded somewhat in parts of the Mysore State and in some of the southern districts of Bombay by too much rain. In the Madras Presidency two districts need more rain.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(June 14th)		
Bellary ...	·67 (average of seven stations).	Standing crops good; harvest paddy and sugarcane, yield of paddy below average, of sugarcane average; small-pox and fever in parts.
Kurnool ...	·42 (average of six stations).	Standing sugarcane and indigo suffering from want of water in parts; cattle-disease in parts.
Ganjam ...	·37 (average of ten stations).	Standing (wet and dry) crops thriving; small-pox, fever, and cholera prevalent; cattle-disease exists.
Kistna ...	·61 (average of nine stations).	Small-pox and cattle-disease in parts.
Chingleput (Madras) ...	·38 (average of two stations).	Standing crops good where water available; agricultural operations progressing; cholera, small-pox, and cattle-disease in parts.
Coimbatore ...	·84 (average of eleven stations).	Standing crops generally good, but *cholum* slightly attacked by insects in parts; harvest *cholum* and gingelly, outturn average.
Tanjore ...	·27 (average of five stations).	Standing crops generally good; harvest gingelly and chillies, outturn average.
Madura ...	·56 (average of five stations).	Standing crops fair; fever and cholera in parts.
Malabar ...	20·82 (average of fourteen stations).	Sowing of first crops nearly over in parts; small-pox, cholera, and fever in parts.
Travancore ...	7·26	Ploughing and sowing nearly over; fever slightly prevalent. *General Remarks.*—General prospects good.
Bombay—(June 14th)		
Kurrachee ...	No rain	Weather cloudy and sultry; river at Kotri on 12th 13⅓ feet, same as on corresponding date last year; fever in eight talukas; cattle-disease in Ghorabari; rice planting going on in Jerruck and Shahbandar divisions; water much wanted in Mirpur Botoro and Sujawal talukas; some damage to crops in Khathatappa by crabs and turtles; wheat, red rice, and *bajri* in Karachi 22, 40 and 30, in Sehwan 28, 48 and 48, in Ghorabari 16, 48 and 48, and in Sujawal 18, 48 and 48 lbs. per rupee respectively.
Hyderabad ...	Rain on 8th at Tandabago, 1·10.	River rising steadily; *kharif* operations general; hot winds still continue; wheat 24, *juari* 44, *bajri* 41, red rice 34, and white rice 22 lbs. per rupee.
Ahmedabad ...	(*Vide* remark column, which apparently includes rainfall of the week under report.)	Total rainfall 6·56; cholera—in Viramgaum 192 cases, 83 deaths, in Sanand 7 cases, 2 deaths, in Dhakroi 58 cases, 17 deaths; ploughing commenced; wheat 26 and *bajri* 29 lbs. per rupee.
Baroda ...	3·57	Total rainfall 4·44; sowings of rice commenced in Nausari; slight cholera in parts of Kari division; *bajri* 29 and common rice 23 lbs. per rupee.
Surat ...	4·26	Total rainfall 8·16; sowing commenced in places; 3 cholera deaths in Surat; *juari* 35 and *nagli* 32 lbs. per rupee.
Nasik ...	Average rainfall, 3·09; Nasik, 4·85; Igatpuri, 12·65; minimum in Yeola, 2·55.	Weather wet and windy; small-pox in Trimbak; *bajri* 33 and wheat 24 lbs. per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Colaba (Bombay) ...	Rain every day except on 9th; heavy on 11th; total of week 5·74.	Total rainfall to date 24·35, being 16·27 above average; abnormal temperature 2° cool from 7th to 10th, 5° cool on the 11th and 12th, and 3° cool on 13th; vapour in air in excess of normal on 7th, afterwards normal; gale on 11th and 12th; wind normal on 7th and 8th; abnormal wind strong from south-east on 9th and 10th, and from south-west from 11th to 13th; lightning and thunder on 11th.
Poona ...	Rain throughout district; maximum 4·36 at Indapur; minimum 1·05 at Purandhar.	Sowing operations progressing; *bajri* 41¼ and *juari* 55¼ lbs. per rupee, in Poona *bajri* 36¾ and *juari* 43½ lbs. per rupee.
Ahmednagar ...	Rain throughout the Collectorate—maximum at Jhamkhed, 6·09; minimum at Rahuri, 1·55.	Sowing of rain crops commenced in Nagar, Shrigonda, Sangamner, and Akola; large flight of locusts visited Kopergaon, Sangamner, and Parner; slight cattle-disease in Nagar and Newasa; cholera in Parner, 10 attacks, 2 deaths; *bajri*—maximum 60 lbs. in Jhamkhed, minimum 45 in Kopergaon; *juari*—maximum 84 in Jhamkhed, minimum 44 in Kopergaon.
Sholapur ...	Maximum rain in Sholapur, 11·40; minimum in Malsiras, 3·50; good rain throughout.	No fresh cholera cases; *juari* 72 lbs. 9 tolas and *bajri* 53 lbs. 33 tolas per rupee.
Dharwar ...	Rain in all talukas—maximum in Hangal, 6·40; minimum in Rannibennur, 1·45.	Break desired in Dharwar, Bankapur, Hangal, Kalghatgi, and Kod, where sowing is retarded; public health good; rice 22 lbs. per rupee.
Kanara ...	.....	No report received.
Rajkot ...	·65	Weather cloudy; cholera in Nawanagar, Gondal, Dhrol, Kotdasangam, Jetpur; Bagusra and Junagad; *bajri* 25 and *juari* 28 lbs. per rupee.
		General Remarks.—Rain throughout Presidency proper, heavy in the south, retarding sowing operations; slight fever and cattle-disease continue in a few districts; flights of locusts in Ahmednagar and Satara; cholera in Belgaum, Kaladgi, Satara, Ahmednagar, Ahmedabad, and parts of Kathiawar; prices generally steady.
Bengal—(June 14th)—		
Chittagong ...	Rain all over the district, 3·63.	Weather seasonable; transplanting progressing; cholera and small-pox continue; cattle-disease prevalent in some localities; prices somewhat higher.
Dacca ...	0·95; rain commenced on 12th.	Weather stormy; crops progressing as before; spring rice harvest estimated at 14 annas.
24-Pergunnahs (Calcutta)	5·34	Lands being prepared for early and winter rice and other crops; sowing in low lands progressing; late rain has done much good; prices of common rice stationary; health good.
Moorshedabad ...	1·30	Prospects of crops favourable; early rice still being sown in some places; elsewhere young plants flourishing; lands being prepared for winter sowings; public health generally good.
Rajshahye ...	1·06	Weather cloudy and showery; prospects of paddy and jute favourable; *sesamum* being cut; cholera and fever still reported; weather virulent.
Burdwan ...	1·05; general rain	Cultivation going on well; prospects favourable; health fair.
Rungpore ...	0·67	Prospects of crops favourable; sowing of winter rice going on; public health good.
Bhagálpur ...	1·01	Prospects good; paddy being sown; lands being prepared for sowing autumn crops; general health good, though many cases of cholera reported from Umulpur.
Purneah ...	0·40	Crops improved by rain, especially indigo; weather, mixed sunshine and cloud, favourable; weeding and sowing of winter rice proceeding; health improved; cattle-disease reported towards south-east; rivers rising.
Patna ...	*Nil*	Clouds threatening; rice and other autumn crops sowing proceeding; *china* and sugarcane doing well; cholera prevalent in Behar and Barrh sub-divisions and small-pox in Behar.
Durbhunga ...	*Nil*	Weather cool, east wind with clouds; crop prospects good; cholera abating fast in many places, but still bad in Tajpur.
Hazáribágh ...	2·60	Weather cloudy and showery for last three days; ploughing and sowing continue; a few small-pox cases still reported, health otherwise good; cattle-disease reported.
Cuttack ...	4·65	Rain proved beneficial; sowing still progressing; rivers in flood; cholera disappearing.
		General Remarks.—More or less rain in all parts of the province during the week except in Patna and Durbhunga; prospects everywhere very favourable; early rice, jute, and other autumn crops being sown; early sowings doing well; sowing of winter rice also commenced in some districts; sugarcane, indigo, and other crops in the ground progressing; spring rice harvest almost finished, general outturn good; cholera much diminished; sporadic cases of small-pox and cattle-disease still reported from a few districts.
N. W. Provinces and Oudh—		
Benares (June 13th)	Benares, ·20; Chandauli, ·40; no rain in Gungapur.	Weather burning; week hot, with heavy clouds; no agricultural operations in progress save irrigation of sugarcane; health of men and cattle generally good, though isolated cases of cholera are reported in city and in mauza Salempur and tahsil Chandauli; bazars well supplied with food-grains; prices rising slightly.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. Provinces and Oudh—*contd.*		
Cawnpore ...	.....	No report received.
Allahabad (June 14th)	Rain has fallen all over district.	Sky cloudy, heavy rain evidently impending; cholera decreasing in district, city continues healthy; a little cattle-disease, but not serious; prices stationary.
Gorakhpur („ 13th)	.....	Great heat prevails; weather cloudy, but little rain; cholera continues; ploughing in progress; prices slightly risen.
Jhánsi („ 12th)	·16 rain fell last night, and more is expected.	Ploughing commenced; markets well supplied; prices rising; small-pox amongst children is reported in pargana Jhánsi, otherwise public health is good; a few cases of cattle-disease in three parganas.
Agra („ 13th)	Rain in all parganas, from ·10 to 3·60.	*Kharif* sowings commenced; fever and small-pox continue in city and three parganas; general health good; prices rising.
Bareilly („ „)	Rain set in on 11th, with general fall of 2·00.	Weather now clearing up; sowings have begun.
Meerut („ „)	Meerut, ·50; Ludhiana, ·70; Ghaziabad, ·70; Mowana, ·80; Bagpat, ·90; Hapur, ·90.	Weather excessively sultry till Saturday, when a violent storm at night cooled the air, sky again clear, with west winds; health good; supplies sufficient; prices stationary.
Kumaun („ „)	Some rain	Weather cloudy; some measles and small-pox of mild type; cattle-disease continues; prices rising slightly.
Lucknow („ „)	A few showers	Wind easterly; weather cloudy and close; markets well supplied; prices rising; cholera increasing in city.
Partabgarh („ „)	Rain fell at Khunda on 7th and 11th; the rains appear to have regularly set in.	Prices steady; ploughing commenced; cholera continues about the same.
Sitapur („ „)	No rain beyond slight sprinkles.	Weather often cloudy; winds generally easterly but variable.
Fyzabad („ „)	·80	Sugarcane being irrigated; sowing of *dhan* and *khoda* commenced; cholera decreasing.
Rae Bareli („ 12th)	.....	Weather cloudy and sultry, wind shifty, mostly from the east; cholera in two tahsils; prices slightly rising.
Farukhabad („ 13th)	Slight showers in four tahsils.	Sky still cloudy; health of men and cattle good; prices fallen slightly.
		General Remarks.—Some rain fell in nearly every district, varying from slight showers to 5·40; *kharif* ploughing and sowing begun; markets well supplied, but prices rising slightly; cholera continues in Benares, Gorakhpur, Rae Bareli and Partabgarh, has increased in Lucknow, and decreased in Allahabad and Fyzabad; cattle-disease prevalent in Kumaun, a few cases reported from Allahabad and Jhánsi.
Punjab—(June 13th)		
Delhi ...	1·4	Health fair; prices stationary.
Hissar ...	Rain required	Weather stormy; small-pox continues at Hansi; prices stationary.
Umballa ...	No rain	Preparations for *kharif* sowings in progress; health fair; prices gradually rising.
Jullundur ...	About 1·6	Health good; prices steady.
Amritsar ...	No rain	Grain garnered; health fair; prices steady.
Sialkot ...	Slight rain	Health good; prices falling.
Lahore ...	No rain	Weather cloudy; health good; prices stationary.
Ferozepore ...	No rain	*Rabi* crops harvested; health good; prices of grain and barley gradually rising.
Mooltan ...	No rain	*Kharif* sowings still in progress; health good; slight rise in the price of barley.
Rawalpindi ...	4·3	Crops being garnered; health generally good; prices slightly fluctuating.
Dera Ismail Khan ...	No rain	*Kharif* sowings in progress; prices stationary.
Peshawar ...	No rain	Health good; prices steady.
		General Remarks.—Rain has fallen in the Delhi, Jullundur, Sialkot, and Rawalpindi districts; health of the province generally good; prices of food-grains generally steady.
Central Provinces—		
Nagpur ...	4·41	High winds; *kharif* sowings commenced; prices stationary.
Jubbulpore ...	6·19	Weather cloudy and cool; cholera and small-pox prevalent; rice 12 and wheat 19 seers per rupee.
Saugor (June 12th)	Slight rain	Weather close; land for *kharif* still under preparation; prices rising; health good.
Khandwa („ 14th)	6·03	Weather cloudy and stormy; *kharif* sowings commenced; small-pox prevalent; prices stationary; wheat 14 and *juari* 22½ seers per rupee.
Seoni ...	5·12	Cholera and small-pox prevalent; cattle-disease abating; prices risen, rice 13 and wheat 19 seers per rupee.
Hoshangabad (June 13th)	3·94	*Kharif* sowings commenced; small-pox prevalent; rice 9, wheat 14, and *juari* 24 seers per rupee.
Raipur („ 10th)	4·95	Rice sowings carried on briskly; health good; prices stationary; rice 35½ and wheat 30 seers per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces— *contd.*		
Sambalpur (June 8th)	·60	Weather cloudy and showery; rice-fields under preparation; health good; rice 49 seers per rupee. *General Remarks.*—Weather cloudy and pleasant, with heavy rain in most districts; preparations for *kharif* sowings continue; cholera and small-pox abating; prices easy.
British Burma— (June 10th)		
Akyab ...	10·94	Total rainfall 25·69; 2 deaths from small-pox in town, disease still slightly prevalent in one township, otherwise public health good; cattle-disease severe in two townships.
Rangoon ...	2·63	Total rainfall 14·82; 1 death from small-pox, otherwise public health good.
Bassein ...	11·87	Total rainfall 23 70; public health good; a few deaths from cattle-disease in two townships.
Prome ...	2·61	Total rainfall 7·95; no deaths from cholera in Prome town, but a few deaths in district.
Amherst (Moulmein) ...	16·19	Total rainfall 39·75; public health good; cattle-disease has abated in one township, continues in another.
Toungoo ...	2·29	Total rainfall 14·94; seven deaths from small-pox in town, but no fresh cases, otherwise public health good; twelve deaths from cattle-disease in one township. *General Remarks.*—Small-pox is slightly prevalent in Akyab and Toungoo, and cholera more or less in a few places; public health is generally good; cattle-disease is severe in Akyab; prevalent in Amherst and a few other districts; ploughing has become general.
Assam—(June 14th)		
Gauhati ...	·34	Weather very hot, but has cooled down during the last two days; more rain wanted; prospects of crops continue favourable; cholera abated.
Sylhet ...	6·64	Cultivation proceeding; *amun* pretty well sown; *murali* nearly all sown; *aus* a little sown; *sali* nurseries mostly ready; cholera still reported; tea doing well.
Cachar ...	8·92	Days hot and sultry, nights rainy; more than half of *dumahi* and *murali* crops sown; 2 cases of cholera reported from Lakhimpur; common rice 26½ seers per rupee.
Dibrugarh ...	0·47	Weather hot; prospects of *aus* paddy good; ploughing for *sali* paddy in progress; cattle-disease still reported; public health good, except a few cases of small-pox in the North Lakhimpur sub-division and a few cases of cholera in the Sadr sub-division.
Mysore and Coorg— (June 14th)		
Bangalore ...	·42	Drizzling rain at intervals; young sugarcane in good condition; *poonji* ready; *harka*, gingelly, and lamp-oil seeds and ground-nuts sown in places; prospects favourable; no material change in prices.
Mysore ...	1·50	Light monsoon, with high winds; standing crops in good condition; prices fair.
Mercara ...	29·29	Rain heavy and continuous during the week; the Cauvery, with its tributaries, in full flood; vacancies in coffee estates being filled up by transplantation; prospects of season good; health good. *General Remarks.*—Rain has fallen throughout the Mysore State; agricultural operations retarded in the Mulnad owing to excessive rainfall; 4·54 inches at Hassan, above 3·39 inches at Chickmangalur; crops in good condition; prospects good; prices satisfactory; public health generally good; cholera continues slightly in the Yedattore and Ashtagram taluks of Mysore district.
Berar & Hyderabad— (June 14th)		
Amráoti ...	2·91	Cotton sowing commenced; prices—wheat 18 and *juari* 36 seers per rupee.
Akola ...	1·03	Weather warm; cotton sowing begun.
Hyderabad ...	1·82	Total rainfall from 1st January 5 inches; ground for coming *kharif* crop being still prepared; tanks have received small quantity of water; high south-west winds prevail; health in general improving; prices—wheat 16¼, coarse rice 10, white *juari* 24¼, yellow *juari* 29, and *tur* 28¾ seers per current sicca rupee.
Central India States— (June 14th)		
Indore ...	8·04	The monsoon has regularly set in; health good and prices steady.
Morar (Gwalior) ...	·70	Health good.
Sutna ...	·32	Public health good.
Rutlam ...	.....	No report received.
Neemuch ...	·15	Public health good.
Goona ...	1·29	Weather cloudy; wheat 21 seers per rupee.
Bhopal ...	1·05	Storms from south-west; ploughing for *kharif* active; health good.
Agar ...	Some rain on 13th	More rain required for sowing; health good.
Nowgong ...	1·11	Severe thunderstorm on 3rd; health good.
Manpur ...	6·75	Sowing of *makka* commenced; prices steady.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Rajputana—		
Abu (June 14th)	2·02	Weather close, sultry, cloudy, and foggy.
Sirohi („ 11th)	·20	Tanks and wells fair; health good; great storm on 7th.
Marwar ...	.....	No report received.
Meywar (June 10th)	1·41	Tanks, wells, and health good; ploughing commenced; monsoon burst on 3rd; thunderstorms daily.
Harowti („ „)	Deoli, ·10; Kotah, 1·24; Shahpura, ·88.	Weather cloudy, close; heat great; health good, but indifferent in some villages about Deoli; some cholera cases reported.
Jhallawar („ 7th)	·52	Small-pox still continues.
Ajmere („ 13th)	·12	Sickness about,—2 cases of cholera in Ajmere and cases reported in villages around.
Joypore („ „)	·57	Weather cloudy; easterly winds; few sporadic cases of cholera and small-pox in districts, otherwise health good.
Bhurtpore ...	.....	No report received.
Ulwur (June 14th)	Good rain on 11th	*Kharif* sowings commenced; health good.
Nepal—(June 9th)		
Katmandu ...	·90	Weather hot and close.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 22nd June, 1882.

No. 7.—The following Statute is published for general information:—

45 VIC., CAP 7.

An Act to provide, during twelve months, for the Discipline and Regulation of the Army. [*28th April, 1882.*]

WHEREAS the raising or keeping a standing army within the United Kingdom of Great Britain and Ireland in time of peace, unless it be with the consent of Parliament, is against law:

And whereas it is adjudged necessary by Her Majesty, and this present Parliament, that a body of forces should be continued for the safety of the United Kingdom, and the defence of the possessions of Her Majesty's Crown, and that the whole number of such forces should consist of one hundred and thirty-two thousand nine hundred and five men, including those to be employed at the depôts in the United Kingdom of Great Britain and Ireland for the training of recruits for service at home and abroad, but exclusive of the numbers actually serving within Her Majesty's Indian possessions:

And whereas it is also judged necessary for the safety of the United Kingdom, and the defence of the possessions of this realm, that a body of Royal Marine forces should be employed in Her Majesty's fleet and naval service, under the direction of the Lord High Admiral of the United Kingdom, or the Commissioners for executing the office of Lord High Admiral aforesaid:

And whereas the said marine forces may frequently be quartered or be on shore, or sent to do duty or be on board transport ships or vessels, merchant ships or vessels, or other ships or vessels, or they may be under other circumstances in which they will not be subject to the laws relating to the government of Her Majesty's forces by sea:

And whereas no man can be forejudged of life or limb, or subjected in time of peace to any kind of punishment within this realm by martial law, or in any other manner than by the judgment of his peers, and according to the known and established laws of this realm, yet nevertheless it being requisite, for the retaining all the before-mentioned forces, and other persons subject to military law, in their duty, that an exact discipline be observed, and that persons belonging to the said forces who mutiny or stir up sedition, or desert Her Majesty's service, or are guilty of crimes and offences to the prejudice of good order and military discipline, be brought to a more exemplary and speedy punishment than the usual forms of the law will allow:

44 & 45 Vic., c. 58.

And whereas the Army Act, 1881, will expire—

(*a*) in the United Kingdom, the Channel Islands and the Isle of Man, on the thirtieth day of April one thousand eight hundred and eighty-two; and

(*b*) elsewhere in Europe, inclusive of Malta, also in the West Indies and America, on the thirty-first day of July one thousand eight-hundred and eighty-two; and

(c) elsewhere, whether within or without Her Majesty's dominions, on the thirty-first day of December one thousand eight hundred and eighty-two;

Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Short title.

1. This Act may be cited as the Army (Annual) Act, 1882.

Army Act (44 & 45 Vic., c. 58) to be in force for specified times.

2. The Army Act, 1881, shall be and remain in force during the periods hereinafter mentioned, and no longer, unless otherwise provided by Parliament; that is to say :—

(1) within the United Kingdom, the Channel Islands and the Isle of Man, from the thirtieth day of April one thousand eight hundred and eighty-two to the thirtieth day of April one thousand eight hundred and eighty-three, both inclusive; and

(2) elsewhere in Europe, inclusive of Malta, also in the West Indies and America, from the thirty-first day of July one thousand eight hundred and eighty-two to the thirty-first day of July one thousand eight hundred and eighty-three, both inclusive; and

(3) elsewhere, whether within or without Her Majesty's dominions, from the thirty-first day of December one thousand eight hundred and eighty-two to the thirty-first day of December one thousand eight hundred and eighty-three, both inclusive;

and the day from which the Army Act, 1881, is continued in any place by this Act is in relation to that place referred to in this Act as the commencement of this Act.

44 & 45 Vic., c. 58.

The Army Act, 1881, while in force shall apply to persons subject to military law, whether within or without Her Majesty's dominions.

44 & 45 Vic., c. 58.

A person subject to military law shall not be exempted from the provisions of the Army Act, 1881, by reason only that the number of the forces for the time being in the service of Her Majesty, exclusive of the marine forces, is either greater or less than the number hereinbefore mentioned.

Prices in respect of billeting. 44 & 45 Vic., c. 58.

3. There shall be paid to the keeper of a victualling house for the accommodation provided by him in pursuance of the Army Act, 1881, the prices specified in the schedule to this Act.

Amendments of Army Act, 1881.

Correction of misprints in 44 & 45 Vic., c. 58.

4. Whereas the misprints hereinafter mentioned occur in the Army Act, 1881, and it is expedient to correct the same:

Be it therefore enacted as follows :—

(1) In section forty-six of the Army Act, 1881, the words "imprisonment exceeding seven days" shall be substituted for the words "punishment exceeding seven days," in the ninth sub-section.

(2) In section eighty-seven of the Army Act, 1881, the words "a proclamation in pursuance of the enactments relating to the calling out of the reserve on permanent service" shall be substituted for "a proclamation in pursuance of this Act" in the first sub-section.

(3) In section one hundred and thirty-eight of the Army Act, 1881, "section seventy-three" shall be substituted for the words "section seventy-one" in the third sub-section.

(4) In section one hundred and forty-four of the Army Act, 1881, the words "respecting his contract" shall be substituted for the words "respecting his conduct" in the second sub-section.

(5) In section one hundred and forty-five of the Army Act, 1881, the words "when any order or decree" shall be substituted for the words "when any order, decree" in the second sub-section.

(6) In section one hundred and seventy-five of the Army Act, 1881, the words "Indian military law" shall be substituted for the words "that law" in the seventh sub-section.

Removal of doubts as to section 90 (5) of 44 & 45 Vic., c. 58, as to discharged soldiers.

5. Whereas doubts may arise as to whether sub-section five of section ninety of the Army Act, 1881, applies to all soldiers of the regular forces when discharged, or only to such of those soldiers as are specified in the foregoing provisions of that section, and it is expedient to remove such doubts: Be it therefore enacted as follows :—

In section ninety of the Army Act, 1881, the words "as mentioned in the second sub-section of this section" shall be added after the words "or his re-engagement" in the fifth sub-section.

Printing of amendments. See 33 & 34 Vic., c. 101.

6. In all copies of the Army Act, 1881, which may be printed after the commencement of this Act the words by this Act directed to be substituted for other words shall be printed therein in lieu of the latter words, and the words directed by this Act to be added shall be added thereto.

SCHEDULE.

Accommodation to be provided.	Maximum price.
Lodging and attendance for soldier where hot meal furnished.	Twopence halfpenny per night.
Hot meal as specified in Part I of the Second Schedule to the Army Act, 1881.	One shilling and one penny halfpenny each.
Where no hot meal furnished, lodging and attendance and candles, vinegar, salt and the use of fire, and the necessary utensils for dressing and eating his meat.	Fourpence per day.

Mr. C. A. R. Crommelin in Class IV to officiate in Class III while acting as District Traffic Superintendent, Ajmere Division.

No. 161.

ORDER—By the Government of India, Public Works Department.

Read the following letter and enclosure :—

No. 132 R.S., dated 7th June 1882.

From—The Government of India, Public Works Department,

To—The Government of Madras, Public Works Department.

I am directed to acknowledge the receipt of the following Proceedings of the Government of Madras :—

Public Works Department Proceedings, March 1882, Nos. 31-33,
" " " April " " 9-11,
" " " " " " 12-14,

containing indents for stores required for the Madras and South Indian Railways.

2. It would appear, from a perusal of the items, that several articles are still being indented for from England that can be obtained, as cheaply and of as good quality, of indigenous manufacture. I am therefore directed to request that the Consulting Engineer for Railways may be instructed to arrange with the Agents of the Railway Companies to utilise, as far as possible, the products of this country rather than drawing their whole supplies of stores from England.

3. The accompanying list of articles, extracted from the items in the abovenoted indents, show such stores as are known to be manufactured, either wholly or in part, in India ; and doubtless were the present manufactures of the Madras Presidency accurately known, other items might have been added to the list. It is quite probable that the distance of some of these centres of supply from Madras renders the prices of such stores prohibitive ; but the list will indicate to the Consulting Engineer, when future indents are preferred for sanction, where articles of Indian manufacture can be obtained.

List of articles entered in the indent for Public Works Stores, Madras Railway, which, on the information before the Government of India, can be had of local manufacture.

Heading.	No. of item in the indent.	Description of article.	Name of manufacturer, where known.
General Ward.	40 and 41	Callipers, steel	Messrs. Jessop & Co., Calcutta.
	52	Cramps, joiners'

Parts II and III and the Supplement will continue to be published in Calcutta.

Parts IV and V of the *Gazette of India*, containing the Acts and Bills of the Legislative Council, may be subscribed for separately from the other Parts of the Gazette. The annual subscription for the two Parts will be Rs. 5 per annum, payable in advance. When sent by post, Rs. 2-8 per annum additional will be charged for postage. For the current year these Parts are available from 1st May only, the back numbers being out of print.

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the day on which it is due.

Applications for the supply of the *Gazette* on the *public service* should be addressed to the Home Department.

By an order of Government, all subscriptions must be paid *in advance*.

	Rs.	A.	P.
Subscription for *Gazette* and Supplement per annum	15	0	0
Postage	5	8	0
Subscription for Supplement only	6	0	0
Postage	3	0	0
For a single copy of the *Gazette*	0	8	0
For a single copy of the Supplement	0	8	0

Postage on single copies varies according to weight.

Offg. Secretary & Treasurer.

SURVEY OF INDIA.

NOTIFICATION.

Mussooree, the 20th June 1882.

No. 282.—Mr. P. A. G. Cowley, Surveyor, 2nd Grade, is granted furlough for two years in and out of India, under Chapter X, Section 131, of the Civil Leave Code, from such date as his services can be spared.

J. T. WALKER, *Lieut.-Genl., R.E.,*

Surveyor General of India.

REVENUE BRANCH, SURVEY OF INDIA.

NOTIFICATION.

Calcutta, the 19th June 1882.

No. 6.—Mr. R. Todd, Officiating Surveyor, 4th Grade, is granted privilege leave for three months, with effect from the 1st proximo, under the provisions of Chapter X, Section 136, of the Civil Leave Code.

J. SCONCE, *Lieut.-Col.,*
Deputy Surveyor General.

SURGEON-GENERAL WITH THE GOVERNMENT OF INDIA.

NOTIFICATION.

Simla, the 3rd June 1882.

No. 28.—The services of 3rd Grade Assistant Surgeon Chunder Bhusun Bose, of the supernumerary list, are placed at the disposal of the Chief Commissioner, Central Provinces.

J. M. CUNINGHAM, M.D.,
Surgeon-General with the Government of India.

AGENT, GOVERNOR GENERAL, FOR RAJPUTANA.

NOTIFICATION.

Mount Abu, the 13th June 1882.

No. 1631 G.—Lieutenant H. Ramsay and Captain A. P. Thornton, respectively, made over and received charge of the offices of Assistant General Superintendent, Thuggy and Dacoity, Lower Rajputana, and Magistrate, Mount Abu, on the afternoon of the 5th June 1882.

By Order,
E. A. FRASER,
1st Asst. Agent to the Govr. Genl.

CHIEF COMMISSIONER OF AJMIR-MERWARA.

NOTIFICATIONS.

Mount Abu, the 13th June 1882.

No. 399.—Colonel C. H. Clay and Major J. H. L. Greenfield, respectively, delivered over and received charge of the office of Cantonment Magistrate, Deoli, on the forenoon of the 1st May 1882.

No. 402.—Surgeon-Major J. H. Newman and Surgeon J. Crofts, respectively, delivered over and received charge of the office of Civil Surgeon and Superintendent of Jail, Ajmir, on the afternoon of the 3rd June 1882.

The 16th June 1882.

No. 408.—Doctor J. Croft, Officiating Civil Surgeon and Superintendent of Jail, Ajmere, is invested with the powers of a Magistrate of the 1st Class, as described in Section 20 of the Criminal Procedure Code, to be exercised within the precincts of the Ajmere Jail, with effect from the afternoon of the 3rd June 1882, *vice* Dr. J. H. Newman, on privilege leave.

By Order,
E. A. FRASER,
1st Asst. Agent to the Chief Commr.

CHIEF COMMISSIONER OF COORG.

NOTIFICATIONS.

Bangalore, the 15th June 1882.

No. 11.—N. Monappa, Subedar of the Padinalknad Taluk, is granted one month's privilege leave from such date as he may avail himself of it.

2. M. Nanjappa, Parputtigar of Padinalknad, is appointed to act as Subedar of the Padinalknad Taluk, and Magistrate of the 3rd Class, during the absence of Monappa, or until further orders.

The 16th June 1882.

No. 12.—Under Section 7 of Act XV of 1872, the Indian Christian Marriage Act, the Chief Commissioner of Coorg is pleased to appoint the District Magistrate of Coorg for the time being to be Marriage Registrar for the District of Coorg.

By Order,
H. WYLIE, *Major,*
Secretary to the Chief Commr. of Coorg.

JUDICIAL COMMISSIONER OF AJMIR-MERWARA.

NOTIFICATION.

Mount Abu, the 17th June 1882.

No. 416.—It is ordered that the following Rules relating to appeals to Her Majesty in Her Privy Council, under Section 612 of the Code of Civil Procedure, be read and passed as Rules of the High Court of Judicature for the Ajmir-Merwara District:—

The amount and nature of the security required under sections 602, 605, 608 and 609.

1. The security for the costs of the respondent, required by section 602, shall in ordinary cases amount to Rs. 4,000. Such security shall consist either of cash or Government securities, or of immoveable property, or of any or all together if necessary to secure the amount.

In the event of the Court deeming it proper to call on the appellant to furnish further security, such additional security shall consist of cash or Government securities, or of immoveable property, or of any or all together if necessary to secure the amount: but in no case shall security be required, nor under section 605 shall it be increased, to an amount exceeding Rs. 10,000.

2. The amount of the security to be furnished by the appellant or respondent under section 608 or section 609 shall be such as the Court shall deem sufficient, and shall consist either of cash or Government securities or of immoveable property.

3. When the security offered under section 602, section 605, section 608, or section 609 consists of immoveable property, the appellant or respondent, as the case may be, shall file a bond duly registered mortgaging such property, together with a specification of the title of the mortgagor.

The testing of the security.

4. When such bond has been filed, the Court shall direct the security to be tested by the Judge of the Court of the district within which the immoveable property therein mortgaged is situated.

The estimate of the cost of transcribing the record.

5. When a certificate is granted, the applicant shall forthwith apply to the District Judge to prepare lists A (of papers to be transmitted to the Registrar of the Privy Council) and B (of formal and other papers not to be so transmitted), and to make an estimate of the cost of preparing the record for transmission, and shall state whether the transcript is to be printed in India or not.

6. On the receipt of the application, together with a fee of sixteen rupees, the District Judge shall prepare the lists before mentioned, and make an estimate of the expense of translating, transcribing or printing, and of forwarding to the Registrar of the Privy Council the record of the case, including a margin of two hundred rupees; and shall furnish the lists and estimate to the counsel, pleader, or attorney of the applicant.

7. At any time within two weeks from the receipt of the lists and estimate, the applicant may object thereto; and if the District Judge refuse to allow the objection, the matter shall be at once submitted for the order of the High Court.

8. Ordinarily the whole record shall be transcribed, with the exception of such documents, papers, and accounts as are specified in section 602, sub-sections (1), (2), (3) and (4).

The revision and authentication of translations.

9. All documents not drawn up or written originally in the English language, and which have not been translated for the use of the Court, shall be translated into English, and all translations so made shall be certified by one of the Court translators.

The preparation of indices to transcripts of records, and of lists of the papers not included therein.

10. An index of all the documents included in the transcript shall be prepared and annexed to the record in the form subjoined, and shall be followed by a list (B) of all other papers, documents, and exhibits in the cause not included in the transcript:—

1	2	3
Serial number.	Description of document.	REMARKS.

11. In the index and transcript the papers shall be placed in the following order:—

Plaint.
Written statement.
Examination of parties or their agents, &c.
Injunctions.
Orders of attachment, &c. (if any), obtained before judgment.
Issues framed (if any).
Exhibits of plaintiff.
Exhibits of defendant.
Report of Commissioner (if any), with maps, depositions, &c., annexed.
Judgment and decree.
Memorandum of appeal.
Cross appeal or memorandum of objections under section 561 (if any).
Proceedings in appellate Court (if any).
Judgment and decree of that Court.
Petition of appeal to Privy Council, affidavits, &c.
Appendix (if any).
List (B) of papers omitted under Rule 8 of these Rules.

12. The following charges shall be payable in respect of the matters specified:—

	Rs.	A.	P.
Translation of vernacular portion of record, per 100 words	1	0	0
Copying English portion of record for office file, for every 1,440 words or part thereof	1	0	0
Examining English portion of record for office file, for every 1,440 words	0	8	0
Transcribing (one copy) for Privy Council, for every 800 words ...	1	0	0
Printing (55 copies) per printed page	2 to 3	0	0
Examination of transcript record, for every 800 words or part thereof ...	0	8	0
Examination of proof, for every 1,000 words	1	0	0
Certifying two copies of printed record, for every 10 printed or manuscript pages or part of 10 pages	1	0	0
Preparation of index, for every 16 papers or part of 16 papers ...	1	0	0

13. The estimate shall include these several matters, and be framed in accordance with the charges above specified.

14. Immediately after the Court shall have declared the appeal admitted, copies of the lists A and B shall be furnished to the counsel, pleader, or attorney of the respondent, who may, within two weeks of the receipt of the same, apply to the District Judge to include in list A any documents, papers, or accounts which he may consider necessary. Such application shall either be allowed by the District Judge or be referred by him for the order of the High Court.

The recovery of costs incurred in British India.

15. Application for the recovery of costs incurred in British India in connection with appeals to Her Majesty in Council shall ordinarily be made to the Court from whose order or decree an appeal is presented; and no such application shall be entertained except on proof that fourteen days' notice of the intention to make the application, together with a memorandum of the costs claimed, has been given to the other party.

By Order,

E. A. FRASER,

1st Asst. to the Judl. Commr.

AGENT, GOVERNOR GENERAL, AND CHIEF COMMISSIONER, RAJPUTANA. P. W. D.

NOTIFICATION.

Mount Abu, the 17th June 1882.

G. BELLETT,
Registrar.

SENATE HOUSE,
The 15th June 1882.

ORDERS BY THE VICE-CHANCELLOR AND SYNDICATE OF THE CALCUTTA UNIVERSITY.

The following changes in the Regulations in Engineering having been sanctioned by the Senate and approved by His Excellency the Governor General of India in Council, are published for general information :—

For the Regulations for the First Examination in Engineering, for the Licence in Engineering, and for the Degree of Bachelor in Engineering, the following Regulations have been substituted, with effect, as regards the First Examination in Engineering, on the 1st of August 1883, and as regards the Licence and the Degree of Bachelor in Engineering, on the 1st of January 1885 :—

FIRST EXAMINATION IN ENGINEERING.

1. The First Examination in Engineering shall be held every year in Calcutta, and shall commence at such time as the Syndicate may determine, the date to be approximately notified in the Calendar for the year.

2. Any undergraduate of the University may be admitted to this Examination, provided he has prosecuted a regular course of study in a School of Engineering affiliated to the University, for two years and six months after passing the Entrance Examination.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar, at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of twenty rupees shall be payable by each candidate. No candidate shall be admitted unless he has paid this fee to the Registrar. A candidate who fails to appear or to present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of twenty rupees on each occasion.

5. Every candidate shall be examined in the following subjects:—

I. Mathematics.
II. Natural Science.
III. Engineering Construction.
IV. Geodesy.
V. Drawing.

I. MATHEMATICS.

Arithmetic. The whole.

Algebra.

To the Binomial Theorem (omitting scales of notation) Exponential Theorem and Logarithms.

Geometry.

Euclid—Books 1, 2, 3, 4, and 6, with deductions, Conic Sections treated geometrically.

Trigonometry.

As far as the solution of all cases of plane triangles. DeMoivre's Theorem, Exponential values of Sine and Cosine.

Mensuration.

Mensuration of surfaces and solids.

Analytical Geometry.

Equations of the straight line, circle, ellipse, hyperbola, and parabola, without reference to the general equation of the 2nd degree.

Statics.

Parallelogram and triangle of forces, Resultant of parallel forces, Couples, Moments Equilibrium of any forces acting on a particle or rigid body. Centre of parallel forces, Centre of gravity. Friction, simple cases of tension of Strings, Levers, Pulleys, Wheel and axle, Inclined plane, Screw.

Dynamics.

Definition and measurement of mass, force, velocity, acceleration, momentum, work and energy.* Laws of motion, Uniform motion. Uniformly accelerated motion in a straight line, parabola and circle. Relative motion. Simple cases of impact.

II. NATURAL SCIENCE.

Chemistry.

Inorganic Chemistry. The metals and non-metals.

Physics.

Light, Heat, Electricity, Magnetism and the Elements of Telegraphy.

III. ENGINEERING CONSTRUCTION.

Materials. Structure, Classification, and characteristic qualities of Building Stones, Artificial Stones, Quarrying and Blasting, Preparation of Bricks and Tiles, Cementing materials, Plasters, Paints and Varnishes, Properties and preservation of timber, Iron and Steel, Lead, Copper, Zinc and the common Alloys.

* Special importance will be attached to a thorough comprehension of the principles of Work and Energy, and of their application to the solution of Mechanical questions.

IV. GEODESY.

Use of the scales, Prismatic Compass, Pocket Sextant, Level, Theodolite and Plane table. Topographical Surveying of limited areas. Practice of Levelling. Route surveying and laying out curves. Elements of Practical Astronomy. (Attested surveys, executed by the candidate, will be submitted to the Examiner, to which marks will be assigned.)

V. DRAWING.

1. Free-hand Drawing.
2. Projection (a) Orthographic, (b) Isometric, (c) Perspective.

6. The Examination shall be conducted by means of printed papers, and a paper of questions shall be set in each of the following subjects:—

Arithmetic and Algebra.
Plane Geometry and Geometrical Conic Sections.
Trigonometry and Mensuration.
Statics and Dynamics.
Analytical Geometry.
Chemistry.
Light and Heat.
Electricity, Magnetism, and the elements of Telegraphy.
Materials of Construction.
Geodesy.
Drawing.

7. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

LICENCE IN ENGINEERING.

1. An Examination for a Licence* in Engineering shall be held annually in Calcutta, and shall commence at such time as the Syndicate shall determine, the date to be approximately notified in the Calendar for the year.

2. Any undergraduate of the University may be admittted to this Examination on producing a certificate from the head of an institution affiliated to the University in Engineering, shewing that he has prosecuted a regular course of study for not less than one Academical year after passing the First Examination in Engineering.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of twenty-five rupees shall be payable by each candidate. No candidate shall be admitted unless he has paid this fee to the Registrar. A candidate who fails to pass or to present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of twenty-five rupees on each occasion.

5. Every candidate shall be examined in one of the following Branches marked A and B:—

(*A.—Civil Engineering.*)

I. Mathematics.
II. Natural Science.
III. Engineering Construction.
IV. Drawing.

* The holder of this Licence shall be styled a Licentiate in Engineering.

I. MATHEMATICS.

Differential Calculus.

Differential coefficients of simple and complex functions, successive differentiation, Differential functions of two variables, functions of functions; Implicit functions. Taylor's and Maclaurin's Theorems. Maxima and Minima, values of functions of one variable.

Integral Calculus.

Integration of simple functions, Rational fractions. Formulæ of reduction. Lengths of curves. Areas of curves and surfaces. Volumes of solids. Differentiation of an integral.

Hydrostatics.

Equilibrium of fluids, Specific gravity, Equilibrium of floating bodies, Centre of pressure, Elastic fluids, Principles of Barometer, and application to determine heights of Mountains; of the air-pump. Condenser-pump, Siphon, Hydrostatic Press and the Hygrometers.

II. NATURAL SCIENCE.

Geology. (Excluding Palæontology and the Stratigraphical classification based thereon) with special reference to the practice of mining.

Mineralogy. The form of minerals. The physical, optical, and chemical character of minerals. The distribution of minerals. Paragenesis.

Metallurgy. The metallurgy of Iron, Steel, Tin, Copper Zinc, Lead, Mercury, Silver and Gold.

III. ENGINEERING CONSTRUCTION.

Practice of Building. Brick and stone masonry, Earthwork, Carpentry, Foundations, Walls, Floors and Roofs of Buildings, Construction of Masonry, Wooden and Iron bridges, Construction and maintenance of Roads, Construction of Railroads and Railway appliances.

Hydraulic Engineering. Canal and River Engineering, River training and improvements, Flow of liquids through orifices, Flow of liquids in pipes. The movements of water in Canals and Rivers, Flow of water over weirs and waste weirs, Afflux of fluids caused by obstructions, Water-wheels and Turbines, Storage of water, Supply of water to towns.

Applied Mechanics. Direct stresses, Bars and pillars of various forms in tension and compression, Transverse strain, Deflection of beams, Resistance to torsion. The equilibrium, stability and strength of Framed Structures, Stability of suspension bridges, Theory of Earth pressure, and Resistance of Block work Structures. Elements of Graphic Statics.

Mechanism. Elementary forms of Machines, Levers, Cranks, Rolling Contacts, Sliding Contacts, Mechanism for modifying motion, Accumulation and Regulation of Motion.

Steam Engine. Measurement of Heat, Joule's Equivalent, Indicators and Indicator diagrams, Boilers, Heating surface, injectors and all other parts of high and low pressure Engines.

IV. DRAWING.

Engineering and Architectural Drawing.

B.—(Mechanical Engineering.)

I. Mathematics.
II. Engineering Construction.
III. Machinery.
IV. Drawing.

I. MATHEMATICS.

As laid down for the Examination for Branch A.

II. ENGINEERING CONSTRUCTION.

Practice of Building. As laid down for the Examination for Branch A.

Applied Mechanics. As laid down for the Examination for Branch A.

Steam-Engine. The Steam-Engine as viewed under a knowledge of the doctrine of Latent Heat, with history of improvements and alterations in original theories, Combustion of fuel, Heat Engines. The conversion of Motion, Indicators and details of Construction, Boilers, Compound Cylinder Engines, Miscellaneous details.

Hydraulic Engineering. Hydraulic Machinery, Flow of water in pipes.

III. MACHINERY.

Mechanism and Machine design. Elementary forms of Machines, Levers, Cranks, Rolling Contacts, Sliding Contacts, Mechanism for modifying motion, Accumulation and regulation of Motion. Mode of designing Riveted Joints, Fastenings, Journals, Pivots, Axles, Shaftings, Bearings, Strength and form of toothed gearing, Belt and rope gearing, Link-work, Pistons, Stuffing boxes, Valves and Cocks.

Workshop Appliances. Measures of length and methods of measuring. Hand tools for wood and metals, Forming straight edges and surface plates. Foot and power Lathe, Machinery for Drilling, Boring, Planing, Shaping, Slotting, Punching, Shearing and Sawing. Distribution of motive power to Machine tools.

Designs. Designs of Factories and Workshops with arrangement of Machinery.

IV. DRAWING.

Machine Drawing.

6. Candidates shall also be allowed to present themselves for Examination in one or more of the following optional subjects, proficiency in which will affect their place in the division list, but will not be counted towards a pass :—

Optional Subjects.

I. MATHEMATICS.
Pure Mathematics } *as in the First Examination in Engineering.*
Mixed Mathematics }

II. NATURAL SCIENCE.
Chemistry } *as in the First Examination in Engineering.*
Physics }

III. ENGINEERING CONSTRUCTION.
Materials of Construction, *as in the First Examination in Engineering.*

IV. GEODESY, *as in the First Examination in Engineering.*

7. The Examination shall be conducted by means of printed papers, and a paper of questions shall be set in each of the following subjects :—

Branch A.

Differential and Integral Calculus.
Hydrostatics.
Geology.
Mineralogy and Metallurgy.
Details of Construction.
Roads and Railways.
Hydraulic Engineering.
Applied Mechanics.
Mechanism and Steam-Engine.
Engineering and Architectural Drawing.

Branch B.

Differential and Integral Calculus.
Hydrostatics.
Details of Construction.
Roads and Railways.
Applied Mechanics.
Hydraulic Engineering.
Mechanism and Machine design.
Designs, and Workshop appliances.
The Steam-Engine.
Machine Drawing.

Optional.

Pure Mathematics.
Mixed Mathematics.
Chemistry.
Physics.
Materials of Construction.
Geodesy.

8. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

BACHELOR IN ENGINEERING.

1. An Examination for the Degree of Bachelor in Engineering shall be held annually in Calcutta, and shall commence at such time as the Syndicate shall determine, the date to be approximately notified in the Calendar for the year.

2. Any candidate who has passed the First Examination in Arts* may be admitted to this Examination, provided he produces a certificate from the head of an institution affiliated in Engineering, shewing that he has prosecuted a regular course of study for not less than one Academical year, after passing the First Examination in Engineering.

3. Every candidate for admission to the Examination shall send his application, with a certificate in the form entered in Appendix A, to the Registrar, at least fourteen days before the date fixed for the commencement of the Examination.

4. A fee of thirty rupees shall be payable by each candidate. No candidate shall be admitted, unless he has paid this fee to the Registrar. A candidate who fails to pass or present himself for Examination shall not be entitled to claim a refund of the fee. A candidate may be admitted to one or more subsequent Examinations on payment of a like fee of thirty rupees on each occasion.

5. Every candidate shall be examined in the subjects and in the manner ordered in paragraphs 5, 6 and 7 of the Regulations for a Licence in Engineering.

6. As soon as possible after the Examination, the Syndicate shall publish a list of the successful candidates arranged in two divisions, each in order of merit. Every candidate shall, on passing, receive a certificate in the form entered in Appendix A.

7. The first candidate of the first division shall receive a gold medal to the value of one hundred rupees.

8. Any Licentiate in Engineering, who has passed the First Examination in Arts, may, on paying the usual fee, be admitted to the Degree of Bachelor in Engineering without further Examination.

* Any undergraduate who has passed the First Examination in Engineering may proceed to the First Examination in Arts and the Bachelor of Art Examination, without completing the two years of study at an affiliated institution required under para. 2 of the First Arts and B. A. Regulations.

G. BELLETT,
Registrar.

SENATE HOUSE,
The 15th June 1882.

TREASURE TROVE.

In accordance with the provisions of Section 5 of Act VI of 1878, notice is hereby given to all whom it may concern that on the 29th day of May 1882, a small silver box with Cambay stones inlaid, of the estimated value of from Rs. 50 to Rs. 75, was found at the bottom of a well in the compound of the house occupied by Mr. Henry Cleveland at Breach Candy in the city of Bombay; and all persons claiming the said treasure or any part thereof are hereby required to appear personally or by agent before the Collector of Bombay at his office in the New Secretariat Building, on Wednesday the 15th November 1882, at 2 P.M., when the Collector will proceed to hold an enquiry in accordance with the provisions of the Act.

H. E. SACOMB,
Collector.

BOMBAY,
The 19th June 1882.

STATEMENT of Government Promissory Notes enfaced for payment of Interest in London, under deduction of amount re-transferred to India, and outstanding in the Books of the Bank of Bengal on the 15th June 1882.

PUBLIC DEBT OFFICE,
BANK OF BENGAL;
Calcutta, the 17th June 1882.

W. D. CRUICKSHANK,
Offg. Secretary and Treasurer

DEPARTMENT PUBLIC WORKS HALF-YEARLY EXAMINATION.

The half-yearly examination of candidates for promotion and employment in the Public Works Department will be held at the Government Engineering College, Howrah, at 10 o'clock, on Monday, the 7th August 1882, and the following days. Applications, with fees for admission to the examination, are required to be filed before the 15th of July 1882. Candidates for the grade of Accountant who are not in Government service should be under twenty-five years of age, and must prove to the satisfaction of the Principal that they are under that age.

The following are the centres of examination sanctioned by the Government of India as stations where candidates for fourth grade Accountantships are to appear for examination :—

Agra, Ahmedabad, Ajmere, Akyab, Allahabad, Bolaram, Durbhanga, Howrah, Indore, Jabalpore, Lahore, Lucknow, Meerut, Mhow, Mooltan, Mount Aboo, Nagpore, Neemuch, Rangoon, Rawalpindi, Saidpore, Shillong and Simla.

Candidates for the Accountant's examination are therefore requested to select one of the places mentioned above.

J. S. SLATER,
Offg. Principal, Govt. Engrg. College, Howrah.

E. HUTTON.

Presidency Post Master.

NOTICE.

Waste Lands available for Planters in the Tavoy District.

Waste lands, covered at present with forest, bamboos or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,800 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 190 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application to the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices in Tavoy, namely,—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.

(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the tenth year after he enters on possession, provided that he takes *bonâ fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated in each year.

(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-third of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.

(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bonâ fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met as far as possible in regard to the situation and shape of their grants. But ordinarily—

(*a*) no grant will be given where the Forest Department intend to make a forest reserve;

(*b*) no grant will be given on such a place as will unduly circumscribe the extension of cultivation of the grazing grounds of any neighbouring village or hamlet;

(*c*) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;

(*d*) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI.—The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.

VII.—In order to encourage pioneers in the coffee and cinchona enterprise in Tavoy, the Government will pay to the first four grantees who begin *bonâ fide* planting operations Rs. 15 per head for every Indian or Chinese coolie, male or female, over 16 years of age, who may be settled and housed on their plantations before the 1st March 1885.

VIII.—In any case of doubt regarding the *bonâ fide* character of operations for the purposes of concessions III and VII, the Deputy Commissioner will decide, and his decision will be subject to appeal to the Commissioner of Tenasserim, whose decision will be final.

IX.—All minerals and metals under and within the lands granted under these rules are reserved by Government, together with a right to enter upon and resume such portion of land as may be necessary for examining or working mines upon payment of just compensation to the grantee for loss of, or injury done to, the surface.

G. D. BURGESS,
Secy. to the Chief Commr., British Burma.

The 6th April 1882.

GOVERNMENT CINCHONA FEBRIFUGE.

This preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs. 4-8*; per eight ounce tin, *Rs. 8-8*; per pound tin, *Rs. 16-8*. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the under-noted rates:—per four ounce tin *Rs. 5-8*; per eight ounce tin *Rs. 10-8*; per pound tin, *Rs. 20*. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage 8 annas per four and eight ounce tins, and 12 annas per pound tin, in addition to the foregoing rates.

HENRY F. BLANFORD,
Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta

Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
„ MADRAS SERIES ...	„ 8	„ 9
„ BOMBAY SERIES ...	„ 8	„ 9
„ ALLAHABAD SERIES	„ 8	„ 9
Complete set... ...	„ 45	„ 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

For a Part of the CALCUTTA SERIES ...	Rs. 3	8
„ „ MADRAS SERIES ...	„ 1	0
„ „ BOMBAY SERIES ...	„ 1	0
„ „ ALLAHABAD SERIES.	„ 1	0
Complete set	„ 4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1875 should be at once remitted.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at Rs. 375 a set.

Charts, &c., issued at the Marine Survey Department, Calcutta, by order of the Government of India, and sold at the Office of the Marine Survey Department, 4-4 Loudon's Buildings, Hastings Street, Calcutta, where Admiralty Charts can also be obtained.

☞ All Charts are corrected up to the date of issue.

PART III.

Advertisements and Notices by Private Individuals and Corporations.

NOTIFICATION.

With the consent of the Government of India, the Government of His Highness the Maharaja of Mysore is prepared to receive tenders for a Debenture Loan of (Rs. 20,00,000) twenty lakhs of Rupees on the security of the general revenues of the Mysore Province. The amount of the Loan is to be expended entirely on the construction of an important line of railway from Bangalore to Tiptoor, a distance of about 85 miles.

2. Debentures will be issued for the said amount bearing interest at the rate of five per cent. per annum, payable half-yearly on the 15th February and 15th August of each year and having a currency of twenty years. The interest will be payable at any of the Government Treasuries of the Mysore Province or at the Banks of Bengal, Madras or Bombay and their branches.

3. The form of Debenture Bonds will be that given below. Each Debenture will be issued for the sum of Rs. (500) five hundred, or some multiple of Rs. 500.

4. Tenders for the whole or any part of the above-named sum of Rs. (20,00,000) twenty lakhs will be received by the Comptroller to the Mysore Government at Bangalore up to noon on the 1st July 1882.

5. Each tender should be in the form hereto annexed, and enclosed in a sealed cover superscribed "Tender for the Mysore Railway Loan of 1882," and sent to the Comptroller to the Government of Mysore at Bangalore.

6. The tenders will be opened at the Dewan's Office at Bangalore in the presence of the Dewan and other members of the Mysore Government on the 1st July 1882 at noon, a minimum rate having first been fixed by the Dewan.

7. Each tender must be accompanied by the deposit of a sum equal to 2 per cent. of the amount tendered. Such deposit may be made by paying the amount to the credit of the Dewan of Mysore at the Banks of Bengal, Madras and Bombay, or at any of their branches, or at any of the Treasuries of the Mysore Government, and forwarding with the tender the receipt of such Bank or Treasury or by a Money Order payable to the Dewan of Mysore, or by Government of India Promissory Notes duly endorsed in favor of the Dewan of Mysore.

8. If the tender be accepted either in whole or in part, the deposit made will be taken in part payment, and the tenderer must arrange for the payment of the remainder of the amount of the loan allotted to him on or before the 15th August 1882 into any of the Treasuries of the Mysore Government, or into the Banks of Bengal, Madras or Bombay or any of their branches to the credit of the Dewan of Mysore, failing which the deposit made will be forfeited.

9. Debentures will be issued as soon as possible after receipt of the amount of allotment.

10. The deposit on tenders which may not be accepted will be returned on application.

11. In the case of two or more tenders at the same rate (not being below the minimum), a *pro rata* allotment will, if necessary, be made.

12. The rate stated in a tender must not contain any fraction of an anna; if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna.

13. In order to avoid mistakes, a separate tender must be made at each rate tendered, and a separate deposit must accompany each tender.

14. The annual revenues of the Mysore Province amount at present to Rs. 1,06,00,000 (one hundred and six lakhs of Rupees), and are expected to yield an annual surplus of five lakhs after defraying all charges and providing for repayments on account of the Famine Loan due to the Government of India.

15. Arrangements will be made for securing negotiability to the Debentures in British India free of Stamp Duty.

C. RANGACHARLU,
Dewan.

OFFICE OF THE DEWAN OF MYSORE,
BANGALORE,
The 1st May 1882.

Form of Tender.

I hereby tender for Rupees of the Loan advertized in the Notification of the Dewan of Mysore, dated 1st May 1882, and agree to pay the same subject to the conditions notified, at the rate of Rupees for every Rs. 100 allotted to me.

I enclose on account of the required deposit of 2 per cent. on the amount tendered (*here enter particulars of deposit*), and engage, if my offer is accepted, to pay the remainder of the amount of the Loan allotted to me on or before the 15th August 1882, in the manner prescribed in the Notification. Any allotment made to me may be communicated to the following address.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication.]

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 7th June, 1882, and is hereby promulgated for general information :—

ACT No. XVII OF 1882.

An Act to amend the Indian Ports Act, 1875.

WHEREAS it is enacted by the Indian Ports Act, 1875, section thirty-eight, that no vessel of the burden of two hundred tons or upwards shall be moved in any port to which that section has been specially extended without having a Pilot, Harbour-master or Assistant of the Master Attendant or Harbour-master on board; and that no vessel of any burden less than two hundred tons and exceeding one hundred tons shall be moved in any such port without having on board a Pilot, Harbour-master or Assistant of the Master Attendant or Harbour-master, unless authority in writing so to do has been obtained from the Conservator or some officer empowered by him to give such authority;

And whereas it is expedient to exempt Native vessels when moved in the Port of Bombay from the provisions of the recited section;

And whereas it is also expedient to exempt pleasure-yachts throughout British India from the levy of port-dues;

It is hereby enacted as follows :—

Short title. Commencement.

1. This Act may be called the Indian Ports Act, 1882; and it shall come into force at once.

Amendment of section 38 of Act XII of 1875 as to Native vessels in Port of Bombay.

2. To the recited section the following words shall be added :—

"Nothing in this section shall apply to Native vessels when they are moved in the Port of Bombay.

"If any question arises as to whether any vessel is a Native vessel within the meaning of this section, the decision thereon of such authority as the Governor of Bombay in Council may from time to time appoint in this behalf shall be conclusive."

Addition to Act XII of 1875.

3. After section fifty-eight of the Indian Ports Act, 1875, the following section shall be inserted, namely :—

Port-dues not chargeable on pleasure-yachts.

"58A. No port-dues shall be chargeable in respect of any pleasure-yacht."

THE SCHEDULE.

PART I.—OFFICES TO BE DEEMED TO HAVE BEEN SPECIFIED IN SECTION 6, CLAUSE (*a*).

PART II.—PERSONS TO BE DEEMED TO HAVE BEEN APPOINTED FELLOWS UNDER SECTION 6, CLAUSE (*b*).

A Bill to establish and incorporate the University of the Panjáb.

Preamble.

WHEREAS an Institution, styled at first the Lahore University College but subsequently the Panjáb University College, was established at Lahore in the year 1869 chiefly for the purpose of promoting the diffusion of European science, as far as possible, through the medium of the vernacular languages of the Panjáb, improving and extending vernacular literature generally, affording encouragement to the enlightened study of the Eastern classical languages and literature, and associating the learned and influential classes of the Province with the officers of Government in the promotion and supervision of popular education;

But it was at the same time provided that every encouragement should be afforded in that institution to the study of the English language and literature, and that in all subjects which could not be completely taught in the vernacular the English language should be regarded as the medium of examination and instruction therein;

And whereas this Institution was by a Notification, No. 172, dated 8th December, 1869, published in the *Panjáb Government Gazette* of the twenty-third day of December, 1869, declared to be so established in part fulfilment of the wishes of a large number of the Chiefs, Nobles and influential classes of the Panjáb, and it is now expedient, the said Institution having been attended with success, further to fulfil the wishes of the said Chiefs, Nobles and influential classes, by constituting the said Institution a University for the purpose of ascertaining, by means of examination or otherwise, the persons who, having studied in such Colleges as may be affiliated in manner hereinafter provided, have acquired proficiency in different branches of Literature, Science and Art, and for the purpose of conferring upon them academical degrees, diplomas, licenses and marks of honour;

And whereas it is also expedient that the University so constituted should be incorporated, and

that the property, moveable and immoveable, which has been hitherto held by, or in trust for, the said Institution should become the property of the University, subject to all existing trusts as to the manner in which, and the purposes to which, that property or any part thereof is to be applied;

The draft Bill referred to is that annexed to Panjáb letter No. 1277, dated 30th March, 1881.

It is hereby enacted as follows:—

Draft Bill, s. 1.

Short title. Commencement.

1. This Act may be called the Panjáb University Act, 1882; and it shall come into force at once.

cf. draft, s. 2. cf. also 42 & 43 Vic., c. 65, s. 2.

Establishment of University.

2. (1) A University shall be established at Lahore under the patronage of the Governor General for the time being.

Draft, s. 4: Act II of 1857, s. 3. cf. 42 & 43 Vic., c. 65, s. 3.

(2) The University so established shall consist of a Chancellor, a Vice-Chancellor and such number of Fellows as may be determined in manner hereinafter provided.

Draft, ss. 2 & 3: Act II of 1857, ss. 1 & 2. cf. 42 & 43 Vic., c. 65, s. 3.

University to be a Body Corporate.

(3) The University shall be a Body Corporate by the name of the University of the Panjáb, having perpetual succession and a common seal, with power to acquire and hold property, moveable or immoveable, to transfer the same, to contract, and to do all other things necessary for the purposes of its constitution.

(4) The University shall come into existence on such day as the Local Government may by notification in the official Gazette appoint in this behalf.

New. cf. 42 & 43 Vic., c. 65, s. 12.

Property of Panjáb University College to vest in University.

3. All the property, moveable and immoveable, at present held by or in trust for the Panjáb University College shall, when this Act comes into force, become the property of the University, to be administered by it for the purposes of the University subject to all existing trusts as to the manner in which, and the purposes to which, that property or any part thereof is to be applied.

Draft, s. 5: Act II of 1857, s. 4.

Chancellor.

4. The Lieutenant-Governor of the Panjáb for the time being shall be the Chancellor of the University; and the first Chancellor shall be the Hon'ble Sir Charles Umpherston Aitchison, Knight Commander of the Most Exalted Order of the Star of India, Companion of the Order of the Indian Empire, Doctor of Laws.

Draft, s. 6: Act II of 1857, s. 5.

Vice-Chancellor.

5. The Vice-Chancellor shall be such one of the Fellows as the Chancellor may, from time to time, by notification in the local official Gazette, appoint in this behalf.

He shall hold office for two years from the date of his appointment, and on the expiration of his term of office may be reappointed.

Draft, s. 8.

Fellows.

6. The following persons shall be Fellows, namely:—

(a) every person who has held the office of Chancellor and all persons for the time being holding such offices under Government as the Chancellor may, from time to time, by notification in the local official Gazette, specify in this behalf;

(b) persons whom the Chancellor may, from time to time, by like notification, appoint by name as being eminent benefactors of the Panjáb University, original promoters of the movement in favour of the establishment of the Panjáb University College, or persons distinguished for attainments in Literature, Science or Art, or for zeal in the cause of education;

(c) such persons (if any) as may from time to time be elected by the Senate hereinafter constituted, and approved by the Chancellor; and — Draft, s. 9.

(d) the representatives for the time being with the Government of the Panjáb of such Chiefs (if any) of territories not comprised in British India as the Lieutenant-Governor may, from time to time, by like notification, specify in this behalf:

Provided—

Number of Fellows.

(1) that the whole number of the Fellows holding office under clauses (a), (b) and (c) exclusive of the Vice-Chancellor shall never be less than fifty; and — Draft, s. 7; Act II of 1857, s. 6.

(2) that the number of persons elected under clause (c) shall never exceed the number appointed under clause (b).

The appointment of a Fellow may be cancelled.

7. The Chancellor may, whenever he thinks fit, by a notification in the local official Gazette, cancel the appointment of any Fellow appointed under section six, clause (b), or cancel or amend any notification issued under section six, clause (a) or clause (d). — Draft, s. 10; Act II of 1857, s. 7.

Office of Vice-Chancellor vacated by leaving India.

8. If a Vice-Chancellor leaves India without the intention of returning thereto, he shall thereupon cease to be Vice-Chancellor. — Draft, s. 4.

First Vice-Chancellor and Fellows appointed.

9. (1) James Broadwood Lyall, Esquire, of the Bengal Civil Service, and at present Financial Commissioner of the Panjáb, shall be deemed to have been appointed the first Vice-Chancellor under section five; and his term of office shall expire on the first day of September, 1884. — Draft, s. 2: Act II of 1857, s. 5.

(2) The offices specified in Part I of the schedule hereto annexed shall be deemed to have been specified in a notification issued under section six, clause (a); and

(3) the persons named in Part II of that schedule shall be deemed to have been appointed Fellows under clause (b) of that section.

Chancellor, Vice-Chancellor and Fellows to form Senate of the University.

10. (1) The Chancellor, Vice-Chancellor and Fellows for the time being shall form the Senate of the University. — Draft, s. 11; Act II of 1857, s. 8.

Senate to superintend the affairs of the University.

(2) The Senate shall have the entire management and superintendence over the affairs, concerns and property of the University, and shall provide for that management and exercise that superintendence at meetings convened in accordance with the rules made under this Act.

Chairman appointed.

11. At every meeting of the Senate the Chancellor, or in his absence the Vice-Chancellor, shall preside as Chairman; and, in the absence of both, a Chairman shall be chosen by the Fellows present, or the majority of them.

Questions to be decided at meetings of the Senate.

12. Every question which comes before the Senate at a meeting shall be decided by a majority of the votes of the members present; and the Chairman at any such meeting shall have a vote, and, in case of an equality of votes, a second or casting vote; — Draft, s. 12; Act II of 1857, s. 9.

Provided that no question shall be decided at any such meeting unless fourteen Fellows at the least besides the Chairman are present at the time of the decision.

Number of members to be present at meeting of Senate.

Draft, s. 13: Act II of 1857, s. 10.

13. Subject to such rules as may be made under this Act, the Senate may from time to time appoint and remove all examiners, officers and servants of the University, and may also appoint a Syndicate.

Appointment and removal of examiners and officers.

Draft, s. 14.

14. *(1)* The Senate may confer on all persons who have gone through such previous course of instruction in an affiliated college, passed such examinations in the University, and fulfilled such other conditions as may be prescribed by the rules to be made under this Act,—

Power to confer degrees, &c., after examination.

Act II of 1857, s. 11.

(*a*) the degrees of Bachelor of Arts, Master of Arts, and, if empowered by the Governor General in Council in this behalf, the degrees of Bachelor of Laws, Bachelor of Medicine, Doctor of Medicine and Master of Civil Engineering, as the case may be;

Act XLVII of 1860, s. 1.

(*b*) such other degrees and such diplomas or licenses as may be prescribed by any rules made under this Act; and

Act II of 1857, s. 11.

(*c*) such marks of honour for a high degree of proficiency in the different branches of Literature, Science and Art as may be prescribed by rules made as aforesaid.

(2) "Affiliated College" in this section means such Colleges as may from time to time be affiliated to the University by an order of the Senate approved of by the Local Government and confirmed by the Governor General in Council.

(3) An order affiliating a College may be rescinded by an order similarly made, approved and confirmed.

Draft, s. 16: Act II of 1857, s. 13.

15. Notwithstanding anything in section fourteen, the Senate may confer degrees, diplomas, licenses or marks of honour as provided by that section on all persons who have in the year 1882, and previous to the passing of this Act, passed such examinations prescribed by the Panjáb University College as may be sufficient to satisfy the Senate that they are persons qualified in point of learning to obtain those degrees, diplomas, licenses or marks of honour.

Power to confer degrees on persons who have passed examinations at the Lahore University College in 1882.

Draft, s. 15: Act XXI of 1875, s. 1.

16. Notwithstanding anything hereinbefore contained, the Senate may grant a degree to any person without requiring him to undergo any examination for that degree:

Power to confer honorary degrees.

Provided that the Vice-Chancellor, and not less than ten of the members of the Syndicate appointed under section thirteen (exclusive of the Vice-Chancellor, if a member of that Syndicate) certify in writing that in their opinion that person is, by reason of eminent position and attainments, a fit and proper person to receive such degree.

Draft, s. 18: Act II of 1857, s. 15.

17. The Senate may charge such reasonable fees, on admission into the University, for continuance therein, and for the degrees, diplomas and licenses to be conferred by it, as the University, with the approbation of the Chancellor, from time to time, thinks fit to impose.

Power to levy fees.

Draft, s. 11.

18. *(1)* The Senate may from time to time make rules consistent with this Act touching—

Power to make rules.

(*a*) the mode and time of convening the meetings of the Senate;

(*b*) the appointment, removal and remuneration of the examiners, officers and servants;

(*c*) the appointment of the Syndicate;

(*d*) the previous course of instruction to be followed, the examinations to be passed, and the other conditions to be fulfilled by candidates for degrees, diplomas, licenses and marks of honour respectively;

(*e*) the conduct of examinations for the mode of granting, and the titles of, degrees, diplomas, licenses and marks of honour; and

(*f*) generally all matters regarding the University.

(2) All such rules shall be reduced into writing, and shall, after the common seal of the University has been affixed thereto, and they have been confirmed by the Lieutenant-Governor and sanctioned by the Governor General in Council, be binding on all persons, members of the University, or admitted thereto, and on all candidates for degrees, diplomas, licenses and marks of honour.

THE SCHEDULE.

(*See Section 9.*)

PART I.

Offices to be deemed to have been specified under section 6, clause (*a*) :—

Judge of the Chief Court, Panjáb;
Financial Commissioner of the Panjáb;
Surgeon-General of the Panjáb;
Commissioner of Lahore;
Commissioner of Delhi;
Commissioner of Amritsar;
Accountant-General of the Panjáb;
Director of Public Instruction, Panjáb;
Principal of the Lahore Government College;
Principal of the Lahore Medical School;
Inspector of Schools;
Deputy Commissioner of Lahore;
Deputy Commissioner of Delhi;

PART II.

Persons to be deemed to have been appointed Fellows under section 6, clause (*b*) : —

His Highness Mahárájá Ranbír Singh, of Jammu and Kashmir, G.C.S.I., C.I.E., Counsellor of the Empress of India;

Major Isaac Peatt Westmoreland, R.E.;
Lieutenant-Colonel George Gordon Young;
William Mackworth Young, Esquire, M.A., Bengal Civil Service;
Maulvi Ziá-ud-din Khán.

STATEMENT OF OBJECTS AND REASONS.

IN the year 1869 the Governor General in Council was pleased, in accordance with the recommendations of the Lieutenant-Governor of the Panjáb, and in part fulfilment of the wishes of a large number of the chiefs, nobles and influential classes of the Panjáb, to sanction the establishment at Lahore of an institution, then styled the Lahore University College, but subsequently styled the Panjáb University College. The special objects of this College, as stated by its statutes, were as follows :—

(1) to promote the diffusion of European science as far as possible through the medium of the vernacular languages of the Panjáb, and to improve and extend vernacular literature generally ;

(2) to afford encouragement to the enlightened study of Eastern classical languages and literature; and

(3) to associate the learned and influential classes of the Province with the officers of Government in the promotion and supervision of popular education.

It was, however, at the same time laid down that every encouragement should be afforded to the study of the English language and literature, and that in all subjects which could not be completely taught in the Vernacular the English language would be regarded as the medium of examination and instruction.

At the time of the establishment of this College, promises were held out by Government that, if attended with due success, it might eventually be raised to the status of a University; and large sums of money have been, from time to time, given to the College by the chiefs and influential classes of the Panjáb, who have long looked forward to the fulfilment of these promises. As the College has, in the opinion of Government, been attended with due success, it has been determined to carry out what is believed to be the almost universal wish of the Natives of the Panjáb who are interested in education, and constitute the College a University.

2. The present Bill has, therefore, been prepared. Section 2 establishes the University, and confers on it all the powers of a body corporate. Section 3 provides for the transfer to the University of all the property at present held by or in trust for the University College. Sections 4 to 8 deal with the constitution of the University, and provide for a Chancellor, who is to be the Lieutenant-Governor of the Panjáb for the time being, a Vice-Chancellor to be appointed by the Chancellor, and a body of Fellows.

The Fellows will be of four classes, namely: (1) the holders for the time being of certain offices, who are to be *ex-officio* Fellows; (2) persons appointed by the Chancellor as being eminent benefactors of the University, original promoters of the movement in favour of the Panjáb University College, or persons distinguished for attainments in literature, science or art, or by zeal in the cause of education; (3) persons chosen by the Senate and approved by the Chancellor; and (4) the representatives for the time being with the Government of the Panjáb of such independent Native chiefs as the Lieutenant-Governor may by notification in the Gazette specify. The schedule annexed to the Act contains a list of the persons who are to be deemed to be the first Fellows. Sections 10, 11 and 12 provide for a Senate and matters connected therewith. Section 13 empowers the Senate to appoint and remove all examiners, officers and servants of the University. Section 14 empowers it to confer certain degrees, but restricts the exercise of the power to confer the degrees of Bachelor of Laws, Bachelor of Medicine, Doctor of Medicine and Master of Civil Engineering until the Governor General in Council has given his assent thereto; and section 15 gives it power to confer like degrees in the case of persons who may have passed during the year 1882 such examinations of the Panjáb University College as may correspond to the degree examinations of the University. Section 16 empowers the Senate to confer honorary degrees in certain cases; section 17 to levy fees; and section 18 to make rules generally in all matters regarding the University.

Executive Engineer, Mainpuri Division, Lower Ganges Canal, reports that there was a heavy demand for indigo sowings and that the supply was short of demand.

Executive Engineer, Agra Canal, reports that the canal was closed for repairs and clearance of weeds from the 5th to 13th April, inclusive.

Executive Engineer, Rohilkhand Canals, reports that every drop of water is being used up for sugar irrigation and that the rivers are all very low.

ALLAHABAD,
The 29th May 1882.

G. H. D. WALKER,
Asst. Secy. to Govt., N.-W. P. and Oudh,
P. W. D., Irrigation Branch.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House, Simla, on Wednesday, the 14th June, 1882.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.
His Honour the Lieutenant-Governor of the Panjáb, K.C.S.I., C.I.E.
His Excellency the Commander-in-Chief, G.C.B., C.I.E.
The Hon'ble J. Gibbs, C.S.I., C.I.E.
Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.
Major-General the Hon'ble T. F. Wilson, C.B., C.I.E.
The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.
The Hon'ble C. H. T. Crosthwaite.
The Hon'ble W. C. Plowden.
The Hon'ble W. W. Hunter, LL.D., C.I.E.

PANJÁB UNIVERSITY BILL.

The Hon'ble MR. GIBBS introduced the Bill to establish and incorporate the University of the Panjáb, and moved that it be referred to a Select Committee consisting of His Honour the Lieutenant-Governor, the Hon'ble Messrs. Ilbert, Crosthwaite and Hunter and the Mover. He said :—

"In accordance with the permission which was obtained for me by my hon'ble and learned friend Mr. Ilbert, I now beg to introduce this Bill.

"The Bill has been drawn with as much care as was possible from the information which we have on record; it has also been deemed advisable to follow as closely as we could the form of the Acts already on the Statute-book, and under which the Universities of Calcutta, Madras and Bombay have been founded. The Bill, in accordance with the usual practice, will be printed and published, and we shall no doubt receive the benefit of public criticism upon it.

"There are some points which will doubtless require very considerable care on behalf of the Select Committee, before they arrive at a conclusion on the final form it should take; but these are points which I need not notice in detail on the present occasion.

"The Objects and Reasons published with the Bill will give the public a very general, and at the same time clear, statement of the intention of the Government in bringing in this Bill. My hon'ble and learned friend Mr. Ilbert, in applying for leave to introduce the Bill, shortly stated the circumstances which had led to it, and I do not think that I need now do more than allude to one or two points which have been decided upon since permission to bring in the Bill was granted by the Council.

"Of those points, the first I may mention is that, owing to difficulties of a legal nature which might arise, it has been found necessary to provide in general terms that the University is founded under the patronage of the Governor General, but without stating that the Governor General may be 'patron' or 'visitor.'

"The term 'patron' is not one generally used regarding Universities, while the term 'visitor,' which is a University term, might give rise to some rather difficult and abstruse questions as to the power of a visitor of a University in this country, as compared with Universities at home—especially the Royal University lately established in Ireland.

"With regard to the appointment of Fellows, a further clause has been introduced, providing for some who may be chosen by the Senate and submitted by them to the Chancellor for his approval. This is an advance on what is the law at present with regard to the other Indian Universities; but I think it is a step in the right direction, and it is certainly one regarding which I should

not be surprised if, before long, applications are not made by other Universities to introduce a similar provision. There is a strong feeling that some Fellows should be nominated by the Senate for approval by the Chancellor.

"In the Bombay University, of which I was Vice-Chancellor for nine years, this was to a certain extent arranged by the understanding that the Vice-Chancellor should send in a list of names every year to the Chancellor of those gentlemen who had distinguished themselves particularly with regard to the University, and whose fitness for the position of Fellow was peculiarly known to the Senate and the governing body of the University.

"I would further observe that it was at first suggested, with regard to the appointment of a Chancellor and Vice-Chancellor, that the Governor General should be the Chancellor, and the Lieutenant-Governor the Vice-Chancellor. This was objected to in the Home Department, on the ground that by this means we should have two ornamental officers at the top; while the Vice-Chancellor should in all Universities be the principal guiding officer, and should be chosen from that class of the Fellows who are sure to be present during the greater portion of the year at the seat of the University, and who, therefore, by his constant attendance, will secure the continuity of the work in accordance with the principles on which the University is founded. This, it was considered, would not be the case if an officer to be called the Vice-President of the Senate was to be chosen. His Excellency the Viceroy concurred in this view, and thought—especially as he would in ordinary circumstances be very seldom present to take part in the meetings of the University—it was better for him to take the rôle of Patron to the University, and that, while the Lieutenant-Governor is the proper person to be Chancellor, the Vice-Chancellor should be chosen, as above stated, from those officers who are peculiarly fitted for that post.

"I may also notice that the Bill as drafted certainly does not go into those details which perhaps the public might expect to find in it; but it has been found by experience that it is never advisable to put into a Bill what can be better provided for by rules and bye-laws, which may be made from time to time, and may require alteration.

"If an opposite course were adopted, no trivial alteration could be made in any of those rules and bye-laws without recourse to the Legislative Council, which would be extremely troublesome.

"The consequence is that power is taken in this Bill, as in the other University Acts, to give power to the Senate, with the permission of the Lieutenant-Governor, as Chancellor, and the final sanction of the Governor General in Council, to make bye-laws for meeting all the necessary duties which the University has to carry out, with regard to the appointment of Examiners, the nature of the examinations, the degrees and diplomas which may be acquired, and the manner in which those degrees are to be conferred.

"The only other matter which I need notice is with respect to the appointment of the Select Committee to whom the Bill is to be referred. The names on the list are those of His Honour the Lieutenant-Governor of the Panjáb, and of my hon'ble friends Messrs. Ilbert, Crosthwaite, Hunter, with the Mover.

"The choice has been made of these gentlemen because we think that in the person of the Lieutenant-Governor we shall have an able representative of what is required for the Panjáb; while Mr. Hunter, as specially representing education in general, and the Commission now sitting in particular, will be a most useful member; as will also be Mr. Ilbert, who represents, if I may say so, the English Universities; and Mr. Crosthwaite, whose knowledge of the country and the wants of the people is perhaps not exceeded by any other member of Council."

The Motion was put and agreed to.

The Hon'ble Mr. Gibbs also moved that the Bill and Statement of Objects and Reasons be published in the *Panjáb Government Gazette* in English and in such other languages as the Local Government might think fit.

The Motion was put and agreed to.

The Council adjourned to Wednesday, the 21st June, 1882.

Simla;
The 14th June, 1882.

D. FITZPATRICK,
Secretary to the Government of India,
Legislative Department.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 20th JUNE 1882.

GENERAL REMARKS.—The monsoon has continued to give heavy rain in the extreme south-western tracts of Southern India, including within its range Malabar, Travancore, Coorg, and a portion of the Mysore State. The Madras Presidency generally has continued to receive a fair rainfall, the noticeable points in the week's report being that the Chingleput and Madura districts have received none, while Coimbatore has enjoyed a good fall. In the Bombay Presidency also rain has continued general and has been extremely heavy in parts.

In Central India, the Nizam's Territories have received less rain than in the preceding week, while it has continued copious in the Berars and in most districts of the Central Provinces, especially in Jubbulpore and Sambalpur. Fair rain has also fallen in the Central India and Rajputana States.

In Northern India, Assam and Bengal, including Orissa and Behar, have continued to receive more or less heavy rain; and it has also been more or less general in the North-Western Provinces and Oudh. In the Punjab, where the monsoon seems hardly as yet to have penetrated, a little rain fell in six districts. In British Burma the rains continue heavy, as is usual.

General prospects are favourable throughout the country: ploughing, sowing, and in places the transplanting of young crops, are progressing rapidly, and standing crops are doing well. The only exceptions to the general favourable aspect are the want of more rain in two districts of the Madras Presidency, in parts of the Nizam's Territories, in the Punjab, and in two districts of Assam; and the excess of rain in Coorg and in part of Mysore, and probably in Malabar.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(June 21st)		
Bellary ...	·47 (average of six stations).	Standing crops good; harvest paddy, outturn below average; fever and small-pox in parts.
Kurnool ...	·23 (average of four stations).	Standing sugarcane and indigo require water in parts; agricultural operations progressing; cattle-disease in parts.
Ganjam ...	·70 (average of six stations).	Standing wet and dry crops not thriving for want of rain; small-pox, fever, and cholera prevalent; cattle-disease slightly exists.
Kistna ...	·23 (average of five stations).	Preparation for cultivation progressing; small-pox and cattle-disease in parts.
Chingleput (Madras) ...	.....	Standing crops good; agricultural operations progressing; small-pox and cattle-disease in parts.
Coimbatore ...	1·46 (average of six stations).	Standing crops generally good, but *cholum* attacked by insects in parts; harvest dry grains, outturn about average; small-pox and fever in parts.
Tanjore ...	·20 (average of one station).	Standing crops generally good; harvest paddy, yield below average.
Madura ...	.....	Standing crops fair; cholera and fever in parts.
Malabar ...	13·36 (average of fourteen stations).	Sowing of first crop nearly over in parts; fever, small-pox, cholera, and cattle-disease in parts.
Travancore ...	1·72	Ploughing and sowing over; fever prevalent.
		General Remarks.—No rain in Chingleput and Madura; general prospects fair.
Bombay—(June 21st)		
Kurrachee ...	Slight rain in Sujawal and Shahbandar talukas on 9th.	Fever in seven talukas; river at Kotri on 19th 14¼ feet, against 15 feet 2 inches on corresponding date last year; wheat, red rice, and *bajri* in Kurrachee 22, 36 and 33, in Manjhand 26, 44 and 42, in Mirpur Botoro 22, 54 and 48, and in Sakro 16, 44 and 48 lbs. per rupee, respectively
Hyderabad ...	.....	River rising; *kharif* operations general; days hot, nights cool; fever in three talukas; small-pox in Guni taluka; wheat 25, *juari* 45, *bajri* 40, red rice 34, and white rice 22 lbs. per rupee.
Ahmedabad ...	6·80	Cholera—in the town of Ahmedabad 43 cases, 35 deaths, in Viramgaum 123 cases, 77 deaths; ploughing continues; wheat 26 and *bajri* 29 lbs. per rupee.
Baroda ...	2·30	Total rainfall 5·87; sowing of *kharif* commenced generally; slight cholera in Kadi division, and cattle-disease in the same division and in one taluka of Amreli mahal; *bajri* 29 and common rice 23 lbs. per rupee.
Surat ...	·04	Total rainfall 8·20; sowing progressing; *juari* 35 and *nagli* 51 lbs. per rupee.
Násik ...	Igatpuri, 10·00; Peint, 13·00; Katwan, 7·00; Chandore, 4·00; Dindori, 5·00; Násik, 3·00.	Break since 15th; cotton sown in Malegaon and Nandgaon; pulses sown in places; land being prepared for *bajri*; locusts in places; small-pox abating.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*

POLITICAL.

The 29th June 1882.

No. 387 *I.P.*—The Governor General in Council is pleased to direct the publication of the following agreement, by which the villages of Gabat, Waniad, Bayar, and Choila have been ceded to the Maharaja of Edur, with effect from the 2nd of November 1881 :—

Agreement between the British Government and His Highness the Maharaja of Edur.

WHEREAS the villages specified in the Schedule hereto annexed and situated in the Ahmedabad Collectorate in the Presidency of Bombay have been since the year 1818 A.D. and now are part

of British India, but the Edur State has received a share of the revenue of the said villages; and whereas a certain annual sum of Rs. 1,600 is payable by the British Government to the said State as compensation for the loss of certain salt dues on the Marwar frontier of the said State which were relinquished by the said State at the request of the said Government; and whereas the said Government and the said State, being desirous of separating their interests in the revenues of the said villages and providing for payment of the compensation payable as aforesaid, have agreed that the said State shall grant and transfer to the said Government its share in the revenues of the villages specified in Part A of the said Schedule, and that the said Government shall cede and grant to the said State the villages specified in Part B of the said Schedule; and whereas the Secretary of State for India in Council has, by order of Her Majesty the Queen of Great Britain and Ireland and Empress of India, sanctioned the cession of the villages specified in Part B of the said Schedule: Now it is hereby witnessed that—

(1) His Highness the Maharaja of Edur doth hereby grant and transfer to the Governor General of India in Council all his rights, interests, and share to and in the revenues of the villages specified in Part A of the Schedule hereto annexed.

(2) The Governor General of India in Council, with the sanction hereinbefore recited, doth hereby cede and grant to His Highness the Maharaja of Edur, his heirs and successors, the villages specified in Part B of the Schedule hereto annexed, to hold the same on the terms and subject to the rules and conditions on which he holds the rest of his territory; and the said villages shall cease to be part of British India and shall become part of the Edur State on and from the second day of November 1881.

(3) His Highness the Maharaja of Edur doth hereby for himself, his heirs and successors, promise and agree that he and they will respect and protect all existing rights in the villages hereby ceded (and in particular the rights of the Thakoor of Jabut in the village of Jabut).

And whereas the Thakoor of Man is at present in possession of the share in the revenues of the village of Punsri (being one of the villages specified in Part A of the Schedule hereto annexed), which share has been hereby transferred by the said State to the said Government. And whereas such share is valued at Rs. 742 per annum, and it is desirable that the said State should compensate the said Thakoor for the loss of the said share.

(4) It is hereby agreed that the said State shall grant to the Thakoor of Man, in lieu of the share in the revenues of the village of Punsri, of which he is at present in possession, land yielding an annual revenue of not less than Rs. 742 in some village in the said State convenient to both parties. And whereas the amount of revenue to be received annually by the said State under the cession of territory hereby made to it will exceed by the sum of Rs. 672 per annum the amount now annually payable to the said State on account of its share in the villages mentioned in the said Schedule and of the compensation hereinbefore referred to, and it is desirable that some arrangement should be made for the annual payment by the said State to the said Government of the said excess sum of Rs. 672.

(5) It is hereby agreed that the said Government shall, without regard to the amounts actually collected from any of the said villages, deduct annually the sum of Rs. 672 from the compensation payable by the said Government to the said State for the suppression of its transit duties, and the sum so deducted shall be taken by the said Government in payment of the said excess sum of Rs. 672.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATIONS.

Simla, the 10th June 1882.

No. 1622.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read—

Despatch from the Secretary of State for India, No. 288, dated 15th September 1881, in which, with reference to the case of Mr. C. E. S. Steele, a Revenue Deputy Collector in the Sind Commission, who was for some time employed under the Government of the Transvaal, the Secretary of State has decided that Mr. Steele cannot be relieved from the usual deduction of one-fifth of his salary under the Transvaal State as contribution to the Government of India towards pension. In this Despatch the Secretary of State desires the Government of India to consider whether the rate of contribution required to be made by officers lent for service under Foreign Governments is not unnecessarily high, and whether it might not be diminished.

RESOLUTION.—Under the Rules in Chapter III of the Civil Pension Code, an Officer of the British Government transferred to Foreign Service is required to pay to the Government of India a contribution out of the salary which he receives while in Foreign Service to meet the cost of his pension and leave allowances exclusive of allowances while on privilege leave. "Foreign Service" includes service under a Native State, Municipality, Port Trust, Court of Wards, or other Body financially independent of the Government of India. It also includes service which is paid for from a Local Fund under such circumstances that it does not qualify for pension and leave under the Rules in the Civil Pension and Leave Codes. The rate of contribution is fixed at 20 per cent. of the gross salary which the Officer receives in Foreign Service, the calculation of his pension and leave allowances being made upon 4-5ths of such salary. The contribution is thus equal to 25 per cent. of the net pay upon which the Officer's pension and leave allowances are calculated. This rate applies to all Officers, whether Military Officers, Covenanted Civil Servants, or Uncovenanted Officers; but it is specially provided in the case of a Native of India, who is not a Covenanted Civil Servant, that, by resigning all claims to leave allowances from the Government of India in respect of his Foreign Service, he may contribute for pension only.

2. The present rules also provide for the payment of contribution by an Officer whose services are lent for other than Imperial purposes, either in England, or in a British Colony or to a Foreign State; but, except as regards service under the Egyptian Government, the precise amount of contribution in this case is not fixed. The contribution in each case is determined by the Government of India, as occasion arises, the maximum contribution, however, being 20 per cent. of the salary received in such Foreign Service.

3. The contribution of 25 per cent. on net pay referred to above includes about 12½ per cent. on account of pension. The Governor General in Council

has no reason to suppose that the rate of contribution for pension has been fixed at an unduly high figure in the case of Covenanted Civil Servants. The contribution on account of allowances while on leave is, however, unduly high, and consequently the general rate of 25 per cent. on net pay is capable of reduction to some extent in the case of all officers. Statistics recently compiled show that the average percentage of Officers of the Covenanted Civil Service on leave other than privilege leave is 14·38. In the case of Uncovenanted Officers, the percentage is still less. On this consideration, and also in view of the present arrangements for the extension of local self-government, in connection with which the Government of India is desirous of facilitating in every reasonable way the lending of Officers to Local Bodies without forfeiture of pensionary rights by the Officers, the Governor General in Council is of opinion that the contribution for pension and leave required to be paid to the Government of India by an Officer of the British Government, who is transferred either to "Foreign Service" as defined in page vii of the "*Definitions*" preceding the Codes of the Financial Department, or whose services are lent for other than Imperial purposes, either in England, or in a British colony or to a Foreign State, shall in future be made—

(*a*) if the Officer be a Covenanted Civil Servant,—at the rate of $16\frac{2}{3}$ per cent. (one-sixth) on the gross salary which he receives from his foreign employers;

(*b*) in the case of all other Officers,—at the rate of $14\frac{2}{7}$ per cent. (one-seventh) on the gross salary which the officer receives from his foreign employers: provided always that the contribution from an Uncovenanted Officer shall in no case exceed Rs. $166\frac{2}{3}$ a month.

Where a higher rate of contribution is now paid, the rate shall, for the future, be reduced as above; but it must be understood that in all such cases the gross salary will now be readjusted in such manner as to leave the officer the same net salary which he at present receives.

4. The payment of contributions at the rates now fixed will entitle the Officer to receive from the Government of India, at the proper time, pension and leave allowances (except allowances during privilege leave) in respect of the period of his employment in Foreign Service, &c.; the calculation of pension and leave allowances will be made upon the balance of the salary which remains to the Officer after payment of the prescribed contribution.

5. A Native of India, not being a Covenanted Civil Servant, may, by resigning all claims to allowances from the British Government during leave in respect to the period of his employment in Foreign Service, &c., contribute for pension only. In such case the contribution shall be one-eleventh of the salary which he receives from his foreign employers, and shall not exceed Rs. 100 a month.

6. These Rules are not intended to interfere with the cases of Officers which are specially provided for in Section 10 of the Civil Pension Code (*a*) to (*f*). Nor does His Excellency in Council think, by reason of the foregoing change in the rate of contribution in the case of Superior Officers, that any change is necessary in respect of inferior servants, whose case is provided for by Rule 4 under Section 8 of the Civil Pension Code.

ORDERED, that this Resolution be communicated to the several Departments of the Government of India; the several Local Governments; the Comptroller General, and all Accountants General.

No. 1623.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read the following papers regarding the question whether Municipalities may not be properly held liable to bear a share of pensions or gratuities granted for service partly paid from Municipal and partly from Government Funds:—

Circulars in the Home Department, Nos. 1—7 and 8, and 1—9 to 15, dated 6th January 1881.

Letter from Chief Commissioner, Assam, No. 165, dated 22nd January 1881.

Letter from Chief Commissioner, Coorg, No. 1418-94, dated 3rd February 1881.

Letter from Government, North-Western Provinces and Oudh, No. 196, dated 8th February 1881.

Letter from Chief Commissioner, Central Provinces, No. 1061-48, dated 31st March 1881.

Letter from Government, Madras, No. 627, dated 12th April 1881.

Letter in the Home Department to Government, Madras, No. 87, dated 21st May 1881.

Letter from Government, Madras, No. 1178, dated 25th June 1881.

Letter from Government, Punjab, No. 1835, dated 4th July 1881.

Letter from Chief Commissioner, British Burma, No. 6171-38, dated 6th September 1881.

Letter from Resident, Hyderabad, No. 409, dated 26th October 1881.

Letter from Government, Bombay, No. 3600, dated 29th October 1881.

RESOLUTION.—The question which requires to be dealt with in connection with the papers read above refers to service rendered by an Officer partly under a Municipality and partly under Government at the same time. The case of a Government Officer lent to a Municipality who desires to retain his lien on Government service and his right to pension, is already provided for in the Rules in Chapter III of the Civil Pension Code.

2. The Governor General in Council observes that there are at present no rules under which the service of an Officer who is paid at the same time partly from Municipal funds and partly from Government funds, qualifies for pension and leave. And there is a difficulty in making such rules without change in the law, so as to empower Municipal Boards to pay pensions and leave allowances out of the funds at their disposal.

3. The measures about to be taken in furtherance of the recent policy of Government regarding local self-government, will lead to the necessity of Municipalities availing themselves of the services of Government Officers to a greater extent than is now the case; but while the existing rules, modified as in Resolution No. 1622 of 10th June 1882, will cover the cases of all Officers whose services are wholly lent to Municipalities, Officers of Government who devote only a part of their time to the performance of municipal duties will be at a disadvantage by reason of their pay in the service of Municipalities not being, under the present rules, taken into account in determining their pension and leave allowances.

4. The Governor General in Council requests accordingly that where the existing law makes no provision for payment by Municipalities of pensions, gratuities and leave allowances of Officers paid partly from Municipal funds and partly from Government funds at the same time, Local Governments will take early measures with a view to legislation being resorted to for removing any difficulties which may be found to exist. If an officer is paid partly from Municipal Funds and partly from the General Revenues, it would seem reasonable that the officer should pay to Government a contribution on the portion of his salary which is drawn from Municipal Funds calculated according to the rules in Chapter III of the Civil Pension Code, and in that case Government would be responsible for the whole of his pension and for his allowances while on leave other than privilege leave.

ORDERED, that this Resolution be communicated to the Home Department for the issue of necessary instructions to all Local Governments.

The 28th June 1882.

No. 2016.—Mr. E. F. T. Atkinson, B.C.S., is appointed to officiate, until further orders, as Accountant General, Bengal.

Mr. R. Logan, B.C.S., Officiating Under Secretary to the Government of India in the Department of Finance and Commerce, is placed on special duty under the Government of India in the Department of Finance and Commerce.

Mr. Stephen Jacob, B.C.S., is appointed to officiate, until further orders, as Under Secretary to the Government of India in the Department of Finance and Commerce.

No. 2027.—In exercise of the powers conferred by Section 6 of Act I of 1878 (The Opium Act, 1878), the Governor General in Council is pleased to reduce by Rs. 50 per chest the duty on opium imported by land into the Presidency of Bombay for exportation by sea from the Port of Bombay.

Accordingly it is hereby notified that, till further orders, all opium imported by land into the Presidency of Bombay, and covered by a pass for exportation by sea from the Port of Bombay, granted in accordance with Rule 14 of the Rules made under the Opium Act, 1878, dated the 30th March 1878 and published by the Government of Bombay, will be subject to the following duty upon each chest weighing net 140¼ lbs. avoirdupois weight, namely :—

	Rs.
When the pass for such opium is granted at Ajmere	675
When the pass for such opium is granted elsewhere	650

The 30th June 1882.

No. 2036.—Whereas copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates granted by Ministers and Marriage Registrars are generally furnished on printed forms for which impressed sheets of stamped paper cannot be used without inconvenience; Therefore, in exercise of the powers conferred by Section 9 of the Indian Stamp Act, 1879, the Governor General in Council is pleased to make the following rule :—

The stamp duty payable under Article 22 of Schedule I to the Indian Stamp Act, 1879, on copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates shall be denoted by means of adhesive court fee labels.

Read also—

Despatch from the Secretary of State, No. 48, dated the 9th February 1882, and the following extract from Resolution in the Home Department, No. $\frac{17}{747-759}$ (Public), dated the 18th May 1882 :—

Para. 22.—Another point deserving of notice is the control that should be exercised over the execution of local works. It will not always be possible for a Local Board to entertain a competent Engineer of its own; and in any case when Government buildings and important works of other kinds are made over for maintenance, there must be some effective guarantee for thoroughness of execution. It will probably be most convenient that, while all subordinate establishments are entirely under the control of the Boards, Government should supply the District Engineer and furnish professional supervision, the Boards defraying in such manner as may be determined by the Local Governments with reference to the amount of work done for each Board the payments to be made to Government on this account. Care must, however, be taken that the Boards are left unfettered in the initiation and direction of operations, and that the Engineer is placed in the position of their servant and not of their master. The power of check vested in the District Officer will suffice to remedy any carelessness or improper working on the part of the Boards. If this arrangement is carried out, it will probably be found possible to make over to the charge of the Boards most of the public buildings in the districts, and other works of various kinds which would otherwise have to be kept in the hands of the Government Officers. Double establishments will thus be avoided, and public money saved.

RESOLUTION.—On a reference from the Chief Commissioner, British Burma, the Governor General in Council has recently had under consideration the question whether the creation and abolition of appointments under Municipal and Local Fund Boards and similar Local Bodies, or the modification in any way of the pay of such appointments, are, or should be, subject to the same restrictions of various kinds, including reference to Her Majesty's Government when the pay of the appointment exceeds a certain amount, as appointments the cost of which is charged against the General Revenues.

2. The rules which govern the procedure to be observed in reporting for the sanction of the Home Government, the creation of new offices carrying pay exceeding Rs. 250 a month, and additions to salaries which raise them above Rs. 5,000 a year, are contained in the Despatch of the Secretary of State for

India, No. 63, dated the 17th March 1864. But these rules, as they are understood, apply only to charges which fall on what are called "General Revenues" in contradistinction to Local Funds.

3. Provincial Funds form a portion of the General Revenues and are administered by Local Governments just as Imperial Funds are administered by the Government of India; the distinction between them is merely one of account and internal administration; but between Local Funds and General Revenues the distinction is clear, and involves a principle of importance.

4. It is true that the principal Local Funds, both incorporated and excluded (*e.g.*, District Road Cess, Municipal, Port, and Port Trust), are composed in the main of taxes, dues, and fees which do not differ materially in their nature from those taxes, dues, and fees which form a part of the General Revenues; but the essential distinction consists in the special agency and special principles, by, and in accordance with, which Local Funds are administered and in some cases raised.

5. The practice of the Government has been to leave these funds to be administered by Local Bodies, in pursuance of the policy of developing local self-government; only such powers of general control are generally retained as may suffice to authorise interference in cases in which the public interest would otherwise suffer. This policy has been consistently kept in view since Local Bodies were first created. The course of legislation all over the country has accordingly been in the direction of enforcing the responsibility and maintaining the authority of such Bodies. For instance, in some of the Acts relating to the constitution and mode of working of Municipalities, and District Committees, no restriction whatever has been placed by the Legislature on the powers of those Bodies for the creation of new appointments; and in others the powers of general control which have been reserved are not such as would allow of the enforcement of those restrictions which apply to such appointments when the cost of these is payable from the General Revenues.

6. The Local Bodies to whom these powers have been entrusted exercise them, as a rule, with discretion; and there is nothing in the method of their administration in the past which would justify the imposition of any special restrictions. Seeing, therefore, that it is desirable to develop local self-government, and that Local Bodies may reasonably be expected to give due weight to the need for economy in the administration of Local Funds, the Governor General in Council is pleased to rule—

(*1st*) that Local Bodies to whom the administration of Local or Municipal Funds has been committed shall be competent, subject to the general restrictions imposed by the Legislature or to such special reservations as the Government of India may lay down in any case (*e.g.*, that referred to in paragraph 22 of the Resolution in the Home Department, dated the 18th May 1882), or with reference to any particular class of appointments, to create, as well as to abolish, without reference to higher authority all appointments the pay of which is chargeable to such Local or Municipal Funds;

(*2nd*) that as regards Local Funds administered by Local Governments and not by Local Bodies, the existing restrictions regarding appointments payable from Imperial or Provincial Revenues shall continue in force in respect of appointments payable from such funds.

ORDERED, that the foregoing Resolution be communicated to the several Departments of the Government of India, the several Local Governments and Administrations, and the several Officers of the Account Department.

Ordered also, that it be published in the *Gazette of India*, together with the Resolutions in this Department, Nos. 1622 and 1623, dated the 10th instant.

D. M. BARBOUR,
Offg. Secy. to the Govt. of India.

MILITARY DEPARTMENT.

Simla, the 30th June, 1882.

APPOINTMENTS.

No. 357.—STAFF CORPS—

The undermentioned officers are admitted to the Bengal Staff Corps, with effect from the dates specified, subject to the confirmation of the Right Hon'ble the Secretary of State for India :—

Lieutenant E. Inglis, Squadron Officer and Adjutant, 4th Punjab Cavalry, to be Squadron Officer, and to rank below Lieutenant A. L. Williamson.

3rd Sikh Infantry.

Lieutenant-Colonel P. C Rynd, Commandant, 3rd Punjab Infantry, to officiate as Commandant during the absence on furlough of Lieutenant-Colonel G. N. Money, C.B.

Major J. E. P. Mosley, Wing Officer (seconded) 3rd Punjab Infantry, to be Wing Officer. He will rank above Major W. C. Ramsden, and remain seconded in his new appointment.

Lieutenant R. D. C. Davies, Officiating Wing Officer, on probation, 3rd Punjab Infantry, to be Officiating Wing Officer, on probation.

4th Sikh Infantry.

Caplain H. F. V. Gaitskell, Wing Officer, 3rd Punjab Infantry, to be Wing Officer, and to rank above Lieutenant V. C. Tonnochy.

2nd Punjab Infantry.

Major J. Finnis, Wing Commander and Officiating 2nd-in-Command, 3rd Punjab Infantry, to officiate as Wing Commander and 2nd-in-Command, *vice* Lieutenant-Colonel E. C. Codrington, Officiating as Commandant.

5th Punjab Infantry.

Major C. K. Mackinnon, Wing Commander and 2nd-in-Command, 3rd Punjab Infantry, to officiate, on return from furlough, as Wing Commander and 2nd-in-Command, *vice* Lieutenant-Colonel C. E. Stewart, on special duty, or until further orders.

6th Punjab Infantry.

Lieutenant E. W. Cunliffe, Wing Officer and Adjutant, 3rd Punjab Infantry, to be Wing Officer, and to rank under Lieutenant E. B. J. Vaughan.

VOLUNTEER CORPS.

No. 360.—*Behar Mounted Rifle Corps*—

The Hon'ble A. Rivers Thompson, C.S.I., C.I.E., C.S., Lieutenant-Governor of Bengal, to be Honorary Colonel, *vice* the Hon'ble Sir A. Eden, K.C.S.I., C.I.E., C.S., resigned.

No. 361.—*Northern Bengal Volunteer Rifle Corps*—

The Hon'ble A. Rivers Thompson, C.S.I., C.I.E., C.S., Lieutenant-Governor of Bengal, to be Honorary Colonel.

No. 362.—*Administrative Battalion British Burma Volunteers*—

C. E. Bernard, Esq., C.S.I., C.S., Chief Commissioner, British Burma, to be Honorary Colonel, *vice* the Hon'ble Sir C. U. Aitchison, K.C.S.I., C.I.E., C.S., LL.D., resigned.

FURLOUGH AND LEAVE.

No. 363.—The undermentioned officers are granted furlough out of India, with the necessary subsidiary leave :—

Captain E. C, Elliston, Bengal S. C., (p. a.) for 159 days, under rule IX of the regulations of 1868. (This cancels the furlough granted to him in G. G. O. No. 179 of 1882.)

Surgeon J. Duke, 3rd Punjab Cavalry, (p. a.) for 182 days, under rule IX of the regulations of 1868.

No. 364.—Major W. E. Gowan, General List, Infantry, is granted furlough for the 21st March 1882, in extension of that allowed him in G. G. O. No. 67 of 1882.

No. 365.—The undermentioned officers have been granted extensions of furlough by the Right Hon'ble the Secretary of State for India :—

Lieutenant-Colonel C. J. Hughes, Bengal S. C., (m. c.) for four months.

Lieutenant-Colonel H. Morton, Bengal S. C., (p. a.) for 111 days.

Major (Brevet Lieutenant-Colonel) A. C. W. Crookshank, Bengal S. C., (m. c.) for two months.

Major W. J. Williamson, C.I.E., Bengal S. C., (m. c.) for four months.

Captain R. A. C. King, R.A., (m. c.) for three months.

Surgeon-Major C. J. McKenna, (m. c.) for four months.

GAZETTE OF INDIA.

NOTICE.

The 11th March 1882.

From the 8th April next, till further notice, Parts I, IV, and V of the *Gazette of India*, and the Weather and Crop Report, will be published at Simla. After the 1st April, all Notifications and other matter intended for publication in those Parts, should be addressed to the Officiating Publisher at that station.

Parts II and III and the Supplement will continue to be published in Calcutta.

Parts IV and V of the *Gazette of India*, containing the Acts and Bills of the Legislative Council, may be subscribed for separately from the other Parts of the Gazette. The annual subscription for the two Parts will be Rs. 5 per annum, payable in advance. When sent by post, Rs. 2-8 per annum additional will be charged for postage. For the current year these Parts are available from 1st May only, the back numbers being out of print.

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the day on which it is due.

Applications for the supply of the *Gazette* on the *public service* should be addressed to the Home Department.

By an order of Government, all subscriptions must be paid *in advance*.

	Rs.	A.	P.
Subscription for *Gazette* and Supplement per annum	15	0	0

For a single copy of the *Gazette*	0	8	0
For a single copy of the Supplement	0	8	0

Postage on single copies varies according to weight.

E. J. DEAN,

Publisher, Gazette of India.

NOTICE.

The Office of Superintendent of Government Printing having been removed to No. 166, Dhurrumtollah Street, all communications intended for that Office should be sent to that address.

E. J. DEAN,

Supdt. of Govt. Printing, India.

NOTICE TO MARINERS.

No. 25 of 1882.

AFRICA—EAST COAST.

ZANZIBAR.

Shoal in English Pass.

The British Hydrographic Department has notified that information has been received from Commander Mather Byles, H. M. S. *Seagull*, of the existence of a shoal (over which that vessel passed on 9th March, 1882), lying near the fairway of English pass, northern approach to Zanzibar harbour.

This shoal (*Seagull shoal*), about 80 yards long in a north and south direction and 40 yards in width, consists of black sand and coral, with a least depth of 12 feet at low water spring tides over a coral head, and 3½ fathoms close around; it lies with the following bearings and distances:—

Large house on Bet-el-Rás, S. S. E. ⅛ E.

West extreme of Chango island, S. W. ¼ W., distant 2½ miles.

White square castellated house north of Bet-el-Rás, E. ¾ N., distant 1½ miles.

These bearings place Seagull shoal in latitude 6° 5′ 10″ S., longitude 39° 11′ 15″ E.

(*The bearings are Magnetic. Variation 10½° Westerly in 1882.*)

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr.* (*late I.N.*),
Superintendent, Marine Survey of India.

Marine Survey Department,
Calcutta,
The 24th June, 1882.

This Notice affects the following:—

BRITISH ADMIRALTY Charts, Nos. 664, 665 and 640*b*; also Africa Pilot, Part III, 1878, page 347. Also Taylor's Sailing Directory, Vol. I, page 101.

If this Notice is received on board-ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

NOTICE TO MARINERS.

No. 26 of 1882.

EASTERN ARCHIPELAGO.

JAVA—NORTH COAST.

Leading Lights into Sourabaya.

The Vice-Admiral Commanding the Naval Forces in Netherlands India has given notice that, on the north-west coast of Madura Island, 2 Light-houses have been erected for the purpose of leading vessels into the north entrance of Sourabaya Strait.

The southern light is a *fixed* white catadioptric light of the 2nd order, on an iron Light-house painted white, at the little point called Tanjong Slempit (about 1½ miles southward of Sembilangan town); the light is elevated 178 feet above sea-level, and is visible in fine weather 19 miles.

The northern light is of the 6th order, on an open-work iron structure, at Tanjong Piering (about one mile N. by E. of Sembilangan); this light is 47 feet above the sea, and is visible about 9 miles.

These two lights in line will lead on a S. by W. course into Sourabaya Strait, over the Zee Bank, in 12 or 13 feet at high water; but only small vessels can enter.

The light-vessel, formerly placed 6 miles north of Sembilangan, has been removed.

By direction of the Government of India,

A. DUNDAS TAYLOR, *Comdr.* (*late I.N.*),
Superintendent, Marine Survey of India.

Marine Survey Department,
Calcutta,
The 27th June, 1882.

This Notice affects the following:—

BRITISH ADMIRALTY Charts, Nos. 934, 941*b* and 748*b*. Also Light List for 1881.

If this Notice is received on board-ship, the substance of it should be inserted on the Charts affected by it, and introduced into the Sailing Directions to which it relates.

TREASURE TROVE.

It is hereby notified, under Section 5 of the Indian Treasure Trove Act (VI of 1878), that on the 25th December 1881, treasure, consisting of sicca rupees—old coins of the time of the Emperor Shah Allum—the approximate value of which is Rs. 219-6-0, were discovered on the banks of the river Bhoyrub near Akrigunge, in the District of Moorshidabad.

All persons claiming the said treasure, or any part thereof, are hereby required to appear personally or by agent before the Collector of Rajshahye at his Office, on Monday, the 4th December 1882, in order to have the matter enquired into and determined in accordance with the provisions of the Act.

E. H. RUDDOCK,

Offg. Collector of Rajshahye.

RAJSHAHYE COLLECTORATE,
The 21st June 1882.

DEPARTMENT PUBLIC WORKS HALF-YEARLY EXAMINATION.

The half-yearly examination of candidates for promotion and employment in the Public Works Department will be held at the Government Engineering College, Howrah, at 10 o'clock, on Monday, the 7th August 1882, and the following days. Applications, with fees for admission to the examination, are required to be filed before the 15th of July 1882. Candidates for the grade of Accountant who are not in Government service should be under twenty-five years of age, and must prove to the satisfaction of the Principal that they are under that age.

The following are the centres of examination sanctioned by the Government of India as stations where candidates for fourth grade Accountantships are to appear for examination :—

Agra, Ahmedabad, Ajmere, Akyab, Allahabad, Bolaram, Durbhanga, Howrah, Indore, Jabalpore, Lahore, Lucknow, Meerut, Mhow, Mooltan, Mount Aboo, Nagpore, Neemuch, Rangoon, Rawalpindi, Saidpore, Shillong and Simla.

Candidates for the Accountant's examination are therefore requested to select one of the places mentioned above.

J. S. SLATER,

Offg. Principal, Govt. Engrg. College, Howrah.

COMMISSARIAT NOTICE.

The following five Government elephants are now for sale at Agra and Bareilly.

2. Offers are invited, both for purchase of these animals, and also for exchange of good female elephants suitable for Government purposes in place of these, and any reasonable offers will be accepted by the Commissary General.

3. Applications to inspect the elephants and offers for purchase or exchange may be made to the Assistant Commissaries General, Agra and Bareilly, respectively:—

Description of Elephants.

Where for sale.	Register No.	Name.	Sex.	Height. (ft. in.)	Probable age.	Tusks.	Eyes.	Number of Nails.	Tail.	Back.	Temper.	Condition.	REMARKS.
At Agra.	696	Salka ...	Male	8 4½	45	Perfect ...	Blind off-side.	18	No hair ...	Hollow in centre from wound in youth.	Good	Good	Fit for sowari purposes; never been musth; head and tusks fine; carriage good.
At Agra.	1347	Louis Napoleon.	Do. ...	9 7	39	One on off-side.	Perfect ...	18	Short of hair.	Good ...	Vicious.	Do. ...	A fine elephant, unsafe for Government purposes, but Rajahs, &c., might buy him for fighting purposes.
At Agra.	1670	Watson ...	Do. ...	8 9	37	One on off-side split slightly.	Do. ...	18	Do. ...	Do. ...	Uncertain.	Do. ...	A very fine animal, fit for anything, but troublesome at times.
At Agra.	459	Nazirguj ...	Do. ...	8 11	47	Two, off one broken.	Do. ...	18	No hair ...	Do. ...	Do. ...	Do. ...	Unsafe for Government work; a very fine elephant indeed, suitable for fighting purposes.
At Bareilly.	1783	Hastings ...	Do. ...	9 4	50	One broken.	Good ...	18	Good ...	Centre ridge of bone rather high.	Good	Low...	Fit for howdah and shooting purposes.

E. HUTTON,
Presidency Post Master.

NOTICE.

Waste Lands available for Planters in the Tavoy District.

Waste lands, covered at present with forest, bamboos or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,800 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 190 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application to the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices in Tavoy, namely,—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.

(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the tenth year after he enters on possession, provided that he takes *bonâ fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated in each year.

(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-third of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.

(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bonâ fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met as far as possible in regard to the situation and shape of their grants. But ordinarily—

(*a*) no grant will be given where the Forest Department intend to make a forest reserve;

(*b*) no grant will be given on such a place as will unduly circumscribe the extension of cultivation of the grazing grounds of any neighbouring village or hamlet;

(*c*) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;

(*d*) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI.—The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.

VII.—In order to encourage pioneers in the coffee and cinchona enterprise in Tavoy, the Government will pay to the first four grantees who begin *bonâ fide* planting operations Rs. 15 per head for every Indian or Chinese coolie, male or female, over 16 years of age, who may be settled and housed on their plantations before the 1st March 1885.

VIII.—In any case of doubt regarding the *bonâ fide* character of operations for the purposes of concessions III and VII, the Deputy Commissioner will decide, and his decision will be subject to appeal to the Commissioner of Tenasserim, whose decision will be final.

IX.—All minerals and metals under and within the lands granted under these rules are reserved by Government, together with a right to enter upon and resume such portion of land as may be necessary for examining or working mines upon payment of just compensation to the grantee for loss of, or injury done to, the surface.

G. D. BURGESS,

Secy. to the Chief Commr., British Burma.

The 6th April 1882.

GOVERNMENT CINCHONA FEBRIFUGE.

This preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs. 4-8;* per eight ounce tin, *Rs. 8-8;* per pound tin, *Rs. 16-8.* The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the under-noted rates:—per four ounce tin *Rs. 5-8;* per eight ounce tin *Rs. 10-8;* per pound tin, *Rs. 20.* This medicine is also sold by the principal European and Native druggists in Calcutta. Postage 8 annas per four and eight ounce tins, and 12 annas per pound tin, in addition to the foregoing rates.

HENRY F. BLANFORD,

Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
„ MADRAS SERIES ...	„ 8	„ 9
„ BOMBAY SERIES ...	„ 8	„ 9
„ ALLAHABAD SERIES	„ 8	„ 9
Complete set... ...	„ 45	„ 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

For a Part of the CALCUTTA SERIES ...	Rs. 3	8
„ „ MADRAS SERIES ...	„ 1	0
„ „ BOMBAY SERIES ...	„ 1	0
„ „ ALLAHABAD SERIES.	„ 1	0
Complete set	„ 4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at Rs. 375 a set.

Charts, &c., issued at the Marine Survey Department, Calcutta, by order of the Government of India, and sold at the Office of the Marine Survey Department, 4-4 London's Buildings, Hastings Street, Calcutta, where Admiralty Charts can also be obtained.

☞ **All Charts are corrected up to the date of issue.**

Indian Ocean—

Indian Ocean—Curves of equal magnetic variation *Annas 8.*
Indian Ocean, Suez to Penang, including Zanzibar and Madagascar (Engraved). Physical and track chart. *Rs. 1.*
Arabian Sea, Western portion, with plans of Babel Mandeb Strait and Zanzibar Harbour. *Rs. 2.*
Arabian Sea, Eastern portion, with plans of Kurrachee Bombay, Colombo, Galle and Madras. *Rs. 2.*

India, West Coast—
Kurrachee to Vingorla. *Re. 1-12.*
Vingorla to Cape Comorin. *Re. 1-12.*
Port of Sáláya or Seraia. *Re. 1.*
Cutch Mándvi. *Re. 1.*
Veráwal Roads. *Re. 1.*
Sketch of the Entrance to Rajpuri River. *Annas 8.*
Ratnagiri, including Mirya and Kalbadevie Bays. *Re. 1.*
Kundari Island to Chaul. *Re. 1.*
Chaul and Entrance to Kundalika River. *Re. 1.*
Rajapur Bay and Viziadurg with adjacent Coast. *Re. 1.*
Jaygad and Entrance to Shasitri River. *Re. 1.*
Dabhol and Entrance to Washishti River. *Re. 1.*
Bankot and Entrance to Savitri River. *Re. 1.*
Goa and Marmagao Roadsteads. *Annas 12.*
Sadashivgad Bay, including the port of Karwar and Beitkul Cove. *Re. 1.*
Narakel Anchorage. *Annas 8.*
Quilon Roads. *Annas 8.*
Lakadive Group—Cherbaniani Reef, Chitlac and Kiltan Islands. *Annas 12.*
Byramgore Reef or Cheresapani, and Angria Bank. *Annas 8.*
Kolachel Roadstead, with plan of Enciam Rocks. *Re. 1-8.*

India, East Coast—Bay of Bengal, Ceylon, &c.—
Cape Comorin to Coconada, including the Island of Ceylon. *Re. 1-12.*
Tuticorin Roadstead and Harbour. *Re. 1.*
Approaches to Jafnapatam. *Re. 1.*
Paumben Pass. *Re. 1.*
Approaches to Paumben Pass. *Re. 1.*
Mullaittivu or Moeletivoe. *Annas 8.*
Batticaloa Roadstead. *Annas 8.*
Colombo Harbour and its Approaches. *Re. 1.*
Approaches to Point de Galle Harbour, Ceylon. *Re. 1.*
Bay of Bengal, Western Sheet. *Re. 2.*
Bay of Bengal, Eastern Sheet. *Re. 2.*
Coromandel Coast. Sheet No. 2, from Latitude 15° to 16° 30′ N. *Re. 1.*
Sheet No. 3, from Latitude 13° to 15° N. *Re. 1.*
Sheet No. 4. *Re. 1.*
Madras Roadstead. *Re. 1.*
Orissa Coast, Narsapoor Point to Palmyras Point, adapted to the latest determinations of the G. T. S. and observations by Commander A. D. Taylor, R.N. *Re. 1.*
Coconada to Bassein River. *Re. 1-12*

THE SCHEDULE.

PART I.—OFFICES TO BE DEEMED TO HAVE BEEN SPECIFIED IN SECTION 6, CLAUSE (*a*).

PART II.—PERSONS TO BE DEEMED TO HAVE BEEN APPOINTED FELLOWS UNDER SECTION 6, CLAUSE (*b*).

A Bill to establish and incorporate the University of the Panjáb.

Preamble.

WHEREAS an Institution, styled at first the Lahore University College but subsequently the Panjáb University College, was established at Lahore in the year 1869 chiefly for the purpose of promoting the diffusion of European science, as far as possible, through the medium of the vernacular languages of the Panjáb, improving and extending vernacular literature generally, affording encouragement to the enlightened study of the Eastern classical languages and literature, and associating the learned and influential classes of the Province with the officers of Government in the promotion and supervision of popular education;

But it was at the same time provided that every encouragement should be afforded in that institution to the study of the English language and literature, and that in all subjects which could not be completely taught in the vernacular the English language should be regarded as the medium of examination and instruction therein;

And whereas this Institution was by a Notification, No. 472, dated 8th December, 1869, published in the *Panjáb Government Gazette* of the twenty-third day of December, 1869, declared to be so established in part fulfilment of the wishes of a large number of the Chiefs, Nobles and influential classes of the Panjáb, and it is now expedient, the said Institution having been attended with success, further to fulfil the wishes of the said Chiefs, Nobles and influential classes, by constituting the said Institution a University for the purpose of ascertaining, by means of examination or otherwise, the persons who, having studied in such Colleges as may be affiliated in manner hereinafter provided, have acquired proficiency in different branches of Literature, Science and Art, and for the purpose of conferring upon them academical degrees, diplomas, licenses and marks of honour;

And whereas it is also expedient that the University so constituted should be incorporated, and

that the property, moveable and immoveable, which has been hitherto held by, or in trust for, the said Institution should become the property of the University, subject to all existing trusts as to the manner in which, and the purposes to which, that property or any part thereof is to be applied;

The draft Bill referred to is that annexed to Panjáb letter No. 1277, dated 30th March, 1881.

It is hereby enacted as follows:—

Draft Bill, s. 1.

Short title. Commencement.

1. This Act may be called the Panjáb University Act, 1882; and it shall come into force at once.

cf. draft, s. 2. cf. also 42 & 43 Vic., c. 65, s. 2.

Establishment of University.

2. (1) A University shall be established at Lahore under the patronage of the Governor General for the time being.

Draft, s. 4: Act II of 1857, s. 3. cf. 42 & 43 Vic., c. 65, s. 3.

(2) The University so established shall consist of a Chancellor, a Vice-Chancellor and such number of Fellows as may be determined in manner hereinafter provided.

Draft, ss. 2 & 3: Act II of 1857, ss. 1 & 2. cf. 42 & 43 Vic., c. 65, s. 3.

University to be a Body Corporate.

(3) The University shall be a Body Corporate by the name of the University of the Panjáb, having perpetual succession and a common seal, with power to acquire and hold property, moveable or immoveable, to transfer the same, to contract, and to do all other things necessary for the purposes of its constitution.

(4) The University shall come into existence on such day as the Local Government may by notification in the official Gazette appoint in this behalf.

New. cf. 42 & 43 Vic., c. 65, s. 12.

Property of Panjáb University College to vest in University.

3. All the property, moveable and immoveable, at present held by or in trust for the Panjáb University College shall, when this Act comes into force, become the property of the University, to be administered by it for the purposes of the University subject to all existing trusts as to the manner in which, and the purposes to which, that property or any part thereof is to be applied.

Draft, s. 5: Act II of 1857, s. 4.

Chancellor.

4. The Lieutenant-Governor of the Panjáb for the time being shall be the Chancellor of the University; and the first Chancellor shall be the Hon'ble Sir Charles Umpherston Aitchison, Knight Commander of the Most Exalted Order of the Star of India, Companion of the Order of the Indian Empire, Doctor of Laws.

Draft, s. 6: Act II of 1857, s. 5.

Vice-Chancellor.

5. The Vice-Chancellor shall be such one of the Fellows as the Chancellor may, from time to time, by notification in the local official Gazette, appoint in this behalf.

He shall hold office for two years from the date of his appointment, and on the expiration of his term of office may be reappointed.

Draft, s. 8.

Fellows.

6. The following persons shall be Fellows, namely:—

(a) every person who has held the office of Chancellor and all persons for the time being holding such offices under Government as the Chancellor may, from time to time, by notification in the local official Gazette, specify in this behalf;

(b) persons whom the Chancellor may, from time to time, by like notification, appoint by name as being eminent benefactors of the Panjáb University, original promoters of the movement in favour of the establishment of the Panjáb University College, or persons distinguished for attainments in Literature, Science or Art, or for zeal in the cause of education;

(c) such persons (if any) as may from time to time be elected by the Senate hereinafter constituted, and approved by the Chancellor; and — Draft, s. 9.

(d) the representatives for the time being with the Government of the Panjáb of such Chiefs (if any) of territories not comprised in British India as the Lieutenant-Governor may, from time to time, by like notification, specify in this behalf:

Provided—

Number of Fellows.

(1) that the whole number of the Fellows holding office under clauses (a), (b) and (c) exclusive of the Vice-Chancellor shall never be less than fifty; and — Draft, s. 7: Act II of 1857, s. 6.

(2) that the number of persons elected under clause (c) shall never exceed the number appointed under clause (b).

The appointment of a Fellow may be cancelled.

7. The Chancellor may, whenever he thinks fit, by a notification in the local official Gazette, cancel the appointment of any Fellow appointed under section six, clause (b), or cancel or amend any notification issued under section six, clause (a) or clause (d). — Draft, s. 10: Act II of 1857, s. 7.

Office of Vice-Chancellor vacated by leaving India.

8. If a Vice-Chancellor leaves India without the intention of returning thereto, he shall thereupon cease to be Vice-Chancellor. — Draft, s. 4.

First Vice-Chancellor and Fellows appointed.

9. (1) James Broadwood Lyall, Esquire, of the Bengal Civil Service, and at present Financial Commissioner of the Panjáb, shall be deemed to have been appointed the first Vice-Chancellor under section five; and his term of office shall expire on the first day of September, 1884. — Draft, s. 2: Act II of 1857, s. 5.

(2) The offices specified in Part I of the schedule hereto annexed shall be deemed to have been specified in a notification issued under section six, clause (a); and

(3) the persons named in Part II of that schedule shall be deemed to have been appointed Fellows under clause (b) of that section.

Chancellor, Vice-Chancellor and Fellows to form Senate of the University.

10. (1) The Chancellor, Vice-Chancellor and Fellows for the time being shall form the Senate of the University. — Draft, s. 11: Act II of 1857, s. 8.

Senate to superintend the affairs of the University.

(2) The Senate shall have the entire management and superintendence over the affairs, concerns and property of the University, and shall provide for that management and exercise that superintendence at meetings convened in accordance with the rules made under this Act.

Chairman appointed.

11. At every meeting of the Senate the Chancellor, or in his absence the Vice-Chancellor, shall preside as Chairman; and, in the absence of both, a Chairman shall be chosen by the Fellows present, or the majority of them.

Questions to be decided at meetings of the Senate.

12. Every question which comes before the Senate at a meeting shall be decided by a majority of the votes of the members present; and the Chairman at any such meeting shall have a vote, and, in case of an equality of votes, a second or casting vote: — Draft, s. 12: Act II of 1857, s. 9.

Provided that no question shall be decided at any such meeting unless fourteen Fellows at the least besides the Chairman are present at the time of the decision.

Number of members to be present at meeting of Senate.

Draft, s. 13: Act II of 1857, s 10.

13. Subject to such rules as may be made under this Act, the Senate may from time to time appoint and remove all examiners, officers and servants of the University, and may also appoint a Syndicate.

Appointment and removal of examiners and officers.

Draft, s. 14.

14. *(1)* The Senate may confer on all persons who have gone through such previous course of instruction in an affiliated college, passed such examinations in the University, and fulfilled such other conditions as may be prescribed by the rules to be made under this Act,—

Power to confer degrees, &c., after examination.

Act II of 1857, s. 11.

(*a*) the degrees of Bachelor of Arts, Master of Arts, and, if empowered by the Governor General in Council in this behalf, the degrees of Bachelor of Laws, Bachelor of Medicine, Doctor of Medicine and Master of Civil Engineering, as the case may be;

Act XLVII of 1860, s. 1.

(*b*) such other degrees and such diplomas or licenses as may be prescribed by any rules made under this Act; and

Act II of 1857, s. 11.

(*c*) such marks of honour for a high degree of proficiency in the different branches of Literature, Science and Art as may be prescribed by rules made as aforesaid.

(2) "Affiliated College" in this section means such Colleges as may from time to time be affiliated to the University by an order of the Senate approved of by the Local Government and confirmed by the Governor General in Council.

(3) An order affiliating a College may be rescinded by an order similarly made, approved and confirmed.

Draft, s. 16: Act II of 1857, s. 13.

15. Notwithstanding anything in section fourteen, the Senate may confer degrees, diplomas, licenses or marks of honour as provided by that section on all persons who have in the year 1882, and previous to the passing of this Act, passed such examinations prescribed by the Panjáb University College as may be sufficient to satisfy the Senate that they are persons qualified in point of learning to obtain those degrees, diplomas, licenses or marks of honour.

Power to confer degrees on persons who have passed examinations at the Lahore University College in 1882.

Draft, s. 15: Act XXI of 1875, s. 1.

16. Notwithstanding anything hereinbefore contained, the Senate may grant a degree to any person without requiring him to undergo any examination for that degree:

Power to confer honorary degrees.

Provided that the Vice-Chancellor, and not less than ten of the members of the Syndicate appointed under section thirteen (exclusive of the Vice-Chancellor, if a member of that Syndicate) certify in writing that in their opinion that person is, by reason of eminent position and attainments, a fit and proper person to receive such degree.

Draft, s. 18: Act II of 1857, s. 15.

17. The Senate may charge such reasonable fees, on admission into the University, for continuance therein, and for the degrees, diplomas and licenses to be conferred by it, as the University, with the approbation of the Chancellor, from time to time, thinks fit to impose.

Power to levy fees.

Draft, s. 11.

18. *(1)* The Senate may from time to time make rules consistent with this Act touching—

Power to make rules.

(*a*) the mode and time of convening the meetings of the Senate;

(*b*) the appointment, removal and remuneration of the examiners, officers and servants;

(*c*) the appointment of the Syndicate;

(*d*) the previous course of instruction to be followed, the examinations to be passed, and the other conditions to be fulfilled by candidates for degrees, diplomas, licenses and marks of honour respectively;

(*e*) the conduct of examinations for the mode of granting, and the titles of, degrees, diplomas, licenses and marks of honour; and

(*f*) generally all matters regarding the University.

(2) All such rules shall be reduced into writing, and shall, after the common seal of the University has been affixed thereto, and they have been confirmed by the Lieutenant-Governor and sanctioned by the Governor General in Council, be binding on all persons, members of the University, or admitted thereto, and on all candidates for degrees, diplomas, licenses and marks of honour.

THE SCHEDULE.

(*See Section 9.*)

PART I.

Offices to be deemed to have been specified under section 6, clause (*a*):—

Judge of the Chief Court, Panjáb;
Financial Commissioner of the Panjáb;
Surgeon-General of the Panjáb;
Commissioner of Lahore;
Commissioner of Delhi;
Commissioner of Amritsar;

Major Isaac Peatt Westmoreland, R.E.;
Lieutenant-Colonel George Gordon Young;
William Mackworth Young, Esquire, M.A., Bengal Civil Service;
Maulvi Ziá-ud-din Khán.

STATEMENT OF OBJECTS AND REASONS.

IN the year 1869 the Governor General in Council was pleased, in accordance with the recommendations of the Lieutenant-Governor of the Panjáb, and in part fulfilment of the wishes of a large number of the chiefs, nobles and influential classes of the Panjáb, to sanction the establishment at Lahore of an institution, then styled the Lahore University College, but subsequently styled the Panjáb University College. The special objects of this College, as stated by its statutes, were as follows :—

(1) to promote the diffusion of European science as far as possible through the medium of the vernacular languages of the Panjáb, and to improve and extend vernacular literature generally ;

(2) to afford encouragement to the enlightened study of Eastern classical languages and literature; and

(3) to associate the learned and influential classes of the Province with the officers of Government in the promotion and supervision of popular education.

It was, however, at the same time laid down that every encouragement should be afforded to the study of the English language and literature, and that in all subjects which could not be completely taught in the Vernacular the English language would be regarded as the medium of examination and instruction.

At the time of the establishment of this College, promises were held out by Government that, if attended with due success, it might eventually be raised to the status of a University; and large sums of money have been, from time to time, given to the College by the chiefs and influential classes of the Panjáb, who have long looked forward to the fulfilment of these promises. As the College has, in the opinion of Government, been attended with due success, it has been determined to carry out what is believed to be the almost universal wish of the Natives of the Panjáb who are interested in education, and constitute the College a University.

2. The present Bill has, therefore, been prepared. Section 2 establishes the University, and confers on it all the powers of a body corporate. Section 3 provides for the transfer to the University of all the property at present held by or in trust for the University College. Sections 4 to 8 deal with the constitution of the University, and provide for a Chancellor, who is to be the Lieutenant-Governor of the Panjáb for the time being, a Vice-Chancellor to be appointed by the Chancellor, and a body of Fellows.

The Fellows will be of four classes, namely: (1) the holders for the time being of certain offices, who are to be *ex-officio* Fellows; (2) persons appointed by the Chancellor as being eminent benefactors of the University, original promoters of the movement in favour of the Panjáb University College, or persons distinguished for attainments in literature, science or art, or by zeal in the cause of education; (3) persons chosen by the Senate and approved by the Chancellor; and (4) the representatives for the time being with the Government of the Panjáb of such independent Native chiefs as the Lieutenant-Governor may by notification in the Gazette specify. The schedule annexed to the Act contains a list of the persons who are to be deemed to be the first Fellows. Sections 10, 11 and 12 provide for a Senate and matters connected therewith. Section 13 empowers the Senate to appoint and remove all examiners, officers and servants of the University. Section 14 empowers it to confer certain degrees, but restricts the exercise of the power to confer the degrees of Bachelor of Laws, Bachelor of Medicine, Doctor of Medicine and Master of Civil Engineering until the Governor General in Council has given his assent thereto; and section 15 gives it power to confer like degrees in the case of persons who may have passed during the year 1882 such examinations of the Panjáb University College as may correspond to the degree examinations of the University. Section 16 empowers the Senate to confer honorary degrees in certain cases; section 17 to levy fees; and section 18 to make rules generally in all matters regarding the University.

J. GIBBS.

The 7th June, 1882.

D. FITZPATRICK,
Secy. to the Govt. of India.

SUPPLEMENT TO

The Gazette of India.

Nº 26.} CALCUTTA, SATURDAY, JULY 1, 1882.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.*

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

D. M. BARBOUR,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 27th JUNE 1882.

GENERAL REMARKS.—The monsoon which was noticed in last week's report as not having as yet reached the Punjab does not appear to have made any marked progress during the week under report either in that Province or in Sind, though strong monsoon winds are reported at Kurrachee. Slight showers have, however, fallen in a few districts of the Punjab. In the Rajputana States rain is reported from two places only. In the North-Western Provinces and Oudh very little rain is reported during the week, and westerly winds prevail. In Behar, Bengal, and Orissa, as well as in Assam, more or less rain has continued to fall in all districts, except in Moorshedabad, where however the fall was exceptionally heavy in the preceding week.

Rain is reported from most of the Central India States and in the Central Provinces. In the Bombay Presidency, in Berar, and in the Nizam's Territories a break, more or less marked, has occurred. In Mysore and Coorg also there was less rain than in the preceding week. In the Madras Presidency the fall has been lighter than in the preceding week.

In British Burma heavy rain has continued to fall.

Ploughing, sowing, and transplanting of rice are favourably progressing as a rule throughout the country, and standing crops where they exist are generally doing well.

No excess of rain is reported anywhere, except in Sylhet. On the other hand, insufficient rain is reported in four districts of the Madras Presidency, in part of Mysore, the Nizam's Territories and Berar, in some districts of the North-Western Provinces and Oudh, and throughout the greater part of Rajputana and the Punjab.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(June 28th)		
Bellary ...	·15 (in one station)	Standing crops—wet good, dry require rain; harvest paddy, yield below average; fever and small-pox in parts.
Kurnool ...	·03 (in one station)	Want of rain much felt; standing sugarcane and indigo require water in parts; cattle-disease in some places.
Ganjam ...	·52 (average of sixteen stations).	Standing wet and dry crops not thriving for want of heavy rain; fever, small-pox, and cholera prevalent; cattle-disease exists.
Kistna ...	·46 (average of five stations).	Small-pox slightly and cattle-disease generally prevalent.
Chingleput (Madras) ...	·67 (average of three stations).	Standing crops good where water available; agricultural operations progressing; small-pox, cholera, and cattle-disease in parts.
Coimbatore ...	·23 (average of six stations).	Standing crops generally good, though *cholum* slightly attacked by insects in parts; harvest dry crops, outturn below average; small-pox and fever in parts.
Tanjore ...	·10 (average of four stations).	Standing crops generally good; harvest paddy, outturn below average; cattle-disease slight in parts.
Madura ...	·31 (average of seven stations).	Standing crops fail in parts; harvest *cholum*, yield about average; fever and cholera in parts.
Malabar ...	3·92 (average of thirteen stations).	Sowing first crops progressing; small-pox, cholera, and fever in parts.
Travancore ...	2·82	Ploughing and sowing over; fever slightly prevalent. *General Remarks.*—General prospects good.
Bombay—(June 28th)		
Kurrachee ...	No rain	Strong monsoon winds; river at Kotri on 26th 15 feet 11 inches, against 15¾ feet on corresponding date last year; fever in five talukas; crabs doing some damage in Tappa, Ghorabari taluka; wheat, red rice, and *bajri* in Kurrachee 22, 36 and 34, in Dadu 32 and 40, in Ghorabari 16, 48 and 44, and in Jati 18, 48 and 44 lbs. per rupee, respectively.
Hyderabad ...	.....	River still rising; *kharif* operations continue; fever in one taluka; wheat 25, *juari* 44, *bajri* 40, red rice 34, and white rice 22 lbs. per rupee.
Ahmedabad ...	7·54	Cholera—in Ahmedabad city 70 cases, 30 deaths, in Dhakroli 13 cases, 10 deaths, in Samand 7 cases, 1 death, in Dhanduka 27 cases, 23 deaths, in Viramgaum 41 cases, 22 deaths; ploughing continues; sowing commenced; wheat 26 and *bajri* 29 lbs. per rupee.
Baroda ...	1·25	Total rainfall 7·12; sowing of *kharif* continues; slight cholera in Kadi division; want of rain felt in Amreli; general health good; *bajri* 29 and rice 23 lbs. per rupee.
Surat ...	1·71	Total rainfall 9·91; sowing and transplanting progressing; *juari* 35 and *nagli* 51 lbs. per rupee.
Násik ...	Igatpuri, 5·34; Peint, 3·35; slight showers in three talukas; no rain elsewhere.	Early sowing crops doing well; *bajri* sowing will commence shortly; locusts in several talukas; no sickness; *bajri* 36, wheat 24, and rice 24 lbs. per rupee.
Colaba (Bombay) ...	1·69	Total rainfall 27·07, being 7·07 above average; average temperature normal; vapour in air normal; wind normal from 21st to 25th; abnormal wind northerly on 26th and 27th.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Poona ...	Slight showers in two talukas.	Break in weather during the week; sowing progressing; *bajri* 40¾ and *juari* 55 lbs. per rupee, in Poona *bajri* 36¾ and *juari* 43½ lbs. per rupee.
Ahmednagar ...	Newasa, ·70; Parner, ·07; no rain in other talukas.	Sowing of *kharif* in progress in Parner, Shrigonda, and Kopergaon; cattle-disease in Nagar and Karjat; cholera in Parner, 11 cases, 4 deaths; *bajri*—maximum 60 lbs. in Jhamkhed, minimum 45 in Kopergaon; *juari*—maximum 90 lbs. in Jhamkhed, minimum 54 in Kopergaon.
Sholapur ...	Slight rain throughout.	No deaths from cholera; *kharif* sowing progresses; *bajri* 54 lbs. 19 tolas and *juari* 73 lbs. 17 tolas per rupee.
Dharwar ...	Slight rain in Gadag, Bankapur, Hangal, Kod, and Ron.	Sowing of *kharif* crops almost completed; young crops look well public health good; rice 22 and *juari* 55 lbs. per rupee.
Kanara ...	Karwar, ·27; total, 33·63; Kumpta, ·98; Sirsi, ·89; Hallial ·46.	Sowing operations continue above Ghât; rice plants healthy on coast; small-pox and cattle-disease subsiding; common rice in Karwar 12 seers, in district average 13¼ seers per rupee; weather cloudy and showery.
Rajkot ...	No rain	Weather hot and cloudy; cholera in some places in Halar and Sorath; *bajri* 24 and *juari* 29 lbs. per rupee.
		General Remarks.—Ploughing in general progress; sowing completed in some places; break in the weather in most districts, retarding operations in a few; locusts in Khandesh, Násik, and Satara; slight fever and cattle-disease in a few districts; cholera in Belgaum, Satara, Ahmednagar thana, Ahmedabad, and parts of Kathiawar.
Bengal—(June 28th)—		
Chittagong ...	8·38; heavy rain in all parts of districts.	Prospects of crops satisfactory; transplanting going on; prices steady; cholera, small-pox, and cattle-disease still continue.
Dacca ...	4·75	All crops doing well.
24-Pergunnahs (Calcutta)	1·12	Sugarcane, jute, and early rice promising well; prospects fair; low lands being cultivated for *amun* rice; health of people and cattle generally good; sporadic cholera reported from Baraset sub-division; rivers rising.
Moorshedabad ...	*Nil*	Standing crops doing well; ploughing for *amun* rice rapidly progressing; public health generally good.
Rajshahye ...	·98	Prospects of crops favourable; prices stationary; cholera and fever unchanged.
Burdwan ...	2·11	Prospects of crops favourable; health fair.
Rungpore ...	5·85	Prospects of crops good; prices of food-grains stationary; public health good.
Bhagálpur ...	·97	Prospects of crops good; sowing of autumn crops rapidly progressing; Ganges risen very much; a few cholera cases reported daily.
Purneah ...	3·16	Prospects of crops very good; weeding continues; health fair; rivers rising.
Patna ...	2·54	Prospects of *bhadoi* crops good; *cheena* and sugarcane doing well; cholera and small-pox still reported from Behar sub-division.
Durbhunga ...	3·61	Weather cooler and cloudy; crop prospects good; indigo manufacture begun; cholera abating.
Hazáribágh ...	3·15	Weather cloudy and seasonable; prospects of crops good; prices of food-grains unchanged; general health good.
Cuttack ...	·34	Sowing completed; *beali* crops being harrowed; cholera still reported.
		General Remarks.—More or less rain in all districts, except Moorshedabad, during the week; present prospects generally excellent; agricultural operations in full progress; all standing crops thriving well; cholera generally much abated, but still prevalent in parts of Orissa and elsewhere; much fever reported in Darjeeling terai; public health on the whole fair.
N. W. Provinces and Oudh—		
Benares (June 27th)	·1 in Benares tahsil	Weather close; clouds sometimes appear, but are scattered away by storms and west winds; *kharif* crops sown; rain urgently needed; health of men and cattle generally good; bazars well supplied with food-grains; prices steady.
Allahabad („ 28th)	·4 at Handia; ·1 at Meja; heavy rain to-day.	Cholera decreasing; prices slightly risen.
Gorakhpur („ 27th)	.....	Weather very hot; west wind changed to east to-day; rain wanted; cholera decreasing; sowings in progress; prices steady.
Jhánsi („ 26th)	·6 in Jhánsi; ·11 in Garotha.	A break from 20th; ploughing and sowing of *kharif* crops in progress; prices rising; health generally good; no cattle-disease.
Agra ...	Rain in two parganas only—·20 in one and ·30 in the other.	More rain needed throughout district; *kharif* ploughings and sowings continue; fever and small-pox continue in city and two parganas; general health good; prices stationary.
Bareilly (June 27th)	No rain since 20th	Weather extremely hot but seasonable for *kharif* ploughing; cotton and maize being sown everywhere, but hardly enough rain for rice sowings; everything else is as usual.
Meerut („ „)	Occasional showers, with very partial rain.	Strong west wind throughout the week; rain wanted; cane and indigo flourishing, but other sowings have been postponed; health good; supplies scanty; prices rising very slightly.
Kumaun („ „)	Alternate rain and sunshine.	Weather seasonable; crops flourishing; cattle-disease still prevails; prices stationary.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. Provinces and Oudh—*contd.*		
Rae Bareli (June 26th)	.....	A break in the rains, winds westerly ; fields are being prepared for *kharif* sowings; cholera continues in two tahsils, but is on the decrease ; prices rising.
Cawnpore („ 27th)	Average rainfall ·15	Rain beneficial to crops already sown ; sowings in progress, but sky again cloudless and weather sultry ; general health good ; prices slightly risen.
Farukhabad („ „)	No rain	*Kharif* sowings in progress ; prices steady ; fever prevalent.
Lucknow („ „)	No rain, except ·10 at Sadr on 20th.	Sky clear ; strong west winds ; more rain wanted ; supplies abundant ; prices rising ; no cattle-disease ; cholera in city decreasing.
Partabgarh („ „)	.....	Prices rising ; rain wanted badly ; sky cloudy at times ; heat very great ; cholera increasing.
Sitapur („ „)	Average ·7	Hardly any rain since 20th, winds variable, now easterly.
Fyzabad („ „)	No rain	Sowing of *dhan* going on ; cholera decreasing.
		General Remarks.—Very little rain during the week ; winds chiefly westerly ; weather sultry ; more rain wanted ; prices rising slightly, but supplies plentiful, except in Meerut ; cholera increasing in Partabgarh, but has decreased elsewhere ; cattle-disease continues in Kumaun.
Punjab—(June 27th)		
Delhi ...	·20	More rain wanted ; health fair ; slight fall in prices of gram and *bajri*.
Hissar ...	No rain reported, but wanted.	Health good ; prices of food-grains fluctuating.
Umballa ...	No rain, but wanted	Health fair ; prices of food-grains daily rising.
Jullundur ...	·14	Health good ; prices stationary.
Amritsar ...	·70	Health fair ; slight fall in price of barley.
Sialkot ...	·50	Health good ; prices steady.
Lahore ...	Slight rain	Health good ; prices stationary.
Ferozepore ...	·60	Health good ; *kharif* ploughings commenced ; prices steady.
Rawalpindi ...	No rain	*Kharif* crops good ; fever in Rawalpindi, measles in Pindigheb ; slight fall in prices of Indian-corn and gram.
Mooltan ...	No rain	Crops and health good ; slight fall in prices of barley and millet.
Dera Ismail Khan ...	No rain	*Kharif* crops good ; health good ; prices fluctuating.
Peshawar ...	No rain	Health fair ; prices rising.
		General Remarks.—Slight rain has fallen in the Delhi, Jullundur, Amritsar, Sialkot, Lahore, and Ferozepore districts ; health generally good ; fever still reported in Rawalpindi, and measles in Pindigheb ; prices of food-grains generally are fluctuating.
Central Provinces—		
Nagpur (June 28th)	·26 ; heavy rain to-day.	Weather close and sultry ; prices stationary.
Jubbulpore ...	1·71	Weather cloudy at times ; ploughing continues ; sowings commenced ; cholera and small-pox prevalent ; wheat 17 seers per rupee.
Saugor (June 26th)	2·22	Clear weather, facilitating sowing operations, which are in full swing ; health good.
Seoni ...	·73	Ploughing facilitated by break in the weather ; cholera and small-pox prevailing ; prices stationary.
Hoshangabad (June 27th)	·21	Ploughing continues ; *kharif* sowings progressing ; small-pox prevalent ; wheat 14 seers per rupee.
Khandwa („ „)	·25	Weather cloudy and stormy ; *kharif* sowings in progress ; rain wanted ; small-pox prevailing ; wheat 14 seers per rupee.
Raipur ...	.....	No report received.
Sambalpur (June 22nd)	1·31	Weather cloudy and cool ; early sowings damaged by heavy rains ; health good ; rice 56 seers per rupee.
		General Remarks.— Weather cloudy and close ; rain has fallen in most districts, but not sufficient to benefit sowings ; which have begun ; cholera and small-pox still prevalent in the Jubbulpore division ; prices steady.
British Burma—(June 24th)		
Akyab ...	5·44	Total rainfall 68·90 ; small-pox slightly prevalent in one township, otherwise public health good ; cattle-disease severe in two townships ; ploughing commenced.
Rangoon ...	3·17	Total rainfall 21·16 ; 11 deaths from cholera, otherwise public health good.
Bassein ...	4·46	Total rainfall 41·38 ; 7 deaths from cattle-disease in Bassein township ; ploughing general.
Promo ...	2·09	Total rainfall 11·58 ; 1 death from cholera in Promo town and 8 in districts ; some cattle-disease in two townships ; ploughing not yet commenced for want of rain.
Amherst ...	10·52	Total rainfall 69·65 ; public health good both in Moulmein and district ; cattle-disease still prevalent in two townships.
Toungoo ...	4·19	Total rainfall 23·75 ; no deaths from small-pox in town ; public health generally good.
		General Remarks.— A few scattered cases of cholera and a little small-pox in Akyab, otherwise public health good ; cattle-disease continues prevalent in some parts of Akyab and Amherst, slight in several other districts ; season generally favourable ; ploughing backward in Tharrawaddy and Promo for want of rain.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Assam—(June 28th)		
Gauhati ...	4·02	Weather seasonable; fever in the interior and at Barpetta; prospects of crops continue favourable.
Sylhet ...	9·87	Spring paddy reported being cut; transplanting of *bajri* finished; some damage done by flood in lowlying lands; more sun wanted for tea; cholera still reported.
Cachar ...	4·75	Weather very hot, with occasional rains; sowing of *dumahi* and *murali* crops nearly finished; cultivation of *sali* crop commenced; tea doing well; common rice 21 $\frac{5}{16}$ seers per rupee; 7 cases of cholera from Lakhimpur and 1 from Katigora reported.
Dibrugarh ...	4·72	Weather showery, ploughing for *sali dhan* in progress; cattle-disease still reported; public health generally good.
Mysore and Coorg—(June 28th)		
Bangalore ...	·30	Crops in good condition; sowing operations delayed for want of sufficient rain; prospects of public health good; rice 11, *ragi* 26, and horse-gram 29¼ seers per rupee.
Mysore ...	·04	Standing crops in good condition; prospects fair; rice 11½, *ragi* 21, and horse-gram 26¾ seers per rupee.
Mercara ...	2·40	The break in the monsoon is favourable to agricultural operations; rice-fields are being ploughed and sown; the *ragi* crop in the Naujarajapatna taluk is doing well; coffee-berries have formed; public health is good.
		General Remarks.—Little rain has fallen in the Mysore State since last report; prospects are generally favourable and public health good; pasturage sufficient; prices show a slight upward tendency.
Berar & Hyderabad—(June 28th)		
Amráoti ...	Rain much needed	Sowings retarded for want of rain; wheat 18 and *juari* 36 seers per rupee.
Akola ...	.....	Weather warm and sultry; cotton sowing continues.
Hyderabad ...	No rain	Sowing of *kharif* crops postponed on account of break in weather; fever and cattle-disease prevail in one taluk; prices—wheat 14, rice 7½, white *juari* 19¾, yellow *juari* 23, and *tur* 24 seers per current sicca rupee.
Central India States—(June 28th)		
Indore ...	·08	Weather hot and cloudy; sowings have been almost completed; some further rain is desirable; health good and prospects generally favourable.
Morar (Gwalior) ...	1·62	Health good; prices stationary.
Sutna ...	1·03	Sowing commenced; health good.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATIONS.

Simla, the 7th July 1882.

No. 2208.—The following Addenda and Corrigenda to the Codes of the Financial Department are published for general information :—

CIVIL PENSION CODE.

Page 97.

Add the following as Section 177A :—

177A. Section 177 applies to Officers of the Public Works Department who retired under the terms of the Resolution in the Department of Finance, No. 2079, dated 31st July 1879, except as regards re-employment in an establishment paid from a Local Fund. Any such Officer, whether re-employed permanently or temporarily, is required on re-employment to refund the special gratuity received by him under paragraph 5, section II, clause (5) of the Resolution of the 31st July 1879 ; but if he does not make the refund, his pension will, for the purposes of this Section, be held to be increased by an amount equal to 5 per cent. per annum on his special gratuity. If an Officer has capitalised his pension, the same deduction will, if necessary, be made from his allowances as if he had not done so. (For the purposes of this Section, service paid by a Guaranteed Railway Company shall be treated as if it were service rendered in a temporary capacity.)

An Officer re-employed in service paid from a Local Fund may, in addition to his salary, draw his pension and retain the special gratuity received by him under paragraph 5, section II, clause (5) of the Resolution of the 31st July 1879.

No. 2105.

COMMISSARIAT NOTICE.

The following five Government elephants are now for sale at Agra and Bareilly.

2. Offers are invited, both for purchase of these animals, and also for exchange of good female elephants suitable for Government purposes in place of these, and any reasonable offers will be accepted by the Commissary General.

3. Applications to inspect the elephants and offers for purchase or exchange may be made to the Assistant Commissaries General, Agra and Bareilly, respectively:—

Description of Elephants.

Where for sale.	Register No.	Name.	Sex.	Height.	Probable age.	Tusks.	Eyes.	Number of Nails.	Tail.	Back.	Temper.	Condition.	REMARKS.
				ft. in.									
At Agra.	686	Salka ...	Male	8 4½	45	Perfect ...	Blind off-side.	18	No hair ...	Hollow in centre from wound in youth.	Good	Good	Fit for sowari purposes; never been musth; head and tusks fine; carriage good.
At Agra.	1347	Louis Napolean.	Do. ...	9 7	39	One on off-side.	Perfect ...	18	Short of hair.	Good ...	Vicious.	Do. ...	A fine elephant, unsafe for Government purposes, but Rajahs, &c., might buy him for fighting purposes.
At Agra.	1670	Watson ...	Do. ...	8 9	37	One on off-side split slightly.	Do. ...	18	Do. ...	Do. ...	Uncertain.	Do. ...	A very fine animal, fit for anything, but troublesome at times.
At Agra.	459	Nazirguj ...	Do. ...	8 11	47	Two, off one broken.	Do. ...	18	No hair ...	Do. ...	Do. ...	Do. ...	Unsafe for Government work; a very fine elephant indeed, suitable for fighting purposes.
At Bareilly.	1783	Hastings ...	Do. ...	9 4	59	One broken.	Good ...	18	Good ...	Centre ridge of bone rather high.	Good	Low...	Fit for howdah and shooting purposes.

E. HUTTON,
Presidency Post Master.

NOTICE.

Waste Lands available for Planters in the Tavoy District.

Waste lands, covered at present with forest, bamboos or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,800 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 190 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application to the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices in Tavoy, namely,—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.

(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the tenth year after he enters on possession, provided that he takes *bonâ fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more

precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated in each year.

(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-third of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.

(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bonâ fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met as far as possible in regard to the situation and shape of their grants. But ordinarily—

(*a*) no grant will be given where the Forest Department intend to make a forest reserve;

(*b*) no grant will be given on such a place as will unduly circumscribe the extension of cultivation of the grazing grounds of any neighbouring village or hamlet;

(*c*) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;

(*d*) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI.—The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.

VII.—In order to encourage pioneers in the coffee and cinchona enterprise in Tavoy, the Government will pay to the first four grantees who begin *bonâ fide* planting operations Rs. 15 per head for every Indian or Chinese coolie, male or female, over 16 years of age, who may be settled and housed on their plantations before the 1st March 1885.

VIII.—In any case of doubt regarding the *bonâ fide* character of operations for the purposes of concessions III and VII, the Deputy Commissioner will decide, and his decision will be subject to appeal to the Commissioner of Tenasserim, whose decision will be final.

IX.—All minerals and metals under and within the lands granted under these rules are reserved by Government, together with a right to enter upon and resume such portion of land as may be necessary for examining or working mines upon payment of just compensation to the grantee for loss of, or injury done to, the surface.

G. D. BURGESS,
Secy. to the Chief Commr., British Burma.

The 6th April 1882.

Meteorological Publications for Sale.

The following publications of the Meteorological Office of the Government of India are on sale and can be procured at the Meteorological Office, No. 4, Middleton Row, or either at Messrs. Thacker, Spink & Co., or at Messrs. Brown & Co., at the prices noted against them:—

HENRY F. BLANFORD,
Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and

sale, that a considerable reduction is allowed to persons taking the complete set:

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
" MADRAS SERIES ...	" 8	" 9
" BOMBAY SERIES ...	" 8	" 9
" ALLAHABAD SERIES	" 8	" 9
Complete set... ...	" 45	" 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

For a Part of the CALCUTTA SERIES ...	Rs. 3	8
" " MADRAS SERIES ...	" 1	0
" " BOMBAY SERIES ...	" 1	0
" " ALLAHABAD SERIES.	" 1	0
Complete set	" 4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at Rs. 375 a set.

Charts, &c., issued at the Marine Survey Department, Calcutta, by order of the Government of India, and sold at the Office of the Marine Survey Department, 4-4 Loudon's Buildings, Hastings Street, Calcutta, where Admiralty Charts can also be obtained.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

LEVY OF MUNICIPAL TAXES IN CANTONMENTS

The following revised Order is published for general information :—

[NOTE.—To supersede the Order issued in the Home Department, Nos. 1-38—52, dated the 24th April 1880].

No. 163.

Extract from the Proceedings of the Government of India in the Home Department (Municipalities), under date Simla, the 18th November 1881.

Read—

Section 24 of Act III of 1880 (The Cantonments Act, 1880).

ORDER.

In exercise of the power conferred by section 24 of Act III of 1880 (The Cantonments Act, 1880), the Governor General in Council is pleased to declare that, in any cantonment situated in British India which may have been, or may in future be, brought under the operation of a Municipal Act, the following classes of persons shall, when on duty in such cantonment, be exempted from the operation of taxes of the following kinds :—

Persons exempted.

All persons exclusively in military employ or belonging to any department directly attached to the Army or to the Public Works Department, Military Branch, being persons subject to the Army Discipline and Regulation Act, 1879, or the Indian Articles of War.

Taxes from the operation of which exemption is granted.

(1) Municipal taxes on salaries.
(2) Municipal taxes on professions, trades, callings, offices, or appointments.
(3) Municipal taxes on horses, mules, or ponies kept for military duty.
(4) Municipal tolls leviable on any ferry or road in respect of animals or vehicles kept or used for military duty.

2. In further exercise of the power conferred by the same section, the Governor General in Council is pleased to prohibit the levy, in any cantonment in British India, of any municipal tax whatsoever on public property, such as animals or vehicles.

3. In this Order the expressions "municipal tax," "municipal taxes," and "municipal tolls" include any tax or toll imposed by virtue of the provisions of a Municipal Act under the operation of which any cantonment may have been, or may in future be, brought.

A. MACKENZIE,
Offg. Secy. to the Govt. of India.

Under Secretary.

SIMLA,
The 1st July 1882.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 4th JULY 1882.

GENERAL REMARKS.—The week under report has been characterised by more or less good rain throughout the whole country, the notable exceptions being Sind and parts of the Punjab.

In the Madras Presidency and Coorg, and parts of the Mysore State and of the Bombay Presidency rain, has been more abundant than in the preceding week. The Nizam's Territories and Berar and the greater part of Rajputana have also at last enjoyed good rain. In the Central Provinces, Central India, Bengal, Assam, and the North-Western Provinces and Oudh the monsoon continues to gather strength.

Prospects are generally good throughout the country. Standing crops and seedlings are doing well in most parts, and *kharif* operations are, as a rule, actively progressing throughout the country. The rainfall during the past week has been of much benefit. Rain is, however, still urgently needed in parts of the Punjab and Sind, and more would be beneficial in certain tracts, among which Agra, Orissa, parts of three districts of the Bombay Presidency, part of Mysore, and one district of Madras are the most noteworthy.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(July 5th)		
Bellary ...	1·11 (average of six stations).	Standing wet crops good; harvest paddy, outturn below average; fever in parts.
Kurnool ...	1·08 (average of nine stations).	Season much improved by recent rain in six taluks, more rain wanted in two taluks; cattle-disease in parts.
Ganjam ...	1·31 (average of fifteen stations).	Standing wet and dry crops require rain; fever, small-pox, and cholera prevalent; cattle-disease exists.
Kistna ...	1·54 (average of thirteen stations).	Small-pox and slight cattle-disease prevalent.
Chingleput (Madras) ...	·84 (average of nine stations).	Water-supply running short; standing crops good where water available; agricultural operations progressing; harvest wet and dry grains, yield below average.
Coimbatore ...	·38 (average of seven stations).	Standing crops generally good, though slightly attacked by insects in parts; harvest *cholum*, outturn average; small-pox and fever in parts.
Tanjore ...	1·52 (average of nine stations).	Standing crops generally good; cattle-disease slight in parts.
Madura ...	·66 (average of six stations).	Standing crops fair; harvest *cholum*; fever and cholera in parts.
Malabar ...	2·20 (average of fourteen stations).	Sowing of first crops progressing; small-pox, fever, cholera, and cattle-disease in parts.
Travancore ...	1·38	Ploughing and sowing over; fever slightly prevalent. *General Remarks.*—General prospects good.
Bombay—(July 5th)		
Kurrachee ...	Passing showers of rain at Kurrachee on 3rd.	River at Kotri on 3rd, 15 feet 5 inches against 14½ feet on same date last year; fever in seven talukas; damage by turtles and crabs continues in Garho and Kutha tapas; rice transplanting still going on; wheat, red rice, and *bajri* in Kurrachee 24, 38 and 34, in Sehwan 28, 46 and 48, in Tatta 24, 46 and 40, and in Mirpur Botoro 20, 54 and 48 lbs. per rupee, respectively.
Hyderabad ...	.....	River falling somewhat; *kharif* operations continue; fever in two talukas; weather cooler; wheat 25, *juari* 44, *bajri* 40, red rice 32, and white rice 22 lbs. per rupee.
Ahmedabad ...	No rain	Ploughing and sowing progressing; cholera—in Ahmedabad city 38 cases, 21 deaths, in Dhakroli 8 cases, 8 deaths, in Viramgaum 114 cases, 74 deaths, and in Sanand 11 cases; wheat 26 and *bajri* 29 lbs. per rupee.
Baroda ...	1·31	Total rainfall 8·43; want of rain felt in Amreli and Kari Divisions; cholera continues in Kari Division; *bajri* 29 and common rice 23 lbs. per rupee.
Surat ...	2·98	Total rainfall 12·89; sowing mostly completed; *juari* 35 and *nagli* 50 lbs. per rupee.
Násik ...	Peint, 4·41; Igatpuri, 2·53; Malegaon, 2·04; Nandgaon, 1·72; few showers elsewhere.	More rain urgently wanted; early crops doing well; *bajri* sowing commencing; locusts in six northern talukas causing anxiety; health good; *bajri* 36, wheat 24, and rice 24 lbs. per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Colaba (Bombay) ...	Rain every day, heavy on 1st, 2nd, and 3rd; rainfall of week, 7·90.	Total rainfall to date 34·97, being 10·29 above average; average abnormal temperature *nil* from 28th to 30th, afterwards 5° cool; vapour in air normal; abnormal wind northerly till 30th, then gradually changing to east, north-east on 3rd; wind normal on 4th.
Poona ...	Rain in two talukas—maximum 2·26; minimum ·45.	Sowing operations retarded for want of rain; locusts like insects in four talukas; *bajri* 41¾ and *juari* 56½ lbs. per rupee, in Poona *bajri* 36¾ and *juari* 43½ lbs. per rupee.
Ahmednagar ...	Rainfall—maximum at Sheogaon, 6·19; minimum at Sangamner, ·02.	Sowing of *kharif* in progress in Nagar, Parner, Shrigonda, Rahuli, and Kopergaon; rain much wanted in Sangamner, Akola, and in parts of Kopergaon; cattle-disease in Nagar, Karjat, and Parner; cholera in Parner—4 attacks, 1 death; *bajri*—maximum 60 lbs. in Jhamkhed, minimum 42 in Kopergaon; *juari*—maximum 90 lbs. in Jhamkhed, minimum 54 in Kopergaon.
Sholapur ...	·73	Total rainfall 14·06; 20 deaths from cholera; *kharif* sowing progressing; *bajri* 54 lbs. 38 tolas and *juari* 72 lbs. 23 tolas per rupee.
Dharwar ...	Rain in all talukas; maximum in Gadag, 1·75; minimum in Hubli, ·13.	Rain urgently wanted in Navalgund, Rannibennur, and Karajghi, and more wanted also in Mandargi and Hangal; sowing of paddy completed, that of early *juari* and other *kharif* crops commenced; public health good; rice 22, and *juari* 56 lbs. per rupee.
Kanara ...	12·76; total 46·39; Kumpta, 3·03; Sirsi, 1·17; Hallyal, ·44.	Sowing operations continue above ghât; rice plants healthy, and transplanting on coast; slight small-pox in Sidapur and Sirsi; cattle-disease subsiding; common rice in Karwar 13 seers, in district average 13 seers per rupee.
Rajkot ...	1·14	Total rainfall 1·97; weather cloudy; cholera prevalent in some places; *bajri* 24 and *juari* 29 lbs. per rupee.
		General Remarks.—Sowing in general progress; rain partial; much required in a few places; locusts in Khandesh, Nasik, and Poona; slight fever and cattle-disease in a few districts; cholera in thana Satara, Belgaum, Ahmedabad, and parts of Kathiawar.
Bengal—(July 5th)—		
Chittagong ...	0·93	Weather hot, with occasional rain, more rain wanted; prices unchanged; cholera, small-pox, and cattle-disease continue.
Dacca ...	0·1	Rice, sugarcane, and jute growing fast; *aus* rice being reaped, estimated yield five annas.
24-Pergunnahs (Calcutta)	0·09	Sugarcane, jute, and early paddy doing well; high land being prepared for winter paddy; prices of common rice stationary; public health generally good; river rising.
Moorshedabad ...	3·30	Prospects of both autumn and winter rice favourable; late rain has done much good; public health generally good.
Rajshahye ...	2·72; Nator, 6·10	Prospects of paddy and jute good; prices unchanged; some cholera and fever still reported.
Burdwan ...	0·45	Prospects of crops favourable; cholera reported from thanas Ausgram and Sahibganj, otherwise public health good.
Rungpore ...	6·29	Weather seasonable; prospects of crops favourable; autumn rice being cut in several places; transplanting of winter rice going on; prices of food-grains stationary; general health good.
Bhagálpur ...	2·23	Prospects of crops good.
Purneah ...	1·23	Prospects of crops good; weeding progressing; health fair; Ganges fallen.
Patna ...	2·73	Prospects of crops good; sowing of autumn crops going on; cholera and small-pox still prevalent in the Behar sub-division.
Durbhunga ...	2·94	Prospects of all crops good; cholera disappearing slowly everywhere.
Hazáribágh ...	3·05	Weather sultry and cloudy; prospects of autumn crops good; general health good.
Cuttack ...	0·41	Autumn rice progressing well; rice being weeded; more rain wanted; cholera disappearing.
		General Remarks.—Rain fell in all districts during the week, though in some the fall was slight; cultivation of late rice progressing favourably, but wants more rain in some places; in some districts transplanting of late rice going on; early rice and jute doing well; in Behar sowing of autumn crops proceeding; sugarcane and indigo promising well; cholera said to be very prevalent in Birbhoom, but has abated in other districts; cases of small-pox still reported from a few districts; fever reported from some places in Central Bengal and from Gya and Chumparun; cattle-disease prevalent in Hooghly.
N. W. Provinces and Oudh—		
Benares (July 4th)	1·4; Chandauli, 1·9; Gangapur, 2·9.	*Kharif* sown, but on account of the want of rain in the early part of this and last week some loss is anticipated; markets well supplied; prices steady; health of man and cattle good.
Allahabad („ 5th)	Good rain	*Kharif* ploughing and sowing in progress; rising crops in good condition; prospects very good; prices slightly fallen.
Cawnpore („ 4th)	2·3 (average of whole district).	Weather cloudy and close; prospects of *kharif* excellent; sowings continue; prices almost stationary; general health good.
Gorakhpur („ „)	Rain all over the district, especially at the Sadr.	Rice coming up well; prices steady; cholera abated.
Jhánsi („ 3rd)	0·7; Man, 0·7; Moth, 0·8; Garotha, 0·1.	Sufficient rain throughout the district for present purposes; sowing of *jowar*, *kodo*, &c., progressing; prices of food-grains fluctuating; health good; no cattle-disease.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. Provinces and Oudh—*contd.*		
Agra (July 4th)	Rain in six parganas during the week, from 0·1 to 1·5.	More rain needed; slight fever in two parganas and small-pox in one; prices slowly falling.
Farukhabad (" ")	Light and partial showers.	*Kharif* sowings in progress; indigo and sugarcane promising well; prices steady.
Bareilly (" ")	Bareilly city, 3·0	Weather cloudy since rain of Sunday, with showers off and on; rain not equally distributed throughout the district, and in western parganas more is wanted; agricultural operations are going on with vigour; crops coming up well; more rain required for rice sowing in about three-fourths of the district.
Meerut (" ")	Rains commenced, occasional in every tahsil during the week; heavy rain to-day.	Ploughing and sowing begun generally; health good; supplies sufficient; prices stationary.
Kumaun (" ")	Light rain in early part of the week, much heavier towards the end.	Crops flourishing; slight measles amongst children; cattle-disease still in parts; prices stationary.
Lucknow (" ")	1·3; Maliabad, 0·3; Mohanlalganj, 0·4.	Sky cloudy, with east wind, every appearance of more rain; supplies abundant; prices falling; cholera decreasing in city.
Rae Bareli (" 3rd)	Dalamau, 0·9; Digbijaiganj, 0·7; and also in parts of tahsils Salon and Rae Bareli, but not at the tahsil head-quarters.	Heavy clouds daily; *kharif* sowings going on; prices stationary; cholera decreasing.
Partabgarh (" 4th)	Kunda, 2·6; slight showers at Sadr.	Wind easterly; sky cloudy; cholera decreasing.
Sitapur (" ")	Birwar, 5·6; 2·5 average at Sadr.	Wind easterly; prospects good.
Fyzabad (" ")	1·6	Sowing of rice going on; cholera prevalent in parts of district.
		General Remarks.—Good rain, sufficient for present purposes, throughout the provinces; prices rising slightly in Aligarh and Saharanpur, elsewhere stationary or falling; slight fever in Agra, and small-pox in Agra and Moradabad, otherwise health good; cholera decreasing; cattle-disease continues in Kumaun.
Punjab—(July 4th)		
Delhi ...	·30	Health good; prices of food-grains rising.
Hissar ...	Slight drizzlings of rain during the week.	Rain most urgently required; health good; prices rising.
Umballa ...	1·60	Ploughings for *kharif* sowings in progress; health good; prices rising.
Jullundur ...	2·50	Health good; prices rising.
Amritsar ...	No rain	Slight rise in prices of wheat and gram; health fair.
Sialkot ...	1·0; 2·0 in Zaffarwal tahsil.	Health good; prices falling.
Lahore ...	No rain	Health good; weather cloudy and windy; prices stationary.
Ferozepore ...	20 in the Zira tahsil	*Kharif* ploughings commenced; health good; prices stationary.
Mooltan ...	No rain	Crops and health good; prices rising.
Rawalpindi ...	·10	*Kharif* crops in progress; fever in Rawalpindi; measles in Pindigheb; prices rising.
Dera Ismail Khan ...	.....	No report received.
Peshawar ...	No rain	Weather extremely hot; health good; prices falling.
		General Remarks.—Rain has fallen in the Delhi, Umballa, Jullundur, Sialkot, Ferozepore, and Rawalpindi districts; slight drizzlings are reported from Hissar, where rain is most urgently required; health good, but fever is still reported in Rawalpindi and measles in Pindigheb; prices of food-grains generally are rising.
Central Provinces—		
Nagpur (July 5th)	Heavy showers	Weather close and cloudy; *kharif* prospects good; prices steady.
Jubbulpore ...	1·42	Weather cloudy and hot; sowings continue; cholera and small-pox prevalent; wheat 17 seers per rupee.
Saugor (July 3rd)	1·05	Sowing operations progressing favourably; prices steady; general health good.
Seoni ...	5·73	Rain daily since first; transplanting of rice in progress; cholera and small-pox prevalent; severe cattle-disease in one tahsil.
Khandwa ...	2·8	Weather close and cloudy; sowings continue; prices stationary; wheat 21 seers per rupee.
Hoshangabad ...	1·91	*Kharif* sowings continue; small-pox prevailing; wheat 14 seers per rupee.
Raipur (July 1st)	1·93	*Kharif* sowings nearly completed; cholera prevalent; prices unchanged; rice 40 seers per rupee.
Sambalpur (June 29th)	·37	Weather hot and bright; rice sowing in active progress; health good; rice 56 seers per rupee.
		General Remarks.—Weather cloudy and very close; rain general, heavy showers in Seoni district; *kharif* sowings progressing actively; cholera and small-pox still reported from several districts; prices steady.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
British Burma—(July 1st)		
Akyab ...	4·93	Total rainfall 73·83; small-pox slightly prevalent in two townships, otherwise public health good; cattle-disease severe in one township; ploughing progressing.
Rangoon ...	3·02	Total rainfall 24·18; 1 death from cholera, otherwise public health good.
Bassein ...	3·46	Total rainfall 44·84; public health good; some cattle-disease in two townships; much sunshine by day and heavy showers at night; young plants in nurseries suffering from sun; ploughing progressing.
Prome ...	0·25	Total rainfall 11·83; 4 deaths from cholera in town and a few cases in district; ploughing backward in one township for want of rain.
Amherst ...	3·13	Total rainfall 72·78; public health good both in Moulmein and district; cattle-disease in three townships.
Toungoo ...	3·67	Total rainfall 27·42; no deaths from small-pox in town, but 23 in one village in the Karen hills, otherwise public health good.
		General Remarks.—Cholera prevalent in Thonkwa and part of Hanthawaddy, a few cases in two or three other districts; some small-pox in Akyab and Toungoo, otherwise public health good; cattle-disease continues in Akyab and Amherst, some also in Sandaway, Tharrawaddy, Bassein, Thonkwa, and Shwaygyeen; want of rain complained of in Prome, Tharrawaddy, and Thonkwa.
Assam—(July 5th)		
Gauhati ...	1·22	Weather seasonable; public health good in the station, also improving in the interior; *aus* rice crops doing well; cattle-disease reported from the interior.
Sylhet ...	3·27	Prospects of crops good; state of public health also good.
Cachar ...	3·83	Weather very hot; sowing of *dumahi* and *murali* crops finished in some parts of the district; ploughing for *sali* crop progresses; common rice 24⅛ seers per rupee; 6 cases of cholera and 1 case of small-pox reported from Katigora.
Dibrugarh ...	·4	Rainfall better in Lakhimpur, Sadiya, and Jaipur hill, defective at Dibrugarh; ploughing much retarded in consequence; cattle-disease has been very severe all over the district and seems to be extending; Bengali cattle and buffaloes have escaped partially, in some villages there is not a buffalo left alive; public health good.
Mysore and Coorg—(July 5th)		
Bangalore ...	·80	Standing crops in good condition; sowing operations of dry crops in active progress, but more rain required for wet cultivation; prospects favourable; public health good; prices stationary.
Mysore ...	.....	Crops in good condition, but more rain wanted; prospects fair; health good; rice and *ragi* risen ½ seer per rupee.
Mercara ...	10·11	The monsoon has again set in; transplanting of coffee seedlings proceeding; rice is being sown; the *ragi* crop in Naurajapatna taluk is being weeded; the coffee crop on Saupaji ghât and the cardamum crops have suffered from previous heavy rain; prospects of season and public health good; slight fall in prices.
		General Remarks.—Rainfall from 5 to 79 cents reported in districts; agricultural operations recommenced; prospects of season generally favourable and public health good; fever and small-pox prevalent in parts; standing crops in good condition; prices—rice 11 to 16 and *ragi* 20 to 32 seers per rupee.

No. 2288.

ORDER—By the Government of India, Department of Finance and Commerce.

Read the following :—

No. 470, dated 20th April 1882.

Resolution—By the Government of India, Department of Finance and Commerce.

The Governor General in Council has resolved to publish with the annual Finance and Revenue Accounts of the Government of India a statement showing the receipts and expenditure of all Municipalities, as well as of all Excluded Local Funds which are on the books of the Accountants General, in order that a complete account of the whole income and expenditure connected with the administration of the country may be readily available from one source.

2. This statement will not form an integral part of the combined accounts of the Empire under the three heads of "Imperial," "Provincial," and "Local," as they have been hitherto prepared, but will only be in the nature of an appendix intended to supplement the information contained in the Accounts; and the responsibility for the correctness of the

Statement will lie with the local authorities entrusted with the management of the Municipal and other Funds in question.

3. The accounts of Municipalities will be in the form given in the appendix to this Resolution, and there will be no difficulty in preparing them, as, under instructions from Her Majesty's Secretary of State, the Municipalities have already to furnish to the Local Governments almost the same information for submission to the Government of India in the Home Department. All these Accounts are now made up for the official year, except only those for the Municipalities of Calcutta and Bombay, and the Corporations of these cities have been requested to conform to the general practice.

4. The Local Governments will consolidate these accounts into one statement for each Province, and transmit it direct to the Comptroller General, so as to reach him not later than the 30th November of the year succeeding that to which they relate, for inclusion in the Finance and Revenue Accounts of the year.

5. The Comptroller General will issue further appropriate instructions to the several Accountants General for the submission of statements of the Excluded Local Funds, which should contain sufficient details of the sources of income of each Fund and of the character of the expenditure incurred therefrom.

6. The accounts of Municipalities and of the Excluded Local Funds will be collected together in one statement, to be called 2 (*b*), which will be inserted in its proper place in the Finance and Revenue Accounts.

7. The Comptroller General will also prepare a statement, to be called 2 (*a*), showing in detail for each Province the distribution of the revenue and expenditure at present included in the General Accounts under the three heads "Imperial," "Provincial," and "Local" on the lines of No. III of the statements published with the Financial Statement of the Government of India.

8. The Governor General in Council desires that Local Governments will take immediate measures for the submission of the statements for the year 1881-82, in order that they may appear in the Finance and Revenue Accounts of that year.

9. The Municipal Budget Estimates, which are at present submitted to the Government of India in the Department of Finance, will be no longer required.

Ordered, that this Resolution be communicated to the Home Department for information, and to the several Local Governments and Administrations, and to the Comptroller General for information and for the issue of further necessary orders.

ORDERED, that the foregoing be published in the *Gazette of India* for general information.

[Appendix referred to in paragraph 3 of the Resolution.]

* It must be clearly understood that under this head only such establishments are to be shown as cannot be properly shown under any of the other heads. Wherever there is a special establishment for a particular purpose only, it should be shown under the head to which that purpose belongs and not under the head of General Establishments.

† If the Public Works Establishment be employed partly upon works connected with any of the other heads, the share of the charges debitable to those heads should be shown under those heads, and not under (E).

No. 2301.—The following Addenda and Corrigenda to the Codes of the Financial Department are published for general information :—

CIVIL PENSION CODE.

Page 3.

Section 7.

Substitute the following for the first sentence of the Section :—

"The Rules in Sections 8 and 9 apply to Officers transferred on or after the 14th October 1871 from qualifying service to Foreign service, and, as regards the rates of contribution, have effect from the 10th June 1882."†

Section 8 (a).

Substitute the following for the Section :—

8. (*a*) From every Officer transferred in the manner specified in Section 7, who does not wholly resign the service of the British Government, or who is not, for recorded special and public reasons, exempted from the operation of the Rules in this Chapter, a contribution is levied as follows :—

(A) In the case of a Covenanted Civil Servant ;—at the rate of 16⅔ per cent. (one-sixth) on the gross salary which he receives from his Foreign employers :

(B) In the case of any other Officer ;—at the rate of $14\frac{2}{7}$ per cent. (one-seventh) on the gross salary which he receives from his Foreign employers : provided always that the contribution from an Uncovenanted Officer shall in no case exceed Rs. 166⅔ a month,

that is to say, the Officer receives from his Foreign employers salary fixed in accordance with the Rules of the Public Service for the appointment which he holds or in which he officiates, and, retaining five-sixths or six-sevenths accordingly as he is an Officer of Class (A) or (B), pays one-sixth or one-seventh, as the case may be, to the Government of India.

Page 4.

Section 8 (b).

Substitute "five-sixths or six-sevenths, as the case may be," *for* "four-fifths."

Rule 2.

Substitute "five-sixths or six-sevenths, as the case may be," *for* "four-fifths."

Rule 3.

Substitute the following for the Rule :—

3. A Native of India not being a Covenanted Civil Servant may, by resigning all claims to allowances from the British Government during leave in respect to the period of his employment in Foreign service, contribute for pension only. In such case the contribution shall be one-eleventh of the gross salary which he receives from his Foreign employers, and shall not exceed Rs. 100 a month ; and the pension will be calculated upon the balance of salary which remains to him after the deduction.

Page 6.

Rule 13.

Substitute the following for the Rule and the Example under it :—

13. The deduction made under this Section from the salary of a Covenanted Civil Servant includes the deduction made on account of his annuity. His gross salary when transferred to Foreign service should therefore be one-fifth greater than the net salary which it is intended that he should retain for himself after paying the ordinary contribution of 4 per cent. towards the cost of his annuity.

Example.—The salary of A.B., a Covenanted Civil Servant, is Rs. 1,000 ; from this he pays Rs. 40 towards cost of his annuity and retains Rs. 960 for himself. If transferred to Foreign service his gross salary will be Rs. 1,152. The contribution payable to the British Government is Rs. 192.

Page 7.

Rule 16.

Substitute the following for the 1st sentence of the Rule :—

"The salary of an Officer appointed to act for an Officer on Foreign service shall be calculated as if the pay of an Officer on such service were the net amount which remains to him after making his contribution; one-fifth in the case of a Covenanted Civil Servant, one-sixth in the case of any other Officer (if he contributes for both leave and pension), or 6⅔ per cent. in the case of an Inferior Servant, being added to the total sum thus calculated."

Substitute the following for the Examples :—

(1) A. B., a Covenanted Civil Servant, receiving a pay of Rs. 500 from the British Government, officiates in an appointment in Foreign service, the gross pay of which is Rs. 1,200. Deducting the sum contributed for leave and pension, the net pay of the appointment is, therefore, Rs. 1,000. A. B.'s salary is—

	Rs.
Pay	500
Acting allowance ⅓ (1,000—500)	333⅓
Salary	833⅓
Add $\frac{1}{5}$ (to be contributed to the British Government)	166⅔
Gross Salary ...	1,000

(2) A. C., an Uncovenanted Officer, receiving a pay of Rs. 350 from the British Government, officiates in an appointment in Foreign service, the gross pay of which is Rs. 1,166⅔. Deducting the sum contributed for leave and pension, the net pay of the appointment is, therefore, Rs. 1,000. A. C.'s salary is—

	Rs.
Pay	350
Acting Allowance, $\frac{1}{5}$ of 1,000	200
Salary ...	550
Add $\frac{1}{6}$ (to be contributed to the British Government)	91⅔
Gross salary ...	641⅔

(3) A. D., an inferior Servant, receiving a pay of Rs. 6 from the British Government, officiates in an office in Foreign service, the gross pay of which is Rs. 10-10-8. Deducting the sum contributed for pension, the net pay of the appointment is, therefore, Rs. 10. A. D.'s salary is —

	Rs.	A.	P.
Pay	6	0	0
Acting Allowance, $\frac{1}{5}$ of Rs. 10	2	0	0
Salary ...	8	0	0
Add 6⅔ per cent. (to be contributed to the British Government) ...	0	8	6
Gross Salary ...	8	8	6

(4) A. E., an Uncovenanted Officer, receiving a gross pay of Rs. 700 in Foreign service, and contributing for both leave and pension, is appointed to officiate in another office in Foreign service, the gross pay of which is Rs. 1,166⅔. A. E.'s salary is —

	Rs.
Net pay	600
Acting allowance $\frac{1}{5}$ of Rs. 1,000	200
Salary ...	800
Add $\frac{1}{6}$ (to be contributed to the British Government) ...	133⅓
Gross Salary ...	933⅓

Page 10.

Section 10.

Substitute the following for Case (g), clause (2) :—

(2) When an Officer's services are lent for other than Imperial purposes, either in England or in a British Colony, or to a Foreign State, the Officer shall, unless he is transferred to the service of the Egyptian Government, make a contribution to the Indian Exchequer in accordance with the Rules in this Chapter.

Pages 36 and 37.

Section 80, Case (f).

For "one-fourth" *and* "one-eighth" *substitute* "one-sixth" *and* "one-twelfth."

No. 2330.—Mr. T. W. Biss received charge of the appointment of Deputy Accountant General, Bombay, after noon on the 30th June 1882.

No. 2339.—In exercise of the powers conferred by Section 49 of the Native Passenger Ships Act, VIII of 1876, the Governor General in Council is pleased to direct that every ship to which the Act applies performing a voyage either between a port on the west coast of India and a port in the Red Sea, or between Aden and any port on the east coast of Africa, south of 10° north, whether the ship touches at any intermediate port or not, shall, in the event of the ship being propelled by sails, contain in the between decks not less than 12 superficial feet and 72 cubic feet of space for every passenger, and shall, in the event of the ship being propelled by steam, or partly by steam and partly by sails, contain in the between decks not less than 9 superficial feet and 54 cubic feet of space for every passenger.

WANTED

For the Narsingpur District, Central Provinces, for about twenty months, from 1st October 1882, two Surveyors on a salary of Rs. 30 each per mensem.

Applications with copies of testimonials to be addressed to G. J. Nicholls, Esq., Deputy Commissioner, Narsingpur.

L. A. MAHOMED,
Extra Assistant Commissioner,
for *Deputy Commissioner.*

NOTICE.

Waste Lands available for Planters in the Tavoy District.

Waste lands, covered at present with forest, bamboos or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,800 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 190 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application to the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices in Tavoy, namely,—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.

(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the tenth year after he enters on possession, provided that he takes *bonâ fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated in each year.

(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-third of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.

(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bonâ fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met as far as possible in regard to the situation and shape of their grants. But ordinarily—

(*a*) no grant will be given where the Forest Department intend to make a forest reserve;

(*b*) no grant will be given on such a place as will unduly circumscribe the extension of cultivation of the grazing grounds of any neighbouring village or hamlet;

(*c*) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;

(*d*) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI.—The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.

VII.—In order to encourage pioneers in the coffee and cinchona enterprise in Tavoy, the Government will pay to the first four grantees who begin *bonâ fide* planting operations Rs. 15 per head for every Indian or Chinese coolie, male or female, over 16 years of age, who may be settled and housed on their plantations before the 1st March 1885.

VIII.—In any case of doubt regarding the *bonâ fide* character of operations for the purposes of concessions III and VII, the Deputy Commissioner will decide, and his decision will be subject to appeal to the Commissioner of Tenasserim, whose decision will be final.

IX.—All minerals and metals under and within the lands granted under these rules are reserved by Government, together with a right to enter upon and resume such portion of land as may be necessary for examining or working mines upon payment of just compensation to the grantee for loss of, or injury done to, the surface.

G. D. BURGESS,
Secy. to the Chief Commr., British Burma.

The 6th April 1882.

COMMISSARIAT NOTICE.

The following five Government elephants are now for sale at Agra and Bareilly.

2. Offers are invited, both for purchase of these animals, and also for exchange of good female elephants suitable for Government purposes in place of these, and any reasonable offers will be accepted by the Commissary General.

3. Applications to inspect the elephants and offers for purchase or exchange may be made to the Assistant Commissaries General, Agra and Bareilly, respectively:—

Description of Elephants.

Where for sale.	Register No.	Name.	Sex.	Height.	Probable age.	Tusks.	Eyes.	Number of Nails.	Tail.	Back.	Temper	Condition.	REMARKS.
				ft. in.									
At Agra.	668	Saika ...	Male	8 4½	45	Perfect ...	Blind off-side.	18	No hair ...	Hollow in centre from wound in youth.	Good	Good	Fit for sowari purposes; never been musth; head and tusks fine; carriage good.
	1847	Louis Napolean.	Do. ...	9 7	39	One on off-side.	Perfect ...	18	Short of hair.	Good ...	Vicious.	Do. ...	A fine elephant, unsafe for Government purposes, but Rajahs, &c., might buy him for fighting purposes.
	1670	Watson ...	Do. ...	8 9	37	One on off-side split slightly.	Do. ...	18	Do. ...	Do. ...	Uncertain.	Do. ...	A very fine animal, fit for anything, but troublesome at times.
	459	Nazirguj ...	Do. ...	8 11	47	Two, off one broken.	Do. ...	18	No hair ...	Do. ...	Do. ...	Do. ...	Unsafe for Government work; a very fine elephant indeed, suitable for fighting purposes.
At Bareilly.	1783	Hastings ...	Do. ...	9 4	59	One broken.	Good ...	18	Good ...	Centre ridge of bone rather high.	Good	Low...	Fit for howdah and shooting purposes.

W. G. SMITH, *Major,*
Officiating Deputy Commissary General.

DEPY. COMMSY. GENL.'S OFFICE,
CENTRAL CIRCLE, LUCKNOW,
The 20th June 1882.

Indian Meteorological Memoirs, Vol. I, Part IV, 4to., 62 pages, 8 plates	1	8	0
Rainfall Chart of India, showing the average annual distribution of rainfall (in colors)	1	0	0
Report on the Vizagapatam and Backergunge Cyclones, October 1876, 4to., 87 pages, 4 plates ...	2	0	0
Report on the Madras Cyclone, May 1877, 4to., 117 pages text, 97 pages tables, 5 plates ...	2	8	0

HENRY F. BLANFORD,

Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at

Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
„ MADRAS SERIES ...	„ 8	„ 9
„ BOMBAY SERIES ...	„ 8	„ 9
„ ALLAHABAD SERIES	„ 8	„ 9
Complete set... ...	„ 45	„ 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

For a Part of the CALCUTTA SERIES ...	Rs. 3	8
„ „ MADRAS SERIES ...	„ 1	0
„ „ BOMBAY SERIES ...	„ 1	0
„ „ ALLAHABAD SERIES.	„ 1	0
Complete set	„ 4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at Rs. 375 a set.

Charts, &c., issued at the Marine Survey Department, Calcutta, by order of the Government of India, and sold at the Office of the Marine Survey Department, 4-4 Loudon's Buildings, Hastings Street, Calcutta, where Admiralty Charts can also be obtained.

☞ All Charts are corrected up to the date of issue.

Irrigation.

REVENUE REPORTS OF IRRIGATION WORKS IN THE NORTH-WESTERN PROVINCES AND OUDH FOR 1880-81.

Nos. 208-22 I., dated Simla, the 29th June 1882.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Letter from the Secretary to the Government of the North-Western Provinces and Oudh, No. 1150I., dated 6th May 1882, and enclosure, being the Revenue Report of Irrigation Works in the North-Western Provinces for 1880-81, and a Resolution of His Honor the Lieutenant-Governor reviewing the Report.

OBSERVATIONS.—The capital expenditure during the year under review amounted to Rs. 21,60,535, and the total outlay on Capital Account to Rs. 6,49,59,486 up to the end of 1880-81. Of this amount Rs. 5,93,89,821 have been expended on Productive Public Works, and Rs. 55,69,665 on works of irrigation and navigation chargeable to Provincial Funds.

2. The total amount of interest on capital cost of works of all kinds during the year amounted to Rs. 26,80,296, and the accumulated balance of interest charges remaining unpaid at the end of the year to Rs. 84,08,747. The unpaid balance was reduced by Rs. 3,52,297 during the year under review, the unpaid balance at the end of the year 1879-80 having been Rs. 87,61,044.

3. The actual receipts from all sources amounted to Rs. 49,38,705, the total receipts for the year 1879-80 having amounted to Rs. 53,58,105. The decrease in amount of revenue actually collected during 1880-81 is due to the collections on account of the very large "rabi" irrigation of 1878-79 (which are shown as receipts of 1879-80) having been much in excess of those on account of "rabi," 1879-80, which appear in the receipts of 1880-81.

4. A juster estimate of the results of the year's operations will, however, be obtained by a comparison of its assessed revenue with that of previous years, although the transfer of the two terminal divisions of the Upper to the Lower Ganges Canal, and the rapid extension of irrigation on the latter make fair comparison either of results obtained from the two great canals or of total results

very difficult. The assessments of 1880-81 are compared below with those of the two previous years :—

Year.	Direct revenue assessed.	Indirect share of land revenue.	Total.
	Rs.	Rs.	Rs.
1880-81	44,94,306	9,50,747	54,45,053
1879-80	37,26,528	9,65,955	46,92,483
1878-79	42,47,274	10,77,701	53,24,975

When it is remembered that 1878-79 was a year of drought in the North-Western Provinces, when the rains commenced late and ceased early in September, the effect on the revenue of the new channels and extensions is very apparent.

5. The working expenses, including indirect charges, amounted to—

Year.	Working Expenses.
	Rs.
1880-81	19,06,112
1879-80	18,39,611
1878-79	16,12,172

The increase in cost of maintenance during 1880-81 is partly due to increase of maintenance charges on the new canals and extensions, and partly to the heavy outlay on repairs necessitated by the extraordinary floods of September 1880. The increase would have been much greater, but for a large decrease in establishment charges amounting to Rs. 2,17,106, due to the large reductions in the Engineer establishment carried out at the close of the previous year.

6. The net assessed revenue, after deduction of all working expenses for each of the three years, amounted to—

Year.	Net revenue.	Percentage on capital outlay to end of year.
	Rs.	
1880-81	35,38,941	5·45
1879-80	28,52,872	4·54
1878-79	37,12,803	6·11

The Lower Ganges Canal has, however, not yet had time to come into full operation, and the influence of its capital and maintenance charges is very considerable in reducing the percentage of net returns on capital invested.

The percentage of net revenue of 1880-81 upon capital outlay to end of 1880-81 upon the more important canals amounted to—

Upper Ganges Canal	5·14 per cent.
Lower Ganges Canal	4·58 „
Eastern Jumna Canal	25·26 „
Agra Canal	3·15 „

7. The areas irrigated are compared below for 1880-81 and the two previous years :—

Canals.	1880-81.	1879-80.	1878-79.
	Acres.	Acres.	Acres.
Upper Ganges	664,927	596,259	806,368
Lower Ganges	583,471	*402,365	*419,555
Eastern Jumna	235,862	240,233	291,950
Agra	141,405	57,197	123,578
Other Works	107,031	104,351	95,200
TOTALS .	1,732,696	1,400,405	1,736,651

* Irrigation of the Cawnpore and Etawah Terminal Division deducted from the Upper and added to the Lower Ganges Canal in these years to facilitate comparison.

The great increase of irrigation on the Agra Canal occurred principally in the "rabi" of 1880-81, a strong demand having been met by a good supply in the river. The increase on the Lower Ganges Canal is due not only to the new channels which began to work during the "rabi" of 1880-81, but to the good and steady supply of water furnished by the Narora head to the Cawnpore and Etawah Terminal Divisions of the Upper Canal, which have been transferred to the Lower one. The average proportion of kharif to rabi irrigation during the three years 1878-79 to 1880-81 was very nearly 2 : 3; but it is expected that, as the irrigation of indigo is developed on the Lower Ganges Canal, the proportion of kharif irrigation will be increased. 13½ per cent. of the irrigated area was double cropped during 1880-81, the proportion having been almost exactly the same during the previous year.

8. The irrigating duty done and water-rate earned by each cubic foot per second of water entering the canal head, were as follows:—

Canal.	1880-81.		1879-80.		1878-79.	
	Acres.	Rs.	Acres.	Rs.	Acres.	Rs.
Upper Ganges	173	436	189	460	239	579
Eastern Jumna	233	664	231	671	248	741
Agra	135	367	64	186	127	356

Uncertainty about correctness of the volumes shown as entering the head of the Upper Ganges Canal prevents much reliance being placed on the figures given for that canal.

A like uncertainty has led to the exclusion of the Lower Ganges Canal from the table, but no time should be lost in clearing up all doubts on the subject of the volumes discharged by these two most important canals.

The effect of the uncertain hot weather supply and the high water-rates in force on the Agra Canal is very apparent in the sudden drop in the value of a cubic foot of water in the year of good rainfall, 1879-80.

9. The maintenance charges per acre irrigated are given below for the four principal canals and the whole area irrigated:—

	Per acre irrigated. Maintenance charge, 1880-81.
Upper Ganges Canal	1·33
Lower Ganges Canal	0·75
Eastern Jumna Canal	0·92
Agra Canal	1·55
Whole area irrigated	1·10

The close coincidence of the maintenance rate per acre irrigated with that obtained in the Punjab for the same year (Rs. 1·09) is remarkable. Extraordinarily heavy floods, however, entailed unusual outlay upon repairs of the Upper Ganges, Eastern Jumna, and Agra Canals.

10. The gross receipts under head of "Navigation" during 1880-81 were Rs. 27,832 against Rs. 27,978 in the previous year; but the net income was Rs. 16,048 against Rs. 4,262 of 1879-80, owing to reduction of expenditure. Some particulars are given below of the traffic during 1880-81 and the two previous years:—

	1880-81.	1879-80.	1878-79.
Average number of boats plying	270	259	259
Average load of each boat . mds.	431	440	437
Number of rafts	525	358	401
Total tonnage . tons	65,322	60,914	73,231
Total ton-mileage . "	7,899,401	7,531,624	10,687,507

The passenger traffic is quite insignificant, only 83 passengers having been registered during 1880-81.

The Government of India will be glad to hear of the completion of the connection between the Ganges Canal and the Sind, Punjab and Delhi Railway by the proposed siding at Muradnagar.

11. The cost of collecting the canal water-rates as given on page 13A of the Report, *viz.*, 3·30 per cent. of collections made in the districts watered by the Upper Ganges Canal, is very moderate. A similar return should either be furnished for all canals, or a general statement be given in the Chief Engineer's review, showing all charges in the Civil Department on account of canal collections. The statement in paragraph 6 of the Chief Engineer's review for 1880-81 gives only the amounts paid as fees to patwaris and lumbardars, omitting charges on account of establishment and contingencies.

12. The state of the uncollected balances is especially satisfactory in respect of the nominal balances outstanding on account of years previous to 1880-81.

13. The reports furnished on the effects of the various drainage works which have already been carried out are very interesting, and observations should be continued on the spring levels and areas affected by "reh" in the canal-irrigated tracts.

ORDER.—Ordered, that a copy of this Resolution and of the Report and Resolution by the Local Government be forwarded to the Secretary of State and to the Finance and Commerce and Revenue and Agricultural Departments of the Government of India for information.

The Governments of Madras, Bombay, Bengal, and the Punjab.
The Chief Commissioners, Central Provinces, British Burmah, and Assam.
The Resident at Hyderabad.
The Agents to the Governor General, Central India and Rajputana.

Also, that a copy of this Resolution be forwarded to the Government of the North-Western Provinces and Oudh, Public Works Department, for information and guidance, and to the Local Governments and Administrations noted in the margin, in the Public Works Department, for information, and to the Foreign Department for communication to the Government of Mysore.

Also, that this Resolution and the Resolution of the Local Government be published in the Supplement to the *Gazette of India.*

H. A. BROWNLOW, *Colonel R.E.,*
Deputy Secretary to the Govt. of India.

No. 883 I., dated Allahabad, the 6th April 1882.

RESOLUTION—By His Honor the Lieutenant-Governor, N.-W. Provinces and Oudh.

The area irrigated during the year was 1,732,696 acres, or only 4,000 acres less than that watered in 1878-79, when the demand for irrigation was abnormally high on account of the drought.

The value of the crops grown on the above area is estimated at nearly 561 lakhs of rupees, or an average of Rs. 33 per acre.

2. The net income was Rs. 35,38,941 or 5·45 per cent. on the total invested capital of Rs. 6,49,59,486, the interest charge on this amount being Rs. 26,80,296; there was thus a clear surplus of Rs. 8,58,645 after paying all expenses.

Considering that 237 lakhs of the above capital is sunk on the Lower Ganges Canal, a work which is still incomplete and as yet contributes inadequately to the revenue, the Lieutenant-Governor considers that the financial results of the year may be looked on as very satisfactory.

3. Sir George Couper also notes with satisfaction the improvement in the returns of the Agra Canal, and is glad to hear that the prospects of this work are better than they were considered to be in 1879.

4. Benefit has on the whole been derived from the drainage works undertaken during the last few years, especially in the Meerut and Aligarh Divisions. The effect produced in the lower districts by these artificial increments to the natural floods must be carefully watched, and His Honor desires that this point will receive most serious consideration.

J. G. FORBES, *Lieut.-Colonel, R.E.,*
Joint Secy. to Govt., N.-W. Provinces and Oudh,
P. W. D., Irrigation Branch.

RESOLUTION.

1. The proposal to grant passports to pilgrims from India to the Hedjaz, which had previously occupied the serious attention of the Government of India in connection with the question of alleviating the hardships attending the journey, was revived by an enquiry from Her Majesty's Government in July 1875, whether the Government of India could suggest any means of mitigating the sufferings of the poorer class of Muhammadans who undertook the pilgrimage. Her Majesty's Consul at Jeddah was at that time in favour of introducing a system similar to that pursued by other Governments of granting upon certain conditions a passport to every pilgrim.

2. The Government of India took the subject into careful consideration, and after consulting the Local Governments decided that, with the strongest desire to relieve the discomforts and sufferings to which at present pilgrims to Mecca are subjected, it was unadvisable to impose upon their movements any restrictions which might be liable to misconstruction. A reply was accordingly sent to the Secretary of State on the 2nd July 1877, to the effect that, in concurrence with the views of the local authorities, the Governor General in Council was opposed to any direct interference on the part of Government with what is considered to be a religious obligation by a large section of the Muhammadan community in India, and accordingly deprecated the introduction of a system of passports or licenses, or any other similarly restrictive arrangements.

3. In consequence of this determination, no further action was then taken in the matter, and the question remained in abeyance until July 1880, when the Government of India received an intimation from the Secretary of State that the Turkish Government had issued orders requiring passports in future for all passengers and pilgrims arriving in Jeddah, whether Turkish or Foreign subjects, and announcing that those who came unprovided with such documents would be liable to be repelled from the ports of the Hedjaz.

4. It therefore became necessary, in order to prevent Indian pilgrims from encountering the risk of being turned back on their arrival in Turkish ports, that the Government of India should take measures to provide their Muhammadan subjects with passports, and it only remained to consider how best to give effect to the requirements of the Turkish Government without interfering more than was absolutely necessary with the freedom of movement and action previously enjoyed by Indian pilgrims. With this object a circular was sent to Local Governments and Administrations explaining the Regulation published by the Porte, and asking for opinion upon the following points:—

(i) the question of charging a small fee on passports in order to raise a fund to be devoted to giving assistance to needy and impoverished pilgrims;

(ii) the plan of issuing passports, not only at the ports of embarkation, but also in every district in British India, and in the Native States;

(iii) the necessity of appointing pilgrim agents at Indian seaports to facilitate the embarkation of pilgrims, and to afford them all possible information and aid.

5. The reports received in reply made it clear that, although a small minority, including some Muhammadan gentlemen of position and experience, were in favour of levying a fee upon each passport issued, the weight of opinion was opposed to such a measure, not only as being liable to misinterpretation, and calculated to give rise to erroneous impressions, but also on the ground that it would still further increase the already heavy expenditure which the pilgrimage entails. In deference to these views it has been decided that passports shall be distributed, in the form annexed to this Resolution, free of any charge; and also, for similar reasons, that no deposit or other guarantee of the ability of the grantee to discharge the cost of his journey in Arabia or of his return journey shall be exacted by this Government.

6. Further, with a view to making the new Turkish regulations as little irksome as possible to natives of India proceeding to the Hedjaz on pilgrimage, it has been resolved that passports shall be unconditionally given to every intending pilgrim not only at the ports of embarkation, but also at the central stations of every district in British India, and at the head-quarters of all Political Agencies in Native States. Thus it will be left to the option of the pilgrim to take his passport either in his own district or at the port from which he starts, as he may find most convenient.

7. With regard to the proposal to appoint pilgrim agents at the several ports of embarkation, it has been represented to the Government of India that, as a general rule, the local authorities empowered to carry out the provisions of the Native Passenger Ships Act (No. VIII of 1876) can satisfactorily discharge the duties that would devolve upon these officers. With this opinion the Governor General in Council concurs. But in consideration of the very large numbers of pilgrims who annually embark at, and return to, Bombay, and the necessity of making some special arrangements to meet their requirements, it is proposed to appoint a Protector of Pilgrims at that port. He will be a Muhammadan, and will work in subordination to the Commissioner of Police. His duties will be to issue passports to all applicants; to aid them in procuring the necessary equipment for the voyage; to bring to notice the existence of any epidemic disease among them; and generally to give them all the information and assistance within his power in respect of every matter connected with their pilgrimage. The Bombay Government will be requested to make proposals for the pay and establishment of this officer whose employment on this special work will only be necessary for a portion—about 6 months—of the year.

8. The last point which has engaged the attention of the Government of India in connection with this subject is the question of providing passports

and making arrangements for the subjects of other Governments, *e.g.*, natives of Kashgar, Russian Turkistan, Afghanistan, &c., who embark for Mecca from Indian ports, similar to those introduced for the benefit of British Indian subjects. The numbers of this class of pilgrims are not large, and it has been ascertained that in their passage through British territory they have uniformly comported themselves in quiet and orderly fashion. At the same time they have no right to represent themselves as British subjects, or to receive passports as such. Nevertheless, in accordance with the rules and principles which always guide the action of the Government in such matters, it has been determined to facilitate the embarkation of such foreigners at Indian ports, and possibly their debarkation at those in the Red Sea, by granting them informal passes in the form appended to this Resolution as form B. These passes will not be compulsory, and their issue will be subject to the payment of a small fee of Rs. 2. They will be granted on application at Bombay by the Protector of Pilgrims; at other ports by the Commissioner of Police. It should be clearly explained at the time of issue that they impose no responsibility upon the Government of India in regard to the holder, nor can that Government in any way guarantee their recognition by the officials of the Turkish or any other Foreign Government.

9. The forms of passport to be granted to Indian subjects, and of the informal pass for aliens, are marked respectively A and B, and are appended to this Resolution. The latter, which is translated into both Urdu and Arabic, needs no remarks. On the reverse of the former explanatory instructions are printed in the same languages for the guidance of the pilgrims and the information of all concerned. These instructions are simple and self-explanatory. In the column for "General Remarks" attention may be drawn to the social position of persons of rank receiving passports. This may prove useful to them in the Hedjaz.

10. In order to secure as far as possible that Indian pilgrims to the Hedjaz are properly treated after landing, and to assist them in making arrangements for their return passage, the Governor General in Council has, with the approval of the Secretary of State, decided to appoint a Muhammadan gentleman to act as Vice-Consul at Jeddah. It is anticipated that this officer will take up his duties before the commencement of the next pilgrim season.

ORDER.—Ordered, that a copy of the above Resolution be forwarded to all Local Governments, Administrations and to the several Departments of the Government of India for information and guidance. Also that it be published in the *Gazette of India* and in all local Gazettes for general information. Local Governments are requested to arrange for its early translation and publication in all Vernacular Gazettes.

2. Local Governments are also requested to apply without delay for as many copies of the passports and passes as they may require to the Officiating Secretary to the Government of India in charge of the Home Department at *Calcutta*.

JEDDAH.

PILGRIM'S PASSPORT.

GOVERNMENT OF INDIA.

Name (in English and Urdu).	Father's name.	Residence.	Occupation.	Age.	*Distinctive Marks.	General Remarks.

* To be filled up for male pilgrims only.

This Passport, issued by the authority of the Viceroy and Governor General of India in Council, Requests and Requires all those whom it may concern to afford the person above-named going on pilgrimage to the Hedjaz all needed assistance and protection.

By Order of the Governor General of India in Council,

Countersigned at _____
this ____ *day of* _____ *188* ___

(Sd.) _____
Magistrate or Commissioner of Police, or Political Agent.

Secretary to the Government of India, in the Home Department.

NOTICE TO PILGRIMS.

1. The British Government having been informed by the Turkish Government that the authorities in the Hedjaz will not allow pilgrims from British India to land without a Passport, this Passport is issued to enable pilgrims to comply with the orders of the Turkish Government.
2. This Passport is supplied on request made by or on behalf of the intending pilgrim, but no fee is charged for issuing the same.
3. The British Government does not undertake to bring back pauper pilgrims from the Hedjaz.
4. The British Government has no desire to interfere with the liberty of the pilgrims, but warns its subjects that they should not undertake the pilgrimage if they have not sufficient pecuniary means for the expenses of the journey to the Hedjaz and back to India.
5. On arrival at Jeddah the holder of this Passport should present it to the British Consul for registration.
6. This Passport having been granted solely for the convenience of the pilgrim, the holder thereof is entitled to apply to the British Consul at Jeddah for assistance in case of difficulty.
7. For the convenience of pilgrims not knowing English, this Passport is accompanied with a full translation of this notice in Urdu and Arabic.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 11th JULY 1882.

GENERAL REMARKS.—The rainfall of the week has been general throughout the country (excepting the Madras Presidency, from which no reports have been received). In Coorg the rainfall has been excessive; in the Mysore State extremely heavy in parts and sufficient everywhere; in the Bombay Presidency heavy in some places, good in others, and light in a few talukas of three districts; in the Nizam's Territories fair; in Berar good; in the Central Provinces good everywhere and heavy in two districts; in the Central India States good on the whole; in Rajputana good in parts and insufficient in one State; in the Punjab good in some districts, fair in others, and none in Peshawar; in the North-Western Provinces and Oudh heavy in Rohilkhand, good or fair in other districts, and light in the eastern tracts; in Bengal good nearly everywhere, though light in one or two places; in Assam good in all districts, though in one more is wanted; in British Burma good generally, but in some localities apparently still short.

General prospects are satisfactory on the whole. In Coorg the *ragi* crops are being weeded and paddy, where not flooded, is doing well; in the Mysore State standing crops are in good condition and sowings are in progress; in Berar and the Nizam's Territories the sowing of *kharif* crops is either progressing or completed; in the Bombay Presidency sowings have mostly been completed and in some places transplantation has commenced; in the Central Provinces the *kharif* sowings have been completed in parts and continue in others, and the transplanting of rice is progressing in the eastern districts; in the Central India and Rajputana States ploughing and sowing are progressing; in the Punjab *kharif* sowings continue in some districts, and have commenced in others; in the North-Western Provinces and Oudh the *kharif* crops have come up well in places and sowings are still in progress in others; in Bengal the sowing of the autumn crops is still going on in Behar, elsewhere the transplanting of winter rice on low lands is proceeding, and sugarcane, early rice, and jute are doing well; in Assam and British Burma ploughing and sowing are still in active progress.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—(July 13th)		
Kurrachee ...	.....	No report received.
Hyderabad ...	Rain in seven talukas, average ·89.	River again rising; wheat 25, *juari* 44, *bajri* 39, red rice 32, and white rice 22 lbs. per rupee; small-pox in Khandirao taluka.
Ahmedabad ...	14·03	Sowings progressing; cholera—in Ahmedabad city 16 cases, 7 deaths, in Sanand 4 cases, 2 deaths, in Viramgaum 8 cases, 5 deaths; wheat 27 and *bajri* 29 lbs. per rupee.
Baroda ...	5·00	Total rainfall 13·46; sowings in progress; transplantation of rice commenced in places; public health good; cholera abating in Kari division; *bajri* 30 and common rice 21 lbs. per rupee.
Surat ...	7·09	Total rainfall 19·98; sowings mostly completed; transplantation progressing; cholera—1 death in Chorasi; *juari* 39 and *nagli* 51 lbs. per rupee.
Násik ...	Igatpuri, 21·50; Peint, 5·63; Malegaon, 4·00; very slight in Niphad, Zeola, and Sumar; good showers elsewhere.	Rain much wanted in Niphad, Zeola, and Sumar; crops doing well; locusts continue; wheat 34, *bajri* 36, and rice 25 lbs. per rupee.
Colaba (Bombay) ...	Rain every day, heavy on 8th; rainfall of week 8·02.	Total rainfall to date 42·99, being 14·38 above average; average abnormal temperature 3° cool from 5th to 8th, afterwards 1° cool; vapour in air normal; wind normal on 5th and 11th; abnormal wind from south-west from 6th to 10th.
Poona ...	Rain in seven talukas—maximum, in Poona, 2·43; minimum at Indapur, ·23.	Slight damage done to young crops by locusts in Khed taluka; *bajri* 42¾ and *juari* 55½ lbs. per rupee, in Poona *bajri* 36¾ and *juari* 43½ lbs. per rupee.
Ahmednagar ...	Sight rain, general	More rain wanted; cattle-disease in Nagar and Karjat; cholera—in Parner 9 cases, 4 deaths, in Shrigonda 23 cases, 8 deaths; *bajri*—maximum 60 lbs. in Jhamkhed, minimum 42 in Kopergaon; *juari*—maximum 90 lbs. in Jhamkhed, minimum 54 in Kopergaon.
Sholapur ...	1·75	Total rainfall 15·81; cholera—27 cases, 5 deaths; *kharif* sowings still in progress; *bajri* 56 lbs. 5 tolas and *juari* 74 lbs. 8 tolas per rupee.
Dharwar ...	Good rain everywhere, except Mundargi.	More rain wanted in Mundargi to enable sowings to be completed; break required in Dharwar, Bankapur, Hangal, and Kalghatgi; young crops thriving; slight ague in Dharwar and Mundargi, and cattle-disease in Bankapur and Hangal; rice 22 and *juari* 57 lbs. per rupee.
Kanara ...	Karwar, 11·54; Kumpta, 10·73; Sirsi, 15·45; Hallyal, 5·01.	Total rainfall 57·93; transplanting and weeding in rice-fields; sowings in *kumri* lands in progress; rice plants in low lands and swamps injured by excessive rainfall on coast; slight small-pox at Sirsi; cattle-disease subsiding; fever in two talukas; common rice in Karwar 13, in district average 13½ seers per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Rajkot ...	.....	No report received. *General Remarks.*—Sowing mostly completed; transplantation commenced in some places; rain general, heavy in some districts, but wanted in parts of Nasik, Ahmednagar, and Dharwar; locusts in Khandesh, Nasik, and Poona; cholera in Satara, Ahmednagar, Sholapur thana, Ahmedabad, and parts of Kathiawar.
Bengal—(July 12th)		
Chittagong ...	4·63	Weather hot, with occasional rain; transplanting of rice going on; prices steady; cholera, small-pox, and cattle-disease still prevail.
Dacca ...	2·21	All crops doing well, and rice being reaped in some parts, yield about 10 annas.
24-Pergunnahs (Calcutta)	4·04	Prospects appear fair; sugarcane, early rice, and jute doing well; transplanting of winter rice commenced; high lands being prepared; price of common rice stationary; public health generally good.
Moorshedabad ...	1·32	Prospects of crops favourable; sowing of winter rice finished; transplanting commenced in low lands; health generally good.
Rajshahye ...	0·66	Prospects of crops favourable; fever and cholera still reported.
Burdwan ...	4·08	Prospects of early crop good; rain wanted for late rice, especially in Katwa subdivision; health fair, but cases of cholera reported.
Rungpore ...	2·35	Weather hot and cloudy; early rice being harvested; transplanting of late rice still going on; sugarcane promising well; prices of food-grains stationary; public health good.
Bhagálpur ...	0·67	Prospects of crops favourable; sowings still going on in places; lands being prepared for the transplantation of rice; in some places transplanting has been commenced.
Purneah ...	0·29	Prospects of crops fair; weather suits weeding; health fair.
Patna ...	0·27	Prospects of crops good; autumn sowings going on; a few cases of cholera still reported from Barrh and Behar subdivisions.
Durbhunga ...	0·10	Strong east wind; transplanting of paddy commenced; more rain wanted; cholera abating.
Hazáribágh ...	2·22	Weather cloudy and rainy; autumn crops promising; a few cases of cholera and small-pox reported; general health good.
Cuttack ...	4·69	Autumn and winter rice crops being weeded; cholera still reported. *General Remarks.*—Rain fell in all districts during the week; prospects generally favourable, but more rain is wanted in some places for cultivation of winter rice, especially on high lands; transplanting of winter rice on low lands proceeding; sugarcane, early rice, and jute promising; in Behar sowing of autumn crops still going on; cholera has almost disappeared from many places, but is still prevalent in Birbhoom, Chittagong, and Sonthal Pergunnahs; fever is said to be increasing in parts of Nuddea, but is abating in Darjeeling Terai.
N. W. Provinces and Oudh—		
Benares (July 11th)	Benares, 1·0; Chandauli, 1·5; Gungapur, 2·1.	*Kharif* sowing is being carried on; not sufficient rain to plant rice; health of cattle good; health of men generally good; isolated cases of cholera reported from both tahsils; markets well supplied; prices steady.
Cawnpore („ „)	Average over 2·4	Crops thriving; weather cloudy; prices unchanged; with the exception of a few cases of cholera, general health good.
Allahabad („ 12th)	Ample rain, average 4·7.	Rising crops much benefited by rain; prospects very good; sickness much diminished; prices stationary.
Gorakhpur („ 11th)	Sadr, 1·7; Padrauna, 5·0	Great heat; sowing favourable; prices stationary.
Jhánsi („ 10th)	Garotha, 5·1; Mau, 1·1; average district, 3·5.	Weather cloudy and close; sowing and ploughing in progress; crops germinating well; prices stationary; health good.
Agra („ 11th)	In all parganas from 2·5 to 9·4.	Slight fever in one pargana only; general health good; prices stationary.
Farukhabad („ „)	1·8 to 4·3 in all tahsils.	Health of man and cattle good; sowings have come up well; prospects good.
Bareilly („ „)	16·0, of which 10·0 fell on night of 6th.	Heavy floods, but damage not excessive; rice prospects now good; health good.
Meerut („ „)	General rain throughout the district.	Rain sufficient for ploughing and sowing, which are in progress everywhere; health of man and cattle good; crops thriving; supplies sufficient; prices of wheat risen in Meerut and Ghaziabad, other prices stationary.
Kumaun („ „)	Continuous rain during the week.	*Kharif* promising; a few cases of small-pox; cattle-disease decreasing; prices stationary.
Lucknow („ „)	Lucknow, 2·0; Mohanlalganj, 1·6; Malihabad, 0·9.	*Kharif* crops being sown; prices stationary; cholera in city decreasing.
Rae Bareli („ 10th)	Sadr, 4·8; Dalamau, 0·5; Salon, 0·5; Digbijaiganj, 1·2.	*Kharif* sowings continue; health of people and cattle good; cholera decreasing; prices almost stationary.
Partabgarh („ 11th)	General rain throughout the district.	Crops coming on nicely; prospects good; general health good; cholera has decreased considerably.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. Provinces and Oudh—*contd.*		
Sitapur (July 11th)	Sitapur, 2·1; Sidauli, 2·9; Biswar, 0·6; Misrik, 0·3.	Wind easterly; prices slightly rising.
Fyzabad (" ")	1·9.	Sowing of *kharif* crops nearly finished; cholera at Fyzabad and Ganda only.
		General Remarks.—Rainfall general throughout the Provinces, heaviest in Rohilkhand, but lighter in eastern half; floods in Bareilly; prospects generally good; prices steady; general health fairly good; cholera decreasing; cattle-disease decreasing in Kumaun.
Punjab—(July 11th)		
Delhi ...	8·0	Health good; slight rise in price of barley.
Hissar ...	Rainfall good	Health good; prices falling; prospects bright.
Umballa ...	3·0	Health good; prices stationary.
Jullundur ...	1·70	Health good; prices rising.
Amritsar ...	3·60	Health fair; prices stationary.
Sialkot ...	2·0	Health good; prices steady.
Lahore ...	.....	No report received.
Ferozepore ...	2·20	*Kharif* ploughing and sowing commenced; slight rise in price of gram.
Mooltan ...	Drizzling rain at Sidar	Health and crops good; prices stationary.
Rawalpindi ...	·80	*Kharif* crops in progress; fever in Rawalpindi and measles in Pindigheb; slight fall in price of gram and barley, increase in price of Indian-corn.
Dera Ismail Khan ...	Nearly ·60	Health and prospects good; prices fluctuating.
Peshawar ...	.....	Health fair; *kharif* sowings commenced; prices stationary.
		General Remarks.—Rain has been general, except in Peshawar; health is good, but fever continues in Rawalpindi, and measles have not yet left Pindigheb; there is no marked increase or decrease in price of food-grains.
Central Provinces—		
Nagpur ...	11·43; rainy and damp	Prospects good.
Jubbulpore (July 11th)	9·15	Weather cloudy and rainy; sowing operations progressing favourably; cholera and small-pox prevailing.
Saugor (" 10th)	2·25	Season favourable to all sowings; prices steady; general health good.
Seoni (" 11th)	5·85; heavy rains	Rice transplanting progressing; cholera abating; mortality among cattle still continues; wheat 18 and rice 15 seers per rupee.
Khandwa ...	2·36; rainy	*Kharif* sowings progressing; small-pox prevalent; wheat 14 seers per rupee.
Hoshangabad (July 11th)	Heavy rain on 10th and 11th.	Weather cloudy; small-pox prevalent; wheat 15 seers per rupee.
Raipur (" 8th)	3·17; light showers till Thursday night, when there was heavy rain.	*Kharif* sowings almost completed; rice 34 seers per rupee.
Sambalpur ...	.....	No report received.
		General Remarks.—Weather cloudy and damp; rain has fallen in all districts, especially heavy at Nagpur and Jubbulpore; *kharif* sowings continue, and are completed in some parts; cholera and small-pox still reported; prices generally steady.
British Burma—(July 8th)		
Akyab ...	10·97	Total rainfall up to date 84·80 inches; 2 deaths from small-pox in town, 3 from cholera in district, otherwise public health good; cattle-disease severe in two townships; ploughing progressing.
Rangoon ...	4·11	Total rainfall 28·29 inches; public health good.
Bassein ...	2·24	Total rainfall 47·08 inches; cholera in district, otherwise public health good; cattle-disease in district.
Prome ...	3·65	Total rainfall 15·48 inches; 4 deaths from cholera in town and some cases in the district; slight cattle-disease in one township.
Amherst (Moulmein) ...	4·14	Total rainfall 76·92 inches; public health good both in Moulmein and district; cattle-disease prevalent in three townships; sowing half finished, delayed through late short fall of rain.
Toungoo ...	2·50	Total rainfall 29·92 inches; 1 death and 2 cases of small-pox in town, otherwise public health good.
		General Remarks.—Some cholera in Prome, Henzada, and Bassein, and a few cases elsewhere, otherwise public health satisfactory; cattle-disease in Arakan and Pegu divisions, and in Bassein, Amherst, and Shwaygyeen districts; rainfall short in some places; sowings going on.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Assam—(July 12th)		
Gauhati ...	1·61	Days hot, more rain wanted; lands prepared for *sali* crops; public health good.
Sylhet ...	4·84	Prospects of crops favourable; splendid weather for tea; a few cases of cattle-disease, cholera, and small-pox reported.
Cachar ...	3·08	Weather very warm and sultry; sowing of *dumahi* and *murali* crops finished; ploughing for *sali* crops continues; common rice 21 5/16 seers per rupee; tea doing well; no more cholera cases reported.
Dibrugarh ...	5·97	Weather hot; ploughing for *sali dhan* in progress; few cases of cholera reported from Harmoti tea garden; cattle-disease still reported.
Mysore and Coorg—		
Bangalore ...	·85	Standing crops in good condition; prospects favourable.
Mysore ...	3·0	Crops in good condition.
Mercara ...	39·50	Excessive rain during week, as much as 12·50 gauged on the 7th and 10·33 the day before; heavy landslips on ghât roads, cart traffic with Mangalore suspended; water in Cauvery river at Fraserpett rose to 30 feet, and passed through the spandrils of bridge, telegraph line washed away; paddy where not flooded doing well; *ragi* crops being weeded; prices stationary; public health good.
		General Remarks.—Rain has fallen generally throughout the Mysore State; heavy floods in the Cauvery, Hemavaji, and Zegachi rivers; the Tongabadra in the Shimoga district has overflowed its banks in many places; standing crops everywhere in good condition; agricultural operations in active progress; *ragi*, *Kartik* paddy, *balur*, &c., being sown; prospects favourable; prices—*ragi* 25½ seers per rupee in Bangalore, 20 seers in Mysore, 23 to 36 in Shimoga, 32 to 44 in Chitaldrug; public health good.
Berar & Hyderabad—(July 12th)		
Amráoti ...	3·28	Sowing of all *kharif* crops, except *juari*, completed; wheat 18 and *juari* 36 seers per rupee.
Akola ...	3·27	*Juari* sowings continue; *kharif* prospects good.
Hyderabad ...	1·50	*Kharif* sowings progressing; tanks have received small quantity of water; fever and cattle-disease prevail in some places; prices—wheat 15, common rice 10, white *juari* 23¾, yellow *juari* 27, and *tur* 25 seers per current sicca rupee.
Central India States—(July 12th)		
Indore ...	2·39; rain constant, though light.	Prospects good.
Morar (Gwalior) ...	4·07	Health and prospects good; prices stationary.
Sutna ...	1·94	Weather cool; health good.
Rutlam ...	.....	No report received.
Neemuch ...	1·43	Health good; *kharif* being sown.
Goona ...	3·26	Prospects good.
Bhopal ...	.....	No report received.
Agar ...	2·57	Health and prospects good.
Nowgong ...	2·21	Sowings almost completed; health good.
Manpur ...	6·0	
Rajputana—		
Abu (July 12th)	10·94; overcast, with rain.	
Sirohi (July 9th)	2·0	Tanks, wells, and health good.
Marwar („ 7th)	0·49	Plenty water in tanks and wells; health good; ploughing partial; weather monsoonish, but no general copious fall yet; prospects of rain imminent; prices stationary, with tendency to fall.
Meywar ...	.....	No report received.
Harowti (July 8th)	Deoli, 2·12; Tonk, 1·54; Shahpura, 0·82.	Cholera at Shahpura, but abating at Tonk.
Jhallawar („ 5th)	2·20	*Kharif* sowings progressing; health good.
Ajmere („ 7th)	4·86	Ploughing and sowing proceeding satisfactorily; health fairly good.
Jeypore („ 11th)	0·9	Prices slightly fallen; health good.
Bhurtpore ...	.....	No report received.
Ulwur (July 12th)	0·39	Wells filling; *kharif* sowings continue; health good.
Nepal—(July 6th)		
Katmandu ...	2·76	Total rainfall from January 1st to June 30th, 17·99; transplanting of rice is being rapidly carried on; weather seasonable.

E. C. BUCK,
Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House, Simla, on Wednesday, the 12th July, 1882.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.

His Honour the Lieutenant-Governor of the Panjáb, K.C.S.I., C.I.E.

His Excellency the Commander-in-Chief, G.C.B., C.I.E.

The Hon'ble J. Gibbs, C.S.I., C.I.E.

Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.

Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.

The Hon'ble C. P. Ilbert, C.I.E.

The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.

The Hon'ble C. H. T. Crosthwaite.

The Hon'ble W. W. Hunter, LL.D., C.I.E.

BIKRÁMA SINGH'S ESTATES BILL.

The Hon'ble MR. ILBERT moved for leave to introduce a Bill to confirm and give effect to an award made by His Excellency the Viceroy and Governor General regarding certain matters in dispute between Sardár Bikráma Singh and the Kapúrthhala State. He said:—"This is a measure which in England would be classed as a private Bill. Its object is simply to confirm and give effect to an award made for the purpose of settling certain family disputes that arose in this way. An estate in Oudh was conferred by Government on Sardár Bikráma Singh in recognition of his services during the mutiny. The Sardár allowed the settlement of this estate to be made in the name of his brother, the then Rájá of Kapúrthhala. He was afterwards dispossessed by the Rájá, and the Civil Courts held that he could not recover possession. Subsequently, Rájá Kurruck Singh of Kapúrthhala consented to reopen the case, and by agreement the question was referred to Sir Henry Davies, the Chief Commissioner of Oudh, for his decision as arbitrator. He delivered an award on the 6th of January, 1871. This award provided that the Rájá should pay five lákhs of rupees to certain persons on trust to purchase land within the province of Oudh and deliver it to the Sardár. It then went on to settle the land in a certain manner, giving a reversion, or remainder, in certain events, to the Rájá of Kapúrthhala; but serious difficulties having arisen as to its meaning and effect in this respect, the Kapúrthhala State and the Sardár consented that the matter should be considered and decided by His Excellency the Viceroy. His Excellency accordingly considered the case, and, on the 3rd of March, 1881, gave an award finally determining the rights of the Sardár, his heirs and the Rájá in the land purchased, or to be purchased, by the trustees appointed under Sir Henry Davies' award. It was anticipated by His Excellency at the time he made this award that legislation would be needed to give effect to it; and this has turned out to be the case. The present Bill has accordingly been prepared to confirm the award, and make such supplementary provisions in matters of detail as may appear necessary in order to give due effect to it."

The Motion was put and agreed to.

BRITISH BURMA STEAM-BOILERS BILL.

The Hon'ble MR. ILBERT also presented the Report of the Select Committee on the Bill to provide for the inspection of Steam-boilers and Prime-movers attached thereto in British Burma.

The Council adjourned to Wednesday, the 2nd August, 1882.

D. FITZPATRICK,

Secretary to the Government of India,

PART I.

Government of India Notifications, Appointments, Promotions, &c.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

Simla, the 21st July, 1882.

No. 8.—Whereas by Resolutions passed by the Secretary of State for India in Council on the 19th day of September, 1872, and 4th day of June, 1874, respectively, the provisions of the thirty-third of Victoria, Chapter 3, Section 1, were declared applicable to the territories now under the administration of the Chief Commissioner of Assam;

And whereas the Chief Commissioner of Assam has proposed to the Governor General in Council a draft of the following Regulation, together with the reasons for proposing the same, and whereas the Governor General in Council has taken such draft and reasons into consideration and has approved of such draft, and the same has received the Governor General's assent;

In pursuance of the direction contained in the said section, the said Regulation is now published in the *Gazette of India*:—

REGULATION No. 1 of 1882.

The Gáro Hills Regulation, 1882.

Preamble.

WHEREAS Regulation I of 1876 (the Gáro Hills Regulation, 1876), the operation of which was extended for one year by the Chief Commissioner's Notification issued with the previous sanction of the Governor General in Council on the 18th March, 1881, ceased to be in force on the 31st day of March, 1882;

and whereas it is desirable to re-enact certain provisions of the said Regulation; It is hereby enacted as follows:—

Short title.

1. This Regulation may be called "The Gáro Hills Regulation, 1882."

Local extent. Commencement.

It extends only to the Gáro Hills District, and shall come into operation on being published in the *Assam Gazette*.

Power to the Chief Commissioner—

2. The Chief Commissioner may, from time to time, subject to the control of the Governor General in Council, by notification in the *Assam Gazette*,—

to prohibit certain acts;

(*a*) prohibit all or any persons, not being Natives of the Gáro Hills District, from doing any of the following acts within the limits of the said district without a license, that is to say,—

cutting wood,

hunting animals,

collecting wax, ivory, india-rubber or other jungle products, and

to regulate the granting of licenses to do such acts.

(*b*) prescribe the conditions and restrictions subject to which, and the amount of the fees on payment of which, and the persons by whom, licenses to do any of the said acts may be granted.

3. Any person who does any act in contravention of a notification issued under section two of this Regulation,

Penalties for offences against section 2.

and any holder of a license under the said section who does any act in contravention of a restriction or condition imposed by such license,

shall be punished for a first offence with a fine not exceeding one hundred rupees, and for each subsequent offence with imprisonment of either description for a term which may extend to three months, or with a fine not exceeding five hundred rupees, or with both;

and the Magistrate by whom he is convicted may further order that all animals or carcasses of animals, and all wood, wax, ivory, india-rubber or other jungle product found in his possession, and all animals, ropes, nets, guns, ammunition and other things used by him in the commission of such offence, shall be confiscated.

4. It shall not be lawful for any British subject, or other person not being a Native of the Gáro Hills district, to acquire any interest in land or the product of land within the limits of the said district without the sanction of the Chief Commissioner, or of such officer as the Chief Commissioner may appoint in this behalf.

Acquisition of interests in land prohibited.

Any interest so acquired may be dealt with as the Chief Commissioner or the said officer may direct.

The Chief Commissioner may, from time to time, by notification in the *Assam Gazette*, extend the prohibition contained in this section to any class of persons, Natives of the said district, and may, from time to time, in like manner cancel or vary such extension.

5. The provisions of sections 64 to 70, both inclusive, of the Indian Penal Code shall apply to all fines imposed under the authority of this Regulation.

Realization of fines and imprisonment in default of payment.

6. The jurisdiction in respect of offences against this Regulation shall be exercised by such officers, and subject to such conditions, as the Chief Commissioner may, from time to time, by notification in the *Assam Gazette*, direct.

Jurisdiction.

POLITICAL.

The 21st July 1882.

No. 173 *G.*—With reference to Notifications Nos. 120, 123 and 126 G.P., dated the 21st April 1882, the recognition by the Government of India of the appointment of Mr. R. Mühry as Acting Consul for the Austro-Hungarian Empire, the German Empire, and the Kingdom of Denmark at Akyab, during the absence of Mr. Paul Koop, has been confirmed by Her Majesty's Government.

No. 170 *E.*—In supersession of the Notification by the Government of India in the Foreign Department, No. 3386 P., dated the 24th December 1875, the Governor General in Council is pleased to declare the boundaries of the "Naga Hills District" to be as follows :—

North.—From the sources of the Dikhru river in the Rengma Nága Hills, a line along the summit of the hills from which the Lungkungting, Borpung, and Tarapung streams take their rise, to the sources of the Dáhori Ján; thence down the Dáhori Ján until it meets the Kaliáni river; up the latter river to its junction with a small stream that flows into it from the west about half a mile above the Aitonia village of Kaliáni; thence in a straight line due east for about two miles until it cuts the Doigurung river; thence up to the latter river until it meets the path leading from Marphuláni to the Námbor; thence along that path for about a quarter of a mile until it meets the Tára Ján; thence along the latter stream to its junction with the Dhansiri river; thence up the Dhansiri river to its junction with the Doyong; thence up the course of the Doyong to the place where the Sibságar Inner Line cuts that river; thence along the Sibságar Inner Line.

East.—Starting from a point on the Sibságar Inner Line due north of the sources of the Rongdu river in the first range of hills, the line is drawn to those sources; thence along that stream to its junction with the Disoi river; thence over a range of hills in a south-easterly direction to the valley of the Seopáni or Chung river; thence in the same direction over another range of hills to the sources of a stream falling into the Chebi river due east of the village of Mekula; down that stream to its junction with the Chebi river; thence down that river to its junction with the Doyong; thence up the Doyong to the junction of the rivers Zullo and Sijjo; thence up a spur running southwards through the Chesama khel of Rangazuma to the ridge on which the village of Chajubáma stands; thence across the latter ridge (leaving Chajubáma on the east) and down into the valley of the Thezir river; thence up the spur below the hill Nammuh; thence along the ridge southwards to the Kopamedza peak.

South.—From the Kopamedza peak along the watershed to the Tellizo peak; thence down a small stream called the Sokharri to the junction of that stream with the Sijjo river; thence down that river to its junction with a small stream called the Merori; thence up a ridge between the two feeders of this stream to the crest of the ridge dividing the Zullo from the Sijjo between the villages of Kidima and Phusami; thence along this ridge from boundary pillar to pillar to the Nápu Hill; thence down a small streamlet to a spot about a quarter of a mile below where the main feeder of the Zullo river is joined by this stream; thence up this feeder to its source in the Khurrho peak; thence along the summit of the Barail range to Tenepu peak; thence along the Zupvo river from its source to its junction with the Quetzo or Barak river; thence down the latter river to its junction with the Chulini river; thence up the latter river till it meets a spur from the hill on which the Nága village of Ungulna or Gulna stands; thence up that spur to the summit of the range from which the Jhinam, Jhiri, and Makho rivers take their rise; then along that range to the sources of the Langting river in the peak about three miles east of Semkhor.

West.—From the peak three miles east of Semkhor down the Langting river to where it is joined by the Longreng river; thence up that river to its source; thence over the crest of the range to the sources of the Lumding river; thence down this river to its junction with the Longphir river; thence by the combined streams till they fall into the Diyung; thence down the latter river till it is joined by the Lamasakhong stream; thence up the latter stream to its point of exit from the hills; thence along the foot of the hills in a succession of straight lines from headland to headland, that is to say, from the foot of one spur to that of the next in a straight line, not following all the sinuosities into the hills, crossing the Lonka Ján and the Dikhreng Khrong streams at their respective points of exit from the hills, as far as the exit from the hills of the Dimuru Ján; thence down the latter stream as far as the village of Kaki Ramsa, whence the line turns off to the north, following the path between Kaki Ramsa and the village of Sarkher to the latter village on the left bank of the Jamuna river; thence up the Jamuna river to its junction with the Samaguri Ján; thence up the latter stream for about two miles to its point of exit from the Rengma Hills; thence along the foot of the hills from headland to headland, crossing the Zikok, Dighulpani, Salador, Longsompi, and Horghati streams at their respective points of exit from the hills, until the line meets the Dikhru river, which latter thence forms the boundary up to its source in the Rengma Hills.

C. GRANT,
Secy. to the Govt. of India.

PROCLAMATION.

POLITICAL.

Simla, the 18th July 1882.

No. 169 *I.*—In exercise of the powers vested in him by Statute 28 and 29 Victoria, Chapter 17, Section 4, the Governor General in Council is pleased to declare that the lands occupied by the Indus Valley State Railway, and the works, premises, and stations thereof, within the limits of the Bahawalpur State, which have been ceded to the British Government in full sovereignty by that State since the issue of the Proclamation by the Government of India, No. 1325 I.P., dated Simla, the 14th July 1879, shall be subject to the Lieutenant-Governorship of the Punjab.

C. GRANT,
Secy. to the Govt. of India.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATIONS.

Simla, the 15th July 1882.

No. 2467.—Mr. D. M. Barbour, B.C.S., is appointed to officiate, until further orders, as Secretary to the Government of India in the Department of Finance and Commerce.

Mr. T. C. Hope, B.C.S., C.S.I., and Mr. D. M. Barbour, B.C.S., respectively made over and received charge of the appointment of Secretary to the Government of India in the Department of Finance and Commerce after noon on the 15th July 1882.

STEPHEN JACOB,
Offg. Under-Secy. to the Govt. of India.

The 17th July 1882.

No. 2469.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read—

Resolution in this Department, No. 1438, dated 8th March 1882.

RESOLUTION.—A considerable supply of stock notes having now been received from England at Calcutta, Madras, and Bombay, and the necessary printing into them of the names of the several circles as well as of the year-figures being considerably advanced, His Excellency the Governor General in Council considers that the sale should commence in all Provinces (except British Burma and Berar) with as little further delay as possible.

2. In the Punjab two syndicates have been formed,—one for Lahore and the other for the rest of the Province,—and a sufficient supply of notes has partly been already delivered to the Accountant General, and will be completed in the course of a few days. The transfer to the syndicates of such quantities as they require may therefore commence at once.

3. In the North-Western Provinces syndicates have been constituted for the Benares and Allahabad Divisions on the one hand and the Agra and Meerut Divisions on the other, and supplies of the notes are nearly complete, so that sales will commence in a few days, as in the Punjab. With the view to one or more syndicates for the rest of the Province, certain parties have placed themselves in communication with the Accountant General, who should report the final result to this Department as soon as possible. But he should at once proceed, irrespective of any such negotiations, to complete his supplies from the Comptroller General and to issue to the several Treasuries and Sub-Treasuries in the remaining portion of the Province, with a view to the early commencement of sales by Government officers as contemplated in clause (8) of paragraph 4 of the Resolution quoted above.

4. The Comptroller General should similarly supply, in communication with the Accountant General and Comptroller respectively, all Treasuries and Sub-Treasuries in Bengal and Assam, and the Accountant Generals at Bombay

and Madras and the Comptroller at Nagpore those within their respective limits, the last-named officer indenting on Bombay for whatever notes he may require.

5. It is considered indispensable that sales should commence on the same date at all the Treasuries and Sub-Treasuries in the same Province, in order to prevent inconvenience to the public and derangement of the supply of the several localities according to their probable normal demand. The several officers who have in the preceding paragraphs been directed to supply their Treasuries and Sub-Treasuries should therefore commence their issues with the most distant localities, estimate as nearly as possible the date by which all will have been supplied, and then publish as widely as possible, with the aid of the local executive authorities, a notice in the vernacular in the following terms :—

"Notice is hereby given that the sale of Stock Notes to the public will commence on the instant at the Government Treasuries and Sub-Treasuries specified below. The Notes are issued under the conditions specified in the Resolution of the Government of India in the Department of Finance and Commerce, No. 1438 of 8th March 1882. Interest will be payable annually, on production of the Note with coupons attached, at any of the said Treasuries or Sub-Treasuries, and Notes of lower will be exchanged for Notes of higher denomination, or new Notes will be issued, under due precautions, in the place of Notes lost or destroyed, on application at the same."

[*Here should follow the list of Treasuries and Sub-Treasuries.*]

6. By the preceding paragraph the officers concerned have been severally authorised, in supersession of all previous instructions, to fix and notify, without further reference to this Department, the date of simultaneous commencement of sales within their respective limits; but His Excellency the Governor General in Council relies on them for making every effort to ensure that date being the earliest possible. The date so fixed should be telegraphed to this Department for information.

ORDERED, that this Resolution be communicated to the Comptroller General and the several Accountants General for information and guidance, and to the Local Governments and Administrations and the Press Commissioner for information; and also that it be published in the *Gazette of India.*

The 21st July 1882.

No. 2479.—Mr. E. S. Byrne assumed charge of the appointment of Deputy Accountant General, North-Western Provinces and Oudh, before noon on the 6th July 1882.

No. 2534.—The following Addendum to the Codes of the Financial Department is published for general information :—

CIVIL LEAVE CODE.

SENATE HOUSE,

The 7th July 1882

NEEMUCH CEMETERY.

Repairs of Monuments.

Notice is hereby given that those monuments in the Government Cemetery at Neemuch, Central India, of which a list is published herewith, are in need of repairs. Those of Sergeant Henry Seal and Trumpeter J. Britton are in a ruinous condition, and will be made level with the ground unless, within three months from the publication of this Notice, some person will undertake the cost of their repairs.

DESCRIPTION.	Corps.	Date.

G. H. LEWIS,
Chaplain of Neemuch.

NEEMUCH,
The 30th June 1882.

COMMISSARIAT NOTICE.

The following five Government elephants are now for sale at Agra and Bareilly.

2. Offers are invited, both for purchase of these animals, and also for exchange of good female elephants suitable for Government purposes in place of these, and any reasonable offers will be accepted by the Commissary General.

3. Applications to inspect the elephants and offers for purchase or exchange may be made to the Assistant Commissaries General, Agra and Bareilly, respectively :—

Description of Elephants.

Where for sale.	Register No.	Name.	Sex.	Height.	Probable age	Tusks.	Eyes.	Number of Nails.	Tail.	Back.	Temper	Condition.	REMARKS.
				ft. in.									
At Agra.	698	Saika ...	Male	8 4½	45	Perfect ...	Blind off-side.	18	No hair ...	Hollow in centre from wound in youth.	Good	Good	Fit for sowari purposes; never been musth; head and tusks fine; carriage good.
At Agra.	1847	Louis Napoleon.	Do. ...	9 7	39	One on off-side.	Perfect ...	18	Short of hair.	Good ...	Vicious.	Do. ...	A fine elephant, unsafe for Government purposes, but Rajahs, &c., might buy him for fighting purposes.
At Agra.	1670	Watson ...	Do. ...	8 9	37	One on off-side split slightly.	Do. ...	18	Do. ...	Do. ...	Uncertain.	Do. ...	A very fine, animal, fit for anything, but troublesome at times.
At Agra.	459	Nazirguj ...	Do. ...	8 11	47	Two, off one broken.	Do. ...	18	No hair ...	Do. ...	Do. ..	Do. ...	Unsafe for Government work; a very fine elephant indeed, suitable for fighting purposes.
At Bareilly.	1788	Hastings ...	Do. ...	9 4	50	One broken.	Good ...	18	Good ...	Centre ridge of bone rather high.	Good	Low ..	Fit for howdah and shooting purposes.

Applications with copies of testimonials to be addressed to G. J. Nicholls, Esq., Deputy Commissioner, Narsingpur.

L. A. MAHOMED,
Extra Assistant Commissioner,
for *Deputy Commissioner.*

NOTICE.

Waste Lands available for Planters in the Tavoy District.

Waste lands, covered at present with forest, bamboos or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,800 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 190 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application to the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices in Tavoy, namely,—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.

(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the tenth year after he enters on possession, provided that he takes *bonâ fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated in each year.

(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-third of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.

(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bonâ fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met as far as possible in regard to the situation and shape of their grants. But ordinarily—

(*a*) no grant will be given where the Forest Department intend to make a forest reserve;

(*b*) no grant will be given on such a place as will unduly circumscribe the extension of cultivation of the grazing grounds of any neighbouring village or hamlet;

(*c*) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;

(*d*) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI.—The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.

VII.—In order to encourage pioneers in the coffee and cinchona enterprise in Tavoy, the Government will pay to the first four grantees who begin *bonâ fide* planting operations Rs. 15 per head for every Indian or Chinese coolie, male or female, over 16 years of age, who may be settled and housed on their plantations before the 1st March 1885.

VIII.—In any case of doubt regarding the *bonâ fide* character of operations for the purposes of concessions III and VII, the Deputy Commissioner will decide, and his decision will be subject to appeal to the Commissioner of Tenasserim, whose decision will be final.

IX.—All minerals and metals under and within the lands granted under these rules are reserved by Government, together with a right to enter upon and resume such portion of land as may be necessary for examining or working mines upon payment of just compensation to the grantee for loss of, or injury done to, the surface.

G. D. BURGESS,

Secy. to the Chief Commr., British Burma.

The 6th April 1882.

Meteorological Publications for Sale.

HENRY F. BLANFORD,

Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
" MADRAS SERIES ...	" 8	" 9
" BOMBAY SERIES ...	" 8	" 9
" ALLAHABAD SERIES	" 8	" 9
Complete set... ...	" 45	" 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following:—

For a Part of the CALCUTTA SERIES ...	Rs.	3	8
" " MADRAS SERIES ...	"	1	0
" " BOMBAY SERIES ...	"	1	0
" " ALLAHABAD SERIES.	"	1	0
Complete set	"	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs Thacker, Spink & Co., Calcutta, at Rs. 375 a set.

Charts, &c., issued at the Marine Survey Department, Calcutta, by order of the Government of India, and sold at the Office of the Marine Survey Department, 4-4 Loudon's Buildings, Hastings Street, Calcutta, where Admiralty Charts can also be obtained.

☞ **All Charts are corrected up to the date of issue.**

Indian Ocean—

CIVIL WORKS.

Irrigation.

REVIEW OF THE ADMINISTRATION REPORT OF IRRIGATION WORKS IN MADRAS FOR 1880 81.

No. 228-35 I., dated Simla, the 1st July 1882.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Administration Report of Irrigation Works in Madras for 1880-81.

OBSERVATIONS.—It is stated in the report that, owing to the want of agreement between the financial and revenue years, the figures representing income and areas irrigated during 1880-81 can only be given approximately in some cases, while in others even approximate information on these points is not available. Final figures are therefore given by districts in a tabular statement for 1879-80 only, and in the body of the report the expenditure is given for 1880-81, while the income and irrigated areas are given for 1878-79 and 1879-80. Under these circumstances the report cannot be considered a review of the operations of the Irrigation Department during 1880-81, and must rather be regarded as a general statement of the latest financial particulars of the works available at the time the report was written.

In acknowledging the Administration Report of 1878-79, it was pointed out by the Government of India that no useful comparison of results is possible when the charges are shown for one year and the revenue for another; and the Government of Madras was requested to ensure the exhibition in future of outlay and income for the same year, as is done in the Revenue Reports submitted by all other Local Governments. Even admitting the want of agreement between the revenue and financial years, the Government of India is unable to understand why the outlay of the financial year should not be compared with the income of the revenue year corresponding most nearly with it, instead of the income of a previous financial year with which the outlay has no connection whatever; and it is hoped that this may be done in future.

The Supreme Government is unaware of any valid reasons against the completion of the revenue returns required for the purposes of this report within four months of the close of the revenue year, so that the review of outlay during any financial year, and of the income during the nearest corresponding revenue year, ought to be with the Government of India within eight months of the close of the former. The present report was received twelve months after the close of the year to which it nominally refers, and two years after the expiry of that for which final figures are given.

2. The Productive Public Works of irrigation and navigation in the Madras Presidency contain the following systems:—

(1) Godavari Delta system.
(2) Kistna Delta system.
(3) Pennar anicut Delta system.
(4) Kavari Delta system.
(5) Srivaikuntham anicut.

Capital and Revenue Accounts are also kept for the three following systems of irrigation, although they are not classed as Productive Public Works:—

(1) Chambrambakam tank.
(2) Palar anicut system.
(3) Palandori anicut system.

All irrigation works which are under the charge of the Irrigation Department and yield direct revenue, except those last enumerated, are classed as irrigation and navigation works, for which neither Capital nor Revenue Accounts are kept. Up to the end of 1880-81, 61 works had been placed in this class. The remaining works of irrigation are divided into two classes—"Imperial" and "Minor,"—the former class being maintained by the Public Works Department, and the latter by the villagers under the control of the Revenue Department.

3. The latter class may be taken generally as including all tanks irrigating less than 200 acres, excepting such as, from their circumstances or position, may affect the safety of towns or important public works, and require therefore to be retained under professional care and supervision. Where it may be found necessary to maintain any minor tank in better order than has hitherto been the custom, it is proposed either to make a suitable grant-in-aid, or to allow a moderate remission of assessment as compensation for extra work done.

Intelligent upper subordinates, or men of that class, are to be appointed as Tank Inspectors, in order to give the Collectors the assistance necessary for the proper supervision of these works.

4. The direct capital expenditure incurred upon Productive and other works of irrigation and navigation up to the close of 1879-80 amounted to Rs. 1,99,35,764 as detailed in margin.

	Rs.
Productive Public Works . .	1,76,39,862
Irrigation and navigation works for which Capital and Revenue Accounts are kept . . .	22,95,902
TOTAL .	1,99,35,764

The indirect capital outlay to the end of the same year is not known.

The maintenance charges of 1879-80 amounted to Rs. 9,47,893, exclusive of charges in the Civil Department for collection of land revenue due to irrigation works, which are not known, and the gross revenue to Rs. 2,13,28,862 assessed on an irrigated area of 5,489,297 acres.

5. During 1880-81 the rainfall of the south-west monsoon was generally much below, and in some cases remarkably less than, that of the preceding year; indeed, in some districts the normal relation between the south-west and north-east monsoons was completely reversed. The area irrigated in the Godavari and Kistna Deltas fell somewhat below the high figures which had been reached in previous years, owing partly to a fall in the price of rice, and partly to plentiful and seasonable rain, which enabled the cultivators in many cases to dispense with artificial irrigation. In the southern districts a cyclone, which occurred on the 21st of November 1880, caused very heavy floods and a great amount of injury to works.

The area irrigated during 1880-81 by the eight systems specified in paragraph 2 is stated in the report to have amounted to 1,783,345 acres; but the

details are not given. The revenue assessed on this irrigated area is stated at Rs. 78,94,094, giving an average rate of Rs. 4·46 per acre.

6. The Delta of the Godavari is irrigated by a system of navigable canals, aggregating at present 458 miles in length. When completed the total length of canal channel will be about 503 miles. The canals are supplied by a weir, constructed across the river at a point 33 miles from the sea, the length of the weir crest being 3,938 yards, and its height 38 feet above mean sea level. The total estimated capital cost of the system is about 111 lakhs of rupees for direct charges only, the direct capital outlay to end of 1880-81 having been Rs. 89,20,776. The estimated area of ultimate irrigation is about 607,000 acres, and the area actually irrigated during 1880-81 was 526,585 acres.

The average revenue dependent upon the weir is stated as being somewhat in excess of 25 lakhs of rupees; and the maintenance charges of 1880-81 amounted to Rs. 4,45,447, including indirect charges for collection in Civil Department. The maintenance charges of 1879-80 amounted to Rs. 5,32,501.

The above figures do not, however, agree with those submitted in the report which accompanied the final revised estimate of the Godavari canals. There the position of the works at the end of 1880-81 is stated as follows :—

	Rs.
Direct receipts	16,96,919
Indirect receipts	1,63,393
TOTAL	18,60,312
Direct maintenance charges	4,24,878
NET EARNINGS	14,35,434

	Rs.
* Direct charges	88,90,371
Indirect "	17,57,342
TOTAL	1,06,47,713

Accepting these figures as correct, the net revenue yielded a return of 13·3 per cent. on the capital outlay to the end of the year, which is given in the same report as amounting to Rs. 1,06,47,713.*

The license fees for boats are—

	Rs.
For cargo boats, per ton	2
1st class passenger boats, per ton	4
2nd class passenger boats, per ton	2

The above fees free the boats on all canals in the Delta during the whole of the calendar year. Unlicensed boats pay 4 annas a ton for a single trip.

The navigation receipts and charges of 1880 are compared below with the average receipts and charges of the four previous years :—

	Receipts.	Charges.	Excess charges.
	Rs.	Rs.	Rs.
Average of years 1876 to 1879, inclusive	50,357	65,972	15,615
1880	51,315	76,301	24,986

The charges were abnormally high during the year, owing to silt clearances and renewals of lock-gates.

Some further particulars connected with the navigation are given below :—

	1879.	1880.
Total number of boats plying	1,254	1,189
Registered tonnage of cargo boats	22,037	18,225
Rafts passed through head locks	4,070	4,340
Mileage of canal open for navigation	458	458
Ton mileage	10,779,647	8,663,277
Estimated value of cargoes	Rs. 3,76,64,673	2,88,84,509

The freshes in the Godavari commenced early in June, and the water rose over the weir crest on the 28th June. The maximum flood of the year rose to a height of 7 feet over the crest of the weir on 19th September 1880, the maximum rise of 1879 having been 12 feet on 27th August, and the highest yet recorded 15·25 feet in 1861.

7. The Kistna Delta system of canals is not in such an advanced state of completion as that of the Godavari, only 277 miles of canal having been finished out of an intended total of 348 miles. The canals are supplied by

a weir thrown across the river Kistna at a point where the channel is confined by low rocky hills on either banks. The length of weir crest is therefore only 1,280 yards, its height above mean tide level being 45 feet, and its distance from the sea along the river 60 miles. The total estimated capital cost of the completed canals is Rs. 139 lakhs for direct charges only, the direct capital outlay to end of 1880-81 having been Rs. 55,59,084, including Rs. 2,98,541 expended on the Commamur canal. The area of irrigation ultimately attainable is estimated at 470,000 acres, the area now irrigated being 274,573 acres. The ultimate revenue is estimated at about 14 lakhs of rupees, the revenue now dependent upon the canals being rather more than 9 lakhs of rupees. The maintenance charges amounted during 1880-81 to Rs. 3,94,573, inclusive of Rs. 61,200 charged for collection in the Civil Department.

The net returns, therefore, yielded about 10 per cent. upon the direct capital outlay to the end of 1880-81.

The license fees for boats differ from those in force on the Godavari only in charging Re. 1 instead of Rs. 2 per ton on cargo boats.

The navigation receipts and charges of 1880 are compared below with the average receipts and charges of four preceding years :—

	Receipts.	Charges.	Excess charges.
	Rs.	Rs.	Rs.
Average of years 1876 to 1879, inclusive	18,266	30,079	11,853
1880	23,834	41,787	17,953

Further particulars of the navigation are given below, as for the Godavari :—

	1879.	1880.
Total number of boats plying	719	834
Registered tonnage of cargo boats	12,842	13,142
Rafts passed through head locks	1,245	1,062
Mileage of canal open for navigation	257	257
Ton mileage	1,854,678	3,230,187
Estimated value of cargoes	Rs. 66,31,909	64,63,571

The supply of water in the river during 1880-81 was rather uncertain, and during September 1880 the raising of the weir crest by a dry stone wall was commenced, but the water rose again shortly afterwards, and a number of small freshes kept up the supply. The highest flood of the year rose to 9·41 feet on the weir crest, the highest recorded having risen to 19·46 feet above weir crest in 1874. There was heavy rain in the Delta during November, which swamped some low-lying lands owing to the insufficient capacity of the drainage channels.

8. The Pennar Delta works were originally designed to supply irrigation to 64,000 acres of land, but the greatest area yet irrigated was 58,159 acres in 1870-71, and the average may be taken as 55,000 acres with a consolidated assessment of about 2 lakhs of rupees, of which nearly one-half is stated to be increase due to the works.

There is apparently no capital account for these works owing to want of completion estimates. During 1878-79 56,446 acres were irrigated, the increase of land revenue due to the works amounted to Rs. 1,43,768, and the charges on Revenue Account to Rs. 47,717. During 1880-81 the charges on Revenue Account amounted to Rs. 31,558; the area of irrigation is not given, but the crops are stated to have suffered from too much rain.

9. The Kavari Delta works have been constructed in order to regulate the distribution of the flood waters of the Kavari river over the districts of Tanjore and Trichinopoly. They consist of a weir and regulating dam, constructed at the head of the island of Seringham, about 10 miles west of Trichinopoly, across the Coleroon and Kavari rivers, the two branches into which the Agunda Kavari is divided by the island; also of certain escapes from the Kavari back to the Coleroon, of which the principal is the "Grand Anicut," or waste weir, at the lower end of the Seringham island, and of regulators across the Vennar and other spill channels, which branch off from the Kavari to the south and south-east.

The direct capital expenditure to the end of 1880-81 amounted to Rs. 10,17,174, and a further estimate, amounting to Rs. 6,88,000 for direct

charges only, has lately been provisionally sanctioned by the Government of India for the completion of the regulating works on the Kavari in the Tanjore district. The latest information regarding these works is given below :—

YEAR.	Acres irrigated.	Land revenue due to works.	Revenue charges.
		Rs.	Rs.
1878-79	805,033	8,47,722	1,00,352
1879-80	814,366	9,04,202	75,391

The average net Revenue of 1878-79 and 1879-80 therefore amounted to very nearly 77½ per cent. upon the direct capital outlay to end of 1880-81.

During the cyclone of November 1880 the rivers rose to a very unusual height, and flooded large areas of the country, injuring especially the crops irrigated from the Vennar and its branches.

10. The Srivaikuntham weir is thrown across the Tambrapurni river in the Tinnevelly district, about 16 miles from the sea. The works dependent on it provide not only for direct irrigation of the adjoining land, but for the supply of existing tanks in which the water is stored for use during the intervals between the freshes.

Estimates for the completion of the project have not yet been received by the Government of India, but the amounts sanctioned up to date aggregate Rs. 11,53,027 for direct expenditure only, and the direct capital outlay to end of 1880-81 amounted to Rs. 12,23,392.

The latest particulars available for these works are as follows :—

YEAR.	Acres irrigated.	Land revenue due to works.	Revenue charges.
		Rs.	Rs.
1878-79	19,324	33,723	68,105
1879-80	19,971	46,676	32,539

The revenue of 1878-79 was, therefore, Rs. 34,382 less than the revenue charges, and the net revenue of 1879-80 yielded a little more than 1 per cent. on the direct capital outlay to end of 1880-81. The completed works were originally expected to irrigate 32,000 acres. During 1880-81 the south-west monsoon failed in the Tinnevelly district, and the supply in the Tambrapurni fell short of the demand for water. For more than six weeks the water level at the weir never rose above one foot on the sill of the head sluices; but in November it rose to 10·42 feet above weir crest—a height only 1·33 feet lower than that of the flood of December 1877, the highest on record.

11. The Chambrambakam tank is a large reservoir, about 14 miles from Madras, which has been formed by enlarging an old Native tank. It covers 5,729 acres, or 8·95 square miles of ground, and contains 2,779 millions of cubic feet of water. The direct capital outlay to the end of 1880-81 amounted to Rs. 6,13,013, and a further expenditure of about Rs. 25,000 will be required to complete the works. The revenue charges of the year were Rs. 8,069, inclusive of Rs. 4,032 charged for collection of revenue in the Civil Department. No recent particulars of the area irrigated by, and increase of land revenue due to the tank, are apparently available; but it is estimated that it irrigates about 15,660 acres, yielding a return of Rs. 67,942.

If the estimate prove to be correct, the net returns will be about 9 per cent. on the total direct capital outlay.

12. The Palar anicut is thrown across the river of that name near the town of Arcot in the North Arcot District. It is 2,600 feet long, and supplies channels, which water about 37,000 to 38,000 acres of land.

The direct capital outlay to end of 1880-81 amounted to Rs. 16,57,191, and a further outlay of Rs. 20,000 to Rs. 25,000 will be required to complete the works. The revenue charges of 1880-81 amounted to Rs. 56,786, including Rs. 16,200 charged for collection of revenue in the Civil Department.

The latest particulars of irrigated area and revenue due to the works are given below:—

Year.	Acres irrigated.	Land revenue due to works.	Revenue charges.
		Rs.	Rs.
1878-79	34,032	1,01,613	8,612
1879-80	37,754	1,02,258	36,476

The average net revenue of 1878-79 and 1879-80, therefore, yielded about 4¾ per cent. on the direct capital outlay to the end of 1880-81; and if Rs 1,02,000 may be assumed as representing with fair accuracy the gross annual revenue due to the works, the net revenue of 1880-81 yielded very nearly 2¾ per cent. on the direct capital outlay to the end of the year.

During 1880-81 the tanks dependent on the Palar anicut received a good supply of water.

13. The Pelandorai anicut is constructed across the Vellar river, and supplies water for the irrigation of about 50 villages in South Arcot.

The direct capital outlay to end of 1880-81 amounted to Rs. 2,90,262, and a further expenditure of about Rs. 32,000 will be required to complete the works. The revenue charges of the year amounted to Rs. 12,464.

The revenue and irrigated areas of 1878-79 and 1879-80 are given below:—

Year.	Acres irrigated.	Increase of land revenue due to works	Revenue charges.
		Rs.	Rs
1878-79	2,430	2,657	32,454
1879-80	3,460	6,245	17,041

This does not seem to be a very prosperous undertaking. The flood in the Vellar of the 22nd November 1880 was the highest on record, and did much damage to the anicut head works and dependent channels and tanks.

14. The direct outlay during 1880-81 upon irrigation works, for which neither Capital nor Revenue Accounts are kept, amounted to Rs. 5,63,461 against a grant of Rs. 11,24,059.

Rs. 64,005 were also spent during the year on works, not exceeding Rs. 2,500 each in value, apparently for the improvement of tanks, classed as "Imperial," and Rs 4,76,079 were expended on repairs of these tanks against a grant of Rs. 5,13,287.

On repairs of the tanks classed as "Minor," and placed under charge of the Revenue Department, Rs. 87,078 were expended during 1880-81, against a grant of Rs. 1,46,500.

It is explained that the short outlay on "Imperial" works was chiefly due to the inefficient state of the Public Works establishment, resulting from insufficient strength and frequent transfers; that on "Minor" works to incomplete organisation of the arrangements for carrying out the work.

The provision of waste weirs for these works appears to be still very inadequate.

15. The direct outlay upon agricultural works during 1880-81 amounted to Rs. 2,85,682 against a grant of Rs 2,80,783. These works consist of river embankments and works for river conservancy and drainage.

16. In addition to the usual percentage of General Establishment charges, the whole cost of the following special establishment is debited to Irrigation:—

(1) Establishment of Chief Engineer for Irrigation.
(2) Water Regulation, Navigation, and River Conservancy establishment.
(3) Temporary Survey Establishment.
(4) Special Establishment for revenue investigations.

The cost of establishment of Chief Engineer for Irrigation was wholly debited to works of irrigation and navigation (No. 33), as the debit to Capital Account of Productive Public Works (No. 38) on account of general estab-

lishment was equivalent to the percentage sanctioned by the Government of India.

The total cost of establishment for water regulation, navigation and river conservancy was Rs.1,10,132 during 1880-81 against an expenditure of Rs.1,13,788 during the previous year.

The total cost of the temporary survey establishment amounted to Rs.23,071 during the year.

A special establishment, costing Rs.13,832 for the year, was employed in ascertaining the revenue due to irrigation in the Kavari Delta and under the Pennar, Pelandorai, Palar, and Srivaikuntham anicuts, and the Chambrambakam Tank. The investigation was completed for the Srivaikuntham anicut system, and nearly so for the other works, except those in the Kavari Delta.

17. It would add greatly to the utility of the report if all figures relating to expenditure and income were shown in the report and tabulated statements for the several *classes of works* enumerated in paragraph 2 of this review, instead being arranged *by districts* for all classes of works together, as in the tabular statement on page 42 of the report.

18. The Madras Irrigation and Canal Company's works consist of a weir across the Toombudra river and head works at Sunkesala, 17 miles above the town of Kurnool, and of a canal for irrigation and navigation from Sunkesala to Cuddapah, 190 miles in length.

The total direct expenditure on Capital Account to the end of 1880-81 amounted to Rs.1,16,69,077.

Owing to a variety of causes the returns from irrigation have hitherto been insufficient to cover even the working expenses of the canal, except in the famine years of 1876-77 and 1877-78, during which there was a considerable extension of irrigation, but this increase has not since been maintained, the rainfall having been quite sufficient for the cultivation of the dry crops which are grown on most of the land commanded by the canal.

The revenue charges on account of maintenance, establishment, general and home management, and compensation, amounted to Rs.1,39,324 during 1880-81, showing a satisfactory reduction on the expenditure of 1879-80 on the same account, Rs.2,35,662. The charges for home management were reduced from Rs.1,63,548 during 1879-80 to Rs.32,263 during 1880-81.

The gross revenue credited during 1880-81 amounted to Rs.74,356, but this amount includes an item of Rs.10,615 on account of "interest and profit on mortgage," and the revenue from irrigation and special water-rate was only Rs.60,089 in 1880-81, compared with Rs.1,67,056 in 1879-80. 17,798 acres of land were irrigated during 1880-81, 18,656 acres having been watered during 1879-80.

Excluding charges for penalty, interest, and town supply, the revenue assessed on the area irrigated in 1880-81 amounted to Rs.56,920, giving an average rate of Rs.3·20 per acre.

Owing to want of capital required for the completion of navigation works, and purchase of boats, navigation of the canal was not commenced until 1st October 1880. The working expenses of navigation amounted to Rs.18,390 and the receipts to Rs.5,783 during the year.

ORDER.—Ordered that a copy of the above Resolution be forwarded to the Government of Madras for information and guidance.

The Governments of Bombay, Bengal, North-Western Provinces and Oudh, and the Punjab, in the Public Works Department.
The Chief Commissioner, Central Provinces.
The Agent to the Governor General for Rajputana.

Also that a copy of the Resolution be forwarded to the Local Governments and Administrations marginally noted for information.

Also that a copy be forwarded to the Publisher of the *Gazette of India* for publication in the Supplement to the Gazette.

HENRY A. BROWNLOW, *Colonel, R.E.,*
Deputy Secy. to the Govt. of India.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

CIVIL WORKS.

Irrigation.

ORDERS ON REVENUE REPORT OF IRRIGATION WORKS IN BOMBAY (EXCLUDING SIND) FOR 1880-81.

No 237—50 I., dated Simla, the 7th July 1882.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Letter from the Government of Bombay, No. 118 W.I.-269, dated 9th May 1882, forwarding the above.

OBSERVATIONS.—The capital outlay of all kinds during the year amounted to Rs. 2,22,388 and the total direct and indirect capital outlay to end of 1880-81 to Rs. 1,32,74,996.

2. The interest charges during 1880-81 amounted to Rs. 5,64,076, and the unpaid balance of accumulated interest at the end of the year to Rs. 53,86,110.

3. The assessed revenue of all kinds amounted to Rs. 2,30,652, and the maintenance charges to Rs. 1,47,995.* The net revenue was therefore Rs. 82,657 and yielded 0·62 per cent. return on the capital outlay to the end of the year.

* Indirect charges for leave and pension allowances not included in this sum.

4. Although the percentage of net revenue upon capital outlay was so small, the returns of the year under review were on the whole decidedly encouraging. The area irrigated during the year was very nearly 75 per cent. larger than the average area of the four preceding years, the area of "kharif" irrigation having been 120 per cent. and of "rabi" irrigation 37 per cent. in excess of the corresponding averages of the four preceding years.

5. The assessed revenue did not however increase in a similar proportion, as the increase occurred chiefly in the class of cereals (millet, rice, pulses and wheat) which pay the lower water rates. The average water rate per acre therefore fell from Rs. 8·39 per acre in 1879-80 to Rs. 6 01 per acre in 1880-81. Although the increase in the irrigated area of sugarcane was not nearly so marked as that under cereals, a very steady and satisfactory increase is perceptible in the area of this crop watered from the Government canals and tanks. The increase in irrigation of cereals having been due to a temporary cause, deficient and late rainfall, too much reliance should not be placed on it, and every effort should be made to secure permanence of supply by pushing on the construction of all storage reservoirs, which may be found economically feasible.

6. Fair progress is however being made in this respect, as it appears from the report that out of twelve systems of canal irrigation, three are already provided with storage works, for one, they are under construction, for two, the estimates are under consideration, for three more, surveys and estimates are in progress, and for another, a site for a reservoir has been found, leaving only two for which no such works have as yet been proposed.

7. Two very serious causes of the unremunerative character of these irrigation works lie in the high rate of maintenance charges, which are in many cases out of all proportion to the returns obtained from the works, and in the great loss of water by percolation from the canal channels. The Government of India is glad to see that the Government of Bombay is endeavouring to reduce the maintenance charges, although it is hardly satisfactory to find that they continued to increase during the year under review. The necessity for the large increase of nearly 20 per cent. in outlay upon repairs and of more than 28 per cent. on establishment charges should have been explained more fully than it

has been. The revenue charge for establishment amounts to nearly 49 per cent. of the outlay upon works and repairs and ought to be reduced without any further delay, as the duties involved in supervising the irrigation of 34,500 acres must have been almost nominal. There is no apparent reason why the cost of establishment employed on the main canals should vary from Rs. 59 per mile on the Jamda canal to Rs. 164·5 per mile on the Rewari canal and from Rs. 32·7 on the Ekruk Tank to Rs. 72·6 on the Maini Tank. Again the establishment employed on irrigation is shown as varying in cost from Re. 0-11-2 per acre on the Ojhar canal to Re. 1-9-5 on the Hathmati without any explanation of the causes of the difference.

8. If the loss by percolation and the volumes utilised have been correctly returned from the Palkher canal it would apparently be worth while spending a very considerable sum on stanching the channel. In the table on page 67 of the Chief Engineer's Report it is shown that an average volume of 10·38 cubic feet per second was lost by percolation during the year, only 4·44 cubic feet per second having remained available for irrigation. But the revenue assessed on the area irrigated by the latter volume amounted to Rs. 5,704 and the value of 1 cubic foot per second was therefore Rs. 1,282. Supposing a like demand to exist for the water lost, it may be taken as being worth at least Rs. 12,000, and it would pay well to spend Rs. 50,000 on saving it. It would not perhaps be necessary to puddle the bed in so expensive a manner as was done on the Hathmati canal, and the sum might suffice to stanch the whole of the 11 miles on which the principal loss from leakage occurs. The foregoing calculation however takes for granted the existence of a demand for the whole of the water saved. In any case, the very large proportion of water lost by percolation on this and other canals points to the necessity of full indirect credit being given to the Government Irrigation Works, in all cases where they can be shewn to have improved the irrigation from wells and natural watercourses in their neighbourhood.

9. The report on the supply of water in wells during the late famine, called for by the Government of India in the review of the Irrigation Revenue Reports of 1877-78 and 1878-79, and again in that of the Revenue Report for 1879-80, has not yet been received.

ORDER.—Ordered that copies of this Resolution and of the Report be forwarded to the Department of Finance and to the Revenue and Agricultural Department for information.

Ordered also, that copies of this Resolution be forwarded to the Government of Bombay for information and guidance; and that copies of the Report and of the Resolution be forwarded to the Local Governments and Administrations noted in the margin, in the Public Works Department, for information.

Governments of Madras, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners, Central Provinces and British Burma
The Foreign Department, for communication to Resident at Mysore and Chief Commissioner of Coorg.
The Resident at Hyderabad.
The Agents, Governor General, Central India and Rajputana.

Ordered further, that this Resolution be published in the Supplement to the *Gazette of India.*

H. A. BROWNLOW, *Colonel, R.E.,*
Deputy Secretary to the Government of India.

DEPARTMENT OF FINANCE AND COMMERCE,
STATISTICAL BRANCH;
Calcutta, 20th July 1882.

T. C. HOPE,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 18th JULY 1882.

GENERAL REMARKS.—The monsoon has continued to give general rain throughout the country. The fall has been light in most districts of the Madras Presidency, save in the extreme south, where damage from excessive rain is reported. In Coorg the rainfall has again been heavy, and in Mysore and in the Nizam's Territories and Berar sufficient. In the Bombay Presidency the rain has been very heavy in some parts (including Sind), and good or fair in others; in the Central Provinces good in some districts and excessive in others; in the Central India and Rajputana States and in the Punjab good almost everywhere; in the North-Western Provinces and Oudh good in a few districts and light generally; in Bengal heavy towards Orissa, good in Bengal proper, and light in Behar; in Assam light in some places, fair in others; and in British Burma heavy in two districts and good in others.

There are, however, a few limited tracts from which no rain has been reported during the week under report, notably the Tanjore district in Madras, the Kolar district in Mysore, and Umballa in the Punjab.

General prospects, where not affected for the time being by excessive rain or flood as in Tanjore, Kanara, Hoshangabad, Coorg, and Dibrugarh, or by insufficient rain as in Chingleput or in parts of two districts of Bombay and of four districts in Bengal, are very favourable, as sowing operations are nearly complete and the young crops are doing well. The harvest of jute in Bengal promises to be a good one; and generally sugar and indigo are doing well throughout Northern India.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(July 12th)		
Bellary ...	1·18 (average of eight stations).	Standing wet crops good; harvest summer paddy, yield below average; fever in parts.
Kurnool ...	2·29 (average of nine stations).	Improvement in season continues; cattle-disease in parts; standing crops fair.
Ganjam ...	2·64 (average of twelve stations).	Standing summer paddy and dry crops reviving; fever, small-pox, and cholera prevalent; cattle-disease exists.
Kistna ...	1·92 (average of thirteen stations).	Small-pox and cattle-disease slight.
Chingleput (Madras) ...	·87 (average of eleven stations).	Standing crops good where water available; harvest paddy and dry crops, outturn below average; agricultural operations progressing; cattle-disease in parts.
Coimbatore ...	·71 (average of fourteen stations).	Standing crops generally good; harvest dry crops, yield about average; small-pox and fever in parts.
Tanjore ...	·26 (average of four stations).	Standing crops generally good, though require rain in parts; harvest paddy, yield below average; cattle-disease slight.
Madura ...	·25 (average of three stations).	Standing crops fair; harvest *cholum*, outturn below average; fever, cholera, and cattle-disease in parts.
Malabar ...	16·13 (average of fourteen stations).	First crop partially destroyed by heavy rain in parts; small-pox, cholera, and fever in parts.
Travancore ...	3·46	Cultivation affected by incessant rain; fever slightly prevalent. *General Remarks.*—General prospects good.
Madras—(July 19th)		
Bellary ...	·69 (average of seven stations).	Standing crops good; harvest summer paddy, yield below average; fever in parts.
Kurnool ...	·59 (average of six stations).	Season generally favourable; more rain wanted; agricultural operations commenced; cattle-disease in parts.
Ganjam ...	1·43 (average of fourteen stations).	Standing crops not thriving for want of timely rain; fever, small-pox, and cattle-disease continue; cholera prevalent.
Kistna ...	·75 (average of eleven stations).	Cattle-disease exists.
Chingleput (Madras) ...	·34 (average of eight stations).	Standing crops wet and dry good where water available; harvest wet and dry crops, outturn below average; agricultural operations progressing; small-pox slight in parts.
Coimbatore ...	·61 (average of eight stations).	Standing crops generally good, though some dry crops damaged in parts by insects or rain; harvest dry crops, outturn average; small-pox and fever in parts.
Tanjore ...	.....	Standing crops generally good, but damaged in two taluks by flood; harvest paddy, yield below average; cattle-disease slight in parts.
Madura ...	1·50 (average of one station).	Standing crops fair; fever, cholera, and cattle-disease in parts.
Malabar ...	9·36 (average of fourteen stations).	Standing crops generally good; small-pox, cholera, and fever in parts.
Travancore ...	1·33	Weeding paddy-fields continues; fever slightly prevalent. *General Remarks.*—No rain at Tanjore; general prospects good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—(July 19th)		
Kurrachee ...	Kurrachee, 6·63; Manora, 4·93; Jerruck, 10·84; Tatta, 7·48; rain general throughout district.	River at Kotri on 17th, 17 feet against 13 feet 1 inch last year; crabs and turtles doing some damage in 2 tapas of Ghorabari; fever and colds in five talukas; 2 cases of small-pox in Ghorabari taluka; wheat, red rice, and *bajri* in Kurrachee 24, 36 and 32, in Kotri 30, 32 and 44, in Tatta 24, 44 and 14, and in Jati 18, 44 and 44 lbs. per rupee, respectively.
Hyderabad ...	Average rainfall in eleven talukas 5·97; in Hyderabad in 24 hours 12th and 13th the fall was 8·40.	River rose greatly during heavy rain, has since fallen, but is still high; wheat 24, *juari* 44, *bajri* 39, red rice 34, and white rice 24 lbs. per rupee.
Ahmedabad ...	.....	Total rainfall 19·19; sowing continues; cholera has nearly disappeared; wheat 27 and *bajri* 30 lbs. per rupee.
Baroda ...	5·90	Total rainfall 19·36; sowing of *kharif* finished in some places; general health good; *bajri* 30 and common rice 22 lbs. per rupee.
Surat ...	5·45	Total rainfall 25·43; sowing and transplantation nearly completed; break wanted; flood in Tapti; young crops healthy; *juari* 34 and *nagli* 51 lbs. per rupee.
Násik ...	Igatpuri, 20·00; Peint, 13·00; Násik and Kalwan, 3·23; slight in Yeola, Nando and Malegaon; sufficient elsewhere.	All crops doing well; *bajri* still being sown; locusts disappearing; wheat 24, *bajri* 36, and rice 25 lbs. per rupee.
Colaba (Bombay) ...	Rain very heavy on 12th and 17th; total of week, 8·38.	Total rainfall to date 51·37, being 15·10 above average; abnormal temperature 3° cool on 12th and 17th, *nil* on all other days; vapour in air normal; abnormal wind westerly.
Poona ...	Rain general; more wanted in Sirur and Bhimthari talukas; maximum at Mawal, 16·39; minimum at Indapur, ·58.	Young crops healthy; 3 fatal cholera cases in Poona; *bajri* 12¾ and *juari* 56¼ lbs. per rupee, in Poona *bajri* 36¼ and *juari* 47¾ lbs. per rupee.
Ahmednagar ...	Maximum at Akola, 4·53; minimum at Shrigonda, ·16.	Sowing of *kharif* in progress in all talukas, suspended in Karjat and Shrigonda, where rain is urgently wanted; cattle-disease in Karjat; cholera in Parner 8 attacks, 4 deaths, in Shrigonda 8 attacks, 6 deaths; *bajri*—maximum 60 lbs. in Jhamkhed, minimum 42 in Kopergaon, *juari*—maximum 90 in Jhamkhed, minimum 54 in Kopergaon.
Sholapur ...	·88	Total rainfall 16·69; cholera—70 cases, 25 deaths; *kharif* sowing nearly completed; *bajri* 56 lbs. 32 tolas and *juari* 75 lbs. 3 tolas per rupee.
Dharwar ...	Rain maximum—Hangal, 9·25; Dharwar, 8·11; Bankapur and Kod, above 4·00; Hubli above, 3·00; Navalgund and Karajgi, above 2·00; Ranuibennur, Gadag, and Nargund, above 1·00; Ron, ·90; minimum ·30 at Mundargi and Nargund.	More rain wanted in Dharwar, Hangal, Bankapur; excessive rain in other talukas doing much damage to young crops, and break required immediately; slight ague in one taluka and two pettas, and slight foot-and-mouth disease among cattle in Bankapur and Haveri; prices stationary.
Kanara ...	Karwar, 8·00; Kumpta, 13·89; Sirsi, 14·91; Hallial, 5·48.	Total rainfall 65·93; transplanting and weeding in rice-fields continue; sowing in *kumri* lands; excessive rainfall injures plants in low lands; small-pox, fever, and cattle-disease subsiding; common rice in Karwar 11½ seers, in district average 13 seers per rupee.
Rajkot ...	6·46	Total rainfall 12·47; weather cloudy; crops good; cholera in some places; *bajri* 25 and *juari* 20 lbs. per rupee.
		General Remarks.—Sowing mostly completed; transplantation in progress; rain general, heavy in Sind and several districts of the Presidency, where immediate break is required, but more rain is needed in a few talukas of Nasik, Ahmednagar, and Dharwar; cholera in Satara, Sholapur, Ahmednagar thana, and parts of Kathiawar; fever and cattle-disease in a few districts.
Bengal—(July 19th)		
Chittagong ...	2·13	Weather hot, with occasional rain, more rain wanted; cultivation for winter rice going on; prices somewhat high; cholera, small-pox, and cattle-disease still continue; fever has appeared.
Dacca ...	1·48	Weather showery; crops satisfactory; jute harvest commenced.
24-Pergunnahs (Calcutta)	3·67	Early rice, jute, and sugarcane doing well; transplanting of winter rice briskly going on; high lands being prepared; prices of common rice unchanged; health of people and cattle generally good; rivers rising.
Moorshedabad ...	0·90	Transplanting of winter rice has commenced on both high and low lands, but is being somewhat retarded owing to insufficient rainfall; prospects of autumn crops favourable; health of people generally good, except a few cases of fever at Ranganati.
Rajshahye ...	1·50	Prospects of crops favourable; more rain wanted; public health fairly good; prices unchanged.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*contd.*		
Burdwan ...	2·21	Prospects fair, but more rain wanted in several parts of the district; public health good.
Rungpore ...	2·33	Weather hot and cloudy; autumn rice being harvested; prospects good; transplanting of winter rice not yet completed; jute and sugarcane promising; prices of food-grains stationary; public health good.
Bhagálpur ...	1·19	More rain wanted for transplanting rice; prospects of autumn crops good.
Purneah ...	0·99	Prospects of crops fair; more rain wanted; weeding continues; health fair; rivers rising.
Patna ...	0·59	Prospects of autumn crops good; transplanting of rice seedlings commenced in Behar sub-division, but more rain wanted; cholera still reported from Behar, Sitao, and Islampur police stations, and small-pox from Giriak outpost.
Durbhunga ...	0·13	Weather hot and cloudy; more rain wanted; prices stationary; cholera has not yet quite disappeared.
Hazáribágh ...	1·85	Weather cloudy, with sunshine at intervals; autumn crops promising; transplanting of autumn rice commenced; cholera and small-pox still reported, but general health good.
Cuttack ...	2·88	Autumn and winter rice being weeded; cholera still reported.
		General Remarks.—Rain fell in all districts during the week, more rain is wanted in several places for transplanting late rice; prospects of jute and sugarcane excellent; early rice is being harvested in some places in Central and Eastern Bengal; manufacture of indigo proceeding generally, with average outturn, except in Durbhunga where the crop is said to be very uneven; cholera still very prevalent in Birbhoom, and cases are also reported from a few other districts; fever has appeared in some districts.
N. W. Provinces and Oudh—		
Benares (July 18th)	Benares, 1·8; Chandauli, 6·3; Gungapur, 1·1.	*Kharif* sowings nearly finished; rice sowings begun in Chandauli tahsil, but owing to want of rain not yet commenced in Benares tahsil; health of cattle good; isolated cases of cholera reported from parts of each tahsil; markets well supplied at moderate prices.
Cawnpore („ „)	Average over 1·4	Weather cloudy and close; prospects of *kharif* continues good; cholera has appeared in Ghatampur and Saih Salimpur; prices stationary.
Allahabad („ 19th)	Average 1·5	Crops flourishing; prices slightly fallen; health good; cholera much diminished in the district.
Gorakhpur („ 18th)	No rain for five days	Sky clear; rain wanted for rice; health good; prices steady.
Jhánsi („ 17th)	Rain from 3·7 in pargana Mau to 9·8 in pargana Jhánsi; average 6·1	Prospects good; sowing of *bajra* and *tili* continues; prices falling.
Agra („ 18th)	Rain in all parganas, from 0·5 to 3·9.	Prices slightly falling; slight fever in one pargana only and a few cases of cholera in another; general health good.
Farukhabad („ „)	Light showers only in four tahsils, moderate fall in the other two.	Prospects good, but in Aligarh tahsil damage has been caused by floods; health good.
Bareilly („ „)	Average 2·0	Weather seasonable; prospects good and little disease.
Meerut („ „)	Occasional light rain	Weather more open during past week; the occasional light rain so far very favourable to agricultural operations, which are in full progress; crops flourishing; supplies sufficient; prices stationary; health good.
Kumaun („ „)	Rain less during the week; three or four days' break.	Crops good; no change in prices; two deaths from *mahamari* disease reported, otherwise health good; foot-disease amongst cattle continues.
Lucknow („ „)	Sadr, 0·7; Maliabad, 0·6; Mohanlalganj, 0·4.	*Kharif* crops sown; *bajra* and *mot* sowing being carried on; cholera reported from tahsil Mohanlalganj, and is again increasing in the city; bazars well supplied; prices steady.
Rae Bareli („ 17th)	Sadr, 2·1; Digbijaiganj, 3·6; Dalamau, 4·2; Salon, 4·4.	Agricultural operations in progress; health of people and cattle generally good; though cholera still continues; prices slightly falling.
Partabgarh („ 18th)	Heavy rain in Kanda tahsil.	Rain wanted in Sadr and Patti tahsil; crops coming on well; prices steady; general health good.
Sitapur („ „)	Rain in all tahsils, but Sidhauli.	More rain required speedily in Sidauli tahsil; prices slightly rising; health generally good; cattle-disease in two tahsils.
Fyzabad („ „)	2·1	Sowings have come up well; cholera still in part of the district.
		General Remarks.—Rain general throughout the Provinces but light except in Jhánsi; agricultural operations still in progress; sowings germinating well, and prospects so far good; prices have a tendency to fall; cholera still continues in eastern districts, but general health fairly good; cattle-disease in Sitapur and Kumaun.
Punjab—(July 18th)		
Delhi ...	4·0	Health good; *kharif* sowings in progress; slight fall in prices of food-grains.
Hissar ...	.....	No report received.
Umballa ...	No rain	*Kharif* sowings in progress; health good; prices steady.
Jullundur ...	2·30	Health good; prices steady.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Punjab—*contd.*		
Amritsar ...	3·60	*Kharif* sowings commenced; health good; slight fall in prices of food-grains.
Sialkot ...	3·0	Health good; prices steady.
Lahore ...	2·0	Health good; prices stationary.
Ferozepore ...	1·20	*Kharif* sowings in progress; health good; prices falling.
Mooltan ...	2·30	Health and crops good; slight fall in price of barley.
Rawalpindi ...	2·50	*Kharif* crops good; health good; slight rise in prices of food-grains.
Dera Ismail Khan ...	3·80	Crops greatly benefited; health good; prices falling.
Peshawar ...	1·0	Crops benefited; slight fall in prices of wheat and gram.
		General Remarks.—Rain has been general except in Umballa; health good; prices of food-grains generally are falling.
Central Provinces—		
Nagpur (July 19th)	7·70	Weather cloudy and wet; prospects good; cholera prevalent; prices steady.
Jubbulpore („ 18th)	12·27	Weather cloudy and rainy; sowings approaching completion; cholera and small-pox prevalent; wheat 17 and rice 12 seers per rupee.
Saugor („ 17th)	7·27	Crops progressing favourably; cotton weeding going on; general health good; prices steady.
Seoni („ 18th)	5·17; rain incessant	Rain favourable to rice crops; cholera and cattle-disease prevalent; prices stationary.
Khandwa („ „)	2·24; showery	*Kharif* sowings continue; small-pox prevalent; wheat 14, rice 11½, and gram 23 seers per rupee.
Hoshangabad („ „)	11·49	Heavy rain on 15th instant caused floods; crops damaged; small-pox prevalent; wheat 15, rice 9, and *juari* 21 seers per rupee.
Raipur („ 15th)	5·13	Replonghing rice-fields commenced; cholera prevalent; prices falling; rice 40 and wheat 30 seers per rupee.
Sambalpur („ 13th)	8·15	Weather seasonable; prospects good; rice 52 seers per rupee.
		General Remarks.—Weather continues cloudy and wet; heavy rain has fallen in most districts; sowings continue; prospects favourable; cholera and small-pox still reported; prices steady.
British Burma— (July 15th)		
Akyab ...	19·86	Total rainfall 104·66; 5 deaths from cholera in the district, otherwise public health good; slight cattle-disease in five townships; sowings commenced.
Rangoon ...	4·41	Total rainfall 32·70; 2 deaths from cholera, otherwise public health good.
Bassein ...	4·45	Total rainfall 51·63; 1 death from cholera in the town and 7 in district, otherwise public health good; cattle-disease in part of district; ploughing proceeding.
Prome ...	1·42	Total rainfall 16·90, apparently more rain in district than in the town; 3 deaths from cholera in town and 13 in the district, otherwise public health good; cattle-disease prevalent in two townships; ploughing still very backward, but improving owing to late rain.
Amherst (Moulmein) ...	15·40	Total rainfall 92·32; public health good both in Moulmein and district; cattle-disease prevalent, but not severe in three townships; sowing still goingon.
Toungoo ...	4·45	Total rainfall 34·37; 12 cases and 2 deaths from small-pox in the district, but none in town; cattle-disease prevalent in part of the district.
		General Remarks.—Some cholera in Prome and Tharawaddy, and a few cases in the other districts of Pegu and Irrawaddy and in Akyab; a little small-pox in Toungboo, otherwise public health good; cattle-disease continues somewhat prevalent; rain more plentiful in places where it was wanted.
Assam—(July 18th)		
Gauhati ...	·60	Days hot; more rain wanted for transplanting operations; public health good; disease reported from the interior.
Sylhet ...	1·45	State and prospects of crops generally good; tea and sugarcane doing well; public health generally good.
Cachar ...	1·45	Weather intensely warm; rain much wanted; state of *dumahi* and *murali* crops and tea good; ploughing for *sali* crops retarded by want of rain; common rice 21 5/16 seers per rupee; 2 cases of cholera reported from Lakhimpur; cattle-disease reported in the Sadr tahsil, some cases also in Nalakandi.
Dibrugarh ...	2·62	Weather hot; ploughing for *sali dhan*; cattle-disease still reported; public health generally good; heavy and sudden flood in the Subansiri carried away houses, and it is said caused the death of 40 coolies on Dirpai garden, cattle also drowned in Bardolooni and Patalipani.
Mysore and Coorg—		
Bangalore ...	·44	Standing crops and seedlings in good condition.
Mysore ...	·25	Crops in good condition.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Mysore and Coorg— *contd.*		
Mercara ...	18·53	Monsoon continues heavy; the Cauvery again in full flood, many roads impassable, several houses and cattle-sheds have fallen down, many paddy flats in the Padinalkund taluk and on the Mercara plateau are flooded and are injured by landslips; elsewhere crops are doing well; prices stationary; public health good. *General Remarks.*—Rain has fallen abundantly throughout the province, except in the Kolar district where the *ragi* crop is suffering, elsewhere crops generally in good condition; transplanting of paddy commenced in some places; prospects favourable; public health good; fever and murrain abating; prices unaltered; Cauvery river again in high flood.
Berar & Hyderabad— **(July 19th)**		
Amráoti ...	3·06	*Kharif* crops above ground and in good condition; wheat 18 and *juari* 30 seers per rupee.
Akola ...	4·51	*Kharif* sowings almost completed; prospects favourable.
Hyderabad ...	1·71	Total rainfall from 1st January 10·21 inches; *kharif* crops benefited by the rains of the week; *abi* crops continue to be sown; tanks have received a considerable quantity of water; fever and cattle-disease prevail in places; prices—wheat 16, common rice 11, white *juari* 24¼, yellow *juari* 27½, and *tur* 25 seers per current sicca rupee.
Central India States— **(July 19th)**		
Indore ...	4·71	Almost continuous rain and drizzle; a break is much wanted, otherwise the *kharif* crop must suffer; health good.
Morar (Gwalior) ...	2·64	Health and prospects good.
Sutna ...	1·85	Weather cloudy and cool; health good.
Neemuch ...	3·13	Public health good.
Goona ...	6·60	Prospects good.
Bhopal ...	·29	Weather cloudy; continuous rain; prospects good.
Agar ...	·69	Health and prospects good.
Nowgong ...	5·19	Prospects very favourable; health fair; prices stationary.
Manpur ...	4·50	Health good; prices stationary.
Rajputana—		
Abu (July 19th)	5·85	Weather cloudy and overcast.
Sirohi („ 16th)	0·06	Tanks, wells, and health good; very little rain up to date.
Marwar („ 14th)	1·01	Fifteen days' water brought into tanks; health good; ploughing almost general; heavy clouds; copious showers reported from districts; prospects good; more rain expected; prices stationary.
Meywar („ 15th)	1·35	Tanks, wells, and health good; prospects very good; weather cloudy.
Harowti („ „)	Deoli, 6·09; Tonk, 1·88; Kotah ·90.	Few cases of cholera at Tonk and Shahpura; prices steady.
Jhallawar („ 12th)	1·89	Prospects favourable; health good.
Ajmere („ 18th)	3·36	Sowings progressing; seasonable weather; few cases of cholera still occurring.
Jeypore („ „)	1·37	Prices stationary; health good.

STEPHEN JACOB,
Offg. Under-Secy. to the Govt. of India.

No. 2662.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read again—

Resolution in the Department of Finance and Commerce, No. 2679, dated 31st August 1878, laying down rules to regulate the powers of Local Governments to sanction special additions to salaries which are not authorised by any general or special orders of the Government of India.

Letter in the Department of Finance and Commerce to the Accountant General, Bombay, No. 3377, dated 4th October 1881, stating, in reply to an enquiry by the Accountant General, that the sanction of the Government of India was requisite to the grant of additional remuneration to a public officer, in the shape of a local allowance, for the performance of duties alien from those of his proper office, whether such allowance was payable from Imperial or Provincial Revenues, and whatever the emoluments of the officer might be.

Letter in the Department of Finance and Commerce, to the Government of Bombay, No. 2303, dated 31st December 1881, stating that the orders in the letter to the Accountant General, Bombay, No. 3377, dated 4th October 1881, were not intended to interfere with the combination of two or more sanctioned offices in one officer in cases in which allowances for such combination were regulated in accordance with rules in Chapter VII of the Pay and Acting Allowance Code.

Read—

Letter from the Government of Bombay, No. 2128, dated 9th June 1882, referring for orders certain questions which have been raised by the Accountant General, Bombay, in connection with the above-mentioned orders of the 4th October and 31st December 1881.

RESOLUTION.—His Excellency the Governor General in Council has considered it necessary to lay down the following rules regarding the powers of Local Governments in sanctioning the appointment of one officer to hold two or more appointments at the same time, and the grant of allowances in such cases. The orders of the 4th October and 31st December 1881, read in the preamble, are hereby withdrawn :—

(1) A Local Government may grant a local allowance to an officer paid from Provincial Revenues, provided the officer's total emoluments, including the local allowance, do not exceed Rs. 250 a month.

(2) A Local Government cannot, without the previous sanction of the Government of India, appoint an officer to hold two appointments as a permanent arrangement, unless the pay of the appointments is a Provincial charge, and unless their aggregate pay does not exceed Rs. 250 a month. A Local Government may, as a temporary measure, appoint one officer to two or more appointments without the sanction of the Government of India, and in such case the emoluments of the officer will be regulated by the Rules in Chapter VII of the Pay and Acting Allowance Code.

(3) If a local allowance is sanctioned by the Government of India on the understanding that it shall be drawn by any officer who may perform the duties for which it is granted, the sanction of the Government of India will not be required a second time in the case of any particular officer to whom the Local Government may assign the duties.

2. The foregoing rules shall not have retrospective effect in respect of allowances now drawn, or appointments already made, so far as regards present incumbents; but they must be strictly applied in the future whenever there is a change of incumbents, and the sanction of the Government of India should be obtained in every future case in which it may be necessary to do so under the rules now prescribed.

ORDERED, that this Resolution be published in the *Gazette of India*, and that it be communicated to—

The several Departments of the Government of India,
The several Local Governments.
The Director General of the Post Office of India.
The Comptroller General and all Accountants General.

The 28th July 1882.

No. 2680.—Whereas under the terms of Notification in the Department of Finance, No. 3646, dated 13th November 1880, the Municipality of Madras have paid to the Collector of Stamps, Madras, Rs. 1,750 as composition for the stamp duty chargeable on a sum of Rs. 3,50,000 which the said Municipality were authorised to borrow, and which have been raised by the issue of the undermentioned debentures, dated the 15th day of March 1882, *viz.*,—

Nos.	$\frac{01}{001}$	to	$\frac{90}{090}$	at Rs.	500 each.
"	$\frac{01}{091}$	"	$\frac{55}{145}$	"	1,000 "
"	$\frac{01}{146}$	"	$\frac{40}{185}$	"	2,500 "
"	$\frac{01}{186}$	"	$\frac{30}{215}$	"	5,000 "

In exercise of the powers conferred by Section 8 of the Indian Stamp Act, 1879, the Governor General in Council has exempted the abovementioned debentures from any stamp duty with which they might otherwise be chargeable, whether on issue, renewal, or sub-division.

No. 2686.—Furlough out of India for one year having been granted to Mr. W. H. Dobbie, Assistant Comptroller General, Mr. Dobbie availed himself of the leave after noon on the 20th July 1882.

No. 2715.—The following Declaration between the British and Russian Governments, signed at London on the 9th of June 1882, on the subject of tonnage measurement of vessels, is published for general information:—

The English system of tonnage measurement (Moorsom's system) being henceforward in force as well in the Empire of Russia and the Grand Duchy of Finland as in the United Kingdom of Great Britain and Ireland, and in the British Colonies, the Government of Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and the Government of His Majesty the Emperor of All the Russias, have agreed to the following Declaration:—

1. Russian and Finland vessels measured according to the abovementioned system shall be admitted into the ports of the United Kingdom and its Colonies; and British vessels measured according to the same system shall be admitted into the ports of Russia or Finland, without being subjected, for the purpose of payment of navigation dues, to any fresh operation of measurement.

The navigation dues above mentioned shall be calculated on the net tonnage.

2. The Finland and English Regulations respecting tonnage measurement being substantially the same, English certificates of tonnage measurement shall in the Grand Duchy of Finland, and Finland certificates of tonnage measurement, taken out after the 31st May 1877, shall, in the United Kingdom and its Colonies, be recognised, without any operation of measurement or other formality whatsoever; and the net tonnage of all British or Finland ships inscribed on the ship's papers shall be considered in the respective ports of each country as equivalent to the net register tonnage of national vessels.

3. English certificates of tonnage measurement shall in Russia, and Russian certificates of tonnage measurement, taken out after the $\frac{\text{20th December 1879}}{\text{1st January 1880}}$, shall, in the United Kingdom and its Colonies, be likewise reciprocally recognised in the ports of each country without any operation of measurement.

As, however, the provisions of the Russian Regulation do not entirely correspond to the English Regulations relative to the mode to be followed in the determination of crew spaces in ships, and machine and coal spaces in steamers, the deductions in respect of these shall, for English vessels in Russian ports, be calculated according to the figures shown in the certificates of tonnage measurement, in conformity with the Regulation sanctioned the $\frac{\text{20th December 1879}}{\text{1st January 1880}}$, without remeasurement of the vessel.

This measure shall be applicable in British ports to Russian vessels touching there, if the captains of the said vessels shall express a desire to that effect; and, in such case, the provisions of the Merchant Shipping Act of the 10th August 1854 shall be complied with.

4. The abovementioned arrangements shall apply also to vessels propelled by any other artificial power than steam.

The present Declaration shall come into operation on the $\frac{\text{1st}}{\text{13th}}$ July 1882, and shall remain in force so long as one of the Contracting Parties shall not have notified to the other six months in advance its intention of terminating it.

In witness whereof the undersigned, duly authorised for this purpose, have signed the present Declaration, and have affixed thereto the seal of their arms.

Done, in duplicate, at London, the $\frac{\text{28th day of May}}{\text{9th day of June}}$ 1882.

SENATE HOUSE,
The 19th July 1882.

AGENT, GOVERNOR GENERAL, FOR RAJPUTANA.

NOTIFICATION.

Mount Abu, the 22nd July 1882.

No. 2098 *G.*—With reference to this Office Notification No. 1307 G., dated 12th May 1882, Major C. A. Baylay and Major H. B. Abbott, respectively, made over and received charge of the Office of Political Superintendent, Jhallawar, on the forenoon of the 10th July 1882.

By Order,

E. A. FRASER,

1st Asst. Agent to the Govr. Genl.

IN THE COURT OF THE JUDICIAL COMMISSIONER OF COORG.

Civil Side.

Rule of Practice No. 4, dated Bangalore, the 10th July 1882.

Under Section 652 of the Code of Civil Procedure (Act XIII of 1882), the following rules have been made by the Judicial Commissioner to regulate the procedure of the Subordinate Courts exercising jurisdiction under Chapter 20 (of Insolvent Judgment-debtors) of the Code:—

1. When the property of a person declared insolvent is, in amount, too small to enable the Court to appoint a paid Receiver, the Court may appoint its Sheristadar, or Head Clerk, Receiver.
2. When property, alleged to be the property of the insolvent, is in the hands of third parties, who refuse to surrender it, the Receiver may, with the sanction of the Court, institute a suit for its recovery and he may decline to sue, unless one or more of the creditors consent to give a sufficient guarantee for the cost of the suit. The Court may, from time to time, direct that the property, which may have come to the hands of the Receiver, be sold by private contract or tender or public auction, or partly by one method, and partly by another, and subject to such conditions as the Court may think fit to declare. Provided that, when an order is made for the sale of immovable property by auction, the sale shall be proclaimed and conducted and confirmed in the manner prescribed by the Code of Civil Procedure, for the time being, for sales of immovable property sold in execution of decree.
3. The cost of all sales made by the Receiver shall be deducted from the sale proceeds. The Court may order the costs of proclamation and advertisements of sale to be paid, in the first instance, out of the funds, if any, in the hands of the Receiver, and if there be no such funds, the Court may decline to order a sale, until funds are furnished by the decree-holder, or some other creditor.
4. The provisions of the 295th Section of the Code of Civil Procedure relating to the sale of properties under mortgage, shall apply to sales made by the Receiver under the order of the Court. Provided that the Receiver may, with the sanction of the Court, discharge any mortgagee, of which the period of redemption has arrived, and in any case, with the consent of the mortgagee, by payment out of the assets in his hands (if any) and may sell the property free from the incumbrance.

By Order of the Court,

S. HAMAJEE ROW,

Registrar.

CHIEF COMMISSIONER OF AJMIR-MERWARA.

NOTIFICATIONS.

Mount Abu, the 20th July 1882.

NEEMUCH CEMETERY.

Repairs of Monuments.

Notice is hereby given that those monuments in the Government Cemetery at Neemuch, Central India, of which a list is published herewith, are in need of repairs. Those of Sergeant Henry Seal and Trumpeter J. Britton are in a ruinous condition, and will be made level with the ground unless, within three months from the publication of this Notice, some person will undertake the cost of their repairs.

G. H. LEWIS,
Chaplain of Neemuch.

NEEMUCH,
The 30th June 1882.

COMMISSARIAT NOTICE.

The following five Government elephants are now for sale at Agra and Bareilly.

2. Offers are invited, both for purchase of these animals, and also for exchange of good female elephants suitable for Government purposes in place of these, and any reasonable offers will be accepted by the Commissary General.

3. Applications to inspect the elephants and offers for purchase or exchange may be made to the Assistant Commissaries General, Agra and Bareilly, respectively :—

Description of Elephants.

Where for sale.	Register No.	Name.	Sex.	Height.	Probable age.	Tusks.	Eyes.	Number of Nails.	Tail.	Back.	Temper	Condition.	REMARKS.
				ft. in.									
At Agra.	698	Saika ...	Male	8 4½	45	Perfect ...	Blind off-side.	18	No hair ...	Hollow in centre from wound in youth.	Good	Good	Fit for sowari purposes never been mueth head and tusks fine carriage good.
	1347	Louis Napoleon.	Do. ...	9 7	39	One on off-side.	Perfect ...	18	Short of hair.	Good ...	Vicious.	Do. ...	A fine elephant, unsafe for Government purposes, but Rajahs, &c., might buy him for fighting purposes.
	1670	Watson ...	Do. ...	8 9	37	One on off-side split slightly.	Do. ...	18	Do. ...	Do. ...	Uncertain.	Do. ...	A very fine animal, fit for anything, but troublesome at times.
	459	Nazirguj ...	Do. ...	8 11	47	Two, off one broken.	Do. ...	18	No hair ...	Do.	Do.	Do. ...	Unsafe for Government work; a very fine elephant indeed, suitable for fighting purposes.
At Bareilly.	1788	Hastings ...	Do. ...	9 4	59	One broken.	Good ...	18	Good ...	Centre ridge of bone rather high.	Good	Low...	Fit for howdah and shooting purposes.

W. G. SMITH, *Major,*

E. HUTTON,

Presidency Post Master.

WANTED

For the Narsingpur District, Central Provinces, for about twenty months, from 1st October 1882, two Surveyors on a salary of Rs. 30 each per mensem.

Applications with copies of testimonials to be addressed to G. J. Nicholls, Esq., Deputy Commissioner, Narsingpur.

L. A. MAHOMED,

Extra Assistant Commissioner,
for *Deputy Commissioner.*

NOTICE.

Waste Lands available for Planters in the Tavoy District.

Waste lands, covered at present with forest, bamboos or grass, are available for plantations of coffee, tea, cinchona, or spices at altitudes varying from 100 feet to 6,800 feet above the sea in the Tavoy district. This region is between the 13th and 14th parallels of north latitude, and the rainfall ranges from 190 to 220 inches a year. The lands are mostly within 30 to 50 miles of the steamer station of Thayetchoung on the Tavoy river. Mail steamers ply between Thayetchoung and Moulmein or Rangoon once a week inwards and outwards.

II.—Grants of land in lots ranging from 100 to 1,200 acres can be had for planting tea, coffee, cinchona, or spices on application to the Deputy Commissioner of Tavoy. Such grants will be made in accordance with the "Burma Land and Revenue Act, 1876," and with the rules sanctioned thereunder by the Governor General of India in Council. Copies of the Act and rules can be obtained by intending planters on application to the Deputy Commissioner of Tavoy, the Commissioner of Tenasserim at Moulmein, or the Secretariat, Rangoon.

III.—In addition to the concessions and conditions laid down in the Act and rules, the following special concessions will be made to persons taking up land for plantations of coffee, tea, cinchona, or spices in Tavoy, namely,—

(1) A grantee must bring under cultivation one-third of his grant within 12 years from the date of his obtaining the grant. If, after the expiration of 12 years, any surplus uncultivated land, in excess of two acres of waste for each acre of cultivated land, shall remain on the grant, such surplus waste shall then revert to Government; and the grantee shall have no further claim or right in the surplus which has so reverted.

(2) A grantee will not be liable to pay any land revenue or any price for the land of his grant until the end of the tenth year after he enters on possession, provided that he takes *bonâ fide* steps to cultivate a reasonable proportion of the grant with coffee, tea, cinchona, or spices. In the event of any grantee desiring a more precise definition of a "reasonable proportion," the Chief Commissioner may decide beforehand in each case what proportion of the grant ought to be thus cultivated in each year.

(3) After the end of the tenth year the grantee will be liable to pay land revenue at the rate of Rs. 1-4-0 per acre and cesses at the rate of two annas per acre on one-third of his grant up to the year 1900 A. D.; after the expiration of such year he will be liable to pay for one-third of his grant the same revenue rate as is paid for garden lands in the nearest revenue circle where a garden rate obtains.

(4) A grantee will not be called upon to pay anything for timber, bamboos, or grass which he may cut upon his grant, provided he takes *bonâ fide* steps as aforesaid to cultivate coffee, tea, cinchona, or spices.

IV.—The only payment which a grantee will have to make on receiving his grant will be eight annas an acre for the cost of survey and demarcation. In consideration of such payment the Deputy Commissioner will cause a survey to be made of the grant, will furnish the grantee with a copy of such survey, and will cause boundary marks to be erected at suitable points in the outer boundary of the grant.

V.—The wishes of applicants will be met as far as possible in regard to the situation and shape of their grants. But ordinarily—

(*a*) no grant will be given where the Forest Department intend to make a forest reserve;

(*b*) no grant will be given on such a place as will unduly circumscribe the extension of cultivation of the grazing grounds of any neighbouring village or hamlet;

(*c*) grants facing a road or navigable stream will have to be of a depth double the length facing such road or navigable stream;

(*d*) small strips will be reserved leading to landing places for the benefit of neighbouring villages and grantees.

VI.—The Government is now spending much larger sums than heretofore on roads in the Tavoy district. If planters settle in the district, further funds will be allotted for roads from their neighbourhood to the steamer station at either Tavoy or Thayetchoung.

VII.—In order to encourage pioneers in the coffee and cinchona enterprise in Tavoy, the Government will pay to the first four grantees who begin *bonâ fide* planting operations Rs. 15 per head for every Indian or Chinese coolie, male or female, over 16 years of age, who may be settled and housed on their plantations before the 1st March 1885.

VIII.—In any case of doubt regarding the *bonâ fide* character of operations for the purposes of concessions III and VII, the Deputy Commissioner will decide, and his decision will be subject to appeal to the Commissioner of Tenasserim, whose decision will be final.

IX.—All minerals and metals under and within the lands granted under these rules are reserved by Government, together with a right to enter upon and resume such portion of land as may be necessary for examining or working mines upon payment of just compensation to the grantee for loss of, or injury done to, the surface.

G. D. BURGESS,
Secy. to the Chief Commr., British Burma.

The 6th April 1882.

GOVERNMENT CINCHONA FEBRIFUGE.

This preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs. 4-8*; per eight ounce tin, *Rs. 8-8*; per pound tin, *Rs. 16-8*. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the under-noted rates:—per four ounce tin *Rs. 5-8*; per eight ounce tin *Rs. 10-8*; per pound tin, *Rs. 20*. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage 8 annas per four and eight ounce tins, and 12 annas per pound tin, in addition to the foregoing rates.

Report on the Madras Cyclone, May 1877, 4to., 117 pages text, 97 pages tables, 5 plates ...	2	8	0

HENRY F. BLANFORD,
Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
" MADRAS SERIES ...	" 8	" 9
" BOMBAY SERIES ...	" 8	" 9
" ALLAHABAD SERIES	" 8	" 9
Complete set... ...	" 45	" 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

For a Part of the CALCUTTA SERIES ...	Rs. 3	8
" " MADRAS SERIES ...	" 1	0
" " BOMBAY SERIES ...	" 1	0
" " ALLAHABAD SERIES.	" 1	0
Complete set	" 4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA ;
MESSRS. THACKER AND CO., BOMBAY ;
MESSRS. HIGGINBOTHAM AND CO., MADRAS ;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY ;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

1. Whether the revised Rules 54 and 55 contained in the Circular are approved in supersession of the existing rules on the subject.	958	30
2. Whether the distribution of the divisible surplus in the Children's Fund shall, for the year 1882-83, be carried out under the revised rules in the manner described in paragraph 6 of the Circular.	894	26

By order of the Directors,
W. H. RYLAND,
Secretary.

U. S. F. P. FUND OFFICE;
CALCUTTA,
The 21st July 1882.

PROMISSORY NOTES.

Lost or Destroyed

The Government Promissory Note, No. 3981 of 14965, of the 4 per cent. of 1835-36, for Rs. 1,000, originally standing in the name of Raja Indoo Bhusun Deb Roy, and last endorsed to Poorno Chunder Gangooly, the proprietor, by whom it was never endorsed to any other person. Payment of the above Note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicate in favour of the proprietor.

POORNO CHUNDER GANGOOLY,
Serampore.

SUPPLEMENT TO
The Gazette of India.

№ 30.} CALCUTTA, SATURDAY, JULY 29, 1882.

OFFICIAL PAPERS.

A SUPPLEMENT *to the* GAZETTE OF INDIA *will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known.*

Non-Subscribers to the GAZETTE *may receive the* SUPPLEMENT *separately on a payment of six Rupees per annum if delivered in Calcutta, or nine Rupees if sent by Post.*

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA *is required by Law, or which it has been customary to publish in the* CALCUTTA GAZETTE, *will be included in the* SUPPLEMENT. *For such Orders and Notifications the body of the* GAZETTE *must be looked to.*

Executive Engineer, Meerut Division, reports that the greatest difficulty has been experienced in keeping alive the large area of sugarcane and indigo sown in March and April, and that in many places rice and cotton irrigation has had to be forcibly stopped to permit of sugar being irrigated.

Executive Engineer, Mainpuri Division, reports that there was a strong demand throughout the month for indigo and all kharif crops.

Executive Engineer, Eastern Jumna Canal, reports that there was a steady medium demand up to the 20th of the month, after that a full demand.

Executive Engineer, Rohilkhand Canals, reports that water was in great demand throughout the month for sugarcane; and that the area irrigated this year is larger than usual; whilst the supply in the rivers is below the average. There was rain on the 10th, 11th and 14th, which slightly eased the demand. In the Tarai water is being taken for early rice sowings.

Allahabad,
The 30th June 1882.

(a) Return not received. (b) Total receipts from 1st April to 25th June 1881. (c) Total receipts from 1st April to 24th June 1882.

(d) Due to adjustments made in the Supplementary Return ending 30th June 1881. (e) Separate returns for the I. V. and Kandahar State Railways for the first 8 days of July 1882 have been received.

(f) Total receipts from 8th April to 19th June 1881. (g) Total receipts from 1st April to 17th June 1882.

F. FIREBRACE, *Major, R.E.,*
Under Secretary.

SIMLA,
The 24th July 1882.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 25th JULY 1882.

GENERAL REMARKS.—The rainfall has continued to be general throughout the country. In the Madras Presidency it has again been heavy in the extreme south-west, and comparatively light in other parts. In Coorg also it has again been heavy. In the Mysore State it has been heavy in some districts, and light in others. In the Bombay Presidency very heavy in some parts, fair in others; while in the Poona District there has been a partial break. In Berar the rainfall has been fair; in the Central Provinces incessant; and in Central India and Rajputana fully sufficient for present requirements. In the Punjab there has been more or less rain in all districts. In the North-Western Provinces and Oudh there has been sufficient rain everywhere except in Gorakhpur. In Bengal some rain fell in all districts throughout the week, but in parts more is urgently wanted. The rainfall in Assam has been fair in some parts and light in one district. In British Burma it has been more or less heavy in all districts.

General prospects continue favourable throughout India. In British Burma ploughing and sowing are proceeding satisfactorily. In Assam the transplanting of the rice crop has commenced, but more rain is needed in some parts. In Bengal also the transplanting of late rice crop has commenced, and more rain is wanted for this purpose in Bengal Proper and Behar. The prospects of jute and other autumn crops continue favourable; sugarcane also is promising; and the early rice is being cut in parts of Central and Eastern Bengal. In the North-Western Provinces and Oudh the transplanting of rice is proceeding in some parts, and more rain is wanted for this purpose; in other parts the weeding of *juar* and cotton are retarded by excess of rain; generally *kharif* sowings are nearly completed, and indigo and sugarcane promise well. In the Punjab *kharif* sowings continue or are nearly completed, and prospects are favourable.

Prospects are also favourable in the Rajputana and Central India States, but in some places the young maize and millet crops have been damaged by too much rain. An excess of rain is also retarding weeding and transplanting operations in the Central Provinces. In Berar the sowings have been completed, and where already above ground the young crops are in good condition. In the Bombay Presidency sowings have likewise been completed; in several districts the crops have been injured by excessive rain; and in parts of Ahmednagar and Dharwar more rain is needed. In the Mysore State crops are generally flourishing, save where they have been damaged by floods. Coorg again reports floods and consequent damage to the rice, *ragi*, and coffee crops, and loss of cattle.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(July 26th)		
Bellary ...	·32 (average of five stations).	Standing crops generally good, but worm-eaten in parts; agricultural operations progressing; fever in parts.
Kurnool ...	·47 (average of six stations).	Season generally favourable; crops sprouting well; cattle-disease in parts; high flood in Tungabadra.
Ganjam ...	1·0 (average of twelve stations).	Standing crops thriving; fever, small-pox, and cattle-disease exist; cholera prevalent.
Kistna ...	·96 (average of ten stations).	Standing dry crops flooded in five taluks, fair in others; small-pox and cattle-disease in parts; high floods in Kistna river.
Chingleput (Madras) ...	·22 (average of five stations).	Standing crops under larger tanks and channels good; agricultural operations progressing; small-pox, fever, and cholera in parts.
Coimbatore ...	·70 (average of ten stations).	Standing crops generally good, though dry damaged in parts by rain and insects; harvest dry crops, outturn about average; fever and small-pox in parts.
Tanjore ...	·31 (average of two stations).	Crops generally good, though damaged by breaches in three taluks; cattle-disease in one taluk.
Madura ...	·25 (in one station)	Standing crops fair but withering in one taluk; harvest paddy; cholera in parts.
Malabar ...	10·68 (average of fourteen stations).	Standing first crop partially destroyed by heavy rain; small-pox, cholera, fever, and cattle-disease in parts.
Travancore ...	7·53	Paddy-fields being weeded; cultivation affected by incessant rain; fever slightly prevalent.
		General Remarks.—General prospects fair.
Bombay—(July 26th)		
Kurrachee ...	Kohistan, 12·10; Sehwan, 4·03; Johi, 4·60; Ghorabari, 3·58; Sujawal, 5·79; Dadu, 2·91.	Fever in two talukas; 2 cases of small-pox at Sujawal; river at Kotri on 24th, 18 feet against 15¼ feet on same date last year; some damage done to rice crops by rain in seven talukas; wheat, red rice, and *bajri* in Kurrachee 24, 36 and 32, in Manjhand 26, 44 and 46, in Sakro 18, 40 and 48, and in Shahbandar 20, 52 and 48 lbs. per rupee respectively.
Hyderabad ...	Rain in five talukas, average 3·42.	River very high; some damage to crops in Badin from heavy rain and in Guni from rain and breaching of the Hajipur bund; wheat 25, *juari* 44, *bajri* 39, red rice 32, and white rice 22 lbs. per rupee, respectively.
Ahmedabad ...	6·04	Total rainfall 25·23; sowings progressing; wheat 27 and *bajri* 31 lbs. per rupee.
Baroda ...	9·68	Total rainfall 29·04; transplanting of rice continues; cholera abating in Khari Division, but increasing in Gaekwar's Contingent camp at Manekwara in Kathiawar; *bajri* 20 and common rice 23 lbs. per British rupee.
Surat ...	6·00	Total rainfall 31·43; break commenced; slight damage by excessive rain in some talukas, in others young crops healthy; *juari* 35 and *nagli* 51 lbs. per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Násik ...	Igatpuri, 23·91; Peint, 22·47; Dindori, 4·55; Kalwan, 4·10; Nasik, 3·08; least in Nandgaon and Yeola, but sufficient.	Early crops good; *bajri* still being sown; break wanted in places; locusts in Nandgaon; *bajri* 36, wheat 24, and rice 25 lbs. per rupee.
Colaba (Bombay) ...	Rain every day; total of week 2·03.	Total rainfall to date 53·40, being 11·64 above average; abnormal temperature rose from 2° cool on 19th to 1° warm on 25th; vapour in air normal; abnormal wind westerly from 19th to 21st; afterwards wind normal.
Poona ...	.....	Partial break in weather; 4 cholera cases in Bhimthari, 2 fatal; young crops healthy; *bajri* 43 and *juari* 56½ lbs. per rupee, in Poona *bajri* 36¾ and *juari* 47¾ lbs. per rupee.
Ahmednagar ...	1·74 in Akola and from ·49 to ·95 in other talukas.	Total average rainfall of district up to date 10·86, more rain wanted; sowing of *kharif* completed in Nagar and in progress in all other talukas; cattle-disease in Nagar; cholera—in Parner 10 attacks, 2 deaths, and in Shrigonda 36 attacks, 12 deaths; *bajri*—maximum 60 lbs. in Jhamkhed, minimum 45 in Kopergaon; *juari*—maximum 96 lbs. in Jhamkhed, minimum 54 in Kopergaon.
Sholapur ...	·23	Total rainfall to date 16·92; cholera throughout district except Karmala, 96 cases, 34 deaths; *kharif* sowing almost completed; *bajri* 56 lbs. 12 tolas and *juari* 75 lbs. 8 tolas per rupee.
Dharwar ...	Maximum at Hangal, 8·15; minimum at Mundargi, ·42.	Rivers Tungabadra, Warda, and Kumadmali in flood; some villages in Gadag, Rannibennur, and Karajgi talukas inundated, much damage to houses and property; several tanks burst in Margund and Muridargi *pettas;* more rain wanted in Bankapur, Hangal, Rannibennur, Karajgi, Khalghatgi and Kod talukas; break desired for sowing *juari* and to prevent further damage to young crops; public health good; rice 22 and *juari* 58 lbs. per rupee.
Kanara ...	Karwar, 6·64; Kumpta, 17·00; Sirsi, 24·50; Hallial, 14·48.	Total rainfall 72·77; weeding, transplanting, and sowing *coomrie* lands continue; cattle-disease, fever, and small-pox subsiding; heavy rainfall has damaged rice plants in several places; rivers, tanks, and even roads in low places flooded, some huts washed away but no lives lost; common rice in Karwar 11½, in district average 15½ seers per rupee.
Rajkot ...	1·18	Total rainfall 13·65; weather monsoonish; crops thriving; general health fair; cholera continues in some places; *bajri* 26 and *juari* 30 lbs per rupee.
		General Remarks.—Sowings mostly completed and transplanting in progress; partial break in weather; crops injured by excessive rain in several districts; more rain wanted in parts of Ahmednagar and Dharwar; fever and cattle-disease in a few districts; cholera in Belgaum, Satara, Sholapur, Ahmednagar thana, and parts of Kathiawar.
Bengal—(July 26th)		
Chittagong ...	2·28	More rain wanted; cultivation of winter rice going on; prices stationary; cholera has abated in some places; cattle-disease and fever still continue.
Dacca ...	1·01	Jute and autumn rice being cut; complaints of want of rain for rice on high land.
24-Pergunnahs (Calcutta)	2·04	Prospects of jute, sugarcane, and early rice fair; transplanting of winter rice rapidly going on; public health generally good; rivers rising.
Moorshedabad ...	1·52	Autumn rice promises well, in some places it is being cut; transplanting of winter rice going on; more rain still wanted; some cases of fever at Rangamati; public health generally good.
Rajshahye ...	2·61	Prospects generally favourable, though more rain wanted; jute being cut; health fair; fever and a little cholera still reported.
Burdwan ...	3·21	Weather seasonable, though more rain required for winter rice, especially in Katwa subdivision; public health generally good.
Rungpore ...	0·65	Weather hot; more rain wanted for transplanting of winter rice; condition of other crops favourable; public health good.
Bhagálpur ...	1·38	Autumn crops promise well; more rain requiredfor transplanting rice.
Purneah ...	0·65	Prospects of crops fairly good but rain is badly wanted; no transplanting for want of rain; health fair; Ganges high; Kosi low.
Patna ...	1·08	Prospects of autumn crops good; more rain wanted for transplanting rice; cholera still reported from Barrh and Behar subdivisions.
Durbhunga ...	0·58	Transplanting of rice crops going on very slowly for want of rain, which is urgently required; prices rising; cholera still reported in Sadr and Tajpur.
Hazáribágh ...	5·0	Weather cloudy and showery; transplanting of rice going on vigorously; cattle-disease, cholera, and small-pox still linger; general health good.
Cuttack ...	10·69	Autumn and winter rice crops being weeded and reploughed; sugarcane growing well; cholera still prevalent.
		General Remarks.—Rain fell in all districts during the week; more rain is much wanted in many parts of Bengal proper and throughout Behar for transplanting late rice; in Orissa and Chota Nagpur the fall was sufficient for transplanting; prospects of early rice, jute, and other autumn crops continue favourable; sugarcane also promising; early rice is being cut in places in Central and Eastern Bengal; fever has appeared in a few districts; cases of cholera and small-pox still reported from some districts; public health generally fair.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. Provinces and Oudh—		
Benares ...	1·6; Chandauli, 3·4.	Report from Gungapur not yet to hand; not enough rain in Benares tahsil for transplanting early rice; health of cattle good; cholera increasing; bazars well supplied.
Cawnpore (July 25th)	Average more than 0·7	Weather cloudy; prospects excellent; a few cases of cholera reported from Ghátompur, Barrh, and Salempur; prices stationary.
Allahabad („ 26th)	Good rain during the week.	Crops flourishing; *bajra* sowings in progress; rice being transplanted; not much sickness for season; prices falling.
Gorakhpur („ 25th)	No rain for twelve days, except local showers.	Crops still green, but rain much wanted; prices rising.
Jhánsi („ 24th)	From 13·1 in pargana Mau to 0·8 in pargana Moth; average 9·0.	Owing to excessive rain weeding of *juar* and cotton in *már* soil being retarded; fine weather wanted; health good; prices fluctuating.
Agra („ 25th)	Rain in all parganas from 0·6 to 3·0.	Indigo, sugarcane, and cotton promise well; and break wanted to facilitate weeding; slight fever in two parganas, and slight cholera in Firozabad; general health good; prices slightly falling.
Farukhabad („ „)	Rain throughout the district.	Prospects good; markets well supplied; health good.
Bareilly („ „)	About 2·0	Weather seasonable; prospects good.
Meerut („ „)	Occasional rain; Meerut, 2·8; Hapur, 3·0; Mowana, 3·8; Sardhana, 2·7; Ghaziabad, *nil*.	Weather seasonable; health good; crops flourishing; imports into markets scanty, but sufficient; generally prices stationary.
Kumaun („ „)	Fair rain	Very favourable weather for crops; 3 deaths from *máhámari* disease; cattle-disease still prevalent; prices stationary.
Lucknow („ „)	Sadr, 1·4; Maliabad, 1·1; Mohanlalganj, 1·3	*Kharif* sowings nearly finished; bazars well supplied; cholera increasing in city and in tahsil Mohanlalganj.
Rae Bareli („ 24th)	Sadr 0·5; Dalamau, *nil*; Digbijaiganj, 0·8; Salon, 0·6.	*Kharif* sown; weeding commenced; prospects good; cholera still continues; no cattle-disease; prices steady.
Partabgarh („ 25th)	General rain throughout the district.	Prices falling; prospects good; cholera still continues in Partábgarh and Patti tahsils.
Sitapur („ „)	Rain just enough to keep ordinary crops in good condition.	Rice suffering for want of sufficient rain; cholera increasing in Sitapur tahsil; slight cattle-disease throughout the district; prices stationary.
Fyzabad („ „)	0·8	Agricultural operations in progress; cholera still continues in three tahsils.
		General Remarks.—Rainfall sufficient, except in Gorakhpur, where rain is much wanted; break wanted in Agra and Jhánsi; prospects generally good; prices stationary; cholera continues in eastern districts and is increasing in Lucknow and Sitapur, otherwise health normal; cattle-disease continues in Sitapur and Kumaun.
Punjab—(July 25th)		
Delhi ...	·60	*Kharif* sowings nearly completed; health good; prices steady.
Hissar ...	1·40 at Sadr	Health good; prices steady.
Umballa ...	·40	*Kharif* sowings in progress; health good; prices steady.
Jullundur ...	1·30	Health good; prices steady.
Amritsar ...	1·40	*Kharif* sowings continue; health good; prices steady.
Sialkot ...	1·50	*Kharif* prospects good; health good; prices steady.
Lahore ...	4·50	Health good; prices steady.
Ferozepore ...	·50 at Sadr	*Kharif* sowings continue; health good; prices rising.
Mooltan ...	4·0 at Sadr	Crops good; health good; prices stationary.
Rawalpindi ...	1·70	Crops good; health good; prices steady.
Dera Ismail Khan ...	.....	No report received.
Peshawar ...	·60	Health fair; prices rising.
		General Remarks.—Rain has fallen throughout the province; health good; prices of food-grains generally steady.
Central Provinces—		
Raipur (July 22nd)	3·45; heavy rain on 20th.	A break since; reploughing of rice-fields carried on; 10 cases of cholera in north-west; prices easy; rice 46 and wheat 29 seers per rupee.
Jubbulpore ...	6·10; incessant rain, heavy at times.	Break needed; sowings continue; cholera prevalent; prices stationary.
Saugor ...	9·13; excessive rain	Cotton and *juar* suffering, other crops favourable; prices steady; health fair.
Seoni ...	5·83; incessant rain	Weather cold and damp; rice transplantation nearly finished; cholera and cattle-disease prevalent; prices stationary.
Hoshangabad (July 25th)	7·65	Standing crops damaged; break needed; small-pox and cholera prevalent; rice 9, wheat 15, and *juar* 24 seers per rupee.
Nagpur („ 26th)	3·07	Break favourable for weeding; *kharif* somewhat suffering from incessant rain; cholera and diarrhœa prevalent.
Sambalpur ...	.....	No report received.
Khandwa ...	4·49	Sowings suffering from continuous rain; break needed; prices steady; small-pox prevalent.
		General Remarks.—Incessant rain unfavourable to *kharif*; break much needed for weeding and transplanting operations; cholera somewhat prevalent; prices continue easy.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
British Burma—(July 22nd)		
Akyab ...	19·26	Total rainfall 123·92; slight small-pox in part of the district, otherwise public health good; cattle-disease in four townships; sowing in progress; early crops good.
Rangoon ...	9·24	Total rainfall 41·94; public health good; ploughing commenced.
Bassein ...	7·95	Total rainfall 59·58; a few deaths from cholera in three townships, otherwise public health good; cattle-disease prevalent in the same townships; ploughing progressing favourably; planting going on in some places.
Prome ...	2·21	Total rainfall 19·11; 3 deaths from cholera in town and 12 in the district; some cattle-disease in three townships.
Amherst (Moulmein) ...	17·51	Total rainfall 109·83; 5 deaths from cholera in the district, otherwise public health good both in Moulmein and the district; cattle-disease has appeared in two townships, but is decreasing in others; ploughing and sowing still progressing.
Toungoo ...	9·65	Total rainfall 44·02; public health good; cattle-disease prevalent in two townships.
		General Remarks.—Cholera somewhat prevalent in Pegu and Irrawaddy Divisions; public health good; cattle-disease continues; rainfall generally abundant; agricultural operations proceeding satisfactorily.
Assam—(July 25th)		
Gauhati ...	1·65	Weather hot; rain much wanted for the transplanting of the *sali* paddy; *aus* being reaped; public health good.
Sylhet ...	2·10	The drought of last three weeks has retarded cultivation of *sali* paddy to a serious extent; tea and other crops suffering; rivers extraordinarily low for time of year.
Cachar ...	1·92	Weather excessively hot; ploughing for *sali* crops nearly finished and transplanting commenced, but rain wanted; state of *chuma* and *murali* crops good; prospects of tea outturn excellent; 1 case of cholera reported from Lakhimpur; no spreading of cattle-disease reported; common rice 21 $\frac{5}{16}$ seers per rupee.
Dibrugarh ...	0·61	Weather seasonable; transplanting of *sali dhan* commencing; *ahu dhan* being cut; public health generally good, but some cases of cholera in the Sadr subdivision; cattle-disease still reported; 44 emigrants died by the overflooding of the Subansiri.
Mysore and Coorg—(July 26th)		
Bangalore ...	1·18	Standing crops in good condition; generally more rain needed for *ragi* crops and wet cultivation; prospects of season and public health good; price of rice 11, *ragi* 25½, and horse-gram 28¾ seers per rupee.
Mysore ...	·39	Crops flourishing; public health favourable; floods in rivers subsiding.
Mercara ...	10·43	Monsoon continues; Cauvery temporarily unfordable for days together; the heavy rains have done much damage to rice-fields by washing away embankments and nurseries; numbers of cattle have died from exposure; the *ragi* crops in the Najarajpatna taluk and the coffee crops on the Sampajighat and North Coorg have suffered from excessive rain; transplanting of rice commenced; prices stationary; public health good.
		General Remarks.—Heavy rain in Hassan, Shimoga, and Kadur districts; Tungabadra flooded, inundating adjoining fields and plains, causing some damage; crops in good condition; agricultural operations continue; prospects favourable; public health reported good; ruling prices—rice 11 to 12, *ragi* 22 to 40 seers per rupee.
Berar & Hyderabad—(July 26th)		
Amráoti ...	1·24	Crops in good condition; wheat 18 and *juari* 30 seers per rupee.
Akola ...	2·28	Sowings completed; prospects favourable.
Hyderabad ...	.....	No report received.
Central India States—(July 26th)		
Indore ...	2·39	There is at last a break in the rain, and some sunshine may now revive the young maize and millet; health good.
Morar (Gwalior) ...	2·81	Health and prospects good.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read—

Note by Mr. T. C. Hope, Secretary to the Government of India in the Department of Finance and Commerce, on the Iron Industry in India.

Despatch to Her Majesty's Secretary of State for India, No. 175, dated 1st July 1881, recommending the purchase of the Bengal Iron Works.

Despatch from Her Majesty's Secretary of State for India, No. 40, dated 25th August 1881, sanctioning the purchase.

Report on the Bengal Iron Works, by Ritter C. von Schwarz, dated 26th October 1881.

Telegram from the Government of Bengal in the Public Works Department, dated 5th April 1882, reporting conclusion of negotiations for purchase.

Letter to the Government of Bengal, Public Works Department, No. 494, dated 19th April, regarding temporary charge of the works, and calling for report on condition and utilisation of works.

Letter from the Government of Bengal, No. 2343E., dated 14th July 1882, furnishing reports by Ritter C. von Schwarz, with Memorandum by the Chief Engineer.

RESOLUTION.—The Government of India have, for some time past, had under special consideration the importance of developing the iron industry in India. The advantages which such development would afford to both the State and the public,—by cheapening the cost of railway construction and maintenance, and of works for improving the water-supply; by substituting metal for more perishable materials in buildings; by reducing the home charges and their concomitant loss by exchange; by creating for the population non-agricultural employment; and by increasing the means for profitable investment of capital,—are too well known to require lengthened exposition.

2. Regarding the capabilities of the Indian iron measures to fulfil all that is required of them, no doubt can reasonably be entertained. Moreover, they lie, for the most part, in convenient proximity to either ample supplies of coal or forests available for use in the preparation of the ore. In Assam,

Kuch Behar, Burma, and the Kumaon ranges the prospects are promising to a greater or less extent. In Lower Bengal, the Raniganj district, Sonthalia, and Chutia Nagpur; in the Central Provinces, Sambalpur and Chanda; in Central India, the ranges near Gwalior; and in the Punjab, numerous localities, are found to be specially endowed with all the requisites for successful production. In quality the ores are mostly found to be extremely pure; and where the proportion of phosphorous and other impurities is large, recently invented processes have removed all obstacle to their successful elimination.

3. Under the circumstances above described, it may be accepted as proved that India possesses the means of supplying all her wants in respect of cast iron, wrought iron and steel, and that such supply could be produced remuneratively on a strictly commercial basis. The establishment of iron works to be owned and worked by the State is open to grave objections, both economic and practical, and being likewise unnecessary, need not be discussed at length. Nothing appears to be necessary in order to attract private enterprise to so eligible an opening except the collection and diffusion of sufficient information, and the grant of such facilities as the State may legitimately and reasonably afford to a young and growing industry.

4. Private enterprise in this matter, however, must evidently be on a large scale, and not confined to one locality alone. The distances in India are so great, and the railway system now so extended, that the cost of conveying material to the spot where it is needed is an important factor in every calculation. It has been proved that, unless mills were established in four different localities, the cost of sending old rails and tyres to be worked up afresh would exceed that of obtaining new ones from England. A similar conclusion has been formed as to the gain by substituting iron sleepers for wooden ones. Raniganj, the Punjab, and the Central Provinces appear to be the localities in all of which extensive operations would be necessary in order to meet early necessities of the case. Whether these localities should be occupied by different Companies or by one is a matter of detail, but the aggregate capital required would obviously be large. The amount required might perhaps be beyond the local resources of the Calcutta or Bombay money market, and the investment uncongenial to those in Europe with whom those markets are connected in their ordinary mercantile transactions. England must likewise be looked to; and those capitalists in England whose knowledge and resources are specially directed to the iron industry.

5. Towards the development of the industry in the Raniganj district, the attention of the Government has in the first instance been directed, in consequence of the fact that a private Company was established a few years ago near Barrakur, but after a short time fell into difficulties from causes which need not be related, and was obliged to suspend operations. After carefully investigating the causes of failure, the Government of India came to the conclusion that the only way in which the works could be, at any early date, placed in the hands of experienced persons having an adequate command of capital, was by an intermediate purchase on the part of the State.

6. The "Bengal Iron Works" have consequently been purchased for the sum of Rs. 4,30,761. His Excellency the Governor General in Council is now pleased to announce that they will be retransferred for that sum, together with any further indispensable outlay, to any parties who may establish satisfactorily that they are in the possession of sufficient skill and resources, and *bonâ fide* prepared to carry on the manufacture of iron and steel upon a scale commensurate to the probable needs of that portion of British India which is within reasonable distance of the works. His Excellency in Council will further be prepared to enter into an engagement, if so desired, to take annually for ten years, at fixed prices to be previously agreed upon, not less than a certain weight of the Company's manufactures. This weight will be determined with reference to the average requirements of the Government for railways and other public works in the territory to the north and east of the East Indian Railway from Calcutta to Mogul Serai. With a view to facilitate the formation of a judgment on the prospects of the enterprise, the reports by Ritter C. von Schwarz, which are specified in the heading to this Resolution, will be made public, and further explanations or information will, as far as practicable, be

afforded; but it must be distinctly understood that the Government decline to be responsible for the accuracy of any calculations or estimates so put forward.

7. In order to ascertain more fully the capabilities of the Chanda district of the Central Provinces, Ritter C. von Schwarz was some months ago deputed to the locality, and has submitted a very full and able report, which is also now made public, under a similar reservation. The Government of India are now engaged in ascertaining the probable demand for iron and steel within a suitable radius of Chanda, and in comparing the merits of that locality with those of others in the Central Provinces. Any information which may become available will be published in due course. Similar investigations will be pursued in the Punjab and other parts of India, as circumstances may permit.

8. In view of the importance of fully developing at the earliest possible date the resources of India in coal and iron, and of the necessity of unity and vigour of action to this end, His Excellency the Governor General in Council is pleased to direct that the Department of Public Works of the Government of India shall be the initiating Department in relation to the utilisation of these minerals, subject to the customary general control of the Department of Finance and Commerce in matters of contract and expenditure, and to the usual consultation of the Revenue or Political Department on any matters in which they may be respectively concerned. Those Departments, on the other hand, as also all Local Governments and Administrations, should, by the collection of information or otherwise, co-operate with the Department of Public Works towards the attainment of the end in view.

ORDERED, that this Resolution be communicated to all Local Governments and Administrations, and to the Public Works, Revenue and Agricultural, and the Political Departments of the Government of India; and that it be published, together with the reports of Ritter C. von Schwarz, in the *Gazette of India*.

Report on the reopening of the Bengal Iron Works for the production of 80 tons castings per 24 hours.

When, in 1875, the Bengal Iron Works Company first opened, English pig iron was selling in Calcutta at Rs. 60 per ton, whilst the cost of production of the pig iron made at the Company's Works was Rs. 65. Within two years this was reduced to Rs. 40, but meanwhile, or at least by 1878, English pig iron was quoted in Calcutta at Rs. 29 per ton. The Company being unable to further force down the cost price of their pig iron, the failure of the undertaking became manifest, and resulted in the closing of the Works in 1879. At this present time English pig iron of the quality which used to be produced at the Bengal Iron Works is selling in Calcutta at Rs. 35 per ton; therefore still Rs. 5 below the cost price arrived at by the Company.

As since the closing of the Works the prices of the raw materials (iron ores, coal and limestone) have not fallen, and as, on the other hand, the cost of labour has risen, the success of the reopening of the Bengal Iron Works depends on decreasing the cost of production through improved arrangements in some directions and a simplification of working procedure in others. To arrive at the desired result the following measures are proposed :—

1.—The substitution of certain machinery for certain manual labour formerly employed, and the introduction of certain simplified yet improved methods of working, both having for their object a saving of material and cost of labour.

2.—Arrangements for increasing the capabilities of the Works for the quantity of production by means of which, in an indirect way, the cost of labour, of management, wear and tear, &c., is diminished as the expenses on these are distributed over a larger amount of produce.

3.—Arrangements for utilizing the collateral produce of the Works.

In the following pages the proposed improvements will be treated of, namely, what they consist, and how in the present case they can be introduced expeditiously, cheaply and effectively.

It is evident that, in the main, the present arrangements will be maintained as much as possible, and that our task will consist more in completing these than in carrying out essential alterations.

I.—Alterations in the blast furnaces.

1. The height of each blast furnace and their hoist is to be increased by 6 feet, *viz.*, making their total height from bottom to top 61 instead of 55 feet, and the inner diameter of the furnace hearth to be increased from 5 feet to 6 feet.

2. The total square section of the nozzles should be raised from 20 to 35 square inches, the wind pressure from 5 to 8 inches mercury, and the number of the twyers should be doubled, *viz.*, the 3, as at present, should be increased to 6.

These alterations will increase the productive capacity of the furnaces which in general depends on the dimensions of the furnaces.

Next to the dimensions of the furnace it is the square section of the nozzles, the wind pressure, and the temperature of the same which, when raised, increase the productive capacity of the blast furnace; nevertheless these must remain in a certain ratio to one another, and must be kept within certain limits dependent on the inner dimensions of the furnace.

The doubling of the twyers has for its object a more effective distribution of the wind, which becomes more necessary as the square section of the furnace, before the twyers, is to be enlarged.

3. The water twyers should be made of bronze instead of cast iron (as at present), water boxes for cooling the hearth should be introduced, the angle of inclination of the boshes should be enlarged to 80°, and the inner form of the furnaces rounded off, so as to avoid all sharp angles and sudden transitions in order to secure a uniform descent of the melting column, and to avoid a derangement of function through a blocking up of the melting column.

It may be mentioned here that the blast furnace No. 1 of the Bengal Iron Works, although its inner dimensions had been theoretically correctly chosen, was within scarcely two years so much burned away inside, and got so much out of shape, that it had to be laid cold, which drawback was caused by nothing else than the sharp transitions between shaft and boshes, the steep angle of inclination of the boshes, and the total absence of water cooling of the hearth.

Blast furnaces of a correct inner form should work at least from 8 to 10 years without any appreciable interruption.

The object of using bronze instead of cast iron for the water twyers is to achieve greater durability of the same, which, as experience has shown, is in this case of special importance, as through faulty twyers water enters the blast furnace, which, it is well known, deranges its function, and may even cause dangerous explosions.

Besides, the bronze twyers, when used up, have still the value of their metal, whilst old cast iron twyers are of little value as material.

4. It is further recommended to introduce, in connection with the blast furnaces, Leirmann's arrangement for drawing off the slags, instead of the obsolete system employed in the Bengal Iron Works to allow the slags to flow over the dam plate by means of the cinder notch. It would lead me too far to set forth all the advantages of this system; a full description of it may be seen in the technical works of Dr. John Percy, Dr. Wedding and others. Suffice it to say that this system may be seen already in use in most blast furnaces of England, Germany and America.

5. The adoption is recommended of "Parry's cup and cone" for the furnace top and of all other arrangements for collecting, cleaning and conducting the blast furnace gases to the hot blast ovens and steam-boilers. "Parry's cup and cone" serves for closing the furnace top for the purpose of drawing off the gases, and at the same time also to facilitate an uniform and correct serving of the blast furnace with the raw materials, namely, iron ore, coke and limestone.

The apparatus combines simplicity with usefulness, and has also the advantage over all other apparatus of the same kind, that it renders possible so to serve the blast furnace that the workmen are in no way oppressed either by heat, dust, or by the poisonous gases always given off by the blast furnace when under serving.

Parry's cup and cone was first applied to a blast furnace at Ebbev Vale in South Wales, and has thence successfully spread to England, Germany and America.

In connection with Parry's cup and cone an arrangement is proposed for leading off and cleansing the blast furnace gases from dust, consisting of sheet iron pipes, in which at the bends dusting chambers are inserted.

The action of the dusting chambers is to suddenly increase the section of the gas conduit, whereby the velocity of the gases is reduced and the opportunity is given to the impurities to settle or precipitate themselves.

The most suitable form of this arrangement is the so-called "S apparatus." It is made of sheet-iron rivetted so as to be air-tight.

The bottom in one part does not join the sides (*vide* sketch in the margin), but is bent in a slanting form, so that a connection exists between the inner space and the outside air in the manner of the communicating tube.

The lower part of the apparatus is filled with water, which serves as a separation between the gas and the atmosphere. The here precipitated dust of the gases may from time to time be removed with a shovel through the opening C.

The water serves at the same time as a safety valve, as, in case of too high a pressure in the gas pipe, it is forced out.

This cleansing apparatus has been successfully applied to all the new blast furnaces in the east of France, and has already been copied in Germany, England and Austria.

The apparatus for burning the gases have to be applied separately to each furnace and each boiler.

Their arrangement aims chiefly at mixing thoroughly the furnace gases with the air necessary for burning them, and to conduct this mixture over a lighting fire, in order that the gases may be kept constantly burning, and the danger of their being extinguished be prevented, as in this case an explosive mixture of air and gases would be evolved.

Blast furnace gases consist chiefly of carbonic oxygen gas (C.O.) (*vide* " Report on the Bengal Iron Works," page 2), which, to reach the desired effect, has to be completely burnt to carbonic acid (C.O. 2).

An arrangement answering the foregoing requirements may be seen in several new iron-works in England and Germany. It was first introduced in Neustads in Hanover, and is constructed on a principle of Faher du Faur.

6. It is also recommended to connect with each blast furnace a reserve apparatus for heating the wind (*vide* " Report on the Bengal Iron Works, page 3 ").

7. It is further advised to introduce apparatus for utilizing the blast furnace slags in the fabrication of cement, artificial stones and " slag wool." (For particulars on this subject please see " Report on the Bengal Iron Works," page 2.)

II.—Apparatus required for preparing the raw materials.

1. Three ore crushers for the mechanical breaking up of the iron ore and limestone. (For particulars please see " Report on the Bengal Iron Works," pages 2 and 3.)

(2) Belgian cake ovens with a coal-washing apparatus.

The Burrakur coal has the following chemical composition :—

Fixed carbon	65	per cent.
Carbon combined on hydrogen	6·60	"
Hydrogen	4·94	"
Oxygen and nitrogen	9·32	"
Sulphur	0·44	"
Moisture	3·65	"
Ashes	10·05	"

This coal with so high component parts of carbon and hydrogen, although its percentage of ashes is rather high, must be considered as well suitable for metallurgical purposes.

The coke made of this coal at the local coal mines has 16 to 18 per cent. of ashes, and sells at more than double the price of the coal from which it is made.

Although the contents of fixed carbon in this coal is 65 per cent., and that of ashes 10·05 per cent. (therefore the percentage of unvolatile matter is about 75), the coke produced from it is only 50 per cent. ; this shortcoming being due not to the quality of the coal, but to the primitive arrangement for making the coke. The arrangement consists in open kilns where the access of atmospheric air is not to be despised ; but, on the other hand, under such conditions a considerable portion of the fixed carbon, the most valuable component of the coal in regard to the production of coke, is driven off along with other volatile substances as carbonic oxygen gas (C.O.) ; the outturn of coke is therefore poor, and the quantity of ashes considerably increased. It may here be observed that a large proportion of ashes in coke reduces its value very much, for purposes of its use in the blast furnace : ashes consist chiefly of silicic acid (Si. O.2) which, being almost infusible, requires a larger addition of limestone to melt it, and as a matter of course occasions a greater consumption of fuel. Besides, with coke rich in ashes a smaller quantity of carbon is distributed through a larger volume of matter, whereby the pyrometric effect of every description of fuel is diminished. In the Bengal Iron Works the production of one ton pig iron used to require the consumption of 36 cwt. of coke and 32 cwt. of limestone—a very unfavourable condition of working ; it will therefore be necessary to introduce a more favourable system of coke-making, namely, first to wash the coal, that is, to free it as much as possible from the substances producing the ashes, and then to " distil " it in closed furnaces.

For the treatment of coal in making coke the Belgian coke furnaces (system François and Rexroth) would give in one case the best results.

These furnaces yield 95 per cent. of the non-volatile components of the coal, and they are particularly suitable for India on climatic grounds, as the coke is removed from the furnace by a machine, by which the workmen are spared the enormous radiating heat. There is also a saving of coke through the quickness of the operation of removing it, as under a slow process some of it is lost by combustion.

These coke furnaces require no special firing ; they heat themselves with their own gases, which are led in channels around them, and having done their duty to the furnaces, they are collected into a common channel, say for 25 furnaces one, and are then utilized for heating steam boilers.

With this system of furnaces the Burrakur coal may be made to yield coke containing from 6 to 8 per cent. ashes only instead of 16 to 18 per cent. as now, which would raise its value as a fuel for the blast furnace by 20 per cent., and the consumption of coke per ton of pig iron would be reduced from 36 to 28 cwt.

It should also be mentioned that the refuse of coal in the washing basins, a sort of coal mud, may be utilized for heating the drying furnaces in the foundry and for other subordinate heating purposes. (Please see "Report on the Bengal Iron Works," page 3, drying furnaces.)

III.—Blowing engine.

1. It is recommended that a second blowing engine of the capacity of the present be acquired. The amount of wind which must be forced into a blast furnace depends on the quantity of coke which is burnt in it in a given time, and upon the percentage of carbon in this coke.

It must here be remembered that the whole of the carbon in the coke must be reduced to carbonic acid (C.O. 2) to produce the desired effect in the blast furnace.

The present blowing engine may be estimated at a maximum effect of 5,980 cubic feet air per minute, but this is only half the requirement, which can be shown to be 11,344 cubic feet per minute; therefore, if the two blast furnaces are to turn out 80 tons of pig iron per 24 hours, a second blowing engine of the same effect as the present one is required. The calculations to the above will be found in Appendix No. 1 (page 31).

2. The steam boiler establishment belonging to the blowing engines also will have to be proportionally increased to 440 horse-power, as the present one is only sufficient to yield 100 horse-power. For calculations please see Appendix No. 2 (page 33).

It must be mentioned here that the Bengal Iron Works Company never worked the two blast furnaces at the same time, which is chiefly due to the insufficiency of their boiler establishment being only able to furnish the motive power for the production of 20 tons of pig iron per 24 hours, although the blowing engine, blast furnaces, and hoist, chimney, &c., are corresponding to 40 tons production per 24 hours.

3. With the employment of a second blowing engine the dimensions of the blast conduit and regulator of blast will have also to be proportionally enlarged.

IV.—Storeyard for iron ore, limestone and fuel.

To keep up a sufficient stock of the raw materials in a proper way a better arrangement for their deposit is required. How this is to be managed may be seen from the annexed plan No. 1 (*vide* mixing plans and filling bank).

Under the circumstances before us a large stock of the raw materials is not required, as they are to be had in the immediate neighbourhood of the iron works, and there is no fear of interruption in their regular delivery. Without regard to the dead capital lying on large stores, there is a difficulty in controlling them; they take up a large space, and cause other inconveniences.

As regards iron ores and limestone, a store for three months is ample. Of coal not more than a monthly store should be kept, as coal loses through long exposure to the air greatly in its value in consequence of the evaporation of the valuable carburetted hydrogen gases, especially during the dry season.

V.—Alterations on the foundries.

1. It has already been pointed out in my "Report on the Bengal Iron Works" (page 3) that the casting direct from the blast furnace, namely, without remelting the pig-iron in the cupola furnace, is recommended.

To attain this it is advisable to remove the standing Foundry No. 1 close to the blast furnaces (*vide* plan No. 1). This can be easily done, as the foundry shop mentioned only consists of a roof of corrugated sheet iron, supported by pillars and rolled beams. Most of the pillars are of wood, and should be replaced by cast iron pillars. As, however, the foundry shop No. 1 alone would not be sufficiently large for the production of 80 tons sleepers per day, and the foundry No. II being built of stone cannot be removed, the enlargement of foundry No. I and the erection of a new one (*vide* plan No. I) will become necessary.

2. The foundry shop No. II can be especially arranged for making pipes; the necessary alterations in the drying furnaces and the other arrangement for casting and tiering pipes have already been treated off in my "Report on the Bengal Iron Works" (pages 3 and 4).

3. The cupola furnaces attached to the foundry remain as a reserve in order to remelt the pig iron produced from the blast furnaces on Sundays and holidays (as the working of the blast furnaces cannot be stopped on such days), and to utilise the scraps of the foundries.

A slight alteration in their construction is recommended according to a principle invented by Fauler in Freyburg (Bavaria); to explain this invention in detail would lead too far, suffice it to say (*a*) that it has proved practicable since the last 5 years; (*b*) that its virtues lie in the saving of 15 per cent. of fuel; and (*c*) that it can be cheaply introduced in the present arrangement of the cupola furnaces.

4. It is further recommended to use moulding machines for making sleepers.

These machines serve to lift the pattern out of the sand *strictly vertical*, which can never be correctly accomplished by hand, in consequence of which much labour and time is lost in repairing the mould.

These machines are especially adapted where many castings of *one* pattern are required, which is therefore suitable in our case.

5. The introduction of an apparatus to gain the "wash iron" out of the used sand of the foundry and the pig bed shed of the blast furnaces is advised.

This apparatus is an inexpensive arrangement, by which the greater part of the spilled cast iron can be regained; it renders 2 per cent. of the production of castings, namely, about 1½ tons "wash iron" per diem.

VI.—Alteration in the chief water-supply.

In consequence of the proposed enlargement of the foundry and the blast furnaces, the cooling apparatus for the latter, and the erection of coke furnaces, &c., the present arrangement for water-supply will not be sufficient. Besides this, the present way of supplying water is so complicated a one that it can bear being simplified by this opportunity. It consists now in pumping out the water from the Barakar river by means of a large pumping engine erected on its banks, and leading it through cast-iron pipes of 10-inch diameter for a distance of about 1¾ miles to a tank near the iron works; from there the water is pumped up to a height of about 10 feet into a second smaller tank, from whence it is led by means of pipes to wells situated near the blast furnaces and the foundries; here it is pumped for the *third* and last time into the highwater reservoirs, from whence at length it is led to its destination. To avoid this roundabout way it is recommended to erect a highwater reservoir, for about 15,000 cubic feet contents, on the border of the large tank, and to lead it from thence directly to its destination.

As the required quantity of water is rather large, and the difference between the water levels of the tank (from where the water is to be pumped *out*) and the highwater reservoir (where it is to be pumped *in*) will be not more than about 30 feet, *centrifugal pumps* are recommended.

VII.—Buildings and out-houses.

1. The greater part of the out-houses belonging to the works were built of mud walls with thatched roofs, and are now in a tumble-down condition, leaving only the stones lying about, which will do for rebuilding them.

2. For native workmen it is recommended to make a bathing tank, which can be easily done by enlarging the present one.

3. The erection of huts for about 600 coolies is also advised.

4. A boundary wall round the works should also be erected in a substantial way so that it answers the purpose. Although it is rather expensive, most of the iron works are provided with one, as the damage caused by running away of workmen, unbidden visitors, and stealing, justifies the greater expense of a wall.

This wall must be about 7½ feet high, and must be provided with sharp objects (the simplest ones being blast furnace slags) built in on the top in order to prevent the scaling of the wall.

VIII.—European workmen.

With regard to European workmen for iron working in general, I refer to the "labour question" treated of in my Report on Chanda (page 10).

To start the works, in order to produce 80 tons castings per 24 hours, the following European working have to be brought out from Europe:—

(1) One blast furnace foreman.
(2) Four first men for the blast furnaces.
(3) Four second men for ditto.
(4) Four third men for ditto.
(5) Two workmen for the coke furnaces.

IX.—Amount of production.

The cast-iron parts for one sleeper (broad-gauge railway) weigh, including jaws, about 188lbs.; the sleepers lie at a distance of one yard, centre to centre from each other; this gives a consumption of 148 tons of cast iron per running mile railway.

Therefore, with the proposed arrangements (which allow the production of about 80 tons of sleepers per 24 hours) it would be possible to yield the requirement of *sleepers for about half a mile of railway per day.*

Approximate estimate

for the improvements and repairs of the Bengal Iron Works for the production of 80 tons of cast-iron sleepers and other castings per 24 hours (*vide* plan No. 1).

I.—Furnaces and Machinery.

(*a*)—*For the blast furnaces*—

	Rs.
3 ore-crushers	7,200
Derrick and steam engine for the same	2,500
Raising of the blast furnaces and their hoist by 6 feet and repairs on the casing of the furnaces	14,000

	Rs.
"Parry's cap and cone" on each blast furnace	2,500
Twyers, nozzles, water-boxes, damplates, and other cast and wrought-iron parts for the furnaces	3,500
Apparatus for catching, purifying and distributing the blast furnace gases to hot blast ovens and steam boilers	25,000
New inside lining for the two blast furnaces	3,500
Two new hot blast ovens	8,000
Ten new steam boilers ... ... Rs. 45,000 } Masonry mountings ... ... „ 15,000 }	60,000
Repairs on the standing steam boilers and hot blast ovens	7,000
Increasing of the wind conduit, regulator of blast, steam and water-pipes, &c.	10,000
One new blowing engine with two water-pumps, including foundations	40,000
Cinder and ore tubs, scales, tools, &c.	14,000
Apparatus for the gaining of "wash iron"	3,000
(b)—For the coke furnace—	
Coal-washing apparatus, including steam engine, washing basins, &c.	35,000
50 Belgian coke furnaces for the production of 120 tons coke per 24 hours, including steam engine, tools, &c.	72,000
(c)—For the foundries—	
15 moulding machines for cast-iron sleepers	15,000
Changes on the cupola furnaces, and providing them with water-cask elevators	2,500
Alteration in the arrangement for casting and tiering pipes	7,500
Moulding boxes, patterns, ladles, tools, &c.	10,000
About 2,000 running feet small railway, including turntables	4,500
Repairs on the standing machinery and shifting of the principal railway	4,000
(d)—For the water-supply—	
One highwater reservoir on the banks of the water tank for 15,000 cubic feet contents	8,000
Two centrifugal pumps, including steam engine transmissions and fittings of the reservoir	4,500
II.—Buildings and Earthworks.	
(a)—For the blast furnaces—	
Ore-crush house	5,000
New mixing place and filling banks	18,000
One blowing-engine house	7,500
One new chimney 120 feet high	4,000
Repairs on the standing chimney and providing it with iron anchorage	1,000
Two slag wool houses	1,000
(b)—Coke furnaces—	
Building and chimney for the coal-washing machinery	7,500
(c)—For the foundries—	
Transport and increase of the standing foundry shop No. 1 and replacement of the wooden by cast-iron pillars	9,400
Erection of a new foundry hall close to the blast furnaces	24,600
(d)—Out-houses—	
Repairs on the standing out-houses and furniture for office and dwelling houses for European workmen	15,000
One large bathing tank for Native workmen	2,000
Native huts for about 600 coolies	6,000
Boundary wall	8,000
III.—Working Capital.	
Amount invested in stores	70,000
Reserve funds	1,00,000
IV, Engagement and bringing out of 16 Europeans...	8,000
Total Rs.	6,50,200

Recapitulation.

Cost of Furnaces and Machinery	3,63,200
„ of Buildings and Earthwork	1,09,000
Working Capital	1,70,000
Engagement and bringing out of 16 European workmen	8,000
Total Rs.	6,50,200

APPROXIMATE COST OF PRODUCTION.

1—*Cost of one ton grey pig iron.*

1·95 tons iron ore at 12 annas per ton	1·46
1·40 „ coke at Rs. 8 per ton	11·20
1·10 „ limestone at Rs. 4 per ton	4·40
Wages	3·94
Management, wear and tear, &c.	7·00
Total Rs.	28·00

2—Cost of one ton cast-iron sleepers, cast directly from the blast furnace.

1·05 tons grey pig iron at Rs. 28	Rs.	29·40
0·40 „ coal for heating boilers at Rs. 2½	„	1·00
Wages	„	12·60
Management, wear and tear, &c.	„	4·00
Total Rs.		47·00

3—Cost of one ton cast-iron pipes cast from the cupola furnaces.

1·08 grey pig iron at Rs. 28	Rs.	30·24
0·40 tons coal at Rs. 2·5	„	1·00
0·10 „ coke at Rs. 8	„	0·80
Wages	„	16·46
Management, wear and tear, &c.	„	5·50
Total Rs.		54·00

REMARKS.—In the calculation of the costs of production, the *actual* expenses are only taken into account *excluding* interest of capital invested in one iron work.

2. The prices are given in rupees, per ton, at the works.

Comparative statement showing the difference of prices of cast iron goods in different Railway Stations.

NAMES OF STATIONS.	CAST-IRON RAILWAY SLEEPERS.			CAST IRON PIPES.		
	English prices.	Our cost prices.	Difference in our favour.	English prices.	Our cost prices.	Difference in our favour.
Howrah ...	59·0	53·7	5·3	80·0	60·7	19·3

Mooltan	127·0	109·0	18·0	146·0	116·0	30·0

REMARKS.—The prices are given in rupees per ton, including freight; the latter is calculated at the rates for first class railway goods.

Appendices.

Appendix No. 1. The quantity of air required per minute is calculated by the equation.

$$Q = 1{\cdot}1\ A.\ P. \quad \ldots \quad \text{No. 1.}$$

where Q is the quantity of air in cubic feet to be introduced in the blast furnaces per minute;
A is the consumption of coke per 24 hours expressed in tons;
P is the proportion of carbon in the coke.

If, as proposed, Belgian furnaces with washing apparatus will be used for the manufacture of coke from the Barakar coal, the proportion of carbon in the coke will be $P = 92$, and the consumption of coke per 24 hours will be $A = 112$ tons, the outturn of pig iron with this fuel by the two blast furnaces being assumed at 80 tons per 24 hours.

By substituting these values in equation No. 1 we get $Q = 1{\cdot}1 \times 112 \times 92 = 11{\cdot}344$ *cubic feet of air* required per minute for both blast furnaces together.

The effect of the present blowing engine in the Bengal Iron Works is calculated by the equation:

$$9' = \alpha\ .f.\ v.\ n. \quad \ldots \quad \text{No. 2.}$$

where $9'$ is the quantity of air in cubic feet which can be delivered by the blowing engine per minute;

f the inner section of each cylinder in square feet: in the present instance $f = 23$;

v the speed of the piston in feet per minute, the maximum in the present instance being assumed at 200.

n, the number of cylinders: in the present instance $n \parallel 2$; and

α, the working effect of the blowing engine inclusive wind conduit, which may be assumed to be in this case 0·65, namely 35 per cent. of the theoretical effect being lost through leakage in the wind conductors, especially in the hot blast ovens.

Substituting these values in equation No. 2, we get the maximum effect of the present blowing engine $9' = 0{\cdot}65 \times 23 \times 200 \times 2 = 5{,}980$ cubic feet per minute, that is to say, about half of what is required, which, as found before, is *11,344 cubic feet* per minute.

Appendix No II—The necessary motive power for the two blowing engines is calculated by the equation:

$$N. = \frac{1}{G\,\alpha} \times 0{\cdot}0045\ P.\ Q. \quad \text{.....No. 3.}$$

where N is the requisite number of horse powers to drive the two blowing engines;

G. the working effect of the steam engine, in our case 0·75 per cent;

α. the working effect of the blowing engines and wind conduit; as before 0·65 per cent.;

P. the pressure of the wind on the nozzles; in our case P = *4lbs.* per square inch; and

Q. the quantity of air and cubic feet per minute, as previously calculated = *11,344*

These values substituted in equation No. 3 we get.

$N. = \frac{1}{0{\cdot}75 \times 0{\cdot}65} \times 0{\cdot}0045 \times 4 \times 11{,}344 =$ *420·5 horse power*, being the requisite motive power for the two blowing engines.

Besides the blowing engines there is required the necessary motive power for driving the hoist, and the feeding pumps for the boilers, which consume about 20 horse power; therefore altogether a steam boiler establishment of 440 horse power will be required to serve the whole machinery belonging to the blast furnaces.

The standing steam boiler establishment consists of 7" "egg-ended boilers," each of which having a total length of 28 feet and 5 feet diameter, representing a "fire surface" (the part of the boilers in contact with the fire) of 230 square feet per boiler.

Considering the construction of these boilers a "fire surface" of 16 square feet can be calculated for each horse power; therefore a real effect of about 100 *horse power* can be furnished by the seven standing boilers together ($\frac{230 \times 7}{16} = 100$).

But as this motive power answers only for the production of 20 tons pig iron per 24 hours, the erection of a second steam boiler establishment is required to furnish the necessary effect of 440 horse power.

It must be observed that two steam boilers must be kept as a reserve in case those in use require cleaning or repairing.

BURRAKUR;
The 16th June 1882.

(Sd.) R. C. VON SCHWARZ.

The manufacture of wrought iron and steel at the Bengal Iron Works.

For the manufacture of wrought iron and steel, and especially for the production of rails, beams, girder, and ship plates, &c., on a large scale, the introduction of the *basic* Bessemer process is recommended. With this process the contents of phosphorus in the pig iron (produced from the Barakar iron ores) can be reduced from 1·36 to 0·04 per cent., and therefore a quality of wrought iron and steel produced, which is suitable for the production of steel rails, rolled beams, &c. (An analysis of the pig iron produced by the Bengal Iron Work Company is shown in my report on the Bengal Iron Works, page 3.)

The Spiegeleisen (specular cast iron) for the production of steel in the Bengal converter cannot be obtained from the Barakar iron ores on account of their impurities and their too small contents of manganese. "Spiegeleisen" has therefore to be imported.

It is of great importance in the *basic* Bessemer process to procure a suitable basic fire-proof material for the inner lining of the converter, as imperfect material for this purpose would cause costly interruption of the work by the wearing out of the lining too quickly. Besides, the making of basic fire bricks is very expensive, and the renewing or repairing of the inner lining of a Bessemer converter is a disagreeable and tedious labour, as the workmen have to suffer great heat and the work has to be done carefully and exactly.

Dolomite (magnesium limestone) has proved the best material in practice for the purpose, and such is to be found near Ramlallpur, about 7 miles south of Raneegunge, and near Purda (Lat. 22° 59′ 15″; Long. 86° 37′ 45″). Dolomite of an excellent quality also occurs in the stream beds near Darjeeling, where it is rolled down from a range of hills composed of dolomite, which occurs just beyond the British boundary in Bhootan; the same rock also occurs east of Baxa in British territory (Mem. G. S. T., Vol. XI, page 83).

The following is an analysis of this dolomite:—

Carbonate of lime (Co. O. Co2)	60·5
Ditto „ magnesia (Mg. O. Co2)	38·7
	0·3
	99·5

Although this dolomite will be rather expensive to procure, it may pay to use it for the converter lining for the reasons explained. The pig iron has to be re-melted in cupola furnaces, as it is not sufficiently pure and regular for this process to be led directly in a liquid state from the blast furnaces into the converter.

Amount of Production.

It is a general rule to produce as large a quantity as possible in a rails rolling mill in order to distribute the high expenses for workmen and establishment, combined with such an undertaking over a great amount of production.

As we are not depending here on vegetable fuel but all raw materials are to be had in unlimited quantities, it is the manual aptitude and practice of the workmen serving the rolling mill and the converting department which furnishes the basis for the quantity of production. In England and America the most astonishing results in this direction have been attained; the average outturn of a *single* rails rolling mill is there 440 tons of finished rails per 24 hours, but exceptionally also 600 tons have been turned out in the same time when making "double headers" of 80 lbs. per yard.

It is very doubtful whether such results can be attained here, therefore the annexed calculations of the cost of production are, for security, based on a production of 200 tons of finished rails per 24 hours.

It must be mentioned that in a rails rolling mill also rolled beams, rolled sleepers, girder and ship plates and other rolled iron or steel goods of the stronger kind can be produced if the necessary cylinders (rollers) are provided.

To provide the necessary pig iron for the production of 200 tons of finished rails per diem, it is not advisable to use the existing blast furnace establishment, this being only constructed for a production of 40 tons per diem, for both blast furnaces, whilst about 200 tons of pig iron are wanted.

These blast furnaces should be put in thorough order for making pig iron for castings only, for which purpose they were originally built. For the production of the pig iron for the rolling mill it is recommended to erect a new blast furnace establishment consisting of two blast furnaces on the declivity of a small hill, which is at a distance of about 1,000 yards from the existing establishment. The railway siding can be prolonged up hill to a length of about 1,000 yards, rising to a maximum height of 50 feet in order to form a viaduct from which the raw materials can be thrown over for the purpose of concentrating the stock in a comparatively small space (*vide* Report on the Bengal Iron Works, page 1).

Each of these new blast furnaces can be constructed for an outturn of 100 tons of pig iron per 24 hours, giving at the same time better results than the existing blast furnaces would yield with regard to the consumption of fuel and cost of labour, management, wear and tear, &c., for well known reasons.

This establishment should be constructed in such a manner that an increase of it by a third or fourth blast furnace could be accomplished (if the requirements of the rails rolling mill should be augmented) without interfering with the original system and without disturbance to the work of the existing establishment.

The scraps of the rails yield a suitable material for the manufacture of wire as is done in Cleveland: a Bessemer establishment producing daily 200 tons of rails can in this wise turn out 20 to 25 tons of wire in the same time.

The slag of the basic Bessemer process, owing to its contents of phosphate of lime, can be used as manure, as is the practice in Germany.

The puddling and welding process.

For the production of bar-hoop and façon iron of the smaller kind the introduction of the puddling and welding process is recommended. The contents of phosphorus in the pig iron can be reduced in the puddling furnace from 1·36 to 0·25 per cent., and thus renders a material suitable for the manufacture of bar iron of the so-called "refined" quality.

The existing blast furnaces can be arranged for the outturn of about 80 tons of white pig iron per 24 hours, which would yield the necessary material for the production of about 62 tons of small bar iron, façon iron, &c. It may be mentioned that for the production of small façon iron (double T. V. iron, bridge rails, &c.) a small contents of phosphorus is necessary, in order to enable the iron to fill out the complicated shapes of the calibres of the rollers. The circumstances in our case are therefore especially adapted for this purpose.

Railways and Tramways.

As the iron ores of Burrakur are to be had in unlimited quantities in the immediate neighbourhood of the works, and as they can be obtained by simple surface digging, the erection of a tramway for their transport is not necessary; they can be cheaper transported by carts.

Limestone occurs in Pacheet and Hansapathar, at a distance of about 8 and 10 miles from the works. For the making of 200 tons rails and 80 tons castings per diem (as proposed) about 320 tons of this limestone would be required daily. It is therefore advisable to construct a tramway for its transport.

This tramway, however, would have to cross the Damuda river, and this can be done by means of a "causeway," as a bridge over that river (at least for the present) would be too expensive.

The river can in this wise be crossed for 7½ months in the year, and a store of limestone for the remaining four and half months (during the rainy season) has to be kept at the works. The transport of coal to the works and that of finished goods from the works is managed by the East Indian Railway (Seetarampore-Burrakur Line), with which the works are connected by means of a siding.

APPROXIMATE COST OF PRODUCTION.

(1) Cost of one ton grey pig iron for the Bessemer process—

	Rs.
1·95 tons iron ore at 12 annas per ton	1·46
* 1·20 tons coke at Rs. 8 per ton	9·60
1·10 tons limestone at Rs. 4 per ton	4·40
* Wages	3·54
* Management, wear and tear, &c.	6·00
Total ...	25·00

(2) Cost of one ton Bessemer steel rails—

	Rs.
1·22 tons grey pig iron at Rs. 25	30·50
0·06 tons Spiegelesen iron at Rs. 120	7·20
0·12 tons coke at Rs. 8	0·96
1·20 tons coal iron at Rs. 3	3·60
0·20 tons burnt lime at Rs. 8	1·60
Wages	9·64
Management, wear and tear, &c.	9·50
Total ...	63·00

(3) Cost of one ton Bessemer iron rails—

	Rs.
1·28 tons grey pig iron at Rs. 25	32·00
0·12 tons coke at Rs. 8	0·96
1·20 tons coal at Rs. 3	3·60
0·25 tons burnt lime at Rs. 8	2·00
Wages	9·34
Management, wear and tear, &c.	9·10
Total ...	57·00

(4) Cost of one ton white pig iron for the puddling process—

	Rs.
1·95 tons iron ore at 12 annas	1·46
1·05 tons coke at Rs. 8	8·40
1·10 tons limestone at Rs. 4	4·40
Wages	3·44
Management, wear and tear, &c.	6·30
Total ...	24·00

(5) Cost of one ton puddled bar and façon iron—

	Rs.
1·25 tons white pig iron at Rs. 24	33·00
2·50 tons coal at Rs. 3	7·50
Wages	11·70
Management, wear and tear, &c.	12·80
Total ...	62·00 (?)

Machinery and transmissions	5,500	
Foundation	700	
		6,200
Steam, water and air pipes, and 2 root's blowers		16,000
Fans, railways, wagons, ingots, moulds, scales, tools, &c.		14,000
1 large lathe for the cylinders		5,000
(c)—For the coke furnaces—		
2 coal-washing apparatus, including steam engines, disintegrators, basins, &c.		70,000
100 Belgian coke furnaces, including steam engine, tools, &c.		1,42,000
II.—Buildings—		
(a)—For the blast furnaces—		
Ore crush house		8,000
Mixing place and filling bank for ore, limestone and coke		30,000
2 blowing engine houses		24,000
Building for the hoist		12,000
Foundry hall		22,500
2 chimneys, each 120 feet high		8,000
Channels and drains		6,000
(b) For the Bessemer mill—		
Bessemer and rolling mill		3,00,000
2 Chimneys, 120 feet high		8,000
Channels, drains, &c.		6,000
(c) For the coke furnaces—		
Building and chimney for the coal-washing machinery		12,000
(d) Workshops and out-houses—		
2 Blacksmith's shops with interior arrangements		25,000
Store rooms		12,000
Scale and porter house, including scale		5,000
Dwelling houses, barracks, offices, &c.		60,000
Native huts for about 1,000 coolies		10,000
Boundary wall		12,000
III.—Working Capital—		
Amount invested instores		1,50,000
Reserve funds		1,00,000
IV.—Earthwork—		
Levelling, ditches, tanks, &c.		20,000
V.—Tramways and Railways—		
10 running miles tramway for bringing the limestone, @ Rs. 12,000 ...		1,20,000
Prolongation of the railway siding for 1,000 yards ...		50,000
VI.—Engagement and bringing out of 70 Europeans ...		35,000
Total ...		24,49,500

Recapitulation.

Cost of Furnaces and Machinery	14,14,000
" Buildings and Earthworks	5,80,500
" Tramways and Railways	1,70,000
" bringing out Europeans	35,000
Working Capital	2,50,000
Total ...	24,49,500

An iron work producing daily 200 tons Bessemer steel rails costs Rs. 24,49,500.

Conclusion.

The local circumstances with regard to the quantity and quality of the raw materials at the Burrakur Iron Works are specially adapted for the production of rails, rolled beams, girder and ship-plates and other rolled goods of the stronger kind on a large scale, and for the production of ordinary castings, as railway sleepers, pipes, pillars, &c., as well as for the manufacture of bar and façon iron of "refined" quality.

The raw materials are to be had in unlimited quantities, and cheap enough to produce iron and steel goods of the above kind at competition and profitable prices, if the manufacture of them is conducted on modern principles.

With the proposed improvements and arrangements, namely,—

(1) putting the existing blast furnace establishment and foundries into thorough order for the production of castings,

(2) the erection of a new establishment for making rails, &c.,

the daily outturn of the whole work would be—

(1) 80 tons ordinary castings (principally railway sleepers); and

(2) 200 tons rails, beams, and other rolled goods of the *stronger* kind.

The production of puddled bar and façon iron, if desired, could be begun on a much smaller scale than the production of rails, and would still pay: the two existing blast furnaces could be arranged—*one* for the production of *grey* pig iron for castings, and the *other* for the manufacture of *white* pig iron for the puddling process; in this wise there could be turned out daily—

(*a*) 20 tons of ordinary castings, and

(*b*) 18 tons of bar and façon iron.

The cost of this arrangement would be about 5 lakhs of rupees in all. Owing to the geographical situation of the works, and considering the railway freight for iron goods prevailing in India, the most profitable sale districts for iron and steel goods, made at Burrakur, would be Bengal, the North-Western Provinces and Oudh, and they could also be sold in Central India and Punjab at competition prices.

BURRAKUR;
The 30th June 1882.

(Sd.) R. C. VON SCHWARZ.

Approximate estimate for the improvements and repairs of the Bengal Iron Works for the production of forty tons of cast iron sleepers and other castings per 24 hours (vide plan No. II).

I.—FURNACES AND MACHINERY.

(*a*)—*For the Blast Furnaces*—

	Rs.	Rs.
Two ore crushrs		4,800
Derrick and steam engine for the same		2,000
"Parry's cup and cone" for each blast furnace		2,500
Repairs on the casing of the blast furnace		3,000
Tuyers, nozzles, water boxes, damplates and other cast and wrought iron parts for the blast furnace		2,500
Apparatus for catching, purifying and distributing the blast furnace gauges to the hot blast ovens and steam boilers		20,000
New inside lining for the two blast furnaces		3,500
One new hot blast—blast ovens		4,000
Four new steam boilers—boilers	18,000	
Masonry and mountings	6,000	24,000
		66,800
Repairs on the standing steam boilers and hot blast ovens		7,000
Increasing of the wind conduit, steam and water pipes		5,000
Cinder and ore tubs, scales, tools, &c.		10,000
Apparatus for making "wash iron"		3,000

(*b*)—*For the Coke Furnace*—

Coal washing apparatus, including steam boilers, steam engine, and washing basins ...	25,000
Twenty-five coke furnaces for the production of 60 tons coke per 24 hours, including steam engine, &c.	42,000

(*c*)—*For the Foundries*—

Eight moulding machines for cast iron sleepers	8,000
Changes on the cupola furnaces and providing them with water cask elevators ...	2,500
Alteration in the arrangement for casting and tiering pipes	7,500
Moulding boxes, patterns, ladles, tools, &c.	7,000
About 1,500 feet small railway, including turntable	3,700

(d)—For the Water-supply—

	Rs.
One high-water reservoir on the banks of the tank for 10,000 cubic feet water ...	6,000
Two centrifugal pumps (each 3″ diameter of delivery pipe) including steam engine transmissions and fittings for the reservoir	3,500

II.—BUILDINGS AND EARTHWORKS.

(a)—For the Blast Furnace—

One crush house	4,000
Mixing place and filling bank	12,000
Anchorage and repairs on the chimney	1,000
Arrangement for making slagwool	1,000

(b)—Coke Furnace—

Building and machinery for the coal washing machinery	7,500

(c)—Foundries—

Transport and increase of the foundry shop No. 1 and replacement of the wooden by cast iron pillars	9,400

(d)—Out-houses—

Repairs on the standing out-houses and furniture for office and dwelling-houses for European workmen	15,000
One large bathing tank for native workmen	2,000
Native huts for about 400 coolies	4,000
Boundary wall	8,000

III.—WORKING CAPITAL.

Amount invested in stores	40,000
Reserve funds	70,000
IV.—ENGAGEMENT AND BRINGING OUT OF 16 EUROPEANS ...	8,000
Total ...	3,78,400

Recapitulation.

Cost of furnaces and machinery	1,96,500
Cost of buildings and earthworks	63,900
Working capital and reserve funds	1,10,000
Cost of bringing out Europeans	8,000
Total ...	3,78,400

The 20th June 1882. (Sd.) R. C. VON SCHWARZ.

REPORT ON THE BENGAL IRON WORKS.

Parts of works.—The works consist essentially of two blast furnaces, each capable of producing 20 tons of grey pig iron for castings per 24 hours, and of a casting establishment of two separate buildings, with all necessary machinery, finishing and repairing workshops; also of offices, store-rooms, scale-houses, water reservoirs, dwellings, &c.

Situation.—The situation of the works may be described in general to have been well chosen, as the principal raw materials, namely, the iron ores, coke and limestone, are found in the immediate neighbourhood and in sufficient quantities. It would, however, have been better if the works had been built on the Barrakur river, which is at a distance of about $1\frac{3}{4}$ miles, as the water required for them is not to be found in the present situation, but must be led to them from that river.

This shortcoming has rendered necessary the establishment of a special and expensive pumping engine with boilers, and a water conduit of about 8,500 feet in length, consisting of 10-inch cast iron pipes. This water conduit alone may have cost Rs. 50,000, which might have been saved if the works had been built immediately on the river.

Raw materials.—The *iron ores* are brown hematite, and consist of 47 per cent. of metallic iron on an average, or 78 per cent. of hydrate sesquioxide of iron ($2Se_2\ O_3$, $3\ H\ O$): the impurities are 12 per cent. silicic acid ($S_1\ O_2$) and 6 per cent. aluminia (Al_2, O_3), the rest being protoxide of manganese ($Mn\ O$), phosphoric acid ($P\ O_5$), and traces of sulphur. The iron ores are found close to the iron works and on the surface of the ground; there is, therefore, no expensive mining arrangements necessary; they can be delivered at the iron works for 12 annas per ton, inclusive of all costs.

The *coke* is made likewise near the works, as the coal mines are near. The coke is well burnt, but contains a good deal of ashes. It costs when delivered at the iron works from Rs. 8 to Rs. 10 per ton, according to quality.

The *limestone* is obtained from a distance of above 5 miles. It consists of $71\frac{1}{2}$ per cent. of cacium carbonate ($Ca\ O\ Co_2$), 17 per cent. other alkalies, and $11\frac{1}{2}$ per cent. silicic acid ($Si\ O_2$). This limestone, on account of the heavy contents of silicic acid, cannot be considered very satisfactory for the blast-furnace process; in fact, through the 12 per cent. silicic acid in the ores the heavy percentage of ashes in the coke (consisting also chiefly of silicic acid) and the $11\frac{1}{2}$ per cent. of the same in the limestone itself, the consumption of limestone is so heavy that it reduces the value of the great contents of the iron in the ore.

In general, however, the above raw materials are good enough, and their prices so exceedingly low as to have justified the establishment of an iron work in that place for their utilisation.

Blast furnaces.—The blast furnaces are on a well approved Scotch system, and the engines belonging to them, such as the blowing engine, hoist, water-pumps, &c., are well built and well preserved. There is, however, this shortcoming, that there is no suitable arrangement for concentrating the stock of the principal iron materials (ores, coke and limestone) in a comparatively small space. With the great quantities required of these materials, there should have been built behind the furnaces a viaduct, at least 45 feet high, on which to convey these materials and throw them over. With the present arrangement they are spread over a large space, which occasions a considerable expense for bringing them to the blast furnace, and other inconveniences.

Blowing engine—The blowing engine is double cylindrical, vertical, of approved construction, and in good preservation. For the adjustment of the blast there is a small receiver.

Hoist.—The hoist for the ores, coke and limestone is a costly, well constructed machine, in good preservation, and is worked by a horizontal double-cylinder steam-engine. It may be observed that for this purpose a so-called "water cask elevator," of a very cheap construction, would have done as well. This arrangement has been introduced in many European iron works with success, where in winter time its working is not hindered by the formation of ice; it is therefore suitable for India.

Steam-boilers and chimney.—For the working of the machinery of the blast furnace, there are seven cylindrical boilers, each about 26 feet long and 5½ feet in diameter; these are all built in with masonry connectively, instead of each one or two having their own bed.

The chimney is 120 feet high, and is reported to be of an average width of 10 feet; in shape it is square (instead of round or octangular), which is for well known reasons objectionable; it is also not provided with any anchorage, and is therefore cracked in several places.

Before the works can be started again this chimney would have to be repaired and provided outside with proper iron anchorage.

Hot blast ovens.—For the heating of the blast, there are provided two Whitwell apparatus, one for each blast furnace. The addition of a third apparatus as a reserve would be very desirable, as without it, when one of the apparatus would require repairs or to be cleaned, which frequently occurs, the blast furnace connected with it would have to be worked with cold blast, which requires more fuel and occasions irregularity in the work.

Blast furnace gases.—With reference to the blast furnaces of the establishment, it is inconceivable why the utilisation of the valuable gases evolved as fuel has been entirely neglected, and were allowed to escape. The gases from a blast furnace consist chiefly of about 30 per cent. carbonic oxygen gas (Co), 3 to 4 per cent. heavy carburetted hydrogen gas(C_2, H_4), and about 60 per cent. nitrogen, the rest being carbonic acid, water, steam, &c. This gas mixture, when purified, is powerful enough and in sufficient quantities to heat all the boilers and the hot blast ovens belonging to the blast furnaces from which the gases have been taken. In the present instance 30 *tons of coal* would have been *daily* saved. The necessary arrangement for catching, purifying, and distributing the blast furnace gases could be easily and cheaply applied, and is urgently recommended to be introduced, before the works are started again.

Blast furnace slag.—Neither is there any arrangement for the utilisation of another subsidiary product, namely, the blast farnace slag. Blast furnace slags can be converted into cement, artificial stones, and into so-called "slag wool." It consists of about 38 per cent. silicic acid ($Si\ O_2$), 22 per cent. aluminia ($Al_2\ O_3$), 31 per cent. lime ($Ca\ O$), the rest being magnesia, gypsum, and other unimportant constituents.

To make the *cement*, the hot liquid slag is run into water, when it is granulated; the granulated mass is then ground into powder, and this again mixed with one to two per cent. of pure limestone or chalk and burnt; the result is a cement of a superior quality.

For the production of *artificial stones*, the granulated blast furnace slag is mixed with a little lime cream; it is then pressed in the desired moulds and dried.

"*Slag wool*" is produced by leading water steam, of a pressure of about two atmospheres, under a right angle, into a thin ray of slag: the produced slag wool looks like cleaned cotton and is used for the packing of steam pipes, the wadding of ice cellars, and in general as an insultator against heat.

Ore crusher.—There is no machine provided in the iron works for crushing the iron ores and the limestone; this used to be done by coolies. An ore crusher, a simple and inexpensive machine, would have done this work cheaper and certainly more effectively.

Pig iron.—The product of the blast furnace was 40 tons of grey pig iron for castings per 24 hours for both blast furnaces. The pig iron was run into sand and allowed to get cold; it was partly sold in this shape and partly remelted in the foundry.

The following is an analysis of it:—

Iron, metallic	90·58	per cent.
Carbon combined	0·14	"
" graphite	2·70	"
Manganese	0·97	"
Silicon	4·13	"
Phosphorus	1·36	"
Sulphur	0·12	"

Foundry.—The buildings holding the foundry are too far situated from the blast furnaces to allow of the pig iron to be transferred to the buildings direct in a liquid state, for being cast in the moulds without being remelted in the cupolo furnace.

It is an old erroneous notion that the pig iron taken *direct* from the blast furnace furnishes castings of an inferior quality than when remelted in a cupolo furnace. The only disadvantage which can

be alleged against the direct casting, namely, want of uniformity in the casting, can be cancelled by suitable arrangements and manipulations during the process of casting. To explain and to prove this would lead us too far. Suffice it to mention that the process of direct casting from the blast furnace without the intervention of the cupolo furnace has lately been practised with success in several English and German iron works, and for a long time in Austria and Sweden.

The remelting of the pig iron should be resorted to only for the purpose of utilising the Sunday production of the blast furnaces and the scraps of the foundry, or for the production of special qualities of cast iron for certain purposes, such as pottery castings or ornamental objects. In general, the remelting of the pig iron serves only for the convenience of the management of the works, or to remedy irregularaties; for when the blast furnace is irregularly worked, unequal qualities of pig iron are produced, which of course render the direct casting process impossible. Through careless or incorrect management in working the blast furnace, sometimes too much carbonised and sometimes too little carbonised pig iron is turned out, both unsuitable for castings; but through alloying both together they can be profitably used for castings by means of the cupolo furnace.

Cupolo furnaces.—For remelting of the pig iron the Bengal Iron Works have four cupolo furnaces of the approved system, "Ireland." The blast is effected by a ventilator and a Roots blower, the latter decidedly preferable to the former. The defect about the cupolo furnaces is the absence of a lift for pig iron and coke. These materials were carried to the furnace top by coolies upon a staircase. Two simple water cask elevators (one for each couple of furnaces) would remedy this shortcoming at a small expense.

Foundry shops.—The foundry workshops are in two separate buildings—one for light, the other for heavy castings; the latter is therefore provided with five cranes. Connected with the foundry is a workshop for finishing the castings. This workshop contains lathes of varying dimensions, two drilling machines, one planing machine, one pipe-testing machine with all appurtenances, and also a movable crane for serving all this machinery. To work the whole of the workshop machinery there is a horizontal steam-engine with boilers, which also works the Roots blower of the foundry. For working the ventilator of the other foundry there is a portable steam-engine.

The clay and sand required for the foundry are prepared in a separate building. This preparation is done by two mortar mills driven by a portable steam-engine.

Drying furnaces.—For drying off the casting cores and clay moulds, there are well built drying furnaces. All that may be objected to in these is, that they are not arranged for being fired with inferior cheap fuel.

Fuel of an inferior quality offers a double advantage in this instance—the first, that a cheaper kind of fuel may be used; the second, that it gives a more uniform heat, which is essential for drying furnaces. When drying furnaces are heated with good coal, there is a danger of the objects to be dried lying nearest the fuel to become over-heated ("burnt") before the more distant objects have been sufficiently dried; indeed, experience has shown that *that* fuel is most suitable for drying furnaces which can just barely maintain itself in a burning state, even with a good draught. Many iron works in Germany and in France have therefore found it profitable to prepare the coke from the coals themselves, as the subsidiary products of coke-making, namely, the escaping gases and the residue in the washing apparatus, can be utilised, the former for heating steam-boilers, and the latter for heating the drying furnaces.

Socket pipes.—The way and manner in which socket pipes were prepared in the foundry was obsolete and defective; these used to be cast horizontally—a process which rendered the labour difficult and the outturn small and faulty. Socket pipes must be cast *vertically*, if their production is to be profitable. To explain the two systems and the reasons of the superiority of one over the other would be too long and out of place here. I will only add that the arrangement for casting vertically can be easily added to the present one.

Arrangement for tiering pipes.—The arrangement for tiering the pipes is equally unpractical and unsuitable for large operations. This arrangement also may be altered without great expense.

Outhouses.—All those outhouses, such as offices, scale-houses, store and dwelling houses and others, which were solidly built, are now in good preservation; but those which were built of inferior material are already dilapidated, and impart to this part of the group of buildings a somewhat ruinous appearance.

SUGGESTIONS.

From what has been reported it may be seen that the Bengal Iron Works are worth reopening; and if their management be entrusted to experienced and conscientious professional men, they should turn out a prosperous investment. The situation is well chosen; the raw materials are near and cheap; and the railway is also near for the conveyance of manufactured goods.

The superiority and good condition of all the machinery and the solidity of the chief buildings prove that the undertakers were imbued with the best intentions to render the establishment good, solid and durable; only it appears that the technical management was entrusted to men of deficient professional experience.

The greatest part of the shortcomings, however, mentioned in the report may be remedied without great costs. Strictly speaking, the existing arrangements have to be *completed* rather than altered, and this should be done before the works are started again.

The chief condition of success in an iron work is its *continuous* and *full* function. The production must be driven to a maximum, so that the expenditure on management, interest of capital, &c., which are exceptionally high in India, should be as much as possible distributed over a high production.

MORAR;
26th October 1881.

RITTER C. VON SCHWARZ.

REPORT ON THE FINANCIAL PROSPECTS OF IRON WORKING IN THE CHANDA DISTRICT.

RAW MATERIALS.

Iron ores.

The most important and, at the same time, best situated deposits of iron ores in the Chanda District are the *specular iron ores* at Lohara, longitude 79° 47½′ E., latitude 19° 22′ N., and the *magnetites* at Peepulgaon, longitude 79° 34′ E., latitude 20° 23′ N.

The following is the chemical composition of these iron ores :—

	Lohara ores.	Peepulgaon ores.
Metallic iron	69·00 per cent.	69·00 per cent.
Oxygen in combination	29·57 „	26·29 „
Manganesequioxide	0·10 „	.....
Silica	0·84 „	4·21 per cent.
Alumina	0·43 „	.....
Lime	0·05 „	0·50 per cent.
Sulphur	0·01 „	.....

Each of these deposits forms a continuous accumulation of compact iron ore, constituting a hillock, and is prolonged deep under the general level of the country. The ores are found in such quantities in these places that an Iron Work producing 80 tons of rails daily might be fed from each deposit for about 100 years without resorting to the deeper-lying ores at greater expense. Besides these two deposits there are other places in the Chanda District where iron ore is found, namely, Lankachen, Ratnapur, Dewalgaon, Ogulpet, Metapur, Gunjwahi, Joonona, Kandeshwa, and others; the ores in these places, however, being either of a poorer quality and containing more impurities, or not being so advantageously situated as those of Lohara and Peepulgaon, deserve, at least, for the present, no consideration.

The iron ores of Lohara have in their few impurities all the component parts necessary for the formation of such blast furnace slag which has the proper chemical composition in regard to the ash contents of the fuel, so that 3 per cent. only of flux will be required for smelting these ores in the blast furnace by means of charcoal.

As specular iron ores are easier treated in the blast furnace than magnetites (as is well known to every professional iron-worker), I hold it to be correct on this ground, and on others (explained on page 5), to take up for working, first of all, the iron ores of Lohara (see Appendix No. 1, page 27).

Vegetable fuel.

For the reduction of these iron ores in the blast furnaces the forests of the Chanda District offer sufficient vegetable fuel, and at prices sufficiently cheap for the production of iron and steel of the best quality, in large quantities, and at competition prices.

The forests of the Chanda District cover an area of 3,325 square miles, of which, however, at present, owing to considerations of carriage, only that part should be exploited as fuel for the reduction of the ores which lies within a circumference of about 20 miles radius round the place which has been chosen as the most suitable for the erection of an Iron Work.

This part of the forest covers about 520 square miles, capable of yielding 16,000 tons of dry wood per square mile in its present condition.

According to information from the Conservator of Forests, Central Provinces, from this quantity must be deducted about 30 per cent. for reserved trees, which, owing to the valuable quality of their wood, or owing to other reasons, may not be made into charcoal, so that about 11,000 tons of wood per square mile may safely be counted upon as available for reducing to charcoal.

The weight of the various woods of the Chanda forests is, on an average, 50 lbs. per cubic foot (see Appendix No. 9, page 29); therefore 30 per cent. greater than of the woods (chiefly fir and pine) used in Sweden and Styria for charcoal; the Chanda charcoal being thus specifically heavier is, weight for weight, far more valuable for the smelting of iron ores (see Appendix No. 2, page 27).

According to an estimation of the Conservator of Forests, Central Provinces, the area of 520 square miles of forest, lying round the site of the projected Iron Works, may yield 32,000 tons of charcoal yearly and be regenerated in forty years.

The same authority maintains that the production of charcoal on a large scale, and carried on systematically, improves forests; this, although apparently paradoxical, has been proved by experience in those parts of Sweden and Styria where vegetable fuel is used on a large scale in the production of iron. The reason for this is not far to seek. The products of the forest being in greater demand and more valuable, the science of forestry has been called in to show the way to a more correct system of conserving and increasing the contents of forests. The improved and cheaper means of transport, rendered necessary for an Iron Work near a forest, render also cheaper the carriage of building timber and other forest produce, whereby they become cheaper; saw-mills and other wood-working machines may be advantageously connected with an Iron Work establishment, as this can furnish cheaply the necessary steam-power and supervision.

Coal.

Whilst there is sufficient charcoal in the Chanda forests for the production of *pig iron*, the coal of the Warda-Godavery Valley is good enough for the refining process, namely, the conversion of the pig iron into *finished iron* or *steel* if the necessary arrangements are made, suitable for this quality of fuel.

Judging from borings and outcrops, the sources may be estimated to contain 2,525 millions of tons, of which 1,714 millions are available. The most important seams are those of *Wun*, *Pisgaon*, *Ghugus*, *Bunder* and *Warora*.

Of all these coal-fields, however, the Warora seam only is now worked, and produces monthly about 7,000 tons of coal, of which 5,000 tons are bought by the Great Indian Peninsula Railway.

Owing to the small demand of coal the working of this mine is limited; if more use were made of it, the working expenses would be proportionally reduced. It is to be regretted that the quality of this coal is not so satisfactory as the quantity.

An analysis of the Warora coal shows—

	Large coal.	Slack coal.
Fixed carbon	45·6 per cent.	35·5 per cent.
Volatile matters (combustible) ...	26·0 „	26·4 „
„ „ (not combustible) ...	14·0 „	13·0 „
Ashes	14·4 „	24·0 „

The reasons why this coal must be described as of inferior quantity, as regards its fitness for pyrotechnic uses, are—

(1) its insufficient contents of fixed carbon;
(2) its insufficient contents of hydrogen, not combined with oxygen;
(3) its large contents of ashes.

All attempts to reduce this coal to coke, suitable for the blast furnace process, have failed, owing chiefly to its deficient proportion of fixed carbon and (not with oxygen combined) hydrogen. It is well known (although not theoretically proved) that it is generally the hydrogen which imparts to the coal the caking quality necessary for its reduction to coke, but numerous trials have shown that the Warora coal when heated does not cake, but crumbles to pieces, which pieces give indeed coke, but of a quality suitable only for forge fires, or for lime-burning, and not for blast furnaces (see Appendix No. 3, page 27).

The coal of Warora is good enough, however, for producing all the pyrometric effects necessary for puddling and heating furnaces, and to provide the glow furnaces for Bessemer ingots and sheet iron with the necessary heat. This coal is also good enough for the cementation process (production of blister steel) and the temper process (the production of malleable iron); but it is not suitable for the open-hearth process and for the production of crucible steel in the (reverbatory) flaming furnace, as these processes require a very high temperature. Of the other coal fields of the Warda-Godavery basin, the coal of *Pisgaon* (Berar) appears to me the most hopeful, owing to its larger contents of fixed carbon. Its analysis is as follows:—

	Large coal.	Slack coal.
Fixed carbon	65·1 per cent.	36·3 per cent.
Volatile matters	19·2 „	32·2 „
Ashes	15·7 „	31·5 „

The large coal of Pisgaon contains, therefore, 20 per cent. more fixed carbon than the large coal of Warora; notwithstanding the superiority of this coal, no arrangements have yet been made to work the seam.

Limestone.

For the reason explained on page 1, the reduction of the iron ores of Lohara in the blast furnace will require 3 per cent. only of limestone as a flux. Excellent limestone for this purpose is to be had in the neighbourhood of Warora; its analysis is as follows:—

Carbonate of lime and magnesium	95·0 per cent.
Silica	2·5 „
Alumina and oxide of iron	2·5 „

Fireproof material.

More important than the supply of limestone is the supply of suitable and cheap fireproof material. English fireproof bricks would cost, delivered in Chanda, Rs. 16 per 100. Now, the requirements of an Iron Work, producing about 80 tons finished iron or steel per day, would be 300,000 tons per year, giving thus an expenditure of Rs. 48,000 yearly for firebricks alone; but—

(*a*) fire-clay of a good quality is found along with the coal in the Warora Colliery; the following is an analysis of this fire-clay:—

Moisture	4·10 per cent.
Organic matter	4·30 „
Silica (sand)	2·40 „
Silica (in silicates)	63·20 „
Alumina (Al_2O_3)...	18·80 „
Oxide of iron	0·50 „
Iron in pyrite	1·87 „
Carbonate of lime	1·80 „
Alkalis and sulphur	2·03 „
Loss	1·00 „

This clay is not so good as first-class English fire-clay, but is good enough for most parts of the iron-melting furnaces.

(*b*) Near Chanda is also found steatite (Mg. O Si O_2), which, mixed with one-fifth part fire-clay, is well known to give very refractory firebricks.

Fire-proof bricks could be made at the Iron Works for Rs. 2-8 per 100, and about four-fifths of the whole requirement could be covered by these bricks; only for certain parts of the blast furnace

and the gas furnaces, it would be necessary to import English firebricks, namely, one-fifth of the whole amount.

AMOUNT OF PRODUCTION.

The amount of iron or steel which can be produced yearly with these raw materials will depend on the quantity of charcoal which the forests near the Iron Work can furnish without irretrievable injury to them; this has been estimated at 32,000 tons per year (*vide* page 2), and with this charcoal may be turned out 25,000 tons of finished iron per year. In case it may be found desirable in the future to considerably enlarge the Iron Work, recourse may be had to the more distant forests situated south and south-east of Chanda (see plan No. 1) for charcoal for the production of *pig iron*. In this case it will be advisable to erect other blast furnaces near these forests, with the view of reducing the iron ores of the contiguous deposits and of conveying the pig iron thus obtained to the other Iron Works, situated nearer the sources of *mineral* fuel, for the purpose of converting it into finished iron. By these means the whole 3,325 square miles of forests in the Chanda District might make it possible for 260,000 tons of iron or steel being produced yearly.

BEST SITUATION FOR AN IRON WORK.

For the production of one ton of finished iron or steel the following quantities of the available materials are necessary:—

	Tons.
Iron ores	1·80
Charcoal	1·30
Mineral coal from Warora	3·00
Limestone	0·03

From these proportions it may be seen that the quantity of fuel is more than double that of ore. On this account, and as besides, for well-known reasons, the carriage of ores, even weight for weight, is cheaper than the carriage of fuel, and store of them easier kept, an Iron Work should always be built as near as possible to the sources of the fuel.

It may also be remarked that the carriage of charcoal is dearer than the carriage of mineral coal.

A suitable place for the Iron Work would be Durgapur on the Frace stream. This place is surrounded by forests, has enough water even in the driest season, has a firm ground for building and heavy machinery, cheap stone and lime; has also the advantage of being situated somewhat high, and is therefore more within the influences of the breezes, which would keep the Iron Work cool.

This place could also be cheaply put into communication with Lohara and Warora by means of a Tramway, as there are neither hills to cross nor expensive bridges to make. The suitability of this place, however, is best proved, I think, by the annexed plan, No. I, and attention should also be drawn to the important fact that this place, on the Frace stream, is the only one between Lohara and Warora on which a sufficient supply of water all the year round may be relied upon.

In further support of the preference of this place on account of its water-supply, it may be mentioned that the want of this convenience has caused to the Bengal Iron Works Company an extra expenditure of nearly Rs. 50,000 (see Report on the Bengal Iron Works, page 1).

RAILWAYS.

Under the present circumstances, the best means of connecting the iron mine of Lohara and the Warora Colliery with the Iron Work would be a portable Tramway. This would cost, everything included, about Rs. 12,000 per mile. The whole length of the Tramway would be 55 miles (see Plan No. 1); the total expenditure would therefore be Rs. 6,60,000.

The building of an ordinary railway would, for the present, not answer; it would cost about nine times as much as the tramway (the Warda-Warora Coal State Railway was built at an expenditure of Rs. 1,06,000 per mile), and would hardly pay any interest on the capital expended, especially as the extension of such a Railway eastwards can hardly be expected to be undertaken for a long time.

Nevertheless, should an ordinary ("pucca") railway become necessary in the future in consequence of an enlargement of the Iron Work, or through other reasons, the Tramway being portable, could be transferred elsewhere and advantageously utilised as a way for transport of charcoal and other forest produce.

Besides, the proposed tramway, traversing the best and thickest parts of the Chanda Forest, could at once be utilised for transport of forest produce; combining also the best cultivated and best populated stretch of the Chanda District, it would advantageously connect this with the main railway at Warora.

This tramway line has been proposed after consulting and with the approval of the Conservator of Forests for the Central Provinces and the Deputy Commissioner of the Chanda District. This, and the reasons developed on page 1, are further grounds for first taking in hand the iron ore deposits of Lohara. A modification of the tramway project could take place only if the often spoken of railway extension between Chanda and Warora were definitely resolved upon.

CAST-IRON GOODS.

There is no doubt that, with such excellent raw material as the Chanda District possesses, an excellent quality of cast-iron may be produced; and it follows also that only such cast-iron goods should here be turned out in which a good quality of iron is of importance, and which are, therefore, sold at higher prices.

For the production of such heavy castings as plumber blocks, steam engine flywheels, and other heavy parts of machinery, also of weights, railings, columns, lamp-posts, &c., the raw material of the Chanda District is too valuable.

Heavy castings.

It is further unsuitable for the fabrication of cast pottery and objects of art, as all such things have to be run fine, delicate forms have to be filled, and smooth surfaces given to the castings; for all such goods phosphorus in the cast-iron is necessary, which is not found in the ores of the Chanda District.

Pottery castings.

An article very much in use, and the manufacture of which would be particularly suitable to our circumstances, would be *cast-iron railway wheels*.

Cast-iron railway wheels.

It is a strange fact that for a long time, and almost exclusively, cast-iron wheels have been used on the railways on the American Continent, not only with goods and passenger wagons, but also with locomotives, whilst in Europe they are generally used with goods wagons, never with passenger wagons, and by no means with locomotives.

Considering the enormous extension of railways in America,—the mileage being greater than that of England, Germany, Austria, France, and Russia taken together—it might be correctly presumed that the Americans have good experience in this matter.

When the great difference in the price of a cast-iron wheel and a wheel of wrought-iron and steel is considered in conjunction with the enormous quantity used, the subject becomes of some importance.

On the other hand, it may be assumed that the Engineers in Europe, to whom the use of cast-iron wheels is no secret, have also good reasons for abiding by wrought-iron and steel wheels. The fact of cast-iron wheels being, on European railways, limited to goods wagons, would point to a want of confidence in the safety of such wheels against brittleness, whilst the confidence in America in the freedom from brittleness can only be due to the wheels being made of a more reliable quality of cast-iron and under a corresponding manipulation.

To enter into the details of manufacturing this article would be out of place here; let it suffice to say that in this matter the greatest care has to be used in the choice of the materials, as well as in the fabrication, if the article is to be free from flaws and reliable in every respect.

Before putting in use, each wheel should be subjected to the most rigid tests for solidity, strength, sufficient hardness in the flanges, and general manufacture.

The material used in America for cast-iron wagon wheels is grey pig-iron, obtained from rich and pure red iron ore melted with charcoal, *corresponding, therefore, exactly with our circumstances.*

The usual duration of such wheels is of that degree that they are allowed to run 60,000 miles in full confidence before they are subjected to new tests as to their further utility.

At the Philadelphia Exhibition four such wheels were shown which had run 150,000 miles without having suffered in substance or appearance.

Another speciality, suitable for the present circumstances, is the production of *malleable castings.*

Malleable castings.

For this article also pig-iron of the best quality (reduced with charcoal) is adapted. To explain it in a few words, the cast articles are embedded in material giving off oxygen, and are slowly heated, whereby the carbon is driven out of the cast-iron to a certain degree, the final product being one of steel-like nature. As a decarbonising means in our case the manganese ores of Malaghar and Ramtek (see Plan No. 1) can be made use of. The fabrication of malleable iron has lately been brought to great perfection in certain parts of Europe and America. The following articles might be here produced: ploughshares, scythes, hay-forks, rakes and other agricultural implements; also stirrups, horse-bits, keys, small wheels, certain parts for guns, rifles, and other weapons, double eyes and other parts of machinery, and in general such articles of complicated shapes in which great strength is not required, articles which it would be difficult to make of forage-iron. It is scarcely necessary to mention here that most cast-iron articles may be turned out *direct* from the blast furnace, without re-melting in the cupola furnace.

SUBSIDIARY PRODUCTS.

The subsidiary products of the blast furnace, as the gases and slag, can and should be utilised,—the former for the heating of the boilers and hot-blast ovens; the latter for the fabrication of cement, artificial stones, and slag wool (*vide* Report on the Bengal Iron Works, page 2).

THE BESSEMER PROCESS.

From the purity and uniformity of the ores and fuel treated of, it may at once be concluded that the product of the blast furnace will also be pure and uniform, and that it will, therefore, be possible to allow the pig-iron to run in a fluid state *direct* from the blast furnace into the Bessemer converter, whereby the cost of re-melting would be saved, as is successfully done in Carinthia, Styria, and Sweden, where the working is carried on under conditions similar to those in our case.

The finishing process of rolling the Bessemer ingots into rails, tyres, plates, &c., requires no particularly high temperature, and can, therefore, be effected with Warora coal of second quality, *viz.*, *slack coal* at Rs. 2 per ton.

SPIEGELEISEN.

The "Spiegeleisen" necessary for the production of steel in the Bessemer converter cannot be obtained from the iron ores of Chanda, as, notwithstanding their purity, their contents of manganese is very slight; "Spiegeleisen" would, therefore, have to be imported.

"Spiegeleisen" contains from 5 to 15 per cent. manganese; it would lead us too far to explain why this ratio of manganese is necessary for the production of "Spiegeleisen"; suffice it to say that hitherto the existence of "Spiegeleisen" free of manganese has not been proved (see Appendix No. 4,

page 28). For the production of (ingot iron) "Flusseisen" (a product containing only 0·05 to 0·10 per cent. of carbon) in the Bessemer converter, it is not required to add "Spiegeleisen." *Girder plates, boiler plates, rod, angle, and square iron, and rolled beams* of the *stronger* kind, *wagon axles*, and *iron rails* could be turned out cheaply in the Bessemer process, as these descriptions of goods can be made of (ingot iron) "Flusseisen," and the cost of "Spiegeleisen" is avoided.

The scraps remaining when making rails are generally used up in the open-hearth process, in the cupola furnace, or in the Bessemer converter, where they are melted down with the pig-iron. It has already been shown (page 3) that under the present circumstances the open-hearth process cannot be used; the other usual resources for utilising the scraps of rails is rationally resorted to only where no better alternative remains. These scraps, however, yield particularly suitable material for the manufacture of wire and thin hoop-iron, a process which has been in vogue for some years with success in Cleveland, and has lately been initiated in other Bessemer Works. A Bessemer establishment, producing daily 72 tons of rails, can in this wise turn out daily 8 tons of wire or of hoop-iron.

THE PUDDLING AND WELDING PROCESS.

It has already been mentioned (page 3) that the Warora coal can be advantageously used in the puddling and heating (welding) process; but it should be mentioned also, with regard to the purity and richness of the iron ores, that a modification of this process has come into use in America, consisting in the adding of iron ores for furthering decarbonisation, whereby the time of finishing the puddling process is shortened, the loss of iron, which used to be about 10 per cent. is reduced to 2 per cent., and there is a corresponding saving in coal and labour. The puddling process has lately been much diminished in Europe, owing to the undoubted success of the Thomas Gilchrist dephosphorising method applied to the Bessemer process, as, by this method, the cheaper pig-iron containing phosphorus can be worked, which was before possible only in the puddling furnace; but the latter will still maintain itself—

1st, where there is an object to manufacture *fine* kinds of iron, or rolled iron goods of *complicated* form, as wire, fine hoop-iron, thin sheet-iron, thin angle and U-iron, &c., because the reduction of the 14-inch thick Bessemer blocks of compact material to small dimensions or complicated forms is combined with much and costly manipulation;

2nd, for turning out certain qualities of iron and steel, which cannot be produced in the Bessemer converter, for instance blister and Brescian steel.

THE DIRECT PROCESS.

It will not be out of place here to bring to notice a new process of iron and steel-making directly of ores, namely, the "*Landore Process*," which, if not at present, may, under the condition of the projected Iron Work, deserve consideration in *future*.

This process consists in melting a certain amount of grey pig-iron of the best quality in an open-hearth furnace, and adding to the thin fluid metal bath so obtained iron ores till the matter has been decarbonised. It is the oxygen in the iron ore which is here the decarbonising factor, the metallic iron being reduced and dissolved in the metal bath.

This adding of iron ore is continued till the whole of the pig-iron has been decarbonised (which is experimentally ascertained), when "Spiegeleisen" or "Ferromanganese" is added, as in the Bessemer converter, for the production of a given quality of steel.

It is scarcely necessary to prove that for this process iron ores of the best quality are required; in Landore these are imported from Mokta in Algeria; they contain 62 per cent. metallic iron and have no injurious impurities. Now, these ores cost, delivered in Landore, about Rs. 13 per ton, whilst the iron ores of Lohara contain 69 per cent. of metallic iron (7 per cent. more), and would cost, delivered at the Iron Work in Chanda, Rs. 3¼ per ton

It should be, however, pointed out that the process under explanation requires a very high degree of heat, as the metal bath has to remain perfectly liquid even in a decarbonised state; the metal bath must also be covered with a layer of slags, 3 inches thick, as a protection against the flame hovering over it, which would act injuriously upon the ores floating on the surface of the bath, till they are dissolved.

This cover of slags acting as a bad conductor of heat, a temperature of 1900° centigrade is required to work the Landore process successfully. It may be doubted whether so high a temperature can be obtained with Warora coal (being poor in carbon), even with the assistance of Siemen's regenerators, but it might be obtained with the Pisgaon coal, which has 20 per cent. more carbon than the Warora coal.

Should, therefore, in due time the Pisgaon seam be opened out, this process would have a chance of giving excellent results with the Lohara ores. This process has been in use in the Landore Works already 12 years with ever-increasing results: by this time there are 24 furnaces at work, producing together about 2,000 tons of steel per week. The steel turned out with this process is well-known for its uniformity and durability, and is therefore preferred in the English arsenals to all other brands. It is due chiefly to the difficulty of finding so pure and rich ores, and to their high cost, that this process has not been more generally adopted (see Appendix 5, page 28).

ARTICLES FOR EXPORT.

The natural resources of the Chanda District offer not only the prospects of supplying India with a considerable portion of her iron and steel requirements, but also of producing articles for exportation to England—articles which are not made in England, but are imported in considerable quantities from the Continent of Europe.

Such are *Ferromanganese*, a mixture of metallic iron with 30 to 75 per cent. of metallic manganese, and a few per cents. of carbon; it is used as an addition in the Bessemer and open-hearth processes, and also in the cast-steel crucible for the production of certain kinds of steel of special hardness for bandages, cutting tools, manganese steel, &c.

Ferromanganese.

The price of this article is very high, and fluctuates according to the quantity of manganese it contains,—from £15 to £25 per ton delivered at Sheffield. The best part of this article England imports from Hörde in Germany, and Terrenoire in France. The raw materials required for the production of ferromanganese are pure charcoal pig-iron (granulated), and manganese ore containing iron.

There are three systems for the manufacture of ferromanganese, namely, in the crucible, the open-hearth, and the shaft furnace. To explain all these methods would lead too far; suffice it to say that for our conditions the production of ferromanganese with the shaft furnace (Système "Terrenoire") would be most suitable.

There is in Ramtek (see Plan No. 1) manganese ore of the following chemical composition:—

	Per cent.
Metallic manganese	54·60
„ iron	6·50
Oxygen in combination	26·50
Silica	6·00
Lime	1·20
Combined water a. div. impurities	5·20

This manganese ore, with the pig-iron obtained from the Lohara ores by means of charcoal, would yield a material for the production of Ferromanganese of an excellent quality.

Another manganese ore is found in Malaghar (see Plan No. 1), Wún District, containing 26 per cent. metallic manganese; it is of an inferior quality, and, although nearer, it cannot compete with that of Ramtek.

A second export article to England would be the so-called "*Brescian* or *Milan Steel.*" This is a kind of puddling steel, made of a pig-iron free from phosphorous and sulphur, and is an article of commerce in great demand and much esteemed.

Brescian Steel.

In former times, Brescian or Milan steel was only made, as its name indicates, in the districts of Milan and Brescia, and was made with charcoal in the old charcoal hearth. The demand for this article, however, in England and on the Continent of Europe was greater than those districts could satisfy, and Corinthia and Styria are now supplying the greatest part of it.

As material for this product serves pure, white and grey charcoal pig-iron, which are converted in the puddling furnace by means of brown coal or turf into raw steel. It is then rolled by means of the welding process into square bars from ½ to ¾ inch thick. The bars are quickly cooled in water, broken, sorted according to the appearance of the breach, and packed in cases for export to England, France, and Germany.

The price of Brescian steel delivered in Sheffield is £18 per ton.

THE LABOUR QUESTION.

The disproportionally heavy cost and disadvantages arising from climate and social circumstances connected with the maintenance of a European staff of workmen point to the advisability of having recourse, as much as possible, to *native labour*; on the other hand, there is in the native a deficiency of practical professional training and a lower degree of physical and moral strength. Professional training can, however, be imparted to the native, and I believe he can be made to learn the work required at a blast furnace and rolling mill, if he be treated at it with gentleness and patience, if he be strictly controlled, if he be not worked too hard, and if his religious and other prejudices be respected; his physical strength will rise with better diet obtained by means of better wages.

The usual 12 hours of daily attendance ruling in Europe would have to be reduced to 8 hours. It would also be advisable to promise rewards to the European workmen for every native trained sufficiently to replace a European.

There are some branches of iron-work which natives will learn very quickly, such as the manufacture of wire, hoop-iron, malleable iron, ferromanganese, blister steel, and other operations requiring less physical strength, but more quickness of movement or manual cleverness.

WATER-POWER.

No suitable place can be found in the Chanda District where there is natural water-power available for the driving of the machinery of an iron work.

The only stream in this district which might be made to furnish water-power is the Winganga, called Prenhita after its union with the Wurda stream, north of Bemballa (see Plan No. V). This stream has numerous cataracts, which, if concentrated by a canal six miles long, would give a fall of 40 feet.

The quantity of water amounts during the dry season to about 100 cubic feet per second, which with the 40-feet fall, would give *theoretically* an effect of about 520 horse-power.

Through the application of a Jonval turbine (the most suitable motor for our conditions), this water-power might be made to furnish a *real* effect of 350 *horse-power*; the use of this water-power for the iron work is, however, not suitable, and this for the following reasons:—

(1) In the rainy season this stream rises often 50 feet, when the machinery worked by it would have to be stopped, a contingency which an iron work could not endure, as

the laying cold and reheating of the furnaces are connected with very great expense of money and time, and with other inconveniences which it would be too long to explain here.

(2) The locality of the available water-power is too much out of the way, so that the saving of fuel would be more than counterbalanced by the greater cost of carriage of the raw materials and the manufactured goods.

(3) Water-power is in general of less value for an iron work because the necessary steam-power for the driving of the machinery may be produced, in most cases, with the gases drawn from the furnaces, that is to say, no extra fuel is required for heating the boilers. The gases of a blast furnace (of a production of 30 tons of pig-iron per day) supply about 150 horse-power; the gases of a furnace for Bessemer ingots furnish 130 horse-power, a puddling furnace gives 20 horse-power; and a heating furnace for bar-iron 25 horse-power.

The water-power of the Winganga may become of good use for other industries in the future, when the communications of the district will have been developed.

A short stoppage of a paper, cotton, rice, or saw mill is no great loss, as the time of the inundation can be usefully employed for repairing the machinery, taking stock, &c., which operations, by making a virtue of necessity, could be always reserved for the season of the freshes.

For such establishments water-power has also more value, as it can be assumed that each of its horse-power is equal to one cwt. of coal per 12 hours.

COST OF RAW MATERIALS.

Iron ore.

The cost of quarrying the iron ore at Lohara and carrying it to the tramway may be estimated at annas 14 per ton, the carriage by tramway from Lohara to the iron work, 38 miles, at anna 1 per ton per mile; we have therefore—

	Rs.	A.	P.
Cost of the ore at the quarry, per ton	0	14	0
Carriage from Lohara to the iron work, 38 miles, at 1 anna per ton	2	6	0
Total cost of one ton of ore delivered at works ...	3	4	0

(See Appendix No. 6, page 28.)

Charcoal.

According to information received from the Conservator of Forests of the Central Provinces, *charcoal* may be had at the place of production for Rs. 3-13-10 per ton; but it may be presumed that with a larger demand the rates of labour and contingencies will rise and increase the present price of charcoal by 30 per cent.; it will therefore be safer to estimate the cost per ton at Rs. 5-0-6 (see Appendix No. 8, page 28). The transport of charcoal will also best be effected by a portable tramway.

Owing to the larger bulk of this article, and the somewhat greater precautions required to be taken in its carriage, it will cost about 50 per cent. more than that of the ore, namely, annas 1½ per ton per mile.

It should be observed that, according to the information furnished by the Conservator of Forests, Central Provinces, the 32,000 tons of charcoal (which will be required annually) will cause a deboisement of 11 square miles of forest yearly; with regard to the situation of the forest to the iron works it will therefore be necessary to shift the charcoal tramway once every 3½ years. Assuming the charcoal tramway to be 20 miles, the cost of its shifting every 3½ years will be 20 × 3,000=Rs. 60,000 (Rs. 3,000 per mile), which must be distributed over the cost of carriage of the charcoal. Now, tons 32,000 × 3½ (years)=112,000 tons; therefore the cost of shifting of tramway per ton of charcoal will be $\frac{\text{Rs. } 60,000}{\text{tons } 112,000}$ = annas 9.

The average distance over which the charcoal will have to be carried is 15 miles. The cost of carriage of the charcoal will therefore stand per ton—

	Rs.	A.	P.
Net carriage	1	6	6
Proportion of shifting of Tramway every 3½ years	0	9	0
Total ...	1	15	6

The total cost of one ton of charcoal delivered at the Iron Works will therefore be—

	Rs.	A.	P.
At the place of production	5	0	6
Total cost of carriage (annas 2¼ per ton per mile)	1	15	6
Total ...	7	0	0

It will be observed that in this calculation only the actual expenses have been taken into account, and not the value of the trees to the Forest Department; but it should be remembered that, in an indirect way (explained on page 2), the Forest Department will be sufficiently compensated by an iron work situated near its forests.

Coal.

The prices of coal in Warora are Rs. 5 per ton large coal and Rs. 2 per ton slack coal; its carriage to the Iron Work per Tramway would be ¾ annas per ton per mile.

The carriage of the coal is taken 30 per cent. lower than that of the ore, as it will chiefly be done by return train; all other goods will be carried to Warora from the iron works, and the coal to the iron works from Warora. These other goods will be those made in the iron work, but also forest produce and the agricultural produce of the well-cultivated part of the country situated on the Winganga stream, which agricultural produce is sure to be increased through the tramway connecting this district with the main railway at Warora. The total cost per ton of coal delivered at the iron work will therefore be :—

	Rs.	A.	P.
Large coal, cost at Warora	5	0	0
Carriage from Warora, 17 miles, at *9 pies per ton*	0	13	0
Total	5	13	0

	Rs.	A.	P.
Slack coal, per ton at Warora	2	0	0
Carriage from Warora to the iron works, 17 miles at *9 pies* ...	0	13	0
Total	2	13	0

Limestone.

The cost of limestone delivered at the iron works will be the same as that of slack coal, namely, Rs. 2-13-0 per ton.

WAGES.

Skilled labour.

In the beginning at least skilled labour will have to be done by Europeans (see page 10); for certain subordinate operations only suitable natives may be found, as for instance foundrymen, engine-drivers, masons, carpenters, and other auxiliary workmen.

The cost of professional work done by Europeans must be assumed as double that in Europe.

Native labour.

A strong native coolie costs at present in the Chanda District *annas* 2½ per day, but wages must be expected to rise to *annas* 4. If the native labourer be assumed to do, in a given time, only half the work a European would do, he would still cost less than half. Unskilled work, such as loading and unloading the work at the cranes, carriage, masonry, carpentry, locksmith's work, and all auxiliary work can be done by natives, and may be estimated at half the cost for which it is done in Europe.

MANAGEMENT, WEAR AND TEAR, &c.

The cost of these is estimated at 35 per cent. higher than in Europe. This agrees with the experience gained in other large establishments of the kind in India. There will, however, be an economy in respect of fireproof material, which forms the greatest item in the question of wear and tear, as the raw material is found near the iron work and can be worked up exclusively by coolies.

APPROXIMATE COST OF PRODUCTION.

(1) *Cost of one ton of grey pig-iron*—

		Rs.	Rs.
1·60 tons iron ores	at	3·25	5·20
1·00 „ charcoal			7·00
Wages			3·66
Limestone, 0·05 tons	„	2·80	0·14
Management, wear and tear, &c.			7·00
Total			23·00

(2) *Cost of one ton of white pig-iron*—

		Rs.	Rs.
1·60 tons iron ores	at	3·25	5·20
0·86 „ charcoal	„	7·00	6·02
0·05 „ limestone	„	2·80	0·14
Wages			3·34
Management, wear and tear, &c.			6·30
Total			21·00

(3) *Cost of one ton of rails (Bessemer steel)*—

		Rs.	Rs.
1·19 tons grey pig-iron	at	23·00	27·37
0·06 „ Spiegeleisen	„	130·00	7·80
1·00 „ slack coal from Warora	„	2·80	2·80
0·50 „ large coal	„	5·80	2·90
Wages			10·88
Management, wear and tear, &c.			12·35
Total			64·00

(4) *Cost of one ton of rails (Bessemer iron)*—

		Rs.	Rs.
1·25 tons grey pig-iron	at	23·00	28·75
1·00 „ slack coal	„	2 80	2·80
0·50 „ large coal	„	5·80	2·90
Wages			10·45
Management, wear and tear, &c.			12·10
Total ...			57·00

(5) *Cost of one ton bearing or girder plates of Bessemer iron*—

1·50 tons grey pig-iron	at	23·00	34·50
1·50 „ slack coal	„	2·80	4·20
0·50 „ large coal	„	5·80	2·90
Wages			12·40
Management, wear and tear, &c.			14·00
Total ...			68·00

(6) *Cost of one ton bar-iron, puddled*—

1·15 tons white pig-iron	at	21·00	24·15
0·30 „ iron ores	„	3·25	0·97
1·50 „ slack coal	„	2·80	4·20
1·50 „ large coal	„	5·80	8·70
Wages			11·63
Management, wear and tear, &c.			12·35
Total ...			62·00

(7) *Cost of one ton rolled wire and thin hoop-iron, puddled*—

1·00 tons white pig-iron	at	21·00	21·00
0·30 „ grey pig-iron	„	23·00	6·90
1·80 „ slack coal	„	2·80	5·04
1·50 „ large coal	„	5·80	8·70
Wages			13·36
Management, wear and tear, &c.			14·00
Total ...			69·00

(8) *Cost of one ton low moor plates, puddled*—

1·00 tons white pig-iron	at	21·00	21·00
0·40 „ grey pig-iron	„	23·00	9·20
1·50 „ slack coal	„	2·80	4·20
3·00 „ large coal	„	5·80	77·40
Wages			20·20
Management, wear and tear, &c.			22·00
Total ...			94·00

(9) *Cost of one ton sheet-iron puddled*—

1·20 tons white pig-iron	at	21·00	25·20
0·30 „ iron ores	„	3·25	0·97

Wages			16·00
Management, wear and tear, &c.			17·00
		Total ...	90·00

Recapitulation.

Cost of one ton grey pig-iron at the Iron Work	23·00
Do. white do. do.	21·00
Do. Bessemer steel rails do.	64·00
Do. do. iron rails do.	57·00
Do. bearing or girder plates of Bessemer iron ...	68·00
Do. puddled bar-iron	62·00
Do. rolled wire and thin hoop-iron	69·00
Do. "low moor" plates	94·00
Do. thin sheet-iron	71·00
Do. blister steel	98·00
Do. Brescian steel	70·00
Do. ferromanganese with 60 per cent. manganese ...	90·00

REMARKS.—In the calculations of the costs of production, the *actual* expenses are only taken into account, *excluding* interest of Capital invested in the Iron Work, as well as Government fees and taxes of any description.

2. The prices are given in rupees, per ton, at the Works.

APPROXIMATE ESTIMATE OF AN IRON WORK

PRODUCING 80 TONS BESSEMER STEEL RAILS PER DIEM.

See Plans Nos. II and III.

	Rs.	Rs.	Rs.
I.—FURNACES AND MACHINERY—			
(*a*)—*For the Blast Furnaces*—			
3 Ore crushers		7,200	
2 Blowing engines, each giving 2,000 cubic feet air per minute, with 2 water-pumps—			
Machinery	54,000		
Foundations	10,000		
		64 000	
1 Hoist for iron ores, charcoal and limestone		18,000	
12 Steam-boilers, each 40 horse-power—			
Boilers	36,000		
Masonry	12,000		
		48,000	
3 Blast furnaces, each producing 33 tons of pig-iron per day—			
Cast and wrought iron	69,000		
Masonry	18,000		
		87,000	
6 Hot-blast ovens—			
Cast and wrought iron	18,000		
Masonry	6,000		
		24,000	
Regulator of blast, gas conduit, blastman, steam and water pipes, &c.—			
Cast and wrought iron	24,000		
Masonry	6,000		
		30,000	
2 Water reservoirs, each for 15,000 cubic feet contents ...		15,000	
Cinder and ore tubs, scales, stools, &c.		15,000	
			3,08,200
(*b*)—*For the Bessemer and Rolling Mill*—			
4 Gas furnaces—			
Cast and wrought iron	20,000		
Masonry	8,000		
		28,000	
2 Bessemer converters, each for 5 tons contents—			
Cast and wrought iron	15,000		
Masonry	2,000		
		17,000	
2 Cupola furnaces, including derrick—			
Cast and wrought iron	5,000		
Masonry	1,500		
		6,500	

	Rs.	Rs.	Rs.
3 Drying furnaces with crane—			
Cast and wrought iron	2,500		
Masonry	2,000		
		4,500	
1 Blowing engine—			
Machinery	36,000		
Foundation	6,000		
		42,000	
1 Water-pump with accumulator for the hydraulic machinery—			
Machinery	10,000		
Masonry	3,000		
		13,000	
1 Hydraulic crane for 10 tons maximum weight—			
Machinery	7,500		
Masonry	2,000		
		9,500	
3 Hydraulic cranes for 4 tons maximum weight—			
Machinery	5,000		
Masonry	1,500		
		6,500	
1 Blooming mill with 250 horse-power steam engine and 45 tons fly wheel—			
Machinery	70,000		
Foundation	8,000		
		78,000	
1 Rails mill with 300 horse-power steam engine and 40 tons fly wheel—			
Machinery	90,000		
Foundation	11,000		
		1,01,000	
1 Steam-hammer, including crane—			
Machinery	15,000		
Foundation	5,000		
		20,000	
16 Steam-boilers, each 40 horse-power—			
Boilers	48,000		
Masonry	16,000		
		64,000	
2 Water reservoirs, each for 15 cubic feet		...15,000	
2 Water-pumps, including steam engine ...		... 6,000	
2 Feeding-pumps for the steam-boilers, including steam engine		... 3,200	
1 Large scale for weighing the Bessemer blocks—			
Machinery	2,500		
Masonry	1,500		
		4,000	
2 Circular saws with steam engine		... 3,000	
3 Drilling machines		... 4,500	
1 Punching machine		... 2,500	
1 Slotting „		... 1,500	
2 Straightening machines		... 5,000	
1 35 horse-power steam engine, including transmission—			
Machinery	4,000		
Foundation	600		
		4,600	
Cooling beds for rails		... 3,000	
Steam, water, and air pipes		...14,000	
Pans, railways, wagons, ingot-moulds, tools, &c. ...		...10,000	
			4,66,300
(c)—*For the Workshops*—			
1 Large lathe for the cylinders		... 5,000	
1 Small „ „		... 1,500	
1 Planing machine		... 3,000	
1 Drilling „		... 1,200	
2 Root's blowers		... 2,400	
1 Steam engine of 40 horse-power, including transmission—			
Machinery	4,500		
Foundation	700		
		5,200	

2 Steam-boilers each 20 horse-power—	Rs.	Rs.	Rs.
Boilers	3,600		
Masonry	1,200		
		4,800	
1 Crane		5,000	
1 Cupola furnace with derrick—			
Cast and wrought iron	2,000		
Masonry	600		
		2,600	
Tools, pipes, railways, &c. ...		4,000	
			34,700
II.—BUILDINGS—			
(a)—*For the Blast Furnaces*—	Area in square feet.		
3 Charcoal shops	30,000	30,000	
Store-yards for iron ores, coal and limestone ...	40,000	7,500	
Ore-crush and ore-mixing house	3,000	6,000	
2 Blowing engine-houses	5,000	15,000	
Building for the hoist	800	8,000	
Foundry hall	15,000	22,500	
2 Chimneys, each 120 feet high	500	8,000	
Channels and drains		6,000	
			1,03,000
(b)—*For the Bessemer Mill*—			
Bessemer and rolling mill	100,000	2,50,000	
2 Chimneys, each 120 feet high	500	8,000	
Channels and drains		6,000	
			2,64,000
(c)—*For the Workshops and divers other buildings*—			
2 Workshops	20,000	40,000	
Store-room	4,000	8,000	
Scale and porter-house, including scale ...	1,500	5,000	
Office	7,000	14,000	
3 Dwelling-houses for Engineers	12,000	18,000	
3 Barracks for workmen	18,000	24,000	
1 Chimney for workshops, 80 feet high ...	150	1,000	
Drains and channels		1,000	
			1,11,000
III.—EARTHWORK—			
Levelling ditches, tanks, dams, &c. ...	...		20,000
IV.—TRAMWAYS—			
55 *running miles* tramway to connect Lohara and Warora with the Iron Work.			
20 *running miles* for transport of charcoal to the Iron Work, altogether 75 miles tramway, per mile	12,000	...	9,00,000
V.—WORKING CAPITAL—			
Amount invested in stores		1,50,000	
Reserve funds		1,50,000	
			3,00,000
VI.—ENGAGEMENT AND BRINGING OUT OF 70 EUROPEAN WORKMEN		...	35,000

Recapitulation

	Rs.
Cost of furnaces and machinery	8,09,200
Do. buildings and earthwork	4,98,000
Do. tramways (75 miles)	9,00,000
Do. bringing out European workmen	35,000
Working Capital and Reserve funds	3,00,000
Total ...	25,42,000

25,42,000

An Iron Work producing *80 tons Bessemer steel rails per day costs Rs. 25,42,000.*
(See Appendix No. 7, page 28.)

APPROXIMATE ESTIMATE OF AN IRON WORK

PRODUCING 80 TONS OF PUDDLED BAR-IRON, HOOP-IRON, THIN SHEET-IRON, AND ROLLED WIRE PER DAY.

(*See Plan No. IV.*)

An Iron Work producing 80 tons per day of puddled bar-iron, thin sheet-iron, hoop-iron, and rolled wire costs Rs. 26,67,700

(See Appendix No. 7, page 28.)

APPENDICES.

No. 1.—The proportion of the pig-iron to the slags in the blast furnace should not exceed that of 5 : 1. The reason of this is that the pig-iron, which accumulates in the lowest part of the blast furnace, requires to be protected from the decarbonising effect of the blast streaming out of the tuyeres. This protection is offered by a sufficiently thick layer of slags, which, being specifically lighter, floats on the surface of the pig-iron bath like oil on water, keeping off every injurious action of the air hovering over it. As a rule, the quantity of slags is twice and three times as large as that of the pig-iron. In the smelting of the Lohara ores, the decidedly rare case presents itself of the ores being too pure and the blast furnace slags consisting of the impurities of the ores, the ashes of the fuel and of the flux, representing 16 per cent. only of the quantity of pig-iron. To complete, therefore, the deficiency of 4 per cent., the ores of Lohara require an addition of 12 per cent. of an inferior ore, which is to be found in the neighbourhood of the projected Iron Work.

The reason of the difficulty in treating magnet iron ores lies in general in their low melting point, combined (notwithstanding their proportionally smaller contents of oxygen) with a difficulty in reduction. On this account it easily occurs that magnetites begin to melt in the blast furnace before the oxygen has been driven out, bringing about the unpleasant consequences well known to iron-masters. Magnetites can therefore not be worked with a blast of high temperature in order to reduce them, as much as possible, with carbonic oxygen gas (CO), that is to say, at a lower temperature.

Therefore, also, for the smelting of magnetite ($Fe_3 O_4$) proportionately larger consumption of fuel in the blast furnace is required than in the smelting of specular iron ores ($Fe_2 O_3$), a kind of red iron ore, although the latter requires more carbon for its reduction than the former.

No. 2.—The reasons why specifically heavier charcoal, weight for weight, is more valuable than specifically lighter charcoal are the following :—

(1) A larger quantity of fixed carbon is comprised in a smaller space, whereby, as is well known, the pyrometric effect of every description of fuel is raised.

(2) The larger the specific weight is of charcoal, the greater is its resistance to being crushed, and this consideration is very important in regard to the use of charcoal in the blast furnace. In general, the dimensions of a blast furnace should be *as large as possible*, as thereby fuel, labour, and wear and tear are spared, but their limit is determined by the height of the furnace from which all the other dimensions depend. The height of a blast furnace again depends on the mechanical resistance "capacity" of the fuel to be used, which "capacity" should be great enough to enable it to bear, in the lower parts of the furnace, the whole weight of the smelting column which fills the furnace (namely, the ore, fuel and flux) without being crushed. Coke furnaces are worked most economically, because their height reaches 70 feet, and their outturn of pig-iron can be raised to 75 tons per day. The charcoal blast furnaces of Styria and Sweden have a maximum height of 45 feet, and produce 20 tons of pig-iron, but the charcoal of Chanda will allow of a blast furnace 52 feet high capable of turning out daily from 30 to 35 tons of pig-iron.

No. 3.—Coke for the blast furnace process should not be smaller than half a fist ; it is better when the pieces are more than the size of a fist, and this on the following grounds :—

(1) To facilitate their onward motion, together with the ore and flux, which is necessary for the promotion of the chemical reactions between the fuel, ore and flux as they sink in the blast furnace, which chemical reactions are possible only when the materials remain in constant touch with one another.

(2) To render possible the withdrawing of the gases rising from the lower parts of the blast furnace, which evidently would not take place if all the interstices between the materials which fill the blast furnace were choked up with small particles of coke.

No. 4.—It may not be out of place here to meet an objection arising from an opinion still often entertained, that for the purpose of producing "Spiegeleisen," manganese ores may be added to iron ores devoid of it by introducing it into the blast furnace in proper quantities along with the iron ore.

This question may be raised in our case, as manganese ore is found not far from the iron work (see Plan No. I, page 10). All such attempts have failed in practice, owing to the difficulty of reducing manganese ore. It is found that the iron ore is reduced (the oxygen driven out) and carbonised; therefore ready for the melting process, when the manganese ore, which had been put in simultaneously with the other, has scarcely commenced giving off its oxygen; in other words, has scarcely commenced to be reduced.

The natural consequence then results that the manganese ore (reaching the melting zone almost unchanged) is fused in this condition, and forms a good part of the blast furnace slags without amalgamating itself with the pig-iron.

The simultaneous red uction of oxide of manganese and oxide of iron can only take place when the particles of both are mos t intimately mixed, which is the case in iron ores containing a large percentage of oxide of manganese.

An alloy of metallic iron and manganese, the so-called ferromanganese, can be obtained by certain manipulations (see page 9); but as ferromanganese cannot replace "Spiegeleisen," this process is not worth further consideration in *this* place.

No. 5.—The direct process of Siemen's is, under the conditions before us, not suitable, because this process depends also upon the open-hearth furnace, as the iron blooms (the end product of the Siemen's rotator furnace) have to be dissolved in the pig-iron bath of the open-hearth for the conversion into steel. These blooms are therefore used in the same manner as the iron ores in the Landore process.

Should, however, in future the open-hearth process become practicable (through opening of the Pisgaon coal mine—see page 3), it is then the *Landore* direct process would be preferable, as, in our case, the iron ores of Lohara would cheaply replace the iron blooms of Siemen's rotator.

No. 6.—For the reasons explained in page 27, an addition of 12 per cent. of poorer ores will be necessary for the Lohara ores. Such poorer ores are to be found in Joonona, about 19 miles from the iron work, therefore about 20 miles nearer than those of Lohara; but as the former have to be carried by cart to the iron work, the price of Rs. 3¼ (delivered at the works) remains unaltered.

No. 7.—The estimate includes the cost of the tramway for the transport of the charcoal to the iron work. The length of this tramway would be 20 miles, and its price Rs. 2,40,000. In the first seven years, however, the charcoal might be carried on the other tramway, *viz.*, that connecting the iron work with Lohara and Warora, and the building of the charcoal tramway might be deferred till the necessary rails, sleepers, &c., can be made in our own iron work.

No. 8.—Cost per ton of manufactured charcoal from the Mahorli forests, at the place of production, for iron work. (The dates are furnished by the Conservator of Forests, Central Provinces.)

When the yield per square mile is tons charcoal.	Felling and collection of wood, and manufacture of charcoal.	Cultural operations for maintenance of yield.	Establishment.	Wear and tear of building and stock.	Total.	Allowing for rise in wages and contingencies to be expected 30 per cent.	Remarks.

1. Average weight per cubic foot 50 lbs.

* 2. Require special sanction of the Deputy Commissioner for being cut.

3. The names of the trees have been furnished by Geo. Taylor, Esq., Assistant Conservator of Forests at Chanda.

SUGGESTIONS.

The quantities, qualities, and the prices of the raw materials available in the Chanda district would furnish daily 80 tons of finished iron or steel, saleable at competition and profitable prices in India, and certain other articles for exportation to England.

Rails would give the *smallest* profit, as, by the "Thomas Gilchrist" dephosphorising method combined with the Bessemer process, the cheaper pig-iron, containing phosphorus, is worked into rails, the price of which has therefore fallen in Europe by 40 per cent. within the last two years.

Greater will be the profit from kinds of iron which, for the reasons explained on page 8, cannot be made so profitably by means of the Bessemer process, such as small bar-iron, hoop-iron, thin sheet-iron, wire, &c.; in short, all such kinds of goods which have either a small or a complex section.

Most profitable in our case will be articles which can be made *only* of ores of the best quality, and with vegetable fuel. Some of these have been severally and briefly treated of on pages 6 and 7. The chief factor which may, in the beginning, mar the full financial success of the Chanda Iron Works lies in the high railway freight prevailing in India.

This incubus on iron-work industry will, in the present case, press all the harder, as the railways of the Central Provinces are still insufficiently developed, as a glance at the railway chart may easily prove; but it may be expected that commercial, strategical, and other interests will soon cause the completion of the system to be taken in hand.

In the interest of the prospective iron industries of Chanda, the following extensions or new constructions of railways would be beneficial :—

(1) An extension of the Wardah-Warora line to Hyderabad *viâ* Chanda.
(2) A junction of the Great Indian Peninsula line at Kamptee with Gadawara or Jubbulpore (Bhosawul-Jubbulpore line) *viâ* Seoni.*
(3) A further extension of the latter line through Saugor and Jhansi and a junction with Gwalior.

Should these extensions be decided upon, it would be advisable to utilise the natural resources of the Chanda district in iron works capable of manufacturing all the iron railway material.

* North-east of Nagpore.

CHANDA; *19th April 1882.* } RITTER C. VON SCHWARZ.

No. 2934.—Privilege leave for three weeks having been granted to Mr. T. W. Rawlins, B.C.S., Accountant General, Punjab, and Deputy Commissioner of the Department of Issue of State Paper Currency, Lahore, Mr. Rawlins availed himself of the leave after noon on the 3rd August 1882.

Mr. W. Wells having been appointed to officiate as Accountant General, Punjab, and Deputy Commissioner of the Department of Issue of State Paper Currency, Lahore, during the absence of Mr. Rawlins, or until further orders, received charge of the appointment after noon on the 3rd August 1882.

D. M. BARBOUR,
Secy. to the Govt. of India.

MILITARY DEPARTMENT.

Simla, the 29th July, 1882.

FIELD OPERATIONS.

No. 421—EGYPT—

Under instructions from Her Majesty's Government, the Most Hon'ble the Governor General in Council has been pleased to direct that a force, as detailed below, be despatched for service in Egypt.

The appointments herein made will have effect from the dates on which the officers named may enter upon the duties thereof :—

Major-General Sir H. T. Macpherson, K.C.B., V.C., Bengal Staff Corps	Commanding
Lieutenant F. C. E. Childers, Royal Artillery ...	Aide-de-Camp
Major A. B. Morgan, Norfolk Regiment ...	Assistant Adjutant General
Major M. J. King-Harman, Bengal Staff Corps ...	Assistant Quartermaster General
Captain H. Melliss, Bombay Staff Corps ...	Deputy Asst. Quartermaster General
Captain E. R. Elles, Royal Artillery ...	Deputy Asst. Quartermaster General
Colonel H. Moore, C.B., C.I.E., Bombay Staff Corps ...	Assistant Quarter Master General (for Intelligence).
Lieutenant J. M. Grierson, Royal Artillery ...	Deputy Assistant Quarter Master General (for Intelligence).
Colonel J. Browne, C.S.I., Royal Engineers ...	Commanding Engineer
Major W. G. Nicholson, Royal Engineers ...	Field Engineer
Lieutenant J. Burn-Murdoch, Royal Engineers ...	Assistant Field Engineer
Major H. C. Marsh, Bengal Staff Corps ...	Provost Marshal
Lieutenant J. E. Dickie, Royal Engineers ...	Superintendent of Army Signalling
Voty.-Surgeon J. Anderson, Army Veterinary Department	Inspecting Veterinary-Surgeon
Reverend J. Henderson, M.A.	Presbyterian Chaplain

Medical Department.

Deputy Surgeon-General C. Smith, M.D., Madras Medical Department. ...	Principal Medical Officer

Military Account Department.

Major M. A. Rowlandson, Madras Staff Corps ...	Field Paymaster
Lieutenant W. R. LeG. Anderson, Bombay Staff Corps ...	"

Ordnance Department.

Captain H. H. Pengree, Royal Artillery ...	Commissary of Ordnance

Commissariat Department.

Lieutenant-Colonel W. Luckhardt, Bombay Staff Corps	...	Principal Commissariat Officer
Captain L. W. Christopher, Bengal Staff Corps	...	Deputy Assistant Commissary General.
Lieutenant-Colonel C. McInroy, Madras Staff Corps	...	Sub-Assistant Commissary General
Major A. T. S. A. Rind, Bengal Staff Corps	...	" "
Captain B. L. P. Reilly, Bombay Staff Corps	...	" "

Commissariat-Transport.

Lieutenant-Colonel C. Hayter, Madras Staff Corps	...	Director of Transport
Captain S. D. Turnbull, Bengal Staff Corps	...	Transport Officers
Lieutenant L. E. B. Booth, West Riding Regiment	...	Transport Officers
Lieutenant E. K. E. Spence, Bengal Staff Corps	...	Transport Officers

Artillery.

No. 7-1st Brigade, Northern Division, Royal Artillery (Mountain Battery).

Cavalry Brigade.

Brigadier-General H. C. Wilkinson, *h.p.*, late 16th Lancers	...	... Commanding
Major S. D. Barrow, Bengal Staff Corps	...	... Brigade Major

2nd Bengal Cavalry.
6th Bengal Cavalry.
13th Bengal Lancers.

Sappers and Miners.

"A" Company, Madras Sappers and Miners.
"I" " " " " "

Infantry Brigade.

Colonel O. V. Tanner, C.B., Bombay Staff Corps	...	... Commanding
Major R. H. Murray, Seaforth Highlanders	...	... Brigade Major

1st Battalion Seaforth Highlanders.
7th Bengal Native Infantry.
20th Bengal (Punjab) Native Infantry.
29th Bombay Native Infantry (2nd Biluch Regiment).

In Reserve at Aden.

4th Madras Native Infantry.
31st Madras Native (Light) Infantry.

The following regulations are laid down for the guidance of all concerned:—

1. Native Regiments will go on the present established strength of 550 of all ranks for Cavalry, and 832 for Infantry, so far as they may be complete, and *minus* the men who are unfit.

2. Commanding Officers will be held responsible that none but officers, men and followers in every way fit for field service accompany the regiment: all sickly men are to be left at the depot, and no others.

3. Each Native regiment will be completed to its full establishment of eight British officers, including those who may be recalled from furlough, and who may be expected to join in Egypt.

4. Followers, servants, and baggage will be according to the Kabul scale, but without grass-cutters, except as hereinafter laid down for the cavalry. All regiments will be completed with all establishments (including commissariat), according to the orders laid down, in their respective presidencies.

5. Depots for regiments will be formed under the orders of His Excellency the Commander-in-Chief in India, and of the Governments of Madras and Bombay respectively.

6. A British officer will be detailed for the charge of each of these depots, and will draw the allowance specified in Articles 307 and 378, Pay Code for India, Vol. I. A pay havildar, on a staff salary of Rs. 5 per mensem, will be allowed to each depot of native troops.

7. Commanding Officers will be held responsible that all orders and circulars connected with family remittances and arrangements for the comfort of the men and families are made known to, and are in possession of, officers appointed

to the charge of depots; and that provision is made for the care of spare arms, accoutrements, books, heavy baggage, &c., which may be left behind.

8. Quartermaster's establishments for the depots will be supplied under clause 15, India Army Circulars of 1880.

9. The families of British troops left behind in India will remain at their present stations, and will receive, in addition to subsistence allowance, three-quarter rations for the wives and half-rations for the children.

10. Followers, servants, baggage, camp equipage, and kit, for staff and departmental officers, will be on the Kabul scale, but grass-cutters will not be taken.

11. The British troops, including officers of the Army Medical Department, will remain on Indian pay and allowances until they land in Egypt, when they will come under the orders of the General Commanding in Egypt, and will then be on the same scale of pay and allowances as the rest of the British troops with the expeditionary force.

12. Native infantry and sappers and miners will draw extra batta; and free rations will be allowed to all ranks of cavalry, infantry, and sappers, while on foreign service.

13. Each native commissioned officer of the cavalry will be required to keep up one pony and one attendant as syce and grass-cutter, whether he takes one or two horses; and the non-commissioned officers and privates to maintain one pony and one grass-cutter for every two horses.

14. Compensation at the rate of Rs. 5 per mensem will be allowed to the native officers for each bargheer sanctioned by existing regulations, if maintained by them, out of which sum they will pay the share of the grass-cutter's wages and provide the stable gear. A similar amount will be deducted from the pay of the bargheer sowars.

15. As during a sea voyage the officers, non-commissioned officers and sowars of the cavalry would be unable to make the requisite provision for the forage of their horses, whilst difficulty might be experienced in this respect during a portion of their service on land, the forage of the horses, and of the mules or ponies accompanying, will be undertaken by the Commissariat, with such assistance as the regiments and followers may be enabled to render after landing.

16. All ranks will be required, as at present, to maintain one efficient horse; but the native commissioned officers will be allowed forage for two horses each, if they desire to take a second charger.

17. The grass-cutters will be paid by the troops, as usual; but the ponies will receive grain, and, when necessary, hay, free of cost. Both grass-cutters and animals will be employed to procure forage when obtainable, and must be held disposable for all purposes.

18. The native commissioned and non-commissioned officers of cavalry will continue to subscribe to the regimental funds to such extent as commanding officers may deem necessary within the limits prescribed by regulations.

19. They will continue to supply themselves with the ordinary clothing, equipment, saddlery, and stable gear for their horses; but articles of extra clothing necessitated by any speciality of climate or service will be issued free of cost.

20. All casualties of horses or ponies arising from neglect or from causes evidently unconnected with the particular nature of the service must, as usual, be replaced by the regiments concerned. Each troop will be allowed to embark and maintain two chunda horses, to meet casualties, which will be rationed free of cost.

21. All casualties among horses or ponies fairly attributable to, or connected with, the service, including those from accident on boardship or during embarkation or disembarkation, will, if there has been no proved neglect, be replaced by Government, or compensation will be allowed, under the rules in the Pay Code for India, Vol. II.

22. During the continuance of the arrangement under which the supply of grain and forage to the cavalry is undertaken by the State, the pay of the several grades will be as follows:—

Bengal Cavalry.

	Rates of pay. Rs.	A.	P.
1 Ressaldar, 1st class	300	0	0
1 „ 2nd „	250	0	0
1 „ 3rd „	200	0	0
1 Ressaidar, 1st „	150	0	0
1 „ 2nd „	135	0	0
1 „ 3rd „	120	0	0
1 Woordie-major	150	0	0
2 Jemadars, 1st class	80	0	0
2 „ 2nd „	70	0	0
2 „ 3rd „	60	0	0
Duffadars	30	0	0
Trumpeters	25	0	0
Sowars	20	0	0

23. Public followers, except those engaged on salaries specifically laid down for the occasion, will receive an addition of 50 per cent. on pay and batta, in addition to free rations, while on foreign service.

24. The sanctioned followers paid by the troops will receive from Government free rations, and such extra pay as may be necessary to put them on a par with the public followers of a similar class.

25. The scale of rations for native troops on shore will be that laid down in Article 641, Indian Commissariat Code, extracted in the margin. An allowance of 1 lb. of meat per man weekly is also authorised.

Atta 2 lbs., or rice	1½ lbs.
Dhal	4 oz.
Ghee	2 „
Salt	¾ „
Onions	1 „
Pepper	1/6 „
Chillies	1/6 „
Turmeric	1/6 „

When meat, even on special occasions, is issued, the ration of atta or rice is to be reduced one-half.

No claim for pecuniary compensation can be admitted, if through accident any part of the above authorised scale of rations is not forthcoming.

The issue of tea and sugar should be confined to the cases of sick and wounded, for whom medical officers may authorise it, and for the rest of the troops on special occasions of fatigue, exposure, or bad climate when recommended by the principal medical officer. On such occasions 2 oz. of sugar and ¼ oz. of tea per man may be issued.

Tobacco can only be issued on payment at the rate of one ounce per man per diem, the price charged being the first cost to Government, without any addition on account of carriage or losses.

The scale of rations on boardship will be for Europeans that laid down in Appendix XI, page 565, Commissariat Code, and for natives that laid down in Appendix XIV, page 575, of the same Code.

The scale of rations for followers will be as follows:—

Wheat flour or rice ...	1½ lbs.
Dhal	4 oz.
Ghee	1 „
Salt	¾ „

26. On land the forage allowance for each horse will be 8 lbs. of such grain as may be procurable, with 14 lbs. of hay when green forage is not procurable, or otherwise as may be ordered. The allowance for ponies will be one-half of the forage ration of a horse.

"433. Officers *on field service* are required to credit in their pay bills the value of all rations, &c., and the hire of all carriage supplied to them under the following certificate:—

"I do hereby certify on honor that during the period for which the pay (or advance) is drawn. I have received rations from the Commissariat for myself, servants, and horses. I have also had the use of the following Government carriage:—

"

27. British officers and departmental warrant officers will be allowed to draw rations for themselves, servants, and horses from the Commissariat Department, payment being made as laid down in the Commissariat Code, paragraph 433:—

Officers—

Rations for themselves, daily, exclusive of rum or extra supplies	Rs. 0	8	0
Rations for their servants, monthly	„ 2	8	0
Rations for each horse, daily	„ 0	8	0

Warrant Officers—

Rations for themselves, daily, exclusive of rum or extra supplies ...	„ 0	6	0

28. Transport will be charged for at the rates laid down for the Afghan war, *viz.*, 8 annas and 7 annas per diem for camels and mules respectively.

29. The officers of the Military Account Department will act as Field Paymasters, and also have charge of the treasure chest.

30. Pay lists of British troops for the period of the voyage will be rendered to the Pay Examiner of the Presidency to which they belong; from date of landing in Egypt, they will be rendered to the Staff Paymaster with the force proceeding from England.

31. Pay lists of native troops will be forwarded, as soon after the first of each month as may be possible, through the Field Paymaster, to the Pay Examiner of the Presidency to which the troops belong. Officers commanding regiments will draw monthly from the field pay office such sums as may be required for the pay of themselves and their men, after making provision to meet family allotments and remittances, fund subscriptions, &c., the amount of which allotments, &c., they will debit themselves with in their general states.

32. The pay bills of all staff and departmental officers will be adjusted by the Field Paymaster.

33. All payments to native troops will if practicable be made in rupees; but should it be necessary to issue the coinage of the country or British money, their pay and allowances will be converted into that coinage, under the orders of the General Commanding, at the rates of exchange current in Egypt.

34. Officers commanding native regiments and detachments detailed for service are directed to at once draw and distribute three months' pay in advance to their respective corps.

35. Staff and departmental establishments may receive similar advances, not including command, contract, office, and staff allowances.

36. The family remittances to India of the British troops will be made at the official rate of exchange through the Field Paymaster. Remittances to England will be made under the War Office regulations. The family remittances of native troops will be arranged for, as usual, by officers commanding regiments and detachments.

37. Officers, warrant officers and non-commissioned officers, with the exception of those belonging to the British portion of the division, requiring remittances to India, may remit the whole or any part of their pay to India at par on paying the amount to the Field Paymaster, who is authorised to grant transfer remittance receipts on any treasury in India. As an alternative arrangement, officers may leave with the Presidency Paymaster, Bombay, an allotment roll stating the amount they wish to be paid monthly, and the person to whom it should be remitted. That officer will then make the necessary remittance monthly, and he will furnish the Field Paymaster with a list of the sums thus allotted, to enable the latter to make the necessary deduction from officers' pay bills. Remittances to England for the benefit of their families may be made through the Field Paymaster at the official rate of exchange, to the extent of one-half of an officer's clear receipts, exclusive of office and contingent allowances.

38. Officers of the expeditionary force should recover from the pay of followers serving under them the amount that each man may desire to be paid to his family in India, and send to the Controller of Military Accounts, Accounts Branch, Bombay, in time to reach him not later than the 20th of each month, a statement* of such recoveries, according to which the families will be paid under instructions to be issued by that officer. The amount thus recovered should be paid to the Field Paymaster, whose receipt should be entered on, or attached to, the statement.

* Form attached.

39. Every care should be taken to fill in the statements correctly from the tickets given to the men on engagement and the records in the field. Where the information is not available, owing to the loss of the tickets or any other cause, immediate application should be made to the depot commanding or departmental officers concerned.

40. Clothing and equipment on the following scales will be issued to troops and followers:—

British Troops.

Waterproof sheet, English†	...	...	...	1
Jerseys	...	...	...	2
Boots, pairs	...	...	...	1
Puttees (on payment)	...	...	...	1
Extra blanket	...	...	...	1
Canvas frock, for boardship	...	...	...	1
Flannel belt	...	...	...	1
Quart tin mug } for boardship		...	...	1
Hammock, pillow, &c. } for boardship		...	...	1

† Will remain in Commissariat charge, and be issued under the orders of the General Officer Commanding as required.

Native Troops.

APPOINTMENTS.

No. 422.—BRIGADE—

With reference to G. G. O. No. 421 of this date, Colonel O. V. Tanner, C.B., Bombay S. C., Commandant, 29th Bombay Native Infantry, will have the temporary rank of Brigadier-General of the 2nd class while employed in command of a Brigade of the Indian Division, Egypt Expeditionary Force.

* Will remain in Commissariat charge, and be issued under the orders of the General Officer Commanding as required.

The 4th August, 1882.

No. 423.—STAFF CORPS—

The undermentioned officer is admitted to the Bengal Staff Corps, with effect from the date specified, subject to the confirmation of the Right Hon'ble the Secretary of State for India:—

Lieutenant Frederick Simpson St. Quintin, Leicestershire Regiment, Officiating Wing Officer, 30th Native Infantry,—17th May, 1880.

The commission of Lieutenant St. Quintin is antedated to the 17th May, 1880, subject to Her Majesty's approval.

No. 424.—MILITARY ACCOUNTS DEPARTMENT—

The following officers to be Assistant Military Accountants, on probation:—

Lieutenant H. E. Passy, Bombay S. C., Wing Officer and Adjutant, 26th Bombay Native Infantry,—18th July, 1882.

Lieutenant W. C. F. Field, Bombay S. C., Wing Officer and Adjutant, 17th Bombay Native Infantry,—20th July, 1882.

FURLOUGH AND LEAVE.

No. 425.—The undermentioned officer has been granted extension of furlough by the Right Hon'ble the Secretary of State for India:—

Major J. E. Sandeman, Bengal S. C., (m. c.) for two months.

MEDICAL DEPARTMENT.

No. 426.—The Governor General in Council is pleased to notify that the provisions of G. G. O. No. 575* of 1880 do not apply to officers of the Indian Medical Service who may be selected for promotion to Deputy Surgeon-General, with a view to appointment to the administrative medical charge of a province.

* With a view to afford Medical Officers of the Indian Service employed on civil duties the opportunity of acquiring the latest experience of military medical administration before their nomination for promotion to the administrative grade, which nominations will be made at a date to meet, as nearly as possible, foreseen vacancies, the Governor General in Council is pleased to notify that such officers, in the event of their not having performed military duty for six months within the three years immediately preceding the time of their probable promotion, shall on nomination be required to spend six months in medical charge of a Native Regiment at a station which is the head-quarters of a Deputy Surgeon-General, with whom they will be associated in view to their acquiring a thorough acquaintance with the details of the office and the administrative system in force with British and Native troops.

* * * * *

2. Officers who have not complied with the terms of the above G. G. O. will not, however, be eligible for appointment to the administrative grades of the military branch of the service.

NAMES AND DESIGNATIONS.

No. 427.—Major and Brevet Lieutenant-Colonel R. E. Wilmot, General List, Infantry, is permitted to assume the surname of *Eardley-Wilmot* in lieu of that of "Wilmot."

PROMOTIONS.

No. 428.—The following promotions are made, subject to Her Majesty's approval:—

BENGAL STAFF CORPS.

To be Captain.

Lieutenant Henry Spencer Wheatley,—3rd August, 1882.

MEDICAL DEPARTMENT.

To be Deputy Surgeon-General.

Brigade Surgeon Alfred James Dale, M.B., in succession to Deputy Surgeon-General R. H. Perkins, whose tour of service has expired. Dated 3rd August, 1882.

BREVET.

To be Lieutenant-Colonel.

Major Richard Graham Birch, Bengal Cavalry, in succession to Lieutenant-General D. S. Dodgson, C.B., Bengal Infantry, transferred to the Unemployed Supernumerary List. Dated 10th March, 1882.

G. G. O. No. 401 of 1882 is cancelled as far as it refers to Lieutenant-Colonel A. P. Currie, Bombay Cavalry.

No. 429.—Under the provisions of the Royal Warrant of the 10th November, 1881, the name of Major (now Lieutenant-Colonel) A. T. Rolland, Madras S. C., is placed on the list of Lieutenant-Colonels on the Indian Gradation List, in consequence of the transfer to the Unemployed Supernumerary List of General R. G. Taylor, C.B., C.S.I., Bengal S. C., on the 1st April, 1882.

No. 430.—NATIVE ARMY—

7th Native Infantry.

Havildar Soob Kurrum Sing, to be Jemadar, *vice* Judnath Sing, transferred to the 17th Native Infantry,—10th March, 1881.

Pay and Color Havildar Ramburn Opudhia, to be Jemadar, *vice* Doorgah Sing, promoted,—19th July, 1881.

Pay and Color Havildar Bhawanibuccus Sing, to be Jemadar, *vice* Ruchpal Sing, transferred to the 17th Native Infantry,—9th September, 1881.

Pay Havildar Mahomed Yar Khan, to be Jemadar, *vice* Mahomed Zeman Khan, resigned,—8th November, 1881.

This cancels the portions of G. G. O. No. 536 of 1881, and G. G. O. No. 247 of 1882, which refer to these Native officers.

10th Native Infantry.

Jemadar Bahadoor Khan, to be Subadar, *vice* Mowla Bux Khan, invalided,—1st May, 1882.

Jemadar Ramadheen, to be Subadar, *vice* Bebakha, invalided,—9th May, 1882.

Jemadar Ramsoobhoge Singh, to be Subabar, *vice* Muhais Singh, invalided,—1st May, 1882.

Havildar Shamali Khan, to be Jemadar, *vice* Bahadoor Khan, promoted,—1st May, 1882.

Drill Havildar Nowrutton Singh, to be Jemadar, *vice* Ramsoobhoge Singh, promoted,—1st May, 1882.

Havildar Munbodh, to be Jemadar, *vice* Ramadheen, promoted,—9th May, 1882.

20th Native Infantry.

Jemadar Ursulla Khan, to be Subadar, *vice* Meer Mahomed, invalided; Havildar Izzut Khan, to be Jemadar, *vice* Ursulla Khan, promoted,—11th September, 1881.

(Late) 34th Native Infantry.

Havildar Munglie, to be Jemadar, *vice* Thakoorie, invalided,—5th April, 1882.

RESIDENT IN MYSORE.

NOTIFICATION.

Bangalore, the 22nd July 1882.

Declaration under Section 6 of Act X of 1870.

The undermentioned land is required for a public purpose by Government, *viz.*, for the extension of the waste weir of the Dumloor tank :—

The land needed measures 1,082 square yards and 7 square feet, and is part of Survey No. 4 (a dry field) of the Dumloor village in the Civil and Military Station of Bangalore, which whole number measures 2 acres 18 g. and is assessed at 6½ rupees.

This Survey No. stands in the Revenue Accounts in the name of Narayanasawmy Moodliar, and is leased by him to Mahratta Ramannah.

The part required is on the east side of the field and adjoins the bed of the Dumloor tank.

A plan of the land has been made and can be inspected at the District Magistrate's Court.

By Order,

H. WYLIE,

Asst. to the Resident.

HENRY F. BLANFORD,
Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutt Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
„ MADRAS SERIES ...	„ 8	„ 9
„ BOMBAY SERIES ...	„ 8	„ 9
„ ALLAHABAD SERIES	„ 8	„ 9
Complete set... ...	„ 45	„ 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

For a Part of the CALCUTTA SERIES ...	Rs.	3 8
„ „ MADRAS SERIES ...	„	1 0
„ „ BOMBAY SERIES ...	„	1 0
„ „ ALLAHABAD SERIES.	„	1 0
Complete set	„	4 0

Persons desiring to subscribe for or purchase the Reports, should apply to—
MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at Rs. 375 a set.

List of Books for sale at the iLbrary of the Asiatic Society of Bengal,

PUBLIC WORKS DEPARTMENT.

RAILWAY TRAFFIC.

RETURNS OF ACCIDENTS ON INDIAN RAILWAYS FOR THE FIRST QUARTER OF 1882.

No. 725R.T., dated Simla, the 20th July 1882.

RESOLUTION—By the Government of India, Public Works Department.

Read again—

Public Works Department Resolution, No. 859 R. T., dated the 22nd July 1881.
Ditto ditto ditto No. 397 R. T., dated the 4th May 1882.

Read also—

Returns of accidents to trains, &c., on the open lines of railway in India for the quarter ending 31st March 1882.

OBSERVATIONS.—As compared with the corresponding quarter of 1881, while the open mileage increased by 409 miles, or 4·3 per cent., and the train mileage by 1,253,479 miles, or 14·3 per cent., the number of accidents to trains, rolling-stock, permanent-way, &c., remained very nearly the same, being 696 against 695. The following are the railways on which the numbers chiefly vary :—

	Increase	Decrease.
Sind, Punjab and Delhi	...	42
Great Indian Peninsula	38	.
Wardha Coal	22	...
Nagpur-Chhattisgarh	12	...
Rangoon and Irrawaddy Valley	..	23
Punjab Northern	...	19
Indus Valley	...	21
Nizam's	...	11

2. The decrease on the Sind, Punjab and Delhi Railway mainly took place under "goods trains or parts of goods trains, engines, &c., leaving the rails" and "miscellaneous accidents." Under the former head there were 13 accidents against 21; and under the latter, 1 against 22.

3. On the Great Indian Peninsula Railway the accidents from collisions between "goods trains or parts of goods trains" increased from 2 to 8; and the cases of "fire in trains" from 9 to 42.

4. Of the increase of 22 accidents on the Wardha Coal Railway, 8 appear under "failure of tyres," and 11 under "fire in trains." The numbers of cases under these heads, during the first quarter of 1881, were *nil* and 1 respectively.

5. On the Nagpur and Chhatisgarh Railway there was no noticeable increase under any particular head.

6. On the Rangoon and Irrawaddy Valley Railway the number of "cattle" accidents decreased from 14 to 4, and the "failures of machinery, springs, &c., of engines," from 11 to 2.

7. On the Punjab Northern and Indus Valley Railways the decrease principally took place under "goods trains or parts of goods trains, engines, &c., leaving the rails."

8. The decrease on the Nizam's Railway was due to the absence of any accident from "fire in trains;" whereas in the first quarter of 1881 there were 10 accidents from this cause on that line.

9. The total number of accidents on the Rajputana-Malwa Railway does not show any large variation, but it appears from the details that collisions of all descriptions decreased from 10 to 1, derailments of passenger trains from 6 to *nil*, and the derailments of goods trains, engines, &c., from 11 to 1, while there were 13 cases of failure of couplings against 8, and 11 cases of failure of machinery, &c., and 8 miscellaneous accidents against *nil* in the corresponding quarter of 1881.

10. The casualties resulting from accidents to trains, &c., were, among passengers, 14 killed and 31 injured, against 9 injured; and among servants, 2 killed and 10 injured, against 3 killed and 15 injured. Of the casualties to passengers, 13 men were killed and 15 injured in an accident on the East Indian Railway at Shikohabad, on the 17th January 1882, caused by an up mail train coming into collision with an up goods train which it was following. There were 13 passengers also slightly injured in an accident on the Bombay, Baroda and Central India Railway, caused through the carelessness of the pointsman by an up mail train colliding with some wagons standing on a siding at the Viramgam station.

11. The following table exhibits the number of accidents under the different classes, and the number of persons killed and injured thereby:—

Description of accidents.	Number of accidents.	Number of passengers and others.		Number of servants.		Total.	
		Killed.	Injured.	Killed.	Injured.	Killed.	Injured.
Collisions between passenger trains, or parts of passenger trains	1	...	...	...	...	...	...
Collisions between passenger trains and goods or mineral trains, engines, and vehicles standing foul of the line	13	13	29	...	3	13	32
Collisions between goods trains, or parts of goods trains	25	...	...	...	2	...	2
Collisions between light engines	7	...	...	...	...	...	...
Passenger trains or parts of passenger trains leaving the rails	17	1	...	...	...	1	...
Goods trains or parts of goods trains, engines, &c., leaving the rails	53	...	...	...	1	...	1
Trains or engines travelling in the wrong direction through points	24	...	...	...	...	...	...
Trains running into stations or sidings at too high a speed	4	...	...	...	...	...	...
Trains running over cattle on the line	202	...	...	...	...	...	...
Trains running over obstructions on the line	26	...	...	...	...	...	...
Trains running through gates at level crossings	17	...	.	2	1	2	1
The bursting of boilers, or tubes, &c., of engines	30	...	...	...	...	...	...
The failure of machinery, springs, &c., of engines	69	...	...	...	...	...	...
The failure of tyres	10	...	..	...	...	...	...
The failure of wheels	1	...	...	...	...	...	...
The failure of axles	10	...	...	...	1	...	1
The failure of couplings	29	...	...	...	...	...	...
Broken rails	8	...	...	...	...	...	...
The flooding of portions of permanent-way	2	...	...	...	...	...	...
Fire in trains	100	...	1	...	...	...	1
Fire at stations, or involving injury to bridges or viaducts	7	...	...	...	...	...	...
Other accidents	41	..	1	...	2	..	3
Total	696	14	31	2	10	16	41

12. The satisfactory feature of the present returns is the decrease from 114 to 53 in the number of derailments of "goods trains, or parts of goods trains, engines, &c." The railways on which these accidents chiefly diminished have already been alluded to.

13. The cattle accidents numbered 202, of which 40 occurred on the South Indian, 29 on the Rajputana-Malwa, and 26 on the Indus Valley and Kandahar Railways.

14. There were 30 cases of the "bursting of boilers or tubes, &c., of engines," against 29. 90 per cent. of these accidents took place on the Sind, Punjab and Delhi and Indus Valley and Kandahar Railways, there being 17 or 57 per cent. on the former, and 10 or 33 per cent. on the latter.

15. The "machinery, &c., of engines" failed in 69 instances, of which 11 were on the Rajputana-Malwa Railway, and 30 on the Indus Valley and Kandahar Railways.

16. The number of "failures of couplings" was the largest on the Rajputana-Malwa Railway, being 13 out of a total of 29.

17. Under "fire in trains" the number of accidents rose from 45 to 100, or by 55, of which 42 occurred on the Great Indian Peninsula Railway, and 12 on the Wardha Coal Railway. On the former there were 42 accidents against 9, and on the latter, 12 against 1.

18. The casualties to passengers from "causes other than accidents to trains, &c.," were—

—	Killed.	Injured.
From falling between carriages and platforms	3	2
Falling on to the platform, ballast, &c., when getting into or out of trains	1	5
Whilst crossing the line at stations	2	...
Falling out of carriages during the travelling of trains	4	18
Other accidents	...	1
TOTAL	10	26

And the accidents to servants in the employ of railways or of contractors, whilst performing duties connected directly with the transit of passengers and goods, from "causes other than accidents to trains, &c.," were—

—	Killed.	Injured.
During shunting operations	1	8
Falling off engines, vans, wagons, &c.	3	9
Coming in contact with over-bridges, &c., during the travelling of trains	1	2
Coming in contact, whilst shunting, with vehicles, &c., standing in adjoining lines	1	...
Getting on or off trains, engines, &c.	5	7
Whilst loading, unloading, or sheeting	1	14
Whilst braking, spragging, or chocking wheels	...	1
Whilst working at cranes or capstans	1	2
Whilst working on the permanent-way or in sidings	4	2
Whilst walking along the line on the way home, or to work	4	2
Whilst walking, crossing, or standing on the line	9	6
Whilst passing between vehicles	1	...
Whilst attending to the machinery of engines, cleaning them, &c.	...	6
Whilst attending to gates at level-crossings	1	...
Falling or being caught between vehicles and platforms	1	1
Falling off ladders, scaffolds, platforms, &c.	1	1
By the falling of lamps, wagon doors, timber, weights, &c.	...	3
Whilst coupling or uncoupling wagons	3	6
Miscellaneous	4	30
TOTAL	41	100

19. Of "other persons" killed and injured by running trains, &c., 3 were killed and 1 injured whilst passing over the line at level-crossings; 25 killed and 6 injured whilst trespassing on the line; 4 committed suicide; and 2 were killed and 2 injured from miscellaneous causes.

20. The following table exhibits the total numbers of persons killed and injured from causes connected with the working of trains as compared with those in the previous corresponding quarter :—

— —	1st Quarter 1881.		1st Quarter, 1882.	
	Killed.	Injured.	Killed.	Injured.
Passengers.				
From causes beyond their own control	2	10	14	29
From misconduct or want of caution	10	19	10	28
Servants.				
From causes beyond their own control	7	26	3	25
From misconduct or want of caution	30	87	40	85
Others.				
Whilst passing at level-crossings	2	3	3	1
Trespassers, including suicides	23	6	29	6
Other persons	6	...	2	2
Total	80	151	101	176
Total Train Mileage during the quarter	8,751,471		10,004,950	

21. In addition to the above, 5 persons are reported to have been killed and 23 injured in yards, workshops, &c., and 170 passengers to have met death in carriages at stations from causes unconnected with the working of trains.

22. The following is extracted from the report by the Government Inspector on the fatal accident, which took place on the East Indian Railway, near Shikohabad, on the 17th January 1882 :—

Para. 20.—From the evidence heard, the facts of the case, so far as for present purposes it is desirable to record them, appear to be as follows :—

21. The morning of the 17th January was very foggy from Jaswantnagar as far as Shikohabad, and its intensity appears to have increased towards the latter station.

23. No. 17 up goods, which was timed to leave Bhadan at 3-36 A.M., actually left that station at 6-35 A.M. On this point there is no conflict of evidence.

24. On leaving Bhadan it had 27 covered goods wagons, one open low-sided wagon (No. 4667), and one brake-van (No. 159) arranged as in the margin.*

* Rear 159 (brake-van), 5109, 7121, 7016, 2075, 7826, 3843, 4168, 6679, 3382, 2511, 7210, 4427, 4556, 6608, 4409, 7831, 7474, 6346, 2639, 6149, 895, 5326, 2956, 2119, 3025, 6874, 5561, and 4667 (open low-sided) in front of train.

25. The gross load, calculated in the ordinary manner at 15 tons per wagon, with 10 tons for the brake-van was 430 tons. The actual gross load above Phaphund, where one wagon was cut off, is said by the District Traffic Superintendent to have been less than 399 tons. This was not stated before the Magistrate, but in reply to a telegraphic enquiry from me, the computed load was 445 tons above that place.

By the working Time-table the time to be occupied by No. 17 up goods in running between the stations of Bhadan and Shikohabad is 38 minutes, and at this timing it should have reached the latter station at 7-13, and the point of collision, as calculated in paragraphs 18 and 19 above, at 7-10.

26. The mail train should have left Bhadan at 5-35 A.M., and reached Shikohabad at 6-3, but it was running late, and did not leave till 7-3, (or 7-5 according to the guard's timing), when it went on a caution message, on which was noted the following calculation :—

No. 1 goods left Bhadan	6-35
Time allowed for run	38
Due at Shikohabad	7-13
No. 1 up mail to leave	7-5
Time allowed for run	29
Due at Shikohabad	7-34

This train consisted of two brakevans and 19 other vehicles.

27. The Train Departure Book of the Bhadan station gives 7-3 as the actual time of leaving, and the Shikohabad Station Book also records this hour as the one signalled from Bhadan. The receipt for the caution message signed by the guard and driver gives 7-3 as the hour, and thus differs from the time on the caution message itself, but the "3" looks as if it had been altered from some other figure. The guard himself gives 7-5 as the hour of starting by his watch, and thinks the figure has been altered on the receipt since he signed it.

28. At a little more than a mile from the Shikohabad station the mail caught up the goods train, and as the fog prevented the driver of the following train seeing the other, the collision occurred, with the results given above as to vehicles.

29. The casualties were five male and five female adults, one boy and one girl, all natives, killed; nine male and three female adults and two girls, all natives, wounded, of whom one has since died. The European guard of the goods train was seriously hurt, but has now nearly recovered. He escaped by jumping out just before the collision. The guard of the mail train was very slightly hurt.

84. A good deal was afterwards said about the driver being bound to exercise his discretion, but the general impression on the part of this witness appeared to be that a driver could not be blamed who did not, under the circumstances named, exceed the authorised pace. The driver himself said that he could not have justified himself to his superior for losing time.

85. As I have endeavoured to show above, I believe he was running in excess of the ordinary speed, but even if he were only running at that speed, I should still think that he had not exercised the caution which the mere receipt of a caution message implies, it being impossible at the time to keep a look out ahead to any practical purpose.

86. I may add here that at the close of the enquiry this driver was committed for trial. Some of the points, now in doubt, will probably then be cleared up.

The driver of the mail train was acquitted by the High Court, Allahabad. The railway authorities, recognising the necessity for a modification of existing rules in the case of trains following in foggy weather, issued a revised working order for the guidance of drivers in such cases.

RESOLUTION.—The attention of the Government, Administration, and Officer concerned should be invited to the large increase in the number of cases of "fire in trains" on the Great Indian Peninsula and Wardha Coal Railways, the large number of "failures of machinery, springs, &c., of engines" on the Indus Valley and Kandahar Railways, the "failures of tyres" on the Wardha Coal Railway, and the "failures of couplings" on the Rajputana-Malwa-Railway.

The Governments of Madras, Bombay, Bengal, the North-Western Provinces and Oudh, and the Punjab.
The Chief Commissioners, Central Provinces, British Burma and Assam.
The Resident at Hyderabad.
The Agents to the Governor General for Rajputana, Central India and Beluchistan.
The Director General of Railways.
The Consulting Engineers to the Government of India for Guaranteed Railways.

ORDER.—Ordered, that this Resolution be forwarded to the Governments, Administrations and Officers, noted in the margin, for information, together with copies of the returns compiled.

Ordered also, that copies be forwarded to the Secretary of State for the information of Her Majesty's Government.

Ordered further, that this Resolution, with the abstract returns, be published in the Supplement to the *Gazette of India*.

FRED. FIREBRACE, *Major, R.E.*,
Under-Secretary.

Inundation Canals. Upper Sutlej Division	...	...	...	...	...	...	Lahore ...	500	...	...	Detail not available for want of establishment.	...	The increase in the returns of the Inundation Canals is due to the irrigation of the Muzaffargarh Division, which was not included in last year's return. The decrease elsewhere is due chiefly to the late rise of the Sutlej River. In the Lower Sutlej and Chenab Division the Sutlej has been low, but the Chenab Canals worked well on both banks. There is a very large area under indigo.

Secretary to the Government of India.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

MUNICIPAL ELECTIONS IN RANGOON.

No. 287—7R.M., dated Rangoon, 10th July 1882.

From—E. S. Symes, Esq., Junior Secretary to Chief Commissioner, British Burma,

To—The Secretary to the Government of India, Home Department.

I am directed to submit, for the information of the Government of India, a copy of the papers cited in the margin, on the subject of the recent election of members for the Rangoon Municipal Committee.

General Department Notification No. 38, dated the 26th January 1882.
Letter No. 631½, dated 27th June 1882, from President, Rangoon Municipality.
General Department Notification No. 234, dated the 29th June 1882.
Letter No. 286—7R.M., dated the 10th July 1882, to President, Rangoon Municipality.

No. 38, dated Rangoon, 26th January 1882.

NOTIFICATION—By the Chief Commissioner, British Burma.

I.—Under section 5 of "The British Burma Municipal Act, 1874," the Chief Commissioner directs that 18 of the inhabitants of Rangoon, to be appointed by election, shall be a committee for carrying out the purposes of the said Act in Rangoon.

II.—In addition to the 18 members appointed by election as aforesaid, the number of *ex-officio* members, appointed by the Chief Commissioner under section 7 of the Act, shall be six.

III.—Under section 8 of the Act the Chief Commissioner appoints the Deputy Commissioner of the Rangoon Town District to be President of the Rangoon Municipal Committee.

IV.—Under section 5 of the Act the Chief Commissioner makes the following rules regulating the election of members of the Rangoon Municipal Committee, namely,—

1. The first election held under these rules shall be held on or about the last Friday in the month of May 1882. Every subsequent election shall take place on the dates below mentioned, that is to say,—

the general elections shall take place on or about the last Friday in November 1884 and of every subsequent second year so that the newly-elected members of the committee may take their seats on the 1st January following the date of election;

elections to fill vacancies shall be held on some date following the casualty to be notified by the President, provided that no longer period than 30 days shall elapse between the occurrence of any vacancy and the election. A vacancy shall be held to date from the time that written note of the occurrence of such vacancy may be made by the President in the records of the committee.

2. Members shall be elected to represent the different communities and bodies which compose the population of Rangoon, that is to say,—

		Members.
(*a*)	by the Europeans, Americans, Eurasians, Armenians, Jews, and Parsis shall be elected	5
(*b*)	by the Burmese	5
(*c*)	by the Chinese	2
(*d*)	by the Mussulmans	2
(*e*)	by the Hindus	2
(*f*)	by the Port Commissioners, Rangoon	1
(*g*)	by the Chamber of Commerce, Rangoon	1
	Total ...	18

3. The qualifications for a voter at a municipal election shall be—

that he or she be over 21 years of age;

that he or she be possessed of property within municipal limits to a value of not less than Rs. 500, or pay a monthly rental of not less than Rs. 10, or pay rates and taxes to an amount not less than Rs. 5 a year.

4. Any company registered under the Indian Companies Act, 1866, which has paid up its rates and taxes shall be allowed one vote for any community that it shall declare itself as belonging to; such vote to be given through some duly authorised officer of the company.

5. The qualifications required from a candidate for election shall be—

(*a*) that he be over 21 years of age;

(*b*) that he be a duly enrolled voter for some community;

(*c*) that he shall have paid up all rates and taxes due on his behalf up to the end of the quarter next preceding the date of his offering himself for election;

(*d*) that he shall have been requested to stand by any number of duly registered voters of his community not less than 12; such requisition to be in writing;

(*e*) that he shall be possessed of house property of a value not less than Rs. 5,000, or that he shall rent land or house property within the limits of the municipality of a monthly rental not less than Rs. 50, or that he shall be a payer of rates and taxes to an amount not less than Rs. 60 a year;

(*f*) that he does not hold any paid office under the Municipality.

6. No person shall be qualified to be, or continue to be, a member of the committee who is or who becomes a bankrupt or insolvent, or who is interested (otherwise than as a shareholder in a joint-stock company) in any contract with the committee; and no person who is absent from Rangoon for three months consecutively, or who is sentenced to imprisonment for any non-bailable offence, shall be qualified to continue as a member of the committee. In case of the death, resignation, or disqualification as aforesaid of any elected member of the committee, his successor shall be elected in the manner hereinafter provided, and such elected member shall remain on the committee for the residue only of the term for which the member deceased, resigned, or qualified was originally elected.

7. Each voter shall give one vote for each vacancy among the representatives of the community to which he may belong. But no voter may give more than one vote for any one candidate. Voters of mixed nationality shall be allowed to select either of the two communities with which they are connected in which to vote; but no elector shall vote in more than one community, nor, having recorded himself as belonging to any one community, shall a voter be allowed to change.

8. The President of the municipal committee shall prepare, as accurately as he can, a list of all persons qualified to vote for any community, and also a list of all persons qualified, under clauses (*a*), (*b*), (*c*), (*e*), and (*f*) of Rule 5, to become candidates for election to the municipal committee, and shall publish such lists in at least three issues of two or more of the local newspapers not less than four weeks before the day fixed for each general election. Any person whose name is not on those lists, or whose name is upon a wrong list, may apply, either before the publication of the lists in any year, or within fourteen days of the first publication of such lists, to have his name entered in any list or to have his name transferred from one list, to another. The President, if he sees no valid objection, and if he deems the applicant duly qualified, shall comply with such application. If the President does not deem the applicant qualified, he shall lay the case before an election sub-committee of the outgoing members. If the said sub-committee decide by a majority against the applicant, they shall reject the application, and such rejection shall be final so far as concerns the election next following after the rejection.

9. Votes shall be rendered by means of voting-papers, and the expenses of elections, as may be determined by the President, shall be defrayed by the municipality. The President shall notify, in three or more issues of the English and Vernacular local newspapers, at least 14 days before the day appointed, the date upon which, and the places where, voting-papers can be obtained and where the polls shall be established for the collecting of the voting-papers for each community, and the names of qualified candidates who have obtained for any community the further qualification described in clause (*d*) of Rule 5. On the day fixed the polls shall be open from 8 A.M. until 4 P.M. The papers shall contain in writing the name of the person voting, the community he belongs to, and the candidate for whom he votes. The voting-paper shall be stamped by one of the tellers present and placed in a locked box, and at the end of the day lodged in the municipal office. The President shall appoint gentlemen to act as tellers to watch the ballot during the day of the elections. The boxes shall be strongly fastened with a Chubb's lock, the key of which shall be in charge of the President or Secretary, and the boxes shall be opened and the votes sorted by an election sub-committee of the outgoing municipal committee to be appointed for the purpose.

10. The results of the sorting of the votes shall be published by the President within 48 hours of the closing of the poll. And the names standing highest on the poll for each community shall, subject to any alteration made in accordance with the next following rule, be the elected members for each community.

11. At any time within four days of the day of the poll any qualified voter may make in writing to the President an objection against the vote of any voter being recorded. Such objection shall be considered by the President and the election sub-committee of the outgoing committee. If such objection be held valid by a majority of the election sub-committee, or by one-half the members of the sub-committee and the President, such voter's name shall be expunged from the sorter's list, and if necessary, the order of candidates in the published list shall be modified in accordance with such alteration.

12. If any community shall at any time fail or omit to elect its allotted number of Commissioners, the local Government may appoint one or more Commissioners in place of the number deficient to complete the full number allotted.

13. If an equal number of votes shall be given for any two candidates within any community, and the addition of a vote would entitle any of such candidates to be elected, then such additional vote shall be given by the President.

14. Members chosen to represent the Chamber of Commerce and the Port Commissioners shall be elected in such way as each of those bodies respectively may determine. A certificate under the signature of the Chairman of each body shall warrant the President in entering the name mentioned in such certificate in the list of elected members.

15. After the period allowed for objections under Rule 11 shall have expired, the President shall certify to the Chief Commissioner the names of the elected members for each community or body; and the names of the members of the municipal committee for the ensuing term shall be notified in the *British Burma Gazette.*

No. 631½, dated Rangoon, 27th June 1882.

From—K. G. BURNE, Esq., President, Rangoon Municipality,

To—The Secretary to the Chief Commissioner, British Burma.

I have the honour to submit the following report, descriptive of the measures adopted by the Committee and the expenses incurred in giving effect to the scheme for constituting Municipal Boards by election, in lieu of the present system of nomination hitherto observed in this province, and the interest manifested among the different communities of this town, notably the Burmese.

2. As soon as the rules for "Election of members," drafted by the Committee, were approved of by the Local Government, the work of compiling the voters' list was at once commenced, and the lists published without delay.

3. The practice in existence in England for the preparation of voters' lists was *mutatis mutandis* followed here, but a change had to be made on its being pointed out that the system acted on was not in accordance with Rule 8 of the Election Rules.

4. The lists had to be prepared afresh, and republished, but not in time to give the notice required by the same rule.

On this being represented to the Local Government, the election day was postponed from the 23rd of May to the 23rd of June. Although the mistake made in the first preparation of the lists is to be regretted on the score of expense, the postponement may otherwise be regarded with satisfaction, as it gave the people more time to prepare for the coming contest, and considerably more interest was kindled after the second publication than was shewn previously.

5. For purposes of identification the preparation of the lists by wards appears to be preferable to that of separation into communities, as such lists when once correctly made out, and altered from time to time, as occasion may require, would be of great value, not only at election time, but in checking the work of the Thoogyees.

6. As the lists had to be prepared from the assessment rolls in the vernacular, considerable difficulty was experienced in identifying the English and Indian names, owing to the almost impossibility of arriving at any accurate rendering of foreign names into the Burmese character.

7. As regards the names of the European and Burmese communities, few alterations had to be made in the lists, and only in regard to the former.

8. On the whole the lists in English and Burmese were correctly transcribed; and it is curious that although the lists printed in Burmese type at the Burma Herald Press was from the English list, it was not so correct as the latter, thus showing that after a word has been written a few times in different characters the originality, if not entirely lost, is impaired.

9. Simultaneously with the publication of the lists, a time was fixed by the Committee, within which objections might be made to the lists as they stood; and although at first little or no interest was evinced by the general public, a healthier state of things soon set in, and numerous applications were made by persons considering themselves entitled to vote to have their names added to the lists, and a few objections were raised to names already there. The President, aided by an election sub-committee, sat to decide upon all these points.

10. The applications were mostly from a large class of persons resident in Rangoon, and whose names did not appear on the lists, as they neither paid taxes nor rent, but it was contended that they did so indirectly.

The classes were divided into four, namely:—

(1) Employés living rent-free in houses belonging to their employers, such privilege being considered as a part of the salary paid.
(2) Persons chumming together.
(3) Board and lodgers.
(4) Persons residing in clubs.

The claims of the above persons were, after due consideration, admitted under the following conditions:—

(1) *Employés.*—That the monthly rental value of the house belonging to the employer and occupied by the above be not less than Rs. 10, or that the employé's salary be not less than Rs. 100 per mensem.

(2) *Chummeries.*—That persons living together for not less than one month are entitled to vote, provided the rent paid, if equally divided between them, proved sufficient to qualify each person under rule 3 or 5.

(3) *Board and lodgers in private houses or hotels.*—That the stay be not less than one month, and that one-fifth of the charge made for board and lodging in respect to each person is sufficient to qualify under rule 3 or 5.

11. It was also decided that the word "property" referred to in Rule 3 applied to moveable as well as immoveable property, the definition of property as given in the Civil Procedure Code being followed.

It was considered by many that this ruling opened the door for faggot voting; whether it did so, or not, the ruling was, under the circumstances undoubtedly correct, and it was for the President and election sub-committee to decide as to the *bonâ fide* character of each person's claim before admitting the vote. As a matter of fact no advantage was taken of the ruling.

12. Every publicity was given in regard to the measures to be adopted for carrying out the elections; and if any person qualified to vote did not take the trouble to record it, the blame rests upon that person, and not upon the Committee.

13. Under the rules each voter is allowed one vote for each vacancy, among the representatives of the community to which he or she belongs, and as many tickets as there were vacancies in each community were issued; the tickets for each community bore a distinguishing colour.

To suit the convenience of voters, many tickets were issued on application some time previous to the day of the elections; but this led to such extraordinary abuse, that further issue had to be stopped, and all tickets already issued cancelled, and each voter compelled to appear personally at the polling station set apart for his or her quarter, and there to receive one ticket, on the back of which the names of the candidates voted for were written and received back by the tellers.

14. This subsequent alteration met with the entire approval of all right-minded persons, although it was regretted that the change had to be made so shortly before the election day. It had the advantage too of not only checking malpractices, but of making people acquainted with the name of the quarter in which they lived, concerning which many were strangely ignorant.

15. Polling stations were erected at the following places:—

(1) Kemendine.
(2) Junction of Keighly Street and Commissioner's Road.
(3) Junction of Canal Street and China Street.
(4) Ripon Hall.
(5) Poozoondoung.
(6) Municipal Office.

These stations were fixed with due regard to the convenience of voters, and no complaint has been made of the inconvenient distance any voter had to travel to vote.

One voting box was deemed sufficient for all the stations, except the Ripon Hall, where three boxes were placed.

The boxes were secured by Chubb's patent locks.

16. Tellers were appointed for each station, and were assisted by the Thoogyees of the different circles. Rules were drawn up for their guidance.

The Committee sanctioned the disbursement of two goldmohurs a piece to each of the tellers for the duty to be performed, and, taking into consideration the fact that they were in attendance from 8 A.M. to 4 P.M. and again from 4 P.M. until 7-30 P.M., the fee was not excessive, and was well earned by each one.

17. After the second publication of the lists, the Rangoon people began to bestir themselves. A committee was formed by the European community, and canvassing freely carried on.

18. Several meetings, which were largely attended, were held, and they afforded convincing proof of the favour in which the new departure from the hitherto recognised system under which Municipal Government had been carried on was held by the public.

The local press by their criticisms kept up the excitement which waxed warmer as the eventful day approached.

The competition for a seat on the new board was keen amongst the Burmese, whose candidates adopted various means for securing their return, and a free bestowal of money and entertainment of voters was largely resorted to.

19. The tellers were at work punctually at 8 A.M., but the real work of the day did not commence much before noon.

20. Special precautions were taken for preserving the peace. An additional force of constables with three mounted inspectors, Messrs. Molloy, Stuart, and Pusey, patrolled the streets; besides these, four constables were on duty at each of the polling stations to keep order.

21. The police had orders to disarm quietly all persons parading the streets with dahs or other deadly weapons,—a necessary precaution on an occasion of this kind, especially so as rumours were afloat of an intention on the part of certain evil-disposed persons to create a disturbance.

22. The day which was observed as a general holiday, however, passed off quietly; and to the great credit of the town, and the police on duty, no breach of the peace occurred.

23. Commencing from about 10 A.M. until dark crowds paraded the streets, and the polling stations were well patronised by all classes, each voter evincing the greatest eagerness to record his or her vote.

Every man, woman, and child was decked out in holiday attire, and every one brimful of good humour, and bent on making most of the holiday.

24. A large number of hackney carriages were engaged for the occasion at from Rs. 4 to Rs. 5 for the day to convey voters to the poll, and were placarded "Hired for voters only"; this was done by the Burmese as well as the European community, and the drivers reaped a good harvest. Carriages carrying flags and musicians were considered a necessary part of the proceedings.

25. There was a fair number of female voters at the poll bent on exercising "women's rights."

26. They showed themselves to be not one whit behind the men in their attempts at "hocussing" in order to obtain an unlimited number of voting papers; and the same man or woman with solemn countenance applying three or four times over at the ticket window, under the plea of never having received a voting paper, was by no means infrequent, and no doubt afforded amusement enough to them, but not to the tellers.

One case of cheating was brought to notice at the China Street polling station, where a voter was caught *flagrante delicto* changing the name of a candidate voted for for another candidate after his own heart. He had got the ticket from another under some pretext, and his action roused against him strong indignation; and had the police not been there, it is possible he would have been taught a lesson by the crowd.

27. The great crush was at China Street; and it is probable that during the rush which was made shortly before 4 P.M. several were prevented from voting.

28. The accommodation at this station was perhaps hardly sufficient. It would be an advantage to allow the polling stations on the next occasion to be opened at an earlier hour than fixed upon this time or to close later.

29. Immediately on the closing of the poll, the boxes were conveyed to the Municipal Office, and the sorting commenced under the direction of the President and a Member, Mr. Darlington and the Secretary, assisted by the tellers.

The sorting was completed by 7-30 P.M., and the number of votes recorded for each community was shown to be as follows:—

Europeans	2,062
Burmese	7,505

The contest lay between the Europeans and Burmese, as the representatives of the other communities were returned unopposed.

30. The result had to be declared within 48 hours, and 5-30 P.M. on the following day, Saturday, was fixed for the publication of the names of the successful candidates, and some time before the appointed hour a large and enthusiastic crowd assembled outside the Municipal Office which was gaily decorated for the occasion, impatient to know "who had got in"

The presence of the band of the 11th Madras Native Infantry helped to enliven the scene.

31. Punctually at 5-30 P.M. the names of the candidates, with the number of votes obtained, were read out in the order gained, and they were as follows:—

European, &c., Community.

C. R. Cowie	...	366	votes	S. Vertannes	...	157	votes.
Dr. T. F. Pedley	...	354	"	Dr. H. Godbier	...	79	"
J. Stuart	...	313	"	J. A. Cohen	...	74	"
S. Hare	...	310	"	Dr. J. O. Henderson	...	60	"
Revd. Dr. J. E. Marks	...	291	"	Revd J. Packer	...	54	"
M. J. Cohen				... 14 votes.			

Burmese Community.

Oo Ngyoon	...	955	votes.	Moung Khino	...	303	votes.
Moung Hpo Hmyin	...	954	"	Oo Yoon	...	299	"
Ko Myat San	...	951	"	Ko Nyein	...	244	"
Moung Ohn Ghine	...	811	"	Oo Myine	...	227	"
Ko Kwet Nee	...	761	"	Oo Kweh O	...	207	"
Moung Kha	...	675	"	Oo Thine	...	195	"
Moung Hpo Thoung	...	518	"	Moung Oung	...	62	"
Oo Kah	...	326	"	Moung Htoon Oung	...	15	"
Oo Moung Galay				... 2 votes.			

Elected without opposition.

Chinese Community.

L. Shain Tuck,

Mussulman Community.

Aga Ahmed Ispahany. | Ebrahim Agjim.

Hindoo Community.

Bugwan Doss. | P. C. Sen.

and the successful candidates were loudly cheered.

Each one was prevailed upon to address the crowd, and the utterances of the Chinese Member met with marked approval by all; but as the oration was in Chinese, and none of the Chinese could be detected in the crowd, the pleasure which his appearance on the balcony gave arose more from admiration for his pluck, in addressing so large and mixed an audience, than from any ability to understand what he said.

32. The declaration of the poll brought to an end the first election held in British Burma, and the interest which this trial system has evoked on all sides augurs well for Rangoon, and the day will be remembered as marking a decided step forward in the march of civilisation among the inhabitants of this town.

33. The total cost of the election amounts roughly to Rs. 7,820-13-2. The cost has exceeded, perhaps, first anticipations; but taking into consideration the expense incurred in republishing the lists, and the many other expense incidental to a first election, the expenditure is not excessive, and with material on hand, and experience gained on all sides, the expense on the next occasion should be considerably lessened.

The published lists will not only be a valuable guide when the next election takes place, but will be of some service to the Assessment Committee.

34. A charge of bribery and corruption was brought by certain Members of the Burmese community, some of whom were the defeated candidates, and investigated by the President and Election Sub-Committee and thrown out as groundless.

A scrutiny of the votes has been demanded by one of the European defeated candidates; but besides the above, no complaints have been made, and it is a matter for congratulation that everything in connection with the elections has passed of so well.

35. It is a question for future consideration whether it would not be better to give one community the right to vote for another community, and to make a knowledge of the English language a necessary qualification.

36. It only remains to notice the labours of those who have been instrumental in bringing about the successful result as shown on Friday, 23rd June 1882.

37. To Mr. C. J. Brown, the Secretary to the Committee, the Committee tender their best thanks for the unwearied attention he has given in carrying out their orders. The work has been arduous and trying, and the twice preparation of the lists, comprising 14 large volumes, involved no slight labour, which was cheerfully and creditably performed by Mr. Brown and his subordinates, among whom the head clerk, Mr. Wales, the Akoonwoon Moung Tso, and his assistant Moung Chit, deserve special notice.

The Committee also tender their thanks to Mr. Hall, the Officiating Executive Engineer, for the work done by him.

The Committee also desire to recognise the satisfactory manner in which the tellers, Messrs. Coleman, Lenaine, Wales, Jordan, Ward, Finucane, Riddock, Savage, Moung Shway Tso, Abdool Gunny, Moung Chit, Moung Nyo Htoon, Syad Azim Moideen, Mogan Dass, Moung Po Oung, and Mahomed Ally did their work.

No. 234, dated Rangoon, 29th June 1882.

NOTIFICATION—By the Chief Commissioner of British Burma.

In accordance with the recommendation of the present Municipal Committee of Rangoon, an election has been held of members to represent the inhabitants of Rangoon on the Municipal Committee. The newly constituted Committee will take charge of their duties with effect from such date in the beginning of July 1882 as the President of the Committee can arrange for convening the first meeting of the new Committee. From that date the resignation of the members of the present Committee will be accepted, and the Chief Commissioner takes opportunity to thank the outgoing Committee and their predecessors in office for the great public services they have done to the town of Rangoon and to the Local Government. Among the more important recent acts of the outgoing Committee was their resolution of last autumn, that for the future the municipal affairs of the town of Rangoon should be managed by an elective Committee.

The members of the new Committee are—

1. Oo Nyon ... ...
2. Moung Po Myin ... ...
3. Moung Myat San ... ...
4. Moung One Gaing ... ...
5. Moung Kywet Nee ... ...

} who were elected by the Burmese community out of 17 candidates and who polled from 955 to 761 votes apiece.

6. Mr. C. R. Cowie ... ...
7. Dr. T. F. Pedley ... ...
8. Mr. J. Stuart ... ...
9. Mr. Sherlock Hare ... ...
10. Rev. Dr. J. E. Marks ...

} who were elected by the European community out of 11 candidates and who polled from 366 to 291 votes apiece.

11. L. Shain Tuck ... ... who was returned by the Chinese community without contest.

12. No second representative was chosen by the Chinese community.

13.	Mr. P. C. Sen ...	... } who were returned without contest by the Hindu community.
14.	Lalla Bugwan Doss ...	. }
15.	Aga Ahmed Ispahany	... } who were similarly returned by the Moslem community.
16.	Ibrahim Agjim ...	... }
17.	Mr. F. C. Kennedy ...	... who was chosen by the Chamber of Commerce.

18. No representative has as yet been returned by the Port Commissioners.

In accordance with section 7 of the British Burma Municipal Act, 1874, the Chief Commissioner appoints the undermentioned *ex-officio* members of the Municipal Committee, namely,—

		Name of present incumbent.
19.	The Deputy Commissioner of Rangoon. ...	Major M. C. Poole.
20.	The Senior Civil Surgeon of Rangoon.	Surgeon-Major H. Griffith.
21.	The Principal of the Rangoon High School.	Mr. J. H. Gilbert.
22 & 23.	The two Senior Honorary Magistrates of Rangoon, who are at the same time Loogyees of the Shway Dagone Pagoda.	Oo Po Gyee. Oo Po Hnyin.
24.	The Akoonwoon of Rangoon Town District.	Moung Shway Waing.

Under the notification of the 26th January 1882, the Deputy Commissioner of Rangoon will be President of the Municipal Committee of Rangoon until such time as the members of the Committee shall exercise the power of electing one of themselves to be President. From the date of such election being sanctioned by the Chief Commissioner, the Deputy Commissioner, unless he should be chosen by his colleagues to be their President, will be allowed to resign the office of President of the Rangoon Municipal Committee.

No. 286—7R.M., dated Rangoon, 10th July 1882.

From—E. S. Symes, Esq., Junior Secretary to the Chief Commissioner, British Burma,

To—The President of the Rangoon Municipality,

I am directed to acknowledge the receipt of your letter No. 631½, dated the 27th June, submitting a report of the measures adopted for the recent election of members for the Municipal Committee. I am to express the Chief Commissioner's acknowledgments of the trouble taken by the late Committee in the management of the elections; and to convey his congratulations on the results of the first popular election held in Burma. The interest in the matter displayed by the Burmese is especially gratifying as an earnest of the success likely to attend the planting of popular institutions in this province.

2. Some mistakes inseparable from a first attempt of the kind were no doubt made, and the expense incurred was heavier than might have been expected. The experience now gained will be valuable in showing the way to avoid similar errors on future occasions. At the next election in 1884, the rules for election may perhaps require modification in some particulars. Any representations which the newly elected committee may see fit to make in this regard will receive due consideration,

---

No. 116, dated Simla, 2nd August 1882,

From—A. Mackenzie, Esq., Secretary to the Government of India, Home Department,

To—The Chief Commissioner of British Burma.

I am directed to acknowledge the receipt of your letter No. 287—7R.M., dated the 10th ultimo, and enclosures, including a report by the President of the Rangoon Municipality giving an account of the proceedings in connection with the recent election of members for the Municipal Committee of that town.

2. In reply I am to say that the Governor General in Council has perused these papers with much interest, and desires to express his gratification at the success which has attended these elections, which are the first that have been held in British Burma.

3. With reference to paragraph 18 of the report, I am to enquire whether in your opinion any special measures are likely to be required to prevent the payment and treating of voters on future occasions. Possibly the knowledge that such proceedings are not allowable would be sufficient to put a stop to these irregularities on the part of the Burmese candidates, who alone are described as having had recourse to them.

A. MACKENZIE,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 1st AUGUST 1882.

GENERAL REMARKS.—The rainfall in the extreme south-west of the Madras Presidency and in Coorg has continued to be very heavy. In other parts of the Presidency it has been comparatively light. It has also been light in the Nizam's Territories. In Berar it has been light in the western and heavy in the eastern part. In the Bombay Presidency there has been a partial break in the rains in a few districts, while in others a fair amount of rain has again fallen. In the Central Provinces heavy showers have continued in some districts and fair rain in others.

The Central India and Rajputana States have continued to receive good rain; so also the Punjab and the Rohilkhand, Meerut and Agra Divisions of the North-Western Provinces. In other parts of these Provinces and in Oudh the rainfall has been light. In Bengal rain in varying quantities has fallen in all districts. In Assam the rainfall is reported to be insufficient. In British Burma the falls have been good.

General prospects may be characterised as favourable throughout the country. There is, however, a marked want of rain for rice transplantation in Assam, Bengal, and the eastern parts of the North-Western Provinces. Other crops in the two latter Provinces are doing well. In the Punjab the *kharif* sowings are still in progress in some districts, while in others they have germinated; general prospects are good. In Rajputana and Central India young standing crops have in parts suffered from excessive rain, but prospects are favourable on the whole. In the Central Provinces also the young crops are doing well, and here too a break in the weather is needed for weeding.

In the Bombay Presidency sowings have been almost completed, transplantation of rice crops is in progress, and all crops are doing well, save in parts of the Poona district where more rain is needed. In Berar the *kharif* crops are promising. In the Nizam's Territories they are still being sown. In the Madras Presidency crops have in some districts been somewhat damaged by floods, and in others they require more rain; but general prospects are fair. In Coorg the heavy rains have injured crops, roads, and health; rice transplantation in the more southern parts is proceeding. In British Burma ploughing, sowing, and transplanting are in progress.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Aug. 3rd)		
Bellary ...	·71 (average of seven stations).	Standing crops generally good, but dry partially withering and worm-eaten; agricultural operations progressing.
Kurnool ...	·26 (average of six stations).	Crops sprouting well; rain much wanted; floods in Tungabadra subsiding; cattle-disease in parts.
Ganjam ...	·65 (average of ten stations).	Standing crops thriving; harvest gingelly, outturn poor; small-pox and cattle-disease exist; cholera subsiding.
Kistna ...	·56 (average of eleven stations).	Standing crops fair, but flooded in seven taluks; small-pox and cattle-disease exist.
Chingleput (Madras) ...	·96 (average of nine stations).	Standing crops good under large tanks and channels; agricultural operations progressing.
Coimbatore ...	·52 (average of seven stations).	Standing crops generally good, though dry damaged by rain-floods and insects in certain taluks; dry crops want rain in parts of one taluk; harvest dry crops, yield about average; small-pox and fever in parts.
Tanjore ...	·92 (average of eight stations).	Standing crops generally good, though damaged by breaches in six taluks; cattle-disease in parts of one taluk.
Madura ...	·30 (average of two stations).	Standing crops fair, but withering in one taluk; harvest paddy in one taluk; cholera in parts.
Malabar ...	12·26 (average of fourteen stations).	First crop partially destroyed by heavy rain; cholera, fever, and cattle-disease in parts, small-pox more general.
Travancore ...	5·43	Rice cultivation greatly damaged by floods; fever slightly prevalent. *General Remarks.*—General prospects fair.
Bombay—(Aug. 2nd)		
Kurrachee ...	No rain	Fever in five talukas; 1 case small-pox in Tatta taluka; river on 31st, 18 feet 11 inches against 15 feet 7 inches last year; much damage to crops by floods; wheat, red rice, and *bajri* in Kurrachee 23, 36 and 32, in Kotri 30, 32 and 44, in Tatta 24, 36 and 40, and in Mirpur Botoro 22, 44 and 40 lbs. per rupee, respectively.
Hyderabad ...	Rain in seven talukas, average fall 1·31; in Hyderabad 1·96.	River in flood; fever in Mirpur taluka; small-pox in Kandiaro taluka; wheat 25, *juari* 45, *bajri* 40, red rice 31½, and white rice 22 lbs. per rupee.
Ahmedabad ...	·61	Total rainfall 25·84; sowing continues; transplantation of rice commenced in some talukas; in Ahmedabad city 3 cholera cases, all fatal; wheat 27 and *bajri* 30 lbs. per rupee.
Baroda ...	·37	Total rainfall 29·41; cholera abating at Manekwara, but has appeared at Amreli; *bajri* 29 and common rice 23 lbs. per rupee.
Surat ...	·27	Total rainfall 31·70; break continues; young crops generally healthy; *juari* 44½ and *nagli* 51 lbs. per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Násik ...	Igatpuri, 5·93; Peint, 2·89; Nandgaon, 1·50; showers elsewhere.	All crops doing well; locusts in Nandgaon; few cases of cholera in Nasik and Nandgaon; wheat 24, *bajri* 36, and rice 25 lbs. per rupee.
Colaba (Bombay) ...	Rain every day except on 29th; total of week 1·70.	Total rainfall to date 55·10, being 8·79 above average; abnormal temperature fell from 1° warm on 26th to 2° cool on 27th, rose to 2° warm on 29th and again fell to 1° cool on 31st, at which it remained on the 1st; vapour in air normal; wind normal from 26th to 28th, afterwards there were abnormal winds from north-east.
Poona ...	.....	Break in weather continues except in Mawal taluka; more rain wanted in Indapur and Bhimthari; young crops thriving; 2 fatal cholera cases in Bhimthari; *bajri* 45½ and *jowari* 57 lbs. per rupee, in Poona *bajri* 36¾ and *jowari* 47¾ lbs. per rupee.
Ahmednagar ...	Total average rainfall 11·09; Sheogaon ·83; Newasa, ·54; Akola, ·41; very slight rain in Nagar, Parner, Jhamkhed, and Sangamner; none in rest.	Sowing of *kharif* completed in Parner, Shrigonda and Karjat and in progress in seven talukas; cattle-disease in Nagar and Sheogaon; cholera—in Nagar 1 case fatal, in Parner 16 cases, 4 fatal; in Shrigonda 16 cases, 8 fatal; *bajri*—maximum 60 lbs. in Jhamkhed, minimum 48 in Kopergaon; *jowari*—maximum 96 in Jhamkhed, minimum 54 in Kopergaon.
Sholapur ...	·14	Total rainfall 17·06; cholera as before 148 cases, 59 deaths; *bajri* 56 lbs. 38 tolas and *juari* 77 lbs. per rupee.
Dharwar	Rain at all stations except Navalgund, Nargund, Gadag, and Ron; maximum at Hangal, 1·40; minimum ·42.	Owing to break in weather, sowing of *juari*, &c., resumed; young crops, except where damaged by excessive rain, promising; slight foot-and-mouth disease among cattle in Bankapur, Hangal, and Ron talukas; scarcity of drinking-water in villages of Nargund petta; prices stationary.
Kanara ...	Karwar, 3·95; Kumpta, 5·62; Sirsi, 8·07; Hallial, 1·62.	Total rainfall 76·72; transplanting in rice-fields completed; all plants healthy, except in low lands; sugarcane thriving; general health good; cattle-disease subsiding; common rice in Karwar 11 seers, in district average 14½ seers per rupee.
Rajkot ...	No rain	Weather fine; crops thriving; health good; *bajri* 26 and *juari* 30 lbs. per rupee.
		General Remarks.—Sowing mostly completed; transplantation in progress; partial break in some districts; young crops doing well; fever and cattle-disease in a few districts; cholera in Satara, Sholapur, Ahmednagar, and parts of Kathiawar.
Bengal—(Aug. 2nd)		
Chittagong ...	1·59	More rain wanted; prospects of crops not very promising; cultivation of *amun* going on; prices somewhat high; cholera, small-pox, and cattle-disease not abated.
Dacca ...	·56	Rain still required for paddy and other crops; harvesting of jute and *aus* rice continues; some cholera in town.
24-Pergunnahs (Calcutta)	1·04	Prospects of jute, early rice, and sugarcane good; transplanting of *amun* going on; more rain wanted; prices unchanged; public health generally good; a few cases of small-pox amongst cattle reported from Bahraitch subdivision.
Moorshedabad ...	·49	Harvesting of *bhadoi* commenced in some places; transplanting of *amun* going on, but somewhat retarded for want of sufficient rain; fever reported from Gokurm and Rangamati.
Rajshahye ...	·36	Paddy and other crops beginning to suffer considerably from want of rain; harvesting of *kaon* and *aus* paddy commenced; prices rising; fever general; some cases of cholera.
Burdwan ...	·8	Rain wanted throughout the district, especially in Katwa subdivision; cholera reported from parts of Sadr subdivision.
Rungpore ...	·54	Weather hot and dry; transplanting of winter rice at a standstill for want of rain; prospects of other crops good; good crops of jute and early rice being harvested; public health good.
Bhagálpur ...	·32	Rain wanted for transplanting rice; prospects of autumn crops good.
Purneah ...	1·54	Rain much wanted; rice damaged by drought; ploughing for cold weather crops general; health fair; Kosi low, Ganges very high.
Patna ...	·28	A heavy fall in the south; prospects of autumn crops good; more rain required for transplanting rice; cholera still reported from Barrh and Behar subdivisions.
Durbhunga ...	1·42	Rain badly wanted everywhere for transplanting rice; a fair *bhadoi* harvest expected; prices stationary, with inclination to rise; cholera nearly gone.
Hazáribágh ...	1·31	Occasional clouds; *bhadoi* crops promising; more rain wanted for transplanting rice; cholera and small-pox still reported; public health generally good.
Cuttack ...	·92	*Beali* and *sarad* rice being reploughed and progressing well in Jaipur; rivers have overflowed their banks, no damage to crops; cholera disappearing.
		General Remarks.—Rainfall still very deficient in most parts of this province; prospects of late rice generally not very favourable, save in Orissa and parts of Chota Nagpur and in a few other districts where good rain has fallen; transplanting being interfered with, in places it is quite at a standstill; early crops however doing well, but are also in want of rain in some places; fever has appeared in some districts; cases of cholera still reported from some places.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. Provinces and Oudh—		
Benares (Aug. 1st)	Benares, ·6; Chandauli, 1·20; Gungapur, *nil.*	Rain needed for transplanting late rice; health of cattle good; cholera decreasing, but still prevalent in the city and its environs; some complaints of fever in the Gungapur tahsil; bazars well supplied; prices steady.
Allahabad („ 2nd)	Very little rain during week.	More rain wanted for transplanting rice; crops however doing very well; some sporadic cholera, but not much considering season; slight cattle-disease reported; prices falling.
Gorakhpur („ 1st)	No rain except a few local showers since 4th.	Rice beginning to suffer; rain greatly needed; condition of people good; prices continue to rise; some cattle-disease and cholera prevalent.
Jhánsi (July 31st)	Rain from 7·0 in Jhánsi pargana to 1·0 in Moth pargana.	Crops in light *rankar* soil promise well, those in *mar* soil being injured by rain; a break is greatly wanted; *tur* and *bajra* still being sown; cholera reported to-day from Gursarailaga.
Cawnpore (Aug. 1st)	Average rain over 1·30	Weather clear; crops flourishing; cholera continues; prices slightly fallen.
Agra („ „)	Rain in all parganas from ·7 to 6·20.	Crops in low lands suffering from continued wet weather; floods reported from west of Fatehpur-Sikri; a break much needed; slight fever in six parganas; cholera somewhat abating in Ferozabad; general health good; prices stationary.
Bareilly („ „)	.....	Weather seasonable; prospects good; a few deaths from cholera reported.
Meerut („ „)	Meerut, 1·20; Hapur, ·7; Baghpat, 2·70; Mowana, 1·40; Ghaziabad, 1·70; Sirdhana, 1·60.	Weather seasonable and rains opportune; health good; crops flourishing; *rabi* ploughings commenced; prices a little risen.
Farukhabad („ „)	Showers in four tahsils; rain lighter.	More rain wanted; prices steady; markets well supplied; health good.
Kumaun („ „)	.....	Prospects of crops very good; *máhámari* in two villages, 11 deaths; cattle-disease less; prices slightly lower.
Rae Bareli („ „)	Sadr, 2·80; Dalmau, 2·00; Digbijaiganj, ·6; Salon, 1·80.	Prospects favourable; cholera still continues; cattle-disease has again broken out in tahsil Dalmau; prices stationary.
Lucknow („ „)	Lucknow, ·5; Malihabad, 1·20; Mohanlalganj, ·1.	Crops in good condition; weeding commenced; cholera still continues in city and district; prices steady.
Partabgarh („ „)	Good rain at Kunda, a heavy shower has fallen at Sadr.	Rain wanted badly at Sadr and north and west of Patti, where crops are beginning to suffer; at Sadr wind easterly; sky clear.
Sitapur („ „)	No rain in Sitapur and Sirdhauli, very little in other tahsils.	Rice much injured, also *sawan* in tahsil Sitapur, otherwise crops still fair; cholera much on the increase; supplies plentiful.
Fyzabad („ „)	·8	Weeding commenced; weather cloudy; cholera continues; cattle-disease appeared at tahsil Akbarpur.
		General Remarks.—Good rain and prospects excellent in Meerut, Agra, and Rohilkhand divisions, and a break would be beneficial in Agra, elsewhere rains lighter, and more is required, especially in Benares Division, for rice crops; prices on the whole stationary; cholera continues in eastern district, otherwise health good; cattle-disease has again appeared in eastern districts, but is less in Kumaon.
Punjab—(Aug. 1st)		
Delhi ...	4·60	*Kharif* prospects good; health good; prices falling.
Hissar ...	4·0	*Kharif* prospects good; health good; prices stationary.
Umballa ...	1·60	*Kharif* sowings nearly finished; health good; prices steady.
Jullundur ...	3·0	Health good; prices steady.
Amritsar ...	2·60	*Kharif* sowings continue; prices stationary; health good.
Sialkot ...	3·0	Health good; prices steady.
Lahore ...	8·0	Health good; prices stationary.
Ferozepore ...	1·60	*Kharif* sowings in progress; fall in prices of grain and *juar.*
Mooltan ...	·50	*Kharif* crops good; health good; prices stationary.
Rawalpindi ...	4·0	*Kharif* crops in progress; cattle-disease in tahsils Rawalpindi and Murree and a few cases of measles in Pindigheb; slight rise in price of wheat.
Dera Ismail Khan ...	·70	*Kharif* crops good; health good; prices falling.
Peshawar ...	1·90	*Kharif* sowings in progress; health good; prices falling.
		General Remarks.—Good rain has fallen throughout the province; *kharif* sowings in progress; health good, but a few cases of measles are reported from Pindigheb, and rinderpest has appeared in tahsils Rawalpindi and Murree; prices of food-grains generally are stationary.
Central Provinces—		
Nagpur (Aug. 2nd)	1·27	Crops promise well, but break required; isolated cases of cholera; prices steady.
Jubbulpore („ 1st)	2·93	Weather cloudy, showery; break needed; sowings continue; crops doing well; cholera and small-pox reported; wheat 17 seers per rupee.
Saugor (July 31st)	4·96	Slight damage to crops by excessive rain; few cases of cholera; prices steady.
Seoni (Aug. 1st)	1·95	Weather close with showers; cholera and cattle-disease still continue; wheat 19 seers per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces— *contd.*		
Khandwa (Augst 1st)	·32	Weather cloudy; weeding operations commenced; clear weather needed; cholera slightly prevalent; wheat 12 seers per rupee.
Hoshangabad („ „)	2·04	*Kharif* suffering from continuous rain; break needed; small-pox and cholera reported; wheat 15 seers per rupee.
Raipur ...	.....	No report received.
Sambalpur (July 27th)	4·28	Weather seasonable; prospects of crops and health good; rice 56 seers per rupee.
		General Remarks.—Weather cloudy, with rain in most districts; break needed for weeding purposes; prospects of crops favourable, but slightly damaged from incessant rain; cholera still prevalent, with few cases of small-pox; prices stationary.
British Burma— (July 29th)		
Akyab ...	11·16	Total rainfall 135·08; 15 deaths from cholera in two townships; slight small-pox in two townships, otherwise public health good; cattle-disease prevalent in six townships and severe in four; sowing in progress.
Rangoon ...	2·08	Total rainfall 44·02; public health good; ploughing progressing.
Bassein ...	7·81	Total rainfall 67·39; 1 death from cholera in town and 14 in district, otherwise public health good; cattle-disease in three townships; ploughing and planting out progressing.
Prome ...	1·97	Total rainfall 21·08; 1 death from cholera in town and 89 in the district; cattle-disease much the same; ploughing very backward, especially in one district.
Amherst (Moulmein) ...	3·25	Total rainfall 113·08; public health good, both in Moulmein and district; cattle-disease reported in five townships; ploughing and sowing still going on.
Toungoo ...	2·45	Total rainfall 46·47; 2 deaths from small-pox in district, otherwise public health good; 35 deaths from cattle-disease in district.
		General Remarks.—Cholera prevalent in Prome and Henzada, some also in Akyab, Tharrawaddy, Bassein, and Thonegwa, otherwise public health generally good; cattle-disease continues; rain sufficient except in Prome and Thayetmyo; ploughing, sowing, and transplanting going on well.
Assam—(Aug. 2nd)		
Gauhati ...	3·04	Weather very hot; rain much wanted for transplanting operations; public health good.
Sylhet ...	1·60	Continued drought at this time of year very serious; bad accounts from all parts of the district; prospects gloomy.
Cachar ...	1·58	Weather extremely warm; transplanting *sali* crops continues, but much retarded for want of rain; state of *dumahi* and *murali* crops favourable; tea doing well; common rice 26⅝ seers per rupee; 1 case of small-pox reported from Halikandi; deaths of 142 buffaloes and 208 cows by cattle-disease during July reported from Sadr station; 22 buffaloes and 26 cows now attacked with the disease; rain very much wanted.
Dibrugarh ...	1·83	Weather sultry; *aus* paddy being cut; more rain wanted for transplanting *sali* paddy; public health generally good; cattle-disease still reported.
Mysore and Coorg— (Aug. 2nd)		
Bangalore ...	.....	No report received.
Mysore ...	.....	No report received.
Mercara ...	17·3	Total rainfall during July 101·64 inches greater than ever known, proving injurious to roads, crops, and health; rice being transplanted in South Coorg.
Berar & Hyderabad— (Aug. 2nd)		
Amráoti ...	3·23	*Kharif* crops in good condition; wheat 18 and *juari* 30 seers per rupee.
Akola ...	·05	Weather warm and cloudy; *kharif* crops promising.

SUPPLEMENT No. 32.

PART I.

Government of India Notifications, Appointments, Promotions, &c.

HOME DEPARTMENT.

NOTIFICATIONS.—PUBLIC.

Simla, the 7th August 1882.

No. 1194.—In modification of Home Department Notification No. 1617, dated the 7th October 1881, the Governor General in Council is pleased to declare that licenses for the importation, possession, or transport of sulphur, proved to the satisfaction of the Local Government or Administration concerned to be intended only for *bonâ fide* medicinal, manufacturing, or agricultural purposes, may be granted without payment of any fee.

The 10th August 1882.

No. 1215.—In exercise of the powers conferred by Section 8, Act XVII of 1875 (The Burma Courts Act, 1875), the Governor General in Council is pleased to establish a Court, to be called the Court of the Extra Assistant Commissioner, Tharrawaddy district head-quarters, the local limits of the jurisdiction of which shall include the following circles:—

1. Thonezeh.
2. Sadotheeree.

ESTABLISHMENTS.

The 9th August 1882.

No. 300.—Mr. J. B. Fuller, C.S., Assistant Director of Agriculture and Commerce, North-Western Provinces and Oudh, is appointed to officiate as Junior Secretary to the Chief Commissioner and Director of Agriculture in the Central Provinces, during the temporary appointment of Mr. A. H. L. Fraser, C.S., as Secretary to the Chief Commissioner, or until further orders.

MEDICAL.

The 9th August 1882.

No. 346.—The services of Surgeon R. J. Taaffe, M.B., are temporarily placed at the disposal of the Government of the Punjab.

SANITARY.

The 9th August 1882.

No. 271.—Surgeon-Major W. Center, M.B., Professor, Lahore Medical School, and Chemical Examiner to the Government of the Punjab, is appointed to officiate as Statistical Officer to the Government of India in the Sanitary and Medical Departments during the absence on leave of Surgeon-Major A. Stephen, M.B., or until further orders.

JUDICIAL.

The 11th August 1882.

No. 1163.—The Hon'ble L. R. Tottenham, a Judge of the High Court of Judicature at Fort William in Bengal, has obtained privilege leave for one month, with effect from the 23rd November next, or from any subsequent date on which he may avail himself of it.

A. MACKENZIE,
Secy. to the Govt. of India.

REVENUE AND AGRICULTURAL DEPARTMENT.

NOTIFICATION.—GENERAL.

Simla, the 11th August 1882.

No. 529 *G.*—With reference to Notification No. 16C., dated the 25th November 1881, it is hereby notified that Mr. C. L. Tupper, C.S., performed the duties of Secretary to the Government of India in the Revenue and Agricultural Department from the 16th December 1881 to the 9th February 1882, and was on special duty from 10th February to the 8th March 1882, his services being placed at the disposal of the Government of the Punjab from the 9th idem.

E. C. BUCK,
Secy. to the Govt. of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.—GENERAL.

Simla, the 8th August 1882.

No. 346 *G.*—Captain H. A. Vincent, Bombay Staff Corps, Officiating 2nd Squadron Commander, 1st Regiment, Central India Horse, is appointed to officiate as Political Assistant, Goona, in addition to his own duties, during the absence on privilege leave of Brevet Lieutenant-Colonel H. M. Buller.

POLITICAL.

The 8th August 1882.

No. 341 *G.*—His Excellency the Viceroy and Governor General in Council is pleased to recognise the appointment of Mr. Martin Gutteling, Acting Consul for Sweden and Norway, as Vice-Consul for Sweden and Norway at Calcutta.

The 10th August 1882.

No. 373 *G.*—His Excellency the Viceroy and Governor General is pleased to confer upon Ochorram Mitharam, Assistant Political Agent, Mahi Kantha, the title of "Rao Bahadur," as a personal distinction.

C. GRANT,
Secy. to the Govt. of India.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATIONS.

Simla, the 11th August 1882.

No. 3084.—In accordance with the Resolution of the Government of India in the Financial Department, No. 59, dated 11th January 1882, notice is hereby given that the original Promissory Notes mentioned on the subjoined list (of which duplicates have been applied for on the allegation that the originals have been lost) will be discharged at the General Treasury of Fort William on December 1st, 1882, with all interest due upon them, and that upon that date all further interest upon such notes shall cease :—

The 10th August 1882.

No. 3078.—Furlough out of India for fifteen months having been granted to Mr. E. F. T. Atkinson, B.C.S., late Officiating Accountant General, Bengal, and Mr. J. E. Cooke having been appointed to officiate temporarily as Accountant General, Bengal, Mr. Atkinson made over, and Mr. Cooke received, charge of the appointment after noon on the 5th August 1882.

The 11th August 1882.

No. 3025.—Mr. H. J. Brereton, Assistant Accountant General, Punjab, having returned from privilege leave, resumed charge of his duties after noon on the 3rd August 1882.

No. 3093.—The following appointments in the Financial Department have been sanctioned, with effect from the 23rd July 1882, inclusive :—

Mr. E. F. T. Atkinson, B.C.S., to be Accountant General, Bengal.

Mr. A. C. Tupp, B.C.S., to be Accountant General, North-Western Provinces and Oudh, and Deputy Commissioner of the Department of Issue of State Paper Currency at Allahabad. Mr. Tupp will however continue, until further orders, to officiate as Accountant General, Bombay, and Commissioner of the Department of Issue of State Paper Currency at Bombay.

Mr. H. F. Clogstoun, M.C.S., to be Accountant General, Madras, and Commissioner of the Department of Issue of State Paper Currency at Madras.

Mr. E. J. Sinkinson, B.C.S., to be an officer in the Enrolled List of the Financial Department (Class II) and to be Deputy Accountant General, Madras. Mr. Sinkinson will however continue, until further orders, to officiate as Accountant General, North-Western Provinces and Oudh, and Deputy Commissioner of the Department of Issue of State Paper Currency at Allahabad.

Mr. Stephen Jacob, B.C.S., is confirmed in the appointment of Under Secretary to the Government of India in the Department of Finance and Commerce.

Mr. J. F. Finlay, M.A., B.C.S., to be an officer in the Enrolled List of the Financial Department (Class IV) and to be Assistant Comptroller General. Mr. Finlay will however continue, until further orders, to officiate as Assistant Accountant General, North-Western Provinces and Oudh.

No. 3111.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

Read the following papers :—

Letter to the Government of Bombay, No. 1943, dated 13th December 1881.
Letter from the Government of Bombay, No. 4605, dated 14th July 1882, and enclosure.

RESOLUTION.—The Governor General in Council observes that by letter No. 1943, dated 13th December 1881, which was published in Part I of the *Gazette of India*, dated 17th idem, the Government of Bombay was requested to collect and furnish to the Government of India all available information connected with sites in the Bombay Presidency where water-power exists sufficient for putting in motion the machinery of an extensive factory, and that from the report now received from that Government it is evident that suitable sites with sufficient water-power to drive such machinery exist in several districts in the Bombay Presidency.

2. The main object which induced the Government of India to institute these enquiries was to encourage a project for the establishment of a Paper Mill in the Bombay Presidency, such a mill being much wanted there, and, in

furtherance of the policy of the Government to encourage local industries, His Excellency in Council would be prepared to enter into a contract with any private individual or firm who may be willing to establish such mills, for a term of five years or more, for the supply of paper required for the public service in India of a quality not inferior to, and at a cost not higher than, that now paid for imported paper. In this view His Excellency in Council hopes that the Government of Bombay will be prepared to consider in a liberal spirit any proposals they may receive for taking up sites possessing water-power for the establishment of Paper Mills.

ORDERED, that the foregoing Resolution be forwarded to the Government of Bombay for information and guidance.

Ordered also, that the Resolution and the report from the Government of Bombay be published in the *Gazette of India*.

No. 4605, dated 14th July 1882.

From—J. MONTEATH, Esq., Acting Under-Secretary to the Government of Bombay, Revenue Department,

To—The Secretary to the Government of India, Dept. of Finance and Commerce.

I am now directed to submit the report called for in your letter No. 1943, dated 13th December 1881, regarding sites in the Bombay Presidency where water-power could be utilised to advantage.

2. From the results of the enquiries made by the local officers in the matter, it would seem that in several districts in this Presidency there are sites where water-power sufficient for putting machinery in motion is available. The following is a brief summary of the reports received on the subject :—

NORTHERN DIVISION.

Ahmedabad.—The Executive Engineer, Irrigation, for Gujárat states that there are several vertical falls on the Háthmati Canal in this district. They are about 11 in number, but are all far from any centre of public industry, except one which is situated near a public road crossing the canal. This fall is in the 9th mile from the head of the canal, and it is calculated that during the monsoon and for a month or more thereafter (depending on the supply of water available from the river and, therefore, on the amount of rainfall) there is about 35 horse-power available at it; but at the end of the hot weather this power is reduced to 2 horse-power. It is also believed that if 2 turbines of 20 horse-power were located at this fall, both of them could be worked at nearly full power for five or six months, one at full power for about three months afterwards and at half power for about another month. No information is supplied regarding the other falls.

Kolába.—The Executive Engineer, Northern Konkan, considers that there are a great number of sites in this district where water-power could be made available. But the Collector, while admitting that many streams run as torrents for half the year, thinks that perennial water-power could not be discovered anywhere in the district, or that, if discovered, there is not likely to be for many years to come any local industry on which it could be profitably employed.

Thána.—It appears from the Collector's report that there are several sites in this district where water-power for working machinery might be obtained, such as Sasunowghar in the Bassein Táluka, the Surya River in the Máhim Táluka, Golsunda in Panvel, the river near Panvel, and the rivers near Nágli and Bhiwandi. But some of these places are situated in wild and thinly populated tracts, and have many other drawbacks, such as unhealthiness of climate, scarcity of labour, &c., while the expense of damming up the rivers would be great. An attempt was made a few years ago to work a paper-mill at Susunowghar in Bassein, but owing to lack of capital and the scarcity of labour the undertaking failed. It is stated that a good supply of water could probably be secured at Bhiwandi, that the place is healthy, that labour is there plentiful and cheap, that the Agra road runs close by, and water communication with Bombay can be kept up even during the monsoon, while the railway is only six miles distant. The Executive Engineer remarks: "In a country like the Konkan there would be no difficulty in obtaining an almost unlimited supply of water, provided funds were forthcoming for the construction of a storage reservoir. By simply building up any of the Konkan rivers up to the level of the river-banks I do not think a sufficient supply would be obtained, as the fall is generally too rapid and the banks not sufficiently high."

CENTRAL DIVISION.

Poona.—The Collector believes that there are several places along the different rivers in this district where water flows with a fall through rocky barriers at which water-power might be made available, such as the Ghodnadi, the Mula, the Khadakvásla works, the Bandh and Panowli in the Háveli Táluka. A copy of a statement submitted by the Collector furnishing details regarding the sites mentioned is appended.

Násik.—The Executive Engineer for Irrigation states that there are scores of sites where water-power could be utilised for driving machinery in the four tálukas named in the margin with which he is immediately connected. Every bandhára (a dam across a river) is a site, and there is immense power available from June to December on the rivers Girnà and Mosam. The Executive Engineer further states that after the construction of the Chankápur Tank the water-power on all the Girna River bandháras will be continuous throughout the year, varying from a practically unlimited quantity from June to October down to about 18 horse-power effective in the hot weather at each bandhára. As regards the rest of the district, the Collector writes that he knows of only two sites that could well be made use of—one is the fall of the Godávari at Gangápur, six miles from Násik, with which it is connected by a made and bridged road. The fall here is said to be ample, but in the hot season the water is very low, and would have to be supplemented by damming the river higher up. The other is the fall at Nándur Madmeshwar, also on the Godávari, but lower down. It is eight miles from the Niphád Railway Station, with a gravelled road all the way. This is also the site of a proposed weir for an irrigation project, and, if it is carried out, the head of the canal might be utilised for turning a wheel. Labour and carriage would be available at both these places. There is also a site at Walviher in the Igatpuri Táluka, affording good facilities for the working of machinery by water-power, but it is somewhat difficult of access, being eight miles from Igatpuri, the road to which is very bad. The Collector, however, remarks that he cannot imagine a more perfect site for a lake: there is a large basin surrounded by hills, and the only outlet for water is by a narrow gorge, the average rainfall being about 120 inches.

Báglan, Kalvan, Málegaon, Nándgaon.

Sátára.—The Collector believes that there are sites in this district where water-power exists, but states that without a scientific examination it is not possible for him to say whether there are any spots at which water-power sufficient to move heavy machinery can be found.

Khándesh.—The most eligible site in this district for the utilisation of water-power, which is on the Tápti River near Bhusával, was conceded, on terms which will be stated below, to Messrs. Blaney and Bapty of Bombay. The Executive Engineer for Irrigation is under the impression that there are several other sites both above and below the one above mentioned. But the distance of this part of the country from any railway station is very considerable, and the floods which rise very high in the Tápti would deter capitalists from investing their money in the erection of mills, &c. The Executive Engineer for Irrigation thinks that on the river Pánjra which passes Dhulia, the head-quarters of the Collectorate, water-power varying from 2 to 40 horse-power might be available at times, but the supply would be very irregular and uncertain.

Ahmednagar.—The Collector states that it does not appear that water-power sufficient for putting heavy machinery in motion exists in that district, but he sends copies of letters from Dr. W. O. Ballantine and the Reverend S. B. Fairbank, of the American Mission, who state that at Wazir in the Sangamner Táluka and Lákh in the Ráhuri Táluka waste water flows over the dams in the rains with sufficient power to drive machinery, that water-power could be produced on the Mula River anywhere from 5 to 20 miles above Ráhuri, and that at other places on the Godávari, Mula, and Pera rivers, much might be done by the construction of dams.

SOUTHERN DIVISION.

The only suitable place in this division for utilising water-power for the working of factories is at the Gokák Falls in Belgaum. Messrs. Ritchie, Steuart & Co. have obtained a concession for utilising the water-power at this place. The terms of the concession will be given below.

SIND.

The Commissioner reports that there are no sites in Sind where water-power exists in a form suitable for putting in motion the machinery of an extensive factory.

He remarks: "The immense water-power of the Indus with its unlimited and perennial supply would doubtless prove a most valuable engine in manufacturing industry, were it not for the capricious character of the stream. The river not only rises and inundates the country on each bank, but cuts for itself almost every year new channels, which would render it almost impossible to utilise the stream as a motive power for fixed machinery."

Káthiáwár.

On the Bhádar river in the vicinity of Jetpur there is a direct fall of about 12 feet, the force obtainable being estimated at 30 horse-power. Other favourable sites might be found on the river and on its affluents, the Minsar and the Bileshwari; but they would be too far from roads and railways to be of practical use at present. The firstmentioned would, it is stated, be the most favourable on account of its proximity to the railway, and because the Bhádar is a perennial stream, and would hardly require an artificial dam at the place indicated. The Jetpur station is only two miles off, and labour and carriage are stated to be generally available.

Pálanpur.

At a place called Bálárám, a mile from the Chitrásani station on the Western Rájputána State Railway, a small river which bears the same name flows over a rocky bed, and at one place where it is shut in by hills or high ground on either side it rushes with great force. The stream has never been known to fail even in seasons of the greatest drought, and abundance of labour and carriage could be procured in the vicinity. Two other places also belonging to Pálanpur are situated in the Dántiwáda District, about 14 or 15 miles to the

north-west of the capital town and near each other. One is called Dumdura, and is within the limits of the village of Nadotra; while the other, which is called Vania Dura, is within the limits of the town or village of Dántiwáda. The places in question are on the Banás river, which here flows over rocks with considerable force. They are within 12 or 14 miles of the Chitrásani station, and labour and carriage are procurable.

3. I am to forward herewith a copy of a report by the Chief Engineer for Irrigation on the subject, in which a professional opinion of the value of certain sites for the purpose in question is contained.

4. Referring to the last paragraph of your letter under reply, I am to state that applications have been received from the following gentlemen for the grant of sites for the utilisation of water-power, *viz.*—(1) Mr. J. Gordon on behalf of a projected company for the establishment of a paper mill at Walviher in the Igatpuri Táluka in Násik; (2) Messrs. Thomas Blaney and Bapty for a site on the river Tápti, near Bhusával in Khándesh, for the utilisation of the available water-power for purposes of mechanical industry; (3) Messrs. Ritchie, Steuart & Co. for a site for the establishment of cotton mills near the falls of Gokák in Belgaum.

5. As the land applied for by Mr. Gordon was mostly occupied assessed land, and as it was impossible to obtain it without resort to the Land Acquisition Act, the owners having declined to part with it on reasonable terms, Government refused to grant the concession asked for.

6. The following are the terms of the concession granted to Messrs. Thomas Blaney and Bapty:—

(1) The land to be held on a 99-years' lease on payment of an annual rental of 1 annas per acre on the unarable land and the present rate of assessment on arable land, *plus* Rs. 10 per annum for the water-power, the lessees to satisfy all private rights in the lands so leased.

(2) The lease to be renewable on such new conditions as Government may then think necessary and proper. If the terms of the renewal are not accepted on the expiration of the lease, the lessees to be required to remove any plant or machinery that may be on the ground within six months.

(3) The works at the fall to be completed before 31st December 1882.

(4) Government to have power to enter and inspect the works at all reasonable times, and to re-enter upon the land if the works should be discontinued. All rights of way to the river to be reserved.

Messrs. Bapty and Blaney have not taken advantage of this concession; but, on 8th December last, Messrs. Forbes & Co. informed this Government that the lease and concession had been assigned to a partner of their London corresponding firm, for the purpose of forming a public company in London with sufficient capital to erect a cotton mill, and requested that the time within which the works must be completed should be extended from 31st December 1882 to 31st December 1883. They were informed in reply (Government Resolution No. 7854, dated 23rd December 1881) that if Government is satisfied before the end of June 1882 that a company has been formed with sufficient capital to carry out the scheme, and that the lease now held by Messrs. Bapty and Blaney has been duly assigned to them personally or as representatives of the company, and if they agreed to the preparation of a deed at their expense, keeping alive the right of Government to re-enter, His Excellency in Council would be prepared to grant the extension of time asked for. No further communication has been received from them.

7. The concessions made to Messrs. Ritchie, Steuart & Co. are the same as those granted to Messrs. Blaney and Bapty as regards the land required for the construction of their mills and other buildings connected therewith, and they have also been offered the use of water from the Gokák Canal at the rate of 17 cubic feet per second on payment of Rs. 203 per cubic foot, or even a larger quantity if required at the rate specified. No charge to be made during the four months of monsoon. It does not appear that they have as yet made any use of the concessions.

8. Arrangements are also in progress for a grant of the concession of water-power at Lake Fife to Mr. Macfarlane.

No. 1567, dated 26th April 1882.

From—J. HART, Esq., Chief Engineer for Irrigation, Bombay,

To—The Secretary to the Govt. of Bombay, Public Works Department (Irrigation).

It appears that the Executive Engineers of this Department have furnished the several Collectors of their divisions with reports on the possible sites for the utilisation of water-power.

2. I need scarcely point out that there are very few rivers rising in the Ghâts which do not at some point or other in their courses afford sites where power could be obtained; but I consider that no practical object would be served by reporting on such, for scarcely any of them would furnish permanently the power required by manufacturers, unless large head and storage works could in the first instance be constructed.

3. Some of the most notable natural sites are—

The falls of the Godávari at Gangávali and the rapids of Nandur Madhmeshwar on the Godávari in Násik.

The rapids in the Krishna at Bahey in Sátára.

The falls on the Ghataprabha at Gokák in Belgaum and the rapids at Bodhán, Kamláپur and Kakrapara on the Tápti river in Surat.

4. But none of these places offer anything further worth the notice of the manufacturer than that they afford favourable sites for the construction of large head-works from which water-power might be obtained by a more or less considerable expenditure of capital in the first instance.

5. It can, I think, easily be shown,—in fact it may be admitted as a maxim,—that in few cases could works be constructed which would pay merely as affording water-power, so that, therefore, we can look only to those sites where water can be utilised to produce power without interfering in any way with its irrigational value.

6. The value of water on irrigation works is 1 rupee per 10,000 cubic feet, at which rate a discharge of 1 cubic foot per second, representing a horse-power of not more than ·085 per foot of fall, would cost Rs. 8·64 per day of 24 hours, or say Rs. 100 per horse-power per day per foot of fall, the rate varying inversely with the fall. Thus with a fall of 10 feet the rate would be Rs. 10 per horse-power per day; and within practical limits of fall the rate is, I should say, prohibitive for commercial speculations.

7. I shall, therefore, confine myself to reporting the sites on which, in connection with irrigation, water-power already exists available for manufactories, or where works, now either under construction or proposed, will soon place water-power in a practical shape within the reach of private speculations.

8. The Háthmati Canal in Gujarát at present affords at the several vertical falls sites for small works to which at present an intermittent supply only could be guaranteed, but with storage works, which are now under investigation, would produce a permanent discharge affording at least 10 to 15 horse-power at ten or eleven points along the canal. These sites are, however, far from commercial centres, and, except possibly that at the crossing of the Ahmednagar and Parántíj road, are not at all likely to attract private speculators.

9. In Khándesh there are few works where a permanent power can at present be obtained, although almost every bandhára presents a site with a temporary supply of water-power, say for six or eight months of the year.

10. The Mukti Reservoir is the only work furnishing a permanent supply of power, and below this tank, on the Pánjra River near the station of Dhulia, from 2 to 4 horse-power can be permanently obtained, while during the monsoon the supply would be equal to, say, 40 horse-power.

11. In this district the completion of the Chankápur Reservoir, the early construction of which is now contemplated, would develop a power at every bandhára on the Girna River, varying from one which would be practically unlimited during the monsoon down to 18 horse-power in the dry season.

12. The Násik District has as yet no permanent supply on any of its irrigation works; but after the completion of the Wághad Tank, now under construction, a considerable, though variable, amount of power can be obtained at the tank (about 18 miles from Násik) as well as at the Pálkhed Weir, where a smaller amount would be available.

13. The Poona District affords two permanent sources of power—Lake Fife and the Mátoba Tank. The former has been reported on to Government; *vide* this office No. 3423, dated 13th August 1881.

Special provision has been made in the work for the adaptation of turbines, and the power varies from 100 horse-power to an amount which is at present merely nominal. A statement of the actual discharges and power available month by month during the year is attached.

14. At the Mátoba Tank a small perennial power is available at present; but when irrigation is fully developed it must become merely nominal.

15. As regards the Ahmednagar and Sholápur Division, the perennial outlet of the Ekrúk Tank near Sholápur furnishes for the present a permanent source of power, 24 horses at the minimum.

16. Both the Ashti and the Bhátodi tanks will supply power during the kharíf and part of the rabi seasons; but I do not consider such other than intermittent, which will not pay large speculations.

17. The sites in the Sátára District at which power of a permanent character is at present available on constructed works are below the Máini and Nher tank sluices; but in these cases the amount is so insignificant, the largest being only about 3 horse-power, that it would be scarcely worth the notice of private speculators.

18. Two other works now under construction in this district (the Mhasvad Tank and the Kás Reservoir) will, however, in the course of the next two years furnish more favourable opportunities for the establishment of manufactories in so far at least as water-power is concerned.

19. At the former work about 10 horse-power might be obtained at the head-works of the tank, and at the falls near Katpal it is calculated that over 100 horse-power is obtainable. Both these sites are far from large commercial centres, being relatively about 30 and 20 miles west of Pandharpur.

The latter work might be made to furnish a supply of 10 cubic feet of water per second permanently, with an available head of near 1,000 feet; but the position is by no means a convenient one for the establishment of a large factory, although within about 20 miles of Sátára.

20. It does not appear that any of the existing irrigation works in either Kaládgi, Belgaum, or Dhárwár at present supply any available permanent power.

21. The Gokák Canal under construction will doubtless afford such; but the site near the head-works has been already disposed of by Government to Messrs. Ritchie, Steuart & Co., and that at the canal falls will probably afford a considerable amount of power, although the extent of such cannot be stated till the exact scope of the project which may be ultimately adopted has been determined.

Statement showing the Monthly, Maximum, Minimum and Average Head, Discharge and Calculated Horse-power of the Mutha Right Bank Canal at Khadakvásla from the 1st July 1880 to the 30th June 1881.

WILLIAM CLERKE, M. INST. C. E.,
Executive Engineer for Irrigation, Poona Division.

Statement to accompany Poona Collector's letter No. 919, dated 9th February 1882.

(Referred to in Bombay Government letter No. 4605, dated 14th July 1882, to the Government of India.)

Sites where Water-power exists sufficient for putting in motion the machinery of an extensive Factory.	Estimated Force obtainable from the water.	General circumstances of the locality.	Distance from the nearest Railway Station.	Quantity of Labour and Carriage generally available.
1	2	3	4	5
1. At Lake Fife, Khadakvásla, Táluka Hávelí.	Unknown to me, but the Irrigation Department can tell.	Khadakvásla is a small village, but it is only 10 miles from Poona, and supplies, &c., would have to be brought thence. Lake Fife supplies Poona with water by the Mutha Mula Canal which irrigates a large quantity of land.	10 miles ...	Plenty of labour and carriage procurable in Poona.
2. Bandh at Poona, Táluka Hávelí.	.....	This bandh is across the Mutha Mula just below their junction and close to the village of Yerowda; it was built by Sir Jamsetji Jeejeebhoy.	1½ miles ...	.....
3. Panowli, Táluka Hávelí.	.....	A dam is thrown across the river Pauna between these two villages, and a channel from a quarter to half a mile in length, in parts cut through rock and in other places supported by very solid masonry, leads to a building like a small domed temple where formerly a large hand-mill was worked by water.	2½ miles ...	Labour and carriage procurable in surrounding villages; also at Poona, which is only 12 miles distant.

J. MOORE,
Collector, Poona.

D. M. BARBOUR,
Secy. to the Govt. of India.

MILITARY DEPARTMENT.

Simla, the 11th August, 1882.

APPOINTMENTS.

No. 431.—STAFF CORPS—

The undermentioned officers, appointed by the Secretary of State probationers for the Indian Staff Corps from regiments out of India, are placed at the disposal of the Government of Madras, in view to their appointment to the Staff Corps of that Presidency, with effect from the date of their arrival in India :—

Lieutenant G. Rippon, East Kent Regiment.
Lieutenant A. T. Young, Royal Sussex Regiment.
Lieutenant M. T. O. Travers, Royal Scots Fusiliers.

No. 432.—The undermentioned officers are admitted to the Bengal Staff Corps, with effect from the dates specified, subject to the confirmation of the Right Hon'ble the Secretary of State for India :—

Lieutenant Edmund Elliot Robertson, Seaforth Highlanders, Officiating Squadron Officer, 1st Regiment, Central India Horse,—28th February, 1881.

Lieutenant George Walter Brandon Swiney, Seaforth Highlanders, Officiating Wing Officer, 2nd Sikh Infantry,—30th March, 1881.

No. 433.—MILITARY ACCOUNTS DEPARTMENT—

With reference to G. G. O. No. 421 of 1882, Major M.A. Rowlandson, Madras S. C., Military Accounts Department, will have the temporary rank of Controller of Military Accounts while employed with the Indian Division, Egypt Expeditionary Force.

No. 434.—HYDERABAD CONTINGENT—

No. 2 Battery.

Lieutenant A. B. Shute, R.A., Officiating Subaltern, No. 3 Battery, to be Subaltern, *vice* Lieutenant R. H. Mahon, R.A., whose services have been placed at the disposal of the Government of Madras.

No. 3 Battery.

Lieutenant E. U. Marrett, R.A., to officiate as Subaltern, *vice* Lieutenant A. B. Shute, transferred, and until further orders.

No. 435.—VOLUNTEER CORPS—

1st Punjab Volunteer Rifle Corps.

Major Andrew Higgins, to be Commandant, with the rank of Lieutenant-Colonel, *vice* Colonel W. Howey, vacated.

FURLOUGH AND LEAVE.

No. 436.—The undermentioned officer is granted furlough out of India, with the necessary subsidiary leave :—

Lieutenant J. A. Tanner, R.E., Assistant Engineer, 2nd grade, Military Works Department, (m. c.) for 182 days, under rule IX, note (2), of the regulations of 1868.

No. 437.—The undermentioned officers have been granted extensions of furlough by the Right Hon'ble the Secretary of State for India :—

Major A. J. C. Cunningham, R.E., (p. a.) for 183 days.
Captain E. A. Young, Bengal S. C., (m. c.) for two months.
Surgeon-Major R. Jameson, M.D., (p. a.) for one year.

PROMOTIONS.

No. 438.—The following promotions are made, subject to Her Majesty's approval :—

BENGAL STAFF CORPS.

To be Lieutenant-Colonel.

Major Archibald Lewis Playfair,—5th August, 1882.

To be Major.

Captain Jacob Peter Deneys Vanrenen,—8th August, 1882.

BENGAL ARMY.

To be Colonel.

Lieutenant-Colonel William Howey, Infantry,—9th August, 1882.

BREVET.

To be Colonels.

Lieutenant-Colonel John Thornhill Bushby, Bengal S. C.,—10th August, 1882.

Lieutenant-Colonel John James Boswell, C.B., Bengal S. C.,—10th August, 1882.

Lieutenant-Colonel Hardress Edmond Waller, Bengal S. C,—10th August, 1882.

No. 439.—NATIVE ARMY—

23rd Native Infantry.

Jemadar Nehal Sing, to be Subadar, *vice* Nehal Sing, deceased,—28th April, 1882.

Jemadar Dullel Sing, to be Subadar, *vice* Goojur Sing, invalided,—1st May, 1882.

Havildar Nehal Sing, to be Jemadar, *vice* Nehal Sing, promoted,—28th April, 1882.

Havildar Sahib Sing, to be Jemadar, *vice* Dullel Sing, promoted,—1st May, 1882.

PENSIONS.

No. 440.—Honorary Captain and Deputy Commissary George B. Bleazby, Ordnance Department, is transferred to the Pension establishment.

VOLUNTEER CORPS.

No. 441.—His Excellency the Governor General in Council is pleased to sanction the formation of a Volunteer Rifle Corps at Shillong, to be called the "Shillong Volunteer Rifle Corps."

The Corps will be under the Assam Administration.

APPOINTMENTS.

No. 442.—VOLUNTEER CORPS—

Shillong Volunteer Rifle Corps.

Captain and Brevet Lieutenant-Colonel Robert Gosset Woodthorpe, R.E., to be Lieutenant and Commandant.

G. CHESNEY, *Colonel,*
Secretary to the Government of India.

MILITARY (MARINE) DEPARTMENT.

Simla, the 11th August, 1882.

LONDON GAZETTE.

No. 27.—The following extract is published for general information :—

"*Admiralty, 30th June 1882.*

The following promotions have been made from this date:—

Lieutenants

* * *

Llewellyn Styles Dawson

* * *

to be Commanders in Her Majesty's Fleet."

G. CHESNEY, *Colonel,*
Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Simla, the 7th August 1882.

No. 184.—The services of the undermentioned Officers of Royal Engineers are placed at the disposal of the Military Department for service with the Egyptian Expeditionary Force :—

Colonel J. Browne, C.S.I., Executive Engineer, 1st Grade, Punjab.

Lieutenant J. Burn-Murdoch, Assistant Engineer, 1st Grade, Railway Branch.

The 8th August 1882.

No. 185.—The following officiating promotions in the classes of Superintending Engineers are made, with effect from the 30th July 1882 :—

Mr. J. C. Vertannes, Superintending Engineer, Class II, temporary rank, to Superintending Engineer, Class I.

Mr. H. F. Storey, Superintending Engineer, Class III, temporary rank, to Superintending Engineer, Class II.

No. 186.—*Corrigendum.*—In Public Works Department Notification No. 178, dated 19th July 1882, for "*Major* H. Johnson" read "*Mr.* H. Johnson."

The 10th August 1882.

No. 188.—The Government of India has no further need of the services of Mr. G. Innes, Assistant Examiner, Public Works Accounts.

TELEGRAPH.

The 8th August 1882.

No. 187.—The Governor General in Council is pleased to order the following addition to No. 47 of the Rules for Inland Telegraph Messages :—

"Application may be made, as above, by an interested party, for the preservation of specified telegrams exchanged between other persons on the ground of pending or contemplated judicial proceedings. Such telegrams will be preserved for a further period of six months, at the expiration of which they will, in default of a renewed application, be destroyed.

"Should the particulars furnished be insufficient to enable the *Check Office* to trace the telegrams at once, the estimated cost of the required search must be deposited by the applicant. It must be understood that the duty of the Telegraph Department in the matter is confined to making the search and preserving the telegrams if found. No information as to the result of the search will be furnished, and any telegrams answering the description given which may be found will only be produced on the order of a competent court of law or other competent authority."

W. S. TREVOR, *Colonel, R.E.,*
Secy. to the Govt. of India.

The Gazette of India.

PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, AUGUST 12, 1882.

☞ Separate paging is given to this Part in order that it may be filed as a separate compilation.

PART II.

Notifications by High Court, Comptroller General, &c.

GAZETTE OF INDIA.

NOTICE.

The 11th March 1882.

From the 8th April next, till further notice, Parts I, IV, and V of the *Gazette of India*, and the Weather and Crop Report, will be published at Simla. After the 1st April, all Notifications and other matter intended for publication in those Parts, should be addressed to the Officiating Publisher at that station.

Parts II and III and the Supplement will continue to be published in Calcutta.

Parts IV and V of the *Gazette of India*, containing the Acts and Bills of the Legislative Council, may be subscribed for separately from the other Parts of the Gazette. The annual subscription for the two Parts is Rs. 5 per annum, payable in advance. When sent by post, Rs. 2-8 per annum additional will be charged for postage. For the current year these Parts are available from 1st May only, the back numbers being out of print.

Complaints regarding non-receipt of any number of the *Gazette* should be forwarded within a week after the day on which it is due.

Applications for the supply of the *Gazette* on the *public service* should be addressed to the Home Department.

By an order of Government, all subscriptions must be paid *in advance*.

	Rs.	A.	P.
Subscription for *Gazette* and Supplement per annum	15	0	0

HENRY F. BLANFORD,
Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
" MADRAS SERIES ...	" 8	" 9
" BOMBAY SERIES ...	" 8	" 9
" ALLAHABAD SERIES	" 8	" 9
Complete set... ...	" 45	" 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

For a Part of the CALCUTTA SERIES ...	Rs.	3	8
" " MADRAS SERIES ...	"	1	0
" " BOMBAY SERIES ...	"	1	0
" " ALLAHABAD SERIES.	"	1	0
Complete set	"	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA ;
MESSRS. THACKER AND CO., BOMBAY ;
MESSRS. HIGGINBOTHAM AND CO., MADRAS ;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY ;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at Rs. 375 a set.

Charts, &c., issued at the Marine Survey Department, Calcutta, by order of the Government of India, and sold at the Office of the Marine Survey Department, 4-4 Loudon's Buildings, Hastings Street, Calcutta, where Admiralty Charts can also be obtained.

☞ **All Charts are corrected up to the date of issue.**

D. M. BARBOUR,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 8th AUGUST 1882.

GENERAL REMARKS.—The very heavy rainfall in the extreme south-west of the Madras Presidency and in Coorg has somewhat diminished, although still heavy. In other parts of the Madras Presidency it has continued to be light, except in Ganjam. In Mysore rain fell in varying quantities in all districts. In the Nizam's Territories only light showers occurred. In Berar the rainfall was good. In the Bombay Presidency it was good in some districts and deficient in a few. In the Central Provinces it was generally fair, though heavy in some districts.

In Central India and Rajputana the rainfall was good in some States, light in others, and a break occurred in a few States. In the Punjab there was rain in all but four districts, light, except in Amritsar. In the North-Western Provinces and Oudh good rain fell everywhere, excepting one or two districts. From Bengal rain in varying quantities is reported from all districts. In Assam and British Burma good rain fell in all districts, except Prome.

Agricultural prospects are favourable in both these Provinces; ploughing, sowing, and transplanting are progressing. In Bengal more rain would be beneficial in many parts for autumn crops and the winter rice. In the North-Western Provinces and Oudh the prospects of the *kharif* crops are generally favourable, but here also more rain is needed in some districts. In the Punjab sowings have been completed or nearly so, and prospects are good here as well as in the Rajputana and Central India States. In the Central Provinces a break in the wet weather is still needed for weeding operations in some districts; prospects of the *kharif* crops are favourable.

In the Bombay Presidency sowings have mostly been completed, and rice is being transplanted in some parts; more rain seems wanted in the Deccan. In Berar the cotton and *kharif* crops are in good condition. In the Nizam's Territories also crops are in good condition, but more rain is needed. In Mysore wet cultivation in some parts requires more water, while in others excessive rain has done some damage; but on the whole prospects are favourable here and also in Coorg. In the Madras Presidency standing crops are, with a few exceptions, in fair condition.

The barometer had risen in all parts of Northern India and in the central and western parts of the Peninsula up to the 9th instant, but a slight fall set in on the 10th. The break in the rains, however, continues in North-Western India, where dry weather has set in. Atmospheric conditions somewhat resemble those of August 1880.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Aug. 9th)		
Bellary ...	·48 (average of five stations).	Standing crops good, though dry partially withering and worm-eaten; agricultural operations progressing.
Kurnool ...	·24 (average of two stations).	More rain wanted; young crops fading; cattle-disease in parts.
Ganjam ...	3·45 (average of eleven stations).	Standing crops thriving; fever, small-pox, and cattle-disease continue; cholera subsiding.
Kistna ...	·65 (average of twelve stations).	Standing crops along Kistna damaged, others require rain; agricultural operations progressing; small-pox slight and cattle-disease prevalent.
Chingleput (Madras) ...	·51 (average of eight stations).	Standing crops under larger tanks and channels good; agricultural operations going on; cholera and cattle-disease in parts.
Coimbatore ...	·92 (average of six stations).	Standing crops, paddy promising; dry crops damaged in parts by rain; want of rain felt; insects in some places; harvest dry crops, yield average; fever and small-pox in parts; cholera and cattle-disease has broken out in parts.
Tanjore ...	·38 (average of seven stations).	Standing crops generally good but damaged by breaches in seven taluks; cattle-disease in parts of a taluk.
Madura ...	·37 (average of three stations).	Standing crops fair, though withering in one taluk; harvest paddy and dry crops, outturn average; cholera in parts.
Malabar ...	8·12 (average of fourteen stations).	First crop partially destroyed by heavy rain; small-pox, fever, and cattle-disease in parts; cholera slight.
Travancore ...	3·10	Rice cultivation considerably damaged by floods; fever continues. *General Remarks.*—General prospects fair.
Bombay—(Aug. 9th)		
Kurrachee ...	Manora, ·46; Tatta, 1·46; Dadu, ·63.	River at Kotri on 7th, 19¾ feet against 16 feet 1 inch on same date last year; fever in four talukas; 5 cases of small-pox in the vicinity of Tatta; crops submerged in many places; rats doing some damage to rice crops in Jati taluka; wheat, red rice, and *bajri* in Kurrachee 23, 35 and 32, in Sehwan 28, 46 and 46, in Sakro 18 36 and 48, and in Shahbandar 20, 48 and 48 lbs. per rupee, respectively.
Hyderabad ...	Rain in twelve talukas, average 1·30.	River still in high flood; fever in Mirpur taluka; wheat 25, *juari* 45, *bajri* 40, red rice 32, and white rice 22 lbs. per rupee; crops damaged by rats in Bago, Tando and Badin talukas.
Ahmedabad ...	1·40	Total rainfall 27·24; sowing of *bajri*, &c., and transplantation of rice continue in Ahmedabad city; 8 cholera cases, 1 fatal; wheat 26 and *bajri* 30 lbs. per rupee.
Baroda ...	1·01	Total rainfall 30·42; sowing of *kharif* and transplantation of rice continue; young crops doing well generally; cholera at Amreli and Manekwara continues in a mild form; *bajri* 32 and common rice 24 lbs. per British rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Surat ...	·21	Total rainfall 31·91; break continues; crops generally healthy; *juari* 36 and *nagli* 51 lbs. per rupee.
Násik ...	Igatpuri, 7·54; Peint, 4·41; no rain in Baglan or Kalwan; showers elsewhere.	Crops good; *bajri* sowing incomplete in places; locusts in Nandgaon; cattle-disease in a few places; cholera in Násik and Sinnar; wheat 25, *bajri* 38, and rice 25 lbs. per rupee.
Colaba (Bombay) ...	Rain every day; total of week 1·35.	Total rainfall to date 56·45, being 7·36 above average; abnormal temperature *nil* on 2nd, 7th, and 8th, 1° warm on 3rd and 1° cool from 4th to 6th; vapour in air normal; abnormal wind from the south-west on 6th; wind normal on all other days.
Poona ...	.....	Break continues; young crops healthy; 3 cholera cases in Poona, 2 fatal; *bajri* 45 and *juari* 58½ lbs.; in Poona *bajri* 36¾ and *juari* 47¼ lbs. per rupee.
Ahmednagar ...	Newasa, ·53; Karjat, 39; very slight in Nagar, Parner, Jhamkhed, Sheegaon, Sangamner, and Akola; none in the remaining three talukas.	Total average rainfall of the district 11·21; sowing of *kharif* in progress in Jhamkhed, Sheogaon, Sangamner, and Akola and completed in others; rain much wanted; cattle-disease in Nagar, Sheogaon, and Akola; cholera—in Parner 18 attacks and 6 deaths, in Shrigonda 8 attacks and 2 deaths; *bajri*—maximum 66 lbs. in Jhamkhed, minimum 48 in Kopergaon; *juari* maximum 102 lbs. in Jhamkhed, minimum 54 in Kopergaon.
Sholapur ...	·58	Total rainfall 17·64; 109 cholera cases, 48 deaths; rain much needed; cattle-disease in Malsiras taluka; *bajri* 37 lbs. and *juari* 79 lbs. 39 tolas per rupee.
Dharwar	Rain at all stations except Navalgund, Nargund, Ron, and Mundargi; maximum at Dharwar, 1·23; minimum at Rannibennur, ·13.	Rain wanted at Ron, Nargund, and Mundargi; young standing crops good where not damaged by too much rain; *juari* sowing nearly completed; ague in Mugud *petta* and cattle-disease in Bankapur, Hangal, and Ron; maximum and minimum price of *juari* 80 and 54 lbs. and of rice 30 and 18 lbs., respectively; scarcity of drinking-water in Nargund and twelve other villages of the *petta*.
Kanara ...	Karwar, 3·63; Kumpta, 3·68; Sirsi, 2·92; Hallial, 1·36.	Total rainfall 80·35; rice plants healthy except in low lands; crops damaged by heavy rainfall in July in Sirsi, Honawar, and Sidapur talukas; betelnut, cardamum, and pepper crops much injured; land-slips in Sidapur burying Rio betelnut garden in Chapparman; many huts on banks of the Sharavati washed away, no lives lost; cattle-disease subsiding; common rice in Karwar 11 seers, in district average 13¾ seers per rupee.
Rajkot ...	·13	Total rainfall 13·78; weather cloudy; general health fair; crops thriving; cholera in some places; *bajri* 27 and *juari* 32 lbs. per rupee.
		General Remarks.—Sowing mostly completed; transplantation in progress; river high in Sind; breaches in Sukkur and Nara canals submerging villages in Sukkur and Nowshera talukas; rains generally abating in Presidency districts and much wanted in Kaladgi, Ahmednagar, Sholapur, and parts of Dharwar; locusts in Násik and Khandesh; fever and cattle-disease in some districts; cholera in Bélgaum, Satara, Sholapur, Ahmednaga thana, Kaira, and parts of Kathiawar.
Bengal—(Aug. 9th)		
Chittagong ...	6·29	Weather seasonable; rain has done much good to standing crops; cultivation of *amun* going on steadily; prices stationary; cholera and small-pox still continue.
Dacca ...	2·43	Both jute and rice damaged by falling of rivers; health improving since rain fell.
24-Pergunnahs (Calcutta)	1·26	Prospects of jute, early rice, and sugarcane good; cultivation of winter crops going on, but more rain wanted for transplanting of *amun* paddy seedlings; public health generally good; rivers rising.
Moorshedabad ...	2·08	*Bhadoi* being cut, but much loss has been done to low land crops by rise of rivers, especially in thana Dewanserai; prospects of *amun* were becoming unsatisfactory owing to want of rain, but rain which fell on 5th and 6th has done much good, and will enable cultivators to go on with transplanting operations; fever prevails in Gokuru and Rangamati, and cholera in a few places; cattle-disease in Kalyanganj.
Rajshahye ...	·62; Nattore, ·34	Crops suffering for want of sufficient rain; fever general.
Burdwan ...	·38; Cutwa, ·98; Raniganj, 2·5.	Weather hot and cloudy; rain much wanted; public health generally good; a little cholera in head-quarters subdivision.
Rungpore ...	·80	Weather cloudy and hot; transplanting of winter rice stopped for want of rain; prospects of other crops good; public health good.
Bhagálpur ...	2·41	Late rain has revived rice plants, but more required; autumn crops doing well.
Purneah ...	6·8	Recent rain prevented much further damage; transplanting proceeding; health fair; Kosi rising; Ganges high.
Patna ...	·67	Rain wanted everywhere for transplanting rice; prospects of autumn crops fair; cholera still reported from Barrh and Behar sub-divisions.
Durbhunga ...	Copious rain since night of 5th; 6·64.	All prospects greatly improved; *bhadoi* safe; rice cultivation going on well; cholera in places; prices falling slightly.
Hazáribágh ...	·88	Weather seasonable; *bhadoi* crops look well; transplanting of paddy continues, but more rain wanted; general health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*contd.*		
Cuttack ...	3·17	Rivers still high; state of crops good; cholera still reported.
		General Remarks.—General prospects in these provinces not very satisfactory owing to scanty rainfall; cultivation of *amun* rice for the most part greatly interfered with, save in Orissa and parts of Chota Nagpur where there has been sufficient rain, and in Durbhunga, Purneah, Chittagong and a few other districts where good rain fell during the week; more rain is also urgently required for autumn crops in many places; fever has appeared in some districts, it is said to be increasing in Nuddea; cases of cholera still reported from some districts.
N. W. Provinces and Oudh—		
Benares (Aug. 8th)	1·20; Chandauli, 2·70; Gungapore, no report received.	Prospects for *rabi* crops generally fair, but in Benares district more rain wanted for transplanting late rice; health of cattle good; some cholera still reported in city, pargana Dehát Amánat, and parts of tahsil Chandauli; fever in Chandauli tahsil; bazaars fairly well supplied; prices steady.
Allahabad („ „)	Little rain	Rain much wanted now both for rising crops and for *bajri* sowings; rice specially requires rain; some sporadic cholera, but not spreading; health on whole good for this season, considering long break in rains; prices falling slightly.
Gorakhpur („ „)	Good rain on 6th all over district.	Rice gone in parts, but the greater part will be saved; health good; prices still rising.
Jhánsi („ „)	Average 3·40	A break of four days in three parganas has benefited crops in *mar* soil; continuous fine weather greatly wanted; uplands being prepared for *rabi* sowing; prices fluctuating; cholera continues in Gursarai, a few cases also reported from two other villages.
Agra („ „)	Rain in six parganas from 2·0 to 1·10.	Some crops slightly damaged in two parganas from excessive rain; a break during week, which was much needed; slight fever in six parganas; cholera abating in Ferozabad; general health good; prices stationary.
Bareilly („ „)	Average 1·70	Weather seasonable; crops excellent; cholera and fever appearing.
Meerut („ „)	Very little rain, more wanted.	Wind westerly greater part of week; rice being irrigated; health good, but fever commencing; crops flourishing; supplies sufficient; prices stationary.
Kumaun („ „)	Good rain on 5th and 6th.	Crop prospects excellent; 10 more deaths from *mahamari*; health good; cattle-disease decreasing; prices decreasing.
Rae Bareli („ 7th)	Sadr, 2·10; Dalman, 5·0; Digbijaiganj, 1·0; Salon, 1·10.	*Kharif* crops promising; cholera still hanging about; some cattle-disease in tahsil Dalman; prices slightly falling.
Lucknow („ 8th)	Sadr, 2·70; Maliabad, 1·20; Mohanlalganj, 1·10.	*Kharif* prospects favourable; weeding going on; more rain wanted for rice crops; prices steady; cholera increasing in district and city.
Partabgarh („ „)	Good rain, 1·45 at Sadr; Ratti, 2·80.	Prospects much improved; general health good; slight cholera at Ratti.
Cawnpore („ „)	Average over 1·30	Weather clear again; crops flourishing; weeding operations in progress; cholera continues in three parganas; prices slightly risen.
Sitapur („ „)	Sidhauli, 2·30; Misrikh, 1·80.	Rain has greatly benefited the crops; Sitapur and Biswan still much need rain; cholera increasing; slight cattle-disease in two tahsils; supplies sufficient. * * * *
Farukhabad („ „)	General rain throughout the district.	More rain required; prices steady; markets well supplied; a few cases of cholera reported from Aligarh, otherwise health good.
Fyzabad („ „)	3·10	Prospects favourable; a little cholera still continues in city and district; cattle-disease in tahsil Akbarpur.
		General Remarks.—Good rain throughout the province, but more is still required in Benares, Allahabad, Sitapur, Farukhabad, and Meerut; *kharif* prospects generally favourable; prices rising slightly in Gorakhpur, Cawnpore, and Saharanpur, elsewhere stationary or falling; cholera continues, and slight fever has appeared in Meerut and Bareilly; cattle-disease continues in Oudh, but is decreasing in Kumaun.
Punjab—(Aug. 8th)		
Delhi ...	1·50	*Kharif* prospects good; health good; slight rise in prices of wheat and gram.
Hissar ...	No rain	*Kharif* sowings continue; health good; prices steady.
Umballa ...	0·20	*Kharif* sowings nearly finished; health good; prices stationary.
Jullundur ...	No rain	Health good; prices steady.
Amritsar ...	4·40	*Kharif* sowings continue; health good; prices steady.
Sialkot ...	0·50	Health good; prices stationary.
Lahore ...	0·50	Health good; prices stationary.
Ferozepore ...	1·80	*Kharif* sowings finished; health good; prices steady.
Mooltan ...	No rain	*Kharif* crops good; health good; prices steady.
Rawalpindi ...	1·50	Rinderpest in Rawalpindi tahsil and measles in Pindigheb nearly disappeared; *kharif* crops good; prices steady.
Dera Ismail Khan ...	0·30	*Kharif* prospects good; health good; prices steady.
Peshawar ...	No rain reported	*Kharif* sowings completed; health fair; prices stationary.
		General Remarks.—Rain has fallen in the Delhi, Amritsar, Sialkot, Lahore, Ferozepore, Rawalpindi, and Dera Ismail Khan districts; rinderpest in Rawalpindi tahsil and measles in Pindigheb have nearly disappeared; health good; prices steady.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces—		
Nagpur (Aug. 9th)	·11	Weeding operations being vigorously prosecuted; cholera spreading in district; prices steady.
Jubbulpore („ 8th)	3·72	Crops suffering from rain; break needed; cholera abating; small-pox prevalent; prices stationary.
Saugor („ 7th)	9·12	Break wanted; slight damage to crops; cholera reported; prices show a tendency to rise.
Seoni („ 8th)	1·50	Weather cloudy; weeding and ploughing progressing; cholera increasing; cattle-disease declining; isolated cases of small-pox; prices stationary.
Khandwa („ „)	1·8, showery	Weeding operations progressing; small-pox reported; wheat 14 seers per rupee.
Hoshangabad („ „)	3·99	Break needed; cholera and small-pox reported; wheat 15 seers per rupee.
Raipur („ 5th)	1·49, slight showers	Weather cloudy; weeding operations going on; crops doing well; fever prevalent; few cases cholera; prices rising; rice 31 seers per rupee.
Sambalpur („ 3rd)	2·43, occasional showers.	Weather close; prospects of crops good; fever slightly prevalent; rice 56 seers per rupee.
		General Remarks.—Weather cloudy, with slight showers; in some districts heavy rain; break much needed for weeding operations; prospects of *kharif* crops favourable; cholera still reported; prices continue stationary.
British Burma—(Aug. 9th)		
Akyab ...	13·81	Total rainfall 148·89; cholera in township; 10 deaths from small-pox in one township, otherwise public health good; cattle-disease severe in one township; sowings nearly completed.
Rangoon ...	6·33	Total rainfall 50·35; seven fatal cases of cholera, otherwise public health good; ploughing completed; crops sown; progress favourable.
Bassein ...	6·79	Total rainfall 74·18; several deaths from cholera in one township, otherwise public health good; cattle-disease prevalent in two townships; ploughing and planting out progressing.
Prome ...	1·77	Total rainfall 22·85; cholera still sporadic in district, but no heavy outbreaks reported; 3 deaths in Prome town; cattle-disease still about; late rains have done much good, and ploughing is reported as progressing; one township still suffering from want of rain.
Amherst (Moulmein) ...	13·51	Total rainfall 126·59; cholera in one township, otherwise public health good both in Moulmein and district; cattle-disease reported in three townships; sowings still progressing.
Toungoo ...	3·94	Total rainfall 50·41; public health good; some cattle-disease in one township.
		General Remarks.—Cholera in Akyab, Tharrawaddy, Prome, and Thyetmyo, and several cases in a few other districts, otherwise public health good; cattle-disease continues; more rain in Prome and Thyetmyo, but not yet enough for all parts of those districts; cultivation prevented in portions of Thonegwa by floods and excessively high tides; agricultural operations generally going on well.
Assam—(Aug. 9th)		
Gauhati ...	8·13	Transplanting operations which were at a standstill recommenced; public health fair; cattle-disease reported from interior.
Sylhet ...	7·83; rain general	Great efforts being made to make up for lost time; some kinds of *aus* paddy being harvested; nip has appeared in tea.
Cachar ...	3·43	Weather cloudy; prospects of tea, *dumahi*, and *murali* crops satisfactory; transplanting *sali* crop continues; common rice 25¾ seers per rupee; public health good; death of 6 cows by cattle-disease reported from Lakhimpur.
Dibrugarh ...	3·79	Weather hot; harvesting *aus* paddy; more rain wanted for transplanting of *sali* crop; district healthy.
Mysore and Coorg—(Aug. 2nd)		
Bangalore ...	2·33	Standing crops in good condition; sowing of *ragi*, *dhal* and *bollar* continues; prospects of season fair; public health good.
Mysore ...	·69	Crops in good condition; health good.
		General Remarks.—Rain has fallen copiously in the Kolar, Anumkur, Shooga, and Kadur districts, moderately elsewhere; standing crops generally in good condition in parts of the Hassan and Shimoga districts; crops somewhat injured from excessive rain; sowing operation in active progress; prospects very good; fever, dysentery, and diarrhœa prevalent in parts; prices stationary.
Mysore and Coorg—(Aug. 9th)		
Bangalore ...	1·38	Standing crops are thriving; prospects favourable.
Mysore ...	·93	Crops flourishing.
Mercara ...	9·66	Rain continues; fair weather needed; rice being transplanted; *ragi* doing well; public health and prospects of season good; prices stationary.
		General Remarks.—Rain continues to fall generally throughout the Mysore State; wet cultivation in some parts requires more water, while at others excessive rain has done some damage and is retarding the transplanting of seedlings; in Kolar the rain has been scanty; crops generally in good condition and prospects are favourable; small-pox, fever, and murrain prevail in many places; prices satisfactory.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Berar & Hyderabad—(Aug. 9th)		
Amráoti ...	1·35	Cotton and *kharif* crops in good condition; prices—wheat 11 and *juari* 30 seers per rupee.
Akola ...	1·72	*Kharif* crops promising; weeding begun
Hyderabad ...	·20	*Kharif* crops in good condition; *rabi* sowings postponed on account of breaks in weather; prices—wheat 16, common rice 10¼, white *juari* 25¼, jellow *juari* 30, and *tur* 26 seers per current sicca rupee.
Central India States—(Aug 9th)		
Indore ...	·28	There has been a very seasonable break which has revived agricultural prospects for the *kharif*; prices are steady; health good.
Morar (Gwalior) ...	·22	Health and prospects good.
Sutna ...	1·0	
Rutlam ...	.....	No report received.
Neemuch ...	2·98	Health good; crops thriving.
Goona ...	2·45	Health good; prospects fair.
Bhopal ..	4·5; light continuous rain.	Prospects good; some cholera exists.
Agar ...	No rain	Prospects good; cholera at Sitaman.
Nowgong ...	4·92	Health and prospects good; prices stationary.
Manpur ...	1·0	*Juari* and *makka* crops estimated at 8 annas in the rupee; health good; prices unchanged.
Rajputana—		
Abu (Aug. 9th)	3·70	High variable winds; weather cloudy.
Sirohi („ 6th)	1·60	Tanks, wells, health, and prospects good
Marwar („ 4th)	1·73	Four months' water in tanks by recent rains; health good; rising crops excellent; prices falling slowly; weather still cloudy.
Meywar („ 5th)	1·41	Tanks and wells good; health fair; prospects favourable
Harowti („ „)	Deoli, 1·87; Tonk, 1·66.	Cholera still prevalent at Tonk, otherwise health fair; prospects favourable.
Jhallawar („ 2nd)	1·88	Violent thunderstorms; health good.
Ajmere („ 8th)	.....	Break in weather continues; cholera disappearing, but slight small-pox in Beawar and Todghur; cattle-disease has appeared in last two tahsils; sowing continues.
Jeypore („ „)	0·13	Prices steady; cholera is slightly on the increase in the city.
Bhurtpore .	.....	No report received.
Ulwur (Aug. 8th)	.....	Break in rain would have been more beneficial but for strong west-south-west winds; fever and a few cases of cholera reported; prices—wheat, barley, and gram slightly rising, and *bajra* and *juar* steady.
Nepal—		
Katmandu (Aug. 3rd)	1·68	Hot and oppressive weather for the past week; the prospects of the rice crop are so far good.

E. C. BUCK,
Secy. to the Govt. of India.

Circular No. 32Ex.

Extract from the Proceedings of the Government of India, in the Revenue and Agricultural Department (Exhibitions),—dated Simla, the 28th July 1882.

READ—

Report on the Melbourne International Exhibition of 1881, by James Inglis, Esq., Executive Commissioner of India.

Read also—

Note by E. C. Buck, Esq., President, Melbourne Exhibition Committee.

RESOLUTION.

THE papers cited above describe the share taken by the Government of India in the Melbourne Exhibition of 1880, and the efforts made in connection with this event to establish closer trade relations between India and Australia. They also contain an interesting account of the commercial wants and resources of the latter country, from which the probabilities in favour of a more extensive trade with India may be estimated.

2. The Melbourne Exhibition, as the Report points out, was the first one in which the Government of India took part with the distinct purpose of turning it to practical use. In this connection it is important to note the difference between the functions discharged at such industrial gatherings by

the Government of India and by the Governments of European countries. A European Government may take part in an Exhibition with very little expense and trouble. It may depute an officer to represent it and to arrange the court, but it has little or no concern with the articles exhibited. Private enterprise does all the rest, as the commercial value of an Exhibition is fully recognised among all trades and industries. On the Government of India, however, the whole weight of an Exhibition, from purchasing the exhibits in India to finally disposing of them, falls. Private trade, if left to itself, would do nothing. It results from this that, if the arts and industries of India are to be worthily represented at a foreign Exhibition, the Government of India is put to much greater expense and trouble than the case often justifies.

3. The inertness of Indian trade, the desirability of finding new outlets for it, and the inordinate expense involved in exhibiting its capacities to foreign nations suggested the line of action adopted at the Melbourne Exhibition. It is unnecessary to recapitulate Mr. Inglis' account of the measures taken in Calcutta and Melbourne by the representatives of the Indian Government to draw the two countries together, and excite a mutual interest in their respective capabilities. The establishment of the Tea Syndicate through the agency of the Calcutta Chamber of Commerce was one of the happiest incidents, and the trade organisation thus formed is not unlikely to have a very important effect on the future development of Indo-Australian commerce. A large market for Indian teas has been opened in Australia, and this will lead to the closer commercial relations and improved communications which the report shows to be required.

4. The net expenditure by the Government of India amounted to nearly Rs. 37,000, exclusive of the Rs. 10,000 placed at the disposal of the Tea Syndicate. To the Government exhibits were added the articles contributed by private Indian firms, and a collection of Indian jewelry sent for sale under a Government guarantee. The aggregate value, however, was insignificant in the comparison with the wealth displayed by other countries. The articles exhibited by English firms were valued at three-quarters of a million sterling, while Germany sent upwards of £60,000 worth of jewelry alone. The sales of Indian articles appear from the report to have been small. The probable explanation is to be found in the comparatively high prices asked for Indian art-ware, and in the obvious defects of Indian manufactures. The universal complaint of "want of finish" is noteworthy. It applies equally to the texture of tasar cloths, to the packing and preparation of Indian teas, and to the "drums" in which Indian oils find their way to the Australian market. These defects it is beyond the power of Government to remove, and they constitute a real obstacle to the export of Indian manufacture and raw products even under the most favourable conditions.

5. The prospects of a reciprocal trade between India and Australia are fully summarised in the report. In addition to the tea, jute and rice trades, there appears to be a growing demand in Australia for Indian coffee, spices, oils, and cotton goods. Australia on her side can offer copper, horses, hops, wool, fruit, dairy produce and flour, and possibly ghí. The elements of a very extensive trade can hardly be said even to exist at present, but the increased activity it has shown since the Melbourne Exhibition justifies the action taken by the Indian Government, and encourages the hope that with increased mutual knowledge and more direct steam communication the commercial intercourse between the two countries will improve.

6. The remarks prefixed by Mr. Buck to Mr. Inglis' report are mainly confined to practical suggestions for the management of future Exhibitions, so far as India is concerned. The Government of India concurs in the general tendency of these suggestions, and will see that the experience acquired at Melbourne is not lost. The Government of India also desires to express its fullest acquiescence in the principle stated in paragraph 15 of Mr. Buck's memorandum. The peculiar difficulties which the Government of a backward country like India have to encounter in taking part in a foreign Exhibition, and the disproportionate expenditure involved, have already been mentioned. It is incumbent on the Government of India, should it decide on appearing at any other Exhibitions, to turn the opportunity to practical ends similar to those aimed at at the Melbourne Exhibition.

The thanks of the Government of India are due to Mr. J. Inglis, the Indian Commissioner at Melbourne, for his interesting and valuable report, and for the energy with which he has performed his arduous and important duties; also to Mr. E. C. Buck and to Mr. J. E. O'Conor, the officers who were selected to represent this Government in Australia—the former of whom, with praiseworthy zeal, devoted a great portion of his furlough to furthering the interests of the Indian Section of the Exhibition. The Government of India also desires to commend the services of Messrs. H. H. Locke, J. L. Kipling, C. Browning, the officers who superintended the collection of exhibits in the several Provinces. The kind assistance given by Sir Herbert Sandford, the representative of Great Britain, to the representatives of this country will be acknowledged through the Secretary of State.

ORDER.—Ordered, that a copy of this Resolution be printed and distributed with the Report on the Melbourne Exhibition, and published in the *Gazette of India* for general information.

T. W. HOLDERNESS,

Offg. Under Secretary to the Government of India.

FINANCIAL, INDIA OFFICE,
No. 210. *London, 6th July 1882.*

To His Excellency the Most Hon'ble the Governor General of India in Council.

MY LORD MARQUIS,—

PARA. 1. I have considered in Council your letter, dated the 8th of May, No. 123, referring, for my consideration, an application from A. B., praying that he may be allowed to commute a portion of the pension to which he will be entitled on retirement from the Covenanted Civil Service.

2. With reference to the observation of the Government of the North-Western Provinces and

Oudh, that the concession asked for by A. B. would, if conceded generally, be a decided boon to the Service at large, without being in any way prejudicial to the interests of the State, you express considerable doubt whether the main object of the Indian pension system might not be defeated by the grant of such a concession generally. At the same time you believe that such a measure, if restricted to individual officers, would tend to remove a special block in promotion in certain places.

3. You therefore request that, in cases in which you may consider that the retirement of officers of the Covenanted Civil Service would have the effect of removing a block in promotion, you may be permitted to allow such officers to commute the whole, or any part, of the £400 of their annuities in excess of the £600 which was supposed to represent the pension formerly given from the Annuity Funds. You propose to require the usual medical certificate in every case, and to calculate the capital value of the sum commuted by Table C on page 130 of the Codes of the Financial Department.

4. It has not hitherto been the practice to give to civil annuitants the option of commuting any portion of their annuities, partly on the ground that they were able by assigning them to practically effect commutation without the intervention of Government. The terms so obtained are necessarily less favourable than those allowed by this office, and, for this reason, the commutation of a portion of an annuity was recently allowed in one case. I do not, however, desire that this practice should become general.

5. But I see no objection to your proposal, which is accordingly approved, subject to the condition that, in every case, the capitalised sum will be paid in India, the annuity being taken at the rate fixed for its payment in that country.

6. It will rest with your Government to decide whether A. B.'s case is one of those in which the privilege of commutation should be conceded.

I have, &c.,
(Sd.) HARTINGTON.

No. 123. *Simla, 8th May 1882.*

To Her Majesty's Secretary of State for India.

MY LORD MARQUIS,—

We have the honour to refer, for Your Lordship's consideration, an application from A. B., praying that he may be allowed to commute a portion of the pension to which he will be entitled on retirement from the Covenanted Civil Service.

2. In submitting A. B.'s application, the Government of the North-Western Provinces and Oudh remarks that the concession asked for would, if granted generally, be a decided boon to the service at large without being in any way prejudicial to the interests of the State. We beg to observe, however, that we have considerable doubts as to the wisdom of allowing commutatron of pensions generally. The main object of the Indian pension system might thereby be defeated. But at the same time we believe that such a measure, if restricted to individual officers, would tend to remove a special block in promotion in certain places. Commutation of pension within certain limits was a part of the remedy applied under the recent arrangements in removing the block in promotion in the North-Western Provinces and elsewhere.

3. Accordingly, we ask Your Lordship's permission to allow officers of the Covenanted Civil Service to commute a portion of their pension in cases in which we may consider that the retirement of the officers will have the effect of removing a block in promotion. The portion of the pension which we would allow to be commuted would be the whole or any part of the £400 in excess of the £600 which was supposed to represent the pension formerly given from the Annuity Funds. A certificate as to the normal prospects of life will be required in every case, and the value of the annuity would be calculated by Table C on page 130 of the Codes of the Financial Department.

The 18th August 1882.

No. 3219.—The following addendum to the Codes of the Financial Department is published for general information:—

C. P. C.

Secretary to the Government of India.

PUBLIC WORKS DEPARTMENT.

NOTIFICATIONS.

Simla, the 16th August 1882.

No. 189.—*Erratum.*—In Public Works Department Notification No. 113, dated 26th April 1882,

appointing certain passed students of the Thomason Civil Engineering College to the Public Works Department, for *Mr. S. Atkin* read *Mr. S. Athim.*

The 18th August 1882.

No. 191.—With reference to Public Works Department Notification No. 383, dated the 6th December 1881, Major G. R. Gibbs, s.c., Executive Engineer, 1st Grade, continued to officiate as Assistant Secretary to the Government of India, Public Works Department, Civil Works Branch, from the forenoon of the 9th February 1882 to the forenoon of the 9th May 1882, from which date his services were replaced at the disposal of the Agent to the Governor General for Central India.

TELEGRAPH.

The 17th August 1882.

No. 190.—The Governor General in Council is pleased to order that the following additions and modifications be made to Rules Nos. 37, 41, and 42 of the Rules and Rates for Inland Telegrams:—

Add as footnote to Rule 37—

"The sender of a State message addressed to a Government official may not prepay a reply; and in the case of a State message addressed to other than a Government official, any sum deposited by the sender under this rule must be intended for no other purpose than to cover the *cost* of a return telegram."

For the present Rules 41 and 42 substitute the following:—

"*Rule 41.*—No refund will, under any circumstances, be made for a State message of any class, or for a 'local' or 'deferred' private message; and no refund will be made for an 'ordinary' or 'urgent' private message and delivered wholly or partially in an unintelligible state, unless the extra charge for repetition has been paid by the sender."

"*Rule 42.*—If an 'ordinary' or 'urgent' private message be not delivered, or be subjected to serious delay through the fault of the Telegraph Department, the whole charge made for it will be returned to the sender."

CHIEF COMMISSIONER OF COORG.

NOTIFICATIONS.

Bangalore, the 7th August 1882.

No. 17.—The Chief Commissioner of Coorg, in exercise of the powers conferred by Sections 82

and 83 of "The Indian Christian Marriage Act No. XV of 1872," hereby fixes the following scale of fees to be charged under the aforesaid Act, and makes the following rules in regard to the disposal of such fees, the supply of register books, and the preparation and submission of returns of marriages solemnized under the aforesaid Act, and the form of the register book of marriages certified under Part VI of the same Act:—

Scale of Fees.

	Rs.	A.	P.
1. For receiving each notice of marriage	1	0	0
2. For publishing each notice of marriage	2	0	0
3. For the issuing of each certificate of marriage by a Marriage Registrar	3	0	0
4. For registering each marriage by a Marriage Registrar ...	2	0	0
5. For entering each protest against or prohibition of the issue of a marriage certificate by a Marriage Registrar ...	10	0	0
6. For searching marriage register books or certificates or duplicates or copies thereof for a period of not more than one year; or in the case of a search of the register books or certificates prescribed under Sections 37, 61 and 62, for a period not exceeding two years	1	0	0
7. For every additional year ...	0	4	0
8. For granting a copy of any entry in marriage register books or certificates or duplicates or copies thereof under Sections 63 and 79 ...	1	0	0

II.—Rules.

1. Fees levied by the Marriage Registrar must, until further notice, be paid into the Government Treasury, and shall be credited to Provincial Services, or in such other manner as may be directed by the Chief Commissioner of Coorg.
2. The Marriage Registrar is authorized to remit any portion, not exceeding three-fourths, of the fees in cases where he considers the parties unable to pay such fees in full.
3. The register book, prescribed in Section 62, shall be kept in the form given in the fourth schedule of the Indian Christian Marriage Act, 1872.
4. The headings of the register book prescribed by Section 62 should be in Canarese, the language of the district, with an English translation, but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. True extracts from this register book shall be deposited in the Office of the Chief Commissioner of Coorg.
5. Applications for supply of register books and of forms of certificate should be forwarded for the sanction of the Chief Commissioner of Coorg.

The 11th August 1882.

No. 18.—Under the provisions of Section 8, Act XXVI of 1870 (The Prisons Act), Surgeon-Major John North is appointed to be Superintendent of the Mercara Jail, *vice* Surgeon James Scot Dill, deceased, and assumed charge on the forenoon of the 2nd instant.

Surgeon-Major North also assumed charge of the Civil Dispensary and Civil Station of Mercara on the forenoon of the same date.

By Order,

H. WYLIE, *Major,*

Secretary to the Chief Commr. of Coorg.

TREASURE TROVE.

It is hereby notified, under Section 5 of the Indian Treasure Trove Act (VI of 1878), that on the 14th May last, treasure, consisting of 36 gold beads valued at Rs. 17, were found hidden in the bed of Marudur Nattuvoikal in the limits of Kulittalai village, Kulittalai Taluq, Trichinopoly District, while the channel was being cleared of its silt.

All persons claiming the said treasure, or any part thereof, are hereby required to appear personally or by agent before the Collector of Trichinopoly at his Office, on Monday, the 4th December 1882, in order to the matter being enquired into and determined in accordance with the provisions of the Act.

HENRY SEWELL,

Collector.

TREASURE TROVE.

It is hereby notified, under Section 5 of the Indian Treasure Trove Act (VI of 1878), that, on the 4th day of June 1882, 24 "Dasarikattu" rupees (old coins) were found buried in the high land east of the village Ravipalli, in the Palkonda Taluq, Vizagapatam District, in the Presidency of Fort St. George.

All persons claiming the treasure, or any part thereof, are required to appear and substantiate their claim either personally or by an agent, before the Collector of Vizagapatam, on or before the 15th December 1882.

———,
Acting Collector.

HENRY F. BLANFORD,

Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set:

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
" MADRAS SERIES ...	" 8	" 9
" BOMBAY SERIES ...	" 8	" 9
" ALLAHABAD SERIES	" 8	" 9
Complete set... ...	" 45	" 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

For a Part of the CALCUTTA SERIES ...	Rs.	3	8
" " MADRAS SERIES ...	"	1	0
" " BOMBAY SERIES ...	"	1	0
" " ALLAHABAD SERIES.	"	1	0
Complete set	"	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

THE BENGAL LAW REPORTS.

A few sets of the Bengal Law Reports (Volumes 1 to 15) are available at Messrs. Thacker, Spink & Co., Calcutta, at Rs. 375 a set.

17. Power to define limits of towns.
18. Power to make rules.

FIRST SCHEDULE.—FORM OF LICENSE.

SECOND SCHEDULE.—REPORT OF ENGINEER.

THIRD SCHEDULE.—FORM OF LICENSE TO BE ENDORSED ON REPORT OF ENGINEER.

An Act to provide for the inspection of Steam-boilers and Prime-movers attached thereto in British Burma.

Preamble.

WHEREAS it is expedient to provide in British Burma for the inspection of steam-boilers and prime-movers attached thereto, and for the management of the same by competent engineers; It is hereby enacted as follows :—

Short title.

1. *(1)* This Act may be called the Burma Steam-boilers and Prime-movers Act, 1882.

Commencement.

(2) It shall, except where it is otherwise expressed, come into force on such day as the Chief Commissioner of British Burma, with the previous sanction of the Governor General in Council, may, by notification in the *British Burma Gazette*, direct.

Local extent.

(3) It extends in the first instance only to the towns of Rangoon, Maulmain, Akyab and Bassein; but the Chief Commissioner may, from time to time, by notification in the *British Burma Gazette*, extend it, from such date as may be specified in the notification, to any other local area in the territories administered by him.

Savings.

(4) Nothing in this Act shall apply to any locomotive engine used on a railway, or to any engine on board of a ship, launch or boat.

Definitions.

2. In this Act, unless there is something repugnant in the subject or context,—

"boiler" includes any vessel used for generating steam under pressure:

"boiler":

"prime-mover" includes any steam-engine, and a fly-wheel, first driving shaft or pulley when attached to any such engine:

"prime-mover":

"owner" includes also any person using any boiler or prime-mover as agent of the owner thereof, and any person using a boiler or prime-mover which he has hired from the owner thereof:

"owner":

"Inspector" means a person appointed under this Act to be an Inspector.

"Inspector."

Appointment of Inspectors.

3. *(1)* The Chief Commissioner may, at any time after the passing of this Act, and from time to time, appoint such persons to be Inspectors as he thinks fit, and suspend or remove any person so appointed.

(2) The persons so appointed shall, within such local area as the Chief Commissioner may, from time to time, direct, exercise the powers and perform the duties conferred and imposed by or under this Act on an Inspector.

Examination of, and grant of certificates to, engineers.

4. The Chief Commissioner may, at any time after the passing of this Act, and from time to time, make rules regulating the examination of, and the grant (with or without examination) of certificates to, persons to act as engineers of the first or second class under this Act, and the cancellation of certificates so granted.

Use of boiler or prime-mover without license prohibited.

5. *(1)* After such day as the Chief Commissioner may, by notification in the *British Burma Gazette*, fix in this behalf, a boiler or prime-mover shall not be used unless a license authorizing its use has been granted under this Act and is in force.

(2) Such a license shall not be granted in respect of a boiler or prime-mover unless it is in charge of an engineer to whom a certificate has been granted in accordance with the rules made under section four, and its condition has been ascertained as hereinafter provided.

On notice from owner, Inspector to examine boiler or prime-mover.

6. *(1)* When the owner of a boiler or prime-mover desires to obtain a license in respect thereof, he shall give notice of his intention to use the boiler or prime-mover to the Inspector for the local area within which it is situate.

(2) On receipt of the notice, the Inspector shall appoint a day and time, after sunrise and before sunset, for the inspection of the boiler or prime-mover. The day so appointed shall be a day, if the boiler or prime-mover is situate in the town of Rangoon, Maulmain, Akyab or Bassein, not later than seven days, and if it is situate elsewhere, not later than thirty days, from the day on which the notice is received.

(3) On the day and at the time so appointed, the Inspector shall carefully examine the boiler or prime-mover, and every part thereof; and the owner or person in charge thereof shall afford to the Inspector all reasonable facilities for the examination and all such information regarding the boiler or prime-mover as he may reasonably require.

Inspector may require owner to alter boiler or prime-mover.

7. If, on making the examination under section six, the Inspector is of opinion that the boiler or prime-mover requires any alteration or addition, he shall refuse to grant a license until the alteration or addition is made, and shall serve on the owner of the boiler or prime-mover a written notice of his refusal, specifying the alteration or addition which, in his opinion, is required.

When Inspector to grant license.

8. When the Inspector is satisfied—

(*a*) that the boiler or prime-mover is in good condition, and not so exposed as to be likely to be dangerous, and

(*b*) that the boiler or prime-mover is in charge of an engineer to whom a certificate has been granted in accordance with the rules made under section four,

he shall give to the owner thereof a written license, signed by him, in the form prescribed in the first schedule hereto annexed, or a form to the like effect, on payment, by the owner, of such fee as the Chief Commissioner may by rule prescribe.

Licensing of boilers, &c., in charge of certain engineers.

9. *(1)* When a boiler or prime-mover is in charge of an engineer who has obtained, in accordance with the rules made under section four, a certificate as engineer of the first class, the Chief Commissioner may, by an order in writing, direct that the report of that engineer shall, for the purpose of granting a license under this Act in respect of that boiler or prime-mover, be received as sufficient evidence of the matters referred to in section eight, clause (*a*).

(2) The Chief Commissioner may rescind any order made under clause *(1)*.

(3) If the owner of any boiler or prime-mover in respect of which an order under clause *(1)* is in force presents to the Inspector, at the time of giving notice in respect of that boiler or prime-mover under section six, a report in respect of that boiler or prime-mover in the form prescribed in the second schedule hereto annexed, or a form to the like effect, and signed by the engineer mentioned in the order, and pays to the Inspector such fee as aforesaid, the Inspector shall, notwithstanding anything hereinbefore contained, endorse on the report a license in the form prescribed in the third schedule hereto annexed, or a form to the like effect, without examining the boiler or prime-mover.

License to state period for which it is to be in force.

10. Every license granted under this Act shall state the period for which it is to continue in force, and shall cease to be in force on the expiration of that period.

Revocation or suspension of license.

11. Any person authorized by the Chief Commissioner in this behalf may revoke or suspend any license granted under this Act in respect of any boiler or prime-mover when he has reason to believe—

(*a*) that the license has been fraudulently obtained, or has been granted erroneously, or without sufficient examination; or

(*b*) that the boiler or prime-mover in respect of which it has been granted is not in charge of an engineer to whom a certificate has been granted in accordance with the rules made under section four, or is not in good condition, or has, since the granting of the license, sustained injury; or

(*c*) where the license has been granted under section nine, that the boiler or prime-mover has ceased to be under the charge of the engineer on whose report the license was granted.

Appeal against refusal, revocation or suspension of license.

12. *(1)* The owner of any boiler or prime-mover may appeal from any order made under this Act refusing to grant, or revoking or suspending, a license.

(2) The appeal shall, within seven days from the day on which the owner received the order appealed against, be presented to some person authorized by the Chief Commissioner to hear appeals hereunder.

(3) Every such person shall be deemed to be a public servant within the meaning of the Indian Penal Code, and may, if he thinks fit, summon to his assistance, in such manner as the Local Government may, from time to time, direct, two competent assessors; and those assessors shall attend and assist accordingly. XLV of 1860.

(4) If the person hearing the appeal is satisfied that the owner is entitled to the license, he shall, on payment of the fee, grant a license in such form as the Chief Commissioner may, from time to time, by rule, prescribe, or shall cancel the order revoking or suspending the license, as the case may be.

(5) If the person hearing the appeal is of opinion that the order appealed against is right, he shall dismiss the appeal; and the costs of the appeal incurred by Government and certified by him shall be recoverable from the appellant, as a fine, by any Magistrate having jurisdiction in the place where the boiler or prime-mover is situate.

Power of Inspector to enter place or building.

13. An Inspector may at any time enter into any place or building where he has reason to believe that a boiler or prime-mover is used without a license or under a license granted under section eight, or on appeal from an order refusing a license under that section, for the purpose of inspecting and examining the same.

Penalties.

14. Every owner, or person in charge, of any boiler or prime-mover who—

(*a*) uses that boiler or prime-mover in contravention of the provisions of section five, or,

(*b*) having a license granted under this Act and in force in respect of any boiler or prime-mover, fails to produce the same when called upon at any reasonable time to do so by any Magistrate having jurisdiction in the place in which that boiler or prime-mover is situate, or by any person authorized in writing by that Magistrate to demand the production of the license, and

every person who prevents an Inspector from entering, under section thirteen, any place or building,

shall be punished with fine which may extend to five hundred rupees.

Engineer signing false report under section nine.

15. Any engineer signing any report under section nine which he either knows or believes to be false in any material point shall be deemed to have committed an offence punishable under section 197 of the Indian Penal Code. XLV of 1860.

Charges not to be brought after six months or without Inspector's sanction.

16. No charge of an offence under this Act shall be brought against any person without the previous sanction of an Inspector, or after the expiration of six months from the date of the commission of the offence.

Power to define limits of towns.

17. The Chief Commissioner may, from time to time, define what shall be deemed to be for the purposes of this Act the local limits of the towns of Rangoon, Maulmain, Akyab and Bassein respectively.

Power to make rules.

18. The Chief Commissioner may, at any time after the passing of this Act, and from time to time, make rules consistent with this Act for all or any of the following purposes (that is to say):—

(*a*) for prescribing the powers and duties of Inspectors;

(*b*) for fixing the fees payable on account of licenses granted under this Act;

(*c*) for determining the time for which such licenses shall be in force;

(*d*) for regulating the procedure on hearing appeals, and conferring on the persons authorised to hear appeals any of the powers conferred on a Civil Court by the Code of Civil Procedure; and XIV of 1882.

(*e*) generally for carrying out the purposes of this Act.

All such rules shall be published thrice in the *British Burma Gazette*, and shall come into force on the day on which they are last so published, or on such later day as may be specified in the notification publishing them.

FIRST SCHEDULE.

(*See section 8.*)

FORM OF LICENSE.

1	2	3	4	5	6	7	8	9
Name of owner.	Description of boiler.	Description of prime-mover.	Power.	When and where made.	When and where last repaired.	No. and date of certificate of engineer in charge.	Period for which license is to be in force.	Remarks.

I, the undersigned, certify that I have examined the boiler (*or* prime-mover) above described, and, to the best of my judgment, it is in good condition, and is not so exposed as to be likely to be dangerous. The engineer in charge is possessed of a certificate [and (*in case alterations or additions have been required*) the alterations (*or* additions) required by me have been properly made].

A. B.,
Inspector.

SECOND SCHEDULE.

(*See section 9.*)

REPORT OF ENGINEER.

OFFICERS IN CHARGE.

2. Except for the last three days of the year, Mr. J. Westland was Head Commissioner.

Messrs. E. Gay, E. T. Atkinson, and A. C. Tupp were Commissioners in Bombay from 1st to 17th April, 18th April to 24th December, and 25th December to 31st March 1882, respectively, and Mr. H. F. Clogstoun was Commissioner in Madras during the whole year.

ABOLITION OF NAGPUR AND OTHER SUB-CIRCLES.

3. A notable event in the history of the year is the abolition of the sub-circles of circulation at Nagpur, Akola, and Coconada. The permanent circulation at these circles was very small: about six lakhs for Nagpur and three or four for each of the other two; but after the cotton season at Nagpur and Akola, and the export season at Coconada, it was liable to swell to very high figures, and has been over thirty lakhs at each place. The excess over the above-stated minima of six and three lakhs was practically the excess of funds held by the public and the trading classes after the close of the local trading season, which they desired to remove elsewhere, and which might therefore be expected at any time to come in for payment, the law obliging us to prepare to meet the notes both at the sub-circles themselves and at the head offices. This arrangement, however convenient for the local public, was hardly a legitimate burden upon the general currency reserve; and after consulting the Local Governments and commercial authorities it was determined to suppress the local circulation. Nagpur and Akola are now parts of Bombay Circle, and Coconada part of Madras Circle, without any special privileges in the way of double encashment of their notes.

4. The issue of notes at the suppressed sub-circles was discontinued on 15th August 1881, but the offices remained open for encashment of notes up till 31st December. Between these dates the gross circulation diminished from 2,491, 2,442, and 1,665 thousands, to 480, 270, and 286, and a new arrangement was now made. An encashing agency was established at which was placed a treasure chest containing the necessary reserve funds; the agent cashed out of his own resources all local notes brought to him, and recouped himself when he wished by presenting his notes to the currency officer for encashment out of the reserve chest. The Banks of Bengal and Madras were good enough to undertake the "encashing agency" at Nagpur and Coconada respectively, and at Akola it was managed by the local treasury.

5. The separate accounts of the sub-circles were maintained till March 31st, when their balances, both of circulation and of reserve, were transferred to the respective head circle accounts.

6. Currency agencies have, however, been established at all three places for issue and encashment of notes. These differ from sub-circles, chiefly in respect of their being under no legal obligation to issue or to encash, and they practically merely supplement the funds available at the local treasuries for meeting the public convenience in respect of demand for notes or for encashment of them. The funds which they hold, notes and cash together, have a definite limit, so that if the demand for notes exceeds that for encashment, or *vice versâ*, by the amount of the limit, the operation automatically ceases.

PROPOSED BURMA CURRENCY CIRCLE.

7. An attempt was made during the year to legislate for the introduction of a currency circle in Burma. As the law at present stands, no local currency can be introduced in Burma without the condition that the notes shall also be encashable in Calcutta; and the circumstances of the Burma trade are such as to render it impossible to work a currency that is subject to this condition. The object of the legislation was therefore to enable the department to extend its operations to Burma without making them subject to this condition.

8. In the Bill brought before Council for this purpose, opportunity was taken to introduce, at the same time, an amendment of the bullion clauses of the law; which enable the importer of silver to obtain coin immediately out of the currency reserve, whereas the latter can recoup itself only as fast as the Mint can coin. Certain objections were raised to the proposed amendment of the law on behalf of the importers of bullion; these objections are now under consideration. Meantime preparations are being made to open a Currency Department in Burma as soon as the law renders it possible.

ACCOUNTS AND AUDIT.

9. The monthly audits of the accounts have been duly reported, for each office, to the Comptroller General, and the following special audits have also been made :—

Accounts of	Auditing officer.	Date of report.	Period under Audit.
Calcutta . .	Inspector of Local Accounts.	27th April 1882 .	Jan. to Dec. 1881.
Madras . .	Ditto ditto .	14th January 1882 .	Ditto.
Calicut . . .	Dr. Cline, Asst. Acct. Genl., Madras.	19th April 1882 .	Sept. 1880 to April 1882.
Bombay . . .	Inspector of Local Accounts.	4th February 1882 .	Jan. to Dec. 1881

The sub-circles of the Bombay circle have not been specially audited owing to the difficulty found in deputing an officer from Bombay for the purpose, but the accounts of the Akola and Nagpur sub-circles for the months of January, February, and March last have been audited by Assistants to the Accountant General, the accounts for those months having been prepared in the head office owing to the abolition of the sub-circles.

CIRCULATION.

10. The following figures show the state of the *net* circulation :—

	Gross Circulation.	Retired by other offices.	Net Circulation.
1st April 1881	13,81,82,675	41,65,310	13,40,17,365
31st March 1882	14,43,08,415	52,36,635	13,90,71,780

It must be explained that a note is in "gross circulation" when it is not yet returned to the original office of issue, but if it has meantime been paid off by another office of issue, and is held by it pending return to the original office of issue, then it has ceased to be in "net circulation," though it is still part of the gross circulation.

11. The details of the net circulation of March 31st, 1882, are as follows :—

	Number of Notes for Rupees.								Total	
	5	10	20	50	100	500	1,000	10,000	Pieces.	Value.
Calcutta	265,616	929,483	336,807	47,672	105,874	13,441	17,454	1,430	1,717,777	6,88,04,550
Allahabad . . .	13,574	19,889	14,841	11,577	13,175	1,141	5,607	2	79 806	80,57,430
Lahore	15,809	34,698	20,420	12,680	12,200	3,546	2,443	49	101,951	73,95,105
Bombay	124,420	447,462	89,878	53,370	64,983	4,933	10,106	638	795,790	3,50,13,580
Kurrachee	7,486	23,900	9,099	5,486	6,430	753	1,309	..	55,063	30,73,210
Madras . . .	35,219	55,345	31,463	23,246	60,650	4,451	1 499	250	212,123	1,48,10,605
Calicut . . .	8,064	8,772	4,818	3,628	5,120	139	70	26	30,637	13,17,300
Total for Mar 31st, 1882	470,288	1,519,540	507,935	157,659	268,432	28,404	38,485	2 395	2,993,150	13,90 71,780
Total for Mar 31st, 1881	429,075	1,425,995	530,582	164,592	261,098	28,362	42,100	1,688	2,883 442	13,40,17,365
Total for Mar 31st, 1880	418,930	1,383,504	478,469	164,288	271,233	28,069	39,966	874	2,785,333	12,35,77,270

The comparison shows an increase of 11½ lakhs in five and ten-Rupee notes, and of 76 lakhs in ten-thousand-Rupee notes, against a decrease of 36 lakhs in thousand-Rupee notes.

12. From these figures it will be found that the average value of each note in circulation on the last day of the year compared with the past two years was—

	1879-80.	1880-81.	1881-82.		1879-80.	1880-81.	1881-82.
Calcutta Circle . .	36	39	40	Nagpur Circle . .	56	93	...
Allahabad „ .	64	85	108	Kurrachee „ . .	60	66	56
Lahore „ .	52	67	72	Madras „ . .	62	62	69
Bombay „ . .	56	44	44	Calicut „ . .	36	61	43
Akola „ .	61	109	...	Coconada „ . .	158	115	...

The chief variation is in Allahabad, and is due to the fact that its circulation was larger in 1882 than 1881 by about twenty lakhs of thousand-Rupee notes, a circumstance which arises out of certain transactions of the Bank of Bengal.

13. The variations in the net circulation of each circle are shown in the following table, omitting 000 :—

Last day of	Calcutta.	Allahabad.	Lahore.	Bombay.	Akola.	Nagpur.	Kurrachee.	Madras.	Calicut.	Cocoanada.	TOTAL.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

(A) Circulation transferred to Bombay on March 31st, 1882.
(B) Ditto ditto Madras ditto.
The figures are more fully given in Statement No. I.

14. On these the following remarks are offered :—

First, for Calcutta, I show for the last two years the figures of the circulation (in lakhs of Rupees) excluding the Reserve Treasury of Government—

Last day of	1880-81.	1881-82.	Last day of	1880-81.	1881-82.
April	563	580	October . . .	665	556
May	539	566	November . . .	745	531
June	586	569	December . . .	728	533
July	567	590	January . . .	644	536
August	540	527	February . . .	579	543
September . . .	585	591	March	587	549

In the last two years the conclusion from the figures thus compiled was "a low range of circulation from April to September, a sudden increase of over 1½ crores in the opening of the cold weather, and a rapid diminution in February." And I attributed these features chiefly to the preparations of the Banks for the cold weather trade, and their subsequent withdrawals of silver for the Burma and other inland trade.

In 1881-82, however, money was for several reasons so dear that the Banks did not prepare their supplies for the cold weather till the demand was upon them, and we find therefore a pretty equable circulation throughout the year.

15. In Bombay the same feature appears as did last year, the circulation outside the reserve treasury rising from 299 in April to 345 in September and November, and then diminishing to 315 in March. A sudden break in the regularity of these figures occurs in the temporary reduction of the circulation, on October 1st, to 309, and is due to the Bank of Bengal exchanging about 20 lakhs of Bombay notes, at Allahabad, for Allahabad notes, thus effecting a remittance from Bombay to Calcutta.

16. The Madras circulation fell from March (115 lakhs) till October (99 lakhs) and then rose till March (126 lakhs)—the same features as were exhibited last year.

17. The following figures show, in lakhs and thousands, the gross circulation in the head circles of notes not exceeding Rs. 100 each :—

Last day of	Calcutta.	Bombay.	Madras.
April 1881	289·54	148·38	77·01
May "	280·07	153·05	72·58
June "	270·99	153·68	69·38
July "	275·11	153·77	67·96
August "	278·39	159·24	69·71
September "	302·22	154·57	66·77
October "	292·20	162·87	66·94
November "	294·11	159 77	69·80
December "	293·15	160·85	73·77
January 1882 . . .	301·24	157·90	75·76
February "	305·94	158·27	82·84
March "	304·73	159·16	86·86

But for the exceptional figure of September, these figures shew as last year a tendency to a minimum about September.

ANALYSIS OF CIRCULATION.

18. The following statement analyses the outstanding on 31st December 1881 by years of issue. As explained in former reports, the amount thus shown is necessarily much greater than the circulation of the date in question, as it includes, among other things, balances of notes held in the currency offices themselves for issue to the public :—

Outstanding of Notes.

CALENDAR YEAR OF ISSUE.	Amount issued in official year.	Value outstanding on 31st December 1880.	Value outstanding on 31st December 1881.
	Rs.	Rs.	Rs.
1862	6,72,55,500	3,45,460	3,41,670
1863	4,72,01,000	1,17,230	1,10,540
1864	4,53,00,110	(a) 1,22,450	1,19,430
1865	10,10,04,920	1,07,340	1,02,540
1866	26,80,12,150	1,31,930	1,22,620
1867	33,06,49,710	1,65,810	1,29,290
1868	44,00,73,020	2,52,010	1,91,820
1869	49,34,48,480	2,04,000	2,00,750
1870	56,63,62,620	4,10,990	3,43,390
1871	62,25,21,200	3,84,940	3,77,400
1872	57,39,09,525	4,50,885	4,17,140
1873	61,69,24,575	7,08,475	5,30,195
1874	68,25,78,760	9,33,140	7,98,575
1875	62,69,70,815	13,75,040	10,91,920
1876	78,77,51,185	18,73,895	11,45,410
1877	99,52,50,980	33,82,000	18,73,510
1878	86,09,06,930	51,93,050	30,03,440
1879	81,51,93,855	1,79,04,540	59,04,540
1880	85,23,94,490	13,18,09,910	2,19,68,375
1881	71,74,55,450	.....	13,15,58,530
TOTAL .	.....	16,58,73,095	17,03,31,085

(a) Corrected since last year's report by addition of 4,200.

THE RESERVE.

19. The value held against the net circulation upon 31st March 1882 was as follows:—

	Rs.	A.	P.			
SILVER COIN—						
At Calcutta	1,54,31,038	2	7			
„ Allahabad	1,24,39,855	0	0			
„ Lahore	1,61,70,955	0	0			
„ Bombay, including Nagpur and Akola	1,23,41,217	0	0			
„ Kurrachee	37,22,285	0	0			
„ Madras, including Coconada	82,84,105	0	0			
„ Calicut	10,17,095	0	0			
				6,94,06,550	2	7
SMALL SILVER COIN—						
At Bombay	1,00,000	0	0			
„ Kurrachee	40,400	0	0			
„ Madras	11,40,000	0	0			
				12,80,400	0	0
SILVER BULLION—						
At Calcutta	31,02,035	15	1			
„ Bombay	52,82,828	0	0			
				83,84,863	15	1
Invested in Government Securities	.....			5,99,99,965	14	4
TOTAL, AGREEING WITH THE NET CIRCULATION				13,90,71,780	0	0

20. The half-yearly verifications of the above coin and security balances were held as follows:—

	1st half.	2nd half.
CALCUTTA	Feb. 4, 1882	April 29, 1882
Allahabad	Sept. 22, 1881	March 31, „
Lahore	„ 28, „	„ 31, „
BOMBAY	„ 12, „	April 4, „
Kurrachee	„ 30, „	March 31, „
Nagpore	„ 22, „	*
Akola		*
MADRAS	Oct. 5, „	April 1, „
Calicut	Sept. 30, „	„ 14, „
Coconada	„ 29, „	*

* Abolished.

21. The verifications, so far as regards the coin at head-quarters, were all conducted by officers appointed by the Local Government, except at Calcutta, where the officer is appointed by the Comptroller General; and the coin at agencies is certified by the district officers in whose charge it is; but the verification is defective in the following respects:—

(1) Rupees 20,46,000, in transit from Kurrachee to Bombay, was not verified otherwise than by the counting after it arrived.

(2) The encashing chests in the suppressed circles of Nagpur and Akola (Rs. 4,21,295), appear to have been overlooked in the verification.

THE INVESTMENT.

22. Since last report the Investment Account has increased thus:—

	Stock certificate of 4 per cent. of 1842-43.		Purchase price.		
Last year's report	6,24,62,900		5,99,24,184	2	4
Purchased on 15th December	74,800	at Rs. 1-5 premium	75,781	12	0
	6,25,37,700		5,99,99,965	14	4

being within 35 Rupees of the legal limit of six crores.

23. The new purchase was as soon as convenient converted into the same form in which we hold the rest of the investment, and the whole is at present

in my custody in the form of certificates of book debt of the Public Debt Office, namely :—

	Rs.	
No. 59 of 4 per cent. Loan of 1842-43 for . .	5,00,00,000	
„ 72 „ „ „ . .	1,00,00,000	
„ 73 „ „ „ . .	24,62,900	
„ 92 „ „ „ . .	74,800	
		6,25,37,700

The book-value of the whole investment is Rs. 95·94 per cent.

PROFITS OF CIRCULATION.

24. Our account with the Treasury was clear at the date of last year's report. Since then there has fallen due—

	Rs.	A.	P.
A year's interest on Rs. 6,24,62,900	24,98,516	0	0
Interest from 15th December till 1st February, 1 month 16 days, on Rs. 74,800	382	5	0
Total due to Treasury	24,98,898	5	0
TOTAL PAID TO TREASURY . .	24,98,898	5	0

TRANSACTIONS WITH THE PUBLIC.

Issue and Receipt of Notes.

25. The following are the gross statistics of the year, the details by circle being shown in statement VI :—

	Rs.	Rs.
Gross circulation, April 1881	...	13,81,82,675
ISSUES—		
a—Over the counter	67,74,03,020	
b—At Agencies	77,17,075	
c—In remittance transactions . . .	3,17,02,820	
		71,68,22,915
TOTAL		85,50,05,590
RECEIPTS—		
d—Over the counter	56,22,79,435	
e—At Agencies	73,93,940	
f—From other currency circles . . .	9,63,73,650	
g—For cash from encashing office . .	1,15,535	
h—In remittance transactions . . .	4,45,34,615	
		71,06,97,175
Balance, being gross circulation, March 31st, 1882 (*vide* para. 10) .		14,43,08,415

EXPLANATIONS.

a and *d*—These are the ordinary issues and receipts in exchange for other notes or for coin.

b and *e*—These are exchange transactions with treasuries, as the agencies do not deal direct with the public, but only enable the treasuries to do so to a greater extent than would otherwise be the case.

f—This figure represents notes cashed at other currency circles from March 16th, 1881, to March 15th, 1882, and returned during the year under report to the circles to which they belong.

g—Is explained in connection with the abolition of the Nagpur, Akola and Coconada sub-circles (para. 4).

c and *h*—These remittances are for the most part payments and receipts of one currency office, in consideration of receipts or payments at another.

COMPARISON—	Issues. Rs.	Receipts. Rs.
1881-82	71,68,22,915	71,06,97,175
1880-81	85,23,94,490	84,04,84,890
1879-80	81,51,93,855	80,79,23,265

26. It is in the "over the counter" transactions that there has been less activity than last year, and it is probably connected with the feature remarked on in paragraph 14—the greater equalness observable in the circulation throughout the year.

27. The aggregate issues and receipts of the several denominations of notes at both offices of issue and agencies during the year were as follows :—

	Number of Notes for Rupees								Total.	
	5	10	20	50	100	500	1,000	10,000	Number.	Value.
Issues	747,597	2,754,372	1,001,018	355.053	720,117	136,765	334,684	17,260	6,066,875	71,68,22,915
Receipts	706,303	2,659,262	1,022,912	362,058	713,104	136,245	337,639	16,494	5,954,017	71,06,97,175
More issues	41,294	95,110	.	...	7,013	520	...	775	144,712	98,68,870
„ receipts	...	...	21,894	7,005	.	...	2,955	...	31,854	37,43,130

28. So far as regards the three head offices, the average number of notes that passed over the counters on each working day during the past three years, and the daily average of cancellations during the same period, has been—

	Notes cashed.			Notes issued.			Notes cancelled.		
	1879-80	1880 81.	1881-82	1879-80.	1880-81	1881-82	1879-80.	1880-81.	1881-82.
At Calcutta	13,300	14,013	11,877	13,352	14,339	12,112	8,531	9,122	6,925
„ Bombay	4,567	4,932	4,625	4,709	5,265	5,111	2,381	2,624	3,113
„ Madras	1,420	1,732	1,897	1,631	1,703	1,960	927	1,360	1,559

29. The decrease in the figures of Calcutta is owing to a new practice there introduced in the month of August. The operations at the Calcutta office are divided into two parts :—

(1) Notes received from the Bank of Bengal which acts as a clearing-house for the other Banks, receiving and passing on to us the notes they receive out of general circulation, and similarly passing on new and re-issue notes to them—an operation by which the circulation of Calcutta is continually passing under the examination of our currency counters.

(2) Notes received from the rest of the public.

30. In the case of these last, the note receiver's stamp, impressed at the time of receipt at the counter, is a necessary link in tracing the history of the note, so that it was part of the system that all such notes should be cancelled and retained. Enquiry, however, showed that in the case of small notes nothing was really gained by thus preserving to the office facilities for answering enquiries about notes, and abandoning the simple rule of cancelling *all* such notes, we re-issued such as were perfectly clean. The saving (including what arises from a consequent alteration in the practice of the Bank of Bengal in its dealings with the Currency Office) is about 2,000 note-forms a day, value about fifty or sixty rupees.

The offices at Bombay and Madras have always re-issued such notes as were fit for re-issue; but they were relieved by this order from the necessity of recording in their counter registers the names of persons presenting small notes for payment.

31. I need not say we try to be particular about the cleanness of all notes given for re-issue. All attempts at forgery have been facilitated by the fact that dirty notes are in circulation, and though we cannot withdraw such notes, it is greatly to our interest to reduce the number of them as far as possible.

32. The change just noted was introduced concurrently with, and in fact partly hinged upon, another change of procedure, namely, that we refused to note stoppages against notes of 5, 10, and 20 rupees. The public, by unanimous consent, pass these from hand to hand without note or endorsement, and long experience has shown that no person ever gained the slightest advantage by our noting stoppage against them, that is, agreeing to notify to the stopper when and by whom the note was presented for encashment. We now tell people who write to stop notes of small value, that, as we are bound to pay the value of the note to bearer, we cannot take any steps to advertise or enforce their claims.

ENCASHMENT OF FOREIGN NOTES.

33. The following is the foreign note account of the circles in aggregate:—

	Rs.	Rs.
Balance held on April 1st	...	41,65,310
Received over the counter	9,58,37,875	... ..
On payment of transfers or drafts issued	2,00,000	.....
From other circles	84,01,605	.....
At agencies	4,000	.....
		10,44,43,480
TOTAL		10,86,08,790
Remitted to the circles concerned		10,33,72,155
Balance held on March 31st		52,36,635
TOTAL		10,86,08,790

34. The following statement shows the statistics of the encashment of foreign circle notes, giving for the year an aggregate total, as just mentioned, of Rs. 9,58,37,875:—

Statement of Foreign Circle notes cashed during the year 1881-82.

	Calcutta.	Allahabad	Lahore.	Bombay.	Akola.	Nagpur.	Kurrachee.	Madras.	Calicut.	Coconada.	TOTAL.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
CASHED BY—

The letter (c) marks the cases in which the foreign notes are legally encashable.

35. The comparison for three years is as follows—

NOTES CASHED AT—	1879-80. Rs.	1880-81. Rs.	1881-82. Rs.
Calcutta	3,81,32,120	3,89,08,405	4,96,15,610
Allahabad	...	5,155	1,47,67,030
Lahore	210	...	16,57,705
Bombay	53,90,775	1,65,13,125	1,92,27,615
Akola	11,09,565	11,030	715
Nagpur	3,88,680	59,215	3,05,295
Kurrachee	13,285	27,540	14,970
Madras	1,31,97,710	50,54,520	74,48,725
Calicut	34,85,590	26,53,800	23,09,210
Coconada	9,47,900	13,55,805	4,91,000
TOTAL	6,26,65,835	6,45,88,595	9,58,37,875

36. Thus under the requirements of the law, the amount of notes issued by each sub-circle and cashed at its head office were in—

	1879-80.	1880-81.	1881-82.
	Rs.	Rs.	Rs.
Calcutta	85,54,265	1,96,83,500	4,11,89,990
Bombay	24,21,355	53,79,320	86,64,445
Madras	55,29,785	42,22,140	51,28,345
	1,65,05,405	2,92,84,960	5,49,82,780

37. These figures are all very much larger than those of the two preceding years. The difference arises, in a great measure, from causes external to the Currency Department—the state of the money-market, the relations between the markets at Calcutta and Bombay, the activity of trade between Calcutta and the North-West. But the increased accommodation we have given to the public in respect of foreign notes has also in part arisen from our withdrawing the prohibition laid upon the Allahabad and Lahore circles during the Afghan war of using their coin for the encashment of foreign notes.

ISSUE AND RECEIPT OF COIN.

38. The transactions in coin are as follows (for details by circles, refer to statement VII) :—

		Coin.			Small Coin.		
		Rs.	A.	P.	Rs.	A.	P.
Balance, April 1st, 1881	...	7,20,82,955	7	7	13,99,200	0	0

BALANCE, MARCH 31ST, 1882 (see para. 19)		6,94,06,550	6	8	12,80,400	0	0

		Receipts.	Issues.
		Rs.	Rs.
Comparison, 1881 82	...	19,99,91,984	20,26,68,389
1880 81	...	21,29,05,056	19,63,95,076
1879-80	...	25,95,14,328	24,19,97,198

39. The receipts of coin over the counter have been smaller than last year, a diminution corresponding with that observed in the case of issue of notes.

THE STATE OF THE COINAGE

40. The Government has, during the year, both pursued and further developed its policy of clearing the coin circulation of the country of shroff-marked and under-weight rupees. By Resolution No. 2432, dated 17th August 1881, it accepted, for the present, the burden of their re-coinage, encouraging holders to deliver them to treasuries and currency offices by promising credit at full weight, so as to effect a general purification of the coinage in those places, chiefly the North-West Provinces, the Punjab and Bombay, where the practice of shroff-marking had prevailed and where a large proportion of old rupees was in circulation.

41. The following figures show the receipt of such coin in the currency offices, and the figures practically include treasury receipts also, inasmuch as the treasuries are directed to pass on their receipts to the currency offices, pending their transfer to the Mint for re-coinage.

Statement of shroff-marked, notched, and otherwise defaced silver coin received during 1881-82.

	Shroff-marked.		Notched.		Otherwise defaced.		TOTAL.	
	Rs.	A.	Rs.	A.	Rs.	A.	Rs.	A.
Calcutta	3,793	0	...		...		3,793	0
Allahabad	34,66,760	0	25	0	59	0	34,66,844	0
Lahore	20,74,000	0	...		...		20,74,000	0
Bombay	75,490	8	889	0	294	12	10,40,969	4
Akola	41	0	168	0	25	0	234	0
Nagpur	1,604	0	...		789	0	2,393	0
Kurrachee	2,26,000	0	...		..		2,26,000	0
Madras	5,719	0	4,29,571	2	98,118	12	5,33,408	14
Calicut	5	0	14	0	20	8	39	8
	68,17,707	8	4,30,667	2	99,307	0	73,47,681	10

Allahabad disposed of its shroff-marked coin by sending 12 lakhs to the Calcutta Mint in December, but at the end of the year it held about 27½ lakhs more ready for remittance. Lahore sent 7 lakhs to the Bombay Mint in December and 13 more had in March been transferred to Bombay and was there held in readiness for the Mint. The Kurrachee receipt of Rs. 2,26,000 had also been sent to Bombay.

42. The following statement shews for the year the operation, throughout India, of the clauses of the Coinage Act which empower treasury and other officers to cut and break coin which does not come up to legal standard.

Statement showing the number of coins cut and broken under the Coinage Act in treasuries throughout India during the calender year 1881.

NAME OF PROVINCE.	Number of treasuries in which coins were cut.	Believed to have lost by reasonable wear more than 2 per cent. in weight.				Believed to be counterfeit.				Believed to have been reduced in weight otherwise than by reasonable wear.				Considered unfit for further circulation by reason of obliteration of device, or for other causes.			
		Rs.	½ Rs.	¼ Rs	⅛ Rs.	Rs.	½ Rs.	¼ Rs.	⅛ Rs.	Rs.	½ Rs	¼ Rs.	⅛ Rs.	Rs.	½ Rs.	¼ Rs.	⅛ Rs.

AGENCIES.

46. The following are the transactions at the agencies :—

	No. of Agencies.	Issues of notes.	Receipts of notes.
Agencies of the Calcutta Circle	15	530,500	537,950
" Allahabad Circle	5	72,000	44,000
" Lahore Circle	11	5,788,000	4,523,000
" Bombay Circle	2	844,585	612,000
" Madras Circle	2	331,990	865,990
	35	7,567,075	6,593,440

47. The following are the agencies enumerated in the above figures, the new ones being printed in italics :—

Calcutta Circle.
1. Backergunge.
2. Bhaugulpore.
3. Cachar.
4. Chumparan.
5. Dacca.
6. Darjeeling.
7. Hazareebaugh.
8. Lohardugga.
9. Monghyr.
10. Moorshedabad.
11. Patna.
12. Rajshahye.
13. Sarun.
14. Shillong.
15. Sylhet.

Allahabad Circle.
1. Fyzabad.
2. Meerut.
3. Moradabad.
4. Roorkee.
5. *Agra.*

Lahore Circle.
1. Amritsar.
2. Ferozepore.
3. Kohat.
4. Mooltan.
5. Peshawar.
6. Rawal Pindi.
7. Simla.
8. Umballa.
9. *Bannu.*
10. *Jhelam.*
11. *Dera Ismail Khan.*

Bombay Circle.
1. *Nagpur.*
2. *Akola.*

Madras Circle.
1. *Coconada.*
2. Vizagapatam.

CLAIMS ON LOST NOTES.

48. The following is the statement of lost and mutilated notes paid during the year on bond of indemnity :—

	Nature of Loss.	Number of Notes for Rupees.								Total.	
		5	10	20	50	100	500	1,000	10,000	Number.	Value.
											Rs.
Half Notes	Lost by post	51	205	124	92	135	16	5	.....	628	35,885
	Lost accidentally	47	104	78	66	118	18	4	.....	435	30,935
	Mutilated	14	44	25	3	12	2	2	.....	102	5,360
		112	353	227	161	265	36	11	.....	1,165	72,180
Whole Notes	Lost by post	...	...	...	...	...	...	...	... ..	...	...
	Lost accidentally	...	...	...	...	...	...	...	.....	...	...
	Mutilated	1	1	...	...	3	...	4	.....	9	4,315
		1	1	...	...	3	...	4	.....	9	4,315
Mismatched Notes		111	139	82	9	10	...	...	.....	351	5,035
	Total 1881-82	224	493	309	170	278	36	15	.....	1,525	81,530
	Total 1880-81	422	660	408	210	395	25	17	.....	2,137	96,370
	Total 1879-80	560	884	504	192	369	53	309	4	2,875	4,43,720*

* Excluding the "Vingorla" case, Rs. 3,50,000, the figure would be 93,720.

49. During the year the rules for claims on half-notes were reconsidered and revised. Formerly the claims were advertised in the Gazette, and payment made, on bond of indemnity, after two months' time; but experience led us to the conclusion that claims had been admitted, if not wrongly, at least after insufficient enquiry. We now require no advertisement, but we insist upon the claimant giving us as full evidence of his claim as he can, and if the case is accepted, the payment is ordered to be made at the end of six months if no reason to the contrary appear.

50. In the case of claims on lost notes also, the Government reconsidered its rules. The fact of the destruction being accepted, we used to pay the note, invest the amount in Government Securities, paying the interest on bond of indemnity to the claimant. Now, on the one hand, we admit the claim on the proof of extreme improbability that the note will again turn up, without insisting upon absolute proof of destruction; but, on the other hand, we hold the investment absolutely for twenty years, and then hand it over to claimant with its accrued interest on his giving a bond of indemnity.

51. Since these orders were passed a case has occurred which shows that the protection afforded by the new system is advisable.

FRAUD AND FORGERY.

52. No new cases of forgery or fraud occurred during the year, but two more notes (making 28 in all) of the J—9 series of forgeries (see para. 42 of last year's report) were presented for payment in Madras. This forgery has not yet been traced home to any person.

REMITTANCES.

53. The following are the remittances in actual coin made in the course of operations:—

	Rs.
1. Allahabad to Calcutta	36,66,000
2. Allahabad to Bombay	20,00,000
3. Lahore to Bombay	30,00,000
4. Lahore to Kurrachee and thence to Bombay	40,00,000
5. Madras to Bombay	30,00,000
6. Kurrachee to Bombay, in addition to No. 4	10,26,000
7. Nagpur to Bombay	5,00,000
8. Akola to Bombay.	12,00,000
9. Calicut to Madras	10,00,000

54. Of these, the first one and the last four may be said to have arisen from the obligation resting on each head office to cash the notes of its sub-circles, which obliges it to call in the corresponding coin if it is not able to dispose of it otherwise. The encashments of the head office were very much larger than the above figures, which must be regarded only as the balance which it was found necessary to remit in coin.

55. The large remittances from Lahore to Bombay had for their object the better distribution of coin, both currency and treasury, among the provinces. The Afghan war left us with a large hoard of coin at Lahore, gathered there to meet any emergency that might arise. It was found impossible to draw it away by bills, or by encashing foreign notes, for as soon as it went out into circulation, it was found to come back again in some form or other,—for example, Lahore notes were very largely taken by the public for coin, and remitted to Calcutta. The only way to get rid of the inconvenient accumulation at Lahore was by an actual remittance of coin; and it was sent in large quantities to Bombay, both because our reserves were weakest there, and because the remittance from Kurrachee to Bombay could be made by Government steamer.

56. The twenty lakhs remitted from Allahabad to Bombay was a further supply of the Bombay reserve out of the excess left in the Allahabad office, through large quantities of its notes being taken away for encashment at Calcutta.

57. The remittance, marked No. 5, of 30 lakhs from Madras to Bombay, was rather a treasury than a currency operation, though it was conducted by the Currency Department.

58. The remittance from Allahabad to Calcutta was made to serve the double purpose of adjusting the coin reserves, and removing from Allahabad to the Mint the shroff-marked and other defective rupees gathered in the North-West; that is, instead of making the remittance in good coin, it was made in coin which was intended to be immediately passed through the Mint. The same remark applies, in a less degree to the remittances from Lahore and Kurrachee to Bombay.

TREASURY STATISTICS.

59. The transactions in notes at the several treasuries in India during 1879-80, 1880-81 and 1881-82 have been as follows:—

	1879-80.	1880-81.	1881-82.
	Rs.	Rs.	Rs.
Receipts from the public in payment of Government dues.	4,65,63,395	7,96,68,115	8,00,32,905
Do. from the public in exchange for silver . .	2,90,69,610	3,84,21,600	3,21,81,910
Do. from the public for other notes . . .	14,68,010	90,82,085	32,39,375
TOTAL RECEIPTS .	7,71,01,015	12,71,71,800	11,54,54,190
Issues to the public in payment of Government dues .	2,59,43,650	4,01,75,835	3,31,34,065
Do. to the public in exchange for silver . . .	3,16 64,455	4,09,53,405	2,91,08,445
Do. to the public for other notes	14,68,010	90,82,085	32,39,375
TOTAL ISSUES .	5,90,76,115	9,02,11,325	6,54,81,885

60. The total transactions in notes during the last three years have been as follows (in lakhs of Rupees):—

	1879-80.	1880-81.	1881-82.
Government of India	74	263	172
Lower Bengal	429	426	484
Assam	43	44	51
North-Western Provinces and Oudh	108	297	173
Punjab	242	646	328
Madras	270	286	268
Bombay	142	150	258
Central Provinces	25	28	45
British Burma	14	14	9
Hyderabad	14	19	21
TOTAL . .	1,361	2,173	1,809

61. Statement IV classifies the Treasuries of the Government of India as follows:—

	1879-80.	1880-81.	1881-82.
Where notes were cashed throughout the year to the extent of the public demand	97	135	155
Where notes were ordinarily cashable, but not always . . .	70	56	30
Where notes were not usually cashable	38	19	20
TOTAL NO. . .	205	210	205

62. Statement V shows the proportion of Treasury and Bank balances which in each province was held in the form of currency notes. The state of the reserve treasuries greatly affects the comparisons in this statement. On December 31st, 1880, they held only 23 lakhs of notes and 52 of coin; on the same date in 1881, they held 142 of notes and 105 of coin.

RECEIPTS AND EXPENDITURE.

63. The receipts and expenditure of the Department is set forth in statement III. They can at present be stated only as approximate figures. I have no correction to report in the figures given under this head in last year's report; that is, though they were then given as only approximate, they were quite correct.

CONCLUSION.

64. I take the opportunity afforded by the re-arrangement of the circles of currency to shew the past history of the Department and of the circulation, in two statements which I have numbered VIII and IX.

Irrigation.

REVENUE REPORT OF IRRIGATION WORKS IN SIND.

No. 277-84I, dated Simla, August 3, 1882.

RESOLUTION—By the Government of India, Public Works Department.

Read—

Letter from the Government of Bombay, No. 155W.I.-337, dated 16th June 1882, submitting Revenue Report of the Irrigation Department in Sind for 1880-81.

OBSERVATIONS.—The Capital expenditure during the year under review amounted to Rs. 2,71,933, and the total outlay incurred under this head up to the end of the year to Rs. 86,90,954, including direct and indirect charges. Of this amount Rs. 22,87,721 have been expended on Productive Public Works and Rs. 64,03,233 on other Irrigation works, for which Capital and Revenue Accounts are kept.

2. The total amount of interest charges payable during the year amounted to Rs. 3,68,442, which was less than the net direct and indirect revenue from works for which Capital and Revenue Accounts are kept by Rs. 2,25,977. The surplus of accumulated net revenue (direct and indirect) over the accumulated interest charges to the end of the year amounted to Rs. 42,01,794.

3. The gross receipts from all sources amounted to Rs. 26,25,894* during the year, the gross receipts of the previous year having been returned as amounting to only Rs. 9,51,705. The difference is mainly due to the revenue from "works for which only Revenue Accounts are kept," having been included in the revenue returns of 1880-81 and omitted from those of previous years. The revenue from these works amounted to Rs. 15,21,815 for 1880-81, and the balance, Rs. 11,04,079, exceeded the corresponding returns of the previous year by Rs. 1,52,374.†

	Rs.
* Water rates, &c.	99,088
Collected with land revenue,	25,26,806
TOTAL	26,25,894

	Rs
† Revenue from Productive Public Works and other works for which Capital and Revenue Accounts are kept—	
1880-81	11,04,079
1879-80	9,51,705
TOTAL ...	1,52,374

4. The maintenance charges on irrigation works of all kinds amounted to Rs. 12,21,809, and the net revenue to Rs. 14,04,085. The net revenue from works for which Capital and Revenue Accounts are kept amounted to Rs. 5,94,419, and returned 6·84 per cent. upon the Capital outlay to the end of the year.

5. The total area cultivated under canal irrigation was 181,522 acres less than the average of the four years immediately preceding 1880-81.‡ The decrease was entirely caused by the lowness of the inundation of 1880 during the end of August and early part of September, and but for a sudden rise in the flood-level in the middle of September and a seasonable fall of rain, the decrease would have been much greater.

‡Year.	Acres cultivated.		
	Kharif.	Rabi.	TOTAL.
Average of 4 years 1876-77 to 1879-80.	1,208,307	350,281	1,558,588
1880-81	1,215,052	162 014	1,377,066
1880-81	+6,745	−188,267	−181,523

6. The irrigating duty done by the water is shown below for the five canals, of which the discharges may be regarded as approximately correct —

Canal.	Average discharge in cubic feet per second.	Areas of different crops irrigated.				Areas irrigated.		Total area irrigated.	Area irrigated per cubic foot per second.
		Jowari.	Bajri.	Rice.	Other crops.	By flow.	By lift.		
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
Desert	1,088	71,104	3,835	431	725	64,795	10,800	75,595	69·5
Begari	2,260	58,781	231	6,027	6,155	61,962	8,232	70,194	31·0
Sukkur	1,610	18,641	186	22,497	8,236	44,991	4,569	49,560	30·8
Mithrau	944	250	14,458	29,266	6,318	33,015	17,277	50,292	53·3
Fuleli	5,169	6,221	69,127	104,193	15,944	108,361	87,124	195,485	37·8

The high duty obtained on the Desert canal was evidently due to the large proportion of millets (jowar and bajra) irrigated from it ; that on the Mithrao canal to the high proportion of lift irrigation and to the careful regulation of the supply in accordance with the demand. On the Begari canal the low duty must have been caused by a supply much in excess of the demand for water, and that on the Fuleli by the very large proportion of rice irrigation to the total area watered.

7. The maintenance charges averaged Re. 0·88 per acre irrigated, the average rate of maintenance on the Punjab inundation canals having been Re. 1·02 per acre during 1880-81, and Re. 1·05 per acre for the three years ending with 1880-81.

8. The cost of collecting the canal revenue, as given in paragraph 9 of the Superintending Engineer's reoprt (Rs. 2,53,162), seems very high, unless the cost of measurement and assessment of irrigated areas is included in the charge for collection.

9. The Government of India is glad to learn that, owing to the growing confidence of the cultivators in Sind in the stability of the protective embankments, and to the effective arrangements for an improved supply of water, there are good grounds for expecting a steady increase in the canal revenue of future years.

ORDER.—Ordered, that a copy of this Resolution be forwarded to the Government of Bombay in the Public Works Department for information.

Also, that a copy of this Resolution, of the Report, and of the Resolution by the Government of Bombay, be forwarded for information to the Governments noted in the margin in the Public Works Department.

Madras, Bengal, North-Western Provinces and Oudh, and Punjab.

Also, that a copy of this Resolution, and of the Resolution by the Government of Bombay, be forwarded to the Department of Finance and to the Revenue and Agricultural Department for information ; and to the Publisher of the *Gazette of India* for publication in the Gazette Supplement.

HENRY A. BROWNLOW *Colonel, R. E.,*
Deputy Secretary to the Government of India.

No. 143 W. I.—316, dated 9th June 1882.

RESOLUTION—By the Government of Bombay, Public Works Department,

Read—

Letter from the Secretary to the Government of India, No. 1401., dated 29th April 1882.

ABSTRACT.—In returning for revision the Revenue Report of the Irrigation Department in Sind for 1880-81, forwarded with this Government letter No. 94 W.I.—198, dated 27th March 1882, points out that the figures showing the total direct and indirect receipts of canal revenue for 1880-81, as entered in Table VI. attached to the report, do not agree with those shown by the Examiner in his accounts, the difference between the two sets of figures being Rs. 42,647; again, under the head "Working Expenses," there is a difference of Rs. 1,77,455 between the Examiner's figures and those given in Table IV. of the report. Requests, therefore, that steps may be taken to establish a proper system of intercommunication between the Local Government and the Examiner of Public Works Accounts, in order to avoid such discrepancies in future. The Examiner should lay his accurate figures before the Local Government, and the Government should allow the Examiner the opportunity of checking his figures in the draft report before it is finally printed off. Adds that the Examiner is responsible for supplying correct figures, and these figures, and none other, should be used in the report. The report, herewith returned, should be re-submitted with the necessary alterations as early as possible.

Memorandum from the Examiner of Public Works Accounts, No. H.—72, dated 20th May 1882.

Abstract.—With reference to Government Memorandum No. 278I., dated 12th May 1882, reports as below:—

The figures of the Examiner's accounts, alluded to by the Government of India, with which Tables IV. and VI. appear to have been compared, are apparently those exhibited in the General Abstract of Financial Results appended at pages 36 and 37 of the Revenue Report, and these are in accord with the General Revenue Accounts furnished by the Examiner, to the Superintending Engineer for Irrigation in Sind.

2. The difference under receipts is chiefly due to the Superintending Engineer having included in direct receipts, assessments of Rs. 42,646, on account of water-cess in Khelat Territory, *vide* note at foot of Table III., against which no credits for actual realisations were afforded to this Department in the Treasury Accounts for 1880-81. This amount is not included in the Examiner's figures as water-rates which are treated as direct receipts, are accounted for according to actual realisations in the year in which they are effected and credited to this Department in the Treasury Accounts. Realisations, amounting to Rs. 26,000, on account of the above assessments, have been paid into the Treasury to the credit of this Department, during the year 1881-82, and this will be included in the Revenue Accounts of the canals concerned for that year. It may be here observed that the Superintending Engineer had pointed out the omission of the water-cess in question in the General Revenue Account furnished to him, and its omission was explained in paragraph 1 of the Examiner's No. H.—158 of 28th November 1881 (extract attached). On comparing the Table VI. with the General Revenue Accounts, other slight differences of one or two rupees have been noticed in the figures shown against some of the canals, which it is hardly necessary to detail here. The net total difference is Rs. 42,647, as pointed out by the Government of India, of which Rs. 4,21,646 are on account of water-cess in Khelat Territory, and one rupee on account of minor differences.

3. Table IV. exhibits only direct outlay, and the figures shown under Revenue expenditure includes also outlay incurred on agricultural works, for which neither Capital nor Revenue Accounts are kept, while the Examiner's figures of working expenses include both direct and indirect charges, debitable to Revenue Accounts. The two sets of figures may be reconciled as follows:—

	Rs.	Rs.	Rs.
Direct outlay under Revenue Expenditure as shown in Table IV.			10,44,354
Add—			
Refunds of Revenue debited to Revenue Outlay omitted by the Superintending Engineer, as stated in paragraph 9 of the report,		603	
Outlay from contributions on Revenue Works included by the examiner, but omitted by the Superintending Engineer		6,888	
Indirect charges for collection of revenue by the Civil Department, separately shown by the Superintending Engineer in the last column of Table VII., included by the Examiner in working expenses:—			
As shown in Table VII.	2,53,162		
Deduct—Collection charges for Rs. 42,646 on account of water-rates in Khelat Territory, not taken into account by the Examiner, for the reasons stated in paragraph 2 above	4,265	2,48,897	
			2,56,388
			13,00,742

M

Deduct—		
Outlay in agricultural works for which neither Capital nor Revenue Accounts are kept, included in Table IV., *viz.*,—		
Kashmor Bund	54,798	
Kasimpur Bund, included in the expenditure shown against bunds in Rohri	24,135	
		78,933
Total working expenses as per Examiner's Accounts .		12,21,809

4. The Examiner begs to forward, for the information of Government, copy of letter No. H.—16 of 28th ultimo, which he has addressed to the Superintending Engineer after the receipt of the printed copy of the Revenue Report, in which necessary explanation has been afforded for including the charge Rs. 603 on account of refunds in the Revenue Outlay. The expenditure incurred from contributions for constructions of sluices at Kariah heads, &c., on canals has been included by the Examiner in the Revenue Accounts, as hitherto. It has, however, been since settled on a reference lately received from the Executive Engineer, Fuleli division, and with concurrence of the Superintending Engineer that such outlay is not strictly chargeable to Revenue, and accordingly it will be omitted in future Revenue Accounts, as stated in paragraph 3 of the Examiner's letter quoted above.

5. The following points are also noticed with regard to classification and details of expenditure in Table IV.—

(1.) The expenditure on Kashmor and Kasimpur Bunds has been shown under Revenue Expenditure, but it should have been shown separately under the heading "Ordinary Agricultural Works, for which no Capital and Revenue Accounts are kept," as desired in paragraph 9 of Government Resolution No. 482 of 5th September 1881.

(2.) Jhali Bund is treated as a part of Ghar Canal per paragraph 10 of the Government Resolution above quoted, and the expenditure incurred on this bund has been accordingly included by the Examiner in the working expenses of that Canal, but the Superintending Engineer has included it in the outlay shown in the Table against bunds in Right Bank.

(3.) Tools and Plant charges are accounted for separately in the Examiner's Accounts, whereas these are included in the Table with those for establishment.

(4.) Under Revenue expenditure, the Superintending Engineer has distributed the establishment charges (including those for Tools and Plant) under works (*i. e.*, Extensions and Improvements) and Maintenance and Repairs, but no such distribution is recorded in the Examiner's Accounts, as this is not required to be shown in the Annual Finance or Administrative Accounts.

(5.) Likewise establishment charges for works for which only revenue accounts are kept are recorded in the Examiner's accounts in lump by each division. These have been distributed by the Superintending Engineer over different canals, which appear separately in the Table. As the canals, which are shown separately, are large, the Superintending Engineer has thought it proper to distribute the establishment charges, so as to show the total expenditure on each, and the Examiner has no objection to this being done, but he has no ready means in his office to check the figures without making special calculations.

(6.) In conclusion, the Examiner begs to state that the discrepancies between the Revenue Report and the figures given by his office may be explained by the addition of brief foot-notes to Tables VI. and IV. Instructions may also be issued to the Superintending Engineer to avoid such discrepancies in future by following the figures furnished by the Examiner in the General Revenue Accounts.

Memorandum from the Examiner of Public Works Accounts, No.H.—97, dated 31st May 1882.

Abstract.—With reference to Government Memorandum No. 2981., dated 29th May 1882, returns the Revenue Report of the Irrigation Department in Sind for 1880-81, with the addition of requisite notes in Tables IV. and VI., explaining the differences pointed out by the Government of India; states that it is inconvenient to make any alterations in the printed figures, and trusts that the notes, now made in the Tables, will suffice.

RESOLUTION.—Copy of the report, with the addition of the requisite notes to Tables IV. and VI., should be forwarded to the Government of India, with copy of this Resolution, in reply to their letter No. 140 I., dated 29th April 1882.

2. A copy of the corrected report should also be forwarded to the Commissioner in Sind and to the Chief and Superintending Engineers for Irrigation, for information and guidance.

3. The Superintending Engineer for Irrigation in Sind should be again reminded that the Examiner of Public Works Accounts is responsible for supplying correct figures, and that these figures must invariably be used.

C. J. MERRIMAN, Major-General, R. E.,
Secretary to the Government of Bombay.

GOVERNMENT OF INDIA.

REVENUE AND AGRICULTURAL DEPARTMENT.

REPORTS ON THE STATE OF THE SEASONS AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 15th AUGUST 1882.

GENERAL REMARKS.—There has again been good rain in all districts of Assam and Bengal, excepting Hazaribagh. In the North-Western Provinces and Oudh heavy rain has occurred in the Benares Division and Fyzabad, but there has been little or no rain elsewhere. In the Punjab only three districts have reported some showers. In Rajputana and Central India there has been a little rain in a few States. In the Central Provinces there has been cloudy weather, with occasional showers. Heavy rain in Raipur and Sambalpur. The Bombay Presidency has had rain in varying quantities in almost all districts, the notable exception being parts of the Deccan. The Berars have had no rain. In the Nizam's territories there has been a light fall. Mysore has reported rain in all districts. Coorg continues to receive a comparatively heavy rainfall, though not so heavy as in previous weeks. The Madras Presidency has enjoyed a good light rainfall in all districts, except Malabar where it was heavier. In British Burma there has been heavy rain, especially in Moulmein.

The agricultural prospects are as follows. Excessive rain has somewhat injured standing crops in one or two districts of Madras, in parts of Coorg, in the western tracts of Mysore, and in a few places in the Central Provinces.

A break in the wet weather has improved crops in the Central Provinces and in Jhánsi. Timely rain has improved prospects in parts of Madras, North-Western Provinces and Oudh, Bengal, Assam, and the Nizam's territories, which needed it.

More rain is, however, required in a few districts in Madras and the Deccan and in some of the Rajputana States; also in the larger part of the North-Western Provinces and Oudh and the Punjab.

The rise in the barometer noticed in last week's report was followed by a slight fall, but the general tendency has been towards a rise all over India at the end of the week, and, except around the margin of the Indian area, the pressure has risen above the normal average.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Aug. 16th)		
Bellary ...	1·78 (average of six stations).	Standing crops generally good, though dry partially withering and diseased; agricultural operations progressing.
Kurnool ...	1·17 (average of nine stations).	Prospects improved; standing crops generally benefited by timely showers; cattle-disease in parts.
Ganjam ...	1·22 (average of thirteen stations).	Standing crops thriving; harvest summer paddy, outturn average; fever, small-pox, and cattle-disease exist; cholera subsiding; transplanting paddy extremely backward owing to insufficient rain.
Kistna ...	·87 (average of nine stations).	Standing crops fair, but require water; fever and cattle-disease prevalent; small-pox slight.
Chingleput (Madras) ...	1·18 (average of ten stations).	Standing crops good under larger tanks and channels; agricultural operations progressing; cholera and small-pox in parts.
Coimbatore ...	·66 (average of eleven stations).	Paddy promising well; dry crops damaged by rain; want of rain felt; insects in some places; harvest dry crops, outturn about average; small-pox, fever, and cholera in parts.
Tanjore ...	·95 (average of twelve stations).	Crops good, except in parts damaged by breaches, withering in parts of one taluk for want of rain; cattle-disease in parts of one taluk.
Madura ...	·51 (average of six stations).	Standing crops fair, though withering in two taluks; harvest paddy, yield below average; fever and cholera in parts.
Malabar ...	7·54 (average of fourteen stations).	First crops generally good; small-pox, cholera, fever, and cattle-disease slight.
Travancore ...	3·54	Paddy crops beginning to ripen; fever continues. *General Remarks.*—General prospects good.
Bombay—(Aug. 16th)		
Kurrachee ...	Kurrachee, 89; Kotri, 2·65; Bulakhan, 1·25; Jerruck, 1·55; Keli, 1·61; Mirpur Botoro 3·0; Sujawal, 4·10; Jati, 2·30 Manjhand, 1·36; Mugulbin, 2·32.	Weather cloudy and damp; strong westerly breeze; fever in four talukas; 4 cases of small-pox in Tatta taluka; freshet from Gaj on 2nd; wheat, red rice, and *bajri* in Kurrachee 22, 36 and 35, in Manjhand 24, 44 and 46, in Ghorabari 18, 44 and 42, and in Jati 20, 40 and 44 lbs. per rupee, respectively.
Hyderabad ...	.....	River still in high flood; fever in three talukas; wheat 25, *juari* 45, *bajri* 40, red rice 30, and white rice 22 lbs. per rupee.
Ahmedabad ...	·08	Total rainfall 27·32; sowing of *bajri*, &c., completed; transplantation of rice continues; in Ahmedabad city 4 cases of cholera, all of which fatal; wheat 27 and *bajri* 31 lbs. per rupee.
Baroda ...	.....	Young crops thriving; cholera increasing at Amreli and decreasing at Manekwara; *bajri* 30 and common rice 24 lbs. per rupee.
Surat ...	·53	Total rainfall 32·44; crops generally healthy; *juari* 35 and *nagli* 52 lbs. per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Násik ...	Igatpuri, 2·56; Peint, 1·31; slight showers elsewhere.	Rain much wanted in Yeola and Baglan; sowing nearly completed; crops doing well; locusts continue in Nandgaon; slight cholera in Násik, Sennar, and Baglan; wheat 25, *bajri* 38, and rice 25 lbs. per rupee.
Colaba (Bombay) ...	Rain every day, except on 9th; total of week ·61.	Total rainfall to date 57·06, being 4·56 above average; average abnormal temperature 1° warm; vapour in air normal; abnormal wind from north-east on 9th, 10th, and 11th, from south-west on 15th; wind normal from 12th to 14th.
Poona ...	.....	Young crops suffering as usual from want of rain in Bhimthari, Indapur, and Sirur talukas; 13 cholera cases in Sirur and Bhimthari talukas, of which 6 fatal; *bajri* 45½ and *juari* 59¼, in Poona *bajri* 36¾ and *juari* 47¾ lbs. per rupee.
Ahmednagar ...	Very slight rain in Akola, Parner, Sheogaon, Nagar, Sangamner, and Rahuri; none in the rest.	Total average rainfall of the district 11·32; from want of rain *bajri* crop is withering in all talukas, except in Jhamkhed and Akola; cattle-disease in Nagar, Sheogaon, and Akola; cholera—in Parner 27 cases, 11 deaths, in Shrigonda 17 cases, 7 deaths, in Sheogaon 2 cases fatal; *bajri*—maximum 66 lbs. in Jhamkhed and minimum 43 in Shrigonda; *juari*—maximum 102 lbs. in Jhamkhed and minimum 54 in Kopergaon.
Sholapur ...	2·30; moderate rain everywhere.	Total rainfall 19·94; cholera more or less throughout, maximum number of cases in Barsi 51, minimum 1 in Malsiras—total cases 160, deaths 65; *bajri* 57 lbs. 3 tolas and *juari* 80 lbs. 37 tolas per rupee.
Dharwar	Good rain in eastern parts of district; Nargund, 4·54; Gadag, 3·33; Mundargi; 3·29; elsewhere—maximum at Hangal, 2·40; minimum at Karajgi, ·33.	Rain wanted in Ron; damaged crops improving by the break; land being prepared for cotton; *juari* sowing almost completed; public health good; cattle-disease in Hangal and Bankapur; prices stationary.
Kanara ...	Karwar, 5·43; Kumpta, 3·99; Sirsi, 6·01; Hallial, 2·57.	Total rainfall 85·78; rice, *ragi*, and sugarcane plants healthy; early rice crop in ear near Karwar; rains abating, and prospects improving; general health good; common rice in Karwar 11 seers, in district average 13¾ seers per rupee.
Rajkot ...	.....	Weather dry; crops thriving; cholera in some places; *bajri* 26 and *juari* 31 lbs. per rupee.
		General Remarks.—Rain in Kurrachee and floods in Shikarpur; break in weather general in Presidency districts; young crops are doing well, except in Kaladgi and parts of Ahmednagar, Poona, and Násik, where they are withering for want of rain; locusts in Khandesh and Násik; fever and cattle-disease in some districts; cholera in most districts of the Deccan and Southern Mahratta Country and in thana Khaira and parts of Kattiawar.
Bengal—(Aug. 16th)		
Chittagong ...	3·13	Weather seasonable; prospects of crops fair; cultivation of winter rice continues; prices steady; cholera, small-pox, and cattle-disease still prevail.
Dacca ...	3·55	Rain has done good to crops; cholera abating.
24-Pergunnahs (Calcutta)	1·84	Prospects of jute, early rice, and sugarcane continue satisfactory; cultivation of winter crops going on; insufficient rain has retarded transplanting of rice seedlings to some extent, but the crops not unpromising; prices of common rice unchanged; public health generally good; some sporadic cases of cholera reported from Diamond Harbour sub-division.
Moorshedabad ...	2·97	Prospects of crops better owing to late rain, but more rain still wanted for transplanting winter rice; autumn rice being harvested; except a little fever, public health fairly good.
Rajshahye ...	1·78; Nattore, 1·54	Rain of 14th will do some good to crops; winter rice being transplanted; fever abating.
Burdwan ...	0·63; Cutwa, 3·55; Culna, 0·89; Raniganj, 2·46.	Prospects of crops somewhat better, especially in Cutwa and Raniganj; fever and cholera reported.
Rungpore ...	3·38	Weather cloudy; transplanting of winter rice resumed; more rain wanted; public health good.
Bhagálpur ...	2·80	Prospects of crops good; rain has done much good to the young seedlings of winter rice.
Purneah ...	6·92	Prospects of crops very much improved; some autumn crops being harvested; transplanting going on vigorously; health fair; rivers high.
Patna ...	6·67	Prospects of autumn crops favourable; transplanting of rice seedlings going on in low lands; prospects better than last week; cholera has not yet disappeared from Barrh and Behar sub-divisions.
Durbhunga ...	8·87	Prospects of crops greatly improved; transplanting progressing vigorously; prices stationary; health improved.
Hazáribágh ...	*Nil*	Weather hot and close; autumn crops doing well; rain wanted for transplanting rice; small-pox still reported from one or two thanas, but general health good.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bengal—*contd.*		
Cuttack ...	1·31	Rivers have receded ; prospects of crops excellent ; cholera still prevalent.
		General Remarks.—Rain fell in all districts during the week, except in Hazaribagh ; general prospects have improved, but rain is still much wanted in many districts ; cultivation of winter rice has been resumed, and is progressing favourably where the rain was abundant during the week ; early rice and other autumn crops and sugarcane are doing well ; early rice and jute are being harvested in some districts, with fair average outturn ; sporadic cases of cholera and small-pox still reported from some districts ; fever has appeared in some districts, it is increasing in Nuddea, and is prevalent in Backergunge, but is said to be abating in Rajshahye.
N. W. Provinces and Oudh—		
Benares (Aug. 15th)	11·3 ; Chandauli, 6·6 ; Gungapore, 4·2.	Sufficient rain now fallen for transplanting late rice ; health of cattle good ; some isolated cases of cholera are still reported ; markets well supplied ; prices falling.
Cawnpore („ „)	No rain, except 0·1 in Bilhaur.	Weather somewhat cloudy ; prospects excellent, but rain wanted for some crops ; cholera increasing ; prices stationary.
Allahabad („ 16th)	Hardly any rain during the week, none in five tahsils.	Rain much wanted, especially for *bajri* lately sown ; rice much injured by long break ; cholera rapidly decreasing in amount and virulence ; prices rising.
Gorakhpur („ 15th)	Average 10·0 ; heavy rain all over the district for the last three days.	Rice crops greatly benefited ; prospects good ; health fair ; slight cholera ; prices falling.
Jhánsi („ 14th)	.....	Break in the rains has done good to standing crops, those which looked the worse from excessive rain are reviving ; weeding of cotton and *juari* in progress ; prices stationary ; cholera continues in two villages, but has disappeared in Segowlie ; cattle-disease is reported from parganas Jhánsi and Mau.
Agra („ 15th)	No rain	Slight fever continues in six parganas ; no cholera now in Ferozabad ; general health good ; prices slightly falling.
Farukkabad („ „)	Light rain in one tahsil, none elsewhere.	Rain much needed ; prices steady ; cholera still reported from Aligarh, but there were few fatal cases.
Bareilly („ „)	0·8	Weather hot, but seasonable ; crops excellent ; cholera on the increase and fever rather prevalent.
Meerut („ „)	Slight shower yesterday.	Hot westerly wind and clear sky till 13th, since then less heat and more cloud ; rain much wanted ; irrigation commenced where available ; health good ; supplies sufficient, but prices rising.
Kumaun („ „)	Rain light	Crops very good ; health good generally speaking ; cattle-disease somewhat less ; no change in prices.
Lucknow („ „)	Sadr, 1·0 ; Maliabad, 0·5 ; Mohanlalganj, 0·2.	Crops much benefited by the rain, but more still wanted ; rice crop suffering in Mohanlalganj for want of sufficient rain ; much sowing going on ; cholera still continues in city and district ; prices steady.
Rae Bareli („ 14th)	Sadr, 0·3 ; Digbijaiganj, 1·4.	Cholera on the increase ; cattle-disease continues in some villages of tahsil Dalman ; agricultural prospects fair ; prices stationary.
Partabgarh („ 15th)	.....	Crops doing very well at Kunda and Patti ; more rain wanted at Sadr, where *juari* and *bajri* are suffering somewhat from drought ; general health fair ; cholera in two tahsils.
Sitapur („ „)	Sitapur, 1·1 ; Sidhauli, 3·3 ; Biswan, 2·4.	Rain has done much good ; rice everywhere improved ; cholera still bad ; prices slightly rising ; markets well supplied.
Fyzabad („ „)	Sadr, 6·5 ; Akbarpur, tehsil, 5·3 ; Bikapur, 4·0 ; Tanda, 4·7.	*Kharif* crops promising ; slight cholera at Sadr and tahsils ; cattle-disease in tahsils Bikapur and Akbarpur.
		General Remarks.—Heavy rain in Benares division and Fyzabad, prospects much improved there, elsewhere a break in the rains has set in which is beneficial in Jhansi, but is causing injury in other districts ; prices on the whole stationary ; slight cholera general, except in Meerut division, but is decreasing in eastern districts ; fever has appeared in Rohilkhand ; cattle-disease continues in Oudh, Jhánsi, and Saharanpur.
Punjab—(Aug. 16th)		
Delhi ...	Rain required	Health fair ; slight rise in prices of food-grains.
Hissar ...	.....	Crops suffering from want of rain ; health good ; prices rising.
Umballa ...	.....	*Kharif* sowings finished ; health fair ; prices rising ; rain required.
Jullundur ...	No rain	Crops withering ; health good ; prices rising.
Amritsar ...	0·70	*Kharif* sowings completed ; health good ; prices rising.
Sialkot ...	0·50	Health good ; prices rising.
Lahore ...	No rain	Health good ; prices stationary.
Ferozepore ...	No rain	Health good ; prices stationary.
Mooltan ...	.....	No report received.
Rawalpindi ...	3·90	Health good ; prices falling.
Dera Ismail Khan ...	No rain	Agricultural prospects and health good ; prices steady.
Peshawar ...	No rain reported	*Kharif* prospects and health good ; prices stationary.
		General Remarks.—More rain is required in the Delhi, Hissar, Umballa and Jullundur districts ; in Hissar and Jullundur the crops are suffering from want of moisture ; the health of the province generally is good ; prices of food-grains generally show a tendency to rise.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces—		
Nagpur (Aug. 16th)	·18	Weather warm and cloudy; crops much improved by th continued break; cholera reported; prices of grain low.
Jubbulpore („ 15th)	·07	Weather cloudy; break beneficial for weeding operations which are in progress; cholera is abating.
Saugor („ 14th)	.....	Weather clear, favourable to crops; some damage caused by previous wet weather; cholera abating; prices stationary.
Seoni („ 15th)	·50	Break has facilitated weeding; *kharif* crops flourishing; cholera and small-pox prevailing.
Khandwa („ „)	·13	Weather cloudy and close; *kharif* prospects good; cholera prevalent; wheat 14 seers per rupee.
Hoshangabad („ „)	·12	Cloudy, with occasional showers; weeding in progress; small-pox and cholera prevalent; rice 9 seers per rupee.
Raipur („ 12th)	5·87, heavy rain	Weather cloudy and close; *kharif* crops progressing; cholera prevalent; rice 45 seers per rupee.
Sambalpur („ 10th)	9·21, heavy rain	Break much needed; fever prevalent; rice 36 seers per rupee.
		General Remarks.—Weather cloudy and close, with occasional showers; break has facilitated weeding operations; *kharif* crop promises favourably; cholera and small-pox still reported; prices stationary.
British Burma—(Aug. 16th)		
Akyab ...	7·20	Total rainfall 156·09 inches; 4 deaths from cholera in one township, disease also prevailing in another township, small-pox in one township, otherwise public health good; cattle-disease severe in one township; sowing nearly finished.
Rangoon ...	4·37	Total rainfall 54·66 inches; 1 fatal case of cholera, otherwise public health good; progress of crops favourable.
Bassein ...	8·72	Total rainfall 82·90 inches; 27 deaths from cholera in one and 16 in another township, also 1 death in Bassein town, otherwise public health good; cattle-disease in three townships; ploughing and planting out proceeding favourably.
Prome ...	2·31	Total rainfall 25·16 inches; no deaths from cholera in Prome town, but 14 deaths in Mahathaman township, otherwise public health good; ploughing proceeding.
Amherst (Moulmein) ...	15·33	Total rainfall 141·92 inches; public health in Moulmein and district good; cattle-disease still prevalent in three townships; resowing at places where crops destroyed by excessive rain.
Toungoo ...	2·65	Total rainfall 53·06 inches; 1 death from small-pox in town, otherwise public health fair; slight cattle-disease in two townships.
		General Remarks.—Cholera in Akyab, Tharrawaddy, Bassein, Henzada, and Prome and a few cases elsewhere; a little small-pox in Akyab and Toungoo, public health otherwise good; cattle-disease still prevalent in many places.
Assam—(Aug. 16th)		
Gauhati ...	5·03	Rain very opportune and apparently sufficient for transplanting operations; river rising; public health good.
Sylhet ...	6·12	Cultivation for, and transplantation of, *sali* paddy going on rapidly; *aus* paddy being harvested, a better crop than expected; some *amun* in some danger from rapid rise of waters; weather good for tea.
Cachar ...	4·30, rainy	State of *dumahi* and *murali* crops and tea favourable; transplanting of *sali* crops going on; common rice 25¾ seers per rupee; health good; no more cattle-disease reported.
Dibrugarh ...	2·82	Weather seasonable; *sali dhan* being transplanted rapidly; *ahu dhan* nearly harvested; public health generally good; cattle-disease still continues in a few places.
Mysore and Coorg—(Aug. 16th)		
Bangalore ...	1·07	Crops in good condition; prospects favourable.
Mysore ...	2·40	Crops in good condition; prospects favourable.
Mercara ...	6·36	Monsoon continues, but is lighter; transplanting of rice nearly finished; the crop in the north-east Coorg and young coffee plants have suffered from excessive rain.
		General Remarks.—Rain has fallen generally throughout the Mysore State, largest quantity 2·58 at Chickmagalur; crops in good condition, but those on the western side of the State are suffering from excessive rain; propects favourable; public health good; prices satisfactory.
Berar & Hyderabad—(Aug. 16th)		
Amráoti ...	.....	*Kharif* and cotton crops progressing favourably; price of wheat 16 and *juari* 28 seers per rupee.
Akola ...	.....	Crops in good condition; prospects favourable.
Hyderabad ...	2·33	*Kharif* crops benefited; *rabi* sowings recommenced, except in one taluka where there has been very little rain; prices—wheat 15¾, coarse rice 10¼, white *juari* 25¾, yellow *juari* 30, and *tur* 26½ seers per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central India States—(Aug. 16th)		
Indore ...	·93	Prospects unchanged; a few cases of cholera in Indore city, otherwise health good.
Morar (Gwalior) ...	No rain	Health and prospects good; rain much needed for crops.
Sutna ...	·03	A few cases of cholera at Sutna; prospects good.
Rutlam ...	.....	From 29th July to 4th August, 34 cases of cholera, of which 18 were fatal.
Neemuch ...	No rain	Public health good; crops thriving.
Goona ...	No rain	Health good; wheat 21 seers per rupee; prospects fair.
Bhopal ...	·07	Prospects of crops good.
Agar ...	.....	The break in the rains continues; prospects good; health at Agar good; prospects of crops good.
Nowgong ...	·01	*Kharif* crops good; prices stationary; cholera still prevalent, and a few cases of small-pox.
Manpur ...	No rain	Health good; prices stationary.
Rajputana—		
Abu (Aug. 16th)	·91	Weather gloomy, with occasional showers.
Sirohi („ 13th)	.....	Tanks, wells, health, and prospects good.
Marwar („ 11th)	No rain	Four months' water in tanks; wells almost full; health good; crops in good condition; weather cloudy; winds sharp; nights cool; prices stationary.
Meywar („ 12th)	No rain	Tanks and wells good; health fair; crops very good.
Harowti („ „)	No rain	Crops good; weeding progressing; cholera prevails, though less at Tonk; weather cloudy and warm.
Jhallawar („ 9th)	2·20	Weather bright; prospects fair.
Ajmere („ 15th)	No rain	Sowing continues; prospects good; health fair, but cholera not quite disappeared.
Jeypore („ „)	*Nil*	Prices stationary; cholera in city slightly on the increase, averaging 6 fatal cases daily.
Ulwur („ „)	.....	The break in the rains continues; rain wanted; prices steady; health fair.
Nepal—		
Katmandu (Aug. 11th)	5·09	Weather cool; outturn of Indian-corn likely to be below average; rice doing well.

Circular No. 35G.

Extract from the Proceedings of the Government of India in the Revenue and Agricultural Department (General),—under date Simla, the 10th August 1882.

Read—

Correspondence regarding an earthquake felt in the Nicobar and Andaman Islands on the 31st December 1881.

Proceedings in the Department of Public Works during 1878-1879-1880 on the subject of seismological observations in India.

RESOLUTION.

In 1877 it was suggested by the Royal Society of Great Britain that a systematic observation of earthquake shocks should be instituted in India through the medium of the principal telegraph stations. The scheme was discussed, but eventually was abandoned owing to circumstances which prevented the Society from co-operating, and no efficient means of observing the phenomena of earthquakes in British India at present exist.

2. The Superintendent of the Geological Survey and the Meteorological Reporter to the Government of India have frequently represented the desirability of establishing at a small number of places some cheap and simple means of taking such observations in future. The Superintendent of the Geological Survey states that a set of instruments of the kind detailed in the margin, which will enable the direction and strength of an earthquake to be approximately recorded, can be procured at a cost of Rs. 105. A shed or small room would also be needed, but the entire cost of the instruments and building would probably not exceed Rs. 250 for each station. By attaching the stations to 1st or

Set of eleven brass cylinders; pillar 6″ square, 7′ long; measuring rod; compass with swinging card; spirit-level; set of eleven wooden pegs and discs.

2nd Class Meteorological Observatories no expenditure would be required on establishment, as the duty of looking after the instruments and registering the results on the occurrence of a shock could be performed by the Meteorological Observer with very little extra trouble.

3. The Meteorological Reporter having been consulted as to these proposals, the Government of India has resolved to sanction a sum of Rs. 2,000 for the purchase of the necessary instruments and the erection of observatory sheds at such meteorological stations in Bengal and Northern India as may be decided on by the Superintendent of the Geological Survey and the Meteorological Reporter to the Government of India in consultation.

The arrangements when completed should be reported by these officers for the information of the Government of India.

ORDER.—Ordered, that a copy of the above Resolution be forwarded to the Superintendent, Geological Survey, and Meteorological Reporter to the Government of India for information and guidance, and to all Local Governments and Administrations,* and the Departments of Finance and Public Works for information.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ABSTRACT OF THE PROCEEDINGS OF THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA, ASSEMBLED FOR THE PURPOSE OF MAKING LAWS AND REGULATIONS UNDER THE PROVISIONS OF THE ACT OF PARLIAMENT 24 & 25 VIC., CAP. 67.

The Council met at Government House, Simla, on Wednesday, the 16th August, 1882.

PRESENT:

His Excellency the Viceroy and Governor General of India, K.G., G.M.S.I., G.M.I.E., *presiding*.

His Honour the Lieutenant-Governor of the Panjáb, K.C.S.I., C.I.E.

His Excellency the Commander-in-Chief, G.C.B., C.I.E.

The Hon'ble J. Gibbs, C.S.I., C.I.E.

Major the Hon'ble E. Baring, R.A., C.S.I., C.I.E.

Lieutenant-General the Hon'ble T. F. Wilson, C.B., C.I.E.

The Hon'ble C. P. Ilbert, C.I.E.

The Hon'ble Sir S. C. Bayley, K.C.S.I., C.I.E.

The Hon'ble T. C. Hope, C.S.I., C.I.E.

The Hon'ble C. H. T. Crosthwaite.

The Hon'ble W. C. Plowden.

BURMA STEAM-BOILERS AND PRIME-MOVERS BILL.

The Hon'ble MR. ILBERT moved that the Report of the Select Committee on the Bill to provide for the inspection of Steam-boilers and Prime-movers attached thereto in British Burma be taken into consideration. He said:—

"This Bill was introduced by Mr. Stokes on the 2nd of March. Its object is to make provision for the inspection and licensing of steam-boilers and

prime-movers in British Burma, and it is framed on the lines of the Bengal Act, III of 1879, which provides for the inspection of steam-boilers in Calcutta and the neighbourhood.

"The Bill extends, in the first instance, only to the towns of Rangoon, Maulmain, Akyab and Bassein, but there is power to extend it to other parts of British Burma by notification. It has been published three times in the *British Burma Gazette*, and has been commented on by the Chief Commissioner and certain of his officers and others whom he has consulted. The Select Committee have taken into consideration the suggestions made for the amendment of the Bill, and adopted such of them as appear practicable and expedient. There is, however, one suggestion of importance which we have not adopted, and it is this: it is a suggestion of the Chief Commissioner that the Bill should be made applicable to steam-launches. We considered this suggestion, but came to the conclusion that it would be more convenient to provide for steam-launches by the measure now in preparation for the survey of steamers.

"The Report of the Select Committee was presented on the 12th of July, and I presume that it has been in the hands of Members of Council."

The Motion was put and agreed to.

The Hon'ble MR. ILBERT also moved that the Bill as amended be passed.

The Motion was put and agreed to.

INDIAN RAILWAY ACT, 1879, AMENDMENT BILL.

The Hon'ble MR. ILBERT also moved that the Hon'ble Mr. Hope be added to the Select Committee on the Bill to amend the Indian Railway Act, 1879.

The Motion was put and agreed to.

CENTRAL PROVINCES TENANCY BILL.

The Hon'ble MR. CROSTHWAITE moved that Major the Hon'ble E. Baring and the Hon'ble Sir S. C. Bayley be added to the Select Committee on the Bill to consolidate and amend the law relating to Agricultural Tenancies in the Central Provinces.

The Motion was put and agreed to.

CENTRAL PROVINCES LOCAL RATES BILL.

The Hon'ble MR. CROSTHWAITE also moved that His Honour the Lieutenant-Governor of the Panjáb be added to the Select Committee on the Bill to provide for the levy of rates on land in the Central Provinces.

The Motion was put and agreed to.

The Council adjourned to Wednesday, the 30th August, 1882.

SIMLA;

No. 717*F*.—Mr. J. S. Battie, Sub-Assistant Conservator of Forests in the North-Western Provinces and Oudh, is appointed to officiate until further orders as an Assistant Conservator of Forests of the 3rd Grade, with effect from the 16th August 1882.

A. MACKENZIE,

Secy. to the Govt. of India.

REVENUE AND AGRICULTURAL DEPARTMENT.

NOTIFICATIONS.—SURVEYS.

Simla, the 25th August 1882.

No. 340*S*.—The services of Captain G. W. Martin, Assistant Superintendent of the 3rd Grade, Survey of India, are placed at the disposal of the Finance Department.

EXHIBITION.

The 24th August 1882.

No. 151 *Ex.*—An International Exhibition of Colonial productions and articles of general exportation and works of art will be held at Amsterdam in May 1883, to which the Government of India has decided to send samples of raw products, and articles of manufacture other than art or ornamental ware. Exhibits will be ranged under the following classes:—

I.—Animal Products.

1. Wool and hair.
2. Silk, raw, and cocoons.
3. Hides, skins, leather and horns.
4. Butter, oils, fat and grease.
5. Fish.
6. Wax and honey.
7. Musk.
8. Others.

II.—Mineral Products.

1. Building materials.
2. Coal.
3. Chemical products.
4. Metals.
5. Other minerals.

III.—Vegetable Products.

1. Cereals and pulses.
2. Other food-grains and tubers.
3. Coffee.
4. Drugs and medicines.
5. Dyeing and tanning materials.
6. Fibrous substances adapted for the preparation of textile fabrics or of paper.
7. Fodder plants.
8. Fruits, nuts, pickles, preserves and condiments.
9. Hops.
10. Substances used for matting.
11. Oils, oilseeds and oilcake.
12. Perfumery.
13. Spices.
14. Starches and meals.
15. Sugar and spirits.
16. Tea.
17. Tobacco and cigars.
18. Others.

IV.—Manufactured Articles.

1. Carpets and rugs.
2. Cane chairs, &c.
3. Gunny cloths and bags.
4. Mats.
5. Photographs.
6. Rope and cordage.
7. Others.

Exhibits of the above classes will be received from private exhibitors under the following conditions:—

(1) Each sample should not ordinarily exceed 2 lbs. in weight. [This restriction will not apply to such articles as carpets, mats, rope, cordage, &c., which will be taken in a reasonable quantity.]

(2) Freight and all other cost to be paid by the exhibitor up to its arrival at Calcutta. All subsequent charges will be paid by Government.

(3) Samples should ordinarily be put up in small cloth bags of a uniform size, the standard size being that capable of containing one lb. of wheat or rice. Any exhibitor will, however, be allowed to display samples in an ornamental show case, if provided and transmitted to the Exhibition at his own expense.

(4) A label should be attached to each sample on which should be legibly written—

(*a*) Name of district where produced.
(*b*) Name and address of exhibitor.
(*c*) Name of article.
(*d*) Name of variety (if different varieties are sent).
(*e*) Wholesale price of the article at the place of production.

(5) Samples of ordinary articles exceeding 2 lbs. in weight, but not exceeding 40 lbs. (half a maund), will be admitted for exhibition if the exhibitor will pay the freight and provide, or pay for the construction of, suitable cases.

(6) Permission to send exhibits through the Government agency should be obtained before their despatch. Application for permission will not be received after the 1st of December, and the latest date up to which exhibits will be received is 1st of January 1883.

The Government of India has appointed Babu T. N. Mukharji to superintend operations connected with the collection of exhibits for Amsterdam. Communications which do not require reference to the Government of India should be addressed to Babu T. N. Mukharji, Officer in charge of Amsterdam Exhibits, Revenue and Agricultural Department, Calcutta.

E. C. BUCK,
Secy. to the Govt. of India.

FOREIGN DEPARTMENT.

NOTIFICATIONS.—GENERAL.

Simla, the 22nd August 1882.

No. 490 *G.*—Lieutenant-Colonel W. H. Ross, Bombay S. C., 2nd-in-Command, 26th Regiment, Bombay Native Infantry, is appointed to officiate temporarily as Cantonment Magistrate at Baroda, in addition to his other duties.

The 23rd August 1882.

No. 504 *G.*—Mr. A. H. T. Martindale, M.C.S., is appointed to officiate temporarily as an Additional Political Agent of the 1st Class and is posted as Political Agent at Kotah, with effect from the date of assuming charge, during the absence on privilege leave of Major C. A. Baylay.

POLITICAL.

The 22nd August 1882.

No. 493 *G.*—With reference to Notification No. 97 G.P. of the 6th April 1882, His Excellency the Viceroy and Governor General in Council is pleased to recognise the appointment of Mr. A. Gerdes, Acting Consul for Germany, as Consul for Germany at Madras.

C. GRANT,
Secy. to the Govt. of India.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATIONS.

Simla, the 24th August 1882.

No. 3352.

RESOLUTION—By the Government of India, Department of Finance and Commerce.

A question having been raised as to whether Stock Notes are to be received as collateral security from contractors in the same way as ordinary Government Promissory Notes are received, the Governor General in Council is pleased to decide that there shall be no distinction between the two classes of Notes so far as security deposits are concerned. As, however, the interest on Stock Notes is payable to bearer and the notes are transferable without endorsement, His Excellency in Council considers that they should always, if possible, be lodged in Government Treasuries for safe custody when tendered as security to any officer of Government. The necessary instructions for their safe custody in Treasuries will be issued in due course by the Comptroller General.

ORDERED, that this Resolution be communicated for information and guidance as follows:—

To the several Departments of the Government of India.

To the several Local Governments and Administrations.

To the Comptroller General and several Accountants General.

To the several Heads of Departments administered by the Government of India in this Department.

Ordered also, that the Resolution be published in the *Gazette of India* for general information.

The 25th August 1882.

No. 3405.—Whereas the Government of His Highness the Maharaja of Mysore has raised a debenture loan of Rs. 20,00,000 for the construction of a line of Railway from Bangalore to Tiptoor, and has paid to the Government of India Rs. 5,000 as composition for the stamp duty payable under the Indian Stamp Act (I of 1879) on the debenture bonds of the said loan when negotiated in British India :

In exercise of the powers conferred by Section 8 of the Indian Stamp Act I of 1879, the Governor General in Council is pleased to remit in the whole of British India the stamp duty payable on the debenture bonds of the said loan when negotiated in British India.

D. M. BARBOUR,
Secy. to the Govt. of India.

HENRY F. BLANFORD,

Meteorological Reporter to Government of India.

THE INDIAN LAW REPORTS.

PUBLISHED UNDER AUTHORITY.

The "Indian Law Reports," published under the authority of the Governor General in Council, will appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series. The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set :

Terms of subscription, payable annually in advance.

	Without Postage.	With Postage.
For the CALCUTTA SERIES ...	Rs. 35	Rs. 37-8
" MADRAS SERIES ...	" 8	" 9
" BOMBAY SERIES ...	" 8	" 9
" ALLAHABAD SERIES	" 8	" 9
Complete set... ...	" 45	" 47-8

The price of each Part purchased separately will vary according to the amount of matter it contains, and will be printed on the wrapper. It will, however, never be below the following :—

For a Part of the CALCUTTA SERIES ...	Rs.	3	8
" " MADRAS SERIES ...	"	1	0
" " BOMBAY SERIES ...	"	1	0
" " ALLAHABAD SERIES.	"	1	0
Complete set	"	4	0

Persons desiring to subscribe for or purchase the Reports, should apply to—

MESSRS. THACKER, SPINK AND CO., CALCUTTA;
MESSRS. THACKER AND CO., BOMBAY;
MESSRS. HIGGINBOTHAM AND CO., MADRAS;
THE GOVERNMENT CENTRAL BOOK DEPOT, BOMBAY;
THE GOVERNMENT BOOK DEPOT, ALLAHABAD.

Orders and Subscriptions for 1878 should be at once remitted.

BENGAL CIVIL FUND.

At an adjourned Half-yearly General Meeting of Subscribers to the Bengal Civil Fund held at the Town Hall on Monday, the 7th August 1882, at 10-30 A.M.

PRESENT:—The Hon'ble L. R. Tottenham; the Hon'ble A. T. Maclean; the Hon'ble T. T. Allen; C. C. Stevens, Esq.; A. C. Brett, Esq.; D. R. Lyall, Esq.; J. Westland, Esq.; W. H. Grimley, Esq.; H. J. S. Cotton, Esq.; C. A. Wilkins, Esq.; J. A. Bourdillon, Esq.; A. W. Paul, Esq.; and C. S. Bayley, Esq.

D. R. Lyall, Esq., in the Chair.

The following report was submitted by the Managers:—

REPORT.

1. The Managers submit the proceedings for the past half-year for the consideration and sanction of the meeting.

2. Subject to the approval of the subscribers, they have admitted to the benefits of the Fund the following families:—

	£	
Mrs. Richardson	300	The widow and eight children of the late Mr. H. C. Richardson, who died at Edinburgh on the 13th March 1882.
Eight children	820	
TOTAL	1,120	
Lady Erskine	£ 300	The widow of the late Lord Erskine, who died at Torquay on the 28th March 1882.
Mr. Magrath's posthumous son	£ 30	The posthumous son of the late Mr. C. F. Magrath, admitted from date of birth, *viz.*, 14th April last, in addition to the widow who was admitted by the last meeting from the date of Mr. Magrath's decease, *viz.*, 13th October 1881.
Mrs. Farquharson	£ 300	The widow and ten children of the late Mr. R. N. Farquharson, who died at Dunbridge, South Devon, on the 23rd May 1882.
Ten children	950	
TOTAL	1,250	

3. The Managers will propose the following addition to, and amendment of, the rules:—

After Article XXIII insert a new Article.

ARTICLE XXIII (*A*).

"Should the wife of a subscriber obtain a divorce from her husband, the Managers have the power, on receipt by them of a copy (which must be furnished within six months) of the order of the Court making the divorce absolute, to declare that they will, for the purposes of these rules, consider her to be still his wife.

In no case in which the Managers may exercise the above power shall any other person subsequently married to such subscriber be entitled to receive any benefit from the Fund, so long as his former wife remains alive and unmarried, and unless the subscriber shall survive his divorced wife."

After Article XXIV add—

"The word widow in this article shall, after the death of her former husband, include a lady on whose behalf the Managers have exercised the power conferred by Article XXIII (*A*)."

4. Mr. A. O. Hume, C.B., will propose the following modification of Article XXXVII of the Rules:—

"Provided, however, that if any subscriber shall duly pay his subscription within one month of the date on which he actually draws the pay or pension on which it is due, he shall not be liable to any penalty on account of having been unable for the period of twelve months or more to draw the pay or pension due to him."

5. The Managers have to report that the Hon'ble G. G. Morris, Senior Puisne Judge of the High Court, has obtained leave of absence for five months and twenty days. In accordance with Article XXII(*b*) of the revised rules, the Hon'ble W. F. McDonell, V.C., as Senior Puisne Judge, High Court, becomes an *ex-officio* Manager, and the Hon'ble L. R. Tottenham has been invited to join the Board of Managers in succession to Mr. McDonell.

6. The Managers have to report that Mr. Macaulay has resigned his appointment as Secretary to the Fund, and that they have appointed Mr. C. S. Bayley as his successor.

7. The Managers desire to give notice that they will at the January meeting, 1883, propose the following addition to Article III of the Rules:—

"In the case of subscribers holding appointments of which the pay has been fixed on a basis which specially exempts the holder from the 4 per cent. Annuity Fund Deduction, the salary shall, for the purposes of this rule, be taken as if the said 4 per cent. were added to the nominal amount."

8. The Secretary of State's despatch on the subject of the transfer of the Fund to Government, together with the Manager's reply, has been circulated for the information of the subscribers. The matter is still under consideration of Government.

Proposed by *Mr. Lyall* and seconded by *Mr. Cotton* and carried, that the proceedings of the Managers in admitting to the benefits of the Fund the families of the late Mr. H. C. Richardson, Lord Erskine, and Mr. R. N. Farquharson, and the posthumous son of the late Mr. C. F. Magrath, be confirmed.

Mr. Westland then proposed that the consideration of the further business mentioned in the report should be postponed until the next January meeting of the subscribers. It was, he considered, undesirable that an important change in the rules such as that contemplated by the Managers in their proposed Article XXIIIA, and in the amendment of Article XXIV, should be brought forward at the July meeting when a few subscribers only ordinarily attended. The rule, moreover, in its present shape would not meet the desired end, and might lead to unexpected complications.

Mr. Wilkins seconded the proposal on the ground that there was not sufficient information before the subscribers to enable them to judge of the necessity for the proposed alterations.

Mr. Allen said that the matter had been very fully considered by the Managers whose decision had been in favour of the rule in its present shape. The power to be vested in the Managers should be, as it was proposed to make it, merely discretionary, but he considered that some rule of the kind proposed was absolutely necessary to protect the interests of wives who might be debarred from the benefits of the Fund by no fault of their own. To frame a rule which should meet all possible cases and complications which might arise, was absolutely impossible, but that fact need not prevent any rule at all from being framed.

Mr. Westland's proposal was then put to the vote and carried.

Mr. Wilkins then asked whether the Managers could afford any information to the subscribers regarding the circumstances under which the proposal to amend the rules had arisen.

Mr. Allen replied that a case had occurred in which a subscriber had been divorced from his wife in consequence of his own misconduct, and that the Court in granting a decree ordered that he should continue to pay such subscriptions to the Fund as would secure to the petitioner the benefits allowed by the Fund. Long previously to the divorce the lady's relations had contributed on her behalf to the Fund, and it was felt by the Managers to be a hardship that she should now lose the benefit of all subscriptions which had been paid in her behalf. In view also of the judgment of the Court which had provided that the respondent should continue to pay to the Fund on behalf of the petitioner such subscription as would entitle her to the benefits of the Fund at his decease, it was exceedingly desirable that the rules should admit of the terms of the decree being carried out. There was reason to believe that the subscriber in question had married again already, and there was nothing in the rules to prevent him from bringing his second wife on to the Fund.

In answer to an enquiry from *Mr. Cotton*, the Secretary stated that no further communication had been received from the Government of India regarding the proposal of the Secretary of State to take over the Fund.

In the absence from the meeting of Mr. Hume and of any subscriber authorized to bring forward the modification of Article XXXVII proposed by him, the motion standing in his name was not put to the meeting.

The meeting separated with a vote of thanks to the Chairman.

D. R. LYALL,
Chairman.

BENGAL CIVIL FUND OFFICE,
The 7th August 1882.

PROMISSORY NOTES.

Lost

The sixty-seven Government Promissory Notes of 1865, of which five notes bearing Nos. 040121 to 040125 of the 4 per cent. of the Bengal Bank, for Rs. 10,000 each, sixty-one Notes, Nos. 040126 to 040186 of the 4 per cent., for Rs. 10,000 each, and one Note, No. 040187, of the 4 per cent., for Rs. 5,600, originally standing in the name of Fakhrudin Mahamad Ahsan *alias* Azimuddin Chowdhory of Dulai, in the District of Pubna, and last endorsed to Mohameduddin Ahmed *alias* Hyderjan Chowdhory, the proprietor, by whom they were never endorsed to any other person. 4. Examination of, and grant of certificates to, engineers.
5. Use of boiler or prime-mover without license prohibited.
6. On notice from owner, Inspector to examine boiler or prime-mover.
7. Inspector may require owner to alter boiler or prime-mover.
8. When Inspector to grant license.
9. Licensing of boilers, &c., in charge of certain engineers.
10. License to state period for which it is to be in force.
11. Revocation or suspension of license.
12. Appeal against refusal, revocation or suspension of license.
13. Power of Inspector to enter place or building.
14. Penalties.
15. Engineer signing false report under section 9.
16. Charges not to be brought after six months or without Inspector's sanction.
17. Power to define limits of towns.
18. Power to make rules.

FIRST SCHEDULE.—FORM OF LICENSE.

SECOND SCHEDULE.—REPORT OF ENGINEER.

THIRD SCHEDULE.—FORM OF LICENSE TO BE ENDORSED ON REPORT OF ENGINEER.

An Act to provide for the inspection of Steam-boilers and Prime-movers attached thereto in British Burma.

Preamble.

WHEREAS it is expedient to provide in British Burma for the inspection of steam-boilers and prime-movers attached thereto, and for the management of the same by competent engineers; It is hereby enacted as follows :—

Short title.

1. *(1)* This Act may be called the Burma Steam-boilers and Prime-movers Act, 1882.

Commencement.

(2) It shall, except where it is otherwise expressed, come into force on such day as the Chief Commissioner of British Burma, with the previous sanction of the Governor General in Council, may, by notification in the *British Burma Gazette*, direct.

Local extent.

(3) It extends in the first instance only to the towns of Rangoon, Maulmain, Akyab and Bassein; but the Chief Commissioner may, from time to time, by notification in the *British Burma Gazette*, extend it, from such date as may be specified in the notification, to any other local area in the territories administered by him.

Savings.

(4) Nothing in this Act shall apply to any locomotive engine used on a railway, or to any engine on board of a ship, launch or boat.

2. In this Act, unless there is something repugnant in the subject or context,—

Definitions.

"boiler" includes any vessel used for generating steam under pressure:

"boiler":

"prime-mover" includes any steam-engine, and a fly-wheel, first driving shaft or pulley when attached to any such engine:

"prime-mover":

"owner" includes also any person using any boiler or prime-mover as agent of the owner thereof, and any person using a boiler or prime-mover which he has hired from the owner thereof:

"owner":

"Inspector" means a person appointed under this Act to be an Inspector.

"Inspector."

3. *(1)* The Chief Commissioner may, at any time after the passing of this Act, and from time to time, appoint such persons to be Inspectors as he thinks fit, and suspend or remove any person so appointed.

Appointment of Inspectors.

(2) The persons so appointed shall, within such local area as the Chief Commissioner may, from time to time, direct, exercise the powers and perform the duties conferred and imposed by or under this Act on an Inspector.

4. The Chief Commissioner may, at any time after the passing of this Act, and from time to time, make rules regulating the examination of, and the grant (with or without examination) of certificates to, persons to act as engineers of the first or second class under this Act, and the cancellation of certificates so granted.

Examination of, and grant of certificates to, engineers.

5. *(1)* After such day as the Chief Commissioner may, by notification in the *British Burma Gazette*, fix in this behalf, a boiler or prime-mover shall not be used unless a license authorizing its use has been granted under this Act and is in force.

Use of boiler or prime-mover without license prohibited.

(2) Such a license shall not be granted in respect of a boiler or prime-mover unless it is in charge of an engineer to whom a certificate has been granted in accordance with the rules made under section four, and its condition has been ascertained as hereinafter provided.

6. *(1)* When the owner of a boiler of prime-mover desires to obtain a license in respect thereof, he shall give notice of his intention to use the boiler or prime-mover to the Inspector for the local area within which it is situate.

On notice from owner, Inspector to examine boiler or prime-mover.

(2) On receipt of the notice, the Inspector shall appoint a day and time, after sunrise and before sunset, for the inspection of the boiler or prime-mover. The day so appointed shall be a day, if the boiler or prime-mover is situate in the town of Rangoon, Maulmain, Akyab or Bassein, not later than seven days, and if it is situate elsewhere, not later than thirty days, from the day on which the notice is received.

(3) On the day and at the time so appointed, the Inspector shall carefully examine the boiler or prime-mover, and every part thereof; and the owner or person in charge thereof shall afford to the Inspector all reasonable facilities for the examination and all such information regarding the boiler or prime-mover as he may reasonably require.

7. If, on making the examination under section six, the Inspector is of opinion that the boiler or prime-mover requires any alteration or addition, he shall refuse to grant a license until the alteration or addition is made, and shall serve on the owner of the boiler or prime-mover a written notice of his refusal, specifying the alteration or addition which, in his opinion, is required.

Inspector may require owner to alter boiler or prime-mover.

8. When the Inspector is satisfied—

When Inspector to grant license.

(*a*) that the boiler or prime-mover is in good condition, and not so exposed as to be likely to be dangerous, and

(*b*) that the boiler or prime-mover is in charge of an engineer to whom a certificate has been granted in accordance with the rules made under section four,

he shall give to the owner thereof a written license, signed by him, in the form prescribed in the first schedule hereto annexed, or a form to the like effect, on payment, by the owner, of such fee as the Chief Commissioner may by rule prescribe.

9. *(1)* When a boiler or prime-mover is in charge of an engineer who has obtained, in accordance with the rules made under section four, a certificate as engineer of the first class, the Chief Commissioner may, by an order in writing, direct that the report of that engineer shall, for the purpose of granting a license under this Act in respect of that boiler or prime-mover, be received as sufficient evidence of the matters referred to in section eight, clause (*a*).

Licensing of boilers, &c., in charge of certain engineers.

(2) The Chief Commissioner may rescind any order made under clause *(1)*.

(3) If the owner of any boiler or prime-mover in respect of which an order under clause *(1)* is in force presents to the Inspector, at the time of giving notice in respect of that boiler or prime-mover under section six, a report in respect of that boiler or prime-mover in the form prescribed in the second schedule hereto annexed, or a form to the like effect, and signed by the engineer mentioned in the order, and pays to the Inspector such fee as aforesaid, the Inspector shall, notwithstanding anything hereinbefore contained, endorse on the report a license in the form prescribed in the third schedule hereto annexed, or a form to the like effect, without examining the boiler or prime-mover.

10. Every license granted under this Act shall state the period for which it is to continue in force, and shall cease to be in force on the expiration of that period.

License to state period for which it is to be in force.

11. Any person authorized by the Chief Commissioner in this behalf may revoke or suspend any license granted under this Act in respect of any boiler or prime-mover when he has reason to believe—

Revocation or suspension of license.

(*a*) that the license has been fraudulently obtained, or has been granted erroneously, or without sufficient examination; or

(*b*) that the boiler or prime-mover in respect of which it has been granted is not in charge of an engineer to whom a certificate has been granted in accordance with the rules made under section four, or is not in good condition, or has, since the granting of the license, sustained injury; or

(*c*) where the license has been granted under section nine, that the boiler or prime-mover has ceased to be under the charge of the engineer on whose report the license was granted.

Appeal against refusal, revocation or suspension of license.

12. *(1)* The owner of any boiler or prime-mover may appeal from any order made under this Act refusing to grant, or revoking or suspending, a license.

(2) The appeal shall, within seven days from the day on which the owner received the order appealed against, be presented to some person authorized by the Chief Commissioner to hear appeals hereunder.

(3) Every such person shall be deemed to be a public servant within the meaning of the Indian Penal Code, and may, if he thinks fit, summon to his assistance, in such manner as the Local Government may, from time to time, direct, two competent assessors; and those assessors shall attend and assist accordingly. XLV of 1860.

(4) If the person hearing the appeal is satisfied that the owner is entitled to the license, he shall, on payment of the fee, grant a license in such form as the Chief Commissioner may, from time to time, by rule, prescribe, or shall cancel the order revoking or suspending the license, as the case may be.

(5) If the person hearing the appeal is of opinion that the order appealed against is right, he shall dismiss the appeal; and the costs of the appeal incurred by Government and certified by him shall be recoverable from the appellant, as a fine, by any Magistrate having jurisdiction in the place where the boiler or prime-mover is situate.

Power of Inspector to enter place or building.

13. An Inspector may at any time enter into any place or building where he has reason to believe that a boiler or prime-mover is used without a license or under a license granted under section eight, or on appeal from an order refusing a license under that section, for the purpose of inspecting and examining the same.

Penalties.

14. Every owner, or person in charge, of any boiler or prime-mover who—

(*a*) uses that boiler or prime-mover in contravention of the provisions of section five, or,

(*b*) having a license granted under this Act and in force in respect of any boiler or prime-mover, fails to produce the same when called upon at any reasonable time to do so by any Magistrate having jurisdiction in the place in which that boiler or prime-mover is situate, or by any person authorized in writing by that Magistrate to demand the production of the license, and

every person who prevents an Inspector from entering, under section thirteen, any place or building,

shall be punished with fine which may extend to five hundred rupees.

Engineer signing false report under section nine.

15. Any engineer signing any report under section nine which he either knows or believes to be false in any material point shall be deemed to have committed an offence punishable under section 197 of the Indian Penal Code. XLV of 1860.

Charges not to be brought after six months or without Inspector's sanction.

16. No charge of an offence under this Act shall be brought against any person without the previous sanction of an Inspector, or after the expiration of six months from the date of the commission of the offence.

Power to define limits of towns.

17. The Chief Commissioner may, from time to time, define what shall be deemed to be for the purposes of this Act the local limits of the towns of Rangoon, Maulmain, Akyab and Bassein respectively.

Power to make rules.

18. The Chief Commissioner may, at any time after the passing of this Act, and from time to time, make rules consistent with this Act for all or any of the following purposes (that is to say):—

(*a*) for prescribing the powers and duties of Inspectors;

(*b*) for fixing the fees payable on account of licenses granted under this Act;

(*c*) for determining the time for which such licenses shall be in force;

(*d*) for regulating the procedure on hearing appeals, and conferring on the persons authorised to hear appeals any of the powers conferred on a Civil Court by the Code of Civil Procedure; and XIV of 1882.

(*e*) generally for carrying out the purposes of this Act.

All such rules shall be published thrice in the *British Burma Gazette*, and shall come into force on the day on which they are last so published, or on such later day as may be specified in the notification publishing them.

FIRST SCHEDULE.

(*See section 8.*)

FORM OF LICENSE.

1	2	3	4	5	6	7	8	9
Name of owner.	Description of boiler.	Description of prime-mover.	Power.	When and where made.	When and where last repaired.	No. and date of certificate of engineer in charge.	Period for which license is to be in force.	Remarks.

I, the undersigned, certify that I have examined the boiler (*or* prime-mover) above described, and, to the best of my judgment, it is in good condition, and is not so exposed as to be likely to be dangerous. The engineer in charge is possessed of a certificate [and (*in case alterations or additions have been required*) the alterations (*or* additions) required by me have been properly made].

A. B.,
Inspector.

SECOND SCHEDULE.

(*See section 9.*)

REPORT OF ENGINEER.

1	2	3	4	5	6	7	8
Name of owner.	Description of boiler.	Description of prime-mover.	Power.	When and where made.	When and where last repaired.	No. and date of certificate of engineer in charge.	Remarks.

I, the undersigned, certify that I am in charge of the boiler (*or* prime-mover) above described, that I have examined the same, and, to the best of my judgment, it is in good condition, and is not so exposed as to be likely to be dangerous, and may safely be licensed for the period of .

C. D.,
Engineer.

THIRD SCHEDULE.

(*See section 9.*)

FORM OF LICENSE TO BE ENDORSED ON REPORT OF ENGINEER.

I, the undersigned, hereby authorise the use of the boiler (*or* prime-mover) to which this report refers for a period of ending on the day of 188 .

A. B.,
Inspector.

IRRIGATION BRANCH.

IRRIGATION OPERATIONS OF THE NORTH-WESTERN PROVINCES FOR THE RABI SEASON, 1881-82 (1st OCTOBER TO 31st MARCH.)

No. 1931 I., dated Allahabad, 2nd August 1882.

RESOLUTION—By His Honor the Lieutenant-Governor, North-Western Provinces and Oudh.

Read—

Statements A. 14, B. 14, C. 14, for Rabi, 1881-82.

OBSERVATIONS.—The season was remarkable for the early cessation of the monsoon rains and for the almost entire absence of winter rain. These circumstances were eminently favourable to a large area of canal irrigation, while the extension of the Lower Ganges Canal increased the field of operations, and it is not therefore surprising that the area, 1,209,823 acres, should be the highest on record, being 177,813 acres more than the area of 1880-81 and 133,871 acres more than that of 1878-79, the last year of drought, and hitherto the largest area irrigated in the rabi harvest.

In comparing the irrigation of 1881-82 with that of the previous years, it must be remembered that the conditions of the two years were much the same in the lower doab, while they differed only in the upper. In both years the winter rains were deficient; but in 1880-81 there were very heavy floods in the middle of September in the Sub-Himalayan districts, which enabled crops to be grown in those districts without canal water. In comparing the two years, therefore, it is not remarkable to find that the great increase in 1881-82 is in the upper tracts, that is in the upper divisions of the Ganges Canal, while the increase in the lower tracts is not so great as might have been expected, and is due to extension of irrigation more than to the differences of the seasons.

2. The following table compares the rabi areas of the four years 1878-79 to 1881-82 :—

Canal.	1878-79.	1879-80.	1880-81.	1881-82.
	Acres.	Acres.	Acres.	Acres.
Upper Ganges	476,486	812,586	359,073	475,747
Terminal Divisions*	249,385	245,351	283,251	278,421
Lower Ganges	16,020	29,744	116,250	148,212
Agra	83,094	36,286	105,378	96,106
Eastern Jamna	181,238	142,201	128,408	150,689
Rohilkhand	57,237	66,277	29,985	48,544
Bijnor	1,283	1,730	2,041	2,137
Dun	9,607	8,804	6,867	8,138
Jhansi	586	443	315	529
Hamirpur	1,026	908	442	1,300
TOTAL	1,075,952	844,330	1,032,010	1,209,823

* The Cawnpore and Etáwah branches below Nagiria and Jera at miles 48 and 39 respectively.

In this table the terminal divisions have been separated from the Lower Ganges Canal in order to show clearly the increase on the new canal.

The above table brings out clearly what was stated in para. 1 regarding the effect of the seasons on the areas irrigated in the upper and lower tracts respectively.

The irrigated area of the Upper Ganges Canal is greatly in excess of that of 1880-81, when abundant rain fell late in the autumn, and is naturally much greater than that of a normal year such as 1879-80, but it is almost exactly the same as the area of 1878-79, the last year of drought.

The irrigated area of the terminal divisions varies little from year to year, in fact it may be almost said of them that year by year the area is limited only by the water available; but in the two latter years the increase of area shows that the competition for water was equal, and the increase is doubtless partly due to the additional volume made available by the opening of the Lower Ganges Canal. The slight increase over the previous year of the irrigated area of the Lower Ganges Canal is due to the abnormal amount irrigated in 1880-81 owing to the deficiency of rain in the lower doab, as explained in para. 2, North-Western Provinces Resolution No. 820A., dated 4th July, 1881. The area of nearly 150,000 acres attained in 1881-82, the fourth year of the operations of the canal, may, however, be considered satisfactory.

The irrigated area of the Agra Canal which, as has been remarked in previous reviews, fluctuates, and does not increase as steadily as could be desired, is again less than the areas of 1880-81 and 1877-78, which were nearly equal. The decrease has been in barley and mixed crops.

The irrigated area of the Eastern Jumna Canal is greater than that of the two previous years, in which the autumn rains were more plentiful, but it is much lower than the area of 1878-79. The area of this canal, like that of the terminal divisions of the Lower Ganges Canal, is much less subject to fluctuation on account of the seasons than other canals. The great area of 1878-79 is probably due to the high prices then prevailing after a deficient rainfall of two years. The result of these high prices was to extend the margin at which it becomes profitable to use canal water on inferior land, and so to increase the area of irrigation. These conditions did not, however, prevail in 1881-82, and therefore, although the season was favourable to irrigation, the area is no larger than usual.

The irrigated area of the Rohilkhand Canals is an average one, higher than that of 1880-81, when the heavy floods of September enabled canal water to be dispensed with, but not as high as the area of the two previous years.

There is nothing special to notice about the areas of the other canals and the Bundelkhand Lakes, which vary little from year to year, and are comparatively insignificant.

3. The following table shows the areas of the principal crops irrigated for six successive years :—

	Wheat.	Barley.	Other grains.	Pulses.	Opium and drugs.	Total areas.
	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.
1876 77	532,221	110,361	24,821	26,584	12,530	776,358
1877-78	415,659	138,627	59,912	64,328	10,823	729,845
1878-79	586,776	266,472	115,914	66 901	15,371	1,075,952
1879-80	482,703	210,959	83,861	33,401	15,104	844,330
1880-81	545,364	261,813	130,011	55,222	18,309	1,032,010
1881-82	726,332	261 602	102,549	77,238	18,203	1,209,823

The gross increase in wheat alone is 180,968, which exceeds the net total increase for the year, so that the increase is mainly due to the most valuable crop. The following table shows the progress made in wheat irrigation on each of the principal canals for four years, and the percentage of wheat to the whole area for the year 1881-82 :—

Canal.	1878-79.	1879-80.	1880-81.	1881-82.	
				Area.	Percentage of wheat to whole area
	Acres	Acres.	Acres.	Acres.	
Upper Ganges Canal	296,106	194,083	228,773	321,868	68
Terminal Divisions	88,553	101,356	113,237	122,135	44
Lower Ganges Canal	5,959	15,078	45,282	87,974	59
Agra	14,521	11,767	27,431	28,206	29
Eastern Jumna Canal	149,834	122,506	111,274	131,891	88
Rohilkhand	24,330	29,979	13,120	26,549	55

The area of barley remains very steady, eighty per cent. of this area belongs to the Lower Ganges and terminal divisions.

4. The following table shows the assessments of the year under occupiers' rates compared with three other years :—

	1878 79.	1879-80.	1880 81.	1881-82.
	Rs.	Rs.	Rs.	Rs
Upper Ganges	10,04,592	6,68,455	7,61,523	10,21,817
Terminal Divisions	4,86,820	4,67,609	5,03,053	5,45,146
Lower Ganges Canal	37,276	68,537	2,62,339	3,53,130
Agra	2,23,023	96,530	2,86,736	2,59,530
Eastern Jumna Canal	3,76,455	2,99,508	2,71,905	3,17,217
Rohilkhand	32,955	36,796	11,581	28,043
Bijnor	1,358	1,803	2,037	2,069
Dun	10,767	10,044	8,281	9,379
Bundlekhand Lakes	2,469	2,242	1,606	3,046
TOTAL	21,75,715	16,51,524	21,09,061	25,39,377

The owners' rate amounted to Rs. 1,64,405.

ORDER.—Ordered, that the above Resolution be submitted to the Government of India for information, and that it be published in *North-Western Provinces and Oudh Gazette.*

Ordered also, that copies be circulated to the Governments of Bengal, Punjab, to the General Department of this Government, and to the Board of Revenue, for information.

By order, &c.,

J. G. FORBES, *Lt.-Col., R. E.,*

Joint-Secy. to Govt., N. W. P., P. W. D., I. B.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

RAILWAY CONSTRUCTION.

TRADE OF THE COUNTRY TO BE TRAVERSED BY THE PROJECTED LINE OF RAILWAY BETWEEN SITARAMPUR ON THE EAST INDIAN RAILWAY AND NAGPUR ON THE GREAT INDIAN PENINSULA RAILWAY.

Extract from the Proceedings of the Governor General in Council in the Public Works Department, No. 700 R. C., dated Simla, the 16th August 1882.

Read the following papers :—

Note drawn up in the office of the Secretary, Revenue and Agricultural department, on the projected line of Railway from Sitarampur to Nagpur.

The proposed railway from Sitarampur to Nagpur will probably pass through the following districts :—

Districts through which it will pass.	Manbhum, Lohardaga, Chhota Nagpur Tributary States,	Bengal,
	Raipur, Bilaspur,	Central Provinces,

and will eventually join the Nagpur-Chhattisgarh Railway. These districts, however, do not adequately represent the area the resources of which it will open and the trade of which it will absorb, for through hundreds of miles on either side of the proposed line runs no navigable river or highway of commerce. The district of Singhbhum in Bengal and Sambalpur in the Central Provinces, with the Feudatory States attached to them, will also come under its influence.

Resources still undeveloped.

2. A large part of this country never acknowledged the supremacy of the Hindu or Muhammadan sovereigns of Hindustan, and only thirty years ago it was marked on the English maps of India as the "Unexplored Regions." It is still, therefore, nearly as much a virgin soil for civilised man as the primæval forests on our north-east frontier. Immense tracts of culturable land still lie uncultivated, and the proposed railway is expected to give a great stimulus to its being brought under the plough—an operation already fast progressing owing to press of population in the regulation districts surrounding it on all sides.

Present statistics conjectural.

3. Under these circumstances, the resources of the country through which the railway is to pass cannot, with any degree of accuracy, be measured by the data its present condition affords. Nor are the data now available anything but conjectural; for, except in the matter of population, no effectual attempt to obtain reliable statistics tending to throw light on the condition of the people and the country was ever made; and as is generally the case under such circumstances, the estimates made diffidently always fall much below the actual facts. No instance of this kind more strikingly proves the tendency to under-estimate estimates as the one about the population of the Lower Provinces previous to the general enumeration of 1872; nobody ever ventured to estimate it at more than 40 millions, which was, however, 50 per cent. below the actual number. The figures given in this note must, therefore, be taken with caution, and as giving only a rough idea of the subject.

Expected goods traffic.

4. Besides the passenger traffic which this line may expect from its being the direct line from Calcutta to Bombay, it can count upon a progressive goods traffic fed by three classes of country produce,—agricultural, forest and mineral. The following

statement shows the amount of agricultural produce that may annually be available for export :—

1	2	3	4	5	6	7	8	9	10
NAME OF DISTRICT.	Total area in acres.	Total cultivated area in acres.	Total produce in maunds.	Total population.	Amount consumed as food at 5 maunds per head	Seed, cattle-food, wastage and other deductions at 3 maunds per acre.	Balance available for export in maunds.	Total culturable areas still lying waste.	Rate of produce per acre on which calculation is based in column 4.

Want of feeders.

5. Of course it is idle to expect that the whole of the agricultural produce shown above as available for export will find its way to the railway. The country is so much cut up by hills and ravines, and so much wanting in good roads, that some time will elapse before its trade will reach the normal standard of a British province. In an agricultural country like India, an inland province may be said to have arrived at such a standard if it can send out with profit at least three-fourths of its surplus produce. Even North-Western Provinces and Oudh, with its network of roads, railways and navigable rivers, have not yet attained such an efficiency in means of communications; for we find that its railways, which monopolise almost all its external traffic, carried in 1879-80 only 14 millions of maunds of agricultural produce out of a total annual surplus of about 50 millions. The proportion must, therefore, be much less in this central tableland.

Arable land lying unused.

6. But this advantage will be more than compensated by the ample room which agricultural operations have for expansion in this part of the country. Seventeen millions of acres of arable land, or an area larger by two millions of acres than that at present under cultivation, still lie waste, and there can be no doubt that a large part of it will come under the plough as soon as an outlet for the produce is found.* Every encouragement is given to cultivators for taking up new lands; for three years no rent whatever is assessed, and after that time a small amount of progressive rent is fixed. In this way the cultivation is increasing year by year, and would have increased more had not the country been drained of a portion of its enterprising youths to meet the requirements of the tea gardens of Assam, Kachar, Sylhet and Darjiling. In some parts of the tableland the wasteful system of cultivation, known as the *jum*, is practised, in which fresh forest land is cleared every two or three years, allowing the one previously cultivated to relapse to its former state of wildness. This reckless system of agriculture signifies only the existence of an extraordinary amount of spare land in the country.

Crops.

7. The principal crops cultivated are the same as in other parts of Bengal and the Central Provinces; rice being the staple crop, with a fair proportion of pulses and oil-seeds. The western part of the plateau grows wheat, barley, Indian-corn, jowar (*Sorghum vulgare*), china (*Panicum italicum*), and other millets. Cotton has

* "Fertile lands," write the officers appointed for collecting information for the Famine Commission, "in almost countless acres, lie waiting to be cultivated, which will afford other staples of food besides the treacherous rice * *." Central Provinces Famine Report, page 94:—I myself can vouch for the fertility of the soil. In 1865 we took up a large area of land outside the Manbhum town, and after removing the stones that were lying scattered upon it, scratched the ground with the country plough (which here is still lighter than an ordinary country plough) and sowed múng (*phaseolus múngo*) on it. No other care was bestowed upon it, but the result was a bumper crop.

found a congenial home in the Lohardaga and Singhbhum districts and in the black soil of Chhattisgarh, and, as in Bombay, the American war contributed greatly towards the extension of its cultivation. The area under sugarcane is also increasing, and it is said to grow luxuriantly in Gangpar, a tributary State in the Chhota Nagpur Division, from which a large quantity of molasses is exported. A fine quality of tobacco is also grown, chiefly for home consumption, and a large quantity of silk is produced from domesticated *tasar* worms. Tea-planting has been introduced in the Hazaribagh and Lohardaga districts, and the soil is said to be suited for coffee also. Owing to extensive areas of pasture land existing in the country, large quantities of ghi are produced, which are exported to Calcutta. The following figures show the acreage under different crops in districts for which information is available:—

	Raipur.	Sambalpur.	Bilaspur.	Manbhum
Rice	1,217,853	578,609	732,487	768,000

Trade.

8. The trade is entirely in the hands of the banjaras, who penetrate to the utmost recesses of the wild country through roads "which," Captain Blunt wrote in 1795, "nothing but the most indefatigable industry could induce him to attempt, and where the straitness of the paths and defiles barely affords a passage for him and his bullocks." Owing to absence of the facilities of export, they find here an inexhaustible supply of grain at cheap rates which they exchange for salt, piece-goods, &c. Trade statistics are not available; but during the year 1880-81 the total trade of the three towns in Chhattisgarh, *viz.*, Raipur, Nandgaon, and Dongargarh, amounted to imports Rs. 46,35,000, exports Rs. 55,72,000, total Rs. 1,02,07,000. The whole of the import trade, which consists chiefly of piece-goods, hardware and salt, will probably be carried by the railway. The annual consumption of salt, at the rate of one-tenth of a maund per head of population, amounts to more than 6,98,000 maunds.

9. The following statement shows the prices (retail) prevailing at the head-quarters of the different districts through which the proposed railway is to pass compared with those prevailing in Calcutta on the one side, and Nagpur on the other:—

Number of seers per rupee of the following articles on 15th April 1882.

NAME OF ARTICLE.	Calcutta.	Hazaribagh.	Manbhum.	Lohardaga.	Singbhum.	Raipur.	Bilaspur.	Sambalpur.	Nagpur.
Wheat	14 9/16	16	15 9/16	19	24	40	54	27	19 1/8
Barley	26 1/8	27	34	30	32	...	...	...	...
Common rice	20	22	34	26	40	46	52	54	17 4/16
Gram	24 12/16	21	20	20	24	40	60	25	24 1/8
Salt (wholesale)	16	11	11	10	10	4 8/16	...	4 8/16	3 1/8

In the interior of the districts, the wholesale prices at which traders purchase grain are necessarily much cheaper than those shown in the above statement.

Forest products.

10. Various kinds of forest products are found in the jungles, some of which are of great economical value. Jungle roots, leaves, flowers, and fruits afford food to the lower classes for about three months in the year. Fibrous plants are found suitable

for making ropes, and grass for paper. Many kinds of timber, particularly the valuable sál (*shorea robusta*), the ebony and the sisu (*Dalbergia latifolia*), rot in the forests for want of facilities of export. Attempts were made to float them down the rivers, but the difficulties and expenses were too heavy to pay. Nipal formerly supplied sál timber to Lower Bengal, but since the stoppage of this supply a few years ago, Burma teak has taken its place. But even this supply, which is chiefly drawn from the Shan and Karen country in Upper Burma, is said to be getting scarcer day by day. The proposed railway will therefore open a new timber-country, which will probably be able to take possession of this trade until the Government reserved forests in other parts of the country grow up. Sál trees are at present girdled for the extraction of resin, which operation very much deteriorates the value as timber. The dyeing material found in the country consists of the different kinds of myrobalans (*terminalia chebula* and *bellerica*), amla (*emblica officinalis*), gall nuts, khayer (*acacia catechu*) and barks of several trees.* Now, the demand for myrobalans is large both for use in this country as well as for export to Europe.

Australia is also beginning to be a purchaser of this article. Another valuable tree abounds in the jungle, the mahua (*Bassia latifolia*), the wood of which is used for building purposes, the flowers as a nutritous food by the people, and from which the country spirits are distilled, and the seeds yield an oil used for burning, as well as in adulterating ghi, which article it very much resembles. Jungle products chiefly exported are lac, tasar silk, bees-wax, mahua flower, myrobalans, gall nuts, resin, catechu, &c.

Mineral products.

11. The country is very rich in minerals. Coal exists in several places. Iron is found in nodular form in most of the hill ranges, and is smelted in a rude way by the people. Copper was formerly worked, but now abandoned. Gold-dust is found in the sands of the rivers, and has probably given name to the river Subarnarekha, or the "golden streak," and a class of people subsist by washing for it. The other mineral products are lead, limestone, slate, potstone, red ochres, &c.

No. 2314—129, dated Nagpur, 28th June 1882.

From—A. H. L. Fraser, Esq., Offg. Secretary to the Chief Commissioner, Central Provinces,
To—The Secretary to the Government of India, Revenue and Agricultural Department.

I am directed to acknowledge receipt of your letter No. 480 A., dated 25th ultimo, and to submit the annexed Note on the advantages likely to be derived from the proposed railway through Chota Nagpur and the Central Provinces.

2. I am, however, to say that, except perhaps that the greater proximity of Calcutta to the eastern portions of the Chhattisgarh Division may increase the advantages of the through line to them, the advantages indicated in this Note are all likely to accrue to the districts of that division from the Nagpur and Chhattisgarh Railway already taken in hand by this Administration. It is his firm conviction of the reality of these advantages which has induced the Chief Commissioner to devote so much energy to the prosecution of that undertaking.

3. Copy of the returns of traffic for two weeks on the Nagpur and Chhattisgarh State Railway (open as far as Amgaon) are submitted for facility of reference, as showing the present trade on the line.

Note.

The proposed railway from Sitarampur to Nagpur will probably pass through the following districts of the Central Provinces, *viz.*, Sambalpur,

* I myself have seen (in 1865) the terminalia fruits lying unheeded thickly under the trees in the Chhota Nagpur jungles.

Bilaspur, Raipur, and Bhandara. Of Bhandara there is little that need be said. The head-quarters town of that district is only 40 miles from Nagpur. There is no doubt that the agriculture and commerce of this district will benefit from the extension of the line of rail through it. But the benefits to be derived by it will be small indeed compared with those to be derived by the districts of Raipur and Bilaspur. It is the importance of opening up these two districts and meeting the trade requirements of the Chhattisgarh Division that led the Chief Commissioner to push on the Nagpur and Chhattisgarh State Railway, and it is the traffic of this part of the country that will make the proposed railway from Sitarampur to Nagpur pay, as far as the Central Provinces are concerned. The benefits which will accrue to Sambalpur will no doubt also be considerable. But it is impossible to procure at present any statistics on which an accurate estimate of these benefits can be based. It is difficult, too, to estimate how far the railway may supersede the river traffic from Sambalpur. Further, very much of the trade of Sambalpur passes through Bilaspur and Raipur, and it cannot well be treated of separately.

2. Raipur is the largest district in the Central Provinces; and Bilaspur is the third, Chanda with the Sironcha Sub-Division being the second. The following figures for these two districts are interesting. They are extracted from the last Central Provinces Administration Report:—

	Area in square miles.				Population.	Revenue.	
	Cultivated.	Culturable.	Unculturable.	Total.		Land.	Gross.
						Rs.	Rs.
Raipur . .	3,553	4,420	3,912	11,885	1,093,405	6,49,255	9,07,833
Bailaspur . .	2,429	1,569	3,800	7,798	715,398	2,80,661	3,98,676

The figures given above under the head "Population" are those of the census of 1872. The figures of last census show the population of the two districts to be 1,405,171 and 1,017,327 respectively.

3. One other set of figures may be extracted from the last Administration Report, *viz.*, the following figures from the Price Current:—

		Wheat.		Gram.		Common rice.	
		Srs.	Chtks.	Srs.	Chtks.	Srs.	Chtks.
Jubbulpore	1879-80	11	0	12	8	12	8
	1880-81	18	0	20	0	16	0
Nagpur	1879 80	10	4	10	0	9	12
	1880-81	14	4	14	12	11	8
Raipur	1879-80	22	8	16	0	20	0
	1880-81	27	0	23	0	23	8
Bilaspur	1879-80	22	0	22	0	28	0
	1880-81	32	0	32	0	39	0

This gives for the last two years the number of seers per rupee in the two districts of Raipur and Bilaspur as compared with the number in the two nearest railway districts; and it shows how, especially in the case of wheat and rice, the prices in Chhattisgarh rule exceedingly low owing to the want of easy communication.

4. As to trade, the returns show that the average export of the principal articles of produce of the two districts from 1864 to 1868 was—

	Wheat.	Rice.	Other grains.	Oil seeds.
	Mds.	Mds.	Mds.	Mds.
Raipur	314,487	170,296	78,937	29,908
Bilaspur	58,957	218,047	6,651	195
Total Maunds	373,444	388,343	85,588	30,103
Total Tons.	18,831	14,383	3,169	1,115

making a total of 32,498 tons, the greater part of which went to Nagpur. The average for the three years 1873—1876 was—

	Wheat.	Rice.	Other grains.	Oil seeds.
Maunds	388,124	413,316	192,345	355,514
Tons	14,375	15,511	7,123	13,167

making a total of 50,176 tons, being an increase of about 54 per cent. in eight years. It is to be borne in mind that this trade was carried on bullock carts or pack bullocks making a journey of, say about two months (going and returning) to the exporting ryots. In later years the figures for different districts are not given; but the export trade of the Central Provinces has greatly increased, and there is no doubt that the Chhattisgarh Division has its fair share of the increase.

5. The inequality of prices still existing shows the possibilities of development in the trade in these articles. Mr. Chisholm, in his settlement report on the Bilaspur District, mentions extraordinary instances of the increase of cultivation under the influence of increased demand for agricultural produce. The response made by the Chhattisgarh Division to the calls on it in the famine years give evidence to the same effect. And in view of the large amount of land still uncultivated in the two districts immediately under consideration, and of the inferior methods pursued in the cultivated area, the Chief Commissioner does not consider that Mr. J. F. K. Hewitt (Commissioner of Chota Nagpur, formerly Settlement Officer, Raipur) was too sanguine when he wrote, "Considering the fertility of the soil of Chhattisgarh, the patience and steady industry of its inhabitants, and the spirit of enterprise among them, already shewn by the large trade carried on under very great difficulties, I have no hesitation in saying that the trade would, within a year or two after the opening of the railway, reach a total of two or three hundred thousand tons a year, and that it would yearly increase."

6. The trade in lac and hides, gur and tussur cocoons is considerable and capable of large increase. The import trade, specially in salt, is very large, even now. It is bound to increase as the country is opened out and the circumstances of the people improve.

7. The forests of Bilaspur and Raipur have been found to be very valuable. Mr. Thomson, a Deputy Conservator of great experience, has recently reported very favourably of them. They are capable of great development, and are likely to become very profitable.

8. The advantages of the railway may be briefly summed up as follows:—

(1) A great granary would be opened out for the supply of the ordinary market and for the prompt relief of any famine-stricken part of India.

(2) Chhattisgarh would be delivered from the fear of famine.

(3) A fertile country eminently fitted for colonization would be opened up.

(4) Facilities for profitable manufactures would be afforded.

(5) The land revenue would be greatly increased.

(6) The line would undoubtedly be profitable as an investment.

NAGPUR AND CHHATTISGARH STATE RAILWAY.

Executive Engineer, Meerut Division, reports that the demand was small in Lower Divisions from the 12th June. Hence the Meerut Division was able to raise distributary supply from 790 to 970 cubic feet. This gave great relief as there was a great drought with constant hot wind, and no rain fell till the 28th June, and then only one inch on the average, wholly insufficient for ploughing and sowing.

Executive Engineer, Mainpuri Division, reports that the monsoon commenced on the 11th June, stopping all demand for the remainder of the month, and that there was much less rain in the eastern than in the western part of the division.

Executive Engineer, Agra Canal, reports that the demand was fluctuating, and that but little new irrigation was effected after the rain of the 11th June.

Executive Engineer, Rohilkhand Canals, reports that the rains set in on night of the 10th June. From the 1st to 10th all water was being used up for sugar irrigation. From the 10th to 20th no water was used; during the latter portion of the month water was in demand for rice. Considerable floods came down the hill rivers on 12th and 20th. Excessive rainfall of 9 and 10 inches recorded on 7th July, and rivers in east portion of division; the Bahgul, Pangaili, Absara, and Deoha were in extraordinarily high flood, and the whole country between them inundated.

CLASSIFICATION.

Exhibitors to quote the number in this column.

CLASS I.

FISHING.

Section I.—Sea Fishing.

Division	1	(1) Gear of every description and of all nations used in trawl, herring, long line, hand line, and every other mode or system of fishing, including all nets, lines, hooks, harpoons, tackle, &c., employed in the same.
Division	2	(2) Oyster dredges, crab, lobster, prawn, &c., pots, and other appliances for catching fish of this description.
		(3) Fishing craft of all nations, models, and representations of the same.
Division	3	(i) Steam fishing vessels and steam carriers.
Division	4	(ii) Fishing vessels and boats other than steam vessels.
Division	5	(4) Ropes and canvas suitable to fishing vessels.
Division	6	(5) Steam capstans, compasses, barometers, telescopes, lights, lamps, fog horns, systems of signalling at night for fishing fleets and vessels, electric lights, luminous paint, and other equipment of fishing vessels, charts for fishermen.
Division	7	(6) Models of harbours, piers, and slips for fishing purposes.
Division	8	(7) Fishing tackle and netting in different stages of preparation, and machinery used for working up the raw material.
Division	9	(8) Life-boats, their equipment, and life-saving apparatus of every description.
Division	10	(9) Appliances and methods for breaking the force of the sea at the entrance of harbours and elsewhere.
Division	11	(10) Methods of communication from the shore to light-ships and fishing fleets by submarine cables.
Division	12	(11) Methods of protecting submarine cables from injury by fishing operations (illustrated by models and drawings).

Section II.—Freshwater fishing.

Division	13	(1) Salmon nets and fixed appliances for catching salmonidæ in all their varieties.
Division	14	(2) Salmon rods, reels, lines, artificial flies and baits, gaffs, spears, creels, &c.
Division	15	(3) Trout rods, reels, landing nets, lines, artificial flies, baits, baskets, bags, &c.
Division	16	(4) Pike, barbel, and other coarse fish-rods, reels and tackle, artificial spinning baits, &c.
Division	17	(5) Traps, nets, bucks, wheels, and all kinds of apparatus for catching eels, lampreys, &c.
Division	18	(6) Hooks, &c.
Division	19	(7) Anglers' apparel of every description.
Division	20	(8) boats, punts, cobles, collapsible, portable, &c., in models or otherwise.

NOTE.—*The above classification is suggested as a convenient one for this class, but it is not intended to exclude any objects which come within the class.*

CLASS II.

ECONOMIC CONDITION OF FISHERMEN.

Division	21	(1) Apparel and personal equipment.
Division	22	(2) Food and medicine chests.
Division	23	(3) Models and plans of dwellings.
Division	24	(4) Contracts of partnerships; insurances of life, boats, gear, &c.; benefit societies.

CLASS III.

COMMERCIAL AND ECONOMIC.

1.—Preparation, preservation, and utilisation of fish.

(*a*) For edible purposes—

Division	25	(i) Models of fish-curing establishments; methods of, and models and other representations of, any appliances for drying, curing, salting, smoking, tinning, cooking, &c.
Division	26	(ii) Fish dried, smoked, cured, salted, tinned, or otherwise prepared for food.

Exhibitors to quote the number in this column.		
Division	27	(iii) All products prepared from fish, such as oils, roes, isinglas, &c.
Division	28	(iv) Antiseptics suitable for preserving fish for food.
		(*b*) For other than edible purposes—
Division	29	(i) Oils, manures, and other products prepared from fish.
Division	30	(ii) Methods of, and models and other representations of appliances for, preparing oils and manures from fish.
Division	31	(iii) Sea and fresh water pearl shells; mother-of-pearl manufactured; pearls sorted.
Division	32	(iv) Preparation and application of sponges, corals, pearls, shells, and all parts and products of aquatic animals, &c., to purposes useful and ornamental, with specimens.
		2.—Transport and sale of fish.
Division	33	(*a*) Appliances for carrying fish and for preserving fish during transport or otherwise, and models of the same.
Division	34	(*b*) Models of fish markets, and appliances connected with the same.

CLASS IV.

Fish Culture.

Division	35	(1) Models or drawings of fish hatching, breeding and rearing establishments, including oyster and other shellfish grounds; and all apparatus and implements connected with the same, and for transporting fish and fish ova; food for fry.
Division	36	(2) Representations illustrative of the development and progressive growth of fish.
Division	37	(3) Models and drawings of fish passes and fish ladders.
		(4) Scientific investigation.
Division	38	(i) Models and drawing of diseases of fish, with special reference to their origin and cure.
Division	39	(ii) Processes for rendering streams polluted by sewage and chemical or other works innocuous to fish life (illustrated by models and drawings).
Division	40	(iii) Physico-chemical investigation into those qualities of salt and fresh water which affect aquatic animals; investigation of the bottom of the sea and of lakes, shown by samples; aquatic plants in relation to fishing, &c.; researches into the aquatic fauna (animals of the several classes preserved in alcohol or prepared, &c.); apparatus and implements used in such researches.
Division	41	(5) Acclimatisation of fish.

CLASS V.

Natural History.

Aquaria.

		(1) Specimens living (marine and fresh water), fresh, stuffed or preserved, casts, drawings and representations of—
Division	42	(*a*) Algæ arranged according to their various species and localities.
Division	43	(*b*) Sponges, in their natural state.
Division	44	(*c*) Corals, in their natural state, polyps, jelly-fish, &c.
Division	45	(*d*) Entozoa.
Division	46	(*e*) Mollusca of all kinds and shells not included in Class III.
Division	47	(*f*) Star-fishes, sea urchins, holothuriæ.
Division	48	(*g*) Worms used for bait, or noxious; leeches, &c.
Division	49	(*h*) Perfect insects and larvæ of insects, which are destroyers of spawn or serve as food for fish.
Division	50	(*i*) Crustacea of all kinds.
Division	51	(*k*) Fish of all kinds.
Division	52	(*l*) Reptiles, such as tortoises, turtles, terrapins, lizards, serpents, frogs, newts, &c.
Division	53	(*m*) Aquatic and other birds hostile to fish or fishing.
Division	54	(*n*) Aquatic and amphibious mammalia (otters, seals, whales, &c.) and others detrimental to fish.
Division	55	(2) Works on Ichthyology. Maps illustrating geographical distribution, migration, &c., of fishes and spawn.
Division	56	(3) Specimens and representations illustrative of the relations between extinct and existing fishes.

Exhibitors to quote the number in this column.

CLASS VI.

History and Literature of

Fishing—Fishery Laws—Fish Commerce.

Division	57	(1) Ancient fishing implements or their reproductions—models—pictures—books—emblems—charters and seals of ancient fishermen guilds.
Division	58	(2) Fishery laws of different countries,
Division	59	(3) Copies of treaties, conventions, &c., dealing with international fishery relations.
Division	60	(4) Reports, statistics and literature of fish, fishing, and fisheries.
Division	61	(5) Reports on acclimatisation of fish, and of attempts in this direction.

CLASS VII.

Loan Collections.

Collections within the scope of the foregoing classes.

Money Prizes.

The Committee will be prepared to receive and consider the offer of money prizes for any special exhibits or essays connected with the objects of the exhibition.

Essays.

Preliminary notice.

Prizes of £100 will be given for each of the following subjects, *viz.* :—

(1) The Natural History of commercial fishes of Great Britain, with special reference to such parts of their natural history as bear upon their production and commercial use.

(2) Relations of the State with fishermen and fisheries, including all matters dealing with their protection, regulation, &c.

(3) On the possible increase of the supply of fish, and on improved facilities for their economic transmission and distribution.

Conferences are proposed to be held for the purpose of reading and discussing papers on subjects connected with the exhibition.

REGULATIONS.

The Great International Fisheries Exhibition.

LONDON, 1883.

Royal Patronage.

1. A Great International Fisheries Exhibition, under the patronage of Her Majesty the Queen and the Presidency of H. R. H. the Prince of Wales, will be held in London in 1883.

Date.

2. The Exhibition will be opened on the 1st of May, and continue open for a period of not less than six months.

Objects.

3. The principal objects to be admitted are comprised in the annexed classification, which is intended to include all kinds of specimens of fish life, and to illustrate all the modes by which the *marine* and *fresh water* animals of economic value are captured and utilised, together with the commercial, scientific social, historic and legislative aspects of such fisheries.

Rewards.

4. Medals in gold, silver, and bronze, and diplomas of honour, will be awarded by a jury, the composition of which will be settled later.

All expenses to be borne by exhibitors.

5. No charge will be made for space, but exhibitors will have to pay every expense of transit, delivery, fixing, and removing their exhibits, and they must, either personally or by their agents, superintend the reception and installation, and, at the close of the exhibition, the removal of their goods; in default thereof, the Committee reserves to itself the right of doing whatever may be considered necessary, and at the expense of the exhibitor.

Applications.

6. Applications for admission must be made on printed forms, which will be supplied on application; these are to be sent to the General Secretary in London on or before the 1st July 1882, except under special arrangements or concessions.

Allotment.

7. The General Secretary will, before the 1st October 1882, or as soon after as practicable, notify to applicants the decision of the Committee, and will indicate the space, if any, which has been accorded to them, and give to each a number.

N.B.—With reference to Rule "6," an extension of time till September 1st, 1882, will be granted to distant colonies and countries.

Loan Department.

8. Contributors to the Loan Department are requested to communicate with the Secretary, who will supply forms to be filled up by them.

Foreign Countries.

9. The Foreign Correspondents that may be appointed are invited to enter as soon as possible into communication with the General Secretary. The correspondent will be charged with the consideration of all questions relative to the distribution of the space allotted to his country. The Committee will therefore not correspond directly with foreign exhibitors, except in those countries where no correspondent is appointed.

Foreign Countries.

10. The Committee will place at the disposal of foreign correspondents all information and plans that may be useful for their arrangements.

Foreign Countries.

11. The applicants for space from countries in which no correspondent has been appointed will correspond directly with the General Secretary of the Committee.

Railway rates.

12. The Committee will endeavour to obtain, from the various English Railway Companies, special terms for the conveyance of exhibits to and from the exhibition, and should they succeed in doing so such arrangements will be communicated to intending exhibitors.

Railways, &c.

13. The Committee will not interfere in any way between the Railway Companies, the carriers, and the exhibitors, with reference to the despatch, transmission, reception, management, or return of goods exhibited.

Marks on packages.

14. All packages containing goods intended for exhibition must have painted on them the distinctive mark (I.F.E.) in red paint, and they must also have painted on them the name and number of the exhibitor.

Waybills.

15. The waybill accompanying all packages must contain the name of the exhibitor, his number, and address.

Exhibitors or Agents to receive own goods, &c.

16. Each exhibitor must provide, either personally or through an agent for the despatch, transmission, reception, unpacking, and arrangement of his goods, and for the verification of their contents when unpacked. If neither the exhibitor nor his agent be present to receive the packages on arrival at the Exhibition, the carrier will be directed to take them away; but should any goods be deposited in the exhibition premises during the absence of the exhibitor or his agent, the Committee will not be responsible for any loss or damage from whatsoever cause arising.

Foreign packages.

17. Packages from foreign countries must likewise have painted on them in distinctive marks the letters (I.F.E.) in red paint. They must be addressed to the exhibitor himself or his agent. *They must all be marked in such a way as to* show distinctly from whence they come, the name of the country, and the number of the exhibitor being painted legibly thereon.

Passages.

18. *Exhibition Spaces.*—The space granted to an exhibitor within the building is available for floor space exclusive of the passages for the public.

Show Cases.

19. *Show Cases.*—No particular form or design is prescribed for cases, counters, platforms, &c., but they must not exceed the following heights without the special written permission of the Committee:—

Show cases and partitions,		10	feet above the floor.
Counters	...	3	"
Platforms	...	1 foot	"

Railings.

20. Exhibitors may place railings of a uniform height of 2 feet 6 inches above the floor level. In every instance the railings must be within the area of the "stand," *i.e.*, the space allotted.

Floors.

21. The flooring must not be altered, removed, or strengthened for the convenience of arrangement, except by sanction of the Committee, and at the expense of the exhibitor.

No Obstructions.

22. No exhibitor will be permitted to display exhibits in such a manner as to obstruct the light or vistas through the avenues, or to occasion inconvenience, injury, or otherwise disadvantageously affect the display of other exhibitors.

Decorations.

23. *Decorations.*—In order to ensure uniformity of decoration and general good effect, no exhibitor will be allowed to put up any flags, banners, or other kind of decoration without permission.

Signs.

24. *Signs.*—No sign or name board may be placed otherwise than parallel with the main passages, that is, parallel with the frontage of the respective stands, and should be as near to the back of the space as possible, so as not to interfere with the vista. The signs to be black and gold. All signs must be hung subject to the approval of the Director.

Placards.

25. No printed or written bills may be displayed unless they are neat in design.

Exhibitors' Offices.

26. *Offices.*—Any exhibitor who may obtain permission to erect an office on his allotted space must conform to the following rules:—

The office must not exceed 8 feet in height; must be placed at the back of the stand, unless otherwise sanctioned; and must be painted black and varnished, with gilt beadings.

Empty Cases, immediate removal.

27. The spaces outside the allotments for exhibitors being required for the necessities of circulation, packages and empty cases will not be allowed to remain there. Cases must be unpacked as fast as received, and the empty cases taken away by the exhibitors or their agents. The Committee decline to accept any responsibility with reference to empty cases, which must be at once removed from the building at the expense of exhibitors.

Empty Cases.

28. The Committee will have nothing whatever to do with warehousing or the preservation of empty cases, or reserve any space for the purpose.

Exhibitors to keep Stands clean.

29. Exhibitors will be required to provide all necessary attendance and to keep their stands and exhibits properly cleaned and in good order during the whole period of the Exhibition.

Non-transfer.

30. No exhibitor will be allowed to transfer any allotment, or to allow any other than his own duly admitted exhibits to be placed thereon, except by permission of the Committee.

Exhibitor's Name.

31. All goods exhibited must be in the name of the person who signed the application form.

Selling Price.

32. Exhibitors, being traders, are requested to mark the selling price of the articles exhibited complete, so as to facilitate the judgment of the jury, as well as for the information of visitors.

Non-removal and Perishable Articles.

33. Objects sold cannot be taken away before the close of the Exhibition without the special permission of the Committee. Special arrangements will be made with regard to perishable exhibits.

Water, Gas, or Steam Machinery in motion.

34. Exhibitors of apparatus requiring the use of water, gas or steam must state on applying for admission the quantity of water, gas or steam which they may consider necessary. Those who wish to show machinery in motion must state the rate of speed at which the machine is to be driven. The furnishing of all counter shafting, pulleys, gas, water, steam, &c., must be at the entire expense of the exhibitor, but under the direct control of the Committee or their appointed officer.

Dangerous Substances.

35. All fulminating and explosive substances and all dangerous substances are absolutely forbidden to be sent.

Receptacles.

36. Spirits, alcohol, oils, essences, corrosive substances, and generally all substances which might spoil other articles or inconvenience the public, can only be received in solid and suitable vessels of small size.

Catalogue.

37. The Committee reserve the sole right of compiling a catalogue of the exhibits under regulations which will be duly notified. Each nation will, however, have the right to produce at its own expense, but in its own language only, a catalogue of all the objects in its own Section.

Hand-bills.

38. All hand-bills, printed matter, &c., for gratuitous distribution, connected with exhibits, will be under special regulations and must first receive the approval and permission of the Committee, or the Director, which may be withdrawn at any time.

No Photographs, &c.

39. No article exhibited may be photographed, drawn, copied or reproduced in any manner whatsoever without the special sanction of the Committee.

Non-liability for loss or damage.

40. The Committee will not hold itself responsible for any loss or damage occurring to any exhibit from any cause whatsoever; but while declining any responsibility, it is the intention of the Committee to take such precautions as they deem necessary.

Future arrangement as to Date of Reception and Jury.

41. Future regulations will settle in due time the arrangements for the date of reception, location of goods, tickets of admission for exhibitors and assistants, and the formation and working of the jury.

Right to alter Rules.

42. The right to add to, alter, amend, or expunge any of these rules is reserved by the Committee.

All Rules binding.

43. Both Englishmen and Foreigners in becoming exhibitor declare by so doing their compliance with the whole of these regulations, together with such other regulations as the Committee may issue from time to time.

44. The Committee reserve the right to remove the objects belonging to any exhibitor who shall not conform to the regulations.

Non-liability for Accidents.

45. If any damage or injury shall be caused or occasioned during the exhibition by any exhibited machine, implement, or article to any visitor or other person, or to any officer, servant, or others then and there employed by the Committee of the Great International Fisheries Exhibition, 1883, then the exhibitor to whom such machinery, implement, or article may belong shall indemnify and hold harmless the said Committee from and against all actions, suits, expenses, and claims on account or in respect of any such damage or injury which may be so caused or occasioned.

The Great International Fisheries Exhibition.

REPORTS ON THE STATE OF THE SEASON AND PROSPECTS OF THE CROPS FOR THE WEEK ENDING THE 22nd AUGUST 1882.

GENERAL REMARKS.—During the week under report more or less good falls of rain have occurred throughout Assam and the Bengal provinces, as well as in most parts of the North-Western Provinces and Oudh, of Central India, and of the Central Provinces and British Burma, in some parts of the Bombay Presidency, in the Nizam's Territories and in Mysore, and the Madras Presidency.

Agricultural prospects continue satisfactory on the whole. In the Madras Presidency and Mysore some districts require more rain. In Coorg a short break in the wet weather has proved beneficial to all crops. In the Nizam's Territories *kharif* crops are prospering. In Berar they and the cotton crops are in good condition, but more rain is required in one taluk. In the Bombay Presidency all crops are progressing favourably, except in parts of five districts where more rain is wanted. In the Central Provinces a partial break in the rains has improved crops. In the Central India and Rajputana States prospects are favourable, but more rain is needed in Alwar, Sirohi, and Marwar. In the Punjab the want of more rain is felt in eight districts, and in three of these very much so. In the North-Western Provinces and Oudh all crops have been benefited by the rainfall of the week, but a further fall would be beneficial everywhere, especially in Oudh. In Bengal also more rain is wanted in some districts, but the recent rain has much improved prospects of all crops. In Assam some rice crops are being harvested and others are being transplanted. In British Burma the progress of crops is satisfactory.

The general tendency of the barometer towards a rise at the end of the preceding week was again, after a few slight variations, followed by a fall which became general on the 22nd and continued the next day.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Madras—(Aug. 23rd)		
Bellary ...	1·01 (average of four stations).	Standing wet crops good, dry withering in one taluk; agricultural operations progressing.
Kurnool ...	1·0 (average of eight stations).	Young crops reviving by recent rain; more rain wanted; cattle-disease in parts.
Ganjam ...	2·11 (average of nine stations).	Standing crops thriving; rain wanted for transplanting paddy in one taluk; fever, small-pox, and cattle-disease continue; cholera subsiding.
Kistna ...	·42 (average of nine stations).	Crops withering; rain wanted; agricultural operations progressing; small-pox, fever, and guinea-worm in parts; cattle-disease general.
Chingleput (Madras) ...	1·77 (average of eleven stations).	Standing crops good where water available; agricultural operations progressing; small-pox slight.
Coimbatore ...	·88 (average of ten stations).	Standing crops, paddy promising well, dry require rain in parts and damaged by insects in one taluk; harvest dry crops, outturn about average; small-pox and cholera in parts; cattle-disease appearing in three taluks.
Tanjore ...	2·60 (average of twelve stations).	Crops good, except in parts affected by breaches, but withering in parts of one taluk for want of rain; cattle-disease in parts.
Madura ...	·82 (average of six stations).	Standing crops fair in two taluks, but withering in one; harvest paddy and *cumbu*, yield about average; cholera in parts.
Malabar ...	1·15 (average of fourteen stations).	First crops generally good; fever, cholera, small-pox, and cattle-disease in parts.
Travancore ...	·47	Paddy ripening; fever prevalent.
		General Remarks.—General prospects good.
Bombay—(Aug. 23rd)		
Kurrachee ...	No rain	River at Kotri on 21st, 19 feet 11 inches against 16½ feet on same date last year; fever in five talukas; rats doing some damage to crops in two talukas; wheat, red rice, and *bajri* in Kurrachee 22, 34 and 23, in Kotri 30, 32 and 44, in Tatta 23, 36 and 44, and in Mirpur Botoro 20, 48 and 40 lbs. per rupee, respectively; in Sujawal red rice 40 and *bajri* 44 lbs. per rupee.
Hyderabad ...	.....	Crops that have escaped floods good; river falling; fever in four talukas and cough in Hala; small-pox in Hyderabad; wheat 25, *juari* 45, *bajri* 40, red rice 30, and white rice 22 lbs. per rupee.
Ahmedabad ...	·05	Total rainfall 27·37; young *kharif* crops good; transplantation of rice continues; in Ahmedabad city 3 cholera cases, all of which fatal; wheat 28 and *bajri* 31 lbs. per rupee.
Baroda ...	No rain	Total rainfall 30·42; all crops doing well; slight cholera in Contingent camps at Sadr and Manekwara; *bajri* 32 and common rice 24 lbs. per rupee.
Surat ...	·08	Total rainfall 32·52; crops healthy; break continues; weeding progressing; *juari* 35 and *nagli* 54 lbs. per rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Bombay—*contd.*		
Násik ...	Igatpuri, 3·87; Peint, 3·62; Kalwan, 1·05; slight showers elsewhere.	Rain badly wanted in Yeola, Niphad, Chandar, Malegaon, Baglan, and parts of Sennar; locusts in Malegaon and Nandgaon doing injury; slight cholera in Násik and Sennar; wheat 25, *bajri* 32, and rice 25 lbs. per rupee.
Colaba (Bombay) ...	·17	Total rainfall 57·23, being 1·88 above average; average abnormal temperature 1° warm; vapour in air normal; abnormal wind northerly.
Poona ...	Passing showers in six talukas.	Young crops withering in Bhimthari and Indapur; 22 cholera cases in Sirur and Bhimthari, of which 8 fatal; *bajri* 45 and *juari* 59½ lbs. per rupee; in Poona *bajri* 36¾ and *juari* 47¾ lbs. per rupee.
Ahmednagar ...	Jhamkhed, ·32; Parner and Akola, ·19; very slight in Sheogaon, Rahuri, and Sangamner; none in rest.	Total average rainfall of the district 11·40; from want of rain *bajri* and other crops are withering in all talukas except Akola; cholera—in Parner 12 cases, 7 deaths, in Shrigonda 6 cases, 6 deaths, and in Sheogaon 18 cases, 9 deaths; *bajri*—maximum 72 lbs. in Jhamkhed, minimum 48 in Kopergaon; *juari*—maximum 102 lbs. in Jhamkhed, minimum 60 in Kopergaon.
Sholapur ...	1·18; slight rain throughout.	Total rainfall 21·12; no cholera cases in Pandharpur taluka, maximum number of cases in Sangola 43, minimum in Malsiras 3, total number of cases 136, of which 61 fatal; *bajri* 58 lbs. 11 tolas and *juari* 81 lbs. 32 tolas.
Dharwar	Slight rain throughout, maximum ·86.	All standing crops, except in very wet lands, thriving; ground being prepared for sowing cotton and late crops; rice 24 and *juari* 62 lbs. per rupee; ague in Nargund and Mundargi petta, and foot-and-mouth disease among cattle in Hangal.
Kanara ...	Karwar, 1·02; Kumpta, 4·07; Sirsi, 4·41; Hallial, 2·28.	Total rainfall 86·80; rice, *ragi*, sugarcane plants, and garden produce thriving; early rice crop in ear around Karwar; weather clearing; cholera 1 death in Karwar; common rice in Karwar 11 seers, in district average 13½ seers per rupee.
Rajkot ...	.....	Weather dry and warm; rain much wanted; cholera at Rajkot, Moorvi, Bhownagar, and Gondal; *bajri* 27 and *juari* 31 lbs. per rupee.
		General Remarks.—General break continues; rain wanted in parts of Poona, Ahmednagar, Násik, Khandesh, and Kaira; crops doing well generally; locusts in Khandesh and Násik; fever and cattle-disease in some districts; cholera in Satara, Poona, Sholapur, Ahmednagar, Khandesh thana, Kaira, and parts of Kathiawar.
Bengal—(Aug. 23rd)		
Chittagong ...	2·92	Prospects of crops fair; transplanting of winter rice going on; prices stationary; cholera, small-pox, and cattle-disease still prevail; two shocks of earthquake on the night of the 20th.
Dacca ...	3·16	Rain and rising of rivers improving prospects of crops; cholera prevailing.
24-Pergunnahs (Calcutta)	3·35	Prospects of early crops continue satisfactory; transplanting of winter rice making fair progress; more rain would do good; public health generally good; cases of fever reported from Basirhat sub-division.
Moorshedabad ...	4·83	Rain has been general over the district and has much improved prospects of the winter rice; early rice being harvested, some of it has been destroyed in the Jangipur sub-division owing to rise of rivers; except the usual fever, public health is good; cattle-disease in two or three villages of Kandi sub-division.
Rajshahye ...	2·84	Rain has benefited crops; fever prevalent.
Burdwan ...	3·35	Weather seasonable; rain will be of great benefit to rice crops, but it has come too late to allow of much more transplanting; early rice crop good, it is being reaped in some places; sugarcane also good; health generally good.
Rungpore ...	2·28	Weather cloudy and hot; transplanting of winter rice continues; more rain wanted; prospects of other crops favourable; public health good.
Bhagálpur ...	0·65	Autumn crops being harvested, outturn good; more rain required for winter rice; public health good.
Purneah ...	1·61	Prospects of crops much improved; autumn harvest poor; transplanting progressing; more fever prevalent; hill rivers and Ganges high.
Patna ...	1·35	Prospects of autumn crops fair; transplanting of rice seedlings going on, but more rain is wanted in parts; cholera still prevalent in Behar.
Durbhunga ...	2·26	Weather has cleared somewhat; rivers in flood; autumn crops full average; rice prospects good; prices stationary; cholera has not yet disappeared.
Hazáribágh ...	2·45	Weather sultry; autumn crops doing well; rain during the week has been of much benefit in aiding transplanting operations which came to a standstill in several parts of the district; general health good.
Cuttack ...	6·02	Early rice ripening, late rice progressing well; cholera disappearing.
		General Remarks.—Rain fell in all districts during the week; more rain is still wanted in some districts; generally, however, rainfall of this week and of the preceding week has much improved the prospects of the crops; transplanting of late rice is going on fairly; all autumn crops and sugarcane are doing well; autumn harvest is expected to yield a fair average crop, but in some districts it will be rather short owing to deficient rainfall in July; fever is reported from some districts; cholera has again appeared in an epidemic form in Chumparun, elsewhere it has abated and in some places it has almost disappeared.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
N. W. Provinces and Oudh—		
Benares (Aug. 22nd)	5·0; Chandauli, 3·1.	Every prospect of a good harvest of late rice, as the weather has been favourable for transplanting; *sawan* being cut; all crops have been benefited by the rain; health of cattle good; cholera decreasing; markets well supplied; prices moderate, but rising.
Allahabad („ 23rd)	Abundant and general rain for last three days, and still raining.	The long break in the rains is over; rain has been of great benefit to all crops; prospects excellent; cholera rapidly decreasing, none in city or station; prices nearly stationary.
Cawnpore („ 22nd)	1·4 (average)	Weather rainy and cloudy; crops suffering from want of rain are now reviving; more rain wanted; cholera continues unabated; prices nearly stationary.
Gorakhpur („ „)	Good rain throughout the district.	Crops promising; health fair; prices falling.
Jhánsi ...	1·3 (average)	Weather cloudy; more rain expected; rainfall at the end of the week was most opportune, especially for the crops in *kankar* lands; weeding of *juari* and cotton continues; fields are being prepared for *rabi* sowing for the last three days; no fresh cases of cholera have appeared in mauza Iskil, but it still continues in three villages in pargana Mau and in two villages in pargana Garotha; cattle-disease of a mild type is reported in pargana Jhánsi and Moth.
Agra (Aug. 22nd)	Rain in six parganas from 0·4 to 5·3.	Rain has done much good, but is still needed in one pargana, where none has fallen since 31st July; slight fever here and there, but general health good; prices stationary.
Farukhabad („ „)	Rain has fallen within the week.	Crops suffered from long break in the rains; more rain is required; health of people fairly good; prices steady.
Bareilly („ „)	.....	Weather seasonable; crops very good; cholera bad in Danla and neighbourhood, isolated cases elsewhere; fever on the increase.
Meerut („ „)	Good rain on the 20th —Meerut, 3·8; Hapur, 1·0; Bagpat, 0·7; Mowana, 2·9; Ghaziabad, 0·6; Sirdhana, 3·8.	Crops revived and prospects greatly improved; supplies sufficient; health good; prices recovered from the rise of last week.
Kumaun („ „)	Sufficient rain everywhere, very heavy on outer range.	Crops flourishing; cattle-disease and foot-disease still prevalent; 3 deaths from *mahamari*, otherwise health fair; prices stationary.
Lucknow („ „)	Mohanlalganj, 0·1; no rain in other two tahsils.	Rice crop is suffering from want of rain; sowing of *mash* going on; cholera continues; prices stationary.
Rae Bareli („ 21st)	.....	Break in the rains; *juari* and rice beginning to suffer for want of rain clouds gather and disperse after slight drizzling; cholera still continues; cattle-disease in some villages of tahsil Dalman; markets well supplied; prices rising.
Partabgarh („ 22nd)	Slight rain at Sadr and Patti.	Prices rising slightly; autumn rice has dried up in places; winter rice being planted out in Patti and Kunda; slight cattle-disease in Patti; general health fair; cholera still continues.
Sitapur („ „)	0·2; Misrikh, 0·3	More rain required; cholera very bad; slight cattle-disease in two tahsils; supplies sufficient.
Fyzabad („ „)	Sadr, 0·1; Akbarpur, 0·4; Bikapur, 0·3; Tanda, 1·2.	Prospects good; slight cholera; cattle-disease in part of district.
		General Remarks—Rain more or less heavy in most districts and prospects generally improved, a further fall would be beneficial everywhere, especially in Oudh, where rice is suffering; prices rising in Benares, Rae Bareli, and Partabgarh, elsewhere stationary; cholera still prevalent, except in the Meerut and Agra divisions, and is bad at Sitapur and part of Bareilly; cattle-disease continues in Oudh, Jhansi, Saharanpur, and Kumaun.
Punjab—(Aug. 23rd)		
Delhi ...	·30	More rain wanted; health fair; prices rising.
Hissar ...	Rain most urgently required.	Health good; prices rising.
Umballa ...	1·0	Crops suffering for want of rain; health fair; prices of food-grains stationary.
Jullundur ...	Rain much wanted	Health good; prices steady.
Amritsar ...	Rain wanted	Health good; prices stationary.
Sialkot ...	Rain wanted	Prices unaltered; health good.
Lahore ...	No rain	Health good; prices stationary.
Ferozepore ...	Rain is much needed	Health good; prices slightly falling.
Mooltan ...	No rain	Health good; prices stationary.
Rawalpindi ...	2·50	Crops good; cattle-disease in a few places; prices stationary.
Dera Ismail Khan ...	·20	Fever prevalent; prospects good; prices steady.
Peshawar ...	No rain	Health good; prices stationary.
		General Remarks.—Rain is wanted in the Delhi, Hissar, Umballa, Amritsar, and Ferozepore districts; with the exception of the Dera Ismail Khan district, in which fever prevails, the health of the province is good; prices of food-grains are rising in the Delhi and Hissar districts, and slightly falling in the Ferozepore district; prices in the other districts are stationary.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central Provinces—		
Nagpur (Aug. 23rd)	·9	Weather cloudy; rain wanted; fever prevalent; cholera reported; prices slightly risen.
Jubbulpore („ 22nd)	1·22	Weather cloudy; weeding continues; *kharif* improved by break; cholera reported; small-pox declining; wheat 19 seers per rupee.
Saugor („ 21st)	·18	Crops doing well; cholera abated; health good; prices steady.
Seoni („ 22nd)	2·48	Weather cloudy, with showers; weeding continues; cholera prevalent; small-pox reported; cattle-disease abating; prices stationary.
Khandwa („ „)	·33	Weather cloudy; prospects of crops good; cholera and small-pox reported; prices stationary.
Hoshangabad („ „)	1·94	Weeding continues; few cases of small-pox; *juari* 17 seers per rupee.
Raipur („ 19th)	2·36	Crops doing well; slight break; cholera and fever reported; prices rising.
Sambalpur („ 17th)	2·38	Prospects of crops good; fever prevalent; rice 56 seers per rupee.
		General Remarks.—Weather cloudy and warm, with slight rain in most districts; crops improved by break; prospects favourable; weeding operations steadily progressing; cholera still reported from most districts; isolated cases of small-pox and cattle-disease; prices steady.
British Burma— (Aug. 19th)		
Akyab ...	6·60	Total rainfall 162·69 inches; cholera in some parts of four townships, otherwise public health good; cattle-disease severe in one township, crops looking healthy.
Rangoon ...	4·55	Total rainfall 59·21 inches; 5 fatal cases of cholera, otherwise public health good; progress of crops favourable.
Bassein ...	4·88	Total rainfall 87·78 inches; public health good; cattle-disease severe in one township; ploughing and planting out far advanced.
Prome ...	2·58	Total rainfall 27·74 inches; 1 death from cholera in town, 28 in one township, and 25 in another; slight cattle-disease in one township; more rain required in two townships.
Amherst (Moulmein) ...	11·01	Total rainfall 152·93 inches; public health good, but in Moulmein and district cattle-disease in four townships; resowing in damaged places still going on; crops healthy, but reduced in area from want of cattle.
Toungoo ...	.....	Telegraph communications interrupted.
		General Remarks.—Cholera in Akyab, Tharrawady, Prome, and Henzada and a few cases elsewhere, public health otherwise good; cattle-disease severe in parts of Akyab and Bassein, and more or less prevalent in most other districts; rainfall generally plentiful, but still short in Prome and Thayetmyo.
Assam—		
Gauhati (Aug. 22nd)	·89	Weather seasonable; transplanting vigorously progressing; prospects of crops and public health fair.
Sylhet („ 23rd)	15·97	*Amun* crop in Nabiganj sub-division wants more rain; state and prospects of crops elsewhere good; public health good.
Cachar („ „)	3·53; weather rainy	Reaping of *dumahi* and *murali* crops commenced; transplanting of *sali* crops progressing; prospects of tea good; cattle-disease ceased; 1 case of cholera reported from Lakhimpur; common rice 24⅝ seers per rupee.
Dibrugarh ...	4·55	Weather seasonable; transplanting of *sali dhan*; *aus* nearly harvested; public health good; cattle-disease still reported.
Mysore and Coorg— (Aug. 23rd)		
Bangalore ...	·20	Standing crops in thriving condition; *kartik* paddy sown in a few places; prospects favourable.
Mysore ...	·49	Crops in good condition.
Mercara ...	2·0	Short break in the monsoon beneficial to all crops; prospects of season and public health good; prices of food-grains stationary.
		General Remarks.—Slight rain has fallen throughout the Mysore State; dry crops in some districts, especially in Kolar, suffering from want of more rain; wet crops generally in good condition; sowing operations in active progress, *kartik* paddy, *ragi*, horse-gram, *juar*, and *avare* being the principal; prospects fair; public health good; prices compare favourably, in Bangalore rice 10½, *ragi* 26½, and horse-gram 30¼ seers per rupee, in Kolar *ragi* 27 to 30 seers, in Mysore *ragi* 21 $\frac{3}{5}$ seers, in Chittaldrug *ragi* 30 to 50 seers per rupee.
Berar & Hyderabad— (Aug. 23rd)		
Amráoti ...	.....	Rain wanted; *kharif* and cotton crops in good condition; prices of wheat 16 and of *juari* 28 seers per rupee.
Akola ...	.....	*Kharif* crops progressing favourably; weeding continues.
Hyderabad (Aug. 24th)	1·94	Total rainfall from 1st January 15·85; *kharif* crops prospering in all taluks, excepting Pathur, where there has been no rain during the week; in three taluks there has been copious rainfall and tanks have been replenished; *abi* sowings continue, except in Pathur; cattle-disease in one taluk; prices—wheat 15¾, course rice 8¼, white *juari* 25¼, yellow *juari* 31, and *tur* 25½ seers per current sicca rupee.

Presidency or Province and District.	Rainfall for week preceding.	State of agricultural prospects.
Central India States— (Aug. 23rd)		
Indore ...	·15	Cholera in a sporadic form lingers in the Indore city; agricultural prospects continue favourable; prices steady.
Morar (Gwalior) ...	2·05	Health and prospects good.
Sutna ...	1·45	Cholera still at Sutna; prospects good.
Neemuch ...	·70	Health good; crops thriving.
Goona ...	1·89	Health good; prospects fair.
Bhopal (Sirohi) ...	·15	Weather fine; prospects good; some cholera at Bhopal and Karwai.
Agar ...	No rain	Health and prospects good.
Nowgong ...	No rain	*Kharif* crops good; health fair; prices stationary; cholera still prevalent.
